Defense Dept. Tests Silent Rocket Pistol

MAN ABOUT TOWN—LBJ ordered an investigation of U.S. companies doing biz with Castro via hundreds of counterfeit Panamanian setups . . . CIA and Defense Dept. sleuths have proof that Red China Mao had a coronary in August . . . Mao was a female impersonator in Canton-Peking plays as a youth . . . Tunisia is sitting on the world's largest oil strike . . . CIA has "round-the-clock" U-2 flights in Sovietnam . . . Defense is testing an inexpensive silent lightweight rocket pistol there. It fires a .45 calibre bullet. No recoil . . . CIA informed Defense that Algerian boss Ben Bella will soon start a border war against King Hassan II in Morocco. The prize: Multi-million-dollar phosphate mines . . . NASA memo'd LBJ that the original seven astronauts will not go into space again because of age . . . Houston (Texas) big businessmen have started the kitty to lure the Democratic Nat'l Convention in '68. Eddie Cantor didn't die over the weekend. He died when his Ida died. He was a Good man. He was a Great Entertainer. His public and private life gave show business respectability.

BROADWAY BOOKIES ARE taking even-money wagers that LBJ will win by at least seven million . . . White House insiders expect that Sargent Shriver will "probably be the first" post-election casualty. Because Mr. Big is reportedly unhappy about the anti-poverty program. They are said to be having difficulty getting top people to accept jobs on it. Jack Conway, a leading union chief, respectfully refused a high deputy spot . . . Loud applause for Mr. and Mrs. Terence Medway of London. They belted a Nazi picket into a Los Angeles hospital. Not for picketing but for "his vile language" . . . "My Fair Lady" lyric-magician Alan Lerner's ex-ex-ex-wife (the one before the one before this one) gets an affectionate mention on the fly-leaf of Lerner's latest paperback version of that smash show. The dedication reads: "To Nancy, With Love."

"BURKE'S LAW," The TV show, is the latest to copycat the colyum's "Don't Invite" gimmick . . . Don't Invitem: Actress Paula Prentiss and director Otto Preminger. Otto is famous as a great producer, author, director and hollerer.

THE WARREN REPORT gives attention to the following: That a Dallas car salesman named Bogard (and other staffers) recalled giving a demonstration ride to a person who said his name was Lee Oswald . . . Probers decided not to accept their sworn testimony "because Mrs. Lee Oswald told them Lee could not have been at the car agency that afternoon and he could not drive a car." . . . The salesman testified the man they identified (from newspaper photos) was Oswald and that he drove the car from 60 to 70 mph on the freeway.

THIS REPORTER WONDERS why the probers accepted the word of Oswald's wife against the several car salesmen. Considering how often they recalled her because of alleged discrepancies, etc. . . . Isn't it true, Mr. Chief Justice, that a filmed interview with Mr. Bogard (and other salesmen, one of whom was allegedly fired for tipping Feds) has not been made public? Because some lawmen allegedly requested the network not to use it? . . . Why is that? . . . Isn't it also a fact that Mr. Bogard and a staffer at that car agency offered to submit to a lie-detector polygraph test? . . . And that it was refused because "such a test is not admissible in court?" . . . How does the Warren Report explain the following clash of testimony? . . . Mrs. Lee Oswald told them her husband could not drive; The salesman said Oswald drove fast and Mrs. Paine (Mrs. Oswald's companion) told the probers she had been giving Oswald lessons in driving and that "he was showing some improvement" by November???

SUBJECT: ASSASSINATION OF THE PRESIDENT
CHARGES BY CHIEF JESSE CURRY
DALLAS POLICE DEPARTMENT

In connection with our efforts to have Chief Curry retract his claim in a May 28, 1964, letter to Chief Justice Warren that the FBI requested a "cover up" of Oswald's presence in Dallas, I had SAC Shanklin call on Chief Curry October 9th, following approval of the Director that this be done.

Chief Curry told SAC Shanklin, he cannot retract the statement or the letter because the Dallas City Manager Elgin E. Crull forbade him or any member of the Dallas City Police to talk about this case. Crull has promised the Dallas City Council that no one in the city administration will talk to news people.

After learning the above from Shanklin, I told him to take the matter up with Crull. SAC Shanklin did so. Crull told Shanklin it is not possible to authorize Chief Curry to call in reporters and make a statement. The agreement with the city council precludes it.

Both Curry and Crull admitted to Shanklin that he never asked for any "cover up."

Mr. Crull told Shanklin, however, that if Shanklin will write a letter to Curry to the effect he understands Curry made a statement in a letter to Warren alleging Shanklin requested a "cover up" and asking whether Curry did so, Mr. Crull will instruct Curry to answer the letter.

In other words, said Crull, he will instruct Curry to write Shanklin stating that neither the FBI nor Shanklin ever asked him to "cover up" regarding Lee Harvey Oswald. Mr. Shanklin says he is quite confident that we will be able to practically dictate the letter which Crull will instruct Curry to sign.

DeLoach to Mohr Memorandum
Re: Assassination of the President

OBSERVATION:

I believe this arrangement in writing will have the desired effect of putting in the record a retraction by Curry which can be used by us as an answer to any charge alleging a "cover up" request to Chief Curry. The matter has, to a considerable extent, died down. We have received no further inquiry concerning this matter here at Headquarters. It died down. We are receiving [illegible]

ADDENDUM CDD: [illegible] letters daily enclosing Curry's allegation against FBI. K

This, of course, means that no statement to the press will be given by Curry. Nevertheless, the record will be straightened out and the FBI at any time in the future can indicate to the press that Chief Curry has admitted his wrongdoing. We will then be in a position to send a letter for the record to Lee Rankin telling him that Curry has once again admitted fault.

ACTION:

I told Shanklin to go ahead and prepare a letter under his signature which can be read to us first thing Monday morning. The proposed letter will be sent through for the Director's approval prior to Shanklin delivering it to Curry.

I don't like the way this is being handled at all. Either Shanklin did what Curry says he asked or Curry is a liar. I don't know how this can be cured unless Curry tells us he should not have done so unequivocably. K

Hubert formerly served as Assistant Counsel for the President's Commission. He resently forwarded to Assistant Attorney General Miller data he had received from an associate which intimated there was a connection between Oswald and Ruby and that Oswald, Ruby and two Cubans at one time were together in New Orleans. We previously received the identical allegation and thoroughly resolved it. The allegation had no substance in fact. Desirable we contact Mr. Hubert and inform him of this fact since he possesses originals of these data and probably expects to be contacted by the FBI in this matter.

The 10/24/64, issue of the "Amusement Business" magazine, published by Billboard Publishing Company, 2160 Patterson Street, Cincinnati, Ohio, contained an article entitled, "OSWALD MUSEUM". The article reads as follows:

"L. H. (Buddy) Hough, a fuel and gas businessman in St. Augustine, Florida, is assembling items for a Lee Harvey Oswald commercial museum. He already has the ambulance that carried the fatally wounded Oswald from the Dallas jail to Parkland Hospital, the handcuffs worn by Oswald when he was shot down by Jack Ruby, a library card used by Oswald in New Orleans, and he is negotiating for the furniture used in Oswald's room in Dallas and the car in which Oswald rode to work the morning of his assassination of President Kennedy".

This is submitted to the Bureau and Dallas for their information, no further action is being taken by the Cincinnati Division.

Norman Similas, a Canadian citizen and photographer, took several pictures during the assassination and claimed to have taken a picture showing a rifle with two individuals close by. His comments were incorporated in an article which was published in the now defunct Canadian magazine "Liberty." Investigation strongly indicates Similas concocted this story in order to make money and to have his views published. LEE HARVEY OSWALD

Mr. Ray Jefferies, News Photo Editor for the Chicago Bureau, Associated Press, Chicago, Illinois, temporarily on the Staff of Associated Press covering the Games of the XVIII Olympiad, was interviewed at Tokyo, Japan, on ~~November 20,~~ OCTOBER 1964, by a representative of another United States Government agency having security and investigative responsibilities abroad.

Explaining basis for his original contact with NORMAN Similas, Jefferies advised that the Canadian Press had informed the Associated Press (AP) Bureau in New York City soon after the shooting of President John F. Kennedy in Dallas on November 22, 1963, that a Canadian subject named Norman M. Similas, who happened to be in Dallas on that day covering a convention, had planned to take photographs of President Kennedy's visit to the city. It was thought that Similas might have taken some photographs of the shooting. The New York AP office had ascertained that Similas was to return to Canada by air via Chicago and notified the AP staff in the Chicago Bureau to be on the lookout for him. A check of the airlines showed that Similas was not booked on any flights to Chicago. Mr. Jefferies said he then concluded that Similas was traveling by bus and, accordingly, he left word at the Greyhound bus station, which is not far from the AP offices in Chicago, to have Similas paged when the bus from Dallas arrived. Jefferies said that it was about 6:30 P.M. on, he believed, November 23, 1963, when Similas telephoned the AP offices, told Jefferies that he had just arrived at the bus terminal and asked, "Did you want to see me?" Mr. Jefferies advised Similas that he would like to see any photos Similas had taken of the shooting, telling him that he would be paid for any that were found to be of interest. Similas agreed to come up to the AP offices but he would not agree to turn his film over to AP until after Jefferies had telephoned Mr. Al Resch, Executive News Photo Editor in the New York AP offices, who confirmed to Similas that the AP would pay for any photos of news interest that he might have taken. Similas produced "12 or 13 rolls" of size 120 film taken with what Mr. Jefferies thought was a Rolleiflex or similar type of camera.

ENCLOSURE

Mr. Jefferies had the films developed without delay and, after examining the negatives carefully, told Similas that they showed nothing that the AP did not already have. Mr. Similas was anxious to leave for the airport to catch his plane which was due to depart for Toronto at about 8:30 P.M. Mr. Jefferies told him that the negatives, all of which were still wet, would be sent to his home address to which Similas agreed, leaving all the negatives with Jefferies. Similas gave an address which Mr. Jefferies believes was in a suburb of Toronto. Jefferies said that an associate of his in the AP office, Mr. Waldo Butler, packed all the negatives and delivered them to the air express office later that same night (November 23) for delivery in Toronto on the following morning (November 24). A message was sent to Similas informing him what plane was bringing the package but Jefferies was unable now to recall the plane or the arrival time. He was positive, however, that the package could not have reached Similas before November 24.

Further describing the film turned over to him by Similas and the pictures contained on the film after it was developed, Jefferies advised that Similas had told him definitely that these "12 or 13 rolls" were all the film he had and Jefferies had all this film developed and personally examined every negative. He explained that he did not have any prints or enlargements made since, by virtue of his thirty years experience, he could "read negatives as well as prints."

As to the pictures themselves, Jefferies advised that many were of individuals and groups of people in a large hall and unrelated to the assassination scene. Several rolls had been only partially exposed containing only four or five pictures out of the 12 exposures possible on each roll. Some pictures showed the crowds of people lining the streets along which the President was to pass.

Two of the pictures showed portions of what Jefferies recognized as the President's car. However, one of these pictures revealed only the front end of the car and the other only the rear end, neither including any of the occupants of the vehicle. Jefferies added that "there was a lot of movement in the pictures as if he (Similas) was being pushed around in the crowd."

Jefferies stated that he had been unable to identify any building in these pictures although there were some blurred views of buildings in the background of scenes showing people along the street.

Jefferies repeated that he found nothing at all of news value in the pictures. Certainly, he said, a good picture of the Texas School Book Depository Building would have had potential news value. There was no recognizable picture of the Book Depository Building. Since background was not in focus, no specific floors of any of the buildings in these negatives could be distinguished and much less, Jefferies stated, was there any hope of distinguishing specific windows on the floors or figures or forms within the windows.

At no time during his stop in Chicago did Similas indicate to Jefferies that he had any significant "shot" of the Book Depository Building nor did he refer at any time to having seen or photographed figures in a window of that building. Jefferies emphatically stated that there would have been no remote possibility of discerning human forms in any of the windows of any building appearing in the background of the street scenes photographed by Similas.

Mr. Jefferies said he felt somewhat skeptical as to whether the pictures had been taken by Similas after the Presidential car passed the Book Depository as there was no background that would assist in fixing the location. Jefferies said that, while it was evident from the pictures that Similas had been at the scene when the Presidential car passed, it appeared that the pictures might have been taken from a location earlier on the route than the Book Depository Building.

Mr. Jefferies said his skepticism of Similas began when Similas displayed reluctance to describe what he had personally witnessed on the morning of the assassination. He said he had to "drag" answers to every question out of Similas. Similas did not claim to have heard any of the shots and, in fact, claimed only two things: first, that the Presidential car "passed in front of me;" and second, that he had seen people in the car "bending over as if they were folding up." At this point Jefferies said he asked Similas why he had not taken pictures of this dramatic scene. Similas answered with some hesitation that he thought he had made pictures but that everything had been so confusing that he was not sure.

Jefferies said his impression after this response by Similas was that Similas probably had not witnessed the assassination at all.

When asked for his reaction to the possibility that there had been negatives of significance which Similas had turned over to a newspaper reporter in Toronto and which had subsequently become lost, Jefferies stated, "They probably cooked up the story to make a fast buck."

The undersigned interviewed Mr. Ray Jeffries, a member of the Associated Press photographic staff, covering the Games of the XVIII Olympiad in Tokyo, on 20 October 1964. The interview took place in the Associated Press photo work shop in the National Stadium in Tokyo. The purpose of the interview was to ascertain from Mr. Jeffries whether certain films he had occasion to develop and examine a short time after the assassination of President Kennedy in Dallas, Texas, did in fact tend to support statements made in a Canadian magazine article that a photograph allegedly taken at the scene of the shooting showed two figures in the window of the Texas School Book Depository Building from which the fatal bullets were fired.

Arrangements for the interview were made by the Office of the Legal Attache of the American Embassy in Tokyo. I introduced myself as an employee of the Army engaged in confidential work in Japan and stated the purpose of my visit. I told Mr. Jeffries that a request from the Federal Bureau of Investigation had been sent through military channels for someone to contact him in Tokyo in connection with some photo films of the Dallas shooting that he was reported to have examined in Chicago. Mr. Jeffries was somewhat pressed for time as he had made an appointment with an American physician for examination and treatment of neuralgic pains. The appointment was for 1530 hours at the doctor's office in Shiba, near the Tokyo Tower, and it was then

nearly 1500 hours. Mr. Jeffries is a middle-aged man in seemingly robust health, and displayed a good memory, a discerning mind, and a ready willingness to answer all questions put to him. He had a certain cocky, "paddy Irish" air about him. Information elicited from him is as follows:

The Canadian Press informed the Associated Press Bureau in New York City soon after the shooting of President Kennedy in Dallas on 22 November 1963 that a Canadian subject named Norman M. Similas was in Dallas on that day covering a convention, and while there he had planned to take photographs of President Kennedy's visit to the city. It was thought that he might have taken some photographs of the shooting.

The New York AP office ascertained that Similas was to return to Canada by air via Chicago, and notified the AP staff in the Chicago Bureau to be on the lookout for him. A check of the airlines showed that Similas was not booked on any flights to Chicago. Mr. Jeffries said he then concluded that Similas was traveling by bus and, accordingly, he left word at the Greyhound bus station, which is not far from the AP offices in Chicago, to have Similas paged when the bus from Dallas arrived. He said he could not recall whether it was the day after the shooting or two days after when Similas telephoned Mr. Jeffries at the AP offices that he had just arrived at the bus terminal and asked, "Did you want to see me?" After a brief conversation, he proceeded to the AP offices. Mr. Jeffries, who is assigned to the news photo staff of the AP bureau in Chicago, asked to see what photos Similas had taken of the shooting, telling him that he would be paid for any that were found to be of interest. In fact, Mr. Jeffries had to telephone Mr. Al Resch,

SUBJECT: Photographs Taken at Scene of Assassination of President Kennedy

Executive News Photo Editor in the New York AP offices, to convince Sin ilas that the AP would pay for any photos of news interest that he may have taken. Sim ilas produced "12 or 13 rolls" of size 120 film, taken with what Mr. Jeffries thought was a Rolleiflex or similar type of can era.

Mr. Jeffries developed the film s without delay and, after exam - ining the negatives carefully, told Sin ilas that they showed nothing that the AP did not already have. Mr. Sim ilas was anxious to leave for the airport to catch his plane, which was due to depart for Toronto shortly. Mr. Jeffries told hin that the negatives, which were still wet, would be sent to his hom e address. Sim ilas gave an address which Mr. Jeffries believes was in a suburb of Toronto. Some of the rolls had been only partially exposed," maybe four or five pictures out of the 12 exposures in each roll."

According to Mr. Jeffries, som e of the negatives showed a gathering of people in a large hall, sm aller groups of people, and som e individual shots, also views of the crowds lining the streets along which the President was to pass.

"There were a couple of negatives which showed the President's car," Mr. Jeffries said, "but all you could see was the front end -- just the hood -- in one and the back end in the other. There wasn't enough of the car to show people in inside. That's all there was: the front end and the back end. There was a lot of m ovement in the pictures, like he (Sin ilas) was being pushed around in the crowd." He said also, he had been unable to identify "I don't recall seeing any building in these pictures -- just some blurred views of people in the crowd." identifiable in the background

When asked to explain how he knew this was the President's car, Mr. Jeffries said: "It m atched pictures we had of the President's car.

I don't know now what kind of car he was in, but these pictures were just like those we already had of the car." He said that in some pictures there was a building in the background, "but there were no faces in any window." He was emphatic on this point and repeated his statement several times. He said also that Similas "showed no interest in faces in a window" and that he at no time mentioned seeing faces in any window. Mr. Jeffries said he could not tell whether the building in the background was the Texas School Book Depository because the view was not clear, and the building's outlines were not discernible. He indicated also that for the same reasons, it was impossible to identify any specific floors in the building.

To the best of Mr. Jeffries' recollection, Similas displayed no particular reaction when told that the AP had no interest in his photographs, except for being anxious to catch the flight to Toronto. He left the negatives with Mr. Jeffries, and they were sent to him by express.

Mr. Jeffries said Similas was a "young fellow", but he could not recall "anything special" about him. "He came to the office with another man, but I don't know his name -- we weren't introduced. I drove Similas to the airport and had a drink with him. He was in the office about an hour."

In order to establish definitely the day on which he spoke with Similas, Mr. Jefferies was asked: "Can you recall exactly on what day Similas came to the AP office in Chicago?".

Mr. Jefferies hesitated a moment and then replied: "I think - in fact, I am almost sure - that it was the day after the assassination." He said the Greyhound bus from Dallas arrived in Chicago at about 6:30

p. m. and Similas had a reservation on the flight for Toronto leaving at "around 8:30 p. m."

He said that the negatives were packed and delivered to the air express office that same night (November 23) and would have arrived in Toronto on the following morning.

"We messaged Similas what plane was bringing them, but I can't remember the plane or the time."

He said that none of the negatives were dry enough for Similas to take with him when he left the AP office, and in answer to a question said that "I developed all the film he gave me," also that he made no prints.

"I ~~don't~~ don't have to have prints to tell if the picture is any good. I can read negatives just as well as prints." In this connection he said he had been withthe Associated Press for 30 years and his present position in the Chicago bureau is news photo editor. He serves as film editor for the AP's photo coverage of the Tokyo Olympics.

Mr. Jefferies said that Similas made no particular effort to convince him of the value of the photos except to say that the President's car "passed in front of me." However, there was no background that would assist in fixing the location, and Mr. Jefferies said "they may have been taken farther up," meaning before the Presidential convoy had reached the Book Depository Building.

When asked again whether he had developed all of the film that Similas had, Mr. Jefferies repeated his statement: "I developed all he gave me. He definitely said that's all the film he had, but I don't know if he gave me all he had. He might have had some more film in his pockets or in his camera."

(21 Oct 64)
SUBJECT: Photographs Taken at Scene of Assassination of President Kennedy

Mr. Jefferies expressed skepticism when told that Similas later turned his films over to a Toronto newspaper reporter to examine, but they were reportedly lost. Mr. Jefferies said, "I know newspapers just don't lose pictures, especially pictures of something big like this one. They probably cooked up the story to make a fast buck."

Mr. Jefferies expressed willingness to answer any other questions about the incident at any time, but added: "That's about all I remember." He repeated his earlier statement that he made no prints of the negatives "because they had nothing we were interested in." He notified the New York AP bureau accordingly.

The President's Commission has indicated the necessity for making public the FBI investigative reports which have been furnished to the Commission and which detailed our investigation of Oswald prior to the assassination. The Commission pointed out that these reports made a powerful case for the FBI in that they reveal nothing was uncovered during that investigation to indicate the capability of Oswald to assassinate the President.

These reports and letters are as follows:

(1) Report of Special Agent John W. Fain dated 5-12-60 at Dallas captioned "Funds Transmitted to Residents of Russia, IS - R." This report was classified "Confidential" as it disclosed the FBI's investigative interest in persons in the U. S. who transmitted funds to residents of Russia. Declassification of this report at this time would not seriously jeopardize the Bureau's interest and this report contains no information which would result in embarrassment to the Bureau if it is made public.

(2) Bureau letter to Office of Security, State Department, dated 6-3-60. This letter referred to a State Department Foreign Service Dispatch concerning Oswald's renunciation of his American citizenship at the U. S. Embassy, Moscow, and requested the State Department to furnish any current information State possessed concerning Oswald. There are no objections to publicizing information contained in this letter.

(3) Bureau letter to Office of Security, State Department, dated 2-27-61, captioned "Lee Harvey Oswald, IS - R." This letter advised State that information had been received from the Office of Naval Intelligence that Oswald had been given an undesirable discharge from the U. S. Marine Corps Reserve and requested any additional information contained in the files of State Department be furnished to the Bureau. There are no objections to publicizing information contained in this letter.

ENCLOSURE

(4) Report of Special Agent John W. Fain dated 7-3-61 at Dallas captioned "Lee Harvey Oswald, IS - R." This report was classified "Confidential" in order to protect our Legat operations as it contains information obtained from the Swiss Federal Police (concealed by T symbol) by Legat, Paris, and because it referred to information obtained from two Dallas confidential informants. This report was declassified at the time it was previously furnished to the Commission as disclosure of information in this report would not jeopardize Bureau operations or adversely affect Bureau's informant coverage. Page nine of this report contains information from Mrs. James E. Taylor, 4936 Collingwood Street, Fort Worth, Texas, a former neighbor of subject, to the effect that Mrs. Marguerite Oswald, subject's mother, was in poor health and extremely nervous and that she often quarreled very loudly with both subject and his brother, Robert. Although Mrs. Taylor at the time she furnished this information on 6-28-61 did not request her identity be concealed, she might object to this information being made public. This report contains no other information to prevent its being made public.

(5) Report of Special Agent John W. Fain dated 7-10-62 at Dallas captioned "Lee Harvey Oswald, IS - R." This report was classified "Confidential" as it contains information from Navy which is so classified. That information concerned Oswald's having been given an undesirable discharge. Since this information is now public knowledge, this report was declassified at the time it was previously made available to the Commission. This report contains results of our several reviews of State Department records as well as information obtained from other U. S. Government agencies' records and results of our first interview with Oswald. There would not appear to be any objections to this report being made public.

(6) Report of Special Agent John W. Fain dated 8-30-62 at Dallas captioned "Lee Harvey Oswald, IS - R." This report was classified "Confidential" as it contained results of our contact with two confidential informants familiar with Communist Party activities at Fort Worth concerning subject. This report was declassified at the time it was previously furnished to the Commission as disclosure of its contents would not adversely affect Bureau's informant coverage. This report contains results of our reinterview with subject and background data concerning Marina Oswald as obtained from Immigration and Naturalization Service records. There would be no objections to this report being made public.

(7) Report of Special Agent James P. Hosty, Jr., dated 9-10-63 at Dallas captioned "Lee Harvey Oswald, IS - R." This report revealed information that subject was a subscriber to "The Worker," an East Coast communist newspaper, and that on 4-21-63 subject was in contact with the Fair Play for Cuba Committee (FPCC) in New York.

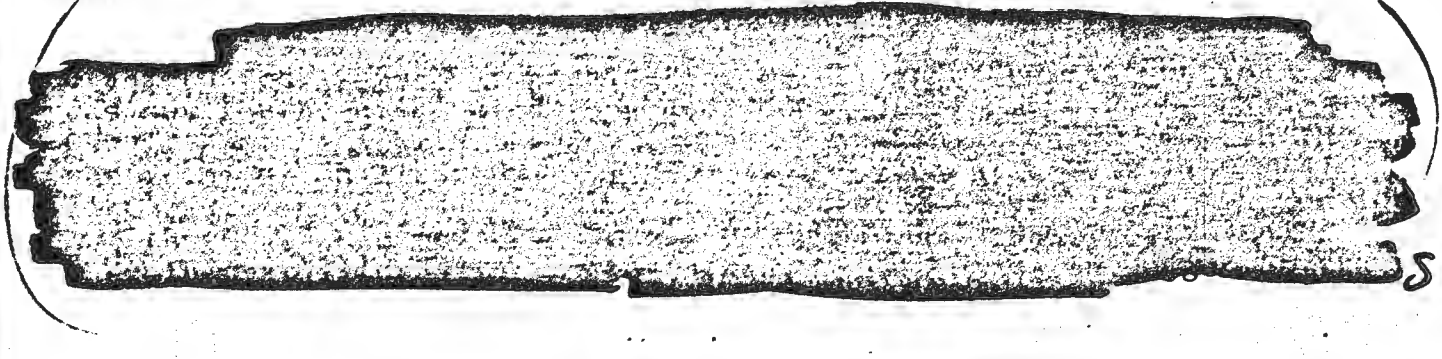
Although this latter information was obtained from an anonymous source, the information is paraphrased in such a manner that this source is protected. Attached to this report is a current Bureau approved documentation of the FPCC, the accuracy of which has been verified by the New York Office. There would be no objections to this report being made public.

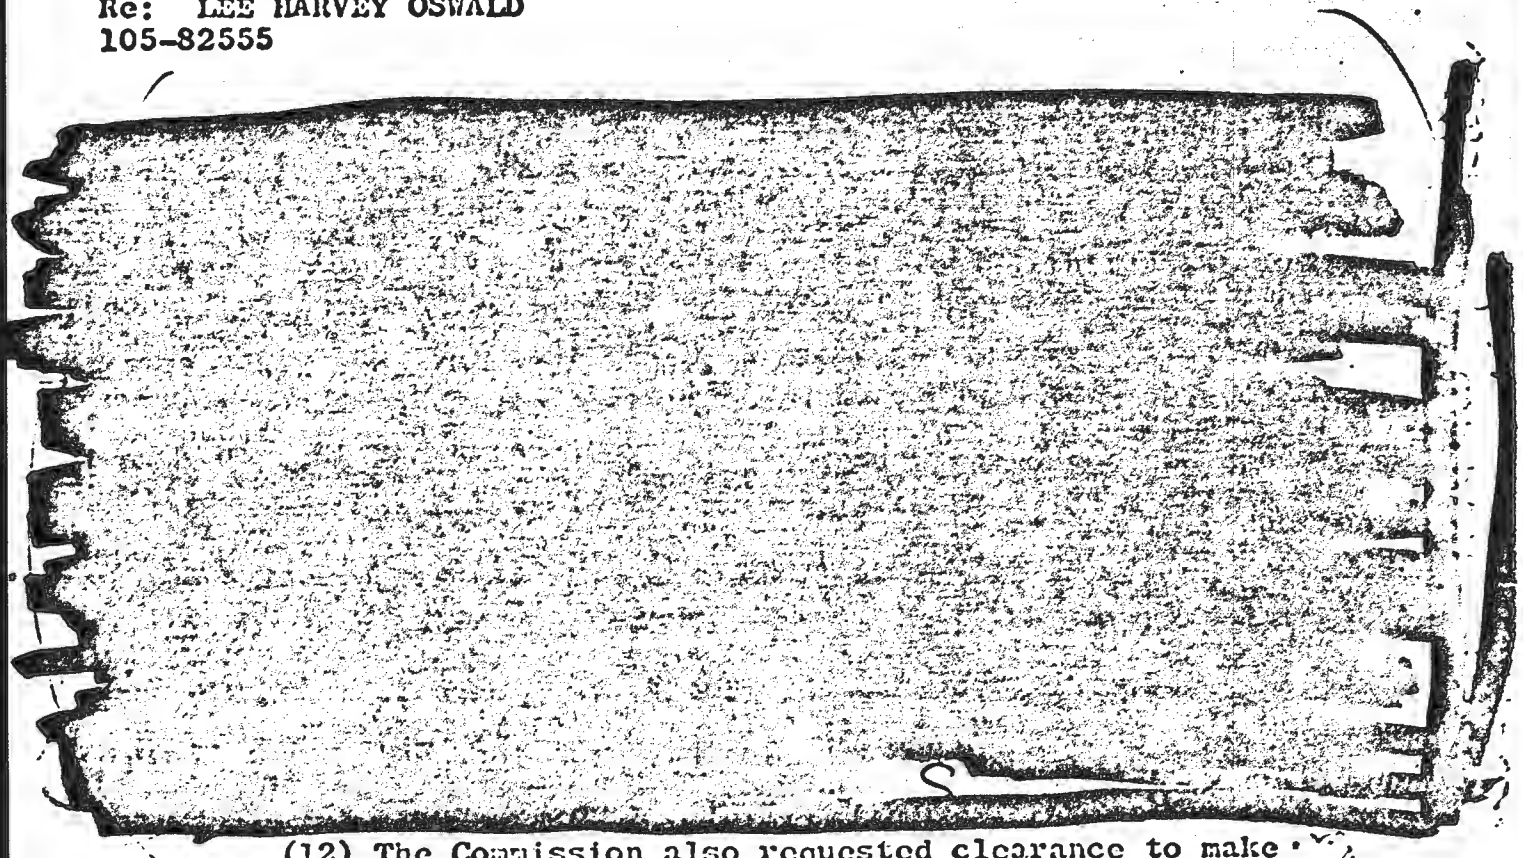
(8) Report of SA Warren C. De Brueys dated 10-25-63 at New Orleans captioned "Fair Play for Cuba Committee - New Orleans Division, IS - Cuba; RA - Cuba." This report contains a current documentation for the FPCC, Emergency Civil Liberties Committee, and for Corliss Lamont. New York has verified the accuracy of these documentations. No objections to making public.

(9) Report of SA Milton R. Kaack dated 10-31-63 at New Orleans captioned "Lee Harvey Oswald, IS - R." This report was classified "Confidential" as it contained security information from current informants. This report was declassified at the time it was previously furnished to the Commission, as disclosure of its contents would not adversely affect the Bureau's informant coverage. Page three of this report contained information from an anonymous source, however, public disclosure of this information would not jeopardize that source since this information could have come from a live informant. This report also contained current documentations for the FPCC, the Emergency Civil Liberties Committee, and for Corliss Lamont, all three of which New York has verified as to their accuracy.

(10) The Commission referred to the report of SA James R. Hosty, Jr., dated 12-11-63 at Dallas captioned "Ruth Hyde Paine" as containing additional investigation conducted by the Bureau concerning Oswald immediately prior to the assassination, consisting of interviews with Mrs. Paine. The Commission noted that this information is duplicated in the report of SA Warren C. De Brueys dated 12-2-63, Dallas. The Commission expressed the desire to make public Hosty's report of 12-11-63 rather than De Brueys' report of 12-2-63, in view of the tremendous volume of the latter report (737 pages) most of which consists of information developed subsequent to the assassination. Public disclosure of Hosty's report dated 12-11-63 could create some real problems for the Bureau. For example, page three contains information from Mrs. Paine's brother, Dr. Carl D. Hyde, to the effect that Ruth Paine was experiencing marital difficulties. Page four contains information from Dr. Hyde that all members of his family, including himself, were "tolerant of others' point of view" and explained by this he meant that, should a person make it known

that he is a communist and not engaged in subversion, they would not feel duty-bound to advise authorities of this person's views. Included in this report and covered by a T symbol was information furnished by the Columbus Regional Office, 109th Counterintelligence Corps, in December, 1952, that Mrs. Carol Hyde, Mrs. Paine's mother, had admitted to neighbors that she was a communist. No further clarification of that statement is contained in this report, however, during an SGE investigation of Sylvia Hoke, sister of Ruth Paine, in 1956 - 1957, no information was developed to verify that Mrs. Carol Hyde was a communist. Some persons interviewed reported that Mrs. Carol Hyde was suffering from a mental ailment. Reports concerning Sylvia Hoke have been furnished to the Commission. SA Hosty's report of 12-11-63 also includes a statement from a Mrs. Joan Barker, a neighbor of Mrs. Carol Hyde, that in 1960 Carol Hyde had been committed to a sanitarium as a mental patient by her ex-husband. We have not verified that Mrs. Hyde was, in fact, committed. Page nine of this report reveals that in 1953 we conducted a Conscientious Objector investigation concerning Carl D. Hyde. This report shows that he based his objections to military service on religious convictions and beliefs. Although this report does not reveal results of that Conscientious Objector investigation, the Bureau's file in that matter disclosed that persons interviewed expressed the belief that Carl D. Hyde's objections to military service were legitimate. The reports prepared during that investigation have been furnished to the Commission. This report also contains a documentation of the Women's International League for Peace and Freedom. That documentation disclosed that on 5-8-40 information was received that this organization was suspected of being a communist front organization. The most recent information contained in that documentation is dated 5-16-57 from another informant to the effect that, while the Communist Party in Cincinnati had expressed an interest in this organization, that interest did not exist at that time and that the Communist Party was making no attempts to infiltrate or control that organization.





(12) The Commission also requested clearance to make available to the public the following reports and Bureau communications:

(a) Reports of SA John R. Winceberg dated 12-10-63 and 2-12-64 at Philadelphia, Pennsylvania. These reports set forth results of our interviews with Joseph Goulden, reporter "Philadelphia Inquirer" newspaper concerning a story Goulden reported in his newspaper inferring that FBI had approached Oswald to be informant. Goulden refused to disclose his source for such scurrilous allegation and denied that he had furnished any information along such line to Lonnie Hudkins, reporter for the Houston "Post" who also reported in his newspaper a story indicating FBI had contacted Oswald to become informant. There is no objection making either of these reports public.

(b) This is a letter to the Commission from the Bureau dated 2-11-64 setting forth results of interview with Lonnie Hudkins concerning an article Hudkins reported in the Houston "Post" 1-1-64 entitled "Oswald Rumored as Informant for U. S." Hudkins indicated his story was based on information he received from Assistant District Attorney

William Alexander in Dallas. He refused to name another source who allegedly indicated Oswald was on payroll of either FBI or Central Intelligence Agency. Hudkins stated that even if he were called to appear before the President's Commission, he would decline to furnish source of his information. Hudkins also claimed to have received information from Joe Golden, a reporter for the "Philadelphia Inquirer," to the effect that Golden indicated Oswald was a symbol number informant. There is no objection to having results of our interview with Hudkins put in the public record.

(c) This is a letter to the Commission from the Bureau dated 2-13-64 reporting that we had interviewed Joseph Goulden of the "Philadelphia Inquirer" and that Goulden denied furnishing any information to Hudkins to the effect that Oswald was an FBI informant. There is no objection to making this letter public.

RECOMMENDATIONS:

We are now approaching the very delicate and crucial stage in the Commission's analysis of the Oswald case. It goes without saying that we must weigh with extreme care every request now made of us by this Commission. This memorandum has been prepared because the Commission has indicated the necessity of making public the FBI investigative reports which have been furnished the Commission and which detailed our investigation of Oswald prior to the assassination.

It is definitely not in the Bureau's interest to have these investigative reports made public as they are raw material and not prepared for public examination. We will remember the flood of comment, speculation, etc., following the publication in the court records of some of our reports in the Judith Coplon case which likewise were not prepared for public consumption. These reports do tend to reveal some of our investigative techniques and will reveal information furnished to our Agents which, although not stated to be furnished in confidence, would probably not have been furnished if the person interviewed thought the information would be made public. Examples of this are statements regarding Mrs. Marguerite Oswald, the marital difficulties of Ruth Paine, Mrs. Paine's mother admitting she was a communist, Mrs. Carol Hyde suffering from a mental ailment, etc. The publication of the WFO airtel of 11-19-63, in light of the current Congressional interest in mail covers, could well result in criticism of the Post Office Department and the loss of Post Office Department cooperation in highly delicate investigative techniques.

I don't know anything about these matters.

SECRET

Despite the above, it is recommended that Mr. Belmont and Mr. Malley advise Mr. Rankin that as previously stated we have no desire to restrict the activities of the Commission in any way and the decision as to whether these documents are introduced in the record is the decision for the Commission to make. At the same time we will point out, as indicated above, the criticism that can arise some of which, of course, will be directed to the Commission and the Commission should be prepared to stand up to this. With reference to the WFO airtel of 11-19-63 we should frankly point out that this will cause real investigative problems and explore whether this cannot be handled in another way such as the introduction of the letter itself as furnished by the Soviet Embassy following the assassination.

By letter 9-30-64 the President's Commission requested FBI authority to declassify approximately 100 documents which we had furnished the Commission in connection with our investigation of the assassination and Lee Harvey Oswald. We have reviewed these documents and each document involved is being declassified when such action will not affect the national security. In certain instances, we are furnishing the Commission revised pages to a document, deleting classified material when such action will meet the Commission's requirements.

While publishing such unclassified documents will not adversely affect the national security, it might result in considerable adverse criticism. Our reports contain a great deal of information that can be classified as rumor and gossip and character-assassination type of information. Considerable information is from persons who are mentally disturbed. If the information in such reports is misused or made a matter of public knowledge, there is a strong possibility there will be complaints, both on the part of persons who gave the information and persons against whom allegations were made.

We have been concerned over this situation and when it appeared in January, 1964, that some of our reports in the Jack Ruby investigation might become available to the public, we wrote letters to Assistant Attorney General Herbert J. Miller of the Department, and Mr. Rankin of the President's Commission and pointed out that our reports in many instances contain information which may be in the nature of gossip and rumor and which has not been substantiated. We stated that such information represented the views of the persons interviewed and, accordingly, was reported as it was received by us. We pointed out to Mr. Miller and to Mr. Rankin that if this type of information should be misused or become a matter of public knowledge, it would reflect most unfavorably upon the Department of Justice and the President's Commission.

MEMORANDUM FOR MR. SULLIVAN
RE: LEE HARVEY OSWALD

Again, on 5-1-64 when the Commission indicated the necessity for making public FBI investigative reports which detailed our investigation of Oswald prior to the assassination, we prepared a memorandum, Branigan to Sullivan, dated 5-1-64 (attached) wherein we analyzed the reports and memoranda involved and stated that it is definitely not in the Bureau's interest to have these reports made public, as they are raw material and not prepared for public examination. We recalled the flood of comment, speculation and the like which followed the publication in the court records of some of our reports in the Judith Coplon case which, likewise, were not prepared for public consumption. We also pointed out that these reports tend to reveal some of our investigative techniques and will reveal information furnished to our Agents which, although not stated to be furnished in confidence, would probably not have been furnished if the person interviewed thought the information would be made public.

In our 5-1-64 memorandum it was recommended and approved that Mr. Belmont inform Mr. Rankin of the Commission that the FBI has no desire to restrict the activities of the Commission in any way and the decision as to whether these documents are introduced in the record, is the decision for the Commission to make. Further, that criticism can arise through publishing of our documents and such criticism will be directed to the Commission and the Commission should be prepared to stand up to this.

On 5-4-64 Mr. Belmont contacted Commission staff members Howard Willens and Samuel Stern and reiterated the Bureau's position that we have no desire to restrict the activities of the Commission in any way and the decision as to whether FBI documents are introduced into the record is a decision for the Commission to make. Mr. Belmont pointed out to Mr. Stern that at a previous meeting, Mr. Stern had raised questions on certain items which might reflect on innocent persons if the reports are made public in their entirety. Mr. Belmont specifically made reference to a report which dealt with Ruth Hyde Paine which contained a number of interviews relating to Mrs. Paine's marital difficulties and the like. Mr. Stern and Mr. Willens looked over this report and concluded that if the Commission publishes this report in its entirety, the Commission will be criticized for making public information concerning innocent persons. Therefore, in this instance they decided that they would introduce only certain pages of the report in question.

In view of the large number of documents which the Commission has now requested we declassify, it is felt desirable we again point out to the Commission the possibility that certain data in our reports might reflect on innocent people and that the responsibility for such action must be assumed by the Commission in the event our documents, containing such information, are made available to the public.

LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

By letter dated September 30, 1964, Mr. J. Lee Rankin, General Counsel, President's Commission on the Assassination of President Kennedy, requested authorization from this Bureau to declassify approximately 100 documents which we had furnished to the Commission in connection with our investigation of Lee Harvey Oswald and the assassination of the late President John F. Kennedy. Mr. Rankin stated that the Commission wishes to publish such documents at the earliest opportunity. In accordance with Mr. Rankin's request, we reviewed the documents in question and declassified a number of those documents where their continuance in a classified status is not required by the interests of the national defense. In addition, we revised certain pages in a number of the documents in order to place them in an unclassified status and at the same time meet the requirements of the President's Commission.

While the publishing of such unclassified documents by the President's Commission will not adversely affect the national security, it might result in considerable adverse criticism. Our reports contain a great deal of information which can be classified as rumor, gossip and character-assassination type of information. Considerable information is from persons who are mentally disturbed. If the information in such reports is misused or made a matter of public knowledge, there is a strong possibility there will be complaints, both on the part of persons who gave the information and persons against whom allegations were made.

I have been concerned over this situation and when it appeared in January, 1964, that some of our reports in the Jack Ruby investigation might become available to the public, I sent letters to Mr. Rankin and to Assistant Attorney General Herbert J. Miller, Jr., and pointed out that certain of our

reports contain information which may be in the nature of gossip and rumor and which has not been substantiated. I reported that such information represented the views of the persons interviewed and was reported as it was received by us. I informed Mr. Rankin and Mr. Miller that if this type of information should be misused or become a matter of public knowledge, it would reflect most unfavorably upon the Department of Justice and the President's Commission.

Again in May, 1964, when the President's Commission indicated a necessity for making public FBI investigative reports, Mr. A. H. Belmont of this Bureau discussed the matter of making public FBI investigative reports with Mr. Howard Willens and Mr. Samuel Stern, staff members of the Commission. Mr. Belmont pointed out to Mr. Stern at that time that at a previous meeting Mr. Stern had raised questions on certain items in our reports which might reflect on innocent persons if the reports are made public in their entirety. Both Mr. Stern and Mr. Willens at that time concluded that if the President's Commission publicized such reports in their entirety, the President's Commission will be criticized for making public information concerning innocent persons.

In view of the great number of documents which the President's Commission recently requested authority to declassify, I sent a letter to Mr. Rankin on October 23, 1964, again expressing my concern in such matters. I informed Mr. Rankin that I wanted to specifically call this matter to his attention and point out the responsibility which must be assumed by the Commission in the event those documents are made available to the public.

Enclosed for Los Angeles and Dallas is one copy each of two communications from Mr. Walter Winchell concerning a telephone conversation with one [redacted]. Also enclosed for Los Angeles are two copies each of excerpts from the following Dallas reports of SA Robert P. Gemberling captioned as above:

11/30/63	-	pages 362 - 365
12/23/63	-	pages 211 - 223
1/22/64	-	pages 72-80
10/8/64	-	pages 110 - 122

These excerpts relate to the allegation that Oswald test drove an automobile on 11/9/63.

No information identifiable with [redacted] McCull; Coe; The Hollywood Contact Club; or the West Coast Contact Club can be located in Bureau files. The article presumably written by Mr. Winchell which caused [redacted] to contact Mr. Winchell could not be located or further identified.

Los Angeles should become conversant with the enclosed material as well as information contained on pages 320 and 321 of the President's Commission report a copy of which has been previously furnished to you. [redacted] should be located and thoroughly interviewed concerning the allegations he made to Mr. Winchell. Full background data on McCull and Coe should be obtained so that appropriate interviews with these men can be conducted.

When the complete identity of McCull is ascertained, Dallas is instructed to determine if such an individual was employed by the Downtown Lincoln-Mercury Dealership particularly on 11/9/63.

This matter must receive immediate and preferred attention. The Bureau should be furnished a teletype summary of developments and the complete results of investigation should be incorporated in appropriate inserts, twenty-five copies for Dallas, and a copy for Bureau information, for subsequent reporting by Dallas.

NOTE:

This is on the Director's Special List.

Briefly Albert Guy Bogard, a salesman for the Downtown Lincoln-Mercury Dealership in Dallas, advised that he gave a demonstration ride to Oswald on 11/9/63 at which time Oswald drove at speeds in excess of seventy-five miles an hour. Considerable investigation of this allegation has been made and due to the nature of the allegation, no positive information to substantiate or disprove the allegation could be obtained. However it appears that Bogard is either mistaken or has lied. The Commission drew substantiately the same conclusion in its report. Mr. Winchell obtained information from a contact of his in California who made references to this situation. According to Winchell one of two individuals actually witnessed the demonstration drive and the other individual was at the Texas School Book Depository on 11/22/63. Mr. Winchell's source claims these individuals arrived in California with an unusually large amount of money and the implication is that they may have had something to do with the assassination. When this matter is checked out the Director will be advised and the matter will be subsequently reported by Dallas and disseminated to the President's Commission or its duly delegated authority.

In connection with item number one mentioned herein, this is a copy of a letter we wrote to the State Department with copies to CIA and Secret Service relating to a hoax situation in our investigation of Oswald. This item concerned an allegation that one Pedro Charles possessed data regarding Oswald and the assassination. This letter was unclassified when sent to State Department. (serial 105-82555-479).

Item two concerned a letterhead memorandum prepared by the Washington Field Office, June 12, 1964, setting forth results of a survey of passports issued by the State Department in New Orleans between 6/17/63 and 7/1/63. It has never been classified. (serial 105-82555-4141).

Item three concerns a letterhead memorandum prepared by Legat, Mexico, dated 3/31/64 which contained results of a check of immigration records. The source who made such data available is appropriately covered by a T-symbol and since the Commission has included in its summary report considerable data from Mexican records, this particular memorandum cannot now be downgraded unclassified. Mr. David Parson, Office of General Counsel, U. S. Information Agency, telephoned Mr. Malley today stating that he had been referred by Mr. Albert Goldberg of the President's Commission as well as Mr. Howard Willens of the Department of Justice who had been on loan working with the President's Commission.

Mr. Parson stated that in connection with the Abraham Zapruder film which Zapruder had sold to Time Life Publishing Company he desired assistance in trying to straighten out a matter in which the U. S. Information Agency was interested in. He commented that U. S. Information Agency desired to distribute certain photographs throughout foreign countries which had been made up from the Zapruder film. He advised he understood the pictures had been furnished to the White House by the President's Commission and the White House in turn had made his photographs available to a number of news sources. He wanted to know whether there were any restrictions placed on the use of this film by Time Life Publishing Company. Mr. Parson was asked why he didn't obtain the information he desired through the President's Commission. Mr. Parson stated he attempted to handle this through the President's Commission and that Mr. Goldberg had advised him that he looked in the Commission's file and had been unable to locate any information which would give clarification concerning this matter. He further advised that he had contacted Secret Service concerning this matter and had been unable to obtain any information which would show actually what the situation was. He desired to know whether the Bureau had anything in writing that U. S. Information Agency could make use of the film in connection with this matter.

NOV 16 1964 5185

Mr. Parson was told that the FBI had no control over the Zapruder film and that we were not in a position to be of assistance to him.

It was suggested that he contact the legal counsel for Time Life Publishing Company in order to obtain the clarification that he needed. Parson went on at great length in his conversation about desires to make use of these films and talking about the fact that if there were no restrictions there would be no reason for his agency to contact Time Life Publishing Company. Parson was told emphatically that the FBI was not in a position to be of assistance to him and it was again suggested that he should obtain his information through Time Life Publishing Company.

NOTE:

Relet is serial 4702 which was classified only because the enclosures thereto were "Confidential." SA Wood's report is serial 12 in 105-126101. It was classified "Confidential" to protect current security informants who reported information concerning Molina's association with the American GI Forum and interest in that organization by CP members. The Commission's report on the Molina incident pointed out how his reputation was endangered by statements made to the press by the Dallas Police Department concerning Molina shortly after the assassination. Dallas has reviewed this report and by 10/16 teletype advised that it could be declassified by deleting three short paragraphs on pages five and seven. The informant information deleted does not materially affect the report and the contents of the unclassified enclosure which has been reproduced by xerox should cover all aspects in which the Commission is interested to serve by way of backup material for their account of the Molina incident in the summary. We do not want to declassify our letterhead on the American GI Forum which dealt with CP efforts to infiltrate the Forum in Dallas in 1954 and 1955, because information concerning this was furnished by security informants who are currently active. Commission's summary did not deal with efforts of CP to infiltrate the Forum.

MOLINA stated that several altar boys from the Holy Trinity Catholic Church in Dallas had gone to the Vickery Park swimming pool and were refused entrance. It was decided that a committee from the GI Forum should contact the management of the swimming pool.

(WILLIAM J. LOWERY, Jr., 6/8/59)

On August 5, 1962, a meeting of the GI Forum was held at the Mexico City Restaurant, Dallas. Among those present was JOE MOLINA, District Chairman, District 9 of the American GI Forum.

(WILLIAM J. LOWERY, Jr., 8/29/62)

Two individuals in the Dallas area were, during the period of their affiliation with the American GI Forum, also members of the CP.

Both LEWIS and BUCKNER stated that they had had hundreds of requests for such papers. BUCKNER stated that "The Dallas Morning News" had a copy for their archives of the edition of 11/22/63 but under no conditions would they permit it to leave the archives of "The Dallas Morning News". Editor LEWIS of "The Dallas Times Herald" advised they could not permit the paper, which they had for their archives, to be removed from "The Dallas Times Herald" building.

IX. ALLEGATION BY T-32

On November 25, 1963, T-32 made contact with the United States Embassy at Mexico, D. F., and advised the following:

T-32 entered Mexico illegally from Guatemala on August 29, 1963, traveled to Mexico, D. F., and subsequently made contact with a Nicaraguan communist residing in Mexico City. From this contact a plan was developed for T-32 to travel to Cuba to study guerrilla warfare tactics. He had occasion to visit the Cuban Consulate in Mexico, D. F., several different times for the purpose of obtaining travel documentation for Cuba by furnishing false identification papers as a Mexican citizen.

He stated that on September 18, 1963, he went to the Cuban Consulate, and while sitting in the waiting room saw a group of approximately eight persons enter the Consulate and the office of Cuban Consul EUSEBIO AZCUE. A person unknown to him was sitting at AZCUE's desk. A short time later, while source was standing near the door to the men's room at the Cuban Consulate, he noticed three men conversing a few feet away from him. One of them was a tall, thin Negro with reddish hair; the second was a man whom T-32 had seen previously holding a Canadian passport in the waiting room of the Cuban Consulate; and the third person was LEE HARVEY OSWALD.

Source stated that a tall Cuban joined the above group momentarily and passed some United States currency to the Negro.

The following conversation between the Negro and OSWALD was overheard by source:

Negro (in English): I want to kill the man.

OSWALD: You're not man enough. I can do it.

5114

Negro (in Spanish): I can't go with you. I have a lot to do.

OSWALD: The people are waiting for me back there.

T-32 stated that the Negro then gave OSWALD $6,500 in United States currency of large denominations, saying: "This isn't much." Of this sum, $1,500 was for extra expenses. The Negro also gave OSWALD about 200 Mexican pesos.

In a later interview, source stated that the United States bank notes were in a small pack about one fourth of an inch thick, bound with a paper band, which the Negro broke before counting out $1,500 extra for expenses and $5,000 as "advance payment."

T-32 stated that Oswald had carried a green passport in his pocket, and he believed he saw OSWALD wearing a pistol in a shoulder holster, but he was not sure of this point. He stated that OSWALD had long shoes and a wrist watch with a yellow-metal band. According to source, OSWALD appeared to be completely at home at the Consulate and to know and to be known by Cuban Consulate personnel.

T-32 was arrested and interrogated by Mexican authorities on November 28, 1963, and a copy of the interrogation report by the Mexican authorities revealed the following:

At the outset source's story generally resembled that recorded above. He repeated to the Mexican authorities the details of the scene in which he saw the Negro, the Canadian and the American conversing together, the delivery of the money to the American by the Negro, and the conversation he overheard.

T-32 advised the interviewing Mexican officials that upon seeing the photograph of OSWALD in the newspapers following the assassination of President JOHN F. KENNEDY, he recognized OSWALD as the American he had seen at the Cuban Consulate.

An excerpt from source's statement to Mexican authorities, as translated from Spanish, is as follows:

".....spontaneously and after reconsidering he desires to state that the American to whom he referred in the body of his statement and whom he saw the 18th of September of this year in the Cuban Consulate had a certain resemblance, about sixty per cent, to LEE HARVEY OSWALD (assassin of the President of the United States). That after the assassination of President KENNEDY the witness took advantage of this fact in his favor to exploit it, furnishing versions such as those initially set forth, for the purpose of provoking an energetic reaction from the political point of view on the part of the United States of America against the government of FIDEL CASTRO RUZ and that he had no motive other than the profound hatred he feels for communism. That all his life the witness had dedicated himself to combating communism and he regrets at this moment not having accomplished his objective in the sense of causing a reaction on the part of the American Government against FIDEL CASTRO."

Because of the fact that subsequent to making the above-mentioned statement to Mexican authorities, source claimed that he had changed his statement because of fear, he was interviewed at considerable length on December 5 and 6, 1963, in Mexico, D. F.

After reiterating his story, T-32 was afforded a polygraph examination on December 6, 1963. During the course of the examination he was asked, "Is this the American you saw in the Cuban Consulate?" At the time he was shown photographs of OSWALD.

Each time he was asked this question, he definitely responded, "Yes," but it was noted that the polygraph indicated a "deception response" on these answers. These responses and those with respect to other questions led to the conclusion that T-32 was a fabricator. It was specifically pointed out to him that the polygraph indicated that he was not being

truthful in identifying photographs of OSWALD as being of a person he saw in the Cuban Consulate, and he was asked for his explanation thereof.

He replied that he had full faith in the polygraph and would not attempt to refute its results. He went on to say that the only explanation he could offer was that he had seen an American in the Cuban Consulate on September 18, 1963, who resembled OSWALD, and that upon seeing the photograph of OSWALD in the newspaper, he built up within himself, either consciously or subconsciously, a complete belief that the person he had seen in the Cuban Consulate was OSWALD.

X. MISCELLANEOUS INQUIRIES AND ALLEGATIONS RELATING TO OSWALD

(A) Allegation by SALVADOR DIAZ VERSON Concerning OSWALD and SILVIA DURAN

The White House at Washington, D. C., received a paper entitled "Possible Psychological Motivations in the Assassination of President KENNEDY" written by JOSE I. LASAGA, 2340 N. E. 7th Avenue, Apartment 4, Miami, Florida.

This speculative paper attempted to establish that the motivation of OSWALD in the assassination of President KENNEDY was FIDEL CASTRO or a CASTRO agent and that OSWALD was so motivated during his trip to Mexico between September 27 and October 2, 1963. The paper included the allegation that OSWALD had an extended interview with the Cuban Ambassador to Mexico, whom he met at a restaurant on the outskirts of Mexico, D. F., from where they departed together in the Cuban Ambassador's automobile for a private conversation.

LASAGA had advised the White House that he received the above report from ANGEL FERNANDEZ VARELA, an employee of the Voice of Cuba in Miami, Florida, who received the information from SALVADOR DIAZ VERSON, who reportedly was in

(6) No reference to DUDLEY M. HUGHES, JR., funeral home director.

(7) One reference to DUDLEY M. HUGHES Funeral Home, 400 East Jefferson Street, and that pertains to an FD-302 dated November 29, 1963, prepared by SA ROBERT C. LISH and reported on Page 82 of Dallas report of SA ROBERT P. GEMBERLING dated November 30, 1963. This FD-302 records a review of that funeral company's records pertaining to deceased Dallas Police Officer J.D. TIPPIT.

The 1964 Dallas City Directory indicates that C.F. WRIGHT, wife MARY, resides at Apartment # 1, 501 East Tenth Street, Dallas, Texas.

The address of 501 East Tenth Street is that of an older apartment building situated at the northeast corner of East Tenth Street and South Denver Street, Oak Cliff Section, Dallas, Texas. Apartment #1 at this address is located in the front and on the west side of this apartment structure and is the closest apartment at 501 East Tenth Street to the corner of East Tenth and South Denver Streets.

Dallas Police Officer J.D. TIPPIT was shot and killed alongside his police cruiser around 1:16 p.m., 11/22/63, approximately 100 feet east of the intersection of East Tenth Street and South Patton Street. Officer TIPPIT's patrol car was parked in the 400 block of East Tenth Street on the south side of the street headed east toward the 500 block of East Tenth.

A visual check of the area of the shooting of Officer TIPPIT and the address 501 East Tenth Street indicates Apartment #1, East Tenth Street, is approximately 200 feet to 225 feet from the scene of the shooting. There is now a clear unobstructed view of the murder scene from the front of 501 East Tenth Street, and there is no reason to believe that such a view would have been obstructed by any natural features as of 11/22/63.

In regard to the views of the Dallas Office as to the desirability of conducting interviews with the NASHs, WRIGHTs, ACQUILLA CLEMMONS and employees of the Dudley M. Hughes Funeral Home, the following is noted:

The President's Commission Report on the Assassination in its List of Witnesses, appearing on Pages 483-500, Appendix V, cites the names of 13 witnesses who presented testimony to the Commission, who are described in the report as "Witnesses in the vicinity of the TIPPIT crime scene".

In addition to these cited 13 witnesses, it is known that the Dallas Police Department conducted its own independent investigation at the scene and in the immediate area of TIPPIT's murder.

The Commission report on Page 171 states that the four cartridge cases found in the shrubbery on the corner of Tenth and Patton Streets by three of the eyewitnesses were fired from OSWALD's revolver according to the unequivocal testimony of witnesses.

It is felt that the Commission's report in its findings regarding the TIPPIT shooting is thorough, factual, and well-documented.

In regard to the interview of FRANK WRIGHT by the NASHs, as set forth verbatim in the 10/12/64 issue of "The Newleader", the Dallas Office has no reason to question WRIGHT's sincerity or truthfulness although the information he relates about seeing a man standing in front of the police car wearing a long coat, and getting into a little old gray coupe, possibly a 1950 or 1951 Plymouth, which had been parked behind TIPPIT's police car headed west and immediately driving away, has not been brought to the attention of this office previously by any interviewed witnesses who were at the crime scene and whose veracity has even been questioned.

It is very possible and probable that several residents in the area telephoned the Dallas Police Department to report the TIPPIT shooting as it is a known fact that several citizens even used TIPPIT's police car radio in order to summon help.

As to why WRIGHT has not been interviewed in the past, it is only reasonable to assume that the Dallas Police Department in handling its murder investigation undoubtedly felt that it had enough witnesses, who as good citizens had come forth and identified themselves, without canvassing the area looking for reluctant or shy witnesses.

Should it be deemed advisable at this late date to interview the WRIGHTs, it is not known what value their information would be other than to lend some credence to their observations and to the printed article of the NASHs. The possibility of ever identifying the person and/or car described by FRANK WRIGHT as being in the immediate area of the TIPPIT murder scene on November 22, 1964, seems extremely remote, if not impossible, due to the passage of time.

As to the "other witness" described by the NASHs as ACQUILLA CLEMMONS, there is no record of a previous contact of anyone by this name by FBI Agents during the course of this investigation. Such a person's name does not appear in the current Dallas City Directory. The NASHs even noted in their aforementioned article that "Her version of the slaying was rather vague, and she may have based her story on second-hand accounts of others at the scene".

In view of the above, it is not felt that an investigation at this time to identify and locate ACQUILLA CLEMMONS is warranted.

Accordingly, the Dallas Office is not recommending any investigation be conducted in connection with the contents and individuals mentioned in the NASH article, UACB.

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, N. E.
Washington, D. C.

Dear Mr. Rankin:

Reference is made to request from the office of Mr. W. David Slawson of the Commission's staff that we declassify a summary memorandum dated May 18, 1964, dealing primarily with the activities of Lee Harvey Oswald in Mexico.

It was suggested by Mr. Slawson's office that in the event declassification of the entire May 18, 1964, memorandum was not advisable, a redraft of the memorandum in question would fit the needs of the Commission providing the material in the redraft covered the pertinent points in the Commission's summary report.

In this connection there are enclosed two copies of a redraft of our May 18, 1964, summary memorandum. The enclosures are unclassified. The classified version of our May 18, 1964, memorandum, including the table of contents and index, is to be regarded as still bearing a "Secret" classification.

Sincerely yours,

ENCLOSURE

I. INTRODUCTION

That portion of the information recorded herein relating to inquiries in Mexico was furnished by confidential sources abroad who, subsequent to the assassination of President John F. Kennedy, were requested to conduct investigation designed to develop all aspects of the activity of Lee Harvey Oswald in Mexico.

II. TRAVEL TO MEXICO BY LEE HARVEY OSWALD (September 26-27, 1963)

(A) OSWALD's Application for United States Passport, June 24, 1963

United States State Department records disclose that on June 24, 1963, OSWALD applied for a United States passport at New Orleans, Louisiana, stating that he intended to depart from New Orleans during the period from October to December, 1963, for proposed travel as a tourist of three months' to a year's duration to England, France, Germany, Holland, Russia, Finland, Italy and Portugal. He was issued United States Passport No. DO 92526 at New Orleans on June 25, 1963.

This passport was valid for three years for travel to all countries except Albania, Cuba and those portions of China, Korea and Vietnam under communist control.

This passport was found among OSWALD's effects following his arrest at Dallas, Texas, on November 22, 1963.

(B) OSWALD's Mexican Tourist Visa

On November 23, 1963, T-1, a confidential source abroad, advised that the official records of the Mexican Government reflected that one LEE, HARVEY OSWALD had entered

Mexico on September 26, 1963, at Nuevo Laredo, Tamaulipas, and had departed Mexico at the same place on October 3, 1963.

On November 24, 1963, source made available a copy of the Mexican form FM-8 (tourist card) used for the entry of this person into Mexico. The FM-8 is reproduced on the following page.

The FM-8 bears No. 24085 and was issued on September 17, 1963, by the Mexican Consulate General in New Orleans, Louisiana. As noted above, it was issued in the name of LEE, HARVEY OSWALD. It would appear that the comma was placed on the card in error inasmuch as the signature appearing on the original and duplicate portions of the FM-8 is LEE H. OSWALD. OSWALD listed his profession as "photographer," stated that he was 23 years of age and married, and presented a birth certificate as proof of his citizenship. The FM-8 was valid for a single journey to Mexico for a period of fifteen days.

According to the rubber-stamp impression appearing on both the original and the duplicate copy of the FM-8, OSWALD was admitted at Nuevo Laredo on September 26, 1963, by Mexican Immigration Service employee HELIO TUEXI MAYDON. A rubber-stamp impression on the original of the FM-8 indicated that he departed Mexico at Nuevo Laredo on October 3, 1963, his departure having been handled by Mexican Immigration Service employee ALBERTO ARZAMENDI CHAPA.

By way of general information, T-1 has stated that Mexican tourist cards are issued in duplicate. The duplicate copy of the card is picked up at the time of entry into Mexico of the bearer of the card. The latter retains the original of the card until departure from Mexico, at which time the original is picked up at the port of departure. Both the original and the duplicate copies of the card are date-stamped at the port of entry and, in addition, the original is date-stamped at the port of departure.

Reproduced above is the original portion of the Mexican FM-8 with which LEE HARVEY OSWALD entered Mexico on September 26, 1963, and departed therefrom on October 3, 1963. Although he is known to have traveled by bus from Nuevo Laredo to Mexico City, his mode of travel is not recorded on the FM-8, which was retrieved and cancelled by ALBERTO ARZAMENDI CHAPA at the time of his departure. No space is provided on the card for recording means of travel upon departure, and no such information appears on the above card. The back of the FM-8 contains no information other than printed instructions and warnings to the traveler in Spanish, English and French.

On November 27, 1963, Father ANTONIO MORENO, Sacred Heart Catholic Church, 215 North 13th Street, Edinburg, Texas, advised in Edinburg, Texas, that Father RICHARD LAWRENCE PHILION, who formerly resided at this address, obtained a Mexican tourist card on about September 17, 1963, with which to enter Mexico. He added that Father RICHARD LAWRENCE PHILION is now assigned to the Santa Maria Magdalena Church in Tequixistlan, Oaxaca, Mexico, and that his mailing address is Apartado Postal No. 93, Salina Cruz, Oaxaca, Mexico.

T-2, a confidential source abroad, advised that Father PHILION stated at Salina Cruz, Oaxaca, Mexico, on December 13, 1963, that he had obtained his Mexican tourist card, form FM-5 No. 4373765, at the Mexican Consulate in New Orleans, Louisiana, on September 17, 1963.

Father PHILION examined various photographs of OSWALD, and he could not recall any person of OSWALD's description being present at the Mexican Consulate in New Orleans when he obtained his Mexican tourist card.

Father PHILION advised that it was his best recollection that he was in the Mexican Consulate in New Orleans at about 1:30 p.m. on September 17, 1963, and that he arrived shortly before the Mexican Consulate was scheduled to close. He recalled that his tourist card was the last one issued on the day of September 17, 1963, and that one man and a woman were present at the Mexican Consulate when he was securing his tourist card. He did not recall any individual resembling OSWALD while he was at the Mexican Consulate in New Orleans.

(C) Results of FBI Laboratory Examination of OSWALD's Tourist Card

Mexican tourist card, FM-3 No. 24085, issued on September 17, 1963, by the Mexican Consulate General in New Orleans, Louisiana, was forwarded to the FBI Laboratory, Washington, D. C., for examination, and on December 6, 1963, the FBI Laboratory concluded the following, after examination of the tourist card issued to OSWALD:

"It was concluded that handwritten OSWALD signatures on the two portions of the tourist card, FM-8 No. 24035, issued to OSWALD by the Mexican Consulate General at New Orleans, Louisiana, on September 17, 1963, were written by LEE HARVEY OSWALD.

"No latent fingerprint impressions of value were developed on OSWALD's Mexican tourist card."

(D) Closing of United States-Mexican Border

Immediately upon receipt of information of the assassination of President KENNEDY, the Mexican Government closed all border traffic between the United States and Mexico for the specific purpose of forestalling the escape of the assassin.

The Mexican border was reopened following the apprehension of OSWALD.

(E) Mexican Newspaper, "Excelsior," November 25, 1963, Issue re: OSWALD's Trip to Mexico

On November 25, 1963, Mexican newspaper "Excelsior" published at Mexico, D. F., Mexico (Federal District of Mexico which encompasses Mexico City), contained on page 1-A an article in the Spanish language, a translation of which is as follows:

"THE APPARENT ASSASSIN OF KENNEDY SOLICITED VISAS HERE (MEXICO, D. F., MEXICO) IN ORDER TO GO TO MOSCOW VIA HAVANA.

"LEE HARVEY OSWALD, alleged murderer of President KENNEDY and who was assassinated by JACK RUBINSTEIN, entered Mexico on September 26, last, with a tourist card which our Consul in New Orleans issued him on the seventeenth of the same month, with his birth certificate, which he presented, accrediting him as an American citizen.

"Excelsior has confirmed that on September 26, 1963, he crossed the border at Nuevo Laredo, Tamaulipas, and the following day arrived at this capital by vehicle highway.

"According to inquiries made, on the same September 27, OSWALD went to the Consul General of Cuba in Mexico in order to obtain a transit visa because he was thinking of traveling to Moscow via Havana.

"The Consul, EUSEBIO AZCUE, indicated to him that in order to issue him the visa which he was soliciting, he had to consult directly with his own government. The operation, therefore, would require from ten to twelve days.

"LEE HARVEY OSWALD, because of his irritable temperament, had an argument with Consul AZCUE and departed from his office giving a hard slam to the door as he left.

"The following day, or on the 28th of September, OSWALD interviewed the Consul General of the Soviet Union, accredited in Mexico, in order to solicit his corresponding visa for entry into the USSR.

"He supported his petition with the fact that his wife was a Soviet citizen; that he was a militant communist; and that he had lived for three years in Russia.

"OSWALD told the Consul of the Soviet Union in Mexico that they could easily verify his words by communicating telephonically with his wife, who could be found lodging in a hotel in New Orleans.

"Following the normal procedure carried out in these cases, the Soviet Consul indicated to him that he would first have to consult with his own government and that the lapse of time for obtaining an answer was from three to four months.

"The apparent murderer of President KENNEDY again became angry and repeated the scene which he had made the day before at the Cuban Embassy, arguing with the Soviet Consul, and departing highly disgusted from his office.

"OSWALD returned to Texas on the third day of October through the border at Nuevo Laredo, Tamaulipas.

"The inquiries which have been made to the present in Mexico apparently indicate that LEE HARVEY OSWALD had no interviews with highly placed officials at the Soviet Embassy or at the Cuban Embassy accredited to our government."

(F) Checks Made on Compania de Aviacion Passenger Manifests for September 26-27, 1963

T-3, a confidential source abroad, advised that on November 25, 1963, FERNANDO FARIAS, Assistant Sales Manager for Compania Mexicana de Aviacion (CMA), Balderas 36, Mexico, D. F., stated that he had caused a careful check to be made of all CMA passenger manifests for CMA flights between Nuevo Laredo, Tamaulipas, Mexico, and Mexico, D. F., and for all CMA flights between Monterrey, Nuevo Leon, Mexico, and Mexico, D. F., for September 26 and 27, 1963.

FERNANDO FARIAS stated that there were no passengers listed on these manifests using the name LEE HARVEY OSWALD or any name variation thereof.

(G) Check at OSWALD's Port of Entry into Mexico

On November 25, 1963, HELIO TUEXI MAYDON, Mexican Immigration Service employee, advised at Nuevo Laredo, Mexico, that OSWALD entered Mexico at Nuevo Laredo on September 26, 1963, using a fifteen-day tourist card issued September 17, 1963, by the Mexican Consulate General at New Orleans, Louisiana.

TUEXI MAYDON had no independent recollection of OSWALD but considered that OSWALD may have been in the company of a young American couple.

An exhaustive search was made of Mexican Immigration records at Nuevo Laredo, which disclosed that there was only one young American couple whose entry into Mexico may have coincided with that of OSWALD. This couple was named BILL and ELAINE ALLEN of Miami, Florida.

On November 27, 1963, TUEXI MAYDON advised that no information had been developed regarding the exact time or specific mode of travel of OSWALD at the time he entered Mexico. He stated that OSWALD's entry into Mexico on September 26, 1963, took place between 8:00 a.m. and 2:00 p.m. as he had handled OSWALD's entry and he worked this shift at the border port of entry at Nuevo Laredo. He added that OSWALD's departure from Mexico was at Nuevo Laredo, Mexico, on October 3, 1963, between 12:01 a.m. and 8:00 a.m. and that this shift was supervised by ALBERTO ARZAMENDI CHAPA, Mexican Immigration Service employee.

On November 27, 1963, MARIO DEL VALLE PLATA, Mexican Immigration Service employee, Nuevo Laredo, Mexico, advised that no Mexican Immigration Service employee who was on duty at Nuevo Laredo when OSWALD entered or departed from Mexico had any independent recollection of OSWALD by photograph or otherwise with regard to his entry or departure from Mexico.

(H) Check of Flecha Roja (Red Arrow) Baggage List for Passengers for September 26, 1963, Trip from Nuevo Laredo to Mexico, D. F.

The baggage list for passengers for September 26, 1963, of the Mexican bus line Flecha Roja (Red Arrow) for the bus which left Nuevo Laredo, Tamaulipas, Mexico, at 2:00 p.m. on this same date, reflects that there was a total of 18 pieces of baggage. The baggage list reflects the following:

1. PABLO VASQUEZ

2. Second piece of luggage attributed to PABLO VASQUEZ

3. S. MOROU

4. ALFREDO BRISENO

5. ROIG SORQUIS

6. T. GONZALEZ

7. ANDRES MORALES

8. Second piece of luggage attributed to ANDRES MORALES

9. Gpe. MARTINEZ (possibly GUADALUPE or Capt. MARTINEZ)

10. (FNU) BOWEN

11. HARRY J. MITCHELL

12. Second piece of luggage attributed to HARRY J. MITCHELL

13. Third piece of luggage attributed to HARRY J. MITCHELL

14. LEE H. OSWALD

15. (FNU) BOWEN (believed identical with JOHN H. BOWEN)

16. Second piece of luggage attributed to BOWEN

17. JOHN McFARLAND

18. Second piece of luggage attributed to JOHN McFARLAND

The driver of this bus was listed as ROBERTO MORALES.

The baggage list has the number "18" at the bottom, which, according to the Mexico City terminal manager of Flecha Roja, signifies that 18 pieces of luggage had been checked and ticketed on that bus.

T-4, a confidential source abroad advised on December 16, 1963, that ROBERTO MORALES, driver of the Flecha Roja bus No. 516 on September 26, 1963, could not recall the passengers on the trip of September 26, 1963, because so much time had elapsed; and since he makes two round trips between Nuevo Laredo and Mexico, D. F., each week, he could not recall any information regarding OSWALD or any other passengers who were on the bus.

JOHN H. BOWEN was identified from Mexican Immigration records as 60 years of age, born Houston, Texas, a United States citizen, residence Houston, Texas. Mexican tourist card was issued to him at Nuevo Laredo, Mexico, on September 26, 1963, upon presentation of his birth certificate.

HARRY J. MITCHELL was identified as 41 years of age, a United States citizen, a lawyer, residence Palmyra, Missouri. Mexican tourist card was issued to him at Nuevo Laredo on September 26, 1963.

ANNIE MARIE MITCHELL was identified as apparently being the wife of HARRY J. MITCHELL, above, 22 years of age, a United States citizen, residence same as husband, above.

Dr. JOHN BRYAN McFARLAND and his wife, Mrs. ANNA MERYLE REID McFARLAND, 10 Fulwood Park, Liverpool, England, were interviewed in England and advised they were on the Flecha Roja bus from Nuevo Laredo, Tamaulipas, Mexico, to Mexico, D. F., September 26-27, 1963. They stated that they observed the following during this trip:

> OSWALD was on this bus trip traveling alone and he sat next to an 80-year-old man, described as a United States citizen, who appeared to be 60 years of age and who resides in Cuernavaca, State of Morelos, Mexico, and in the State of Tennessee in the United States. This individual was identified further as a school teacher who taught in India and Arabia and currently was writing a book on the Lisbon, Portugal, earthquake of 1775.

During this trip, OSWALD spoke to two Australian girls in their mid-twenties who boarded this bus in Monterrey, State of Nuevo Leon, Mexico, and these two girls got off at Mexico, D. F., Mexico.

OSWALD left the bus alone at Mexico, D. F.

With regard to the first individual described by the McFARLANDs, JOHN HOWARD BOWEN, listed above with tourist card FM-5 No. 4329926, was considered possibly to be the elderly United States citizen who sat next to OSWALD, and he could be contacted in care of Calle Carranza No. 4-A, San Martin de Texmelucan, State of Puebla, Mexico. Extensive investigation to locate JOHN HOWARD BOWEN was made, and the results are set forth hereinafter.

With regard to the two Australian girls in their mid-twenties, these girls were considered identical with PATRICIA CLARE ROSHLEIGH WINSTON, 22 years of age, Australian citizen, native of Fiji Islands, bearer of Mexican tourist card FM-5 No. 4225935, issued August 24, 1963, by the Mexican Consulate in New York, New York, home address listed as 222 West 23rd Street, New York, New York, and PAMELA LILLIAN MUMFORD, 21 years of age, English citizen, born Fiji Islands, bearer of Mexican tourist card FM-5 No. 4225936, issued the same date and place as that of WINSTON. According to Mexican Immigration records, WINSTON and MUMFORD entered Mexico at Nuevo Laredo on September 25, 1963, one day before OSWALD entered Mexico.

PATRICIA WINSTON and PAMELA MUMFORD advised the following on December 17, 1963, when interviewed in the United States:

WINSTON and MUMFORD boarded a bus at Monterrey, State of Nuevo Leon, Mexico, on September 26, 1963, at 7:30 p.m., en route to Mexico, D. F. Both identified OSWALD as a passenger on this bus and both observed him sitting next to an Englishman who had lived in Mexico for thirty years. This latter individual was described as being in his late sixties, heavy build, gray hair - balding, with a distinctive English accent, and both believed him to be retired from business.

WINSTON and MUMFORD recalled that OSWALD introduced himself and exhibited to them his United States passport. OSWALD advised WINSTON and MUMFORD that he had lived in Russia for two years and that he had had a hard time getting out of Russia. OSWALD stated that he had been in Japan.

OSWALD made no comment concerning communism or Cuba. He did not state why he was traveling to Mexico, where he was going, and he did not advise concerning his occupation or future plans.

OSWALD stated that he was from Fort Worth or Dallas, Texas. He was observed to be traveling alone. He had only one piece of luggage and a small zipper bag. He wore a gold wedding ring.

OSWALD recommended that WINSTON and MUMFORD stay at the Hotel Cuba, Mexico, D. F., where he claimed that he had stayed several times before. He pointed out that this hotel was inexpensive but that he was not staying at the Hotel Cuba on this trip.

WINSTON and MUMFORD recalled an English couple aboard the bus. This couple is considered identical with Dr. JOHN BRYAN McFARLAND and his wife, Mrs. ANNA MERYLE REID McFARLAND, mentioned above.

JOHN HOWARD BOWEN, who has been known as Reverend ALBERT OSBORNE and has resided at Calle Emilio Carranza No. 4-A, San Martin de Texmelucan, State of Puebla, Mexico, and 4114 Drummond Street, Montreal, Canada, was determined to be the holder of Canadian Passport No. 5-305377. T-2 advised on January 7, 1964, that BOWEN, while posing as Reverend ALBERT OSBORNE, stated in Mexico that he was acquainted with Reverend JOHN HOWARD BOWEN and furnished misleading information concerning the alleged whereabouts of BOWEN.

On January 28, 1964, T-5, a confidential source who has furnished reliable information in the past, advised the records at the Mexican Ministry of Gobernacion (Ministry of the Interior) reflect that ALBERT OSBORNE was ordered deported from Mexico on April 5, 1958, through Laredo, Texas. OSBORNE had been charged with selling an automobile in the Oaxaca, Mexico, area without paying the import duties. These records reflect also that, in 1958, OSBORNE was known as JOHN HOWARD BOWEN and was located in Mexico and determined to be without proper Mexican immigration papers.

On January 30, 1964, T-6, a confidential source abroad, advised that inasmuch as ALBERT OSBORNE had been illegally in Mexico, he would be detained for deportation if located in Mexico.

BOWEN was interviewed at Florence, Alabama, on February 6, 1964, and advised that he recalled making a bus trip from Nuevo Laredo, Mexico, to Mexico, D. F., on September 26-27, 1963, and sitting next to a young man whom he described as 29 years of age, 5 feet 8 inches tall, 150 pounds in weight, with thin, blond hair and a dark complexion, who appeared to be of Mexican or Puerto Rican descent. This individual went to sleep soon after boarding the bus, and, after a lunch stop at Sabinas Hidalgo, Mexico, this person moved to the back of the bus where he reclined on a seat and went to sleep. BOWEN claimed that he did not talk to the above person and was unable to identify press photographs of OSWALD.

BOWEN stated that he is acquainted with an ALBERT OSBORNE, described as a Baptist preacher or missionary from Canada, and while in Oaxaca, Mexico, in 1958, BOWEN misplaced his identification papers and during a census taken at Oaxaca he borrowed OSBORNE's identification papers. BOWEN claimed that he had never before or afterward used the name of OSBORNE.

Interviewed further at Nashville, Tennessee, on March 3, 1964, OSBORNE admitted that he had used dual identities as OSBORNE and JOHN H. BOWEN for many years in Mexico and the United States. He continued to deny any knowledge of OSWALD, however.

(I) List Obtained of Entry of All Non-Mexican Citizens on September 26, 1963, at Nuevo Laredo, Tamaulipas, Mexico

T-1, who is thoroughly familiar with the workings of the Mexican Ministry of Gobernacion (Interior), furnished the following information concerning the procedures utilized by the Mexican Immigration Service in connection with the entry and departure of non-Mexican citizens into and out of Mexico. It is to be noted that the Mexican Immigration Service is a part of the Mexican Ministry of Gobernacion.

Tourists usually enter Mexico on a Mexican tourist card. There are two types of such cards, one being called the FM-3, which is valid for a stay in the country of only 15 days, and one designated as FM-5, which has validity for a 180 days' stay in Mexico. Both types are issued at Mexican Consulates throughout the world and can also be obtained from the Mexican Immigration Service at border ports of entry. FM-3 tourist cards also are available at airlines ticket offices and tourist agencies.

At the time of entry into Mexico, the traveler surrenders the duplicate portion of the tourist card, and both the duplicate and the original, which remains in the possession of the traveler, are stamped with a rubber stamp which shows the name of the Mexican representative handling the entry, the date of the entry and the locality of the port of entry. When the traveler leaves Mexico, he surrenders the original portion of the tourist card and it is stamped with a rubber stamp which carries the name of the Mexican representative, the date of the departure and the locality of the port of departure.

Each Mexican port of entry is required on a continuing basis to prepare a form called form FM-11. The FM-11 for both entries and departures is prepared each "quincena" (fifteen-day period). Entries and departures are set up on the FM-11 in chronological order and thereafter, within each date, the names of the tourists are listed in alphabetical order. Basic information appearing on the FM-11 is taken from the tourist card presented by the traveler. At the time the FM-11 is prepared, a number is placed on the tourist card, these

numbers being in sequence according to the alphabetical order of the names within each date and thereafter by date. By way of example, the first traveler in alphabetical order entering at a port of entry on the first day of the month or a "quincena" is assigned number 1. Thereafter, all travelers entering that port on that date are assigned numbers in sequence, according to alphabetical order. This sequence continues on the second day of the month and throughout the remaining 15 days of the "quincena."

T-1 made available for examination the forms FM-5 and FM-3 for all non-Mexican citizens entering Mexico at Nuevo Laredo as tourists on September 26, 1963, as well as the copies of forms FM-11 containing the recapitulation of the entries to Mexico at Nuevo Laredo on this date.

From the tourist cards (FM-5 and FM-3) and the copies of the forms FM-11, the following summary of information concerning each person who entered Mexico at Nuevo Laredo on September 26, 1963, has been obtained. The summaries have been divided into those persons traveling on form FM-5 and those traveling on form FM-3, since the forms FM-11 are so set up. The number appearing before each name is the number which appears on form FM-11. The following is a brief resume regarding each person who entered Mexico on September 26, 1963. Information was available regarding the mode of transportation on entry, a brief description of the person, the residence listed, proof of citizenship was shown and the Mexican Immigration Service employee who handled the entry, and this information was set out in detail in memorandum dated March 16, 1964.

(J) Persons Interviewed in Mexico Who Entered Mexico September 26, 1963, at Nuevo Laredo

T-7, a confidential source abroad, advised that SOLOMON BANDECK, residence 18352 Kelly Road, Detroit, Michigan, stated at Monterrey, Nuevo Leon, Mexico, on December 11, 1963, that he is a retired jeweler and he traveled from Monterrey to Nuevo Laredo on September 26, 1963, in his personally-owned automobile. He again entered Mexico at Nuevo Laredo on September 26, 1963, and returned to Monterrey.

He had no contact with OSWALD and he could not furnish any information concerning him.

T-8, a confidential source abroad, advised that ANDREW WEBSTER CHRISTOPHER, residence Lerdo de Tejada 320-A, Guadalajara, State of Jalisco, Mexico, stated on December 16, 1963, that he entered Mexico at Nuevo Laredo, on September 26, 1963, in his personally-owned automobile.

He was unable to identify photographs of OSWALD and stated he had not observed OSWALD in Nuevo Laredo at the time he entered Mexico.

T-9, a confidential source who has furnished reliable information in the past, advised on December 13, 1963, that CARLOS ALMAGUER ECHARTEA, residence Calle Lic. Jose

Mexia Bocanegra No. 1105, Colonia Industrial, Monterrey, Nuevo Laredo, Mexico, had stated that he and his wife entered Mexico at Nuevo Laredo on September 26, 1963, in their personally-owned automobile and that they had not seen or heard anything about OSWALD until November 22, 1963.

T-4 advised on December 18, 1963, that GUILLERMO HEVIA VILLAR, residence 317 West Johnson Street, San Antonio, Texas, and Mrs. MARIA OTERO PABLOS, residence 1101 Pecan Street, McAllen, Texas, who had entered Mexico by automobile on September 26, 1963, at Nuevo Laredo, had no pertinent information concerning OSWALD and they had not observed him.

T-8 advised that HARVEY TUTTLE, residence Calle 6 No. 208, Atemajac, State of Jalisco, Mexico, stated on January 4, 1964, that he entered Mexico at Nuevo Laredo by bus on or about September 26, 1963, which exact date he could not recall because he did not have in his immediate possession his tourist card.

He could not recall anyone resembling OSWALD at Nuevo Laredo or on the bus on which he traveled.

T-10, a confidential source abroad, advised that CHESTER STANLEY STEMP, residence 7223 Jarnecke Avenue, Hammond, Indiana; employed as a mathematics teacher, American High School, San Salvador, El Salvador, stated in San Salvador, El Salvador, on January 14, 1964, that he entered Mexico at Nuevo Laredo, on September 26, 1963, on the first bus which crossed the border on this date at about 6:00 a.m. He traveled to Laredo, Texas, by Greyhound bus from San Antonio, Texas, and boarded a Transportes del Norte bus in Nuevo Laredo, Mexico. He traveled from Nuevo Laredo to Monterrey, Nuevo Leon, by bus, arriving at the latter place at about noon on September 26, 1963. He took a train from Monterrey to San Luis Potosi, State of San Luis Potosi, Mexico, and Mexico, D. F., arriving at noon on September 28, 1963.

He could not identify a photograph of OSWALD and stated that he had not seen him.

(K) Interview of ROBERTO MORALES, Driver of Flecha Roja (Red Arrow) Bus No. 516 from Nuevo Laredo to Mexico City on trip for September 26 and 27, 1963.

T-11, a confidential source abroad, advised as follows:

On March 14, 1964, ROBERTO MORALES, driver of Flecha Roja bus No. 516 on September 26-27, 1963, from Nuevo Laredo to Mexico, D. F., Mexico, furnished the following information:

He could not recall specifically the trip which he made on September 26-27, 1963, from Nuevo Laredo to Mexico City, because he has made numerous trips and seen a large number of passengers since that time. He was shown the baggage list recording the names of some of the passengers on that trip and stated he is not acquainted with any of the names and does not know any of the persons listed. He was unable to identify photographs of OSWALD and of JOHN HOWARD BOWEN, true name ALBERT OSBORNE. MORALES stated that his codriver from Monterrey to Mexico City usually is ALFREDO GARCIA CERVANTES, who resides in Mexico City, address unknown to him.

On May 14, 1964, ALEJANDRO SAUCEDO, manager of the Mexico City terminal of "Servicios Unidos Autobuses Blancos Flecha Roja, S. A. de C. V." (The Unified Services of White Autobuses Red Arrow, Incorporated), Calle Heroes Ferrocarrileros 45, provided the following information with respect to the Flecha Roja baggage manifest mentioned above:

The baggage list reflects it was prepared for bus No. 516, which departed from Nuevo Laredo, Tamaulipas, at 2:00 p.m., September 26, 1963, driven by ROBERTO MORALES. The number "18" encircled at the bottom of the list indicates that 18 pieces of baggage were checked and baggage claim checks issued for storage and handling in the baggage compartment of the bus and revision by Mexican Customs.

SAUCEDO affirmed that the number of passengers departing on the bus from Nuevo Laredo is not specified on the baggage list and that only the persons who check and become responsible for one or more articles of baggage are listed thereon. He pointed out that unaccompanied baggage also may be sent in this manner and the presence of a name on the baggage list does not insure that the person actually traveled on the bus.

(L) Interview of ERNESTO HERNANDEZ, codriver of Flecha Roja (Red Arrow) Bus No. 516 from Nuevo Laredo to Mexico City on September 26 to 27, 1963

T-12, a confidential source abroad, advised on April 21, 1964, that ERNESTO HERNANDEZ, codriver of Flecha Roja (Red Arrow) bus No. 516 on September 26 to 27, 1963, from Nuevo Laredo to Mexico, D. F., Mexico, furnished the following:

He resides at Aldama No. 4, Tizayuca, Hidalgo, Mexico, and for the past nine years he has been employed as a bus driver for the Flecha Roja bus company.

He has no independent recollection of having been the codriver of bus No. 516 on September 26 to 27, 1963, but when his recollection was refreshed, he stated that for the first and only time he had been the codriver for ROBERTO MORALES on bus No. 516 on the trip from Nuevo Laredo to Mexico, D. F., on September 26 to 27, 1963. He normally does not work as a codriver with MORALES but did recall having substituted for MORALES' regular partner, ALFREDO GARCIA CERVANTES.

He was unable to identify the photographs of OSWALD and JOHN HOWARD BOWEN. He could not associate OSWALD with anyone he might have seen in the past. He had seen photographs of OSWALD in the newspapers following the assassination of President KENNEDY but he did not associate OSWALD with anyone he has seen.

He was shown the baggage list for passengers for the above trip and he did not know any of the names on this list. He advised that it was difficult for him to distinguish one trip from another or to recall individual passengers in the absence of a particular incident which might occur on a trip. He could not recall the above-mentioned trip made by bus No. 516, the portions of the trip during which MORALES had operated the bus or between what points he, HERNANDEZ, had driven the bus.

He could not furnish any data to assist in identifying OSWALD as being a passenger aboard Flecha Roja bus No. 516 on September 26 to 27, 1963.

III. OSWALD IN MEXICO CITY

(A) "New York Times" Newspaper Account

The Western Edition of the "New York Times," dated December 3, 1963, carried an article by Correspondent PETER KIHSS, which is reproduced hereinunder and reports information purportedly gleaned by the correspondent in Mexico City:

"OSWALD FOLLOWED LONELY PATH DURING RECENT VISIT TO MEXICO

"Inquiry Finds $30 Could Have Covered All Expenses of Month-Long Trip

-- His Travels Are Detailed

"By PETER KIHSS

"Special to The New York Times

"MEXICO CITY, Dec. 2--More lonely steps along the trail of LEE H. OSWALD in the last autumn of his life came to light today.

"Evidence turned up concerning the trip that OSWALD made here in late September and early October presented a picture consistent with that pertaining to other periods in the life of the accused assassin of President KENNEDY.

"The Mexican Ministry of the Interior disclosed that the results of its intensive police investigation had indicated that OSWALD was alone here. The ministry's findings have been transmitted to United States authorities.

"Indeed few mysteries remained as to OSWALD's trip here, following painstaking inquiry. The investigation disclosed that the often impecunious OSWALD could have financed his entire trip to Mexico Sept. 26 to Oct. 23 with less than $30--

thus apparently disposing of the question of where he could have obtained substantial funds for the trip.

"Newsmen identified the bus line on which OSWALD traveled from Nuevo Laredo, across the (border) to this capital and back. It was Transportes Frontera.

"At its office on Buenavista Street, a clerk, LUCIO LOPEZ, said the Mexican police had been given the lists of passengers on that run that the line keeps.

"Investigators were understood also to have checked a number of the guests who were at the Hotel Comercio, the hotel where OSWALD stayed. He was the only American among a clientele composed mostly of Mexicans and a few Cubans, the latter apparently exiles.

"The Cuban Foreign Ministry has confirmed that OSWALD, while in Mexico City, sought a Cuban visa on Sept. 27 as a transit traveler to the Soviet Union. The ministry said that when OSWALD was told the consulate could not issue such a visa without Havana authorization, he left 'visibly displeased.' The ministry also said such a visa would not be granted unless a visa had been previously issued by the country of destination.

"Met Delay on Soviet Visa.

"The Mexican Interior Ministry said OSWALD's effort later to get a Soviet visa had also been met with a consular statement that there would have to be a delay. A Mexican official said OSWALD told the Cubans and the Russians he was a Communist who had lived two years in the Soviet Union and had married a Russian woman.

The police investigation was reported to have found no indication that OSWALD had visited anyone else of political interest.

"Cuban exiles opposed to the regime of Premier FIDEL CASTRO have been trying to check on OSWALD's activities here. So far they have not turned up anything of consequence. This is a sprawling city of nearly five million inhabitants but even in this multitude OSWALD's tracks have been uncovered.

"OSWALD took a 2:30 P.M. bus Thursday, Sept. 26, from Nueva Laredo for the 750-mile trip scheduled to end here Friday, Sept. 27, at 8:30 P.M. The one-way fare on the Frontera line is $5.71 at the exchange rate of 12½ Mexican pesos a dollar.

"There are at least two-score of what Mexicans call humble hotels within a radius of five blocks of the bus terminal. OSWALD appears to have been fortunate to have found the well-kept Comercio on block-long Bernardo de Sahaguan Street, named for a Spanish colonial missionary who befriended Indians.

"For 16 pesos a day--$1.28--he got room No. 18, with private bath, in the four-story glazed red brick hotel.

"SEBASTIAN PEREZ HERNANDEZ, desk clerk, said OSWALD had arrived alone and had left early in the morning and come back late at night. He had no visitors.

"The hotel proprietor, GUILLERMO GARCIA, was shocked when investigators found OSWALD's signature on the registry. Mr. GARCIA admired President KENNEDY as a friend of Mexico and a Roman Catholic. He had never connected the name of his guest with the assassination.

OSWALD had one leather suitcase, about two feet long. He wore short-sleeved shirts. He talked only briefly with the night watchman and the chambermaid, in Spanish.

"Next to the hotel is the lunchroom La Esperanza. Mrs. DOLORES MORENO DE BARRERO, a widow who has run the neat eating place for six months, remembered having seen OSWALD three or four days. She said he had eaten there only once.

"A Chop for 21 Cents

"He had a lunch of steak and rice, which came to about 23 cents. The costliest item on the bill of fare is a chop, cooked to taste, for about 21 cents.

"Mrs. BARRERO said OSWALD's Spanish had been hard to understand and he had eaten alone, in silence.

"Newsmen calculated that OSWALD could have stayed within $30 for meals in Mexico for eight days. He paid $11.42 for bus fare, $3.40 for five days' rent and 50 cents for a special 15-day tourist card he got in New Orleans Sept. 17. These figures add up to $26.32.

"On the same block with the hotel are a number of modest apartment houses. Across the way is a parking lot. At the end of the street is a typical little park, with stone benches. The neighborhood is the Guerrero District, largely commercial.

"OSWALD left Mexico City on Wednesday, Oct. 2, on a Frontera bus that was scheduled to depart at 1 P.M. and arrive at Nueva Laredo at 6:30 A.M. Thursday, Oct. 3.

"A Mexican Interior Ministry official suggested that OSWALD might have spent most of his time

here, which included a weekend, as a tourist, perhaps also taking in some movies.

"It is believed OSWALD left New Orleans on Sept. 24, after having sent his wife to Dallas the previous day with a friend. He vanished from his cheap apartment there on that day without having paid his rent.

"He is believed to have hitchhiked to Laredo on the American side of the border, where he arrived Sept. 26. It was his custom to travel by hitchhiking wherever possible.

"It was presumed that he probably hitchhiked north to Dallas from Laredo on his return from Mexico City. He arrived in Dallas the evening of Oct. 3 and checked into the Dallas YMCA. The distance from Laredo to Dallas is 475 miles."

(B) OSWALD's Visits to Cuban and Soviet Diplomatic Establishments - Investigation by Mexican Authorities

A signed statement which had been made by SILVIA DURAN to the Federal Security Police on November 23, 1963, as translates from Spanish is recorded hereinunder:

"At the City of Mexico, Federal District, at 6:00 p.m. of November 23, 1963, the undersigned, Captain FERNANDO GUTIERREZ BARRIOS, Assistant Director of the Federal Security (Police), proceeding legally with witnesses present, makes record: that with the presentation in this office of Mrs. SILVIA TIRADO DE DURAN for the purpose of being interrogated concerning the matters which are herein set forth, this document was prepared:

"Promptly upon the presentation of the person who under normal conditions is called SILVIA TIRADO DE DURAN, having been warned to tell the truth and advised of the penalties which are incurred by those who furnish false testimony, described herself as follows: that her name is as recorded, 25 years of age, married, without religious preference, an employee, literate, a native and resident of this city, with domicile at Constituyentes #143, Apartment #3, with respect to the matters under investigation declares: that she has been legally married to Mr. HORACIO DURAN NAVARRO since November 5, 1958, and is the mother of a child named PATRICIA, who, at the present time, is three and one-half years of age; that in the month of July or August of 1961 the deponent was invited to join the Mexican-Cuban Institute of Cultural Relations, which at that

time, was directed by Attorney AGUSTIN CUE CANOVAS, as a Coordinator, and, although she does not recall specifically who it was that recommended her, she can clarify that for some time previously she was friendly and visited with frequency the employees of the Cuban Embassy, being a personal friend of Ambassador PORTUONDO, as well as the Cultural Attaches, TERESA PROENZA and LUIS ALVERU, as well as with the female employees, but principally with the secretary of Consul EUSEBIO ASCUE, Miss MARICARMEN OLAVARRI, of Spanish nationality but a relative of ASCUE; that at the Institute the activities were exclusively of a cultural nature and were attended on occasions by the afore-mentioned Cultural Attaches and some Cubans, but in a greater number by Mexicans, always artists and intellectuals, without any political discussions, although she recalls that at the time of the October Cuban crisis in connection with the threatened invasion of Cuba and the subsequent blockade of the island by the North American Government, they listened by shortwave radio to the news from the 'Prensa Latina' (Latin Press), on the basis of which they made up a bulletin which was read of the news that they had listened to directly from Havana, agreeing also to the effect that Cubans and Mexicans attending said meetings discussed the political problem of Cuba on a private basis without doing so in any official character; that the declarant was receiving a salary of 500 pesos ($40 U.S.) monthly in her capacity as Coordinator at the Institute, with her work schedule being from 4:00 to 8:00 p.m. daily, and the money for the maintenance of the Institute itself coming from a monthly subsidy from the Cuban Embassy, the amount of which she is not aware, but also with each one of the members paying a quota, and also contributions were received from persons whose names she does not recall because usually they were made anonymously,

being unable to fix the monthly receipts, although she was the person who personally received all of the funds received at the Institute; that in addition to the speaker, only Mr. FELIPE ROJAS, who worked as a secretary at the Institute during the mornings, received any monthly salary in the same amount of 500 pesos ($40 U.S.), with the remainder of the money which was received being used for the payment of rent and other expenses connected with its operation. That in the month of December of 1961, the declarant and her husband made a trip by air to Havana, Cuba, paying for their own transportation, but all of their expenses of their visit to that city and the greater number of the cities of the island being paid by the Cuban Institute of Friendship with the People and the House of Culture, so-called, 'of the Americas,' the trip having lasted fifteen days without their having any contact or connection during this trip with officials of the Cuban Government. That as the speaker has already stated, she has been a sympathizer of socialism and Marxist doctrine for several years, having studied philosophy and existentialism, and particularly she has sympathized since its inception and sympathizes with the Cuban Revolution. That approximately three months ago she began to occupy the position of Secretary to the Cuban Consul in this city, Mr. EUSEBIO ASCUE, who ceased to function in that capacity some five days ago on Monday, the 18th of this month, having been substituted by Mr. ALFREDO MIRAVAL Y DIAZ, clarifying at this time that from the beginning she began to work in that capacity as a temporary measure as a result of the death in a traffic accident of her friend, MARICARMEN OLAVARRI, who had been occupying that position, until some person should arrive from Cuba who would assume the same, having had under her responsibility the administrative operation and preparing the visas which are issued, as well as handling the applications for such visas which invariably are sent to the

Ministry of Foreign Relations, Government of Cuba, for its approval, having obtained this position directly from former Consul ASCUE, with whom she is very friendly, and for whom the speaker even organized a farewell party in her home, which was attended by almost all of the officials and employees of the Embassy and the Consulate, except the Ambassador. That the speaker does not belong to any political party and never has attended manifestations or meetings, nor has she given lectures or speeches, which her husband has done, since he has written several articles for the newspaper 'El Dia' (The Day) (pro-Communist Spanish language newspaper published in Mexico City); that she has never been arrested for any reason, nor even on the occasion of the visit to Mexico of Mr. JOHN F. KENNEDY, which caused her a great deal of personal satisfaction because of the benefits which it would represent to the country. That yesterday while she was working at the Cuban Consulate, where she is employed from 10:00 to 2:00 and from 4:00 to 6:00 p.m. daily and where she receives a salary of 1,500 pesos ($120 U.S.) monthly, just before their time of departure at noon, a friend commented to her that she had been listening to the radio and heard a news item to the effect that President KENNEDY had suffered an attack in which they had fired three shots at him, as a result of which she called her husband on the telephone and they discussed this news, and he advised her that he already knew about it and referred to said attack as 'monstrous,' and they agreed that upon meeting at their home they would discuss the matter, which they did during their dinner hour, but in a very brief manner since they did not know all the circumstances of the attack and the name and description of the presumed author of the same, its having been only that night that they read in the extra (edition) the news relating thereto, and subsequently on the radio at her residence she heard the name of LEE HARVEY OSWALD, which caused her to remember that this name refers to a North

American who in the last days of September or the first days of the month of October of the present year appeared at the Cuban Consulate and applied for a visa to Cuba in transit to Russia and based his application on his presentation of his passport in which it was recorded that he had been living in the latter country for a period of three years, his work permit from that same country written in the Russian language and letters in the same language, as well as proof of his being married to a woman of Russian nationality and being the apparent Director in the city of New Orleans of the organization called 'Fair Play for Cuba' with the desire that he should be accepted as a 'friend' of the Cuban Revolution, as a result of which the speaker, in compliance with her duties, received all of his data and filled out the appropriate application, and he left to return in the afternoon, this time with his photographs, and the speaker, recognizing that she exceeded her duties, semi-officially called the Russian Consulate by telephone because of her interest in facilitating the handling of the Russian visa for LEE HARVEY OSWALD, but from there they answered her that the operation would require approximately four months, which annoyed the applicant, since as he affirmed he was in a great hurry to obtain the visas which would permit him to travel to Russia, insisting that he was entitled to them because of his background and his partisanship and personal activities in favor of the Cuban movement, the declarant's not being able to specify because she does not remember whether or not he said that he was a member of the Communist Party, but that his wife, of Russian nationality, was at that time in the city of New York from where she would follow him, although his place of origin was the afore-mentioned city of New Orleans; that as soon as OSWALD understood that it was not possible to give him a Cuban visa without his previously obtaining a Russian one, because the former was for transit, he became highly agitated and angry, as a result of which the speaker called Consul ASCUE, who, at that time, was

in his private office in company of his ultimate replacement, MIRAVAL, but came out and began to argue in English with OSWALD in a very angry manner and ASCUE concluded by saying to him that, 'As far as he was concerned, he would not give him a visa,' and that 'A person like him, in place of aiding the Cuban Revolution, was doing it harm,' its being noted that in their discussion they had been referring to the Russian socialist revolution and not the Cuban, its being stated by OSWALD that he had two reasons to request the visa with urgency, which were, one, that his permit to be in Mexico was expiring and the other that he had urgent necessity of reaching Russia; that in spite of the argument the speaker handed to OSWALD a piece of paper similar to that which she writes at this time in which she recorded her name, 'SILVIA DURAN,' and the telephone number of the Consulate, which is '11-20-47,' and, at any rate, she initiated the handling of his visa application by sending it to the Cuban Ministry of (Foreign) Affairs, from which a reply was received in the normal manner some fifteen to thirty days later approving the issuance of a visa, but conditioning it on his previously obtaining the Russian (one), although she does not recall whether OSWALD subsequently called her or not on the telephone for the Consulate which she had given him; that all of the conversation which the speaker had with OSWALD, as well as that of Consul ASCUE with him, was in the English language since he did not speak any Spanish, and that upon seeing his photograph which appears in today's newspapers, specifically in the newspaper 'El Dia,' she immediately recognized and identified it as being the same person that she has been referring to as LEE HARVEY OSWALD. That on only one occasion the declarant attended a reception ceremony at the Russian Embassy which was given on the occasion of the visit of the astronauts, GAGARIN and TERESHKOVA, on the personal invitation which the

speaker received from the Russian Consul YACKSOV when the latter visited ASCUE and MIRAVAL and delivered to them their respective invitations at the Cuban Consulate. That with respect to her in-laws, LIDIA and RUBEN DURAN NAVARRO, the former on various occasions attended with the declarant the meetings which were being held at the Institute, whereas the latter only did so on one or two occasions in connection with exhibits of paintings and with respect to BETY SERRATO AZUCAR, the wife of RUBEN, she has always remained aloof from these activities, although all of them are of leftist ideology but do not actively participate in any activities; that BARBARA ANN BLITS TRESMOND ESQUIVEL and AGATA ROSENO GARCIA are friends of BETY and the speaker has known them very little and superficially, as a result of which she knows nothing about their activities and ideologies, and in connection with the gentleman who she now knows is named DENTLEY, she had never seen him before and supposes that he is a friend of BARBARA, since she noticed that he was talking to BARBARA when they were dining at the home of the deponent, being present her husband, AGATA and LIDIA, whereas the others were at the home of her brother-in-law, RUBEN. That she has nothing further to declare and after reading the above, she ratifies and signs the margins in evidence thereof. The above document is closed authorized and witnessed.

Signed, Assistant Director of Federal Security,
Captain FERNANDO GUTIERREZ BARRIOS.
Witnesses: Lic. (Atty.) FERNANDO ORTIZ DE LA PENA;
Lic. CARLOS DURAN LANZ."

(C) Other Inquiries by Mexican Federal Security Police

On November 29, 1963, T-17 obtained a copy of a report dated November 25, 1963, recording the results of investigation by Agents of the Mexican Federal Security Police (Direccion Federal de Investigaciones - DFS). A translation from Spanish of that report follows hereinunder:

"In connection with the assassination of the President of the United States, JOHN F. KENNEDY, it was reported that LEE HARVEY OSWALD had previously been in Mexico, as a consequence of which appropriate investigation was conducted, the results of which are as follows:

"1. LEE HARVEY OSWALD was in Mexico, having entered at Nuevo Laredo, Tamaulipas (State), on September 26 last, as a tourist, proceeding from New Orleans and departing at the same place on last October 3rd.

"2. It was confirmed that he had come to Mexico to apply for a visa at the Cuban Embassy, for transit enroute to Moscow.

"3. Toward this objective, he established contact with SILVIA TIRADO DE DURAN, a Mexican 'SILVIA DURAN,' whom he interviewed on two occasions, since she is an employee of the Consulate, responsible for making the arrangements necessary for this type of visa and completing the cards with data concerning the applicant, an indispensable requisite for obtaining a Cuban visa.

"4. Through her, he made contact with the Russian Consulate for the same purpose.

"When it was learned that the above-mentioned SILVIA DURAN had been one of the contacts made by LEE HARVEY OSWALD in Mexico, said lady and her husband were arrested in order that they

might be interrogated, advising in their statements as follows:

"INTERVIEW OF HORACIO DURAN NAVARRO: Mexican by birth, son of a Chilean father and Mexican mother. He said that his occupation is that of Industrial Designer, holding a teaching position on this subject in the National School of Plastic Arts, a dependency of the UNAM (Universidad Nacional Autonoma de Mexico - National Autonomous University of Mexico), where he receives a salary of 1,400 pesos ($112 U.S.) monthly; 40 years of age, married, without religious preference, domiciled at Constituyentes (street) #143, Apartment #3, in this city; that the first eight years of his life were spent in Los Angeles, California, and subsequently he came to this capital with his parents, RUFINO DURAN and LIDIA NAVARRO DE DURAN, and later they went to Santiago, Chile, to live, remaining there for a period of a year and one-half, later returning with his brother, RUBEN, to Mexico, being followed later by his sister, LIDIA, and his mother; that he entered the National Agricultural School at Chapingo, where he studied for five years for a career as an Agronomist and as he had learned drawing in the San Carlos Academy, he chose to continue studying that art, which served him as a basis for specializing in Industrial Designing, which he now follows, being a teacher in that subject in the School of Fine Arts of the UNAM, spending his free time in private work as a Designer, for which he receives an income of approximately 5,000 pesos ($400 U.S.) monthly; that in 1950 he was married to a French woman, LUCILLE DEJARDIN, with whom he fathered a son named PAUL DURAN DEJARDIN, who at the present time is 10 years of age, and with that marriage having lasted more or less six years, and with the breaking up of that matrimony, on November 5, 1958, he entered into a new marriage contract with his present wife, SILVIA TIRADO DE DURAN, with whom he fathered a

girl named PATRICIA, now 3½ years of age; that when he became acquainted with his present wife, she was working as a Secretary in the Proteo Gallery and later she and other persons, among them Prof. AGUSTIN CUE CANOVAS, the Cultural Attache of the Cuban Embassy, and others, began to organize the Mexican Cuban Institute of Cultural Relations 'Jose Marti,' in which she served as a Coordinator, and for about the last four months, she has been employed as a Secretary in the Consulate General of Cuba in this city, first having worked with the Consul, EUSEBIO AZCUE, and now with MIRABAL, receiving a monthly salary of 1,500 pesos. He acknowledged that his ideology is leftist and in sympathy with the Cuban Revolution, adding that this is the reason why he permits his wife to work and engage in her present activities. He stated that when he discussed with his wife the assassination of President KENNEDY, having heard the name of the presumed perpetrator, LEE HARVEY OSWALD, she immediately told him that she believed that he was the same individual who in the latter part of September or early October had been in the Cuban Consulate applying for a Cuban visa in transit to Russia; that she had attended him herself and handled his visa application papers, but when she notified him that he would first need a Russian visa and that his application would have to be sent to the Cuban Ministry of Foreign Relations, which, of course, would require several days, OSWALD became angry and lost his self control, as a result of which SILVIA called the Consul AZCUE, with whom the applicant had a violent argument. He added that he had not seen nor had he personally known LEE HARVEY OSWALD, and in December of 1961 he (DURAN) made a trip to Cuba, accompanied by his wife, paying for their tickets himself.

"It is pointed out that at the home where the DURAN couple was detained at Herodoto #14, Apartment A, the home of the brother-in-law of SILVIA DURAN, named RUBEN DURAN NAVARRO, the

persons who were visiting at that residence were arrested and their background data is recorded below:"

(None of the individuals listed below as having been interviewed admitted knowing OSWALD or having any information concerning him. Therefore, the data concerning them is being summarized rather than recorded in full.)

RUBEN DURAN NAVARRO advised that he was born in Los Angeles, California, is married to BETTY SERRATOS, is 28 years of age, a decorator by profession, and has applied for Mexican citizenship. He related that Calle Herodoto #14, Apartment A, is his residence.

BETTY SERRATOS DE DURAN related that she was born in the Republic of Honduras and has resided in Mexico for the past ten years, is 33 years of age, and has never belonged to any political party or entertained leftist ideas. She explained that she resides with her husband, RUBEN DURAN NAVARRO, at Herodoto #14, Apartment A.

LIDIA DURAN NAVARRO VDA. (widow) DE FLORES advised that she is 35 years of age, having been born in Chihuahua, Chihuahua; that she resides at Luz Saviñon Street No. 1211, Apartment 2, and is employed in the Tourism Department and the Mexican Sports Federation. She denied having political affiliations or sympathies. She explained that she is the sister of RUBEN DURAN NAVARRO and had been visiting them at the time the investigators arrived at their apartment.

AGATA ROSENA GARCIA related that she was born in the Capital (of Mexico) and resides at Rivera Street No. 63, [illegible]nia Las Aguilas. She denied having any political affiliations or being of leftist ideology and explained that she is a friend of the DURANS and visits them frequently at their home.

BARBARA ANN BLISS stated that she was in Mexico as a tourist and has been living in the country for the past eight years, and resides at Bahia de Magdalena #125; that she is divorced from JUAN ESQUIVEL, a Costa Rican citizen

who presently lives in the United States, and has a monthly income of $800 per month from the estate of her father, which is administered by a firm in Washington, D. C. She explained that her father, ALONSO BLISS, formerly owned a sugar plantation on Trinidad, but presently resides at 2585 Bayshore Drive, Coconut Grove, Miami, Florida. She explained that she had become acquainted with BETTY SERRATOS some three months earlier at the apartment of CARMEN PINO, and they had exchanged visits with each other thereafter because of their mutual liking for recorded music. She also stated that she had met SILVIA TIRADO DE DURAN at a concert, but had no friendship with her.

CHARLES E. BENTLEY explained that he is 27 years of age and was in Mexico as a tourist, having resided for the previous three months at Palermo Street No. 9, Colonia Hipodromo, in Mexico City; that he had been trying to obtain employment as a salesman for the Sonora Cattle Company; that he had served in the United States Marine Corps from 1954 to 1957 and had no political affiliations or leftist ideas. He explained that he had met BARBARA ANN BLISS and BETTY SERRATOS some two months earlier and was visiting at Herodoto No. 14-7 because of his friendship with them.

(D) Hotel Accommodations of LEE HARVEY OSWALD in Mexico City

On November 26, 1963, T-14, a confidential source who has furnished reliable information in the past, advised that, following a check of the registration records of numerous middle and lower class hotels in the downtown area of Mexico City, he had ascertained that on September 27, 1963, LEE HARVEY OSWALD had registered at the Hotel del Comercio, located at Calle (Street) Bernardino de Sahagun No. 19 and approximately eight blocks from the commercial heart of the Mexican capital. The records disclosed that OSWALD was registered as the occupant of room No. 18 until October 1, 1963, and was deleted from the hotel guest list on October 2, 1963.

According to source, there were only three employees at the hotel, and some of them were able to recognize OSWALD's photograph as having been a guest at that establishment but could recall virtually no information concerning the circumstances relating thereto.

1. OSWALD's Registration at Hotel

T-1 made available photocopies of the registration records of the Hotel del Comercio, Calle Bernardino de Sahagun No. 19, Mexico, D. F., which reflect that on September 27, 1963, OSWALD registered at that hotel as "LEE, HARVEY OSWALD, USA, Texas, PHOTO, US citizen" and was assigned room No. 19.

The owner and manager of the hotel, GUILLERMO GARCIA LUNA, explained on March 3, 1964, that upon arrival a guest is required to register in his own handwriting; however, as long as he remains at the hotel thereafter, the name is transferred to the registration list for subsequent days by the manager or his assistant.

2. Examination of Handwriting on Hotel Register by FBI Laboratory

On December 11, 1963, a photocopy of the above-described page of the Hotel del Comercio registration book was submitted to the FBI Laboratory for examination of the "LEE, HARVEY OSWALD" signature appearing thereon.

In a laboratory report dated December 19, 1963, the FBI Laboratory stated that examination of "Qc333, photocopy of page of registry book of Hotel del Comercio, Calle Sahagun 19, Mexico City, with signatures of guests registering on September 27, 1963, Line 19, bearing signature 'Lee Harvey Oswald'" had been made with the following result:

"It was concluded that the LEE HARVEY OSWALD signature on Line 19 of Qc333 was written by LEE HARVEY OSWALD, whose known writing appears as K4 and K5 in this case."

The information recorded hereinunder was furnished by T-19.

3. Identities of Persons at Hotel During Same Period as OSWALD

A review of copies of the pages of the Hotel del Comercio registration book for individuals who registered or remained at the hotel from September 26, 1963, through the night of October 1-2, 1963, revealed the following with respect to their names, city and state of origin, room or rooms occupied, and date or dates of occupancy.

Because of the fact that some of the names were abbreviated and others not decipherable, Hotel del Comercio owner, GUILLERMO GARCIA LUNA, assisted in clarifying those names.

4. Interview of Manager and Other Personnel at Hotel

GUILLERMO GARCIA LUNA advised on March 3, 1964, that he is the owner and manager of the Hotel del Comercio, which is located approximately five blocks north of the main east-west thoroughfare of Mexico City, Paseo de la Reforma, and two blocks east of the principal north-south artery, Avenida Insurgentes. He explained that his hotel caters to commercial travelers, most of whom are Mexican citizens; that it has a total of thirty rooms, most of which are equipped with a private bath; that for a single room the minimum rate, without bath, is 13.00 pesos ($1.04 U.S.) and the maximum, with bath,

is 20.00 pesos ($1.60 U.S.). He added that the hotel is in the heart of the area of many of the bus terminals in Mexico City and also is only a few blocks from the passenger railroad station.

GARCIA LUNA furnished the following observations concerning the stay of LEE HARVEY OSWALD at the Hotel del Comercio. He received OSWALD and caused him to sign the hotel registration book, which is utilized in place of registration cards. He believed OSWALD's arrival had occurred between 10:00 and 11:00 a.m. The guest makes the initial entry in the registration book with data which includes his name, place of origin, occupation, and nationality; thereafter, so long as the guest remains at the hotel, his name and identifying data are transferred to the registration book page for the current date, after he has made payment in advance for his room for the ensuing night. Inasmuch as payment is made in advance, no effort is made to obtain an exact home address for the registrant.

The hotel has four floors, and OSWALD was assigned room No. 19 (with bath) on the third floor at a daily rate of 10.00 pesos ($1.00 U.S.) The rooms on the latter floor are numbered from 19 through 28. The hotel registration book reflects that OSWALD paid for his room on October 1, 1963, which, according to GARCIA LUNA, indicates he was entitled to and probably slept at the hotel the night of October 1-2, 1963, and departed therefrom during the day of October 2, 1963. GARCIA LUNA stated he could not recall the circumstances of OSWALD's departure nor the hour thereof, but merely was judging normal procedure on the basis of information in his record.

GARCIA LUNA advised that he speaks a few words of English and received the impression that OSWALD neither spoke nor understood any Spanish. He had not observed OSWALD in the hotel during the day nor had he ever seen him accompanied by any individual or individuals. He recalled that OSWALD had been carrying a medium-size, brown handbag, which he believed had a zipper and was either of Naugahyde or canvas material. He did not remember that OSWALD had ever worn a coat and believed he usually appeared in a short-sleeved shirt of a knit variety.

Inquiry was made of GARCIA LUNA as to other personnel at the hotel who might recall OSWALD on the basis of having any reason to notice or contact him, and he stated that those persons would be his assistant, SEBASTIAN PEREZ, and the maid who cleans the rooms on the upper two floors, MATILDE GARNICA.

GARCIA LUNA stated that he was acquainted with a few of the guests who were at the hotel during the same period as OSWALD but did not have home addresses for any of them. He mentioned that several of the guests of that period are commercial travelers and return to the hotel from time to time.

MATILDE GARNICA, maid at the Hotel del Comercio, advised on March 3, 1964, that she recognized the photographs of OSWALD as being of the young American who had occupied room No. 18 for almost a week during the latter part of last year. She explained that she handles the daily housekeeping duties for the third and fourth floors of the hotel, comprising rooms numbered 18 through 30, and ordinarily arrives at work between 9:00 a.m. and 10:00 a.m., leaving at 9:00 p.m., upon completion of her working day.

Mrs. GARNICA related that she clearly recalls OSWALD, as few Americans stay at the hotel, and was somewhat intrigued by his presence there. He had very few personal effects, which he carried in what she described as a "small, brown, zippered handbag," which was either of canvas or imitation leather material. She did not believe she had seen OSWALD in the hotel on more than two occasions, the day of his arrival and the following Saturday as he was still in his room when she checked to determine which rooms were available for cleaning. She remembered that when she saw him in the room on the Saturday morning in question, he said "good morning" to her in English, and a short time later left the hotel.

She never saw him with any other person and had no conversation with him, having received the impression that he neither spoke nor understood Spanish.

SEBASTIAN PEREZ HERNANDEZ, desk clerk and assistant to the owner of the Hotel del Comercio, advised on March 10, 1964, that he had not conversed with OSWALD but remembered him clearly inasmuch as very few Americans have stayed at

the hotel. To the best of his recollection, OSWALD left the hotel each morning and did not return until evening, possibly after PEREZ HERNANDEZ had completed his working day and left the hotel. He stated OSWALD was alone whenever he noticed him at the hotel and usually wore a knit, short-sleeved sport shirt and no coat or jacket.

PEREZ HERNANDEZ advised that since OSWALD paid his rent in advance for the night of October 1, 1963, there would have been little reason for contact with him on the presumed date of his departure, October 2, 1963, and he was unable to remember any details in this connection.

On April 10, 1964, PEDRO RODRIGUEZ LEDESMA advised that he resides at Santa Clara, State of Mexico, and for many years has been the night watchman at the Hotel del Comercio, his working hours being from 9:00 p.m. to 9:00 a.m. He explained, however, that he often is able to leave the hotel by 8:00 a.m. or earlier if the owner and manager, GUILLERMO GARCIA LUNA, has arrived to relieve him and handle reception duties. With respect to LEE HARVEY OSWALD's stay at the hotel, he furnished the following information.

He clearly recalls the young American whom he later identified in his mind as OSWALD and remembers that on the date of the latter's departure from the hotel and on the basis of sign language and the word "taxi," which he interpreted to indicate that OSWALD wanted a taxicab, RODRIGUEZ walked around the corner from the Hotel del Comercio to Orozco y Berra and Bernal Diaz Streets where he obtained a taxicab which had just left a passenger at the "Estrella Blanca" (White Star) bus terminal. He stated definitely that he did not know the taxi driver and had not known or discussed with the driver or OSWALD the latter's intended destination. He said OSWALD carried his own luggage downstairs and waited in front of the hotel with the luggage until RODRIGUEZ returned with the taxicab.

He believed OSWALD left the hotel between 6:30 and 7:00 a.m., since it was getting light when he went in search of the taxicab. He could not be more precise concerning the time. He believed that OSWALD gave him a small tip of one or two pesos ($.03 or $.13 U.S.) for his assistance in calling

a taxi. RODRIGUEZ commented that while he had little difficulty obtaining a taxi at the early hour, it becomes very difficult to secure taxi transportation between 7:30 and 8:30 a.m. because of the heavy traffic at that time.

RODRIGUEZ related that to the best of his recollection OSWALD always arrived at the hotel late at night, "midnight or thereafter," but he never noticed any indication that OSWALD had been drinking. He never observed OSWALD in the company of any person and did not recall his ever using the only telephone at the hotel, which is located at the reception desk.

5. Other Inquiries in the Area of the Hotel del Comercio, Taxi Stands, and Bus Terminals

On March 4 and again on April 10, 1964, DOLORES RAMIREZ DE BARREIRO advised that she is the owner, manager and sometimes cook at the small restaurant on Calle Bernardino de Sahagun (no number) immediately adjacent to the Hotel del Comercio. She explained that there is no commercial connection between the hotel and her restaurant, but because of its proximity many hotel guests eat some meals at the restaurant.

Upon viewing photographs of OSWALD, Mrs. BARREIRO affirmed that she remembered him as a young American who had eaten several meals at the restaurant in the late afternoon over a period of approximately one week. She said he appeared at the restaurant after the noon rush hour or some time after 2:00 p.m., always alone, and ordered his food by pointing on the menu, apparently with some consideration of costs. He always ate the soup of the day, rice, and either meat or eggs, but always rejected dessert and coffee. She thought this unusual, as the dessert and coffee ordinarily are included in the price of the daily lunch, but he did not appear to understand this and always waved the waitress away if she tried to serve those items. She recalled that he also rejected any efforts to sell him soft drinks, which she described as an important item in her business. She estimated that OSWALD spent from five to six pesos ($.40 to $.48 U.S.) for his meals. She had assumed he was a guest at the hotel but never observed

him contact or talk to anyone while at the restaurant.

6. Inquiries in Neighborhood of Hotel del Comercio

T-15, a confidential source who has furnished reliable information in the past, advised that he had interviewed a large number of persons in the area of the Hotel del Comercio, among them car watchers, taxi drivers, restaurant operators, ambulatory salesman, shoeshine boys, newspaper vendors, and others, displaying to them a photograph of OSWALD. According to source, he had been unable to locate anyone who recalled OSWALD.

7. Interviews of Guests at Hotel del Comercio

T-2 and T-13 advised that interviews of the following persons, who were guests at the Hotel del Comercio during the same period as OSWALD, had failed to identify anyone who was able to remember him:

ALFONSO PEREZ PLIEGO
Captain SALVADOR ESQUIVEL SEGURA
URBANO TORRES MENDOZA
MARTIN GUERRERO
JULIO LINAN
MANUEL SERRALDE

Sources advised that GUILLERMO GARCIA LUNA, owner of the Hotel del Comercio, had been able to furnish some identifying data concerning hotel guests ANTONIO OLIVA, FERNANDO VALENZUELA, ANGELICA PEREIRA, PEDRO QUIJANO, GABRIEL CONTRERAS, RODOLFO RODRIGUEZ, MARTIN SUMAYA, RAFAEL ROCHA, JOSE GAMES, FIDENCIO GARCIA, Captain CARLOS DOMINGUEZ, and MARIO RESENDIZ, and efforts are being made to locate those individuals as well as identify and locate others who were guests at the Hotel del Comercio during the same period as OSWALD.

B. Reputation of Hotel del Comercio

On April 22, 1964, inquiry was made of GUILLERMO GARCIA LUNA by T-13 as to his opinion of how OSWALD had selected and appeared at his hotel, and he stated that even though the hotel is three blocks and "around three corners" from the Red Arrow bus terminal, he considers his hotel to have the best general aspect and appearance of any of several in the area; furthermore, it is known by personnel in other hotels that GARCIA LUNA can understand and speak a little English. He also mentioned that his hotel is filled to approximately ninety per cent of capacity at all times because he makes every effort to provide superior accommodations to commercial travelers at competitive prices.

On April 17, 1964, T-13, a confidential source who has furnished reliable information in the past and is in a position to be informed with respect to the activities in Mexico of Cubans and individuals of other nationalities who are sympathetic to the Castro revolutionary regime in Cuba, advised that the Hotel del Comercio is not known to him as being frequented by pro-Castro Cubans.

On April 23, 1964, T-14, who is well acquainted with hotel operations in Mexico City, reported that he knows nothing unfavorable with respect to the character and reputation of GUILLERMO GARCIA LUNA or the Hotel del Comercio and considers the latter to be a reputable establishment usually frequented by commercial travelers and individuals of modest means.

IV. OSWALD'S DEPARTURE FROM MEXICO

The information recorded below was made available by T-17, a confidential source abroad.

The files of the Department of Immigration, Mexican Ministry of "Gobernacion" (Interior or Government), reveal that LEE HARVEY OSWALD departed from Mexico on October 3, 1963, at Nuevo Laredo, Tamaulipas. The records of the Mexican Immigration Office at Nuevo Laredo reveal that

on October 3, 1963, from 12:00 midnight until 8:00 a.m., Immigration official ALBERTO ARZAMENDI CHAPA was in charge of the "Kilometer 26" highway checking station, where tourist cards are picked up from aliens leaving Mexico by highway travel through Nuevo Laredo. An official of the Department of Immigration stated that the name and date stamp of ARZAMENDI CHAPA on the original tourist card surrendered by OSWALD upon his departure from Mexico on that date were evidence of the fact that his exit from Mexico occurred during those hours.

The official added that considerable investigation had been conducted by several different agencies of the Mexican Government for the purpose of ascertaining subject's method of travel on departure and that, in view of the fact the name "OSWLD" had been located on a passenger list for the 1:00 p.m. trip of the Transportes Frontera bus line from Mexico City to Nuevo Laredo, Tamaulipas, on October 2, 1963, it was considered that OSWALD had traveled thereon.

Considerable investigation with respect to the passenger list mentioned above, including a check of the ticket stubs at the Monterrey, Nuevo Leon, headquarters of the company, interviews of bus drivers and passengers, and numerous interviews of employees of the Mexico City terminal of the bus line, failed to confirm that OSWALD, in fact, had been a passenger on the Transportes Frontera bus in question.

(A) Interview of HERBERT ROBERT VOORHEES, Passenger on Transportes del Norte Bus Traveling from San Luis Potosi to Nuevo Laredo on October 2 to 3, 1963

T-11 advised on March 26, 1964, that HERBERT ROBERT VOORHEES, true name HERBERT FRANCIS VOORHEES, who resides at Calle Masones No. 19, Apartment 10, San Miguel de Allende, Guanajuato, Mexico, furnished the following:

On October 2, 1963, he left San Miguel de Allende, Guanajuato, at 7:30 a.m., by a "second-class yellow bus" for San Luis Potosi, San Luis Potosi, Mexico, where at about 2:40 p.m. on the same date he departed for Nuevo Laredo, Tamaulipas, Mexico, via a Transportes del Norte bus.

His bus arrived at Laredo, Texas, at approximately 2:00 a.m. on October 3, 1963, and following his going through United States Customs and United States Immigration at Laredo, Texas, he disembarked from the bus in Laredo, rested at the Southland Hotel, and thereafter proceeded to San Antonio, Texas, via Greyhound bus.

He was certain that the Transportes del Norte bus, while en route to Laredo, Texas, stopped in Mexico at about 1:00 a.m. on October 3, 1963, at the "Mexican Immigration check station about twelve miles from the Mexican-American border," where the lights were turned on and a Mexican Immigration official boarded the bus to check each passenger's identification and travel documents.

At this point, the Mexican Immigration official ushered off the bus a young American, whom he described as about 20 years of age, five feet nine inches tall, of medium build, clean-shaven, bareheaded, coatless, and cleanly attired in shirt, slacks and shoes. The young American, who had carried one small bag, had been sitting at the back of the bus. Upon his return to the bus, after apparently being questioned for a few minutes, he walked again to the back of the bus. As he passed VOORHEES, he mumbled in good English, in a grumbling manner, something like, "My papers were in order before and I don't know why they bother me now -- they took my pass before."

He clearly recalled seeing the American at the United States Customs checking station in Laredo, Texas, at about 1:30 a.m. on October 3, 1963, when a Mexican woman's luggage was being examined and the young American was standing by. The American was trying to dispose of a banana by eating it hurriedly, "gulping it down," and he was told by a Customs officer that he could carry the banana into the United States and did not have to gulp it down so fast.

He recalled talking with a "Mexican-American" man who sat across the aisle from him. This man was traveling with his wife and spoke English and Spanish. He could recall neither his name nor his destination.

He furnished as many other details about the above-described trip as he could recall and claimed he could not

definitely state that the young American was identical with OSWALD; however, he considered photographs of OSWALD to be similar in every detail with the young American who was on the bus.

(B) Checks of Records of Other Bus Lines

T-13 provided the following information:

On March 30, 1964, officials of the Autobuses Blancos Flecha Roja, S. A. bus line made available passenger lists for the four scheduled trips of that company from Mexico City to Nuevo Laredo of October 2, 1963, and no information identifiable with OSWALD by any of the names he was known to have used was located on those lists. It was determined, however, that if the time schedules of that company are maintained, none of its trips to Nuevo Laredo would arrive at the "Kilometer 26" highway checking station between midnight and 8:00 a.m.

Mr. Ricardo Medina Beltran, manager of the Mexico City terminal of the Autobuses Transportes del Norte bus line (hereinafter referred to as Transportes del Norte), advised that his company provides bus service between Mexico City, Mexico, and Laredo, Texas. He said that in connection with this service, a passenger list is normally prepared for each of the bus trips of his company between the above points.

MEDINA explained that the passenger list actually is a card form on which reservations and ticket sales are recorded and that after the particular trip for which it was prepared has left the terminal, it is cancelled to avoid further confusion, as the reverse side of the form is utilized for a similar record at a later date. He stated that the cancelled lists are not a permanent record and are maintained only for a short period of time following their use. He stated that he had set aside the lists for early October, 1963, in the event there should be further need for them; nevertheless, he was unable to locate them. He pointed out that apparently they had been placed inadvertently in a storeroom where tires, spare parts, boxes of obsolete files and records, and other materials

are maintained and that only a thorough review of all material in the storeroom would reveal whether or not the list for October 2, 1963, was still in existence. He related that his company has two direct trips daily to Nuevo Laredo, Tamaulipas, and Laredo, Texas, and that the bus which departs from Mexico City at 8:30 a.m. is scheduled to arrive in Nuevo Laredo at 2:00 a.m. the following morning and would arrive at the "Kilometer 26" checking station at approximately 1:00 a.m.

(C) Transportes del Norte Passenger List for October 2, 1963

On March 30, 1964, Mr. MEDINA advised that he had located the passenger-reservations list for the 8:30 a.m. bus of October 2, 1963, and on the basis of consultation with him and with several reservations and ticket clerks who recognized their handwriting thereon, the following data was obtained therefrom as translated from Spanish:

MEDINA explained that seats No. 12 and No. 15 had been reserved for another bus line or travel agency and that the company would have no record with respect to the identities of the occupants of those seats.

On March 31, 1964, Miss ROSA MARIA OROZCO, auditor of the Auto Viajes Internacionales, S. A. travel agency (International Auto Travels, Inc.), Lafragua No. 4, Mexico, D. F., advised that she had located a record of the sale by that firm of a ticket for travel on seat No. 15 of the 8:30 a.m., October 2, 1963, bus of Transportes del Norte to Laredo to ANASTACIO RUIZ MEZA. She stated that the company had sold this transportation to RUIZ MEZA for travel via the Transportes del Norte bus line to Laredo and from Laredo to Chicago, Illinois, by Greyhound Line.

(D) Record of Location of Transportation Sold to H. O. LEE

T-11 provided the information recorded hereinunder:

On April 1, 1964, MACLOVIO PORTILLO G., Superintendent of the Mexico City terminal of the bus line Transportes Chihuahuenses, S. A. de C. V. (Chihuahuenses Transportation, Incorporated with Variable Capital), Bernal Diaz No. 5, Mexico, D. F., and his clerk, MARIA TERESA CASARES, caused the records of that bus line to be searched for all tickets issued for travel on October 2, 1963, in an effort to locate the names LEE HARVEY OSWALD, O. H. LEE, ALEX JAMES HIDELL, and V. L. LEE, with particular attention to ticket No. 13688.

PORTILLO advised that no information had been located which could be identified with the foregoing, explaining that tickets sold by his company during that period were in the eighty and ninety thousand series, eliminating the possibility that ticket No. 13688 might have been sold at that office.

PORTILLO suggested that the transportation concerning which inquiry was being made might have been sold at the Agencia de Viajes, Transportes Chihuahuenses, S. A. de C. V. (Chihuahuenses Transportation Travel Agency, Inc.), with offices at Paseo de la Reforma No. 52, Room 5. He telephoned to that agency and was advised by a clerk, ALEJANDRINA M. DE BUTCHER, that the reservation order under No. 13688 was available at that office.

On April 1, 1964, Miss TERESA SCHAEFFER BEQUERISSE, manager of the above-mentioned travel agency, located the reservation and purchase order No. 13688, and it was determined to be in blank, never having been utilized. She reviewed the Transportes del Norte passenger list for bus No. 332 for October 2, 1963, considering that the order number might be 12688, and this order No. 12688 was located and also found to be blank. She insisted that her office had not handled the reservation noted on the Transportes del Norte passenger list shown her for October 2, 1963. She was requested to review all reservation and purchase orders issued for October, 1963, by her office.

A review of the carbon copies of these reservation and purchase orders was made by the confidential source abroad in the presence of Miss SCHAEFFER, which revealed that reservation and purchase order No. 14618 was issued to Transportes del Norte in Mexico City for Mr. H. O. LEE for seat No. 12 from

Mexico City to Laredo, Texas, on Wednesday, October 2, 1963, at 8:20 a.m. This information was printed in Spanish, and the reservation was confirmed by a Mr. SAUCEDO. At the bottom of this printed order the date was indicated to be September 30, 1963, and the cost was listed as 93.75 "moneda nacional" (national money or Mexican pesos comparable to $7.50 U.S.) Also at the bottom of this printed order was the printed notice that the Agencia de Viajes, Transportes Chihuahuenses, is an agent for the Greyhound Bus Line.

Miss SCHAEFFER advised that former employee ROLANDO BARRIOS had signed the reservation and purchase order and apparently made the sale to Mr. H. O. LEE. She stated the original of this form was given to the purchaser in order that he could then obtain his ticket at Transportes del Norte, explaining that an original and two copies of the reservation and purchase order are made and the original is given to the purchaser, one copy is kept at her office, and the third copy is forwarded to the main office of the travel agency, which is Transportes Chihuahuenses, S. A. de C. V., Avenida 16 de Septiembre No. 274, Ciudad Juarez, Chihuahua, Mexico. She made available the carbon copy of the above-mentioned purchase order and stated she would search her files for any other pertinent records.

Subsequently she advised on the same date by telephone that she had located Greyhound International Exchange Order No. 43599 for presentation to the Greyhound agent at Laredo, Texas, and issued to Mr. H. O. LEE. This order was issued against the Western Greyhound Lines, 371 Market Street, San Francisco 5, California, for travel from Laredo, Texas, to Dallas, Texas, via San Antonio, Texas.

T-12 advised that on April 1, 1964, Miss SCHAEFFER made available a copy of the Greyhound International Exchange Order mentioned above, which noted that Mr. H. O. LEE was traveling to the port of exit via Transportes del Norte. The order reflected it was issued on October 1, 1963, for $12.80 U. S. by the Agencia de Viajes, T. Ch. S. A. de C. V., Reforma 52-5, Mexico City. According to Miss SCHAEFFER, the signature of the issuing agent on this order form was that of ROLANDO BARRIOS.

Miss SCHAEFFER's bookkeeper, Miss NORMA ROMAN, made available the agency's cash receipt and disbursement ledger which Miss SCHAEFFER described as a record of cash receipts and disbursements of the business on a daily basis. These records disclosed that on October 1, 1963, an entry was made in the ledger reflecting receipt of 253.75 pesos ($20.30 U.S.) from Mr. H. O. LEE which was paid to cover the cost of a bus trip from Mexico City to Dallas via Laredo. Miss SCHAEFFER explained that the entry reflecting receipt of cash is made in the cash receipt and disbursement ledger on the day following the actual transaction. She added that of the total 253.75 peso amount, 93.75 pesos ($7.50 U.S.) applied to the portion of the trip from Mexico City to Laredo and 160.00 pesos ($12.80 U.S.) applied to the travel from Laredo to Dallas.

The above record reflected that the total amount of 253.75 pesos was paid on Agencia de Viajes T. Ch. reservation and purchase order No. 14618 and that H. O. LEE was also issued Greyhound International Exchange Order No. 43599 to cover the trip from Laredo to Dallas.

The above-mentioned cash ledger reflected that the letter "B" appeared beside the name of H. O. LEE, and Miss SCHAEFFER explained that the letter "B" represents the surname initial of ROLANDO BARRIOS, the former employee of the firm who handled the transaction with H. O. LEE.

The cash ledger also revealed that under the figure of 253.75 pesos, the amount of the cash transaction, were illegible handwritten initials, and Miss SCHAEFFER stated that those are the initials of ELSA MAYNEZ, another former employee of the firm, acknowledging receipt of the 253.75 pesos by MAYNEZ from BARRIOS for entry in the cash ledger book.

Miss SCHAEFFER advised that ROLANDO BARRIOS was involved in a financial problem with her agency for which she discontinued his services. She furnished his home address as Bahia de Santa Barbara No. 20-209, Mexico, D. F., and stated he was last known to be employed at the Mauna Loa Restaurant in Mexico City.

On April 1, 1964, Miss SCHAEFFER made available a copy of a form captioned: "Western Greyhound Lines (Division

of the Greyhound Corporation), 371 Market Street, San Francisco, California, International Sales Report." This sales report covers the period from October 1, 1963, to October 31, 1963, and Miss SCHAEFFER advised that recorded on this form is a recapitulation of travel sales during the month of October, 1963, made by the agency as agents for the Western Greyhound Lines in connection with which Greyhound International Exchange Orders were issued to the travelers. There were twelve such sales recorded on the above-mentioned sales report, which reflects that the second entry or sale made involved the issuance of Greyhound International Exchange Order No. 43592 to one passenger, Mr. H. O. LEE, for travel from Laredo, Texas, to Dallas, Texas, total fare for that portion of the trip being recorded as $12.80 U. S.

Miss SCHAEFFER advised that the foregoing must be maintained as a matter of permanent record in her office because of Mexican Government regulations.

On April 2, 1964, T-11 was advised by Miss SCHAEFFER that MARGARITA LABASTIDA, who also worked in the front office while BARRIOS was present, had informed her that she remembered an American who purchased a travel order but could not recall the date nor could she state it was OSWALD. Upon interview, Miss LABASTIDA could only recall that the American was tall, wore disheveled clothing, and had a great deal of hair. She could not be more specific about the date or the description of the American.

Photographs of LEE HARVEY OSWALD were exhibited to TERESA SCHAEFFER BEQUERISSE, ALEJANDRINA M. DE BUTCHER, NORMA ROMAN and MARGARITA LABASTIDA at the Agencia de Viajes, Transportes Chihuahuenses, S. A. de C. V. offices and these persons were unable to identify OSWALD.

(E) Interview of ROLANDO BARRIOS RAMIREZ

On April 2, 1964, the following information was furnished to T-13.

ROLANDO BARRIOS RAMIREZ, Bahia de Santa Barbara No. 20, Apartment 209, Mexico, D. F., advised that formerly he was

employed at the Chihuahuenses Travel Agency and now is employed as a cashier at the Mauna Loa Restaurant in Mexico City. BARRIOS reviewed the copy of the reservation and purchase order No. 14613 of the travel agency reflecting the sale on September 30, 1963, of seat No. 12 on the 8:30 a.m. trip of Transportes del Norte from Mexico City to Laredo, Texas, on October 2, 1963, and definitely identified the handprinting and signature thereon as his own. He also viewed a copy of International Exchange Order No. 43599 dated October 1, 1963, recording the sale to Mr. H. O. LEE of transportation by Greyhound Lines from Laredo, Texas, to Dallas, Texas. He stated that the handprinting and signature on this document were his and that undoubtedly he had handled the transaction represented by the two documents.

BARRIOS viewed photographs of LEE HARVEY OSWALD and advised that he was unable to affirm positively that he recalled OSWALD in connection with the travel agency. He related that at the time OSWALD's photographs were being published widely in newspapers and magazines he was impressed by the feeling that he had known or met OSWALD at some time, but had been unable to associate the feeling with any particular incident or time.

(F) Interview of Personnel at Transportes del Norte Terminal, Mexico City

On April 3, 1964, the Mexico City Terminal Manager for Transportes del Norte, RICARDO MEDINA BELTRAN, reiterated that he had no recollection whatsoever with respect to OSWALD and explained that he has no contact with passengers except under unusual circumstances since his office is removed from the passenger area of the terminal.

On the same date, bus drivers ROGELIO CUEVAS and RAMON GONZALEZ were contacted upon their arrival at the Mexico City terminal and advised that they reside in Monterrey, Nuevo Leon, Mexico, at Magna Vista No. 232 and at Juan Mendez No. 1407 Altos, respectively. Although they had no independent recollection in connection therewith, they were aware of the fact that the company's records reflect that they were the drivers of bus No. 332 between Mexico City and Monterrey on

October 2, 1963. They stated that they usually leave the bus at Monterrey, and it was their understanding that on October 2, 1963, all passengers from bus No. 332 were transferred to another unit which transported them to Nuevo Laredo with a relief driver. They viewed all available photographs of LEE HARVEY OSWALD and stated they were unable to recall his having been a passenger. They pointed out that they rarely notice the passengers and would not remember one of them unless an incident or special circumstance created a special reason for noticing and recalling them.

On April 2, 1964, ANGEL CURIEL informed that he is a ticket salesman at the Mexico City terminal of Transportes del Norte and that he recognized his handwriting on the October 2, 1963, passenger list for bus No. 332 in connection with the items listed under "destination" and "ticket number." He explained that he undoubtedly exchanged ticket No. 13688 for the travel agency purchase order and recorded the number of the ticket before delivering it to the passenger. CURIEL viewed available photographs of OSWALD and stated he could not recall him in connection with his duties at the bus line.

On the same date, salesman MIGUEL SAUCEDO advised that the handwriting on the passenger list under "name of passenger" of the word "Chihuahuenses" opposite seat No. 12 indicated that he received the telephonic reservation of the space by the travel agency. SAUCEDO did not recall the matter and was unable to identify photographs of OSWALD in connection therewith.

Ticket salesmen CANUTO S. ROJAS and JUAN GASCON advised that they recognized their handwriting on the October 2, 1963, manifest in connection with some of the reservations and ticket sales, but upon viewing photographs of OSWALD could not recall having seen him at the Mexico City terminal of Transportes del Norte.

MEDINA and the four ticket salesmen mentioned above explained that the diversity of serial numbers for tickets sold on the passenger list in question is occasioned by the fact that they each sell from different blocks of tickets for the various destinations involved.

(G) Interviews of Personnel at Transportes del Norte Bus Terminal Restaurant, Monterrey, Nuevo Leon

On April 6, 1964, T-7 interviewed the following personnel of the restaurant located in the Transportes del Norte terminal at Monterrey, Nuevo Leon:

DAVID SANCHEZ GONZALEZ, manager and cashier
MARIA OTILLA TOVAR, waitress
RAFAEL ZAVALA CASTILLO, counterman
MANUEL CUELLAS GARCIA, counterman

All four of these persons advised that they work a 2:00 p.m. to 2:00 a.m. shift and that all were on duty during that shift on October 2-3, 1963. No one else worked during this shift.

Upon being shown various photographs of OSWALD, none was able to recall having seen him in the restaurant at any time.

According to T-7, the restaurant is located within the Transportes del Norte terminal in Monterrey, there being a ticket counter at one end of the terminal, a waiting room in the center, and the restaurant at the opposite end of the waiting room from the ticket counter.

(H) Inquiry at Monterrey, Nuevo Leon Main Offices of Transportes del Norte

T-18, a confidential source abroad, provided the following information:

On April 2, 1964, RAMON TREVINO QUEZADA, Vice President and General Manager of Transportes del Norte at Monterrey, Nuevo Leon, caused a search to be made for and succeeded in locating an envelope containing the tickets surrendered by the passengers to the bus drivers for the Mexico City-Monterrey travel in bus No. 332 on October 2, 1963. Among those tickets was No. 13808 which reflected thereon that it had been used for seat No. 12 on that trip.

TREVINO advised that the company records reflect that following the arrival of bus No. 332 in Monterrey at 9:15 p.m., October 2, 1963, all passengers destined for Nuevo Laredo or beyond were transferred to bus No. 373, which was driven by ALVARO IBARRA and departed from Monterrey at 9:50 p.m. He explained further that because the company has thirteen trips daily between Monterrey and Nuevo Laredo, no effort is made to maintain a record of the passengers who board the bus at Monterrey in connection therewith. Mr. TREVINO explained that IBARRA recently married and resides at Nuevo Laredo, Tamaulipas.

On April 3, 1964, Mr. TREVINO stated he had located the portion of ticket No. 13688 for travel from Monterrey to Laredo and that its presence in the envelope for that trip of October 2-3, 1963, was definite indication that the travel was performed.

(I) Bus Passenger ANASTASIO RUIZ MEZA
Identified Photographs of LEE HARVEY OSWALD

T-13 advised as follows:

On March 30, 1964, RICARDO MEDINA BELTRAN, manager of the Mexico City terminal of the Transportes del Norte bus line, advised that seat No. 15 of Transportes del Norte bus No. 332 for the trip of October 2, 1963, had been reserved for another bus line or travel agency and that the company would have no record with respect to the identity of the occupant of that seat.

On March 31, 1964, Miss ROSA MARIA OROZCO, auditor of the Auto Viajes Internacionales, S. A. (International Auto Travels, Inc.) travel agency, Lafragua No. 4, Mexico, D. F., located a record of the sale by that firm of a ticket for travel in seat No. 15 of the 8:30 a.m., October 2, 1963, bus of Transportes del Norte to Laredo to ANASTACIO RUIZ MEZA. This transportation was sold to RUIZ MEZA for travel via Transportes del Norte bus line to Laredo and from Laredo to Chicago, Illinois, by Greyhound line.

T-19, a confidential source abroad, advised as follows:

On April 5, 1964, ANASTASIO RUIZ MEZA, who resides at Sullana No. 710, Mexico, D. F., and who is employed in the Auditor's Office, Customs Section, Mexican Ministry of the Treasury and Public Credit, advised as follows:

He was a passenger on a Transportes del Norte bus which departed Mexico City at 8:30 a.m., October 2, 1963, en route to Laredo, Texas, and occupied seat No. 15 on that bus. Following his arrival in Laredo, he departed on a Greyhound Line bus with his final destination being Chicago, Illinois.

RUIZ MEZA still had the Transportes del Norte ticket stub for the Mexico City-Laredo, Texas, portion of the trip, the number of the ticket being 13619.

As nearly as he could recall, the bus departed without delay at 8:30 a.m., October 2, 1963. He believed there were about fourteen or fifteen other passengers who boarded the bus with him.

He could not remember whether or not any Americans had boarded the bus in Mexico City but stated that seated next to him on the bus was an individual whom he described as being tall, heavy and about 54 years of age. This individual, whose name he did not know, was of Mexican extraction and was traveling to Houston, Texas. This person sat next to RUIZ MEZA on the several buses from Mexico City to San Antonio, Texas, where he departed the bus. Changes of buses had occurred at Monterrey, Nuevo Leon, Mexico, and at Laredo, Texas on the trip north. (The Transportes del Norte manifest for the trip of October 2, 1963, bus No. 332, lists space for one EULALIO RODRIGUEZ in seat No. 14, which adjoins seat No. 15, with final destination for RODRIGUEZ listed as Houston.)

Directly across the aisle to his rear, the seating arrangements of the bus being staggered on either side, was a young "Ecuadorian" couple, assumed to be man and wife (seats No. 8 and No. 9). He was not certain that this couple was from Ecuador, but believed they were South Americans. RUIZ identified a photograph of JUAN MATEO DE CUBA, as it appears on Mexican Government tourist form FM-5 No. 3625296, as identical

with the above-described "Ecuadorian." RUIZ also viewed a photograph of ADA FRANCISCA BISLIP DE DE CUBA, as it appears on Mexican Government tourist form FM-5 No. 3625295, which depicts Mrs. DE CUBA wearing eyeglasses. RUIZ could not be sure this woman is identical with the woman traveling in the company of the person whom he identified as being JUAN MATEO DE CUBA. He stated that the woman who was seated next to DE CUBA was not wearing eyeglasses.

(The above-described tourist forms describe Mr. and Mrs. DE CUBA as being residents of Aruba, Dutch West Indies. The Transportes del Norte manifest for the above-described trip lists space for J. M. DE CUBA and one other person in seats No. 8 and No. 9.)

After departure from Mexico City at 8:30 a.m. on October 2, 1963, the bus did not stop until its arrival in San Luis Potosi, San Luis Potosi, Mexico, at about 1:00 p.m. the same day. After about a half-hour stop, everyone again boarded the bus for the trip to Monterrey, arriving at the Transportes del Norte terminal there about 9:30 p.m. on October 2, 1963.

RUIZ recalled that upon arrival in the bus terminal in Monterrey, everyone debarked and many of the passengers went to the restaurant located at the Transportes del Norte bus terminal to eat. While RUIZ was eating at one of the tables in the restaurant at the Transportes del Norte bus terminal in Monterrey, a young American was seated alone at a table a few yards away from him to his rear. He advised this was the first time he had noted the presence of this person, whom he described as being about 27 years of age, weighing approximately 130 to 135 pounds, with brown hair, about five feet seven or five feet eight inches in height, and of slender build. He recalled this same individual's boarding the bus in Monterrey a few minutes after him.

RUIZ viewed several photographs of LEE HARVEY OSWALD and positively identified two profile photographs of OSWALD as being of the above-described American youth who was seated to his rear in the restaurant of the Transportes del Norte bus terminal in Monterrey. He advised he had no doubt in his mind with respect to this identification.

One of the photographs identified by RUIZ was a photograph of OSWALD which had appeared in "Life" magazine depicting OSWALD passing out pro-Cuban literature on a street in New Orleans, Louisiana. (This is a profile photograph of OSWALD showing his right arm extended and his torso.)

The other photograph identified by RUIZ was a profile view of OSWALD taken at the New Orleans Police Department on August 9, 1963, under New Orleans Police Department No. 112723.

He had seen front-view photographs of OSWALD in the newspapers following the assassination of President KENNEDY; however, he pointed out that he did not associate the photographs with the above-described American nor did he give any careful or studied thought to their being identical to the American youth.

The American youth, whom he described as being OSWALD, was dressed in a light-colored, perhaps white, open-collared, short-sleeved sport shirt, and was bareheaded. According to RUIZ, this individual was not wearing a coat. He did not recall the color or type of trousers this person was wearing, his shoes, or the luggage he might have been carrying.

After the meal stop in Monterrey, which lasted approximately one-half hour, the passengers boarded a different bus of the Transportes del Norte line, and he observed there also had been a change of bus drivers at that time. He recalled that the individual whom he identified as OSWALD boarded the bus in Monterrey after he did, and after he had taken his seat, No. 15, he noticed the American youth go down the aisle past him. He believed this person had taken a seat in the right rear section of the bus or on the same side of the bus where RUIZ was seated.

He believed the bus arrived at "Kilometer 26," the Immigration and Customs control point located about sixteen miles south of Nuevo Laredo, Tamaulipas, Mexico, at about 1:00 a.m. on October 3, 1963. Upon reaching "Kilometer 26," the bus stopped and an official, whom RUIZ assumed to be a

Mexican Immigration officer, boarded the bus and proceeded to review the travel documents of the passengers on board. He recalled seeing the Immigration official in the aisle on his way from the rear to the front of the bus and hearing him exclaim in English, "Come on with me," apparently directing his remarks to someone in the rear of the bus. He then saw the Mexican Immigration official go to the front of the bus followed by the American identified by him as being OSWALD. He assumed some question had arisen as to the American's travel documents.

The interior lights of the bus were on at the time, and he saw the Immigration official and the American get off the bus and enter the small Immigration office located at the side of the road a few feet from the bus. RUIZ estimated that from the time the American left the bus with the Immigration official until the time he boarded the bus and again went to the rear of the vehicle a period of perhaps three or four minutes may have transpired.

He recalled that after the American again boarded the bus, Mr. DE CUBA left the bus and went to the Immigration office, and he assumed that there was some question with respect to DE CUBA's travel documents. He believed that about one minute later DE CUBA returned and seated himself in the bus. The only two passengers he recalled having left the bus at "Kilometer 26" were the American and Mr. DE CUBA.

He estimated that the entire operation of the Immigration check at "Kilometer 26" lasted from ten to fifteen minutes, and shortly after Mr. DE CUBA boarded the bus, the driver continued the journey to Nuevo Laredo, where the bus arrived at the Transportes del Norte bus terminal about 1:30 a.m., October 3, 1963.

All of the passengers left the bus in Nuevo Laredo, remaining at the bus terminal for a period of from twenty minutes to one-half hour. During the period the passengers were in the Transportes del Norte terminal in Nuevo Laredo, he recalled seeing OSWALD waiting near the bus alone. He did not recall observing the American speaking to anyone.

He recalled that after a short stop in Nuevo Laredo, the passengers boarded the same bus on which they had traveled from Monterrey to Nuevo Laredo. He recalled the American whom he identified as OSWALD boarding the bus at Nuevo Laredo for the trip across the International Bridge to Laredo, Texas, as he remembered seeing the American go down the aisle to the rear of the bus after he, RUIZ, was in his seat. From that point on, he does not recall seeing the American again.

The Transportes del Norte bus proceeded across the International Bridge and in several minutes was in Laredo, Texas, on the United States side of the bridge. The bus stopped on the south side of the United States Government building adjacent to the steps which lead into the offices where, according to RUIZ, he was vaccinated.

All passengers left the bus and proceeded up the stairway leading to what he assumed were Immigration offices. He stated that he and another person, whom he described as a short Mexican male of advanced age and who he believed had boarded the bus at Monterrey, were the only persons who remained behind to be vaccinated.

RUIZ estimated that the entire United States Government processing operation at the port of entry was about one-half hour in duration. Everyone already had boarded the bus by the time he had been processed by United States Immigration, and he was the last of the passengers to board the bus for the short trip to the Laredo bus terminal.

Upon reaching the Laredo bus terminal, everyone again left the bus. After about one-half hour, he boarded a two-tiered Greyhound Line bus in the Laredo bus terminal and automatically seated himself in seat No. 15, since he had been in that seat all the way from Mexico City. He estimated that there might have been a total of from fifteen to twenty passengers who boarded the Greyhound bus at Laredo.

RUIZ estimated the departure from Laredo of the Greyhound bus as being about 3:00 a.m., October 3, 1963, and the arrival in San Antonio, Texas, as about 8:00 a.m. that same morning. He observed that everyone got off the bus at

San Antonio, and he believed the stop in San Antonio lasted about one-half hour, after which the passengers boarded the same bus and proceeded to Dallas, Texas, arriving at about 1:00 p.m. on the same day.

RUIZ recalled that the stop in Dallas lasted about two hours, and it was approximately 3:00 p.m. when the same bus departed Dallas for the journey to Chicago, Illinois, via Tulsa, Oklahoma.

RUIZ recalled seeing for the last time the American whom he identified as OSWALD when the latter boarded the bus at Nuevo Laredo prior to the trip across the International Bridge to Laredo, Texas. RUIZ believed that the American had boarded the same Greyhound bus at Laredo on the morning of October 3, 1963, and continued the trip to Dallas, Texas, but stated he did not notice him nor did he pay particular attention to the other passengers.

RUIZ did not recall having seen the American speak to anyone at any time, and it appeared to RUIZ that the American was traveling alone. He commented that the American had given him the impression of being a quiet individual of a retiring nature.

RUIZ viewed a photograph of PHILIPPE PITER E. VAN DER VORM, as it appears on Mexican Government tourist form FM-3 No. 624820, which VAN DER VORM utilized upon entry to Mexico in September, 1963. RUIZ did not recall having seen this person as a passenger on either of the Transportes del Norte buses on the trip from Mexico City to Laredo in October, 1963.

(J) Interview of Transportes del Norte Passenger JOSE BARRIGA BERNAL

On April 6, 1964, Captain JOSE BARRIGA BERNAL advised T-13 that he is a retired officer of the Mexican Army and resides in Mexico City at Gabino Barreda 104, Apartment No. 3. He recalled that on October 2, 1963, he and his wife had traveled from Mexico City to Laredo on Transportes del Norte, and after entering the United States, had continued to Dallas, Texas, via Greyhound bus. He viewed available photographs of OSWALD and

stated emphatically that he could not recall him as a passenger. He mentioned that the only passenger he could recall was AGAPITO DEL RIO, with whom he conversed while they were passing through United States Customs at Laredo, Texas.

(X) List Obtained of Departure of Non-Mexican Citizens on October 3, 1963, at Nuevo Laredo, Tamaulipas

T-1, who is familiar with the workings of the Mexican Ministry of Gobernacion (Interior), made available for examination the forms FM-5 and FM-8 for all non-Mexican citizens departing Mexico at Nuevo Laredo, Tamaulipas, as tourists on October 3, 1963, as well as the copies of forms FM-11 containing the recapitulation of the departures from Mexico at Nuevo Laredo on this date.

Investigation in this case disclosed that OSWALD departed from Mexico at Nuevo Laredo on October 3, 1963. OSWALD's departure was handled by Mexican Immigration Service employee ALBERTO ARZAMENDI CHAPA.

According to T-1, ARZAMENDI CHAPA worked the 12:00 midnight to 8:00 a.m. shift on October 3, 1963.

83. JOHN H. BENNETT. Departed utilizing form FM-17 No. 518151, issued by Mexican Immigration Office, Nuevo Laredo, October 3, 1963. The form FM-17 is not used ordinarily by tourists but rather by Mexicans and foreigners having permanent residence in Mexico. Attached to the form FM-17 was an official statement drawn up by the Mexican Immigration Office in Nuevo Laredo which set forth that BENNETT, a resident of 10250 Haitian Drive, Miami, Florida, had been stopped on October 3, 1963, at a Mexican Immigration check station located 26 kilometers south of Nuevo Laredo. At that time BENNETT claimed that he had lost his tourist documentation and stated he had originally entered Mexico at Nuevo Laredo. A check of the Mexican Immigration records at Nuevo Laredo disclosed that BENNETT had entered Mexico at that port of entry on September 8, 1963, on FM-8 No. 625114. From this, it was obvious that BENNETT had overstayed his fifteen-day permission granted by the FM-8 and, accordingly, he was required to deposit 200 pesos to cover any fine that might grow

out of his overstay in Mexico, and he was permitted to depart Mexico using the form FM-17. This form described him as 53 years of age, born in Nutley, New Jersey, married, accountant, and proceeding from Guadalajara, Jalisco, to Houston, Texas, by automobile. The same information appeared on the FM-11. Departure was handled by JOSE REBOLLEDO LARA.

98. JOHN O. BRIAN, FM-8 No. 626185, issued by Mexican Immigration Office, Nuevo Laredo, September 30, 1963. (It is to be noted this individual appeared to sign his name as JOHN O'BRIEN.)

99. As has been previously reported, this traveler was OSWALD. He was in possession of Mexican tourist card form FM-8 No. 24085, issued September 17, 1963, by the Mexican Consulate General, New Orleans, Louisiana, under the name of LEE, HARVEY OSWALD. The card was signed LEE H. OSWALD. The card described him as 23 years of age, married and a photographer by profession. It indicated that he presented a birth certificate as proof of citizenship. Entry was at Nuevo Laredo on September 26, 1963, with an announced final destination of Mexico City. No means of travel was shown on the tourist card, either at the time of entry or at departure on October 3, 1963. The FM-11 listed his name as HARVEY OSWALD LEE, showed he was proceeding from Mexico City

with a final destination of New Orleans, Louisiana, and that he was traveling by auto. Records of the Mexican Immigration Service in Mexico City contain no information to substantiate that he actually was traveling by automobile. As has been previously reported, the departure of OSWALD was handled by an employee of the Mexican Immigration Service named ALBERTO ARZAMENDI CHAPA.

(L) Additional List of Persons Who Departed on October 3, 1963, and Entered on September 26, 1963, at Nuevo Laredo, Tamaulipas, Mexico

T-20, a confidential source abroad, advised as follows:

In order to ascertain the identities of other persons who entered Mexico at Nuevo Laredo on September 26, 1963, and departed Mexico at Nuevo Laredo on October 3, 1963, utilizing travel documents other than FM-5 and FM-8 tourist cards, the following inquiry was conducted:

On April 20 and 29, 1964, source examined the original Mexican Immigration Department FM-11 forms recording data concerning persons who entered Mexico at Nuevo Laredo on September 26, 1963, and departed from Mexico at Nuevo Laredo on October 3, 1963, with various types of travel documents. The original FM-11 forms relating thereto were reviewed inasmuch as separate lists are maintained for each type of travel document issued to travelers. The following is the complete list of persons of record who entered Mexico at Nuevo Laredo on September 26, 1963, and who departed Mexico through that city on October 3, 1963, utilizing travel documents other than FM-5 and FM-8 tourist cards. It was explained to source that these persons and those previously recorded as having entered and departed with forms FM-5 and FM-8 do not include all persons who entered and departed at Nuevo Laredo on September 26, 1963, and October 3, 1963, respectively, as there are numerous individuals who cross the United States-Mexico border daily who are not documented by Mexican authorities, including many Mexican nationals traveling from the interior of Mexico to the United States.

T-21, a confidential source abroad, compiled the following from a review of the forms FM-11 described above:

(M) OSWALD's Travel Documents and Mexican Government Records

The following information was furnished by T-13 on March 17, 1964:

The travel document with which LEE HARVEY OSWALD entered Mexico on September 26, 1963, is described as a Mexican Ministry of "Gobernacion" (Interior) FM-8 and is commonly referred to as a tourist card, which consists of two sections, an original and a carbon copy duplicate. At the time of OSWALD's travel to Mexico, the FM-8 was valid for a single entry to the interior of Mexico and residence therein for no longer than fifteen days. The original tourist card utilized by OSWALD records the following data:

FM-8 No.:	24085, valid for 15 days
Full Name:	LEE, HARVEY OSWALD
	Photographer
Sex:	Male
Marital Status:	Married
Document with which nationality was established:	Birth Certificate
Final Destination:	Mexico, D. F.

Date and Place (of issuance): New Orleans, La., USA, September 17, 1963
Signature of Bearer: LEE H. OSWALD

It bears the stamp of the Consulate General of Mexico at New Orleans, Louisiana, indicating issuance by that agency, and the date stamp of Mexican Immigration official HELIO TUEXI MAYDON, reflecting entry into Mexico at Nuevo Laredo, Tamaulipas, September 26, 1963. The stamp for departure is that of Immigration official ALBERTO ARZAMENDI CHAPA and the date shown is October 2, 1963. Under normal procedures, the means of travel of the bearer upon entry to Mexico is recorded with a stamped, typed, or handwritten notation; however, this record does not appear on the FM-8 for OSWALD.

A review of the original tourist cards (FM-5, FM-8, and one FM-17, the latter explained above) in the possession of the Immigration Department of the Mexican Ministry of "Gobernacion" revealed that 79 persons documented with those forms had departed from Mexico at Nuevo Laredo, Tamaulipas, on October 3, 1963, among them LEE HARVEY OSWALD.

On March 23, 1964, Mr. MACLOVIO HERRERA, Chief of the Travel Control Files of the Mexican Immigration Department described the Immigration form "FM-11" as a "statistical record to be prepared every two weeks on nationals and aliens entering and leaving the country." Mr. HERRERA explained that separate FM-11 forms are submitted semimonthly by all Mexican Immigration stations for entries and departures from Mexico. He explained that separate lists are prepared in connection with the various types of travel documents presented and are submitted in duplicate (an original and one carbon copy) to the Travel Control Files for checking and comparison with the tourist cards or other travel documents on which they are based.

Under current procedures, twenty names are placed on each page of the FM-11 in alphabetical order by date, and prior to final filing these are reviewed by a clerk who may make corrections and report possible discrepancies which might require investigation in order to make certain that the immigration laws of Mexico are not being violated. The items of information which are recorded on the FM-11 in horizontal columns are: chronological number (chronological listing number

during fifteen-day period), identification document number, complete name, sex, age, marital status, nationality, occupation, place and country of origin, final destination, date of entry or departure, type of vehicle in which traveling, date of entry, date of departure (latter columns to determine period of residence), and remarks.

A review of the original tourist cards for persons traveling as tourists who departed from Mexico at Nuevo Laredo on October 3, 1963, disclosed that in no instance did any notation appear on the travel documents to indicate the manner of travel of the bearer or the destination in the United States upon departure from Mexico.

It was observed that on the FM-11 forms, the "destination" of the traveler at the time of departure was completed invariably with the same information as appeared on the tourist card as to place of residence, place of issuance thereof, or a notation that the information was not available.

FM-11 Preparation and Utilization by Mexican Immigration

Inspector JOSE MARIO DEL VALLE of the Inspection Department of the Mexican Ministry of "Gobernacion," who conducted investigation at Nuevo Laredo concerning the travel in Mexico of LEE HARVEY OSWALD, advised on March 12, 1964, that the typist who prepares the FM-11 has no information available to her other than that which appears on the tourist cards. He stated the typist prepares the FM-11 for persons entering the country from the duplicate copies of the tourist cards which are surrendered to the Immigration official at the time of entry of the traveler. The duplicate tourist cards are then transmitted to the headquarters of the Immigration Department in Mexico, D. F., with the FM-11 form for the fifteen-day period.

In the same manner, the FM-11 form for departures is prepared on the basis of data taken from the original of the tourist card, which is surrendered by the traveler to the Immigration official upon departure from the country.

DEL VALLE acknowledged that the Mexican Immigration Department does not have any major interest in "method of travel" or "destination" of the departing traveler, other than to make certain that the individual who enters the country with an automobile is removing the vehicle upon departure. He added that the typist who prepares the departure FM-11 usually records the means of travel as being the same as that appearing on the tourist card in connection with the traveler's entry to the country; however, in some instances she may "guess" at the means of travel on the basis of the usual assignment at the airport, railroad station, or highway checking station of the Immigration official whose cancellation stamp appears on the tourist card.

On March 13, 1964, MACLOVIO HERRERA, Chief of the Travel Control Files of the Mexican Department of Immigration, Ministry of "Gobernacion," and his assistant, EDUARDO RIVAS, made the following comments concerning Mexican Immigration records and procedures:

The "means of travel" and "destination" data appearing on the departure FM-11 forms are not information in which the Mexican Immigration Department has any substantive interest and are filled out by the typist only because the same form is used to record both arrival and departure information. This information with respect to "arrivals" is most essential to assist the Immigration Department in maintaining a record and control of aliens who are in Mexico as temporary residents without authorization to be gainfully employed. There is no source of information from which the typist preparing the FM-11 can obtain data for it other than the tourist cards, data provided to her by the Immigration official who may bundle a group of cards together and label them as having been taken up on a departing train or other vehicle, or her own knowledge of the Immigration station where the cancelling official may have been working during a particular period of time.

Inquiry was made of HERRERA with respect to certain horizontal lines which appear on the FM-11, and he explained that such lines are drawn to delineate between different dates on the same page and also to designate an individual concerning whom some research is being done or a report has been submitted to some section or department of the Ministry of "Gobernacion."

With respect to the fact that on the copies of the FM-11 which were made available for study and review there appeared under the "Remarks" (No. 16) column considerable data concerning the date and place of issuance of the tourist cards, HERRERA advised that this information did not appear on the originals of the FM-11 which were in his possession, and he was certain that this information had been added only on the carbon copy.

On March 23, 1964, T-1 produced the carbon copies of the FM-11 forms relating to OSWALD's travel in Mexico, and it was observed that column 16 thereof had been completed in original typing with data from the tourist cards as to date and agency where each tourist card had been issued. T-1 said that the entries in column 16 were made to be of possible assistance in the investigation with respect to Oswald. T-1 added that the information in column 16 was taken from the tourist cards of the travelers who were recorded in the FM-11 forms.

With regard to the observation that the date of issuance of OSWALD's tourist card was recorded in column 16 as having taken place on "Sept. 16/63," T-1 stated very definitely that this had been a typographical error on the part of the stenographer, who should have copied the information from OSWALD's tourist card to the effect that it had been issued on September 17, 1963.

V. OTHER INQUIRIES CONCERNING OSWALD'S TRAVEL

(A) Transportes Frontera Bus Line

The original passenger list or manifest relating to departure No. 2 of bus No. 340 on October 2, 1963, of the Transportes Frontera, S. A. de C. V. bus line, which has its headquarters in Monterrey, Nuevo Leon, Mexico, and its Mexico, D. F. terminal at Calle Buenavista No. 7, was obtained.

The information recorded on the passenger list is handwritten; the names are not complete; and portions of it are not legible; however, the following constitutes an effort to reproduce as clearly as possible the information which appears on the list.

At the top of the manifest the name, Transportes Frontera, is handwritten, and in Spanish the following headings are printed:

RESERVATIONS FOR 13 O'CLOCK,

DESTINATION Laredo, DEPARTURE NO. 2,

ON BUS NO. 340, DATE 2, MONTH, October of 1963.

The underlined portions are blanks which had been completed in ink.

Following the list of passengers is the notation: "9 Laredo, 7 Monterrey."

Handprinted at the bottom of the page appears: "DRIVER, DIONISIO REYNA, FCO. SAUCEDO," as well as the numbers "13 - 2."

On the left-hand margin of the manifest are the handwritten figures, "78" and "16." At the top right-hand corner thereof are the numerals "186," "41" and under these "227." On the backside of the document are the numbers "143.30" and "108.80" and thereunder, as though a column of addition, "255.10."

The following information was made available by T-13 on March 9, 1964:

On March 5, 1964, GILBERTO LOZANO GUIZAR advised that he is the manager of the Mexico City terminal of the Transportes Frontera bus company, Calle Buenavista No. 7, which has a franchise for "through service" between Mexico,

of the Mexican Presidential Staff, the blanks at the top of the form had not been filled in as to time, destination, trip number, bus number, and date, but they had completed those blanks from their personal knowledge in order to make that data clear to the investigators. They also had listed the names of the drivers on the form at that time. They affirmed that the handwritten "Transportes Frontera" at the top of the document had been added by some official of the Mexican Government after the document was borrowed from them. Both LOZANO and ALVARADO stated they had no recollection of LEE HARVEY OSWALD, could not recognize his photograph as being of an individual who had been at the terminal or traveled on that bus line, and had no personal knowledge with respect to his contacts and activities in Mexico. They could offer no explanation as to how Mexican authorities had arrived at the conclusion that OSWALD traveled on the Transportes Frontera bus of October 2, 1963, but pointed out that, after the name was located on the manifest, they had not been given an opportunity of reviewing or checking the data thereon.

LUCIO LOPEZ MEDINA, baggage and freight handler at Transportes Frontera, related that he often assists the ticket salesman by recording reservations and is quite certain he wrote "OSWLD" and "Lared" opposite seat No. 4 on the passenger manifest of October 2, 1963. He stated he also recorded the reservations and ticket sales to "FCO. SAUCEDO," one of the drivers, opposite seats Nos. 1 and 3, "ANGEL GALLEGOS," seat No. 8, and possibly other items on the manifest. He had no personal recollection of OSWALD, could not recognize his photograph as being of anyone who had been at the bus terminal, and did not believe OSWALD had embarked on the bus in question.

T-12 furnished the following information:

On March 31, 1964, GILBERTO LOZANO GUIZAR, manager of the Mexico City terminal of the Transportes Frontera bus company, Calle Buenavista No. 7, Mexico, D. F., emphatically advised that the original passenger list or manifest relating to departure No. 2 of bus No. 340 on October 2, 1963, of the Transportes Frontera bus company, is an authentic record of data pertaining to that particular trip.

LOZANO pointed out that a passenger list is compiled at the Mexico City terminal of the company for trips originating in Mexico City and that following the departure of the bus, information relating to the number of passengers destined to particular points, is radioed ahead to one of the main offices located along the point of travel. In case of the above-described trip, the information was reported by radio to their Monterrey office. LOZANO advised that once the information is relayed ahead and the trip is completed, for all practical purposes, they have no further need of conserving the passenger lists as a permanent record.

He advised that officers of the Presidential Staff appeared at the bus terminal shortly after the assassination of President KENNEDY, seeking to review passenger lists of the bus company for early October, 1963, and it was found at that time that the completed block of forms for most of the month of October, 1963, which included the above-described passenger list, was still in the baggage room at the terminal prior to being discarded. He stated he had torn the October 2, 1963, manifest from the block of forms and furnished it to one of the officers. LOZANO advised that one Lieutenant ARTURO BOSCH, an investigator of the Presidential Staff, had reviewed the above-described manifest.

LOZANO expressed the opinion that ARTURO BOSCH had filled in the blanks in ink at the top of the form as to the time, destination, trip number, bus number, and date, and had crossed out the date "November 1," replacing it with the notation "October 2" which appeared on the manifest. LOZANO stated BOSCH had done so on the basis of information he and FRANCISCO ALVARADO, the ticket salesman, had furnished to BOSCH as an aid to his investigation of the matter.

LOZANO stated the handprinted notation appearing at the bottom of the manifest, "Driver, DIONISIO REYNA, FCO. SAUCEDO," was also filled in by BOSCH.

LOZANO advised that there definitely was only one section of bus No. 340 which departed Mexico City at 1:00 p.m. on October 2, 1963, en route Monterrey, Mexico, and Nuevo Laredo, Mexico. He explained that the notation "Departure 2" appearing on the top of the manifest, which he believed BOSCH

had filled out, merely indicates the second departure of a Transportes Frontera bus on that particular day, October 2, 1963. The first departure of one of their buses on that day from the Mexico City terminal occurred at 9:00 a.m. with the terminal point being Monterrey, Mexico. He stated the second departure of a Transportes Frontera bus from the Mexico City terminal on October 2, 1963, was the departure at 1:00 p.m. with the terminal point being Nuevo Laredo, Mexico, and the passengers on this bus were recorded on the above-mentioned manifest of October 2, 1963. He stated there were three other departures on that day from the Mexico City terminal, the third departure having occurred at 2:30 p.m. with the terminal point being Matamoros, Tamaulipas, Mexico; the fourth departure having occurred at 9:00 p.m. with terminal point at Nuevo Laredo; and the fifth departure at 10:00 p.m. with terminal point being Ciudad Juarez, Chihuahua, Mexico. LOZANO advised the only bus operating on their line which would have arrived at Nuevo Laredo between the hours of 12:00 a.m. and 8:00 a.m. on October 3, 1963, is bus No. 340, which departed from the Mexico City terminal at 1:00 p.m. on October 2, 1963.

T-13 and T-21 furnished the information which follows:

On March 25, 1964, FRANCISCO ALVARADO, ticket salesman and dispatcher for the Transportes Frontera bus company at Mexico City, advised that the above-described manifest is an authentic document. He stated he had prepared most of the handwriting on the manifest. With regard to the notations appearing at the top of the manifest as to time, destination, trip number, bus number, and date, he expressed the opinion that those notations were filled in by one of the Presidential Staff investigators who reviewed the manifest at the bus terminal shortly after President KENNEDY's assassination. He advised that the handprinted notation appearing at the bottom of the page of the manifest, "Driver, DIONISIO REYNA, FCO. SAUCEDO," also was made by one of the President Staff investigators, and he believed this person was Lieutenant ARTURO BOSCH.

On March 25, 1964, FRANCISCO SAUCEDO, bus driver for the Transportes Frontera bus company, advised in Mexico City that he had been one of the bus drivers who had driven the Transportes Frontera bus No. 340 on October 2, 1963,

which departed Mexico City at 1:00 p.m. on that day en route to Monterrey and Nuevo Laredo. He stated seats No. 1 and No. 3 on that bus had been reserved by him under tickets No. 39633 and No. 39634; however, he did not recall for whom he had made the reservations. He said that on occasion he reserves seats in advance for friends or relatives but never does so for anyone with whom he is not acquainted. He could not recall who had utilized those seats on that particular day. He stated he was certain that seats No. 1 and No. 3 were not used by OSWALD or ANGEL PEREZ.

On March 25, 1964, DIONISIO REYNA, who was co-driver with SAUCEDO on Transportes Frontera bus No. 340 of October 2, 1963, advised at Mexico City that he could furnish no information regarding the individuals who had utilized seats No. 1 and No. 3 on the trip in question. REYNA stated he was quite certain that OSWALD did not travel on that particular bus.

(B) Inquiry at Flecha Roja Bus Terminal

On March 7, 1964, JESUS SAUCEDO, comptroller at the terminal of the Flecha Roja (Red Arrow) bus company, Heroes Ferrocarrileros No. 45, Mexico City, advised that the full and complete name of the company is Servicios Unidos Autobuses Blancos, Flecha Roja, S. A. de C. V. (The Unified Services of White Autobuses Red Arrow, Incorporated) and that it provides bus service to numerous localities within Mexico, as well as to Nuevo Laredo, Tamaulipas, and Laredo, Texas. He explained that two trips daily are made to Nuevo Laredo and Laredo, where the line makes connection with the Continental Trailways Bus System of the United States, departures from Mexico City being scheduled for 3:15 p.m. and 7:30 p.m. each day and arrival at Nuevo Laredo 19 hours later.

SAUCEDO advised that a passenger list is prepared in duplicate for reservations and ticket sales for a given trip; the original is carried by the driver, and the carbon copy is transmitted to him for final checking and auditing of the operation in connection with each bus.

With the assistance of SAUCEDO, a search was made of the passenger manifests of the company for all trips to

Laredo for October 1, 2, and 3, 1963, without locating any information identifiable with the name LEE HARVEY OSWALD.

(C) OSWALD's Time of Arrival in Mexico City

T-12 advised as follows:

On April 13, 1964, JULIO CASTRO, employee of the accounting department in the offices of the Flecha Roja bus line, Mexico, D. F., made available the ledger of arrivals at Mexico, D. F., for the Flecha Roja buses. The ledger records separate entries for each day, with the exact time of arrival of each bus in Mexico, D. F., at the terminal.

This ledger disclosed that bus No. 516 of the Flecha Roja bus line, which made the trip from Nuevo Laredo, to Mexico, D. F., on September 26-27, 1963, arrived at the Flecha Roja bus terminal, Heroes Ferrocarrileros No. 45, Mexico, D. F., at 10:00 a.m. on September 27, 1963.

(D) Efforts to Locate Flecha Roja Passenger List

T-12 furnished the following information:

On March 19, 1964, ALEJANDRO SAUCEDO, manager of the Flecha Roja bus terminal, Mexico, D. F., advised that the original passenger manifest of bus No. 516 which had traveled from Nuevo Laredo to Mexico, D. F., on September 26-27, 1963, had been borrowed by investigators of the Mexican Government soon after the assassination of President JOHN F. KENNEDY. He could not recall the identities of the investigators and did not know whether or not they intended to return the list. SAUCEDO stated the duplicate copy of this passenger list was maintained in the office of the Flecha Roja bus line at Nuevo Laredo and he would attempt to obtain this copy.

On March 24, 1964, ALEJANDRO SAUCEDO stated he had determined from the Flecha Roja bus line office in Nuevo Laredo that the duplicate copy of the passenger list for bus No. 516 also had been borrowed by unidentified investigators of the Mexican Government and had not been returned.

SAUCEDO stated he had assisted the Mexican Government investigators in searching for the passenger list relating to the trip of September 26-27, 1963, and was quite certain the name of LEE HARVEY OSWALD did not appear thereon. He added, however, that the Flecha Roja bus line makes connection at Laredo, Texas, with the Continental Trailways bus line in the United States, and if a passenger who had purchased a through ticket to Mexico, D. F., from a point within the United States were to board the Flecha Roja line at Laredo or Nuevo Laredo, no record of that passenger by name would be made on the passenger list. He explained that the passenger list would include a seat designation and ticket number in the name of "Continental."

T-12 advised that on April 2, 1964, and thereafter, ALEJANDRO SAUCEDO furnished the following additional data:

He recalled that shortly after the assassination of President JOHN F. KENNEDY two investigators, whom he described as being with the "Policia Federal Judicial" (Federal Judicial Police), appeared at the Flecha Roja terminal, Mexico, D. F., and requested the original passenger list of bus No. 516 of September 26, 1963, for review. SAUCEDO remembered that the two investigators examined the passenger lists, filed by dates, in a storeroom at the offices of the Flecha Roja bus terminal and found the original copy for the pertinent date and borrowed same. He could not recall the names of the investigators or the exact date they appeared at the office.

SAUCEDO now recalled clearly that these two investigators, whom he could only describe as being "in their thirties," had the duplicate copy of the passenger list which apparently had been at the Flecha Roja bus terminal office in Nuevo Laredo when the trip for September 26, 1963, began. The investigators stated they wanted the original list because the duplicate copy was not completely legible. SAUCEDO stated they had the original and duplicate copy of the passenger manifest for Flecha Roja bus No. 516 for September 26, 1963, when they left.

SAUCEDO stated the investigators did exhibit to him government credentials, agency not recalled, and advised they were interested only in finding the passenger list for the incoming trip of bus No. 516 on September 26, 1963. When

SAUCEDO asked them if they were interested in locating a departure trip, they stated they were not, explaining they had just been at the bus terminal of Transportes Frontera in Mexico, D. F., where they had located the passenger list for OSWALD's departure from Mexico.

On April 9, 1964, JULIO CASTRO, an employee of the accounting department in the offices of the Flecha Roja bus line terminal, Mexico, D. F., made available on instructions of ALEJANDRO SAUCEDO the original passenger lists of the Flecha Roja bus line, which were kept in a storeroom across the hall from the accounting office and were maintained in a disorganized manner, bound with heavy string in bundles and stored in bins.

The available bundles for the period September and October, 1963, were reviewed without locating a passenger list for bus No. 516 relating to September 26, 1963.

During this search and review, an untied, loose bundle dated October 5, 1963, was located thrown aside in a cardboard box on the floor of the storage room outside the bin area. This bundle was reviewed and found to include passenger lists for dates September 21, 1963, to October 5, 1963, but no passenger list for bus No. 516 for September 26, 1963, was found.

The information hereinunder was furnished by T-13:

On March 24, 1964, Captain FERNANDO GUTIERREZ BARRIOS, Assistant Director of the Mexican Federal Security Police (DFS), advised that his agency had conducted no investigation in connection with the travel in Mexico of LEE HARVEY OSWALD and did not have in its possession any passenger lists from any bus lines.

On April 14, 1964, the fact the passenger lists of the September 26, 1963, Flecha Roja trip from Nuevo Laredo to Mexico, D. F., had never appeared and were alleged to be in the hands of an unidentified investigative agency of the Mexican Government was brought to the attention of the Acting Minister of Government, Attorney LUIS ECHEVERRIA, who issued instructions to the Chief of the Inspection Department of the Immigration Service, Attorney SANTIAGO IBANEZ LLAMAS, to make every effort to locate the passenger list described above.

On May 1, 1964, Inspector JOSE MARIO DEL VALLE advised that he had been instructed to attempt to locate the Flecha Roja passenger list and was making every effort to do so.

(E) Transportes del Norte Passengers Originating in Guadalajara

On April 3, 1964, T-3 advised that the Linea Azul (Blue Line) bus company affords service from Guadalajara, Jalisco, Mexico, to San Luis Potosi, State of San Luis Potosi, Mexico, to make connections with Transportes del Norte for possible further travel to Monterrey and Nuevo Laredo, Mexico. According to T-3, a reservations list for the October 2, 1963, 8:00 a.m. departure of the Blue Line bus from Guadalajara with San Luis Potosi as its destination reflects the following information as best the names and other data thereon could be deciphered:

Name of Passenger	Destination	Ticket No.
HILDA QUEZADA	N. Laredo	77898
----- (*)	-----	99
JOSE CRUZ	Monterrey	00751
HILDA QUEZADA	N. Laredo	77900 ½ (**)
CECILIO CARDENAZ	Monterrey	00749
JOSE MAZO	San Luis	14128
VICTORIA MAGALLANES	(apparently did not travel)	
MAXIMINO ESQUIVEL	Monterrey	00752
PEDRO GLEZ. (GONZALEZ)	Monterrey	00753
AURELIO HDEZ. (HERNANDEZ)	San Luis	1362

(* Lines indicate second passenger or seat reserved in name of preceding passenger)
(** ½ indicates half fare paid)

Comprehensive investigation, including a check of the files of the United States Consulate visa records, a check of telephone directories, and numerous interviews of persons listed in the telephone directories with similar names, were conducted at Guadalajara for the above names of persons traveling beyond San Luis Potosi, without identifying anyone who had been a passenger of Transportes del Norte on October 2, 1963.

(F) Transportes del Norte Bus Line Operation, Monterrey

The following information was furnished by T-18.

On April 19, 1964, RAMON TREVINO QUEZADA, vice president and manager of the Monterrey, Nuevo Leon, terminal of Transportes del Norte bus line, advised that tickets are taken up by the driver from passengers at the time they board the bus, and he deposits them in a mahila envelope, which is provided for that purpose in connection with each trip of a unit and driver. He stated the driver makes a notation on the outside of the envelope as to the number of passengers traveling over a determined section of the route, and the tickets inside the envelope should coincide or balance with the notation by the driver on the envelope.

With respect to the records of the company for the trip of bus No. 373 on October 2, 1963, from Monterrey to Nuevo Laredo, Tamaulipas, and Laredo, Texas, TREVINO advised that he was unable to explain the fact that the envelope carries the figure of "12" passengers from Monterrey, Nuevo Leon, to Nuevo Laredo, Tamaulipas, and Laredo, Texas, and "1" passenger from Nuevo Laredo to Laredo, although a total of "20" ticket sections were in the envelope for that particular trip. He stated, however, that the notation by the driver is a clerical function which he handles during the trip, often at night and under considerable stress and pressure, and he can only conclude that the driver made an error in writing "12" rather than "19" upon completing his collection of tickets and delivering the envelope at the conclusion of his run.

It was mentioned to TREVINO that the baggage manifest for the bus which arrived at Nuevo Laredo in the early morning of October 3, 1963, had listed the number of that bus as No. 393, and he advised that this notation could only be a clerical error by the baggage handler. He displayed a copy of a document referred to as a "traffic report" for Transportes del Norte at its Nuevo Laredo terminal for October 3, 1963, which recorded that bus No. 373 had arrived at that terminal at 1:35 a.m. with A. IBARRA as the driver. The "traffic report" for October 2, 1963, registered the arrival of bus No. 396

at Nuevo Laredo as having taken place at 15:30 (3:30 p.m.) on that date and its departure from Nuevo Laredo for Monterrey was recorded on the report for the following day as having occurred at 2:30 a.m. He pointed out that on the basis of the foregoing records, bus No. 396 would still have been at the Nuevo Laredo terminal at the time of arrival on October 3, 1963, of bus No. 373, and he assumed the baggage handler had become confused between them when he made the erroneous notation on the baggage manifest.

(G) Ticketing Procedures by Transportes del Norte Bus Line

The following information was furnished by T-13:

On April 20, 1964, RAMON MEDINA BELTRAN, manager of the Mexico City terminal of the Transportes del Norte bus line, advised that this company is affiliated with the Greyhound Lines in the United States and is authorized and in a position to sell transportation to any point in the United States. He stated that until approximately one year ago the sale of bus transportation in the United States in behalf of Greyhound Lines had been effected through a system of exchange or purchase orders; however, in the interest of simplifying the sales and accounting procedures, Transportes del Norte ticket counters are now stocked with Greyhound Lines tickets and make direct sales in behalf of Greyhound, as well as its own facilities. He stated very definitely that the only record as to the identity of any person purchasing Greyhound transportation through a Transportes del Norte ticket counter would be the recording of the seat reservation on a passenger list at the point of origin or purchase of the ticket.

VI. MISCELLANEOUS INQUIRIES AT MEXICO CITY CONCERNING OSWALD

(A) Telephone Numbers in Oswald's Address Book

The April 1,1964, issue of the "Diario Oficial" ("Official Daily"), which states on the cover that it is the "Organ of the Constitutional Government of the United States of Mexico," records as emanating from the Ministry of Foreign Affairs the "List of the Diplomatic Corps Accredited to the Government of the United States of Mexico." On page 15 of the above-described publication under "Union de Republicas Socialistas Sovieticas" (Union of the Soviet Socialist Republics) is recorded the data: "Cancilleria y residencia: (Chancellery and residence) Calzada de Tacubaya 204, Telefonos: (Telephones) 15-60-55 y (and) 15-61-55." The foregoing data is followed by a listing of names and residence addresses of the Soviet diplomatic officials and their wives.

T-16, who is in a position to be well-informed with respect to the day-to-day operations of the Mexico City ticket offices of the "Compania Cubana de Aviacion" (Cuban Aviation Company - commonly referred to as "Cubana Airlines"), furnished the following information on April 18, 1964:

Most of the office employees at the Cubana Airlines ticket office, Paseo de la Reforma 56, Mexico City, are Mexican citizens. Source would have an excellent possibility of being informed of any visits or inquiries made at the Cubana Airlines offices by an American, and is thoroughly convinced that LEE HARVEY OSWALD did not appear at those offices during late September and early October, 1963, within the regular working hours. Source viewed various photographs of OSWALD and also consulted with associates at the Cubana Airlines office and reiterated the conviction that

OSWALD had not been at those offices at any time.

This source confirmed that the published and most used telephone number for the Cubana Airlines office is 35-79-00.

(B) Possibility OSWALD Sent or Received Money

T-11 reported that on January 13, 1964, ALFONSO FRIAS, Assistant Chief of the Bank of Mexico Police at Mexico, D. F., Mexico, advised that a check of the records of "Telegrafos Nacionales" failed to disclose any record of money sent or received by OSWALD during the time he was in Mexico through use of communications channels handled by that telegraph system.

On March 6, 1964, FRIAS advised that all banks in Mexico, including all branch banks, were checked officially for LEE HARVEY OSWALD and his aliases of O. H. LEE and ALEK JAMES HIDELL, and no information was developed that OSWALD had received or sent any money through those banks during the time he was in Mexico.

(C) Inquiries at Hotel Cuba

PATRICIA WINSTON and PAMELA MUNFORD, who were passengers on the same bus with OSWALD from Monterrey, Nuevo Leon, Mexico, to Mexico, D. F., September 26-27, 1963, when interviewed on December 17, 1963, related that during the bus trip OSWALD recommended that they stay at the Hotel Cuba in Mexico City. They related that OSWALD claimed he had stayed at that hotel several times before and pointed out that the hotel was inexpensive, mentioning, however, that he was not staying at the Hotel Cuba during his current trip.

Inquiry was conducted to establish whether OSWALD had, in fact, stayed at the Hotel Cuba during a period following his return to the United States from Russia in June, 1962 to November, 1963.

On December 27, 1963, T-4 advised that an exhaustive search of the records of the Hotel Cuba located at Calle Republica de Cuba No. 69, Mexico City, for the period June, 1962, to October, 1963, failed to disclose any registration

for OSWALD under his name or known aliases.

T-12 advised as follows:

On March 11, 1964, ANGEL CELORIO, manager, Hotel Cuba, made available records of that hotel, which were rechecked for the period June 9, 1962, to November 22, 1963, and no record could be located for the name of LEE HARVEY OSWALD or his known aliases O. H. LEE and ALEK JAMES HIDELL. The records did contain a registration for one ROBERTO LEE, who registered at the hotel on August 11, 1963, was assigned room No. 27, and checked out of the hotel on August 21, 1963. No further identifying data regarding this LEE was contained in the records. (OSWALD had been reported as being at New Orleans, Louisiana, during that period.)

CELORIO advised he has been at the Hotel Cuba only since November 11, 1963, when he became manager, and prior thereto, JOSE SANCHEZ, who is presently associated with another hotel in Mexico City, served as manager for about a four-month period and Mr. RAFAEL AVALOS, also now employed at another hotel in Mexico City, had served as manager for a number of years.

On March 12, 1964, both RAFAEL AVALOS, manager, Hotel Congreso, Calle de Allende No. 18, Mexico, D. F., and JOSE SANCHEZ, manager, Hotel Catedral, Calle Donceles No. 95, Mexico, D. F., viewed a photograph of OSWALD, and both advised they could not recognize the photograph as being of anyone who stayed at the Hotel Cuba during the time they were managing the hotel. Both were of the opinion that if OSWALD had stayed at the Hotel Cuba during the time they were in charge there, they would have recalled him. Neither could furnish any pertinent information regarding the possibility OSWALD may have stayed at the Hotel Cuba in the past.

AVALOS related he had served as manager at the Hotel Cuba for a number of years until July, 1962, and SANCHEZ stated he had managed the Hotel Cuba from June 1, 1963, to November 11, 1963. SANCHEZ stated that during the period July, 1962, to June 1, 1963, when he became manager, the administration of the hotel had been disorganized and there was no permanent

manager. He stated that JESUS HERNANDEZ SANCHEZ and his brother, HIGINIO HERNANDEZ SANCHEZ, both of whom he believed were still employed at the Hotel Cuba, would most logically be the persons in the best position to know whether or not OSWALD stayed at the Hotel Cuba during the period July, 1962, to June 1, 1963.

JESUS HERNANDEZ SANCHEZ, room clerk, Hotel Cuba, advised on March 13, 1964, that he has been employed as room clerk at that hotel for several years. He stated that during the period from July, 1962, to June 1, 1963, when the hotel had no permanent manager, he and his brother, HIGINIO HERNANDEZ SANCHEZ, performed the administrative functions at the hotel and had most contact with the guests.

HERNANDEZ viewed a photograph of OSWALD and stated he could not recall ever seeing him. He further stated he could not recognize the photograph as being of any person who had been at the Hotel Cuba during the time he has been employed there. He advised that several months ago he and his brother, HIGINIO, had been shown a photograph of OSWALD by a local police official, and at that time both he and his brother were unable to recognize the photograph of OSWALD as being of any person who had stayed at the hotel during the period they had been working there. He added that following the publicity arising from the assassination of President KENNEDY, seeing OSWALD's photograph in the newspapers, and after viewing a photograph of OSWALD exhibited by the police official mentioned above, he and his brother had discussed the matter and had agreed they could not recall OSWALD's ever having stayed at the Hotel Cuba.

(D) Jai Alai in Mexico City

T-12 advised in connection with the possibility that OSWALD might have attended a jai alai game in Mexico, D. F., that the "Mexico City Daily Bulletin," a free English publication circulated at hotels, motels, drug stores, and tourist-type stores in Mexico, D. F., lists daily the following as a sport event of interest:

"Jai alai, the ancient game from Spain, can be seen every day but Monday at Fronton Mexico, Plaza de la Republica, at 7:30 p.m. (men players) and every afternoon except Thursday at 4:30 p.m. at Fronton Metropolitano, Bahia Todos Santos 190 (women players). Parimutuel betting at both."

T-12 provided the following data:

On March 19, 1964, GUADALUPE GAYTAN SANCHEZ, caretaker and resident at the Fronton Mexico, Plaza de la Republica No. 3, Mexico, D. F., for thirty years, was unable to identify the photograph of OSWALD. GAYTAN SANCHEZ stated that ENRIQUE MARTINEZ DE VILLAGRAN has been the doorman at the Fronton Mexico for twenty years and, as such, observes every person who enters to determine that this person is properly dressed and not the type who might cause a disturbance at the jai alai game.

On March 19, 1964, ENRIQUE MARTINEZ DE VILLAGRAN was unable to identify OSWALD's photograph, but stated the photograph appeared similar to an American who had entered the Fronton Mexico five or six months previously on several occasions for a period of a week and a day. He was not certain the American could be identical with OSWALD nor did he have any specific information about the American, his whereabouts, or his background.

On March 20, 1964, IGNACIO VADILLO B., the general cashier for the Fronton Metropolitano, Bahia Todos Santos No. 190, Mexico, D. F., stated jai alai is not played at this Fronton. The game played there is Fron-Tenis, which differs from jai alai in that the players do not use a cesta (a basket fastened to the hand of the player), but a racket similar to a tennis racket is used.

VADILLO B. stated few, if any, Americans frequent the Fronton Metropolitano and those who do so are usually remembered. VADILLO B. was unable to identify the photograph of OSWALD as an American who might have been at the Fronton Metropolitano. He suggested that OSWALD's photograph be displayed to ESQUIEL TAPIA ROMERO, an Inspector for the Treasury

Department of the Federal District of Mexico, because TAPIA ROMERO is always on duty at the front door of the Fronton Metropolitano to observe all customers as they enter.

ESQUIEL TAPIA ROMERO viewed the photograph of OSWALD on March 20, 1964, and stated definitely that OSWALD had not been at the Fronton Metropolitano.

(E) OSWALD's Luggage

The following information was furnished by T-13:

On May 4, 1964, JUAN PEREZ GONZALEZ advised that he is the chief of the baggage department at the terminal of the Flecha Roja bus line, Calle Heroes Ferrocarrileros No. 45, Mexico, D. F. PEREZ viewed photographs of an olive-colored, "B-4" bag with yellow chalk or crayon markings on one side which appeared to be "9/23" and possibly an initial, of fragments of stickers and tags thereon, and of a blue, zippered handbag and affirmed that he has no recollection of those pieces of luggage and did not recognize any of the markings, stickers or tags as being in any way connected with the Flecha Roja operations. He stated, however, that he recently entered Mexico at Nuevo Laredo with a small, zippered handbag of canvas material, and when he went through Mexican Customs, the Inspector placed a green chalk or crayon marking on the bag to indicate it had been inspected.

PEREZ displayed the various photographs to the baggage handlers on duty at the terminal, and they stated they were unable to recall the luggage in question or make any explanation of the tags, stickers and inscriptions on them.

On May 3, 1964, the manager of the Mexico City terminal of the Transportes del Norte bus line, Insurgentes Sur No. 137, viewed the photographs mentioned above and advised that he did not have any recollection with respect to the two pieces of luggage described above nor did he believe that any of the fragments of stickers and tags thereon were connected in any way with the Transportes del Norte baggage handling procedures. He expressed the belief that the yellow chalk markings on the olive-colored bag were typical of the method used by Mexican Customs Inspectors at Nuevo Laredo to mark luggage upon completing examination thereof in lieu of a sticker which they sometimes use.

The manager, RICARDO MEDINA BELTRAN, displayed the photographs to the baggage handlers on duty, and they affirmed that they were unable to recognize either piece of luggage in connection with any passenger but stated unanimously that they recognized the crayon or chalk markings on the olive-colored bag as typical of the inspection procedure of Mexican Customs at Nuevo Laredo. MEDINA also displayed the photographs to several Transportes del Norte drivers, and they were of the opinion that the yellow inscriptions on the olive-colored bag had been placed there by the Mexican Customs Inspector at Nuevo Laredo.

On May 4, 1964, SEBASTIAN PEREZ HERNANDEZ, assistant desk clerk at the Hotel del Comercio, Calle Bernardino de Sahagun No. 19, Mexico City, advised that he could not recognize the photographs of either the olive-colored or the blue-colored luggage as having been in the possession of a guest at that hotel.

On May 8, 1964, GUILLERMO GARCIA LUNA, owner of the Hotel del Comercio, affirmed that he was unable to recognize the photographs of the two bags as having any connection with OSWALD or any other guest at the Hotel del Comercio.

MATILDE GARNICA, maid at the Hotel del Comercio, who claimed to remember OSWALD as a guest at the hotel in room No. 18, examined the photographs of the luggage on May 8, 1964, and stated she recognized the small, blue, zippered handbag as the luggage which OSWALD had in his room at the hotel. She pointed out that she had been impressed by the fact that he had very few personal effects, had noticed he did some laundry each day and left the wet articles hanging in the bathroom, and she was quite certain she had not seen the larger, olive-colored bag.

On May 9, 1964, PEDRO RODRIGUEZ LEDESMA, night watchman at the Hotel del Comercio, examined the photographs referred to above and stated he was quite certain OSWALD had been carrying the blue handbag on the morning of his departure from the hotel. He claimed to be unable to definitely affirm that OSWALD had been carrying the olive-colored bag, as he could not remember several of its characteristics, but he expressed the firm conviction that OSWALD had been carrying two pieces of luggage. He related that on the morning of his departure, OSWALD carried his own luggage down the two flights of stairs and waited in the reception area while RODRIGUEZ went in search of a taxi.

When RODRIGUEZ returned with the taxi, he carried the luggage from the reception area to the taxi, but still has the strong impression that he had a bag in each hand. RODRIGUEZ admitted his recollection of the type and color of the luggage is very hazy, and he does not wish to state definitely that he recognizes the photograph of either piece of luggage in connection with OSWALD.

(F) Arrest, Interrogation and Physical Condition of SILVIA DURAN

With respect to the alleged arrest of SILVIA T. DURAN, the Mexico City daily newspaper "Novedades" for November 30, 1963, page 1, published an article, translated from Spanish as follows:

"Gobernacion (Interior) advises concerning case of Mrs. SILVIA T. DURAN

"The Ministry of Gobernacion advised last night that Mrs. SILVIA TIRADO DE DURAN, who was interviewed concerning the possibility that she might have had dealings with LEE HARVEY OSWALD during his stay in our country as a tourist, was not located at the Cuban Consulate, nor did she request authorization to serve a foreign government, and that in view thereof, the investigation which was made was not in respect to her status as an employee of the Cuban Consulate in Mexico.

"It (the announcement) concluded by saying that the woman in question agreed to go to the office to which she was summoned and she was interrogated without any force whatsoever."

On December 9, 1963, DAVID ALKON appeared voluntarily at the United States Embassy, Mexico City, identified himself as an architect residing at Calle Fernandez Gonzalez Roa No. 47, Ciudad Satelite, State of Mexico, and furnished the following information:

ALKON is a designer of residential homes and has a business arrangement with one HORACIO DURAN for the interior decoration of houses designed by ALKON. DURAN is the husband of SILVIA TIRADO DE DURAN.

ALKON stated he has no social association with DURAN but understands DURAN is procommunist and often holds Marxist discussions in his home. ALKON advised that DURAN had mentioned to him that his wife had been detained and questioned by Mexico City police about her knowledge of LEE HARVEY OSWALD. DURAN told ALKON his wife knew OSWALD because the latter had been to the Cuban Embassy in an attempt to secure a visa for travel to Cuba. ALKON gained the impression that the wife was not well-acquainted with OSWALD, but only recalled he had been at the Cuban Embassy after she read of the assassination of President KENNEDY. ALKON advised that it was his impression that the wife's contact with OSWALD related only to the application for a visa and that her contact with him was very slight.

ALKON said that DURAN commented to him that he thought it was a mistake for Cuba to protest to Mexico about his wife's being questioned by Mexican authorities, since the latter had a perfect right to question her about her knowledge of OSWALD. According to press reports, the Cuban Government presented a very strong note of protest to the Mexican Ambassador in Havana with regard to the detention and questioning of SILVIA TIRADO DE DURAN by Mexican authorities, and this note was rejected by the Mexican Government because of the unacceptable language utilized therein.

On April 4, 1964, the following information was provided by T-13:

WILLIAM D. SHANAHAN, Editor of the Mexico City daily English-language newspaper, "The News," related that on April 3, 1964, DANIEL NAVA RAMOS, reporter for the Mexico City daily, "Novedades," had attempted to contact SILVIA DURAN and her husband, HORACIO DURAN, at their residence in an effort to obtain human interest material for a newspaper article he was writing with respect to the OSWALD case. NAVA had experienced considerable difficulty in seeing the DURANs and was allowed to enter their apartment with the understanding that he remain no longer than fifteen minutes. He was not permitted to speak directly to SILVIA DURAN and was advised

The A[illegible] is a loose association o[illegible] a predominantly social nature of present and/or past members of the Communist Party, USA, and their friends and associates who share a common sympahty for communism and the Soviet Union.

In connection with the possibility that a silver-colored bracelet considered to be of Japanese origin was given by OSWALD to his wife, MARINA NIKOLAEVNA OSWALD, upon his return to Dallas, Texas, from Mexico, about October 3, 1963, T-22 advised that SMALL was not known to handle imported Japanese merchandise in his store in Mexico, D. F., which merchandise would be similar to the type of bracelet given to Mrs. OSWALD and added as follows:

Post cards had never been observed on sale in SMALL's store at any time, and this would seem to obviate OSWALD's having purchased at SMALL's store six colored post cards depicting scenes in Mexico, which reportedly were among OSWALD's possessions. SMALL had not been known to have available for sale or distribution any pamphlets exactly like or similar to the pamphlet reportedly located among OSWALD's possessions with the inscription on the cover page: "Hipodromo de las Americas, S. A., Mexico, D. F."

Source advised that additional inquiries would be made at SMALL's store for any possibility that OSWALD could have purchased or obtained the above-mentioned bracelet, post cards, and/or pamphlet at his store and that a check also would be made for these items at the four known outlets of Japanese merchandise in Mexico, D. F.

by her husband that she had suffered a nervous breakdown following her interrogation by Mexican authorities and had been prohibited by her physician and DURAN, himself, from discussing the OSWALD matter further.

(G) Information Concerning CHARLES SMALL; Bracelet, Post Cards, Race Track Pamphlet

T-22 reported that as a result of the assassination of President KENNEDY and the publication of the facts concerning OSWALD's leftist connections and his prior residence in the Soviet Union, many members of the American Communist Group in Mexico (ACGM) were extremely fearful, expecting police harassment of all leftists.

Source identified CHARLES SMALL, true name CHARLES NELSON SMOLIKOFF, who was born in Brooklyn, New York, on March 16, 1911, as being one of the most prominent associates of the ACGM. According to the source, SMALL is a United States citizen who resides in Mexico, D. F., and operates a tourist-type store at Calle Niza No. 47, where he sells silver jewelry and other gift items.

Source advised that in the past some, but not all, American communists visiting Mexico, D. F., have appeared at SMALL's place of business, and SMALL has assisted these individuals in connection with their problems while in Mexico, D. F.

T-22 learned that in mid-December, 1963, SMALL had expressed concern that OSWALD might have visited his store in Mexico, as many American communists, when in Mexico, D. F., appear at his store.

In early January, 1964, according to source, SMALL continued to worry that he might have known OSWALD at some time and that OSWALD might have visited his store while in Mexico, D. F. Source stated SMALL had no definite information in this regard and was only speculating on the matter. Source was unable to develop any specific information to indicate that SMALL might actually have known OSWALD, that SMALL knew anyone who knew OSWALD, or that OSWALD had visited SMALL's store in Mexico, D. F. Source considered SMALL's concern about the possibility that OSWALD might have visited his store to be part of the general concern of members of the ACGM after reading that OSWALD had been in Mexico.

Source subsequently advised that careful review had been made of all the bracelets in SMALL's store, and none of these was of Japanese origin or appeared in any way similar to a photograph of the above-mentioned bracelet.

According to T-22, complete verification had been made of previous observations that no post cards exist and none are sold at SMALL's store in Mexico, D. F.

T-22 advised that the six colored post cards depicting various scenes in Mexico which were in OSWALD's possession were designed and manufactured by one FISCHGRUND, one of the two largest manufacturers of post cards in Mexico and that these post cards are sold in a great number of stores in Mexico.

Source stated that a check of four known outlets of Japanese merchandise in Mexico, D. F., was made and that these outlets do not handle any type of bracelet which would be similar to the one which OSWALD gave his wife.

T-23, a confidential source who has furnished reliable information in the past, advised that 244 stores, including jewelry stores, tourist-type gift shops, and stores handling silverware in Mexico, D. F., were contacted during the period March 6 through 13, 1964, without locating any store which carries the type of bracelet which OSWALD gave his wife.

This source concluded that OSWALD could not have purchased the bracelet in Mexico since the import tax on such an article not manufactured in Mexico would be prohibitive for resale at a profit, unless OSWALD bought it from an ambulatory street vendor, in which case the bracelet might have been smuggled into Mexico by a Japanese sailor at the port of Acapulco, Guerrero, Mexico. If the latter occurred, OSWALD might have had a problem upon presenting the bracelet to an engraver in Mexico because he would have been handling smuggled merchandise.

T-24, a confidential source who has furnished reliable information in the past, contacted 59 stores in Mexico, D. F., during the period March 7 through 14, 1964, which included jewelry stores, stores selling silverware, and stores handling

engraving, and was unable to locate any store which carried the type of bracelet OSWALD gave his wife. As a result, source did not believe OSWALD could have purchased the bracelet in Mexico because the import tax on a bracelet not manufactured in Mexico would prohibit resale at a profit. T-24 stated that if OSWALD bought the bracelet in Mexico, he could have purchased it from a street vendor, who could have obtained it from a seaman in Acapulco, Guerrero, Mexico, in which case OSWALD would have had a problem getting the bracelet engraved because it would have been smuggled into Mexico.

T-13 advised that on March 19, 1964, DANIEL GALINDO, assistant manager of the Hipodromo de las Americas, S. A., Mexico, D. F., a thoroughbred race track, stated he was familiar with the pamphlet entitled "Hipodromo de las Americas, S. A., Mexico, D. F." GALINDO related that this pamphlet was published by the race track three or four years ago, explaining in English and in Spanish the "Rules for Betting in 1-2 Selection and Quinielas."

This pamphlet was given wide distribution at the race track and at souvenir shops, hotels, motels, drug stores, and restaurants and for a time was inserted in the programs on racing days for patrons of the track. The race track still has some copies of this pamphlet on hand but has not distributed it during recent years. The same information recorded in the pamphlet is now published in the racing program for a given day whenever space is available for that purpose.

GALINDO stated such a pamphlet could possibly have been picked up from any of the numerous localities in Mexico, D. F., where the pamphlet was previously distributed if copies are still available, but all the localities are now unknown to him.

(A) Basis for Inquiry

On January 23, 1964, [redacted], Regional Security Officer, United States Embassy, Mexico, D. F., Mexico, made available a letter, written in the Spanish language, dated December 2, 1963, which had been directed to President LYNDON B. JOHNSON by PEDRO GUTIERREZ VALENCIA, who described himself as a credit investigator for a Mexico City department store.

The letter states that he was at the Cuban Embassy in Mexico City on September 30, 1963, or October 1, 1963, to conduct a credit investigation concerning an employee of that Embassy and, upon leaving, he observed a Cuban in the company of a person he judged to be an American also leaving the premises of the Cuban Embassy. According to this letter, these two individuals were engaged in a heated discussion in English involving 'CASTRO, Cuba and KENNEDY.' GUTIERREZ alleged that the Cuban observed by him at that time was counting American currency, and both persons departed from the area in an automobile. The letter continued that he had later seen photographs of LEE HARVEY OSWALD and had concluded that the American seen with the Cuban was LEE HARVEY OSWALD.

Inquiry on January 27, 1964, at the credit department of the Mexico City department store known as "Palacio de Hierro," Calle Durango No. 230, revealed that GUTIERREZ is known there as a credit investigator.

T-2 furnished the information which follows:

(B) Interviews of GUTIERREZ VALENCIA

On January 29, 1964, PEDRO GUTIERREZ VALENCIA, who resides in Mexico City at Calle Florida No. 9, Colonia Napoles, Mexico, D. F., advised that he currently is employed at the Palacio de Hierro department store as a credit investigator and during the period from 1947 to 1949, he was the Assistant Commandant of the Penitentiary of the Federal District, located on Calle Lecumberri. During the period from 1943 to 1946, he was connected with the management of the restaurant "Le Rendez

Vous," in Mexico, D. F.

GUTIERREZ related that when he was Assistant Commandant of the Penitentiary, Dr. ESTHER CHAPA, whom he described as a "well-known communist," was the Parole Board Director at the prison. He said that Dr. CHAPA formally accused him of being anti-communist at that time, which was a correct charge, since he "most certainly was anti-communist." He stated that Dr. CHAPA was finally dismissed from her position by her superiors.

GUTIERREZ explained he had offered the above facts for the purpose of substantiating his avowed anti-communist sentiments during a long period of time.

GUTIERREZ acknowledged that he was the author of the aforementioned letter dated December 2, 1963, directed to President LYNDON B. JOHNSON.

GUTIERREZ stated that on September 30, 1963, or October 1, 1963, he had occasion to go to the Cuban Embassy in Mexico, D. F., in connection with a credit investigation of a female employee of that Embassy, and needing to interview this woman at the Cuban Embassy at about 10:00 a.m., he had parked his car on Calle Francisco Marquez just outside the parking area reserved for the use of Cuban Embassy vehicles.

On February 3, 1964, GUTIERREZ stated that he now estimates that he entered the premises of the Cuban Embassy at about 10:30 or 10:35 a.m. on October 1, 1963, and departed about 10:50 a.m., explaining that he had been able to fix the time rather closely because he had located a credit report on an individual he was investigating that date in Coyoacan (municipality in the Federal District) and estimated he was in Coyoacan at about 11:15 a.m. on October 1, 1963.

On January 29, 1964, GUTIERREZ related that upon entering the Cuban Embassy on October 1, 1963, he was able to locate the woman about whom he was inquiring and she displayed to him a card which identified her as a "Second Counselor" of the Cuban Embassy, but when he asked her to show him her carnet to identify her as an employee of the Cuban Embassy accredited to the Mexican Government, she said

that an application had been made to the Mexican Foreign Office but that her status had not, at that time, been recognized or accredited by the Mexican Government. GUTIERREZ explained that this was an obvious falsehood as he had checked at the Mexican Foreign Office previously and had found that no information was on record for this female employee of the Cuban Embassy, and the Mexican Foreign Office had no knowledge of her presence in Mexico.

GUTIERREZ stated that he told the credit applicant that she would require a "fiador" (guarantor) in order to have her credit application approved, and she indicated she could not furnish a "fiador," for which reason the credit application was not approved by the department store and no further action was taken in connection therewith.

On February 3, 1964, GUTIERREZ advised that an exhaustive search of the credit reports made by him in September and October, 1963, revealed that the credit report he made on a female employee of the Cuban Embassy at Mexico City on or about October 1, 1963, had been destroyed because of the fact her credit application had been rejected. He believed she was employed in the Commercial Department of the Cuban Embassy, that being the section he visited when he went there to contact her.

GUTIERREZ further related as follows:

Upon leaving the Cuban Embassy he paused in the courtyard which leads to the outside sidewalk and, while in the process of lighting his cigarette lighter, was bumped by a person who was also leaving the Cuban Embassy and was accompanied by an adult male American. GUTIERREZ subsequently viewed photographs of OSWALD and advised that it is his opinion OSWALD was the aforementioned American. It was his opinion that the person accompanying the American was a Cuban, basing this assumption on an expression used by this person after bumping into GUTIERREZ in the courtyard, as when GUTIERREZ excused himself, the person responded in Spanish, "Esta bien Chico" (that's all right, buddy), a common expression used by Cubans to indicate no harm was done.

He described this Cuban as follows:

Sex	Male
Race	White
Nationality	Cuban
Age	Appeared to be about 33 years of age
Height	Short, about 5 feet 3 inches to 5 feet 5 inches
Build	Very stocky and appeared to be a person of considerable physical strength
Hair	Black and curly
Complexion	Very light for a Cuban
Dress	Wore dark colored business suit, with sport shirt open at collar, and no necktie
Remarks	Wore no hat; spoke English fluently and rapidly; also spoke Spanish with a Cuban accent.

GUTIERREZ described the American who was accompanying this Cuban as follows:

Sex	Male
Race	White
Citizenship	Presumed to be United States citizen
Age	27 to 30 years
Complexion	Very light
Eyes	Unknown
Height	5 feet 9 inches to 5 feet 10 inches
Build	Slender
Weight	GUTIERREZ claimed to be unable to estimate weight but stated American was not at all fat or stocky
Hair	Dark brown
Dress	Wore beige or khaki-colored slacks and shirt of unrecalled type, with short jacket or windbreaker; wore no hat

Remarks — Appeared nervous and had appearance of being aggressive; was heard to speak only English

GUTIERREZ said that when they passed him, the two individuals were engaged in a heated discussion in English, and GUTIERREZ heard the words "CASTRO" and "KENNEDY" mentioned. He claimed he noticed that the Cuban had some American currency in his hand and appeared to be examining or counting this money. He said that after the Cuban and the American exited through the gate to the sidewalk on Calle Francisco Marquez, he observed the Cuban hand the money to the American, and the American took this money with his left hand, folded it and pushed it into his left-hand trouser pocket.

GUTIERREZ related that this exchange interested him, and he followed the two individuals along Calle Francisco Marquez until they turned left at the corner where he observed that they entered an automobile which he described as being a "Dina Renault," light beige in color and a fairly new or current model. The Cuban was on the driver's side. The license plates had white numerals on a black background, the coloring of the 1962-63 Mexican plates, but GUTIERREZ could furnish no information as to whether the plates were for the Federal District of Mexico, whether the plates may have been "diplomatic" plates, or whether they may have been from some state or territory of Mexico. After the American and the Cuban got into the car, they apparently drove away, and he did not see them further.

GUTIERREZ advised he believes that the person he considered to be OSWALD referred to the Cuban as "ERNIE" on at least two occasions during the conversation which he overheard. He expressed the opinion that the use of the name "ERNIE" may indicate that the Cuban's name may be "ERNESTO," which would be the normal Spanish name for a person who might be known as "ERNIE" or ERNEST.

(C) Character and Reputation of GUTIERREZ

On February 17, 1964, T-5 advised that a check of the Identification Division of the Metropolitan Police of the Federal District revealed that one PEDRO GUTIERREZ VALENCIA had a driver's license issued to him in 1938 and again in 1942.

It was also determined that a thumb print of PEDRO GUTIERREZ VALENCIA, which he had affixed to his letter dated December 2, 1963, directed to President LYNDON B. JOHNSON, is identical with the right thumb print of GUTIERREZ which is on file at the Identification Division of the Metropolitan Police in connection with a request by GUTIERREZ to carry a firearm and also in connection with the issuance to him of driver's licenses.

T-5 advised on February 20, 1964, that the records of all Mexican police and investigative agencies at Mexico City do not contain any information of a derogatory nature concerning GUTIERREZ.

On February 20, 1964, T-25, a confidential source, stated that PEDRO GUTIERREZ VALENCIA enjoys a good reputation in his neighborhood and is considered to be a person of good conduct and wholesome habits.

(D) Information Concerning ARTURO GACHA ELIAS

On February 25, 1964, T-2 received information that a beige-colored Renault automobile with 1962-63 Federal District of Mexico license plates No. 23-58-61 was observed on that date entering the premises of the Cuban Embassy at Mexico, D. F.

On February 27, 1964, T-4 advised that he ascertained through a check of the records of the Traffic Department of the Federal District of Mexico that a 1959 Renault, Motor No. 744492, was registered on April 11, 1962, in the name of ARTURO GACHA ELIAS, Calle Tolteca No. 53, Colonia Morelos, Mexico, D. F., with 1962-63 license plates No. 23-58-61 for the Federal District of Mexico. The only other data appearing in the Traffic Department file is that the 1959 Renault is a sedan model, as the color of the vehicle was not specified.

On February 27, 1964, T-25 advised that inquiries at Calle Tolteca No. 53, Colonia Morelos, and at various business establishments in the immediate vicinity of that address, failed to develop any information concerning GAONA ELIAS or the above-described 1959 Renault automobile. Source advised that the structure numbered 53 on Calle Tolteca is actually a cow stable and unsuitable for human habitation. The address is located in an extremely poor, low-class area of Mexico City which is frequented by thieves.

Inquiry was also conducted at Calle Tolteca No. 53, Colonia Industrial, at Calle Tolteca in Colonia Ixtapalapa, and at Calle Tolteca in Colonia San Pedro de los Pinos, without obtaining information which would aid in identifying ARTURO GAONA ELIAS.

T-5 advised that a check of driver's license records at the Federal District Traffic Department revealed no evidence that anyone identifiable with ARTURO GAONA ELIAS had been issued a driver's license in the Federal District of Mexico. Source further advised that Traffic Department records do not show that license number 26-53-61 had been issued as of that date for the current 1964-65 Federal District license plates and that license number 26-53-61 is a 1962-63 Federal District license number.

Source further reported that no record could be located at the Ceremonial Division of the Mexican Ministry of Foreign Affairs that anyone by the name of ARTURO GAONA ELIAS had been reported to that Division as a representative of any foreign nation in Mexico.

The source also advised that no information identifiable with ARTURO GAONA ELIAS could be located in the files of the Identification Division Metropolitan Police of the Federal District.

T-2 advised on March 2, 1964, that PEDRO GUTIERREZ VALENCIA stated that he had never known or heard of ARTURO GAONA ELIAS.

The information which follows was furnished by T-23

Additional investigation at Mexico City, which included a check of the United States Visa records and the files of the National Automobile Theft Bureau, failed to develop further identifying information concerning ARTURO GAONA ELIAS until on March 4, 1964, ANTONIO SERVIN DE LA MORA, official of the Mexican Social Security Institute, reported that the files of that agency included a record for ARTURO GAONA ELIAS and his wife, IRMA MENDIVIL DE GAONA, as residents in the year 1957 at Calle Zaragosa No. 800, Colonia Plano Oriente, Ciudad Obregon, Sonora.

T-26, a confidential source who has furnished reliable information in the past, advised that on March 11, 1964, ARTURO GAONA ELIAS had been located in Ciudad Obregon, Sonora, where he now resides at Calle Nuevo Leon 743 Norte. He advised source that he had sold the 1959 Renault automobile, motor No. 744492, to REYNALDO ROMERO FELIX, who lives at Calle Sinaloa No. 234 Sur, Ciudad Obregon.

Source advised that on March 11, 1964, REYNALDO ROMERO FELIX was located in Ciudad Obregon and advised he had sold the above-mentioned Renault automobile in July, 1961, to CLAUDIO OLIVEROS of Mexico City. He described OLIVEROS as having a questionable reputation as an automobile dealer and related that OLIVEROS took the Renault to Mexico, D. F., where he was believed to have turned it over to ERNESTO MITRANI, a Cuban, who was engaged in the automobile business. He advised that ERNESTO MITRANI has a brother by the name of ISAAC MITRANI, who also might be an automobile buyer.

According to ROMERO, this automobile was to have been sold by ERNESTO MITRANI at Mexico, D. F., or to have been sent to an American by the name of GUILLERMO WILLY, who deals in automobiles at Chihuahua, Chihuahua.

(E) Inquiry Concerning ERNESTO MITRANI

On March 13, 1964, MARGARITA MUNGUIA, Visa Section, United Stated Embassy, Mexico, D. F., made available visa file data concerning ERNESTO MITRANI LEVY, reflecting that he was born December 29, 1936, at Havana, Cuba, and that he was the holder of Cuban passport No. 26367, issued December, 1959, with expiration date in 1964.

The visa card contained a photograph of ERNESTO MITRANI, and he was described on this card in January, 1961, as being five feet seven inches in height, weighing 176 pounds, of fair complexion, brown hair and green eyes.

On March 17, 1964, photographs of ERNESTO MITRANI LEVY were exhibited to PEDRO GUTIERREZ VALENCIA, who stated that the photographs of MITRANI definitely do not depict the Cuban he saw in the company of an American at the Cuban Embassy about October 1, 1963.

GUTIERREZ advised he believes that the Cuban observed by him at the Cuban Embassy was not an employee of that Embassy, because this person had his late model Renault automobile parked on Calle Tacubaya in an area which is used by the general public for parking. He pointed out that many officials and employees of the Cuban Embassy park their cars on Calle Francisco Marquez in an area reserved for their use.

GUTIERREZ stated he believes that he would have no difficulty whatsoever identifying the Cuban if he ever observed a photograph of this person, because he has the appearance of the Cuban better fixed in his mind than the appearance of the American he considered to have been OSWALD.

T-19 advised on March 10, 1964, that ERNESTO MITRANI LEVY, employee of the "Casa Vogue" (Ladies' wear shop), Calle Madero No. 20, Mexico, D. F., advised that about two years ago he was engaged in buying and selling used automobiles in Mexico. He affirmed, however, that he is certain he did not buy a 1959 Renault sedan from CLAUDIO OLIVEROS, explaining that OLIVEROS formerly operated a used car lot in Mexico City but, due to OLIVEROS' bad character and alleged fraudulent activities, he had been forced to close down the business and reportedly had left Mexico, D. F., for his home in Guadalajara, Jalisco, Mexico.

MITRANI also mentioned that he had been employed in the Cuban Embassy in Mexico, D. F., until 1959; however, he was unable to furnish any information concerning any possible employee of the Cuban Embassy who might have had a 1959 beige-colored Renault in his possession in October, 1963, or in February, 1964.

MITRANI stated that it is common practice for persons in Mexico to buy an automobile and leave it registered in the name of a prior owner to avoid payment of sales taxes. He said that the 1959 Renault may have changed hands many times since it originally was purchased by ARTURO GAONA ELIAS of Ciudad Obregon, Sonora, in 1959.

Upon recontact on March 24, 1964 MITRANI advised he had checked the incomplete records he still possesses for the period he was in the used car business and had located no record of a purchase of a 1959 Renault from CLAUDIO OLIVEROS or anyone else. MITRANI advised he had spoken with his brother, ISAAC MITRANI, in an effort to determine whether he might have a record of a transaction involving the aforementioned Renault, but his brother likewise could locate no record involving the 1959 Renault automobile.

(F) Further Interviews of GUTIERREZ

T-2 advised as follows:

On February 20, 1964, GUTIERREZ was shown a photograph of LEE HARVEY OSWALD which had appeared in "Life" magazine and which depicts OSWALD passing out pro-Cuban literature on a street in New Orleans, Louisiana. With respect to a profile photograph of OSWALD showing his right arm extended and his torso from the waist up, GUTIERREZ advised that it does not appear familiar to him and that he cannot say that this photograph in any way resembles the American seen by him at the Cuban Embassy on October 1, 1963. He explained that during his brief encounter with the American and Cuban

on October 1, 1963, he at no time observed the profile view of either the American or the Cuban.

GUTIERREZ agreed that a mistaken identification from newspaper photographs of OSWALD which he saw almost two months later would be very possible. He insisted, however, that he does not believe he is mistaken in his identification of OSWALD.

In order to more readily pinpoint the date he had been at the Cuban Embassy and observed the Cuban and the American, on March 2, 1964, GUTIERREZ made available a listing of 260 names of individuals concerning whom he had conducted credit investigations for the Palacio de Hierro department store for the period September 1, 1963, to October 25, 1963, who were approved for credit. He stated this list represents the basis for his pay as a credit investigator because he is paid on an individual case basis for each person investigated. He pointed out that he is paid only for those applicants who are approved for credit and that no records are maintained by the department store of names of persons who are rejected for credit. Among those names mentioned are the names of 30 persons investigated for credit by GUTIERREZ during the period from September 27 to October 3, 1963. GUTIERREZ explained that no specific data appears on this list which would identify the exact date he conducted the individual investigation on each of the 30 persons listed but that he has estimated that the names of the 17th and 18th individuals listed would have been conducted on or about October 1, 1963. He advised that the

names of JOSEFINA LORENZANA HERNANDEZ and her "fiador," RICARDO LORENZANA RUBIN, are the 17th and 18th names on this listing.

GUTIERREZ pointed out that the names of LORENZANA HERNANDEZ and LORENZANA RUBIN are significant in that these persons were the subjects of his investigation in Coyoacan on October 1, 1963, and the appearance of these names on the pay sheet in a numerical sequence indicating that the investigations were conducted on or about October 1, 1963, further substantiates information to the effect he conducted the credit investigation of these persons on October 1, 1963, as he recalled that he had been at the Cuban Embassy just prior to conducting the investigation on the LORENZANAs.

GUTIERREZ stated he had given much thought to any other possible means of pinpointing the exact date he was at the Cuban Embassy but had not arrived at any additional means of establishing that he was there on October 1, 1963, other than from his personal recollection and the fact he conducted a credit investigation of the aforementioned JOSEFINA LORENZANA HERNANDEZ and her father, RICARDO LORENZANA RUBIN, on that date.

In furnishing further details regarding his reported visit to the Cuban Embassy on or about October 1, 1963, GUTIERREZ advised he had departed from the Consular Section of the Cuban Embassy through the rear door leading into the patio or garden section of the premises and departed from the patio area through the main entrance on Calle Francisco Marquez, GUTIERREZ stated it was his impression that the unidentified Cuban and the person identified by him as OSWALD had left the building in the Embassy compound where the Cuban Ambassador has his quarters rather than the Consular building, which is a separate edifice. He said he could not be sure that the

Cuban and the American had not left the Consular building, but when he was bumped by the Cuban, it seemed to him that the Cuban and the American were coming more from the direction of the residence than from the Consular building.

On April 25, 1964, front view and profile photographs of HORACIO DURAN NAVARRO were exhibited to PEDRO GUTIERREZ VALENCIA, who stated that these photographs of DURAN in no way resemble the unknown Cuban he observed on or about October 1, 1963, in the company of the American exiting the premises of the Cuban Embassy in Mexico, D. F.

GUTIERREZ pointed out that he feels that the data he had previously provided had exhausted his means of substantiating his allegation.

T-2 advised as follows:

On March 7, 1964, an official of the Mexican Federal Automobile Registration Bureau (MFARB), Mexico, D. F., advised that the MFARB file No. 193630 contains the following information concerning ARTURO GAONA ELIAS and a 1959 Renault automobile registered to him.

A 1959 Renault "Dauphine" four-door sedan, motor No. 744492, serial No. 5401098, was assembled in Mexico by the automobile assembly factory known as "Autos Franceses, S. A." (incorporated), Avenida Cuauhtemoc No. 393, Mexico, D. F.

This vehicle, a model 1090, was sold in 1959 to an

automobile agency known as "Distribuidores Sonorenses de Autos Franceses, S. A." (French Automobile Distributors of Sonora, Inc.), located at Avenida Miguel Aleman No. 242, Ciudad Obregon, Sonora, Mexico.

According to the MFARB file, this vehicle was sold by the aforementioned automobile distributor in Ciudad Obregon, Sonora, on December 5, 1959, to ARTURO GAONA ELIAS, Calle Tolteca No. 53, Mexico, D. F.

(H) Information From CLAUDIO OLIVEROS

The information which follows was provided by T-19:

On April 7, 1964, CLAUDIO OLIVEROS was located at a Mexico City automobile parking lot at Parque Espana No. 5, and advised as follows:

OLIVEROS stated emphatically that he did not buy a 1959 Renault automobile from REYNALDO ROMERO, a used car dealer of Ciudad Obregon, Sonora, in 1961. OLIVEROS said that during 1961, he was hospitalized in Mexico, D. F., for an operation, and during that period he made no trips to Ciudad Obregon, Sonora, to buy used cars.

OLIVEROS stated that he could only recall having purchased two Renault automobiles in the Ciudad Obregon area in the past. One of these automobiles was a used Renault which he purchased during 1960 from the Renault car agency in Ciudad Obregon, and the other was a Renault automobile he purchased from an unknown farmer in the Ciudad Obregon area, also during the year 1960.

OLIVEROS claimed that he is well acquainted with REYNALDO ROMERO and that this individual is known locally around Ciudad Obregon by the nickname "El Rey." OLIVEROS advised that REYNALDO ROMERO is mistaken if he stated that he sold a Renault automobile to OLIVEROS in 1961, because he,

CLIVEROS, has never purchased a Renault automobile from REYNALDO ROMERO.

The following data was provided by T-2:

On April 15, 1964, CLAUDIO OLIVEROS, who stated he resides at Avenida Ejercito Nacional No. 1049, Apartment No. 301, Mexico, D. F., related that following his previous interview on April 7, 1964, he had recalled that he purchased a Renault automobile in Ciudad Obregon, Sonora, Mexico, in about July, 1961, and transported this vehicle to Mexico, D. F., where he sold the car to a "Mr. DURAN," who was employed at a furniture manufacturing establishment. OLIVEROS vaguely recalled that the buyer of this vehicle either resided or had his place of business in the "Colonia Del Valle" section of Mexico City. He also recalled this individual had a brother who claimed he was married to an American girl.

T-23 advised that it had been determined from observation that HORACIO DURAN NAVARRO, the husband of SILVIA TIRADO DE DURAN, operates a 1962 maroon, four-door Volvo automobile, bearing 1964-65 Federal District of Mexico license plates number 30-51-18.

T-2 advised that on April 24, 1964, CLAUDIO OLIVEROS stated he had learned from a former associate in the used car business that an automobile sales receipt still in the possession of the latter clearly shows that OLIVEROS sold a 1959 Renault, motor No. 7444492, to a "Mr. DURAN" at Mexico, D. F., in 1961. OLIVEROS stated that this sales receipt was signed by DURAN, but the signature was somewhat illegible and he was unable to read the full name. It was brought to the attention of OLIVEROS that records of the Mexican Federal Automobile Bureau indicate the motor number of the 1959 Renault under consideration is 744492. OLIVEROS stated that he is certain that the motor number he provided is correct according to the sales receipt which he personally had examined, and he indicated that he is convinced that this is the vehicle which formerly was the property of ARTURO GAONA ELIAS of Ciudad Obregon, Sonora, Mexico, which he, OLIVEROS, had purchased in 1961 in Ciudad Obregon.

On April 25, 1964, OLIVEROS advised that he had recalled that the 1959 Renault automobile had been sold to the aforementioned "Mr. DURAN" at a lamp manufacturing and sales establishment known as "Lamparas Duran" (Duran Lamps) located in the Colonia Del Valle area of Mexico, D. F.

(I) Inquiries Concerning DURAN Family

On April 27, 1964, T-25 ascertained that "Lamparas Duran" is located at Calle Amores No. 327-A, Mexico, D. F., and is operated by one MARIO CARAZO, who stated he had purchased the business from LIDIA DURAN. Source advised that the business apparently employed only three persons.

On April 29, 1964, T-25 advised that he had ascertained that LIDIA DURAN is a widow and has one or two brothers.

On April 27,1964, T-5 advised he had established that LIDIA DURAN was born March 18, 1928, at Chihuahua, Chihuahua, Mexico, and that her full name, according to Spanish usage, is LIDIA DURAN NAVARRO. At the time of the issuance of a Mexican Passport in 1959, she was married to one RAUL FLORES GUERRERO.

T-2 advised that on May 7, 1964. CLAUDIO CLIVEROS examined front view and profile photographs of HORACIO DURAN NAVARRO and immediately identified these photographs as those of the individual to whom he had sold a 1959 Renault automobile at Mexico, D. F., in July, 1961. CLIVEROS also examined a photograph of RUBEN DURAN NAVARRO and identified this photograph as that of a brother of HORACIO DURAN NAVARRO. After examining these photographs, OLIVEROS recalled he had known the DURAN family about ten years ago when they resided on

Calle Panuco in Mexico, D. F., and late in 1962 he had encountered RUBEN DURAN NAVARRO at the International Airport in Mexico, D. F., and was told by DURAN at that time that he was taking a flight to visit some of the European "Iron Curtain" countries, possibly including Russia.

On May 7, 1964, DAVID ALKON, a Mexico City resident with residence at Calle Fernandez Gonzalez Roa No. 47, Ciudad Satelite, State of Mexico, advised that HORACIO DURAN NAVARRO, the husband of SILVIA TIRADO DE DURAN, currently operates a red, four-door Volvo automobile. ALKON stated that DURAN also owns a 1959 Renault automobile which was from Ciudad Obregon, Sonora, and had been purchased by DURAN at Mexico, D. F., in 1961. ALKON recalled that DURAN experienced difficulty in licensing the vehicle and mentioned that he had to correspond with the previous owner in Ciudad Obregon in order to secure additional data concerning the vehicle. ALKON affirmed that this 1959 Renault is a light grey color and definitely is not beige in color. He said this car is currently stored at a Mexico City repair garage after having been involved in an accident, and DURAN has indicated he was not able financially to pay for the repairs on the vehicle. ALKON stated that to the best of his knowledge, DURAN has maintained possession of this car since he purchased it in 1961.

ALKON stated that he maintains a contractual relation with HORACIO DURAN NAVARRO for the interior decoration of houses designed by ALKON and also is well acquainted with RUBEN DURAN NAVARRO, a brother, as well as with one sister who is known to ALKON as "LIN." Concerning "LIN," ALKON related that she is a widow and until about one year ago operated a lighting fixture firm known as "Lamparas Duran."

ALKON stated that SILVIA TIRADO DE DURAN, the wife of HORACIO DURAN NAVARRO, was formerly employed in the Consular Section of the Cuban Embassy at Mexico City, and the 1959 Renault which had been the property of HORACIO DURAN NAVARRO since 1961 had undoubtedly been used by the family for transportation to and from the Cuban Embassy on numerous occasions.

ALKON made reference to th e fact that he voluntarily had appeared at the United States Embassy, Mexico, D. F., on December 9, 1963, at which time he reported that his contacts

with HORACIO DURAN NAVARRO had left him with the impression that contacts between SILVIA TIRADO DE DURAN and OSWALD related only to the latter's application for a visa and that her contact with him was slight. On May 7, 1964, ALKON advised that his subsequent contacts with HORACIO DURAN NAVARRO have not led him to believe the latter ever had any contact with OSWALD and SILVIA DURAN's contacts with OSWALD related to anything more than OSWALD's application for a visa at the Cuban Embassy.

VIII ALLEGATION BY YLARIO ROJAS VILLANUEVA

(A) Basis for Inquiry

In an undated letter directed to Attorney General ROBERT F. KENNEDY, which was contained in an envelope postmarked December 31, 1963, at Guadalajara, Jalisco, Mexico, the following was recorded as translated from the Spanish language:

"I ask you to forgive these few bold lines addressed to so distinguished a person.

"Mr. ROBERT, I am a Mexican by race and nationality. Also, Mr. ROBERT, I am communicating with you because I do not trust anyone in the matter I intend to deal with.

"I am referring to the death of your brother. Perhaps, my information may prove quite helpful even though various officials of the United States may be involved and affected by it. I, your servant, am willing to identify them. I will tell you only later; however, with patience. It concerns the plan which I never thought would be carried out.

"I used to be a friend of LEE OSWALD, and also of ALBERT, as well as three more people. I knew about the plan, but I never thought that it would turn out to be a true plan.

"I lost their friendship because I did not accept to introduce Communist propaganda into my Mexico. To be more specific, I separated from them and

never saw them again until I found out about the death of the President, your brother.

"Forgive me for not explaining any more, but it is an extremely delicate subject for you and for me. I ask you to see to it that justice is done now that this is in your possession.

"(Signed) YLARIO ROJAS,
Manuel Acuna 1367,
Guadalajara"

(3) Initial Interviews of YLARIO ROJAS

T-3 advised as follows:

Upon interview on January 10, 1964, at Guadalajara, Jalisco, Mexico, YLARIO ROJAS VILLANUEVA, Manuel Acuna 1367, Guadalajara, advised that in June or July, 1962, he was approached by an unidentified Cuban in a park in Mexico City. He claimed this Cuban talked to him about smuggling Cuban propaganda into Mexico and promised to see him later in Guadalajara.

ROJAS related that the Cuban arrived in Guadalajara by automobile about the middle of August, 1962, and the two of them drove by automobile to Ciudad Juarez, Chihuahua, Mexico, across the border from El Paso, Texas. On this trip to Ciudad Juarez, he was introduced by this Cuban to an individual, whose name he could not recall but whom he recognized later by photograph as LEE HARVEY OSWALD. He stated that after their meeting, the three of them discussed the introduction of pro-CASTRO propaganda into Mexico via Cozumel, an island located off the coast of the Yucatan Peninsula of Mexico.

ROJAS claimed that the following morning they left Ciudad Juarez on a flight of Aeronaves de Mexico Airlines and flew to Guadalajara, after a stop at Monterrey, Nuevo Leon. After their arrival in Guadalajara, the Cuban gave him 400 pesos ($32 U.S.) and told him he would receive further instructions at a later date.

ROJAS continued as follows:

The latter part of December, 1962, the Cuban visited him in Guadalajara, gave him 900 pesos ($72 U.S.), and on the instructions of the Cuban, he proceeded to Cozumel by bus, arriving there shortly after Christmas, 1962. In Cozumel, ROJAS was met by two Cubans, whose names he could not recall, and also by a Cuban woman whose first name was CRISTINA. Although he could not recall the names of the Cubans, he claimed to have them written in a notebook which he left with DANIEL SOLIS, a municipal policeman in Cozumel, and he affirmed SOLIS would not deliver the notebook to anyone but him.

About December 28, 1962, OSWALD arrived in Cozumel, having proceeded there from Jamaica via Compania Mexicana de Aviation (CMA) Airlines. OSWALD, the three Cubans and ROJAS discussed the introduction of Cuban propaganda into Mexico. During the time of these discussions, OSWALD and the three Cubans stayed at the Hotel Playa in Cozumel and ROJAS resided at the home of DANIEL SOLIS. OSWALD remained in Cozumel for two or three days and returned to Jamaica by air, and ROJAS and the three Cubans remained in Cozumel until about February 15, 1963, when OSWALD again appeared in Cozumel from Jamaica and on this occasion stayed three days. The day following OSWALD's arrival, an American by the name of ALBERT arrived from Jamaica.

ROJAS claimed the Cuban woman, CRISTINA, told him that she, the other two Cubans, OSWALD and ALBERT had discussed the elimination of President KENNEDY. According to ROJAS, she stated OSWALD was in favor of killing President KENNEDY, but ALBERT and the Cubans did not agree with OSWALD. ROJAS was told by CRISTINA that OSWALD had stated to the Cubans that he and ALBERT had laid plans to eliminate the President. ALBERT had stayed at the Hotel Isleno in Cozumel and returned to the United States via Jamaica the day after his arrival in Cozumel.

ROJAS claimed to have stayed in Cozumel until early March, 1963, when he returned by bus to Guadalajara.

T-20 advised as follows:

On January 21, 1964, a check of Mexican immigration records pertaining to arrivals and departures at the Island of Cozumel, Quintana Roo, Mexico and at Merida, Yucatan, Mexico, for the period from December 25, 1962, through February, 1963, disclosed no information for anyone with the name of LEE HARVEY OSWALD and the aliases of O. H. LEE and ALEK JAMES HIDELL, or any information identifiable with the ALBERT referred to by ROJAS or the unidentified Cubans.

(C) Reinterview of ROJAS

T-27, a confidential source abroad, advised as follows:

On January 22-23, 1964, YLARIO ROJAS VILLANUEVA advised that he was born in Ciudad Manuel Doblado in the State of Guanajuato, Mexico, but he did not know the year and guessed it was about 1932 or 1933.

He stated he also uses the name ELADIO VILLANUEVA ROJAS and explained that his mother's name was ESTEFANIA ROJAS and that his father, whose surname was VILLANUEVA, was not known by him, for which reason most of the time he prefers to use his mother's maiden name, ROJAS, rather than his true name from his father of VILLANUEVA.

At this time he furnished further background information concerning himself, as follows: He completed the sixth grade at a ranch school and in about 1949 he traveled to the United States border and crossed illegally into the United States where he was employed at El Centro, California, by a man named MacILVAINEY (phonetic), who had a drainage and irrigation business. He was arrested by the United States Immigration authorities but this agency allowed him to leave the United States voluntarily. Upon his return from the United States, he went to the ranch where his mother resides and remained there for approximately three years, after which, in about 1957, he went to Tijuana, Mexico, where he was employed for approximately a year by a bottling firm which handled "7-Up." Prior to his departure from Tijuana, he had married his present wife, MARIA YOLANDA CORDOVA DE VILLANUEVA. After about 1958, ROJAS had only odd jobs and stated he has worked part-time during the period 1958 to 1964.

With specific reference to his alleged knowledge of OSWALD and ALBERT and other unidentified Cubans, on this occasion ROJAS advised as follows:

About August 14, 1962, he traveled to Mexico City and while waiting in a park near the bus station of the bus line "Estrellas de Oro" and the hotel where he stayed, he was contacted by an unidentified individual, who he later learned was a Cuban, and at that time this person proposed that ROJAS assist him in smuggling Cuban propaganda into Mexico.

About August 19, 1962, the Cuban and ROJAS departed from Guadalajara by air to the United States border at Nuevo Laredo, Tamaulipas, where he was introduced to a person who he later learned was LEE HARVEY OSWALD. At that time OSWALD was accompanied by two other Americans. ROJAS claimed that the Cuban and OSWALD discussed amounts to be paid for smuggling Cuban propaganda into Mexico; thereafter, about August 21, 1962, he and the Cuban departed from Nuevo Laredo to Monterrey by bus, where the Cuban separated from him, going to Mexico City, while he, ROJAS, continued to Guadalajara.

About three or four months latter, the Cuban arrived in Guadalajara, gave him 700 pesos ($56 U.S.) and instructed him to proceed to Cozumel for further contacts in connection with the smuggling of Cuban propaganda into Mexico.

ROJAS departed for Cozumel and claimed that upon arrival in Cozumel by accident he met DANIEL SOLIS, a policeman whose wife is ROJAS' niece, and he resided at SOLIS' home during the entire time he was in Cozumel.

During his stay in Cozumel, he again met OSWALD, the unidentified Cubans, one of whom was a woman by the name of CRISTINA, and also met with the American named ALBERT. During this period OSWALD came to Cozumel by plane on two occasions, and during OSWALD's two trips to Cozumel, the plot to murder President KENNEDY was discussed.

During his stay in Cozumel, he was friendly with a Mexican Air Force sergeant whose name he could not recall and whose assistance he sought to help him follow the activities

of the Cubans, OSWALD and ALBERT. This person later was identified as LEOPOLDO TORRES CORTES, Mexican Air Force sergeant, who is based at Cozumel airport.

He claimed to have left at the home of SOLIS a notebook which he alleged contained the names of the unidentified Cubans and the full name of the unidentified American named ALBERT.

He stated that the Cubans and OSWALD stayed at the Hotel Playa in Cozumel and that ALBERT stayed at the Hotel Isleno in Cozumel.

(D) Discrepancies in ROJAS' Story

T-20 advised that on February 24, 1964, a review of the register of the Hotel Playa at Cozumel failed to reveal any record of OSWALD or any information identifiable with the Cubans mentioned by ROJAS for the period March 20, 1963, through July, 1963. It also was determined that the Hotel Isleno in Cozumel was closed from April to August, 1963.

On the same date, a review of the records of CMA airlines at Cozumel was conducted for the period from March 20 through August, 1963, and no record could be located for anyone with the name of LEE HARVEY OSWALD or his known aliases.

When interviewed on January 22-23, 1964, the discrepancies with regard to the information he had furnished on January 22-23, 1964, with relation to the information he had furnished on January 10, 1964, were pointed out to ROJAS, who merely attributed the discrepancies to his "lack of education."

T-8 advised as follows:

On February 6, 1963, ROJAS produced a slip of paper which he claimed he had obtained from under the inner sole of an old pair of shoes, and he alleged the paper had recorded thereon the names of certain unidentified individuals concerning whom he had furnished information previously, as follows:

The Cuban woman whom ROJAS had formerly identified as CRISTINA is listed on this slip of paper as CRISTINA GADEA.

The unidentified Cuban whom he claimed to have met in Mexico City and with whom he later claimed to have traveled to Nuevo Laredo and to Cozumel is listed as TONI FERREA.

The individual referred to as the American named ALBERT is listed as EDWIN WALKER, and the name of LEE HARVEI OSWOL is listed.

A review of the manifest of Aeronaves de Mexico airlines at Guadalajara for August 3, 1962, included a listing for HILARIO ROJAS as having flown from Guadalajara to Monterrey on an Aeronaves de Mexico flight; however, this manifest failed to reflect a listing for one TONI FERREA, whom ROJAS identified as the Cuban who traveled to the border with him.

T-20 advised as follows:

On February 24, 1964, at Cozumel, DANIEL SOLIS advised he knows ROJAS as ELADIO VILLANUEVA RAMIREZ. SOLIS produced ROJAS' notebook, and it was observed that it did not contain the names of the unidentified Cubans as claimed by ROJAS.

SOLIS advised that during the period of time he stayed in Cozumel, ROJAS did not engage in any unusual activities of any kind. He said he never saw ROJAS in the company of any unusual strangers nor in the company of any Americans or Cubans.

LEOPOLDO TORRES CORTES, a Mexican Air Force sergeant, Cozumel airport, was contacted on February 25, 1964. TORRES advised he became acquainted with ROJAS when the two of them arrived in Cozumel together in March, 1963. He related that he associated with ROJAS once or twice a week and that he had never observed ROJAS in the company of a Cuban or an American. TORRES stated that he never was requested by ROJAS to keep watch over or cover the activities of anyone in Cozumel. (ROJAS had previously claimed that TORRES had been of assistance to him in watching over the unidentified Cubans and the Americans.)

(E) ROJAS Involved in JACOB S. FLOYD Matter

On February 21, 1964, MARIA ESPERANZA GARCIA, manager, Sanborns airlines office, Hamilton Hotel, Laredo, Texas, advised Special Agent ROBERT L. CHAPMAN of the Federal Bureau of Investigation that she handled ticket purchase order No. A37240 with CMA on July 31, 1962, which reflected that the purchase order was made out to HILARIO ROJAS for an airline ticket from Guadalajara, Mexico, to Nuevo Laredo, Mexico, which was utilized by ROJAS on August 4, 1962. GARCIA stated that she had received a telephone call during the latter part of July, 1962, from Attorney JACOB S. FLOYD, Alice, Texas, concerning the purchase of a round-trip ticket from Guadalajara to Nuevo Laredo for YLARIA V. ROGAS.

GARCIA stated that on July 31, 1962, she received a letter dated July 30, 1962, from FLOYD enclosing a check for $60.64 (U. S. currency). This letter stated, "I enclosed herewith a check for $60.64 covering a round trip ticket for YLARIA V. ROGAS, Chilarde 665, Guadalajara, Jalisco. This trip is to begin on August 4, 1962, and is from Guadalajara to Nuevo Laredo and return." The letter requested a refund if the ticket was not used and gave a residence telephone number of Mohawk 4-6823 and office telephone as Mohawk 4-6561, Alice, Texas. The letter was signed "JACOB S. FLOYD" and is on stationery of the law offices of Perkins, Floyd, Davis, and Oden.

GARCIA stated that she had also received a copy of a letter written by JACOB S. FLOYD to ROJAS dated July 30, 1962. This letter advised ROJAS that arrangements had been made for the District Attorney and a good interpreter to meet with ROJAS on Sunday afternoon, August 5, 1962, at the Plaza Hotel, Laredo, and that a round-trip airline ticket was being sent to him through Sanborns as agent for Aeronaves airlines. It was pointed out in the letter that a ten-dollar bill was being enclosed to ROJAS to cover expenses for food and hotel in the event he could not make airlines connections on the trip to Nuevo Laredo and had to stay in Monterrey overnight.

According to T-17, on February 28, 1964, District Attorney SAM H. BURRIS and Assistant District Attorney JOHN C. CAMPOS at Alice, Texas,

advised as follows regarding their association with YLARIO ROJAS:

BURRIS and CAMPOS have been investigating the murder of BUDDY FLOYD since 1952. ROJAS initially contacted the FLOYD family in July, 1962, by letter addressed to Jim Wells County, Texas officials, claiming knowledge of a conspiracy by ALFREDO CERVANTES and others to murder FLOYD and suggested a meeting with JACOB FLOYD, SR.

On July 23, 1962, ROJAS wrote FLOYD from Guadalajara offering to meet FLOYD at the Mexican border if his expenses were furnished, as a result of which airline travel tickets were sent to ROJAS.

On August 5, 1962, FLOYD, BURRIS and CAMPOS met ROJAS at the Nuevo Laredo Hotel, Nuevo Laredo, Mexico. At that time ROJAS stated he owned a bar at Chapala, Mexico, where he knew CERVANTES as a customer. ROJAS stated CERVANTES held a meeting with two Americans, NORMAN NEOCON and LOUIS FEANO, who allegedly had hired CERVANTES to kill JACOB (BUDDY) FLOYD, JR. ROJAS furnished detailed descriptions of these men. Before this conference with FLOYD and his associates began, ROJAS demanded money, but this was refused until information of value was received. At the end of the conference, ROJAS was paid $40.00 by FLOYD, in addition to expenses, and was left at the Nuevo Laredo Hotel.

The investigation of this matter was turned over to BURRIS by FLOYD. BURRIS then wrote to ROBERT ADAMS, American Consul, Mexico City, in this regard.

On September 13, 1962, ADAMS reported investigation in this matter failed to verify the story related by ROJAS. He advised that no information was developed concerning NEOCON, FEANO or anyone fitting their descriptions, driving a red Buick as described by ROJAS.

ADAMS further reported that inquiry revealed ROJAS was considered irresponsible and lazy and that he had apparently learned of the CERVANTES case through an associate at Guadalajara.

On August 16, 1962, ROJAS in a letter to BURRIS claimed that United States Customs officers had beaten him up on August

5, 1962, which allegation BURRIS subsequently determined to be false. ROJAS again demanded more money, and constantly did so, which money was not furnished.

BURRIS stated ROJAS did not furnish any information which could be verified. The last letter received from ROJAS was dated November 5, 1963, in which he again pleaded for money, but this letter was not acknowledged.

BURRIS and CAMPOS considered ROJAS to be "a liar" and a person who attempts to exploit others for money.

District Attorney BURRIS advised he has in his files all correspondence and records pertaining to this matter which he would gladly furnish if needed and that he would be willing to testify at any time concerning these matters if such testimony would be needed.

(F) ROJAS' Admission of Fabrication

T-29, a confidential source abroad, advised as follows:

On March 5, 1964, at Guadalajara, Jalisco, Mexico, ROJAS orally admitted that he had never known or met OSWALD anywhere.

On March 5, 1964, GENARO ALFARO LOPEZ and Captain ESTEBAN LOPEZ GARCIA, agents of the Mexican Federal Security Police at Guadalajara, Jalisco, interviewed ROJAS.

They questioned ROJAS concerning his allegations of knowledge of an alleged assassination plot against President KENNEDY and of having met OSWALD, ALBERT and other unidentified Cubans in relation to this matter. At that time ROJAS admitted that he had fabricated the information.

On March 5, 1964, at Guadalajara, ALFARO and LOPEZ obtained a signed statement from ROJAS, who, as has been pointed out, also uses the name ELADIO VILLANUEVA RAMIREZ. His statement as translated from Spanish is as follows:

"At Guadalajara, Jalisco, 1:30 p.m., March 5, 1964, before GENARO ALFARO LOPEZ and Captain ESTEBAN LOPEZ GARCIA, Agents of the Federal Security Police, a

statement was taken from ELADIO VILLANUEVA RAMIREZ, who stated his name is ELADIO VILLANUEVA RAMIREZ, born Rancho Guayabo de Santa Rita, Municipality of Ciudad Manuel Doblado, Guanajuato, that he is married, 30 years of age, of Mexican nationality, presently engaged at his home in the making of 'huaraches' (Mexican native footwear). With respect to the letter which he had written to ROBERT F. KENNEDY, Attorney General of the United States of America, VILLANUEVA stated as follows:

"The information in said letter, as well as his oral statements to various United States Government officials at Guadalajara, are false and were fabricated by him personally; that he obtained the various names and details of said information from local newspapers; further, that the foregoing was done in the hope of obtaining a reward, he is willing to testify to this statement, if necessary, and places his signature and fingerprint on this statement to confirm its veracity.

"/s/ GENARO ALFARO LOPEZ
"/s/ Captain ESTEBAN LOPEZ GARCIA"

VILLANUEVA signed to this statement the name ELADIO VILLANUEVA RAMIREZ, on the margin thereof, and also placed an inked fingerprint impression on the same margin.

ALFARO and Captain LOPEZ advised that ROJAS had admitted that the trip he had made to the border in August, 1962, was for the purpose of contacting JACOB S. FLOYD, details of which have been previously recorded herein.

IX. ALLEGATION BY T-32

On November 25, 1963, T-32 made contact with the United States Embassy at Mexico, D. F., and advised the following:

T-32 entered Mexico illegally from Guatemala on August 29, 1963, traveled to Mexico, D. F., and subsequently made contact with a Nicaraguan communist residing in Mexico City. From this contact a plan was developed for T-32 to travel to Cuba to study guerrilla warfare tactics. He had occasion to visit the Cuban Consulate in Mexico, D. F., several different times for the purpose of obtaining travel documentation for Cuba by furnishing false identification papers as a Mexican citizen.

He stated that on September 18, 1963, he went to the Cuban Consulate, and while sitting in the waiting room saw a group of approximately eight persons enter the Consulate and the office of Cuban Consul EUSEBIO AZCUE. A person unknown to him was sitting at AZCUE's desk. A short time later, while source was standing near the door to the men's room at the Cuban Consulate, he noticed three men conversing a few feet away from him. One of them was a tall, thin Negro with reddish hair; the second was a man whom T-32 had seen previously holding a Canadian passport in the waiting room of the Cuban Consulate; and the third person was LEE HARVEY OSWALD.

Source stated that a tall Cuban joined the above group momentarily and passed some United States currency to the Negro.

The following conversation between the Negro and OSWALD was overheard by source:

Negro (in English): I want to kill the man.

OSWALD: You're not man enough. I can do it.

Negro (in Spanish): I can't go with you. I have a lot to do.

OSWALD: The people are waiting for me back there.

T-32 stated that the Negro then gave OSWALD $6,500 in United States currency of large denominations, saying: "This isn't much." Of this sum, $1,500 was for extra expenses. The Negro also gave OSWALD about 200 Mexican pesos.

In a later interview, source stated that the United States bank notes were in a small pack about one fourth of an inch thick, bound with a paper band, which the Negro broke before counting out $1,500 extra for expenses and $5,000 as "advance payment."

T-32 stated that Oswald had carried a green passport in his pocket, and he believed he saw OSWALD wearing a pistol in a shoulder holster, but he was not sure of this point. He stated that OSWALD had long shoes and a wrist watch with a yellow-metal band. According to source, OSWALD appeared to be completely at home at the Consulate and to know and to be known by Cuban Consulate personnel.

T-32 was arrested and interrogated by Mexican authorities on November 28, 1963, and a copy of the interrogation report by the Mexican authorities revealed the following:

At the outset source's story generally resembled that recorded above. He repeated to the Mexican authorities the details of the scene in which he saw the Negro, the Canadian and the American conversing together, the delivery of the money to the American by the Negro, and the conversation he overheard.

T-32 advised the interviewing Mexican officials that upon seeing the photograph of OSWALD in the newspapers following the assassination of President JOHN F. KENNEDY, he recognized OSWALD as the American he had seen at the Cuban Consulate.

An excerpt from source's statement to Mexican authorities, as translated from Spanish, is as follows:

"....spontaneously and after reconsidering he desires to state that the American to whom he referred in the body of his statement and whom he saw the 18th of September of this year in the Cuban Consulate had a certain resemblance, about sixty per cent, to LEE HARVEY OSWALD (assassin of the President of the United States). That after the assassination of President KENNEDY the witness took advantage of this fact in his favor to exploit it, furnishing versions such as those initially set forth, for the purpose of provoking an energetic reaction from the political point of view on the part of the United States of America against the government of FIDEL CASTRO RUZ and that he had no motive other than the profound hatred he feels for communism. That all his life the witness had dedicated himself to combating communism and he regrets at this moment not having accomplished his objective in the sense of causing a reaction on the part of the American Government against FIDEL CASTRO."

Because of the fact that subsequent to making the above-mentioned statement to Mexican authorities, source claimed that he had changed his statement because of fear, he was interviewed at considerable length on December 5 and 6, 1963, in Mexico, D. F.

After reiterating his story, T-32 was afforded a polygraph examination on December 6, 1963. During the course of the examination he was asked, "Is this the American you saw in the Cuban Consulate?" At the time he was shown photographs of OSWALD.

Each time he was asked this question, he definitely responded, "Yes," but it was noted that the polygraph indicated a "deception response" on these answers. These responses and those with respect to other questions led to the conclusion that T-32 was a fabricator. It was specifically pointed out to him that the polygraph indicated that he was not being

truthful in identifying photographs of OSWALD as being of a person he saw in the Cuban Consulate, and he was asked for his explanation thereof.

He replied that he had full faith in the polygraph and would not attempt to refute its results. He went on to say that the only explanation he could offer was that he had seen an American in the Cuban Consulate on September 18, 1963, who resembled OSWALD, and that upon seeing the photograph of OSWALD in the newspaper, he built up within himself, either consciously or subconsciously, a complete belief that the person he had seen in the Cuban Consulate was OSWALD.

X. MISCELLANEOUS INQUIRIES AND ALLEGATIONS RELATING TO OSWALD

(A) Allegation by SALVADOR DIAZ VERSON Concerning OSWALD and SILVIA DURAN

The White House at Washington, D. C., received a paper entitled "Possible Psychological Motivations in the Assassination of President KENNEDY" written by JOSE I. LASAGA, 2340 N. E. 7th Avenue, Apartment 4, Miami, Florida.

This speculative paper attempted to establish that the motivation of OSWALD in the assassination of President KENNEDY was FIDEL CASTRO or a CASTRO agent and that OSWALD was so motivated during his trip to Mexico between September 27 and October 2, 1963. The paper included the allegation that OSWALD had an extended interview with the Cuban Ambassador to Mexico, whom he met at a restaurant on the outskirts of Mexico, D. F., from where they departed together in the Cuban Ambassador's automobile for a private conversation.

LASAGA had advised the White House that he received the above report from ANGEL FERNANDEZ VARELA, an employee of the Voice of Cuba in Miami, Florida, who received the information from SALVADOR DIAZ VERSON, who reportedly was in

Mexico, D. F., doing some investigative work after the assassination of President KENNEDY.

SALVADOR DIAZ VERSON was interviewed at Miami, Florida, and stated that while in Mexico, D. F., from November 20 to 29, 1963, attending the Congress of the International Federation of Professional Newspaper Organizations, he was at the offices of the newspaper "Excelsior" on the night of November 25, 1963. He learned through the Mexican press that the Mexican Government had arrested one SILVIA DURAN, that DURAN allegedly had OSWALD as a guest in her house during his visit to Mexico, and that DURAN had placed OSWALD in contact with officials of the Cuban Embassy in Mexico, D. F.

DIAZ VERSON claimed Dr. BORRELL NAVARROS, an exiled Cuban newspaperman employed by "Excelsior," told him that on the day following OSWALD's arrival in Mexico, D. F., OSWALD and DURAN went to a restaurant called the "Caballo Blanco" or possibly the "Caballo Bayo," where they met an official of the Cuban Embassy. DIAZ VERSON claimed he knew nothing about OSWALD and the Cuban official's having left the restaurant together in a car.

T-3 advised that on January 11, 1964, Dr. EDUARDO BORRELL NAVARRO, a former Cuban cabinet minister who on occasions writes feature articles for the Mexico City daily newspaper "Excelsior," and resides at 1303 Homero Street, Apartment 301, Mexico, D. F., furnished the following:

SALVADOR DIAZ VERSON was in Mexico, D. F., as he had claimed and discussed OSWALD with BORRELL and other Cuban exiles. DIAZ VERSON also visited BORRELL at the latter's home.

BORRELL did not corroborate the story credited to him by DIAZ VERSON concerning the visit to a Mexico City restaurant by OSWALD and SILVIA DURAN. BORRELL stated he had never heard this story or anything similar.

BORRELL knew of no meeting between OSWALD and Cuban Embassy officials other than the meetings which allegedly occurred at the time OSWALD visited the Cuban Consulate in Mexico, D. F. BORRELL knew nothing concerning any visit by OSWALD to the home of DURAN.

On January 17, 1964, T-5 advised that he had been unable to locate a "Caballo Blanco" restaurant in Mexico, D. F., but stated that there is a "Caballo Bayo" restaurant located on the outskirts of Mexico, D. F. Source stated that it is a very large, typical, Mexican restaurant which does a thriving business. Source advised that on January 11, 1964, the photographs of former Cuban Consul EUSEBIO AZCUE LOPEZ, who was in charge of the Cuban Consulate at the time of OSWALD's visit, of Cuban Ambassador JOAQUIN HERNANDEZ ARMAS, of SILVIA DURAN, and of OSWALD were shown to the employees of the "Caballo Bayo" restaurant and extensive interviews among the employees of this restaurant were conducted without locating anyone who could recognize any of the photographs of the persons mentioned above as having been at this restaurant.

(B) Information Furnished by ROBERT KAFFKE

On February 27, 1964, ROBERT KAFFKE appeared at the United States Embassy in Mexico City and identified himself as having been a member of a student group which visited Cuba in 1963 and he explained that he had come to Mexico, D. F., to seek contact with the Cuban Embassy in the hope of arranging another trip to Cuba or to obtain assistance in making arrangements to travel to Communist China as an observer of a teacher. He mentioned that he had made some inquiries with respect to the visit to Mexico, D. F., of LEE HARVEY OSWALD in the hope that he could develop an angle which would enable him to write a saleable magazine article.

KAFFKE furnished the following background data concerning his interest in OSWALD's activities in Mexico:

He stated that within the recent past, MARK LANE, an attorney for Mrs. MARGUERITE OSWALD, LEE HARVEY OSWALD's mother, had visited San Francisco, California, on a lecture tour, and KAFFKE had attended the lecture and had spoken to LANE at some length after the lecture.

LANE told KAFFKE that "the FBI is so convinced that OSWALD was responsible for the assassination of President KENNEDY that it has ignored other witnesses and failed to follow up various leads." LANE claimed to have seen an

affidavit in the possession of the Dallas Police Department reflecting that the paraffin tests made of OSWALD had disclosed powder burns on his hands but not on his cheek, suggesting from this that he might have fired a hand gun on the day of the assassination but not a rifle.

LANE advised KAFFKE that he had located four women newspaper reporters who were between the underpass and the point from which the assassination shots allegedly were fired, and these women had expressed the belief that the shots they heard had seemed to originate from the opposite direction from the Texas School Book Depository where OSWALD reportedly was employed. According to LANE, the four reporters had claimed that upon hearing the shots from the direction of the underpass, they turned in time to see a puff of smoke and figures running along the bridge over the underpass.

LANE also told KAFFKE that he had seen (or had in his possession) a second affidavit to the effect that five spent bullets had been located following the assassination rather than the three bullets which had been publicized in the United States press. He referred to those alleged projectiles as follows:

(1) A bullet which appeared on the stretcher which was utilized in removing President KENNEDY from the official limousine.

(2) One bullet which lodged in the thigh of Governor CONNALLY.

(3) One bullet which struck Governor CONNALLY in the chest.

(4) A bullet which was found imbedded in the presidential limousine.

(5) A bullet which was found on the grass adjacent to where the automobile had been at the time of the shooting.

KAFFKE quoted LANE further to the effect that the latter had information that two days prior to the assassi-

nation a "huddle" had taken place at JACK RUBY's "Carousel Club" with the participants being RUBY, TIPPIT (the Dallas policeman allegedly killed by OSWALD) and an individual whose name KAFFKE was unable to recall but whom he described as the "man who had published a full-page advertisement in a Dallas newspaper shortly prior to the assassination, charging President KENNEDY with being a communist."

KAFFKE expressed reluctance to discuss the above-described meeting, stating that the information had been obtained by LANE from a very confidential source, the identity of whom he was not aware, and he referred to the information concerning the meeting as being "real dynamite." He commented that if the meeting had taken place, it suggested a conspiracy of the "radical Left" or "radical Right" and added that perhaps TIPPIT had meant to shoot OSWALD. He stated that possibly OSWALD killed TIPPIT contrary to the "conspiracy" and it became necessary for JACK RUBY to kill OSWALD.

KAFFKE denied that his trip to Mexico had been financed in any way by Attorney LANE but stated that he had advised LANE of his intention of traveling to Mexico, to which LANE replied that he would be "interested in anything he might pick up."

(C) Allegation by ROBERT EDMOND GALLANT, Santa Clara Prison Farm, Santa Clara, California, that OSWALD was in the Cuban Embassy in Mexico, D. F., on July 12, 1963.

On November 16, 1963, ROBERT EDMOND GALLANT, also known as ROBERT JAMES GALLANT, ROBERT EDWARD GALLANT and General ROBERTO EDMONDO CORTEZ, addressed a letter to United States Attorney General ROBERT F. KENNEDY from Milpitas, California, where GALLANT was incarcerated in a jail farm.

In this letter, GALLANT alleged that he had been supplying the United States Government "with vital information as to the communist movement in Latin American Countrys. Mainly Cuba, Brazil, Argentina and Mexico." He wrote that he held the rank of a general in the "Secret Underground

movement in Mexico;" that he was known as "General ROBERTO DE EDMONDO CORTEZ, Director of the Secret Army of Mexico; and that the Mexican Government did not approve of this movement because its top brass is 100% communist, both in the Government Party and the Military."

In the letter, GALLANT advised that he had sent a long letter to President J. F. KENNEDY pertaining to this matter. He then furnished information regarding the alleged shipment of arms and ammunition to Cuba. He stated that he had been risking his life for the last four years to obtain information on the inside of the communist movement and that if he were given his freedom to carry on his work, he would do all in his "power to aid the United States Government in obtaining information from Cuba throughout to Mexico."

GALLANT was interviewed at the Santa Clara County Jail on January 7, 1964, and advised the following:

After stating that he was born on March 19, 1922, and furnishing background information to the effect that he was arrested by Texas authorities at Houston, Texas, for burglary and served for seven years at the Texas State Prison at Huntsville, Texas, he related other experiences of his life until in 1960 he moved to Mexico where he resided until the fall of 1963, at which time he was arrested by Mexican authorities and deported to the United States for having written fraudulent checks.

GALLANT stated further that he had been active in an anti-FIDEL CASTRO underground in Mexico for the past few years under the name of General ROBERTO DE EDMONDO CORTES; that he had under his command a secret army of 3,500 men throughout Mexico, and that this group was an anti-CASTRO force concentrating its activities against Cuban communists in Mexico. He claimed to have a "secret agent" working in the Cuban Embassy in Mexico, D. F., and alleged that OSWALD was in the Cuban Embassy on July 12, 1963, to obtain a visa to Cuba and had stayed in Mexico for about one week at that time.

GALLANT's allegations concerning his underground movement were unknown in Mexico, and the results of a polygraph

examination of GALLANT were furnished on January 8, 1964, it's being the opinion of the examiner that GALLANT was suffering from delusions and that his story, as summarized above, was untrue.

(D) Allegation by HECTOR FRANCISCO SERRANO

T-17 advised as follows:

On November 26, 1963, a local newspaper editor at Guadalajara, Jalisco, Mexico, was reported to have stated that on Monday, November 25, 1963, he was visited by one HECTOR FRANCISCO SERRANO, a news photographer from Culiacan, Sinaloa, Mexico, who told the newspaper editor that in late September, 1963, he traveled by bus from Culiacan to Mexico City with "LEE OSWALD." SERRANO related that they had attempted to converse though "OSWALD's Spanish was poor," and "OSWALD" gave SERRANO a personal card and pamphlet in English with many pictures of FIDEL CASTRO, both of which later were discarded. SERRANO reportedly told the newspaper editor that upon arrival in Mexico City he noted "OSWALD's" baggage included a rifle in a leather case.

T-23, a confidential source abroad, advised as follows:

On December 2, 1963, HECTOR FRANCISCO SERRANO, Calle Rosales No. 477, Culiacan, Sinaloa, advised that in September, 1963, he had taken a Tres Estrellas de Oro (Three Gold Stars) bus from Culiacan to Mexico City, arriving about September 29, 1963. On the way to Mexico City, a person took a seat next to him near Guadalajara. He described this person as having facial characteristics similar to OSWALD and the same apparent age. He related that this person had talked to him in very poor Spanish on the trip from Guadalajara to Mexico City. He stated that he had seen OSWALD on television.

SERRANO related that he is a newspaper photographer, and when the Soviet Astronaut GAGARIN arrived in Mexico about October 10, 1963, he went to the airport to meet him. Being in the crowd, SERRANO was pushed to the front and personally talked to GAGARIN. SERRANO stated that he was surprised to see the same individual who had been next to him on the bus at the airport reception for GAGARIN.

SERRANO advised that many photographs were taken of the GAGARIN airport reception, and among the photographs which were taken was one which appeared on the front page of the October 12, 1963, issue of "Ovaciones," a Mexico City daily newspaper, in which SERRANO appeared with GAGARIN. SERRANO expressed the belief that in the background of one of the photographs is the person he saw on the bus and again at the airport reception.

T-17 advised that a review of the photographs appearing in the October 12, 1963, issue of "Ovaciones" revealed that OSWALD definitely does not appear in any of the photographs.

SERRANO advised that the above-mentioned bus from Culiacan to Mexico City arrived in Mexico City about September 28, 1963; however, OSWALD apparently entered Mexico at Nuevo Laredo, Tamaulipas, Mexico, on September 26, 1963, and is reported to have traveled by bus from Nuevo Laredo to Mexico City where he arrived on September 27, 1963, and was registered at a Mexico City hotel from September 27, 1963, until October 1-2, 1963.

(E) Allegation by LUIS FERNANDEZ GONZALEZ

On December 2, 1963, a person who identified himself as LUIS FERNANDEZ GONZALEZ contacted the United States Embassy, Mexico, D. F., and advised that he had some information of interest concerning LEE HARVEY OSWALD.

FERNANDEZ claimed he resided at the Hotel Yale, Calle Mosqueta No. 200, Mexico, D. F., that he was born on September 28, 1935, at Tegucigalpa, Honduras, and that his only living relative is his mother, AURORA GONZALEZ, who resides at Avenida 28 de Marzo No. 1300, Tegucigalpa, Honduras. He indicated that he is in Mexico illegally, having entered the country at Tapachula, Chiapas, on or about September 19, 1963.

FERNANDEZ claimed to be a member of the Movimiento de Liberacion Nacional (National Liberation Movement) in Mexico, D. F., and in connection therewith was acquainted

with one SAUL LOPEZ, whom he described as Press Chief of the National Liberation Movement.

> The Movimiento Liberacion Nacional (National Liberation Movement), which was formally organized at Mexico, D. F., in August, 1961, is an anti-United States, procommunist organization under the partial influence of the Partido Comunista Mexicano (Communist Party of Mexico).
>
> The published statutes of the Partido Comunista Mexicano (Communist Party of Mexico) state: "The Communist Party of Mexico has as its final objective to construct socialism and to build the communist society in Mexico."

FERNANDEZ related that on or about September 28, 1963, he met an American whom he came to know as JOHN WHITE on the street in front of the Hotel Reforma in Mexico City and again saw this person on September 29, 1963, in front of the same hotel. FERNANDEZ stated he has seen newspaper photographs of OSWALD and was of the opinion JOHN WHITE greatly resembled OSWALD.

On September 29, 1963, he accompanied WHITE and SAUL LOPEZ in LOPEZ' 1959 Ford Galaxie to Cuernavaca, Morelos, where they spent the day swimming and entertaining themselves at the Hotel Casino de la Selva but did not register at that hotel.

FERNANDEZ stated that he last saw JOHN WHITE on September 30, 1963, when WHITE and LOPEZ left Mexico, D. F., traveling to Monterrey, Nuevo Leon, in LOPEZ' automobile.

FERNANDEZ described WHITE as being about 23 to 24 years of age, about 5 feet 6 inches in height, and weighing about 110 pounds. He claimed that WHITE could speak fairly good Spanish and seemed very familiar with the Mexico City area.

FERNANDEZ stated he had nothing further to offer bearing on LEE HARVEY OSWALD but added that he was in need of

assistance to go to the United States or elsewhere out of Mexico because he feared that he would be apprehended by the police in Mexico, D. F., and jailed if he were found in Mexico without proper documentation. He advised he was without funds and had no gainful employment. He was badly in need of a shave and had an unkempt appearance.

On December 4, 1963, FERNANDEZ presented an undated passenger ticket stub, No. 46218, of the bus line known as Transportes del Norte, which he claimed had been given to him by WHITE on September 28, 1963, to have his baggage picked up at the Transportes del Norte bus station.

FERNANDEZ at this time again related he was in need of assistance to leave Mexico and enter the United States.

T-7 advised on December 4, 1963, that inquiry at the Transportes del Norte bus line in Monterrey revealed that ticket No. 46218 had been sold on November 30, 1963. (FERNANDEZ claimed to have been furnished the ticket stub with that number on September 28, 1963.)

On December 19, 1963, T-6 reported that FERNANDEZ had been detained by Mexican Immigration authorities in Mexico, D. F., for investigation concerning his alleged illegal entry into Mexico and to clarify his citizenship status. It was subsequently learned from T-6 that on January 15, 1964 FERNANDEZ had been deported from Mexico to Honduras in view of his continued claim of Honduran citizenship.

On March 17, 1964, source advised that investigation by the Mexican Government had revealed that LUIS FERNANDEZ GONZALEZ actually was a Mexican citizen and that he was considered to be insane. Source also stated that FERNANDEZ' mother had been an inmate of a mental institution in Mexico.

On March 23, 1964, T-6 advised that FERNANDEZ had returned to Mexico from Honduras without permission of Mexican Immigration authorities and again had been detained

on March 4, 1964, for questioning as a result of information received by Mexican authorities that he had claimed to have information concerning a planned attempt against the life of French President CHARLES DE GAULLE incidental to DE GAULLE's March 16-19, 1964, visit to Mexico.

Source related that investigation by the Mexican Ministry of Government had established that FERNANDEZ' true name is MANUEL SANTAMARINA MENDEZ. He stated that two Mexico City attorneys, AUGUSTIN SANTAMARINA, JR., Avenida Reforma No. 76, Office No. 3, and FERNANDO ARCE SANTAMARINA, Avenida Reforma No. 76, Office No. 1, Mexico, D. F., personally identified FERNANDEZ as their cousin and informed the Mexican investigators that FERNANDEZ' mother, AURORA MENDEZ DE SANTAMARINA, is mentally afflicted and his father, CARLOS SANTAMARINA, is deceased. The two attorneys described their cousin as mentally unbalanced and as a person who is well known for inventing fantastic falsehoods.

Source stated that FERNANDEZ or SANTAMARINA had been released from custody on March 20, 1964, after inquiries had clearly established his Mexican citizenship, and Mexican authorities were convinced that most of his statements were unreliable or completely false.

(F) Allegation by ROBERT HIMES

On December 13, 1963, ROBERT HIMES, 301 Isaac Garza Sur, Monterrey, Nuevo Leon, Mexico, furnished the following information:

On or about November 6, 1963, OSWALD allegedly entered Mexico at Ojinaga, Chihuahua, and proceeded south through the Republic of Mexico to the State of Michoacan where he converred with General LAZARO CARDENAS.

HIMES stated this information was given to his son, DAVID, by General SILICIA, Commandant of the Military Garrison at Ojinaga, Chihuahua. HIMES had no further particulars as to how OSWALD was traveling or any additional information regarding the matter.

HILES advised that his son, DAVID, was engaged to marry the daughter of General SILICIA, and during his early December visit to Ojinaga, the General had made the above statement.

In connection with the allegation, it is noted that Mr. H. S. AIKEN, bookkeeper, Texas School Book Depository, Dallas, Texas, on November 25, 1963, made available official payroll records for the Texas School Book Depository, which reflected that OSWALD first worked for this company on October 16, 1963, and worked continuously eight hours per day from October 16, 1963, through November 22, 1963, without missing a day's work. During this period of time he was off duty on Saturdays, Sundays and November 11, 1963, which was a company holiday. It is noted in this connection that November 6, 1963, was a Wednesday.

(G) Allegation by ANDREW CHAMPION that a Friend of FRANCIS H. FIEDLER of New Orleans, Louisiana, was OSWALD

T-7, who had occasion to interview ANDREW CHAMPION of Donna, Texas, at Calle Parras No. 213, Montemorelos, Nuevo Leon, Mexico, advised that on January 2, 1964, CHAMPION made the following statement:

CHAMPION, who was born October 14, 1900, in Santa Maria, Texas, and served in the United States Marines in World Wars I and II, in 1952 or 1953 became acquainted with FRANK H. FIEDLER, also known as FRANCIS H. FIEDLER, at the Buena Vista Hotel in Cuernavaca, Morelos, Mexico. FIEDLER had stated that he was working on his doctor's thesis at the University of California, Berkeley, California; that he was a teacher; that his studies were in "space work;" and that he was mistreated in the United States because he was Jewish.

In November, 1960, CHAMPION received a letter from FIEDLER dated October 8, 1960, which was addressed from 912 North Rampart Street, New Orleans, Louisiana, and in this letter FIEDLER stated that he was going to visit the Rio Grande; that he was "an American refugee from Cuba "; and that he had given up his position as professor of literature at the University of Hawaii "because of CASTRO."

wondered if there was any association between the two FRAZIERs and the information that OSWALD had resided in New Orleans. CHAMPION stated that with this information he became more convinced that the man who visited his home on January 1, 1963, was OSWALD.

Subsequent to the foregoing, JACK J. FRAZIER, 2106 Chartres Street, New Orleans, Louisiana, advised in January, 1964, that he had made a trip into Mexico in late December, 1962, accompanied by HOWARD COHEN, 611 Esplanade, New Orleans, Louisiana. He stated that he and COHEN toured the east coast of Mexico, went to Acapulco, Guerrero, Mexico, and then returned to New Orleans about February 1, 1963.

FRAZIER advised that he did not know LEE HARVEY OSWALD and that HOWARD COHEN in no way resembled OSWALD.

(E) Allegation by ALBERTO GODOY That Film in His Possession Might Depict LEE HARVEY OSWALD and JACK RUBY Together

On January 13, 1964, SANDERS F. ROSENBLUM of the United States Information Service, United States Embassy, Mexico, D. F., advised that a Mexican attorney named ALBERTO GODOY appeared at the United States Embassy and related the following:

At 9:30 a.m. on January 14, 1964, he was planning a private showing at the Cine Versalles, Mexico, D. F., of a film on the Cuban revolution which he had in his possession.

GODOY had seen this film two years previously, and although he was not certain, he thought it possible that the film depicted an individual who possibly was identical with LEE HARVEY OSWALD and another person who possibly was identical with JACK RUBY.

GODOY was not certain that the individuals in the film were identical with OSWALD and RUBY and was anxious that an observation of the film be made on January 14, 1964.

T-2 advised on January 14, 1964, that when contacted on the morning of that date, GODOY advised that the film had been shown on January 13, 1964, and that there was no one available at the Cine Versalles to run the film again.

He stated that reel No. 4 of the film was important because it depicted Cuban Premier FIDEL CASTRO's entry to Havana, Cuba, at the conclusion of the Cuban revolution and includes shots of throngs of people which could be enlarged to possibly identify OSWALD or RUBY as being in the crowd.

He made no allegation of having seen or identified OSWALD or RUBY in these crowds because he had seen the film two years before this. He stated that many communists were present when FIDEL CASTRO entered Havana, and he believed that OSWALD and RUBY could have been members of these crowds in HAVANA.

On January 14, 1964, he was shown photographs of OSWALD and he was not familiar in any way with the appearance of OSWALD. He also was shown a photograph of RUBY and could furnish no information reflecting that RUBY was shown in the film.

On January 14, 1964, GODOY reappeared at the United States Embassy, Mexico, D. F., with reel No. 4 of his film and stated that his primary interest was to sell the film to the United States Embassy for a price of $1,000 (United States currency) for the four reels of film.

GODOY furnished no concrete data to substantiate the allegation made by him on January 13, 1964, that OSWALD and RUBY might be depicted in his film.

GODOY, who appeared to be from 65 to 70 years of age, was unshaven and shabbily dressed and furnished his address as 128 Calle Bucareli. Mexico, D. F.

(I) Letter to Attorney General ROBERT F. KENNEDY from ERNESTO FLORES LUNA

A typewritten letter in Spanish, postmarked January 17, 1964,

at Mexico, D. F., was sent to Attorney General ROBERT F. KENNEDY by one ERNESTO FLORES LUNA, not further identified.

This letter alleged that there possibly were certain documents at the residence of VICTOR COHEN, owner of a shoe store in Tapachula, Chiapas, Mexico, and allegedly an intimate friend of FIDEL CASTRO of Cuba, which concerned contacts by a clerk of COHEN's shoe store and an unidentified man who delivered shipments of documents from him (COHEN) to OSWALD and three other persons, not named, who were to assassinate President ADOLFO LOPEZ MATEOS of the Republic of Mexico. This letter stated that the writer of same was taking "the liberty of reproducing with care certain documents which arrived from Tapachula addressed to OSWALD." The writer of the letter alleged that COHEN was FIDEL CASTRO's treasurer and that COHEN had kept individuals of different nationalities in his house, including OSWALD.

There were no enclosures to the above letter and the identity of the writer could not be established.

T-30, a confidential source abroad, advised as follows:

On February 11, 1964, A. R. GEHRKE, British Vice Consul at Tapachula, advised that he was not acquainted with VICTOR COHEN but would make inquiries concerning him.

GEHRKE subsequently advised that COHEN is the owner of the store, "La Nacional," at 3a Calle Poniente No. 35 (35 West 3rd Street), Tapachula, which handles shoes, cloth, clothing and general merchandise. He stated COHEN is considered to be a respectable businessman but is suspected of dealing in contraband.

On February 11, 1964, Lieutenant JORGE AGUILAR PEREZ of the Mexican Federal Highway Police at Tapachula, advised that he knew COHEN well and that COHEN would not involve himself personally in illegal activities for political reasons. He knew of no pro-CASTRO groups or activities in the Tapachula area.

JOSE POLITO MORALES, head of Mexican Immigration Service at Tapachula, advised on February 11, 1964, that he was well-acquainted with COHEN, whom he described as a prosperous local merchant. He stated that because of COHEN's alleged contraband activities, he has tried without success to follow COHEN's activities and establish evidence of violation of Mexican laws. He stated that during the course of his investigation, he learned of no contacts by COHEN with North Americans or other foreigners. He stated he believed it to be ridiculous to believe that COHEN would do anything for political motivation. He was certain that COHEN was not pro-FIDEL CASTRO and that there were no pro-CASTRO groups in Tapachula.

VICTOR COHEN CHARAFF, who is the son of ISAAC COHEN and considered identical with VICTOR COHEN SCHARAFF, a white, male Mexican, born July 19, 1933, at Tuxtepec, Oaxaca, Mexico, 5 feet 7 inches tall, weighing 147 pounds, with brown hair and eyes, of fair complexion, by occupation a clothing merchant, bearer of Mexican passport No. 282200, issued September 7, 1959, advised as follows on February 11, 1964, at his store in Tapachula:

He is not interested in politics concerning the United States, Cuba or any other nation; he is not pro-FIDEL CASTRO and has never belonged and never will belong to any pro-CASTRO organization.

He stated that because he is a prosperous businessman and Jewish, he has many enemies in Tapachula.

The name ERNESTO FLORES LUNA had no significance for him.

He claimed he had had no contact with any North Americans or other foreigners during the previous year; that no North Americans or other foreigners have been in his house or rental units; and that none of his forty employees are pro-CASTRO.

He was unfamiliar with OSWALD and unable to identify OSWALD from a group of photographs exhibited to him.

He recalled reading that OSWALD had visited Mexico but knew nothing further concerning this visit.

VICTOR COHEN CHARAFF was cooperative in furnishing samples from his typewriter for determination as to whether this typewriter was used in preparing the letter forwarded to Attorney General KENNEDY.

Result of FBI Laboratory
Examination of Typewriter Samples

The original and carbon copy samples from the typewriter of VICTOR COHEN were submitted to the FBI Laboratory for comparison with the typewritten letter directed to ROBERT F. KENNEDY by ERNESTO FLORES LUNA.

The FBI Laboratory concluded in a report dated March 3, 1964, that the typewriter used to type the samples submitted from VICTOR COHEN's typewriter was not used to type the envelope and accompanying letter forwarded to "Sr. ROBERT KENNEDY" from ERNESTO FLORES LUNA.

Additional Efforts to Identify
ERNESTO FLORES LUNA in Mexico, D. F.

T-4 advised that throughout February, March and April, 1964, the following efforts were made to locate and identify ERNESTO FLORES LUNA in Mexico:

The only reference which could be located in the files of the numerous Mexican Government agencies checked for the name ERNESTO FLORES LUNA was a December 15, 1959, application for Mexican Social Security registration as an employee of the "Constructora Valle de Bravo, S. A." (Brave Valley Construction Co., Inc.), Calle Oaxaca 93, Colonia Roma, Mexico, D. F., Mexico. This individual indicated he was born in 1922 and resided at Sierra Mojada, Lot 51, San Isidro Tecamachalo, State of Mexico, Mexico. His wife was listed as MARGARITA DELGADO PEDRAZA. He was registered with Mexican Social Security No. 153-22-157.

T-4 conducted the following inquiry:

At the "Constructora Valle de Bravo, S. A." it was determined that no record could be located of the employment of ERNESTO FLORES LUNA. The "Constructora Valle de Bravo, S. A."

was formed in 1959 when this concern was engaged in the construction of a housing development known as "San Esteban" in Mexico, D. F., and the firm and its subcontractors employed thousands of temporary workers. It was suggested at the "Constructora Valle de Bravo, S. A." that ERNESTO FLORES LUNA might have been employed by one of the subcontractors as he was unknown to the parent firm.

Neighborhood inquiries in San Isidro Tecamachalco, State of Mexico, which immediately adjoins the Federal District, failed to locate any information relative to ERNESTO FLORES LUNA.

According to T-4, no documentation is necessary to apply for Social Security registration in Mexico, and any identity may be assumed in making such an application. Source pointed out that the fact there has been no other activity or entry with respect to this registration may indicate the registration of ERNESTO FLORES LUNA was fictitious, since efforts to identify LUNA through numerous other sources had been unsuccessful.

(J) Information from JOSE GARCIA LUCHICHI That American Woman in Monterrey, Mexico, Telephoned Dallas Before and After Assassination of President KENNEDY

On January 3, 1964, JOSE GARCIA LUCHICHI, a former employee of the United States Embassy, Mexico, D. F., and a reporter for "The News," an English language daily newspaper published in Mexico, D. F., furnished the following information to the Regional Security Office, United States Embassy, Mexico, D. F.

An unidentified American woman, who had rented a room in Monterrey, Nuevo Leon, Mexico, from GUADALUPE DAVILA REYES at Colombia 345, Vista Hermosa, Monterrey, had telephoned Dallas, Texas, from Monterrey several times prior to the assassination of President JOHN F. KENNEDY and again following the assassination.

The unidentified woman allegedly revealed that she was very happy upon learning of President KENNEDY's death and allegedly played "happy tunes on the piano" thereafter.

The woman's conduct reportedly was so offensive to Miss GUADALUPE DAVILA REYES that she was asked to leave and the woman's whereabouts was not known.

T-31, a confidential source abroad, advised on January 15, 1964, at Monterrey, Mexico, that Miss GUADALUPE DAVILA REYES stated that the above allegations were completely unfounded and without any basis whatsoever.

(K) Allegation That STEVE KENNAN Might Have Met OSWALD in Mexico

T-2 advised as follows:

On January 22, 1964, HOMOBONO ALCARAZ ARAGON, a graduate student of the Universidad Nacional Autonoma de Mexico (National Autonomous University of Mexico), Mexico, D. F., commented on an alleged statement he made the latter part of December, 1963, that a young American, STEVE KENNAN, described by ALCARAZ ARAGON as procommunist and from some city in Pennsylvania, might have had something to do with OSWALD.

ALCARAZ ARAGON advised that when KENNAN was in Mexico in 1962 and 1963, he apparently was unsuccessful in securing a visa from Cuban authorities for travel to Cuba.

ALCARAZ ARAGON stated he could not identify photographs of OSWALD as identical with anyone he ever observed in KENNAN's company in Mexico or as anyone he had ever seen.

ALCARAZ ARAGON claimed to have no knowledge which would place KENNAN in contact with OSWALD.

On April 27, 1964, ALCARAZ ARAGON was reinterviewed and stated very positively that he had never seen OSWALD and had no personal knowledge whatsoever concerning OSWALD's travel to and activities and contacts in Mexico City. He advised that he can be located in Mexico City at Calle Chiapas No. 160.

(L) Information From ARTURO ALCOCER RUIZ

T-10 advised that on November 27, 1963, Attorney ARTURO ALCOCER RUIZ, Calle Masaryk No. 51, Mexico, D. F., furnished the following information:

At approximately 9:00 a.m., November 21, 1963, he and his wife, DOLORES AHEDO DE ALCOCER, upon departing the Gunter Hotel in San Antonio, Texas, for a shopping tour, had observed a very obese woman who was wearing glasses and a green cotton dress, was about 50 years of age, about 5 feet 7 inches in height, with dyed blond hair and weighing about 200 pounds. This woman was standing in front of "Carl's" store near the Gunter Hotel.

Upon returning to the vicinity of the Gunter Hotel about 1:00 p.m., they again saw the same woman still standing at the same location. At that time President JOHN F. KENNEDY was passing down the street in a caravan, and they observed the woman leave the area after the Presidential procession had gone by.

On November 22, 1963, following the assassination of President KENNEDY, while still in San Antonio and while watching a television interview of the manager of the guest house where OSWALD stayed in Dallas, Texas, the television camera, during the course of that interview, picked up the same fat woman they had seen in San Antonio the previous day.

On November 24, 1963, ALCOCER and his wife were watching a television program in San Antonio, following the shooting of OSWALD by JACK RUBY, and while RUBY's sister was being interviewed on television, they became certain that RUBY's sister was identical with the fat woman.

ALCOCER expressed the belief that the foregoing information might possibly indicate involvement of JACK RUBY and his sister as conspirators in the assassination of President KENNEDY.

(M) Information That ERNESTO RODRIGUEZ, New Orleans, Louisiana, Possessed Tape Recordings of OSWALD's Spanish

T-17 advised as follows:

On November 27, 1963, a widow named Mrs. MARIA RODRIGUEZ DE LOPEZ made the statement in Mexico, D. F., Mexico, that her son-in-law, a Cuban named ERNESTO RODRIGUEZ, 212 Jefferson Parish, New Orleans, Louisiana, telephone No. Vernon 5-9658, operates a Spanish school in New Orleans and had tape recordings of Spanish conversations by OSWALD. Mrs. RODRIGUEZ DE LOPEZ stated her son is opposed to Cuban Premier FIDEL CASTRO.

According to T-17, ERNESTO RODRIGUEZ, President of the Modern Language Institute, New Orleans, Louisiana, advised that OSWALD contacted him on one occasion during the last week of July or early August, 1963, and inquired concerning a Spanish language course offered at the Institute. OSWALD did not take any courses, and RODRIGUEZ had no taped recordings of OSWALD's voice. He had no knowledge of OSWALD's Spanish-speaking ability.

LEE HARVEY OSWALD

BASIS FOR INQUIRY

The following information was furnished by a confidential source abroad on March 17, 1964:

The travel document with which LEE HARVEY OSWALD entered Mexico on September 26, 1963, is described as a Mexican Ministry of "Gobernacion" (Interior) FM-8 and is commonly referred to as a tourist card, which consists of two sections, an original and a carbon copy duplicate. At the time of OSWALD's travel to Mexico, the FM-8 was valid for a single entry to the interior of Mexico and residence therein for no longer than fifteen days. The original tourist card utilized by OSWALD, which is reproduced on the following page, records the following data:

FM-8 No.:	24085, valid for 15 days.
Full Name:	LEE, HARVEY OSWALD Photographer
Sex:	Male
Marital Status:	Married
Document with Which Nationality Was Established:	Birth Certificate
Final Destination:	Mexico, D. F.
Date and Place (of issuance):	New Orleans, La., USA, September 17, 1963.
Signature of Bearer:	LEE H. OSWALD

It bears the stamp of the Consulate General of Mexico at New Orleans, Louisiana, indicating issuance by that agency, and the date stamp of Mexican Immigration official HELIO TUEXI MAYDON, reflecting entry into Mexico at Nuevo Laredo, Tamaulipas, September 26, 1963. The stamp for departure is that of Immigration official ALBERTO ARZAMENDI CHAPA and the date shown is October 3, 1963. Under normal procedures, the means of travel of the bearer upon entry to Mexico is recorded on both sections of the tourist card at the top thereof with a stamped, typed or handwritten notation; however, this record does not appear on the FM-8 for OSWALD.

OCT. 1963

Copied above is the original portion of the Mexican FM-8 with which LEE HARVEY OSWALD entered Mexico on September 26, 1963, and departed therefrom on October 3, 1963. Although he is known to have traveled by bus from Nuevo Laredo to Mexico City, his mode of travel is not recorded on the FM-8, which was retrieved and cancelled by ALBERTO ARZAMENDI CHAPA at the time of his departure. No space is provided on the card for recording means of travel upon departure, and no such information appears on the above card. The back of the FM-8 contains no information other than printed instructions and warnings to the traveler in Spanish, English and French.

A review of the original tourist cards (FM-5, FM-8, and one FM-17, latter explained below) in the possession of the Immigration Department of the Mexican Ministry of "Gobernacion" revealed that 79 persons documented with those forms had departed from Mexico at Nuevo Laredo, Tamaulipas, on October 3, 1963, among them LEE HARVEY OSWALD.

On March 23, 1964, Mr. MACLOVIO HERRERA, Chief of the Travel Control Files of the Mexican Immigration Department, advised that in a circular instruction dated March 20, 1962, the Chief of the Immigration Department described the Immigration form "FM-11" as a "statistical record to be prepared every two weeks on nationals and aliens entering and leaving the country." Mr. HERRERA explained that separate FM-11 forms are submitted semimonthly by all Mexican Immigration stations for entries and departures from Mexico. He explained that separate lists are prepared in connection with the various types of travel documents presented and are submitted in duplicate (an original and one carbon copy) to the Travel Control Files for checking and comparison with the tourist cards or other travel documents on which they are based.

Under current procedures, twenty names are placed on each page of the FM-11 in alphabetical order by date, and prior to final filing these are reviewed by a clerk who may make corrections and report possible discrepancies which might require investigation in order to make certain that the Immigration Laws of Mexico are not being violated. The items of information which are recorded on the FM-11 in horizontal columns are: chronological number (chronological listing number during fifteen-day period), identification document number, complete name, sex, age, marital status, nationality, occupation, place and country of origin, final destination, date of entry or departure, type of vehicle in which traveling, date of entry, date of departure (latter columns to determine period of residence), and remarks.

A review of the original tourist cards for persons traveling as tourists who departed from Mexico at Nuevo Laredo on October 3, 1963, disclosed that in no instance did any notation appear on the travel documents to indicate manner of travel of the bearer or destination in the United States upon departure from Mexico. Because of an unusual circumstance, however, it was noted that in a single instance a tourist,

one JOHN H. BENNETT, had reported to Immigration authorities that he had lost his tourist card, and after being fined he was provided with a special document which would permit his departure from Mexico, an FM-17.

It was observed that on the FM-11 forms, the "destination" of the traveler at the time of departure was completed invariably with the same information as appeared on the tourist card as to place of residence, the place of issuance thereof, or a notation that the information was not available.

REVIEW OF TOURIST CARDS AND FM-11 RECORDS

A review of the FM-11 form listing persons who exited from Mexico on October 3, 1963, at Nuevo Laredo, Tamaulipas, with alien tourist cards revealed that for the 79 persons who were recorded as having departed their means of travel could be defined as follows:

Travel By	Number of Persons
Automobile	25
Bus	17
Railroad	18
Airline	7
Data unavailable	12
Total	79

A review of the original portions of the tourist cards of these travelers disclosed that none contained any information concerning means of transportation utilized by these people on departure from Mexico with the exception of JOHN H. BENNETT, who had lost the original portion of his tourist card.

Mexican Immigration records reveal that BENNETT, a resident of 10250 Haitian Drive, Miami, Florida, had entered Mexico at Nuevo Laredo on September 8, 1963, with FM-8 No. 625114; however, on his departure from Mexico at Nuevo Laredo on October 3, 1963, BENNETT advised Mexican Immigration authorities that he had lost his FM-8. These Immigration records reflect that, inasmuch as BENNETT had remained in Mexico more than the fifteen-day period authorized by the FM-8 with which he was traveling, he was fined 200 pesos ($16.00 U.S.) and his departure from Mexico was recorded on a form FM-17, which listed his travel as being by automobile. This means of transportation also was recorded on the FM-11, although the FM-17 contained no information as to the means of transportation used by BENNETT upon entry to the country.

Persons Listed on Form FM-11 as Having Departed Mexico at Nuevo Laredo by Automobile on October 3, 1963

Twenty-five persons are listed on the FM-11 for October 3 as having departed by automobile. A review of the original portions of the corresponding tourist cards for these individuals disclosed the following:

(1) Seventeen of these persons are listed as having entered Mexico by automobile.

(2) One person is listed as having entered Mexico by airline.

(3) Six persons (including LEE HARVEY OSWALD) are listed as having entered Mexico by unknown means. The names appearing on the tourist cards in these six instances are as follows:

AYALA GARCIA MARTINEZ, ORALIA
HARVEY OSWALD, LEE
EHLINGER, LEO CHRIS
GARZA GARAZA, ENRIQUETA
BRIAN, JOHN O.
PERALES, LUCAS JR.

As has been pointed out, a review of these tourist cards shows they contain no separate notation on the cards which would indicate the mode of travel of these individuals either upon entry or departure from Mexico; however, an entry appears on the FM-11 that they departed Mexico by automobile.

(4) One person, JOHN H. BENNETT, as mentioned above, claimed he lost the original portion of his tourist card, and the FM-17 which recorded his departure did not reflect any information as to the means of transportation used by BENNETT upon entry to Mexico.

Persons Listed on Form FM-11 as Having Departed Mexico at Nuevo Laredo by Bus October 3, 1963

Seventeen persons are listed on the FM-11 in question as having departed by bus. A review of the original portions of the corresponding tourist cards of these individuals disclosed that seventeen of these persons are recorded as having entered Mexico by bus.

Persons Listed on Form FM-11 as Having Departed Mexico at Nuevo Laredo by Railroad October 3, 1963

Eighteen persons are listed on the FM-11 as having departed from Mexico by railroad. A review of the original portions of the corresponding tourist cards of these individuals disclosed the following:

(1) Seventeen of those persons are listed as having entered Mexico by railroad.

(2) One person, Mrs. BEATRICE L. SCHUBERT, is recorded as having entered Mexico by automobile.

POSSIBLE ERRORS ON FM-11

As specific examples of the fact that information appearing on the FM-11 as to "means of travel" at the time of departure is, at best, a guide or indication, but cannot be accepted completely, the following was observed:

RICHARD T. SCHUBERT and BEATRICE L. SCHUBERT of Louisville, Texas, bearing FM-5 Forms No. 4496471 and No. 4496472 (chronologically No. 110 and No. 111 on FM-11), respectively, both issued on the same date by the Mexican Consulate at Dallas, Texas, entered Mexico on the same date, October 1, 1963, and their tourist cards were stamped for entry by the same official, ALEJANDRO ROCHA ESPINOSA. Both cards reflected their destination as Mexico, D. F.; however, the tourist card of BEATRICE L. SCHUBERT carries the typewritten notation that she entered by "Auto 13 hrs." and that of RICHARD reflects he entered by "Tren (train) 13 hrs." They departed on October 3, 1963, and their tourist cards were stamped by the same official, TEOFILO SOTO ESCOBEDO. Neither tourist card bears any notation as to their means of travel upon departure, but the FM-11 reflects that both of them departed by "railroad."

FM-5 No. 4325846 (chronologically No. 117 on FM-11) records that HERBERT ROBERT VOORHEES, 73 years of age, a resident of Beloit, Wisconsin, had entered Mexico on June 5, 1963, at Nuevo Laredo at 17:00 o'clock with Mexico City as his destination. The FM-5 has the typewritten word "tren" (train) at the top, which apparently was his method of travel at the time of entry into Mexico. The FM-11 for October 3, 1963, reflects that VOORHEES departed Mexico by "ferrocarril" (railroad) despite the fact that his tourist card was picked up for cancellation and bears the October 3, 1963, date stamp of Immigration official ALBERTO ARZAMENDI CHAPA, who, according to information received from the Mexican Immigration Department, was on duty from 12:00 midnight to 8:00 AM at the "Kilometer 26" highway checking station and would not have handled any departures by train on that date. (It is noted that upon interview on March 26, 1964, VOORHEES advised that he departed Mexico at Nuevo Laredo on October 3, 1963, by bus.)

FM-5 No. 4328866 (chronologically No. 114 on FM-11) for PHILLIP TRITSCHLER STEFFEN, 64 years of age, a resident of Davenport, Iowa, indicates he entered Mexico on August 7, 1963, at Nuevo Laredo. The tourist card carries the stamped impression "ferrocarril" (railroad) as the means of travel in the same color ink as the date stamp of the Immigration official who received him. He departed Nuevo Laredo on October 3, 1963, and the tourist card bears the cancellation stamp on that date of official JESUS GOVEA HERRERA. The FM-11 lists his means of travel upon departure as "railroad" despite the fact that GOVEA HERRERA placed his cancellation stamp on numerous tourist cards of persons traveling by car or bus at the "Kilometer 26" highway checking station on that same date, and it is quite certain that STEFFEN departed from Mexico by motor vehicle.

FM-5 No. 4329147 (chronologically No. 100 on FM-11) for MAMIE A. MILLER records in typewritten form under "Remarks" that she had entered by "rail" en route to Mexico, D. F., the date being stamped as September 7, 1963. The FM-5 No. 4455353 of CHARLES L. MILLER (chronologically No. 101 on FM-11) records that MILLER entered Mexico on September 20, 1963, at Matamoros and the means of travel is stamped "autobus." Both travelers departed from Mexico at Nuevo Laredo on October 3, 1963, with their tourist cards being handled and stamped by official EDUARDO DE LEON SILLER; nevertheless, the FM-11 reflects that MAMIE A. MILLER departed by "railroad" and CHARLES L. MILLER by "autobus."

Persons Listed on Form FM-11 as
Having Departed Mexico at Nuevo
Laredo by Airline on October 3, 1963

Seven persons are listed on the FM-11 as having departed by airline. A review of the original portions of the corresponding tourist cards of these individuals disclosed all seven of these persons are listed as having entered Mexico by airline.

FM-5 No. 3461432 and FM-5 No. 3461434 (chronologically No. 105 and No. 103 on FM-11) issued respectively to Ma. CRISTINA CARACIOLE DAVILA DE PIEDRA and MATILDE MURACCIOLE

DAVILA reflect that they entered Mexico at the Mexico City Central Airport on April 3, 1963, and the FM-11 records that they departed by "plane" at Nuevo Laredo on October 3, 1963. FM-5 No. 4050009 (chronologically No. 115 on FM-11) issued to OTELLO MERICHI TADDIA reflects that he also entered Mexico at the Mexico City Central Airport on May 21, 1963, and the FM-11 records that he departed by "plane" at Nuevo Laredo on October 3, 1963. It was not possible to locate any notation on the cancelled FM-5 forms concerning the mode of travel of these three persons upon departure from Mexico, and it is noted that the cancellation stamp on each of their cancelled tourist cards is that of Immigration official EDUARDO DE LEON SILLER, whose date stamp for October 3, 1963, was noted on a number of tourist cards for persons listed on the FM-11 as having departed by railroad.

Persons Listed on Form FM-11 as
Having Departed Mexico at Nuevo Laredo
by Unknown Means on October 3, 1963

Twelve persons are recorded on the FM-11 as having departed with no data available as to means of travel. A review of the original portions of the corresponding tourist cards of these individuals disclosed the following:

(1) Seven persons are listed as having entered Mexico with means of travel not recorded.

In this connection, it should be pointed out that AGAPITO DEL RIO was traveling on FM-5 No. 4158202 (chronologically No. 107 on FM-11) which was issued by the Mexican Consulate General at San Antonio, Texas, on September 13, 1963. The original portion of this tourist card disclosed he entered Mexico at Nuevo Laredo on September 14, 1963, with destination of Mexico, D. F. His mode of travel was not indicated. The FM-11 shows final destination upon departure from Mexico on October 3, 1963, as San Antonio, Texas, and no data appears as to means of travel.

(Upon interview at San Antonio, Texas, on

March 31, 1964, DEL RIO advised he had departed Mexico at Nuevo Laredo on a Transportes del Norte bus; in addition, DEL RIO's name appeared on a list of passengers of a bus of the Transportes del Norte bus line which was scheduled to cross the United States-Mexico border on the early morning of October 3, 1963, and to arrive at Laredo, Texas, about 2:00 AM that day.)

(2) One person is listed as having entered Mexico by railroad.

In this connection it is noted that MANUEL CAPIZ and GUADALUPE CAPIZ of St. Paul, Minnesota, were traveling on FM-5 Forms No. 4329753 and No. 4329756 (chronologically No. 82 and No. 83 on FM-11), respectively, both issued on the same date, September 12, 1963, at the Immigration Office, Nuevo Laredo, and entered Mexico the same date and hour. Both cards reflected their destination as Mexico, D. F.; however, the tourist card of GUADALUPE CAPIZ carries a typewritten notation that she entered by "ferrocarril" (railroad) and that of MANUEL carries no information as to the means of transportation upon entry. They departed on October 3, 1963, and their tourist cards were stamped by the same official, EDUARDO DE LEON SILLER, whose date stamp for October 3, 1963, was noted on a number of tourist cards for persons listed on the FM-11 as having departed by railroad. Neither tourist card bears any notation as to their means of travel upon departure, and the FM-11 records their departure as being by unknown means.

(3) Two persons are listed as having entered Mexico by airline.

(4) One person is listed as having entered Mexico by bus.

(5) One person is listed as having entered Mexico by automobile.

FM-11 PREPARATION AND UTILIZATION BY MEXICAN IMMIGRATION

Inspector JOSE MARIO DEL VALLE of the Inspection Department of the Mexican Ministry of "Gobernacion," who conducted investigation at Nuevo Laredo concerning the travel in Mexico of LEE HARVEY OSWALD, advised on March 12, 1964, that the typist who prepares the FM-11 has no information available to her other than that which appears on the tourist cards. He stated the typist prepares the FM-11 for persons entering the country from the duplicate copies of the tourist cards which are surrendered to the Immigration official at the time of entry of the traveler, and the duplicate tourist cards are transmitted to the headquarters of the Immigration Department in Mexico City with the FM-11 form for the fifteen-day period.

In the same manner, the FM-11 form for departures is prepared on the basis of data taken from the original of the tourist card, which is surrendered by the traveler to the Immigration official upon departure from the country.

DEL VALLE acknowledged that the Mexican Immigration Department does not have any major interest in "method of travel" or "destination" of the departing traveler other than to make certain that the individual who enters the country with an automobile is removing the vehicle upon departure. He added that the typist who prepares the departure FM-11 usually records the means of travel as being the same as that appearing on the tourist card in connection with the traveler's entry to the country; however, in some instances she may "guess" at the means of travel on the basis of the usual assignment at the airport, railroad station, or highway checking station of the Immigration official whose cancellation stamp appears on the tourist card.

On March 13, 1964, MACLOVIO HERRERA, Chief of the Travel Control Files of the Mexican Department of Immigration, Ministry of "Gobernacion," and his assistant, EDUARDO RIVAS,

made the following comments concerning Mexican Immigration records and procedures:

The "means of travel" and "destination" data appearing on the departure FM-11 forms are not information in which the Mexican Immigration Department has any substantive interest and is filled out by the typist only because the same form is used to record both arrival and departure information. This information with respect to "arrivals" is most essential to assist the Immigration Department in maintaining a record and control of aliens who are in Mexico as temporary residents without authorization to be gainfully employed. There is no source of information from which the typist preparing the FM-11 can obtain data for it other than the tourist cards, data provided to her by the Immigration official who may bundle a group of cards together and label them as having been taken up on a departing train or other vehicle, or her own knowledge of the Immigration station where the cancelling official may have been working during a particular period of time.

Inquiry was made of HERRERA with respect to certain horizontal lines which appear on the FM-11, and he explained that such lines are drawn to delineate between different dates on the same page and also to designate an individual concerning whom some research is being done or a report has been submitted to some section or department of the Ministry of "Gobernacion."

With respect to the fact that on the copies of the FM-11 which were made available for study and review there appeared under the "Remarks" (No. 16) column considerable data concerning the date and place of issuance of the tourist cards, HERRERA advised that this information did not appear on the originals of the FM-11 which were in his possession, and he was certain that this data had been added only on the carbon copy.

On March 23, 1964, T-1 produced the carbon copies of the FM-11 forms relating to OSWALD's travel in Mexico, and it was observed that column 16 thereof had been completed in original typing with data from the tourist cards as to date and agency where each tourist card had been issued. T-1 added that the information in column 16 was taken from the tourist cards of the travelers who were recorded in the FM-11 forms.

With regard to the observation that the date of issuance of OSWALD's tourist card was recorded in column 16 as having taken place on "Sept. 16/63," T-1 stated very definitely that this had been a typographical error on the part of the stenographer, who should have copied the information from OSWALD's tourist card to the effect that it had been issued on September 17, 1963.

However, the People's World newspaper, a west coast communist newspaper published weekly on Saturday, on October 17, 1964, published an article on page two captioned "Debate on Warren Report Blackout".

In paragraph three of this article a question was raised as to why the newspapers in the San Francisco Bay Area had no reporters at this debate.

Enclosed for the Bureau are three xeroxed copies of this article. One copy is enclosed for each New York and Dallas, because of their interest in this matter.

DEBATE ON OCTOBER 9, 1964, BETWEEN MELVIN BELLI AND MARK LANE ON THE QUESTION "IS OSWALD THE LONE ASSASSIN OF THE PRESIDENT?"

On October 9, 1964, a debate between San Francisco attorney MELVIN BELLI and New York attorney MARK LANE captioned "Is Oswald the Lone Assassin of the President?" was held at the Masonic Memorial Auditorium, California Street, San Francisco. Prominent San Francisco attorney JAKE EHRLICH was the moderator. This meeting was attended by a Special Agent of the FBI and Mrs. [HELEN JANET MEYER, 125 Arbolado Drive,] Walnut Creek, California.

An opening statement was made by BELLI. He began his statement by praising the Warren Commission Report, stating that it was a tribute to such a great democracy as the United States and he believed that no other country could have produced such a complete report. He derided LANE for speaking in foreign countries and harming the image of the United States by implying that there had been a conspiracy in this country to kill President KENNEDY and implying that OSWALD was not the only person involved in the assassination. BELLI then asked if this is so, who are these conspirators and where are they now? BELLI stated there was no one else besides OSWALD and he said he would show this beyond a reasonable doubt. He said OSWALD was a psychotic person and always had been, and even as a youth under the New York Youth Authority, OSWALD had exhibited psychotic and schizophrenic tendencies.

BELLI then discussed the events the day KENNEDY was killed. He discussed OSWALD's travel to get the "curtain rods"; the events at the time of the shooting; how OSWALD left the building; took a bus; the finding of the bus transfer on OSWALD; his travel by cab; the shooting of TIPPIT, and OSWALD's subsequent arrest. He discussed the palmprint found on the gun; the rifle purchased by OSWALD under an assumed name; the fingerprints on the bag in which OSWALD

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

carried the gun; the fibers of OSWALD's jacket on the gun; the witness who saw OSWALD at the window of the book depository building; the witnesses who saw the shooting of TIPPIT; HOWARD BRENNAN's identifying OSWALD from the police line-up; the cartridges which were found to have come from OSWALD's hand gun, and the hole on the inside of the windshield of the President's car.

BELLI insisted that all these things showed beyond a reasonable doubt that OSWALD was guilty.

MARK LANE then made an opening statement. He said he had never said anywhere that there had been a conspiracy in this country to kill the President. He said that in this country there still exists the presumption of innocence until proven guilty. He commented on the voluminous, heavy Warren Report and stated that historians may some day record the most precise description of the Report and that would be President JOHNSON's remark, "It is very heavy," when he received his copy from Chief Justice WARREN.

LANE stated that OSWALD was never represented by counsel before the Warren Commission. He then discussed what he believed to be discrepancies in the Report. He talked about the Dallas Police officers at first reporting the finding of a Mauser rifle which later turned out to be an Italian gun. He discussed witness HOWARD BRENNAN, who had been standing outside the book depository building and his description of OSWALD as being entirely too accurate from that distance. He stated that BRENNAN had said OSWALD was shooting while standing by the window, but the Warren Report said OSWALD was sitting down. If OSWALD was sitting down, how could BRENNAN tell how tall he was?

He discussed the Dallas Police line-up where BRENNAN identified OSWALD as the man most closely resembling the person he had seen. LANE stated there were five teen-agers in the line-up handcuffed together and also OSWALD, who kept saying, "This is not a fair line-up." He stated that there were no notes made by the FBI, the Dallas Police, or Secret Service, nor was there any tape or steno record for

the twelve hours that OSWALD was interrogated, and he said if you believe that you might as well believe the rest of the Warren Commission Report. What OSWALD is supposed to have said during the interrogation is reported from police memory only.

He talked about the photographs of OSWALD holding the gun which he said had been doctored or superimposed and which had been printed in various magazines. He stated that no rifle expert in the world, using the gun OSWALD had, could hit a moving target at that distance with the accuracy that OSWALD had exhibited. He stated that three leading rifle experts, using the Italian gun, fired eighteen shots at a still--not a moving--target and missed five times. He said that authorities have stated that OSWALD ordered the rifle from a Chicago sporting firm from an article in the February, 1963,"Rifleman" magazine. He said that is a lie because the length and weight of the gun advertised in that article are different than the length and weight of the gun actually found.

He discussed the witnesses' testimony who saw OSWALD bring the gun into the building. One witness did not see any package. The other two said the package was carried under OSWALD's armpit cupped in his right hand, and that is impossible because the gun broken down was too long for that.

He discussed eleven witnesses who saw Officer TIPPIT shot. He said the Warren Commission never called many of these witnesses; one gave a completely different description, and one woman was told by the Dallas Police not to testify. He said the Warren Commission relied on the FBI, Dallas Police, and Secret Service, and never got all the facts.

BELLI in his rebuttal stated that the Dallas Police, the FBI, and Secret Service had carried out their duty and had done everything possible to protect the President. He said the Commission had been composed of elite Congressional members and the Chief Justice of the Supreme Court, and insisted that the facts had been ferreted out and that the Warren Commission Report was complete.

He then discussed nailing down the various rumors and discussed some of these, such as the erroneous name GLICK for the taxi driver, OSWALD's description, and possible shots coming from the overpass.

LANE in his rebuttal stated he did not believe that elite Congressmen were on the Commission. He said he felt that honor would return to the United States when American people look at the facts in the case. He said he is not concerned about the image of the United States, but is concerned with the substance of the case. He then said that the four reporters who heard the sound of shots coming from the area of the overpass were never called by the Warren Commission. He stated that the Warren Commission believed only what it wanted to believe.

After this, there was a short question and answer period.

Although Lane's attack upon the many weak spots in the Warren Report was, in the main, more convincing than Belli's line of defense, the fact that Lane consistently bypassed Belli's key question left many in his audience during the intermission and at the evening's end—asking each other: "But why?"

In the debate, as on past occassions, Lane did not venture to answer the question: In your opinion, what explains the Warren Commission's method of inquiry that you term is a violation of democratic due process and its flagrant rejection of such evidence that tends to disprove its claim of Oswald's lone guilt?

This question was put to him again by this reporter after the debate and Lane was surrounded by questioners on the platform. Part of his reply was the same he has given on previous occasions.

"I am not interested in speculating as to their reasons," he said. "I want only to place the questions to show that the Commission denied a fair hearing to Oswald before finding him guilty."

Then Lane added, for the first time, "You heard Mr. Belli tonight speak so much of the need to protect our national image. Maybe Mr. Belli has given you the answer to your question."

PRO AND CON

Touching briefly and lightly on several specific points of evidence on which the Commission based its conclusion of Oswald's guilt, Belli declared: "I am satisfied there are men in prison today and men who have gone to the electric chair on one-fiftieth of the evidence there is against Oswald."

Lane retorted, "But they had a trial."

While the evening was studded with appreciative laughter and applause as one or the other debater scored a fine point or came back with a witty repartee, one had the same uneasy feeling as when one had laughed nervously at the "Dr. Strangelove" movie. The ghosts of President Kennedy and Oswald hovered over that speaker's platform — and over the Warren Commission as well.

At one point in the rapid give-and-take, Lane was asked, "How do you account for Oswald's movements immediately after shooting the President?"

He replied, "I'm at a disadvantages there. Your client (Jack Ruby) killed my client before he could tell his story, so I can't answer for him."

When Belli pleaded, "we have to rely on the integrity of the witnesses that the Commission accepted," Lane retorted, "Do you accept prosecution witnesses without cross-examining them in the c...

Belli's prime defense was his oft-repeated, dramatically gestured cry: "If we cannot trust the FBI, the CIA and Earl Warren, then God pity us!"

He accused Lane of "hurting our national image" with his persistent efforts on Oswald's behalf and his implications abroad that "[illegible] is a conspiracy."

Belli declared, "We have to tell the world we can come up with an objective report." And he asked Lane "[illegible]

NOTE FOR SAC, DALLAS:

LEE HARVEY OSWALD, AKA.

ATTENTION: CRIMINAL SECTION

Enclosed for Dallas are two copies each of the above letters from Harper. You should promptly contact Harper and advise him his letters to the Department of Health, Education and Welfare and his letter to the Navy were referred to this Bureau and subsequently turned over to the President's Commission for appropriate action. Harper should be advised that any action in regard to his request will of necessity have to be handled by the Commission or its duly delegated authority who has sole jurisdiction over all evidence developed during this investigation. Should the question arise Harper should be advised that this Bureau does not furnish "letters of verification."

When this matter has been handled the Bureau should be appropriately notified.

NOTE:

Harper is a premedical student at Texas Christian University and while taking pictures on 11-23-63, in the vicinity of the President's assassination found a piece of skull bone which he turned over to us. The bone was examined by our Laboratory and turned over to the late President's physician Admiral George Burkley on 11-27-63. From the medical testimony it appears the skull bone found by Harper was a part of the late President's head. Harper in his letters desired "a letter of verification" for reasons unknown to us but possibly because of the historical significance of his find. Since all evidence in this investigation is in the custody of the President's Commission, it is felt this matter should be referred to the Commission for whatever action they deem appropriate. Once Harper has been advised of the disposition of his letters, no further action appears necessary and none is recommended.

LEE HARVEY OSWALD

BASIS FOR INQUIRY

The information recorded below was made available by a confidential source abroad.

The files of the Department of Immigration, Mexican Ministry of "Gobernacion" (Interior or Government), revealed that Lee Harvey Oswald departed from Mexico on October 3, 1963, at Nuevo Laredo, Tamaulipas. The files of the Department of Immigration showed further that on October 3, 1963, from 12:00 midnight until 8:00 AM, immigration official ALBERTO ARZAMENDI CHAPA was in charge of the "Kilometer 26" highway checking station, where tourist cards are picked up from aliens leaving Mexico by highway travel through Nuevo Laredo. The name and date stamp of ARZAMENDI CHAPA on the original tourist card surrendered by OSWALD upon his departure from Mexico on that date was evidence of the fact that his exit from Mexico occurred during those hours.

Source reported that considerable investigation had been conducted by several different agencies of the Mexican Government for the purpose of ascertaining subject's method of travel on departure and that, in view of the fact that the name "OSWLD" had been located on a passenger list for the 1:00 PM trip of the Transportes Fronteras bus line from Mexico City to Nuevo

Laredo, Tamaulipas, on October 2, 1963, it was considered that OSWALD had traveled thereon.

Considerable investigation with respect to the passenger list mentioned above, including a check of the ticket stubs at the Monterrey, Nuevo Leon, headquarters of the company, interview of bus drivers and passengers, and numerous interviews of employees of the Mexico City terminal of the bus line, failed to confirm that OSWALD, in fact, had been a passenger on the "Transportes Frontera" bus in question.

CHECKS OF RECORDS OF OTHER BUS LINES

A second confidential source abroad provided the following information:

On March 30, 1964, officials of the "Autobuses Blancos Flecha Roja, S. A.," bus line made available passenger lists for the four scheduled trips of that company from Mexico City to Nuevo Laredo of October 2, 1963, and no information identifiable with OSWALD by any of the names he was known to have used was located on those lists. It was determined, however, that, if the time schedules of that company are maintained, none of its trips to Nuevo Laredo would arrive at the "Kilometer 26" highway checking station between midnight and 8:00 AM.

On the basis of several contacts with Mr. RICARDO MEDINA BELTRAN, Manager of the Mexico City terminal of the "Autobuses Transportes del Norte" bus line (hereinafter referred to as Transportes del Norte), information was received from him to the effect that "Secret Service agents, Presidential investigators, Federal Security agents, and others" had reviewed the passenger lists maintained by his company for its service between Mexico City and Laredo, Texas, and that he had assisted in those checks, which failed to disclose any information identifiable with OSWALD.

MEDINA explained that the passenger list actually is a card form on which reservations and ticket sales are recorded and that after the particular trip for which it was prepared has left the terminal it is cancelled to avoid further

confusion, as the reverse side of the form is utilized for a similar record at a later date. He stated that the cancelled lists are not a permanent record and are maintained only for a short period of time following their use. He stated that he had set aside the lists for early October, 1963, in the event there should be further need for them; nevertheless, he was unable to locate them. He pointed out that apparently they had been placed inadvertently in a storeroom where tires, spare parts, boxes of obsolete files and records, and other materials are maintained and that only a thorough review of all material in the storeroom would reveal whether or not the list for October 2, 1963, was still in existence. He related that his company has two direct trips daily to Nuevo Laredo, Tamaulipas, and Laredo, Texas, and that the bus which departs from Mexico City at 8:30 AM is scheduled to arrive in Nuevo Laredo at 2:00 AM the following morning and would arrive at the "Kilometer 26" checking station at approximately 1:00 AM.

TRANSPORTES DEL NORTE PASSENGER LIST FOR OCTOBER 2, 1963

On March 30, 1964, Mr. MEDINA advised that he had located the passenger-reservations list for the 8:30 AM bus of October 2, 1963, and, on the basis of consultation with him and with several reservations and ticket clerks who recognized their handwriting thereon, the following data was obtained therefrom as translated from Spanish:

MEDINA explained that seats No. 12 and No. 15 had been reserved for another bus line or travel agencies and that the company would have no record with respect to the identities of the occupants of these seats.

On March 31, 1964, Miss ROSA MARIA OROZCO, Auditor of the "Auto Viajes Internacionales, S. A.," travel agency (International Auto Travels, Inc.), Lafragua No. 4, Mexico, D. F., advised that she had located a record of the sale by that firm of a ticket for travel on seat No. 15 of the 8:30 AM, October 2, 1963, bus of Transportes del Norte to Laredo to ANASTACIO RUIZ MEZA. She stated that the company had sold this transportation to RUIZ MEZA for travel via the Transportes del Norte bus line to Laredo and from Laredo to Chicago, Illinois, by Greyhound Line.

RECORD OF LOCATION OF
TRANSPORTATION SOLD TO H. O. LEE

A third confidential source abroad provided the information recorded hereinunder:

On April 1, 1964, MACLOVIO PORTILLO G., Superintendent of the Mexico City terminal of the bus line, "Transportes Chihuahuenses, S. A. de C. V.," (Chihuahuenses Transportation, Incorporated with Variable Capital) Bernal Diaz No. 5, Mexico, D. F., and his clerk, MARIA TERESA CASARES, caused the records of that bus line to be searched for all tickets issued for travel on October 2, 1963, in an effort to locate the names LEE HARVEY OSWALD, O. H. LEE, ALEK JAMES HIDELL, and V. L. LEE with particular attention to ticket No. 13600.

PORTILLO advised that no information had been located which could be identified with the foregoing, explaining that tickets sold by his company during that period were in the eighty and ninety thousand series, eliminating the possibility that ticket No. 13600 might have been sold at that office.

PORTILLO suggested that the transportation concerning which inquiry was being made might have been sold at the "Agencia de Viajes, Transportes Chihuahuenses, S. A. de C. V.," (Chihuahuenses Transportation Travel Agency, Inc.) with offices at Paseo de la Reforma No. 52, Room 5. He telephoned

to that agency and was advised by a clerk; ALEJANDRINA N. DE BUTCHER, that the reservation order under No. 13608 was available at that office.

On April 1, 1963, Miss TERESA SCHAEFFER BEQUERISSE, Manager of the above-mentioned travel agency, located the reservation and purchase order No. 13608, and it was determined to be in blank, never having been utilized. She reviewed the Transportes del Norte passenger list for bus No. 332 for October 2, 1963, considering that the order number might be 12608, and this order No. 12608 was located and also found to be blank. She insisted that her office had not handled the reservation noted on the Transportes del Norte passenger list shown her for October 2, 1963. She was requested to review all reservation and purchase orders issued for October, 1963, by her office.

A review of the carbon copies of these reservation and purchase orders was made by the confidential source abroad in the presence of Miss SCHAEFFER, which revealed that reservation and purchase order No. 14018 was issued to Transportes del Norte in Mexico City for Mr. H. O. LEE for seat No. 12 from Mexico City to Laredo, Texas, on Wednesday, October 2, 1963, at 8:30 AM. This information was printed in Spanish, and the reservation was confirmed by a Mr. SAUCEDO. At the bottom of this printed order the date was indicated to be September 30, 1963, and the cost was listed as $3.75 "moneda nacional" (national money or Mexican pesos comparable to $7.50 U.S.). Also at the bottom of this printed order was the printed notice that the "Agencia de Viajes, Transportes Chihuahuenses" is an agent for the Greyhound Bus Line.

Miss SCHAEFFER advised that former employee ROLANDO BARRIOS had signed the reservation and purchase order and apparently made the sale to Mr. H. O. LEE. She stated the original of this form was given to the purchaser in order that he could then obtain his ticket at Transportes del Norte, explaining that an original and two copies of the reservation and purchase order are made and the original is given to the purchaser, one copy is kept at her office, and the third copy is forwarded to the main office of the travel

agency which is "Transportes Chihuahuenses, S. A. de C. V.," Avenida 16 de Septiembre No. 274, Ciudad Juarez, Chihuahua, Mexico. She made available the carbon copy of the above-mentioned purchase order and stated she would search her files for any other pertinent records.

Subsequently she advised on the same date by telephone that she had located Greyhound International Exchange Order No. 43599 for presentation to the Greyhound agent at Laredo, Texas, and issued to Mr. H. O. LEE. This order was issued against the Western Greyhound Lines, 371 Market Street, San Francisco 5, California, for travel from Laredo, Texas, to Dallas, Texas, via San Antonio, Texas.

A fourth confidential source abroad advised that on April 1, 1964, Miss SCHAEFFER made available a copy of the Greyhound International Exchange Order mentioned above, which noted that Mr. H. O. LEE was traveling to the port of exit via Transportes del Norte. The order reflected it was issued on October 1, 1963, for $12.00 U.S. by the "Agencia de Viajes, T. Ch. S. A. de C. V.," Reforma 52-5, Mexico City. According to Miss SCHAEFFER, the signature of the issuing agent on this order form was that of ROLANDO BARRIOS.

Miss SCHAEFFER's bookkeeper, Miss NORMA ROMAN, made available the agency's cash receipt and disbursement ledger which Miss SCHAEFFER described as a record of cash receipts and disbursements of the business on a daily basis. These records disclosed that on October 1, 1963, an entry was made in the ledger reflecting receipt of 253.75 pesos ($20.00 U.S.) from Mr. H. O. LEE which was paid to cover the cost of a bus trip from Mexico City to Dallas via Laredo. Miss SCHAEFFER explained that the entry reflecting receipt of cash is made in the cash receipt and disbursement ledger on the day following the actual transaction. She added that of the total 253.75 peso amount, 93.75 pesos ($7.50 U.S.) applied to the portion of the trip from Mexico City to Laredo and 160.00 pesos ($12.00 U.S.) applied to the travel from Laredo to Dallas.

The above record reflected that the total amount of 253.75 pesos was paid on "Agencias de Viaje T. Ch." reservation and purchase order No. 14618 and that H. O. LEE was also issued

Greyhound International Exchange Order No. 43599 to cover the trip from Laredo to Dallas.

The above-mentioned cash ledger reflected that the letter "B" appeared beside the name of H. O. LEE, and Miss SCHAEFFER explained that the letter "B" represents the surname initial of ROLANDO BARRIOS, the former employee of the firm who handled the transaction with H. O. LEE.

The cash ledger also revealed that under the figure of 253.75 pesos, the amount of the cash transaction, were illegible handwritten initials, and Miss SCHAEFFER stated that those are the initials of ELSA MAYNEZ, another former employee of the firm, acknowledging receipt of the 253.75 pesos by MAYNEZ from BARRIOS for entry in the cash ledger book.

Miss SCHAEFFER advised that ROLANDO BARRIOS was involved in a financial problem with her agency for which she discontinued his services. She furnished his home address as Bahia de Santa Barbara No. 20-203, Mexico, D. F., and stated he was last known to be employed at the Mauna Loa Restaurant in Mexico City.

On April 1, 1964, Miss SCHAEFFER made available a copy of a form captioned: "Western Greyhound Lines (Division of the Greyhound Corporation), 371 Market Street, San Francisco, California, International Sales Report." This sales report covers the period from October 1, 1963, to October 31, 1963, and Miss SCHAEFFER advised that recorded on this form is a recapitulation of travel sales during the month of October, 1963, made by the agency as agents for the Western Greyhound Lines in connection with which Greyhound International Exchange Orders were issued to the travelers. There were twelve such sales recorded on the above-mentioned sales report, which reflects that the second entry or sale made involved the issuance of Greyhound International Exchange Order No. 43599 to one passenger, Mr. H. O. LEE, for travel from Laredo, Texas, to Dallas, Texas, total fare for that portion of the trip being recorded as $12.80 U.S.

Miss SCHAEFFER advised that the foregoing must be

maintained as a matter of permanent record in her office because of Mexican Government regulations.

On April 2, 1964, the third confidential source abroad was advised by Miss SCHAEFFER that MARGARITA LABASTIDA, who also worked in the front office while BARRIOS was present, had informed her that she remembered an American who purchased a travel order but could not recall the date, nor could she state it was OSWALD. Upon interview Miss LABASTIDA could only recall that the American was tall, wore disheveled clothing, and had a great deal of hair. She could not be more specific about the date or the description of the American.

Photographs of LEE HARVEY OSWALD were exhibited to TERESA SCHAEFFER BEQUERISSE, ALEJANDRINA M. DE BUTCHER, NORMA ROMAN, and MARGARITA LABASTIDA at the "Agencia de Viajes, Transportes Chihuahuenses, S. A. de C. V.," offices and these persons were unable to identify OSWALD.

INTERVIEW OF ROLANDO BARRIOS RAMIREZ

On April 2, 1964, the following information was furnished to the second confidential source abroad:

ROLANDO BARRIOS RAMIREZ, Bahia de Santa Barbara No. 20, Apartment 209, Mexico, D. F., advised that formerly he was employed at the Chihuahuenses Travel Agency and now is employed as a cashier at the Mauna Loa Restaurant in Mexico City. BARRIOS reviewed the copy of the reservation and purchase order No. 14618 of the travel agency reflecting the sale on September 30, 1963, of seat No. 12 on the 8:30 AM trip of Transportes del Norte from Mexico City to Laredo, Texas, on October 2, 1963, and definitely identified the handprinting and signature thereon as his own. He also viewed a copy of International Exchange Order No. 43599 dated October 1, 1963, recording the sale to Mr. H. O. LEE of transportation by Greyhound Lines from Laredo, Texas, to Dallas, Texas. He stated that the handprinting and signature on this document were his and that undoubtedly he had handled the transactions represented by the two documents.

BARRIOS viewed photographs of LEE HARVEY OSWALD and

advised that he was unable to affirm positively that he recalled OSWALD in connection with the travel agency. He related that at the time OSWALD's photographs were being published widely in newspapers and magazines he was impressed by the feeling that he had known or met OSWALD at some time, but had been unable to associate the feeling with any particular incident or time.

INTERVIEW OF PERSONNEL AT TRANSPORTES DEL NORTE TERMINAL, MEXICO CITY

On April 3, 1964, the Mexico City Terminal Manager for Transportes del Norte, RICARDO MEDINA BELTRAN, reiterated that he had no recollection whatsoever with respect to OSWALD and explained that he has no contact with passengers except under unusual circumstances since his office is removed from the passenger area of the terminal.

On the same date bus drivers ROGELIO CUEVAS and RAMON GONZALEZ were contacted upon their arrival at the Mexico City terminal and advised that they reside in Monterroy, Nuevo Leon, Mexico, at Magna Vista No. 232 and at Juan Mendez No. 1407 Altos, respectively. Although they had no independent recollection in connection therewith, they were aware of the fact that the company's records reflect that they were the drivers of bus No. 332 between Mexico City and Monterrey on October 2, 1963. They stated that they usually leave the bus at Monterrey, and it was their understanding that on October 2, 1963, all passengers from bus No. 332 were transferred to another unit which transported them to Nuevo Laredo with a relief driver. They viewed all available photographs of LEE HARVEY OSWALD and stated they were unable to recall his having been a passenger. They pointed out that they rarely notice the passengers and would not remember one of them unless an incident or special circumstance created a special reason for noticing and recalling them.

On April 2, 1964, ANGEL CURIEL informed that he is a ticket salesman at the Mexico City terminal of Transportes del Norte and that he recognized his handwriting on the October 2, 1963, passenger list for bus No. 332 in connection with the items listed under "destination" and "ticket number."

He explained that he undoubtedly exchanged ticket No. 13688 for the travel agency purchase order and recorded the number of the ticket before delivering it to the passenger. CURIEL viewed available photographs of OSWALD and stated he could not recall him in connection with his duties at the bus line.

On the same date salesman MIGUEL SAUCEDO advised that the handwriting on the passenger list under "name of passenger" of the word "Chihuahuenses" opposite seat No. 12 indicated that he received the telephonic reservation of the space by the travel agency. SAUCEDO did not recall the matter and was unable to identify photographs of OSWALD in connection therewith.

Ticket salesmen CANUTO S. ROJAS and JUAN GASCON advised that they recognized their handwriting on the October 2, 1963, manifest in connection with some of the reservations and ticket sales, but upon viewing photographs of OSWALD could not recall having seen him at the Mexico City terminal of Transportes del Norte.

MEDINA and the four ticket salesmen mentioned above explained that the diversity of serial numbers for tickets sold on the passenger list in question is occasioned by the fact that they each sell from different blocks of tickets for the various destinations involved.

INTERVIEWS OF PERSONNEL AT TRANSPORTES DEL NORTE BUS TERMINAL RESTAURANT, MONTERREY, NUEVO LEON

On April 6, 1964, an eighth confidential source abroad interviewed the following personnel of the restaurant located in the Transportes del Norte terminal at Monterrey, Nuevo Leon:

DAVID SANCHEZ GONZALEZ, Manager and cashier
MARIA OTILLA TOVAR, waitress
RAFAEL ZAVALA CASTILLO, counter man
MANUEL CUELLAS GARCIA, counter man

All four of these persons advised that they work a

2:00 PM to 2:00 AM shift and that all were on duty during that shift on October 2-3, 1963. No one else worked during this shift.

Upon being shown various photographs of OSWALD, none was able to recall having seen him in the restaurant at any time.

According to the source, the restaurant is located within the Transportes del Norte terminal in Monterrey, there being a ticket counter at one end of the terminal, a waiting room in the center, and the restaurant at the opposite end of the waiting room from the ticket counter.

INQUIRY AT MONTERREY, NUEVO LEON, MAIN OFFICES OF TRANSPORTES DEL NORTE

A fifth confidential source abroad provided the following information:

On April 2, 1964, RAMON TREVINO QUEZADA, Vice-President and General Manager of Transportes del Norte at Monterrey, Nuevo Leon, caused a search to be made for and succeeded in locating an envelope containing the tickets surrendered by the passengers to the bus drivers for the Mexico City-Monterrey travel in bus No. 332 on October 2, 1963. Among those tickets was No. 13688 which reflected thereon that it had been used for seat No. 12 on that trip.

TREVINO advised that the company records reflect that following the arrival of bus No. 332 in Monterrey at 9:15 PM, October 2, 1963, all passengers destined for Nuevo Laredo or beyond were transferred to bus No. 373, which was driven by ALVARO IBARRA and departed from Monterrey at 9:50 PM. He explained further that, because the company has thirteen trips daily between Monterrey and Nuevo Laredo, no effort is made to maintain a record of the passengers who board the bus at Monterrey in connection therewith. Mr. TREVINO explained that IBARRA recently married and resides at Nuevo Laredo, Tamaulipas.

On April 3, 1964, Mr. TREVINO stated he had located the portion of ticket No. 13688 for travel from Monterrey to Laredo and that its presence in the envelope for that trip of October 2-3, 1963, was definite indication that the travel was performed.

ANALYSIS OF TICKETS UTILIZED FOR TRANSPORTES DEL NORTE TRAVEL FROM MEXICO CITY TO MONTERREY AND FROM MONTERREY TO NUEVO LAREDO AND LAREDO

The envelopes furnished by Mr. RAMON TREVINO QUEZADA, Vice President and General Manager of Transportes del Norte at Monterrey, Nuevo Leon, Mexico, covered the travel of passengers from Mexico City and San Luis Potosi to Monterrey on Bus 332 and travel from Monterrey to Nuevo Laredo, Tamaulipas, Mexico, and Laredo, Texas, on Bus 373. An analysis of these tickets is set forth below:

Ticket No. 13920 is in two sections and covered transportation from Mexico City to Monterrey and from Monterrey to Laredo. The Mexico City-Monterrey portion reflected that seat No. 2 was assigned for this ticket. The manifest prepared in Mexico City shows the name of "Sta." (Miss) COSIO for this ticket and seat number.

Ticket No. 12619 is in two sections and covers transportation from Mexico City to Monterrey and Monterrey to Nuevo Laredo. Seat No. 3 was assigned to this ticket. The manifest lists this ticket and seat number to "Sr." (Mr.) A. MARTINEZ.

Ticket No. 61840 bears the word "Canje" (Exchange). The original ticket for which this ticket was exchanged had No. 688132. Seat No. 4 was assigned to this ticket, which covered transportation only from Mexico City to Monterrey. No corresponding ticket for the trip from Monterrey to Laredo or Nuevo Laredo was found in the Bus 373 envelope. The Mexico City manifest lists MARGARET A. WOLFF as being assigned the ticket and seat number. There appears to be a discrepancy, in that the manifest shows a final destination of Laredo for WOLFF but apparently she traveled only as far as Monterrey at this time.

Ticket No. 7915 covered travel from Mexico City to Monterrey and indicates seat No. 5 was assigned to the holder of this ticket. This is also an exchange ticket and appears to have been exchanged for ticket bearing No. 331432. It was also noted that it appears to be the return portion of a round-trip ticket. The Mexico City passenger manifest lists this ticket and seat number as being assigned to ROBERTO P. GONZALEZ and showed his final destination as Monterrey.

Ticket No. 9511 consisted of two sections covering passage from Mexico City to Monterrey and Monterrey to Laredo, Texas. It also was an exchange ticket and appears to have been exchanged for Ticket No. 39532. The Mexico City-Monterrey portion of the ticket indicates that seat No. 7 was assigned to this ticket holder. The two portions appear to be the return portions of a round-trip ticket and the reverse sides of the two portions indicate that the ticket was issued on September 11, 1963, by Transportes del Norte at Nuevo Laredo. The Mexico City manifest lists this ticket and seat number as assigned to PAULA RUSIONI.

Tickets No. 8940 and No. 8941 were each found to be in two sections, covering travel from Mexico City to Monterrey and from Monterrey to Nuevo Laredo. Both tickets were exchange tickets, No. 8940 having been issued in exchange for Ticket No. 671188 and No. 8941 having been issued in exchange for Ticket No. 671186. Both tickets were indicated to be return portions of round-trip tickets; however, neither front nor back of the ticket contained any information indicating the original place of issuance. The Mexico City-Monterrey portions of the two tickets indicated that seat No. 8 was assigned to the holder of Ticket No. 8940 and seat No. 9 was assigned to the holder of Ticket No. 8941. The Mexico City manifest indicated that these tickets and two seat numbers were utilized under the name of J. M. DE CUBA. Presumably the second

seat was utilized by the wife of DE CUBA.

Ticket No. 13742 consisted of two portions, covering travel from Mexico City to Monterrey and Monterrey to Laredo, Texas. The Mexico City-Monterrey portion reflects seat No. 11 was assigned to the holder of this ticket. The Mexico City manifest indicates that AUGUSTO AGUILAR had this ticket and seat number.

Ticket No. 13608 consisted of two portions, covering travel from Mexico City to Monterrey and Monterrey to Laredo. The Mexico City-Monterrey portion indicated seat No. 12 was assigned to the holder of this ticket. The Mexico City manifest showed this seat and ticket number was assigned to "CHIHUAHUENSES." As set forth above, investigation has established that this ticket number was sold to H. O. LEE on the basis of an exchange order.

Ticket No. 13921 consisted of two portions, covering travel from Mexico City to Monterrey and Monterrey to Laredo, Texas. The Mexico City-Monterrey portion reflected seat No. 14 was assigned to the holder of this ticket. The Mexico City manifest indicates that this ticket and seat number were utilized by "Sr." (Mr.) EULALIO RODRIGUEZ.

Ticket No. 13619 was in two portions, covering travel from Mexico City to Monterrey and Monterrey to Laredo, Texas. The Mexico City-Monterrey portion showed that seat No. 15 was assigned to the holder of this ticket. The Mexico City manifest lists this ticket and seat number in the name of "A. VIAJES." Investigation has established that a travel agency named "Auto Viajes" arranged for the purchase of this ticket for travel by ANASTASIO RUIZ MEZA.

Ticket No. 13927 was in two portions, covering travel from Mexico City to Monterrey and from Monterrey to Laredo, Texas. The Mexico City-

Monterrey portion of the ticket indicates seat No. 16 was assigned to the holder of the ticket. The Mexico City manifest lists this ticket and seat number in the name of Ph. van der VORM.

Ticket No. 716 covered travel from Mexico City to Monterrey, via San Luis Potosi. The ticket indicates seat No. 17 was assigned to the holder of this ticket. The Mexico City manifest lists JORGE DAVILA as utilizing this ticket and seat number.

Tickets No. 13740 and No. 13741 each consisted of two portions, covering travel from Mexico City to Monterrey and Monterrey to Laredo, Texas. The Mexico City portions of these tickets indicated that the holder of Ticket No. 13740 was assigned seat No. 18 and the holder of Ticket No. 13741 was assigned seat No. 19. The Mexico City manifest reflects that these two tickets and seat numbers were utilized by JOSE BARRIGA and wife.

Ticket No. 13928 consisted of two portions, covering travel from Mexico City to Monterrey and Monterrey to Laredo, Texas. The Mexico City-Monterrey portion indicated seat No. 21 was assigned to the holder of this ticket. The Mexico City manifest reflects that this ticket and seat number were utilized by "Sr." (Mr.) AGAPITO DEL RIO.

The above sixteen tickets balance with the manifest, in that it carries a notation of "16," indicating that sixteen passengers were on Bus 332 at the time it departed Mexico City at 8:30 AM on October 2, 1963. Officials of the bus company have pointed out that H. VILLANUEVA, listed by seat No. 6 with Ticket No. 99232 and a final destination of Monterrey, did not travel on this trip. They base this statement on the fact that an "X" appears by his ticket number in the right-hand column of the manifest.

Investigation by a sixth confidential source abroad at the Transportes del Norte office in Guadalajara, Jalisco, Mexico, on April 2 and 3, 1964, resulted in the location of a

manifest for a feeder bus of that company, which left Guadalajara at 8:00 AM on October 2, 1963, to make connections with Bus 332 in San Luis Potosi on the same date. The envelope containing the tickets covering the Mexico City-Monterrey trip of Bus 332 on October 2, 1963, indicated that ten passengers boarded the bus at San Luis Potosi for Monterrey. Following is an analysis of these ten tickets:

Tickets No. 36204, No. 36205 and No. 36206 were each in two portions, covering travel from San Luis Potosi to Monterrey and from Monterrey to Nuevo Laredo. They were all exchange tickets and were exchanged for Tickets No. 77898, No. 77899 and No. 77900, respectively. The San Luis Potosi-Monterrey portions of the three tickets showed that the holders were assigned seats No. 22, No. 23 and No. 24, respectively.

It is noted that the Mexico City manifest for Bus 322 indicated that seats 22 through 29, inclusive, had been reserved by the Guadalajara Office of Transportes del Norte for travel to Laredo and officials of the company in Mexico City explained that passengers holding these reservations would board the bus in San Luis Potosi.

An examination of the passenger manifest for the feeder bus from Guadalajara to San Luis Potosi disclosed that three seats were reserved on that bus under the name of HILDA QUEZADA, holder of Tickets No. 77898, No. 77899 and No. 77900. A notation indicated that this latter ticket was a half-fare ticket.

Ticket No. 9449 covered passage only from San Luis Potosi to Monterrey. It was an exchange ticket issued in exchange for Ticket No. 00749 and the holder of the ticket was assigned seat No. 25. The Guadalajara manifest for the feeder bus listed a passenger named CECILIO CARDENAZ, with a final destination of Monterrey and the holder of Ticket No. 00749.

Ticket No. 9447 covered passage from San Luis Potosi to Monterrey only and was an exchange ticket issued in exchange for Ticket No. 00750. Holder of this ticket was assigned seat No. 26. The manifest for the Guadalajara feeder bus disclosed that one PEDRO GLEZ (GLEZ is believed to be an abbreviation for the surname GONZALEZ) was a passenger on this bus, with a final destination of Monterrey and the holder of Ticket No. 00750.

Ticket No. 9446 covered passage from San Luis Potosi to Monterrey only and was issued in exchange for Ticket No. 00751. Holder of this ticket was assigned seat No. 24. The Guadalajara manifest for the feeder bus showed that a passenger, whose name is somewhat illegible but is probably JOSE CRUZ, had a final destination of Monterrey and was the holder of Ticket No. 00751.

Ticket No. 9448 covered passage from San Luis Potosi to Monterrey and was issued in exchange for Ticket No. 00752. Holder of this ticket was assigned seat No. 28. The Guadalajara manifest for the feeder bus disclosed that MAXIMINO ESQUIVEL was a passenger on this bus with final destination of Monterrey and was the holder of Ticket No. 00752.

On the Guadalajara manifest for the feeder bus, it was noted that seats 22 through 29 were circled and, in addition, an "X" appeared by each seat number, with the exception of seat No. 27. It is noted these seat numbers coincide with those appearing on the Mexico City manifest as being reserved by the Guadalajara Office of Transportes del Norte. There appears to have been an error in listing the seat assignments on the tickets themselves, in that seat No. 24 appears on Ticket No. 36206 and also on Ticket No. 9446. The latter ticket possibly should have been assigned seat No. 29.

Ticket No. 9395 covered passage from San Luis Potosi to Monterrey and the holder was assigned seat No. 32. This ticket holder has not as yet been identified.

Ticket No. 9450 covered passage from San Luis Potosi to Monterrey. It was issued in exchange for Ticket No. 28662 and the holder was assigned seat No. 27. The holder of this ticket has not as yet been identified.

Ticket No. 36126 consisted of two portions, covering transportation from San Luis Potosi to Monterrey and from Monterrey to Nuevo Laredo. The holder of the ticket was assigned seat No. 6. The holder of this ticket has not as yet been identified, but it is believed that it may have been the ticket utilized by HERBERT ROBERT VOORHEES, true name HERBERT FRANCIS VOORHEES. VOORHEES has been previously identified as one of the persons who passed the "Kilometer 26" check point during the tour of duty of ALBERTO ARZAMENDI CHAPA. Interview of him has been reported previously, it being noted that he advised that he purchased a ticket at San Luis Potosi on October 2, 1963, for travel to Laredo. Departure time indicates that he traveled on Bus 332 to Monterrey and, according to his story, he changed buses in Monterrey to continue on to Laredo, which would indicate that the continuing travel was performed on Bus 373.

It should be noted that the envelope for Bus 332 contained tickets covering passage only from Mexico City to Monterrey and from San Luis Potosi to Monterrey. In the cases set forth above where there was a second portion of a ticket covering travel from Monterrey to Laredo or Nuevo Laredo, the portions of the ticket covering the Monterrey to Laredo or Nuevo Laredo travel were contained in the envelope of Bus 373. Apart from the cases listed above in which travel from Monterrey on was involved, the following three tickets were contained in the envelope of Bus 373:

Ticket No. 34555 covered passage from Monterrey to Nuevo Laredo and was the first half of a round-trip ticket, Monterrey-Nuevo Laredo and return. The ticket bears a rubber stamp impression on the reverse side, showing it was sold by Transportes

del Norte at Monterrey on October 2, 1963.

Ticket No. 20248 is a one-way ticket from Monterrey to Nuevo Laredo and bears a rubber stamp impression on the reverse side, showing it was sold by Transportes del Norte at Monterrey on October 2, 1963. The front of the ticket bears a rubber stamp impression in Spanish, translation of which is "Departure, 2130 Hours."

Ticket No. 5926 covers passage from Nuevo Laredo to Laredo, Texas, and shows a price of 3 pesos (24¢ U.S.). Rubber stamp impression on the reverse side of this ticket indicates it was sold by Transportes del Norte at Nuevo Laredo on October 3, 1963.

As was pointed out by Mr. RAMON TREVINO QUEZADA, no manifests are prepared in Monterrey in view of the thirteen trips daily made by buses of Transportes del Norte between Monterrey and Nuevo Laredo. For this reason, no additional information is available in bus company records to identify the two passengers who traveled from Monterrey to Nuevo Laredo on Tickets No. 34555 and No. 20248, and the passenger who traveled from Nuevo Laredo to Laredo on Ticket No. 5926.

BUS PASSENGER ANASTASIO RUIZ MEZA IDENTIFIED PHOTOGRAPHS OF LEE HARVEY OSWALD

A seventh confidential source abroad advised as follows:

On April 3, 1964, ANASTASIO RUIZ MEZA, Sullana No. 710, Mexico, D. F., furnished the following information:

He was a passenger on a Transportes del Norte bus which departed Mexico City at 8:30 AM on October 2, 1963, en route to Laredo, Texas. He boarded the bus at Mexico City and his final destination was Chicago, Illinois, where he intended to visit a relative. Upon boarding the bus in Mexico City, he was assigned a window seat on the right side of the bus about three rows from the front and utilized this same seat throughout the trip to the United States-Mexico border.

Notwithstanding his desire to cooperate in this matter, RUIZ felt that, of necessity, he would have to terminate the interview as he had to go to work, and he commented that he would be most happy to furnish further details concerning his trip of October, 1963, if contacted on the weekend.

RUIZ was exhibited several photographs of LEE HARVEY OSWALD, including a photograph of OSWALD which had appeared in "Life" magazine and which is represented as being a picture of OSWALD passing out pro-Cuban literature on a street in New Orleans, Louisiana. (This is a profile photograph of OSWALD showing his right arm extended and his torso.) Also included among the photographs was a profile, front view and stand-up, front view of OSWALD taken by the New Orleans, Louisiana, Police Department, under New Orleans Police Department No. 112723, dated August 9, 1963.

At that time RUIZ advised he could not recognize or recall the individual depicted in these photographs as being identical to any of the passengers he had observed on the afore-mentioned Transportes del Norte bus trip to the United States-Mexico border in October, 1963.

On April 5, 1964, ANASTASIO RUIZ MEZA, who advised he is employed in the Auditor's Office, Customs Section, Mexican Ministry of the Treasury and Public Credit, Mexico, D. F., advised that he had given much thought and consideration to the circumstances of his trip in October, 1963, and had made every effort to reconstruct in his mind the events of that trip. After consulting with a superior at his place of employment, following the earlier interview, and determining that cooperation in this matter would not be inimical to his best interests, he was willing to furnish full details regarding the trip as he recalled them and advised as follows:

He was a passenger on a Transportes del Norte bus which departed Mexico City at 8:30 AM, October 2, 1963, en route to Laredo, Texas. He had boarded the bus in Mexico City and had occupied seat No. 15, a window seat located on the right side of the bus about three rows from the front. After arrival in Laredo, Texas, he was scheduled to depart from Laredo on a Greyhound Line bus with his final destination being Chicago, Illinois. He had made arrangements for this trip through a Mexico City travel agency known as Auto Viajes Internacionales, S. A., located at Lafragua No. 4, Mexico, D. F.

He still had the Transportes del Norte ticket stub in his possession for the Mexico City-Laredo, Texas, portion of the trip. This ticket stub was observed to be No. 13619, with total fare listed as $3.50 pesos ($7.50 U.S.). The back of the ticket stub contained a date stamp notation of "Sep 28 12:54 PM '63" and also an ink stamped notation "Autoviajes Internacionales." RUIZ explained that September 28, 1963, was the date he had made arrangements for the trip at the Auto Viajes Internacionales travel agency and the other data referred to the date and hour on which he had paid that travel agency for the scheduled trip from Mexico City to Chicago.

RUIZ also had in his possession an Identification Check No. 114456 issued by the Western Greyhound Lines, with a stamped notation "Valid for one year." It was observed that the bottom portion of the Identification Check contains a section with the printed words "Last coupon reads to: Chicago,

Ill." It is noted the words "Chicago, Ill." were inserted at that point in inked handwriting. The rear portion also contains the stamped notation "Sep 28 12:54 PM '63" and also a stamped notation "Autoviajes Internacionales."

RUIZ had in his possession a ticket folder which he advised had been given to him by the Auto Viajes Internacionales travel agency at the time he had made arrangements for his trip. It was observed that the folder was issued by the Auto Viajes Internacionales travel agency. On the front cover of the folder are the following typed notations: "A. RUIZ M., Seat No. 15." Also typed in the appropriate blanks were instructions to RUIZ that his bus would leave at 8:30 AM, October 2, 1963, and instructions were typed that he should be at the Transportes del Norte terminal, Insurgentes Sur No. 137, at 8:00 AM on October 2, 1963.

In addition, RUIZ had in his possession a receipt of the Auto Viajes Internacionales, S. A., No. 5898, reflecting that on September 28, 1963, that travel agency had received from ANASTASIO RUIZ MEZA a total of 542.50 pesos ($43.40 U.S.). The receipt contained the travel agency's stamped notation "Paid, Set. 28, 1963."

RUIZ stated that when he boarded the above-mentioned Transportes del Norte bus in Mexico City on October 2, 1963, he believed there were about fourteen or fifteen other passengers who boarded the bus with him. As far as he can recall, the bus departed the Mexico City terminal without delay at 8:30 AM on October 2, 1963. Seated next to him on the bus was an individual whom he described as being tall, heavy and about 54 years of age. This individual was of Mexican extraction and was traveling to Houston, Texas. He cannot recall this person's name, but believed he might be a resident of Mexico. He also believed this individual may have had a United States border crossing card in his possession. This person sat on the bus next to RUIZ to San Antonio, Texas, where he departed the bus. Changes of buses occurred at Monterrey, Nuevo Leon, Mexico, and at Laredo, Texas, on the trip north.

(The Transportes del Norte manifest for the trip

of October 2, 1963, Bus 332, lists space for one EULALIO RODRIGUEZ in seat No. 14, which adjoins seat No. 15, with the final destination for RODRIGUEZ listed as Houston.)

RUIZ recalled that directly across the aisle and slightly to his rear, the seating arrangements of the bus being staggered on either side, was a young "Ecuadorian" couple, assumed to be man and wife, (seats No. 8 and No. 9). He was not certain that this couple was from Ecuador but believed they were South Americans. RUIZ identified a photograph of JUAN MATEO DE CUBA as it appears on Mexican Government Tourist Form FM-5 No. 3625296 as identical to the above-described "Ecuadorian." RUIZ also viewed a photograph of ADA FRANCISCA BISLIP DE CUBA as it appears on Mexican Government Tourist Form FM-5 No. 3625295, which depicts Mrs. DE CUBA wearing eyeglasses. RUIZ could not be sure this woman is identical with the woman traveling in the company of the person whom he identified as JUAN MATEO DE CUBA. He stated the woman who was seated next to DE CUBA was not wearing eyeglasses. He cannot recall who was seated directly behind the DE CUBAS on the bus.

(The above-described tourist forms describe Mr. and Mrs. DE CUBA as being residents of Aruba, Dutch West Indies. The Transportes del Norte manifest for the above-described trip lists space for J. M. DE CUBA and one other in seats No. 8 and No. 9.)

RUIZ recalled that a Mexican couple, believed to be man and wife, was seated in the two seats located directly behind the driver. Based on conversation during the course of the bus trip with this person, RUIZ believed he was a retired Mexican Army Captain and recalled that he and his wife traveled all the way to Dallas, Texas, where they left the bus. He believed this couple lived in Colonia Santa Maria La Rivera in Mexico City.

(This couple probably is identical with Mr. and Mrs. JOSE BARRIGA, although the Transportes del Norte manifest for that trip lists space for them in seats No. 18 and No. 19, which would be the two seats located directly behind RUIZ.)

Seated directly in front of him (seat No. 11) was an individual of Mexican extraction who was traveling to Houston, Texas, and left the bus at San Antonio, Texas; however, he could furnish no information as to whether this person is a resident of Mexico or the United States.

(The Transportes del Norte manifest for the above-described trip lists space for one AUGUSTO AGUILAR in seat No. 11, which is the seat located directly in front of seat No. 15. AGUILAR's destination was listed as Houston.)

RUIZ could not recall any details concerning the other passengers who boarded the bus at Mexico City or whether there were any Americans who boarded at that point.

After the bus departed Mexico City at 8:30 AM, October 2, 1963, it did not stop until arrival in San Luis Potosi, State of San Luis Potosi, Mexico, at about 1:00 PM the same day.

Upon arrival of the bus at San Luis Potosi, he believed everyone got off the bus at the Transportes del Norte terminal, as this stop in San Luis Potosi was utilized as a meal stop.

After about one-half hour, everyone again boarded the bus for the journey to Monterrey. RUIZ believed that from six to eight new passengers boarded the bus at San Luis Potosi, but he could furnish no particulars regarding those persons. He thought the bus departed San Luis Potosi at about 1:30 PM on October 2, 1963, and arrived in the Transportes del Norte bus terminal in Monterrey, Nuevo Leon, Mexico, about 9:30 PM the same day.

RUIZ recalled that upon arrival in the bus terminal in Monterrey, everyone debarked, and many of the passengers went to the restaurant located at the Transportes del Norte bus terminal to eat. While he was eating at one of the tables in the restaurant at the Transportes del Norte bus terminal in Monterrey, RUIZ recalled that a young American was seated alone at a table to his rear a few yards away from him. He advised this was the first time he had noted the presence of

this person, whom he described as being about 27 years of age, weighing approximately 130 to 135 pounds, with brown hair, about 5' 7" or 5' 8" in height, and of slender build. He recalled this same individual's boarding the bus in Monterrey a few minutes after him.

RUIZ viewed several photographs of LEE HARVEY OSWALD and positively identified two profile photographs of OSWALD as being of the above-described American youth who was seated to his rear in the restaurant of the Transportes del Norte bus terminal in Monterrey. He advised he had no doubt in his mind with respect to this identification.

One of the photographs identified by RUIZ was the afore-mentioned photograph of OSWALD which had appeared in "Life" magazine depicting OSWALD passing out pro-Cuban literature on a street in New Orleans, Louisiana. The other photograph identified by RUIZ was a profile view of OSWALD taken at the New Orleans Police Department on August 9, 1963, under New Orleans Police Department No. 112723.

He had seen front-view photographs of OSWALD in the newspapers following the assassination of President KENNEDY; however, he pointed out that he did not associate the photographs with the above-described American nor did he give any careful or studied thought to their being identical to the American youth he described above.

The American youth, whom he identified as being OSWALD, was dressed in a light colored, perhaps white, open-collared, short-sleeved sport shirt and was bare-headed. According to RUIZ, this individual was not wearing a coat. He did not recall the color or type trousers this person was wearing, his shoes, or the luggage he might have been carrying.

After the meal stop in Monterrey, which lasted approximately one-half hour, the passengers boarded a different bus of the Transportes del Norte line and he observed there also had been a change of bus drivers at that time. He recalled that the individual whom he identified as OSWALD boarded the bus in Monterrey after he did and after he had taken his seat,

No. 15, he noticed the American youth go down the aisle past him. He believed this person had taken a seat in the right rear section of the bus or on the same side of the bus on which RUIZ was seated. As far as RUIZ could recall, this bus had the same seating arrangement as the Transportes del Norte bus on which he had traveled from Mexico City to Monterrey. Sitting next to him was the same person that had traveled in the adjoining seat to his on the trip from Mexico City to Monterrey. Mr. and Mrs. DE CUBA had the same seating arrangement as they had on the Mexico City-Monterrey portion of the trip.

The person whom he believed to be a Mexican Army Captain and his wife were seated on this bus directly behind the driver.

RUIZ estimated that the bus departed Monterrey on the trip to the United States-Mexico border about 10:00 PM on October 2, 1963. He believed the bus had more or less the same number of passengers as had been on the bus upon arrival in Monterrey.

He believed the bus arrived at "Kilometer 26," the Immigration and Customs control point located about sixteen miles south of Nuevo Laredo, Tamaulipas, Mexico, at about 1:00 AM on October 3, 1963. Upon reaching "Kilometer 26," the bus stopped and an official, whom RUIZ assumed to be a Mexican Immigration officer, boarded the bus and proceeded hurriedly to view the travel documents of the passengers on board. He recalled seeing the Immigration Official in the aisle on his way from the rear to the front of the bus and hearing him exclaim in English, "Come on with me," apparently directing his remarks to someone in the rear of the bus. He then saw the Mexican Immigration official go to the front of the bus followed by the American identified by him as being OSWALD. He assumed some question had arisen as to the American's travel documents.

The interior lights of the bus were on at the time, and he saw the Immigration Official and the American get off the bus and enter the small Immigration office located at the side of the road a few feet from the bus. RUIZ estimated that

from the time the American left the bus with the Immigration Official until the time he boarded the bus and again went to the rear of the vehicle, a period of perhaps three or four minutes may have transpired.

He recalled that after the American again boarded the bus, Mr. DE CUBA left the bus and went to the Immigration office and he assumed that there was some question with respect to DE CUBA's travel documents. He believed that about one minute later DE CUBA returned and seated himself in the bus. The only two passengers he recalled having left the bus at Kilometer 26 were the American and Mr. DE CUBA.

He estimated that the entire operation of the Immigration check at Kilometer 26 lasted from ten to fifteen minutes, and shortly after Mr. DE CUBA boarded the bus, the driver continued the journey to Nuevo Laredo, where the bus arrived at the Transportes del Norte bus terminal about 1:30 AM, October 3, 1963.

All of the passengers left the bus in Nuevo Laredo, remaining at the bus terminal for a period of from twenty minutes to one-half hour. During the period the passengers were in the Transportes del Norte terminal in Nuevo Laredo, he recalled seeing OSWALD waiting near the bus alone. He did not recall observing the American speaking to anyone.

RUIZ believed that two or three passengers left the bus at Nuevo Laredo and one or two new passengers boarded at that point. The passengers boarded the same bus on which they traveled from Monterrey to Nuevo Laredo. He recalled the American whom he identified as OSWALD boarding the bus at Nuevo Laredo for the trip across the International Bridge to Laredo, as he remembered seeing the American go down the aisle to the rear of the bus after he, RUIZ, was in his seat.

From that point on, he does not recall seeing the American again.

The Transportes del Norte bus proceeded across the International Bridge, and in several minutes was in Laredo, Texas, on the United States side of the bridge. The bus

stopped near the south side of the U. S. Government building adjacent to the steps which lead into the offices where, according to RUIZ, he was vaccinated.

When the bus arrived at the above-described point on the United States side of the International Bridge, all passengers, to his knowledge, left the bus and proceeded up the stairway leading to the office where RUIZ claimed he was vaccinated. The other passengers proceeded through that office to a large office located nearby, whereas he and another person whom he described as a short, Mexican male of advanced age, who he believed had boarded the bus at Monterrey, remained behind to be vaccinated.

After being vaccinated, he proceeded through a corridor leading to a large office with a long counter, which he assumed to be the U. S. Immigration offices, since he was asked for his travel documents at this point. In that particular office, he noticed various fellow passengers were also there. He can recall Mr. DE CUBA and the woman he believes was DE CUBA's wife being there and DE CUBA's advising one of the Immigration Officers that he was going to Miami. The DE CUBAS left the bus a few minutes later at the Laredo bus terminal, and he did not see them again. He also remembered seeing the person he thought was a Mexican Army Captain along with his wife in the U. S. Immigration offices. He recalled this person had a discussion with one of the U. S. Immigration officers over some type of credential which the Mexican Army Captain had presented.

Everyone already had boarded the bus by the time he had been processed through the U. S. Immigration procedures and he was the last of the passengers to board the bus for the short trip to the Laredo bus terminal. RUIZ estimated that the entire U. S. Government processing operation at the port of entry was about one-half hour in duration.

Upon reaching the Laredo bus terminal, everyone again got off the bus. After about one-half hour he boarded a two-tiered Greyhound Line bus in the Laredo bus terminal and, after boarding, he automatically seated himself in seat No. 15, since he had been in that seat all the way from Mexico City.

Seat No. 15 was located in the second tier, and seated next to him was the same person who had sat next to him during the entire trip from Mexico City. This person got off the bus upon their arrival in San Antonio, Texas, about 8:00 AM, October 3, 1963, and he did not see him again.

From seat No. 15 on the Greyhound bus RUIZ boarded in Laredo, he could see a portion of the lower level of the bus, and he recalled that the Mexican Army Captain and his wife again had seated themselves directly in back of the driver.

RUIZ believed that the person who had been sitting directly in front of him during the entire trip (possibly AUGUSTO AGUILAR) also got on the same Greyhound bus in Laredo and seated himself on the lower level somewhere on the right side of the bus in front. This person also left the bus in San Antonio and RUIZ did not see him again.

The above-mentioned persons were the only people RUIZ could recall on the Greyhound bus he boarded in Laredo; however, he stated there were a number of passengers who boarded the bus at Laredo and estimated that there might have been a total of from fifteen to twenty passengers.

RUIZ estimated the departure from Laredo of the Greyhound bus he boarded as being about 3:00 AM, October 3, 1963, and the arrival in San Antonio at about 8:00 AM that same morning. He observed that everyone got off the bus at the terminal in San Antonio and estimated that the stop in San Antonio lasted about one-half hour, after which the passengers boarded the same bus and proceeded to Dallas, Texas, where RUIZ estimated the time of arrival as about 1:00 PM on the same day. RUIZ recalled that upon debarking from the bus at Dallas, the person he believed to be a Mexican Army Captain and his wife said goodbye to him, and he assumed that they remained in Dallas, as he did not see them again.

RUIZ recalled that the stop in Dallas lasted about two hours, and it was approximately 3:00 PM when the same bus departed Dallas for the journey to Chicago, Illinois, via Tulsa, Oklahoma.

RUIZ recalled seeing for the last time the American whom he identified as OSWALD when the latter boarded the bus at Nuevo Laredo prior to the trip across the International Bridge to Laredo. RUIZ believed that the American had boarded the same Greyhound bus he had boarded at Laredo on the morning of October 3, 1963, and continued the trip to Dallas, Texas, but stated he did not notice him nor did he pay particular attention to the other passengers.

RUIZ did not recall having seen the American speak to anyone at any time and it appeared to RUIZ that the American was traveling alone. He commented that the American had given him the impression of being a quiet individual of a retiring nature.

RUIZ viewed a photograph of PHILIPPE PITER E. VAN DER VORM, as it appears on Mexican Government Tourist Form FM-8 No. 624820, which VAN DER VORM had utilized upon entry to Mexico in September, 1963. RUIZ did not recall having seen this person as a passenger on either of the Transportes del Norte buses on the trip from Mexico City to Laredo in October, 1963.

INTERVIEW OF TRANSPORTES DEL NORTE
PASSENGER JOSE BARRIGA BERNAL

On April 6, 1964, Captain JOSE BARRIGA BERNAL advised the second confidential source abroad that he is a retired officer of the Mexican Army and resides in Mexico City at Gabino Barreda 104, Apartment No. 3. He recalled that on October 2, 1963, he and his wife had traveled from Mexico City to Laredo on Transportes del Norte, and after entering the United States, had continued to Dallas, Texas, via Greyhound bus. He viewed available photographs of OSWALD and stated emphatically that he could not recall him as a passenger. He mentioned that the only passenger he could recall was AGAPITO DEL RIO, with whom he conversed while they were passing through United States Customs at Laredo, Texas.

LEE HARVEY OSWALD

BASIS FOR INQUIRY

As has been previously reported, OSWALD was registered from September 27, 1963, through October 1, 1963, in Room No. 18 of the Hotel del Comercio, located at Calle Bernardino de Sahagun No. 19, Mexico, D. F., Mexico.

The records of the hotel reflect that ERNESTO LIMA JUAREZ, Reynosa, Tamaulipas, Mexico, was registered in Room No. 8 on September 26, 1963, and FRANCISCO MORALES, also of Reynosa, was registered in Room No. 8 from September 27, 1963, through October 1, 1963.

On interview in Reynosa on June 16, 1964, ERNESTO LIMA JUAREZ, a masonry contractor, advised he was in Mexico, D. F., Mexico, where he stayed in Room No. 8, Hotel del Comercio, for a few days in the latter part of September, 1963, and possibly the first day or two in October, 1963. He was in Mexico, D. F., on business and was accompanied by FRANCISCO MORALES, whom he was attempting to aid in securing employment.

While at the hotel, LIMA JUAREZ noticed an American, whom he later recognized from news media photographs as LEE HARVEY OSWALD. He did not associate with OSWALD, and as far as he knows, MORALES did not associate with OSWALD. He pointed out that at that time he had no reason to pay any particular attention to OSWALD.

LIMA JUAREZ also saw four Cubans at the hotel and saw OSWALD associating with these Cubans on one or two occasions, but these meetings appeared to be social in nature. He did not associate with the Cubans and did not learn their names or addresses; however, MORALES had some

drinks with them on one or two occasions and might possibly have their names or other information pertaining to them.

GUILLERMO GARCIA LUNA, owner and manager, Hotel del Comercio, Calle Bernardino de Sahagun No. 19. Mexico, D. F., Mexico, and SEBASTIAN PEREZ HERNANDEZ, the desk clerk at this hotel, advised on July 15, 1964, that ANTONIO OLIVA, described as a tall, slender, male Negro, about 29 years of age, had resided at the Hotel del Comercio during late September and early October, 1963. Mr. GARCIA said that OLIVA was sometimes referred to as a Cuban, apparently due to his appearance, but claimed to be a Mexican from Veracruz, Veracruz, Mexico.

RESULTS OF INVESTIGATION CONDUCTED
TO LOCATE AND INTERVIEW ANTONIO OLIVA

A confidential source abroad furnished the following information on July 31, 1964, concerning the efforts that had been made to locate and identify ANTONIO OLIVA at Mexico, D. F., Mexico.

The records of various agencies of the Mexican Government including the Immigration Department, the four Mexico City Police Departments, tax records, voters' registration records, and Mexico City Drivers' License Bureau were checked without locating any information identifiable with ANTONIO OLIVA. Source also checked the records of musicians' and waiters' unions with negative results. The confidential source explained that such searches were difficult in Mexico City when the second Spanish surname is not available.

Investigation at Calle Sullivan 23, Mexico, D. F., Mexico, disclosed that a gasoline station is located at this address, and inquiry in the area failed to locate anyone acquainted with an ANTONIO OLIVA.

However, on July 21, 1964, Mr. RODRIGUEZ-NAVARRO, owner of a night club named LOS PERICOS, located at Calle Sullivan 13, stated that ANTONIO OLIVA was

formerly employed as a waiter at this night club. According to Mr. RODRIGUEZ, OLIVA is from Honduras and is probably in Mexico illegally. He recalled that OLIVA possessed a waiter's credential that was issued by a labor union in Veracruz, Veracruz, Mexico.

Mr. RODRIGUEZ advised that the night club was raided by the police in January, 1964, and OLIVA was taken into custody. He stated that OLIVA has not returned to the night club since that time, and, since OLIVA owes money to Mr. RODRIGUEZ, Mr. RODRIGUEZ also is trying to locate OLIVA.

Dear Mr. Rankin:

There are enclosed two copies of a memorandum dated October 29, 1964, at San Francisco, California, entitled "Debate on October 9, 1964, Between Melvin Belli and Mark Lane on the Question 'Is Oswald the Lone Assassin of the President?'" The enclosures set forth results of our coverage of the debate between Melvin Belli and Mark Lane.

For your additional information, Mr. Lane and Mr. Belli also held a debate in New York City on October 19, 1964. This debate was entitled "Lee Harvey Oswald - Guilty or Innocent?"

According to a source of this Bureau who has furnished reliable information in the past, approximately 4000 people attended the debate between Mr. Belli and Mr. Lane and paid from $1.50 to $5.00 each for admission.

Our source indicated that Mark Lane continued his criticism of the findings of the President's Commission on the assassination of President Kennedy and was particularly critical of the fact that certain witnesses had not been called before the Commission. He also alleged that witnesses in connection with the assassination had been instructed not to talk to anyone and that the FBI, Secret Service, and the Dallas Police Department kept evidence from the public.

Our source stated that Mr. Belli expressed his opinion that the Report of the President's Commission had presented an accurate picture of the assassination and he used the Commission's findings to refute a number of Lane's

NOTE:

Melvin Dulli, Jack Ruby's former attorney, and Mark Lane, the New York attorney who represented Marguerite Oswald, have engaged in various debates in connection with the assassination. Lane is continuing his attacks on the Commission, FBI, and the Secret Service. Dulli, on the other hand, is using the Warren Commission's report to discredit Lane. It is obvious that both Dulli and Lane are having highly successful financial results in debating the assassination.

All sources mentioned herein have furnished reliable information in the past unless otherwise indicated.

The "New York Times" newspaper issue of August 24, 1964, contained an advertisement stating that, on August 25, 1964, Mark Lane would begin a new series of lectures on the topic "Who Killed Kennedy?" at the Jan Hus Theatre, 351 East 74th Street, New York City.

On September 9, 1964, by means of a suitable pretext by a Special Agent of the Federal Bureau of Investigation, (FBI), it was determined Mark Lane would present his lectures "Who Killed Kennedy" at the Jan Hus Theatre, New York City, on a nightly basis until September 23, 1964.

On September 28, 1964, by means of a suitable pretext by a Special Agent of the FBI, it was determined that Mark Lane's lecture series at the Jan Hus Theatre had been extended through October 3, 1964.

Mark Lane
Security Matter - C

On August 26, 1964, a first confidential source attended the Mark Lane lecture entitled "Who Killed Kennedy?", held that date at the Jan Hus Theatre, 351 East 74th Street, New York City. This source stated the lecture was held under the auspices of the Citizens' Committee of Inquiry, (CCI), 156 Fifth Avenue, New York, which, according to this source, had been formed by Lane early in 1964 to further his personal investigation into the circumstances surrounding the assassination of President John F. Kennedy on November 22, 1963. This source stated admission to the lecture was $2.00 for adults and $.99 for students.

This source stated that during his lecture, Lane utilized a large map of the site in Dallas, Texas, where the assassination of President Kennedy took place. Lane also utilized a tape recorder over which he played the remarks of several of his "witnesses". At a later point in his program, Lane used a slide projector and screen to display news clippings and various documents relating to the assassination.

This source advised that, according to Lane, all authorities concerned with the investigation of the assassination, including the Dallas Police Department, the United States Secret Service, and the FBI, were only concerned with proving that Lee Harvey Oswald was the lone assassin of President Kennedy. Lane charged that all evidence which tended to indicate that Oswald was not the lone assassin had been discarded or altered to support the original premise.

Lane told the audience that all funds collected by him through his lecture series or other public appearances had been used to cover the cost of operating the CCI and to cover expenses for his personal investigation into the case.

C-O-N-F-I-D-E-N-T-I-A-L

Mark Lane
Security Matter - C

This source stated that for the most part Lane presented his lecture in the manner of a college professor with little or no emotion. On many points he reached no conclusion but left any conclusion to be drawn by the audience based on his remarks and the "evidence" presented. This source stated that Lane appeared to base the greater part of his presentation on his belief that some type of governmental conspiracy or plot was attempting, at whatever cost, to pin the assassination on Oswald and Oswald alone.

According to the source, Lane raised the following questions concerning the circumstances surrounding the death of President Kennedy:

1. Why was the murder weapon originally described as a German Mauser, caliber 7.65 millimeter when only 24 hours later the weapon was identified as an Italian military carbine, caliber 6.5 millimeter? Lane strongly hinted that these rifles were "switched".

2. Why were the pictures of Oswald, which appeared in "Life" magazine and "Newsweek" magazine, "doctored" or retouched?

3. Why did the head of the FBI in Dallas, Texas, "lie" when he said the paraffin tests given to Oswald were positive?

4. Why did the witness to the murder of Dallas Police Officer J.D. Tippit describe the killer as a person who did not meet the physical description of Oswald on the day of the assassination either as to dress or physical characteristics?

Mark Lane
Security Matter - C

5. Why was the Presidential route through Dallas changed at a very late hour so as to pass in front of the Texas Book Depository Building rather than one block away as originally planned?

6. Why have witnesses in the Dallas area been "terrorized" by various authorities, including the FBI?

7. Why does the Government insist there were only three shots fired when there are many witnesses who state that as many as four to six shots were fired?

8. Why did the doctors who attended President Kennedy in Dallas at first say the wound in his throat was an entry wound and later change their story and described the wound as an exit wound?

9. Why do the authorities ignore evidence that the shots that killed Kennedy came from the railroad overpass in front of the motorcade and not from behind it?

10. Why was the city of Dallas not "sealed tightly" by the Dallas Police Department, the Secret Service, or the FBI immediately following the assassination?

This source stated that during the course of his lecture, Lane constantly charged the FBI and the Warren Commission with the concealment of important facts concerning the assassination of President Kennedy. He concluded his lecture by making a promise to the audience that he would continue his investigation to determine the "real facts" in the case, regardless of the time or money involved.

As previously mentioned during the above period, Lane introduced additional material to the content of his basic lecture on "Who Killed Kennedy?", which was furnished as follows:

The Seventh confidential source who attended the Lane lecture on September 1, 1964, reported that during his lecture Lane projected on a screen a document which he stated he had received from an individual in the United States Immigration and Naturalization Service, (INS), New York City, following his arrival into the United States from Europe in June, 1964. This source stated Lane utilized this material to illustrate how closely he was being "watched" by governmental authorities.

The Eleventh confidential source who attended the Lane lecture on September 4, 1964, reported that during his remarks Lane stated he had recently arrived at Kennedy International Airport, New York City, following a trip to Europe. He stated he was stopped by an official of the United States INS, New York City, who had a "black book" containing a list of names. Lane stated he noticed his name was on this list, and when he questioned the INS official, he was informed that such information was "Secret".

According to this source, Lane stated that when he related this incident at a previous lecture, date not given, a young man contacted him following the lecture, and told Lane he was an employee of INS. This man informed Lane he would endeavor to ascertain the reason Lane's name appeared on the INS list. Lane stated that this individual not only obtained for him a copy of the page on which his name had appeared, but also a description of the classification of individuals appearing on the list.

Mark Lane
Security Matter - C

This source stated that at this point in his lecture, Lane projected on a movie screen a document which he described as a copy of a list of names apparently from the previously mentioned "black book". The source stated that this document appeared to be of a loose-leaf type, size 8½" by 11". Lane quickly pointed to his name on this list and then to the classification symbol "G", which appeared beside his name. The source stated that Lane then projected another document on the screen showing only that portion which identified classification "G". According to this source, classification "G" was explained by Lane as "Do not detain. Notify FBI by telephone immediately." This source stated both documents appeared to be of an official nature.

All sources attending lectures subsequent to September 1, 1964, furnished information which reflected that Lane's remarks concerning the INS material had been incorporated into his basic lecture.

It is noted that the report of the President's Commission on the Assassination of President Kennedy, (commonly known as the Warren Report), was released to the general public on September 27, 1964.

The Twenty Seventh source who attended the Lane lecture on September 28, 1964, reported Lane stated that the release of the Warren Report had confirmed his long-held belief that the report would be a complete "whitewash" and "cover up" of the "true facts" surrounding the death of President John F. Kennedy. He claimed the report did nothing but support the basic premise on the part of the Government

Mark Lane
Security Matter - C

that Lee Harvey Oswald was the lone assassin of President Kennedy. He stated the main purpose of the report was to "prove" that there had been no conspiracy involved in the assassination. Lane described every member of the President's Commission as "anti-Kennedy". Lane told the audience that the Warren Report would only serve to intensify his personal efforts to uncover the "truth" in the circumstances surrounding the assassination.

The Twenty Eighth source who attended the Lane lecture on September 29, 1964, stated that in addition to his regular lecture, Lane commented on the Warren Report. He stated the best thing Lyndon Johnson did was to disband the Warren Commission since their report was a "complete whitewash". He accused the Warren Commission of ignoring important facts in the case and of deliberately preparing their findings as a "prosecution" of Oswald and not a "study" of the case. According to this source, Lane criticized the FBI and the Warren Commission for ignoring obvious investigative leads which he felt could have changed their findings in many respects.

The Twenty Ninth source who attended the Lane lecture on September 29, 1964, stated that at one point in his remarks on the Warren Commission, Lane shouted "If you wonder if 1984 will come -- it's here! Remember this when you ask who killed President Kennedy."

All sources attending lectures subsequent to September 28, 1964, reported that Lane's remarks concerning the Warren Report and its conclusions had been incorporated into his basic lecture.

CONFIDENTIAL

Mark Lane
Security Matter - C

The Third, Tenth, and Eighteenth sources who attended the Lane lecture on October 3, 1964, reported this affair was announced as the last appearance of Lane at the Jan Hus Theatre, New York City. In his concluding remarks, Lane told the audience he intended to "carry on" his personal investigation into the death of President Kennedy and continue his efforts to disprove the conclusions of the Warren Report.

LEE HARVEY OSWALD

BASIS FOR INQUIRY

LEE HARVEY OSWALD is believed to have traveled under the name of H. C. LEE from Mexico City to Laredo, Texas, via buses of the "Autobuses Transportes del Norte" bus line (hereinafter referred to as Transportes del Norte). According to available records, H. C. LEE departed from Mexico City at 8:30 AM, October 2, 1963, on Transportes del Norte bus No. 332 and transferred at Monterrey, Nuevo Leon, Mexico, to Transportes del Norte bus No. 372, which arrived at Laredo, Texas, at approximately 2:00 AM on October 3, 1963. He was assigned seat No. 12 on bus No. 332, a window seat located four rows from the front on the driver's side. Having purchased bus transportation to Dallas, it is believed he departed from Laredo at 3:00 AM, October 3, 1963, on a Greyhound bus en route to Dallas, Texas, via San Antonio, Texas.

INFORMATION REGARDING OTHER TRANSPORTES DEL NORTE BUS PASSENGERS OF OCTOBER 2-3, 1963

As has been reported, the following is the passenger manifest and seat reservations for those passengers on Transportes del Norte bus No. 332, which departed Mexico City at 8:30 AM, October 2, 1963. Those passengers who have been located and interviewed are indicated below. (Further details regarding this passenger manifest are contained in a memorandum dated April 7, 1964.)

Of the above-listed 16 passengers who boarded bus No. 332, the following 8 people have been located and interviewed:

Mr. and Mrs. J. M. DE CUBA
AUGUSTO AGUILAR
ANASTASIO RUIZ MEZA
PHILIPPE PITER E. VAN DER VORM
AGAPITO DEL RIO
Mr. and Mrs. JOSE BARRIGA

Upon interview on April 6, 1964, PHILIPPE PITER E. VAN DER VORM recalled that on the bus was a German woman whom he described as about 50 years of age who has been a school teacher in the United States for the past fifteen or twenty years and who had been in Yucatan, Mexico, on vacation. It is believed that the person referred to by VAN DER VORM may be MARGARET A. WOLFF.

In addition to the above passengers it has been determined that ten additional passengers boarded bus No. 332 at San Luis Potosi, State of San Luis Potosi, Mexico, in the early afternoon of October 2, 1963, eight of these passengers having arrived in San Luis Potosi on a feeder bus of the "Linea Azul" (Blue Line), which had departed from Guadalajara, Jalisco, Mexico, at 8:00 AM, October 2, 1963, to make connection with bus No. 332 in San Luis Potosi. The eight who boarded at Guadalajara and the seat numbers assigned them on bus No. 332 are as follows. (Further details regarding this passenger list are contained in a memorandum dated April 7, 1964.)

Seat (No.)	Name of Passenger	Destination
22	HILDA QUEZADA	Nuevo Laredo

25	CECILIO CARDENAZ	Monterrey
26	PEDRO GLEZ. (probably GONZALEZ)	Monterrey
24	Illegible (probably JOSE CRUZ) (Seat No. 24 was listed for this person; however, since that seat was also designated for another person, it is believed that perhaps this seat was intended to be No. 29.)	Monterrey
28	MAXIMINO ESQUIVEL	Monterrey
27	Unidentified	Monterrey

The two passengers who boarded Transportes del Norte bus No. 332 at San Luis Potosi are unidentified; however, it appears that one of the passengers was HERBERT ROBERT VOORHEES, who was located and interviewed on March 26, 1964, at San Miguel de Allende, Guanajuato, Mexico. (Detailed information regarding the interview of VOORHEES is contained in a memorandum dated March 31, 1964.)

Two other passengers, who were not listed by name and remain unidentified, boarded the bus at Monterrey (passengers on bus No. 332, who were continuing the trip north, changed to Transportes del Norte bus No. 373 at Monterrey for the trip to the United States-Mexico border) with their destination being Nuevo Laredo, Tamaulipas, Mexico. Another unidentified passenger, who was not listed by name, boarded the bus at Nuevo Laredo for the trip to Laredo, Texas.

EFFORTS TO IDENTIFY BUS PASSENGERS ON TRANSPORTES DEL NORTE BUSES NO. 332 AND NO. 373 FOR TRIP OF OCTOBER 2-3, 1963

At Mexico, D. F., Mexico

On April 2, 1964, a check of the visa files, United States Embassy, was made for the following persons, and no record identifiable with them could be located:

PAULA RUSIONI
MARGARET A. WOLFF
Miss COSIO
EULALIO RODRIGUEZ

It was determined on April 15, 1964, through a check at the Central Office, Immigration and Naturalization Service (INS), Washington, D. C., that the master index of that agency contained a reference to one HILDA QUEZADA QUIROZ. These records disclosed that HILDA QUEZADA QUIROZ was born September 4, 1944, at Mexico, D. F., Mexico (D. F. refers to "Distrito Federal" - Federal District or the Mexican Federal Capital), and admitted to the United States at Laredo, Texas, on May 24, 1963, on a Class B-2 visa valid to June 15, 1963. She was the bearer of Mexican Passport No. 31067, and the visa was issued at Mexico City on May 15, 1963. Her permanent address was given as J. M. Correa No. 196, Mexico, D. F., Mexico, and her address in the United States was recorded as "San Antonio and Houston, Texas." The departure record reflects she departed from the United States at Laredo on May 30, 1963.

T-1, a confidential source abroad, advised on April 30, 1964, that he had located HILDA QUEZADA QUIROZ at Calle Jose Maria Correa No. 196, Colonia Vista Alegre, Mexico, D. F., and QUEZADA stated she did travel on a Transportes del Norte bus from San Luis Potosi, State of San Luis Potosi, State of San Luis Potosi, Mexico, to Nuevo Laredo in May, 1963. QUEZADA affirmed that she did not travel in October, 1963.

T-2, a confidential source abroad, advised that on April 29, 1964, a review of Mexican Government Immigration forms FM-11 listing all persons of record who departed from Mexico at Nuevo Laredo on October 3, 1963, failed to disclose any information identifiable with the following persons who were listed as passengers on the buses in question:

Miss COSIO
A. MARTINEZ
MARGARET A. WOLFF
ROBERTO P. GONZALEZ
PAULA RUSICNI
EULALIO RODRIGUEZ
JORGE DAVILA
HILDA QUESADA
CECILIO CARDENAZ
PEDRO GONZALEZ
JOSE CRUZ
MAXIMINO ESQUIVEL

On March 23, 1964, MACLOVIO HERRERA, Chief of the Travel Control Files of the Mexican Immigration Department, Mexico, D. F., advised that in a circular instruction dated March 20, 1962, the Chief of the Immigration Department described the Immigration form FM-11 as a "statistical record to be prepared every two weeks on nationals and aliens entering and leaving the country." HERRERA explained that separate FM-11 forms are submitted semimonthly by all Mexican Immigration stations for entries and departures from Mexico, and separate lists are prepared in connection with the various types of travel documents presented and submitted in duplicate (original and one carbon copy) to the Travel Control Files for checking and comparison with the tourist cards or other travel documents on which they are based. HERRERA advised, however, that numerous Mexican nationals traverse the Mexico-United States border on a daily basis without any records being made of their travel.

On May 20, 1964, the following additional review was made of visa records, United States Embassy, Mexico, D. F., for the names of bus passengers as indicated below:

MAXIMINO ESQUIVEL - No record identifiable with this person could be located.

CECILIO CARDENAZ - Visa files contain one card for CECILIO CARDENAS CISNEROS, born June 20, 1933, at El Zapote, Aguililla, Michoacan, a resident at Calle Allende No. 11, Aguililla, Michoacan, who on January 23, 1963, applied for admission to the United States as a nonquota immigrant. No visa had been granted as of May 20, 1964.

JORGE DAVILA - Visa files contain the following references to persons with the name JORGE DAVILA:

JORGE DAVILA MUNOZ, born in October, 1933, occupation travel agent, residing at Bahia de Santa Barbara No. 20, Apartment No. 210, Colonia Veronica Anzures, Mexico, D. F., presented Mexican Passport No. 32084/58 and was issued a visa which expired March 28, 1963.

JORGE DAVILA TELLO, born at Mexico, D. F., (no date given) residing at 5 de Febrero No. 132, Room No. 5, Mexico 8, D. F., Mexican Passport No. 040446/62, received a visa which expired June 9, 1960.

JORGE IGNACIO DAVILA GALVEZ, born August 1, 1946, at Tehuacan, Puebla, residing at Niza No. 81, Apartment No. 12, Colonia Juarez, Mexico, D. F., Mexican Passport No. 31334/63, obtained a one-entry visa which expired on August 16, 1963.

EULALIO RODRIGUEZ - No record identifiable with this person could be located.

ROBERTO P. GONZALEZ - There are several hundred cards on file and in the absence of descriptive data it was not possible to identify this person.

Miss COSIO - There are numerous cards on file for persons who might be known as Miss COSIO and a large number of cards for persons who might be known as Mrs. COSIO. The following are names of persons who might be known as "Miss COSIO" (also commonly spelled "COSSIO") who held United States visas as of October 2, 1963:

CELIA PATRICIA COSSIO RODRIGUEZ, age 10 in 1963, residing at Calle Alvaro Obregon No. 230-10, Mexico, D. F., held a visa issued September 13, 1963, valid to December 13, 1963, for one entry to the United States on a pleasure trip. The visa card was signed by this person's mother, CELIA DE COSSIO.

GUADALUPE COSIO HINOJOSA, holder of Mexican Passport No. 29856/63, a resident of Calle Cuernavaca No. 9, Colonia Condesa, Mexico, D. F., born March 9, 1903, at Mexico, D. F., held a visa issued May 14, 1963, which was to expire on November 14, 1963. Her occupation was listed as housewife-real estate owner. Her visa was secured for a trip to San Antonio, Texas.

JOSEFA COSSIO COSIO, holder of Mexican Passport No. 10026/58, residing at Calle Carmen No. 78, Mexico 1, D. F., held a visa issued August 5, 1963, which was valid to November 5, 1963, for one-week pleasure trip to the United States.

PAULA RUSIONI - No record was located for this person.

T-3, a confidential source abroad, advised on May 21, 1964, that a review of the National Alien Registry of the Ministry of the Interior, Mexico, D. F., failed to reveal any information identifiable with PAULA RUSIONI, which would indicate that, if this person is residing in Mexico, she is not in an alien status.

T-4, a confidential source abroad, advised as follows:

On May 13, 1964, Dr. ARRIGO LOPEZ CELLY of the Italian Embassy, Mexico, D. F., related that no record could be located for PAULA RUSIONI in the files at that Embassy.

On May 20, 1964, T-3 advised he had conducted a review of the Passport records at the Mexican Foreign Ministry, Mexico, D. F., and was unable to identify any of the following persons through a review of those

records. Source related that the paucity of information concerning these persons and the fact that the Passport records at the Mexican Foreign Ministry are set up in an alphabetical index according to the year of the issuance of the passports make it exceedingly difficult to locate identifiable data with only partial names.

In 1962 he secured a Mexican passport for the purpose of traveling to the United States with New York City listed as his final destination. His Mexican Military Service Card number is registered as No. 4461935. He was described as being single, 5'3" in height, of dark complexion, black hair, brown eyes, occupation "artist." He formerly held Mexican Passport No. 73-5:1519, which had been issued by the Mexican Consulate at Brownsville, Texas.

F., secured a visa on December 20, 1962, for the purpose of an eight-day pleasure visit to the State of Texas. This person's visa card lists his occupation as "movie actor." (It is noted that records of the Passport Office, Mexican Foreign Ministry, list his residence address in 1962 as Calle Oriente No. 300, Colonia Villa de Cortes, Mexico, D. F.)

At Merida, Yucatan, Mexico

Consul Paul S. Dwyer, United States Consulate, advised he could locate no record in the files of the Consulate for the name MARGARET A. WOLFF.

T-5, a confidential source abroad, advised that FELIX SALAZAR, caretaker in charge of the registry at the Mayan ruins of Chichen-Itza, Yucatan, made available the visitors' signature register. This register was reviewed for the period of August 1, 1963, to October 6, 1963, and no record could be located for the name MARGARET A. WOLFF.

T-2 advised that on May 20, 1964, ERNESTO ABREU GOMEZ, Identification Section, State Judicial Police, Merida, advised that the following persons reviewed the indicated records for the period from August 1, 1963, to October 6, 1963, without locating any record for the name MARGARET A. WOLFF:

Attorney MANUEL CASTANEDA RAMIREZ, Superintendent of the Anthropology Institute, Merida, Yucatan, who reviewed the visitors' signature register at the Mayan ruins of Uxmal, Yucatan.

Attorney HUMBERTO ROSADO ESPINOLA, Barbachano Travel Agency, who reviewed the hotel registers for the Hotel Uxmal located near the site of the Uxmal ruins and for the Mayanland Hotel located near the site of the ruins of Chichen-Itza, Yucatan.

At Monterrey, Nuevo Leon, Mexico

T-6, a confidential source abroad, advised as follows:

On May 19, 1964, it was determined that one MARGARET A. WOLFF registered at the Ambassador Hotel in Monterrey at about 9:55 PM, October 2, 1963, and checked out of the hotel the following morning at 9:07 AM. Inquiry revealed that WOLFF was described as being of German descent and a teacher of languages. Hotel records reflect that WOLFF's residence address is listed as 2 Delaware (probably street or avenue), Dumont (possibly Dumont), New Jersey.. It was determined on May 20, 1964, that WOLFF may have made travel arrangements for her trip to Mexico through a travel agency known as the Uell International Travel Agency of New Jersey with addresses listed at 2 Essex House, New York, New York, and what appeared to be 32-A Norwalk, Berjensild (probably Bergenfield), New Jersey.

According to the bus manifest, of the sixteen passengers who boarded Transportes del Norte bus No. 332 at Mexico City on October 2, 1963, Monterrey was listed as the final destination for ROBERTO P. GONZALEZ and JORGE DAVILA.

The following individuals who were named on the manifest of the feeder bus which left Guadalajara on the morning of October 2, 1963, to make connection with Transportes del Norte bus No. 332 at San Luis Potosi listed Monterrey as their final destination:

CECILIO CARDENAZ
PEDRO GONZALEZ
JOSE CRUZ
MAXIMINO ESQUIVEL

In an effort to locate the above-named persons for whom Monterrey was listed as their final destination, T-7, a confidential source abroad, advised on May 8, 1964, that he had located the following persons at Monterrey through a check of the telephone directory, voting records, and public utility

records at Monterrey, and all advised that they had not been passengers on Transportes del Norte bus No. 332 which had departed Mexico City the morning of October 2, 1963:

ROBERTO GONZALEZ, JR., residing at Calle Republica Dominicana No. 103
ROBERTO GONZALEZ, residing at Padre Mier Oriente No. 814
ROBERTO GONZALEZ, residing at Padre Mier Oriente No. 817
ROBERTO A. GONZALEZ, residing at Rio Amazonas Oriente No. 422

PEDRO L. GONZALEZ, residing at Serafin Pena Norte No. 714
PEDRO G. GONZALEZ, residing at General Trevino Poniente No. 1221

This source advised that he was continuing efforts to locate and identify JORGE DAVILA, CECILIO CARDENAZ, JOSE CRUZ, and MAXIMINO ESQUIVEL.

It was determined on April 15, 1964, through a check of the Central Office, Immigration and Naturalization Service (INS), Washington, D. C., that the master index contained records of three border crossing cards for persons who could possibly be identical with the Transportes del Norte bus passenger, EULALIO RODRIGUEZ. The information appearing on these border crossing cards is as follows:

Border Crossing Card No. 507572 was issued at Laredo, Texas, November 26, 1958, to EULALIO RODRIGUEZ PERALES, born

May 12, 1934, at Linares, Nuevo Leon, Mexico, residence 23 de Abril Norte No. 1814, Monterrey, Nuevo Leon, Mexico.

Border Crossing Card No. 1339074 was issued July 9, 1963, at Laredo, Mexico, to EULALIO RODRIGUEZ GALVAN, born April 16, 1923, at Rio Verde, San Luis Potosi, Mexico, employed as a body mechanic, residence Ruperto Martinez Oriente No. 955, Monterrey, Nuevo Leon, Mexico.

T-2 advised as follows:

On April 30, 1964, EULALIO RODRIGUEZ GALVAN, who resides at Washington Oriente No. 1220, Monterrey, Nuevo Leon, advised that he formerly resided at Ruperto Martinez Oriente No. 955 in Monterrey. He related that he also visited McAllen and Mission, Texas, at that time and was arrested by United States Immigration officers and deported to Mexico. He said he had been required to surrender his border crossing card at that time. He affirmed that he had not returned to the United States since that time and had not been a passenger on the aforementioned Transportes del Norte bus.

On May 1, 1964, JOSE RODRIGUEZ PERALES, who resides at 23 de Abril Norte No. 1814, Colonia Venustiano Carranza, Monterrey, advised that he has a brother named EULALIO RODRIGUEZ PERALES, who for some time has been residing at Alamo, Texas, and is employed at the Jones Office Supply, 1035 Broadway, McAllen, Texas. He did not know EULALIO's street address but stated his mailing address is Post Office Box 175, Alamo.

Efforts are being made to locate and interview EULALIO RODRIGUEZ PERALES at McAllen and Alamo, Texas.

Source reported on May 6, 1964, that he had been unable to locate EULALIO RODRIGUEZ CARRILLO who is registered as residing at Lago de Pascuaro Poniente No. 101, Monterrey, but was continuing efforts to locate this person.

At Guadalajara, Jalisco, Mexico

MAXIMINO ESQUIVEL
PEDRO GONZALEZ

T-8, a confidential source abroad, advised on April 19, 22, and 28, 1964, that he had conducted the following investigation at Guadalajara:

A check of the local telephone directory, files of the power and light company, and the Guadalajara Census Bureau failed to locate any information which would aid in identifying the passengers listed below. Source advised that the names are common in the area and that he had interviewed numerous persons with the same surnames without locating anyone who was acquainted with the passengers.

BASIS FOR INQUIRY

The information set out below was made available by a confidential source abroad.

According to the records of the Department of Immigration, Mexican Ministry of "Gobernacion" (Interior or Government), Mexico, D. F., Mexico, among tourist cards surrendered by "aliens" departing from Mexico at Nuevo Laredo, State of Tamaulipas, as tourists on October 3, 1963, was the tourist card of Herbert Robert VOORHEES. This card was an FM-5 permit bearing No. 4325846. It was valid for 180 days' stay in Mexico. This tourist card was issued by the Mexican Immigration Service in Nuevo Laredo on June 5, 1963, and the following data was recorded thereon:

VOORHEES entered Mexico at Nuevo Laredo on June 5, 1963, by train with final destination designated as Mexico, D. F. He was described on the tourist card as a male, American citizen; 73 years of age; a widower; retired; born in Beloit, Wisconsin; residence, Overland Park, Kansas. He presented a birth certificate as proof of citizenship. This tourist card carries the typewritten Spanish word "tren" (meaning train), and the Mexican Immigration form FM-11 which constitutes a recapitulation of departures of tourists at Nuevo Laredo on October 3, 1963, records that VOORHEES departed from Mexico by railroad with the final destination of "Overland, P. K." The departure of VOORHEES from Mexico was handled by Mexican Immigration Service employee ALBERTO ARZAMENDI CHAPA.

Since VOORHEES departed from Mexico during ALBERTO ARZAMENDI CHAPA's tour of duty between 12:00 midnight and 8:00 AM, October 3, 1963, he was located to determine whether or not he had observed LEE HARVEY OSWALD during his travel.

According to Mexican Immigration records, OSWALD had surrendered his tourist card at Nuevo Laredo to ARZAMENDI CHAPA between 12:00 midnight and 8:00 AM on the same date.

INTERVIEW OF HERBERT ROBERT VOORHEES

A confidential source abroad stated that on March 26, 1964, HERBERT ROBERT VOORHEES was residing at Calle Masones No. 19, Apartment 10, San Miguel de Allende, State of Guanajuato, Mexico, and, upon being located next door to his residence, VOORHEES advised as follows:

His true name is HERBERT FRANCIS VOORHEES, but for unknown reasons his name was listed incorrectly as HERBERT ROBERT VOORHEES on his birth certificate. He uses his true name as a commercial cartoonist.

Until six years ago, he had lived the greater part of his life in Chicago, Illinois, where for twelve years he had resided at the Lake Lane Apartments, 6214 Winthrop Street. He is a widower and for the last six years has traveled, primarily by train, to Mexico, where he has met several friendly Americans and artists in San Miguel de Allende.

He obtains a Mexican tourist card, valid for 180 days' stay in Mexico, which causes him to return to the United States every six months to have his status in Mexico as a tourist re-established for another 180-day period.

He explained that the train from Nuevo Laredo, State of Tamaulipas, Mexico, does not pass through San Miguel de Allende, and he leaves the train at San Luis Potosi, State of San Luis Potosi, Mexico, and travels to San Miguel de Allende by bus.

Initially, he stated he was 74 years of age, hard of hearing, and would have to stop to refresh his recollection

before he could be positive about anything which took place in the past, since he has difficulty remembering the exact details of his travels. He was positive that his last departure from Mexico was by bus and not by train.

He affirmed initially that he last departed Mexico by "Greyhound bus" in the early part of October, 1963. He explained that it was a "Greyhound bus" in his mind because the bus on which he traveled in Mexico had "Greyhound dogs" painted on the sides, the ticket he purchased was a "Greyhound bus ticket," and his journey in the United States was continued on the Greyhound Bus Lines, but in Mexico the name of the bus company he used was Transportes del Norte. He entered Mexico by train some months prior to October 6, 1963, since by this date he had to leave Mexico to renew his tourist card.

At first he could not recall any information concerning the trip he repeatedly referred to as the one taken by him on the "Greyhound bus." He could not recall the exact date he entered Mexico at Nuevo Laredo by train from San Antonio, Texas, to which he proceeded from Kansas City, Kansas, via the "Katy Railroad Line," but he was certain that it was several months prior to October 6, 1963, when his Mexican tourist card would have expired.

By writing down the dates of trips made during 1963, he was able to recall that on or about October 2, 1963, he left San Miguel de Allende at 7:30 AM by "a second-class, yellow bus" for San Luis Potosi, where he arrived just before noon the same day.

At the Transportes del Norte bus station at San Luis Potosi he purchased a ticket straight through to San Antonio, Texas, because Transportes del Norte is affiliated with the Greyhound Bus Lines in the United States. He purchased a Greyhound bus ticket to San Antonio, Texas, which included transportation aboard a Transportes del Norte bus in Mexico. His travel to Nuevo Laredo was aboard a Transportes del Norte bus and from Laredo to San Antonio aboard a Greyhound bus.

After purchasing his ticket, he ate lunch and left San Luis Potosi on a Transportes del Norte bus at about 2:40 PM on October 2, 1963.

He did not know his ticket number, could not recall if his name was registered on a passenger list, and did not know whether or not the bus he boarded had proceeded from Mexico, D. F., to San Luis Potosi. He saw the bus arrive at the bus station at San Luis Potosi but did not remember whether or not passengers were aboard.

He and other passengers boarded the bus at the Transportes del Norte bus station in San Luis Potosi. He assumed the bus he boarded was made up at this city because "it smelled clean." He stated he did not count them, but there were at least four passengers on the bus and probably several more. He did not notice any other Americans aboard the bus.

The bus arrived at Laredo, Texas, at approximately 2:00 AM, October 3, 1963. While aboard the bus at Nuevo Laredo, State of Tamaulipas, Mexico, he had inquired if it would be possible with his type of bus ticket to leave the bus at Laredo, Texas, and later proceed to San Antonio, Texas. He was told that he could take a Greyhound bus at any time later with the "Greyhound bus ticket" which he had purchased. He was emphatic that after he went through U. S. Customs and U. S. Immigration at Laredo, Texas, he reboarded the bus and, at his request, was allowed to disembark from the bus alone on one of the streets in Laredo in order that he could proceed to the Southland Hotel. He could not recall exactly where U. S. Customs and U. S. Immigration are located in Laredo. After resting at the Southland Hotel, he went to the Greyhound bus depot in Laredo that same day and boarded a Greyhound bus, using his through ticket to San Antonio, Texas.

He was very certain that the bus stopped in Mexico at about 1:00 AM on October 3, 1963, at the "Mexican Immigration check station about twelve miles from the Mexican-American border," the lights in the bus were turned on, and a Mexican Immigration official boarded the bus to check each passenger's identification and travel documents.

VOORHEES First Notices American

At this point the Mexican Immigration official ushered a young American man off the bus. This was the first

time VOORHEES realized an American was on the bus. He described the American as about 20 years of age, five feet nine inches tall, not heavy, of medium build, clean-shaven, bareheaded, coatless, and cleanly attired in shirt, slacks, and shoes. VOORHEES recalled that he had considered the American lightly clad, since he did not wear a coat during the cool night. VOORHEES repeatedly stated "he was not a beatnik." The American was carrying one small bag, either a zipper bag or a small duffel bag. VOORHEES was unable to describe the exact type of bag but was certain the American did not have a suitcase.

VOORHEES was certain he sat on the right side of the bus because he habitually sits on the right side, looking forward. He remembered that he did not sit toward the front or back but somewhere in the middle of the bus.

During the trip VOORHEES talked with a "Mexican-American" man who sat across the aisle from him. The Mexican-American, whom he remembered as a middle-aged, thin-faced man who spoke both English and Spanish well, said he was going to the United States, but VOORHEES could recall neither his destination nor his name. The Mexican-American was traveling on the bus with his wife and VOORHEES believed he was returning to "his business" in the United States. He gave the impression of being very nervous, smoking one cigarette after another. VOORHEES did not know whether the Mexican-American is a Mexican or a United States citizen. During the trip VOORHEES discussed with the Mexican-American the fact that he, VOORHEES, is a commercial artist.

When the American was taken off the bus, he was taken from the back of the bus to the front, and the Mexican-American remarked to VOORHEES that the American was having trouble over his papers. VOORHEES remembered clearly that when the young American was taken off the bus most of the passengers on the bus were sleeping, and he also recalled that at the beginning of the trip at San Luis Potosi there was some sort of discussion between a Mexican woman and the driver of the bus with regard to a seat number. He could describe neither the Mexican woman nor the bus driver. He was certain that he was not acquainted with anyone aboard the bus.

He recalled that, when the American returned to the bus and walked to the back of it, he mumbled in good English, in a grumbling manner, something like, "My papers were in order before and I don't know why they bother me now - they took my pass before." This was the first time VOORHEES had noticed the American, and he could not state when the latter first boarded the bus. He had the impression the American could not speak Spanish and presumed the American was taken off the bus to the "check station office" where someone must have spoken to him in English.

He clearly recalled seeing the American at the U. S. Customs checking station in Laredo, Texas, at about 1:30 AM, October 3, 1963, when a Mexican woman's luggage was being examined and the young American was standing by. The American was trying to dispose of a banana by eating it hurriedly, "gulping it down," and he was told by a Customs officer that he could carry the banana into the United States and did not have to gulp it down so fast.

When asked if he had talked with or been near the American, VOORHEES stated he was not near the young American at any time during the bus trip or while checking through U. S. Customs at Laredo.

VOORHEES did not recall seeing the American again after he saw him at the U. S. Customs checking station in Laredo and could only presume that the American returned to the bus when all passengers left the checking station and reboarded the bus. VOORHEES left the bus at Laredo by himself when the bus driver let him off on an unknown street with an unscheduled stop at about 2:00 AM, October 3, 1963. He believed that all other passengers remained on the bus until it reached its scheduled destination, which he presumed to be the Greyhound bus depot in Laredo.

After refreshing his recollection about the bus trip from San Luis Potosi to Nuevo Laredo, he was certain the bus arrived at Monterrey, State of Nuevo Leon, Mexico, at about 11:00 PM on October 2, 1963, and all passengers had to change to a smaller bus of the same bus line, Transportes del Norte, to proceed to Nuevo Laredo. He did not see the American

during this change of buses and did not recall seeing him prior to the "check station stop at the 26 kilometer point before arrival at Nuevo Laredo." He believed that some passengers other than those who traveled from San Luis Potosi had boarded the bus at Monterrey, but was not certain of this.

When shown a photograph of OSWALD among other photographs, he immediately recognized the photograph and exclaimed that this was a photograph of OSWALD. When asked how he knew this to be so, he stated he has been a commercial artist all his life, is a member of the Academy of Fine Arts in Chicago, Illinois, and can recognize a face.

He repeated that he was unable to conclude definitely that the young American aboard the bus was OSWALD, stating he could not be positive, but he affirmed strongly that the American was "the same general type" as OSWALD. VOORHEES then said, "How do you like that, if that was OSWALD on that bus and I didn't know it."

When shown a full-length, front-view photograph of OSWALD, he immediately exclaimed that the young American was "about the same size, the same type, and it seems to be him," but VOORHEES would not state positively that the young American was OSWALD, pointing out that he could not make a definite identification of someone he saw only momentarily several months earlier. He was emphatic that there was every similarity between the photographs shown to him and his recollection of the young American aboard the bus but he would not be more definite in connection therewith. He expressed the wish that he had been more observant of the young American on the bus.

He attempted to recall other details about the trip to assist in determining whether or not the young American was identical with OSWALD, but he was unable to do so. He stated that, if he were able to recall any other possible details with regard to the above, he would contact the source.

He could not recall any further details of his trip and the young American and was apologetic for not being able to do so. He stated that, if the incident regarding the

young American at the "Mexican Immigration check station" had happened during the day, he would have sketched the young American's face, as he generally does when there is an incident, and, had he done so, others could have decided whether or not the young American was identical with OSWALD.

Addresses For VOORHEES

VOORHEES explained that on this occasion he took the bus to make desirable train connections to Kansas City, Kansas, traveling by train from San Antonio, Texas, to Kansas City and from there to the home of his daughter, Mrs. NANCY M. TOUHY, 886 West Army Trail Road, Addison, Illinois, 60101. Upon his return to the United States, he visits his daughter and can be located through her at any time.

He advised that when he is at San Miguel de Allende he can be reached by telephone during the day through RODOLFO PEREZ R., owner of the Auto Mercado Super Market, telephone number 33, which is located next door to Calle Masones No. 19, San Miguel de Allende, State of Guanajuato, Mexico, and he utilizes Post Office Box No. 200, San Miguel de Allende, for receipt of mail.

Efforts to Identity Other Passengers

VOORHEES could not identify photographs of JOHN BOWEN, also known as ALBERT OSBORNE. (JOHN BOWEN was a passenger aboard a bus operated by "Servicios Unidos Autobuses Blancos, Flecha Roja, S. A. de C. V." (The Unified Services of White Autobuses Red Arrow, Incorporated) on which OSWALD traveled from Laredo, Texas, to Mexico, D. F., on September 26-27, 1963.)

VOORHEES also was unable to identify the photographs of JUAN MATEO DE CUBA and ADA FRANCISCA BISLIP DE DE CUBA. (JUAN MATEO DE CUBA and his wife, ADA FRANCISCA BISLIP DE DE CUBA, were among the "aliens" who surrendered their tourist cards to Mexican Immigration upon their departure from Mexico at Nuevo Laredo on October 3, 1963, between 12:00 midnight and 8:00 AM.)

According to VOORHEES, the Mexican-American he talked with aboard the bus en route to Nuevo Laredo had a thinner face than that of JUAN MATEO DE CUBA.

The names of the following individuals on the passenger list of Bus No. 340 of the "Transportes Frontera, S. A. de C. V.," bus line for October 2, 1963, were exhibited to VOORHEES and he was unable to recognize any of these names as persons he might know:

FCO. SAUCEDO
OSWLD (OSWALD)
Sra. LANDEROS
ANDRIAN HERNANDEZ
JUANA
ANGEL GALLEGOS
Sra. MORALES
NICOLAS GONZALEZ
RAFAEL FLORES
GAUTIER ? (GANSTINE)
ANGEL PEREZ
ANTONIO CAZAREZ
Sra. AGUILAR
Sra. FRANCO
CONSTANTINO GARCIA
ELIASAR GONZALEZ
CONSTANTINO GARCIA
YNIGNES (INIQUEZ)

As noted above, the FM-5 No. 4325846 Mexican tourist card issued to VOORHEES has the word "tren" (train) typed toward the top, which must have been typed on this form when VOORHEES entered Mexico by train with this card, as he states he did.

The foregoing information from VOORHEES fully clarifies that he departed from Mexico on October 3, 1963, via a Transportes del Norte bus, and the FM-11 data to the effect that his exit from Mexico was by train is in error. This is further verified by the fact that Mexican Immigration employee ALBERTO ARZAMENDI CHAPA, who handled VOORHEES' departure, was at the Kilometer 26 highway checking station

during his tour of duty from 12:00 midnight to 8:00 AM on October 3, 1963, and not at a railroad station.

An examination of the March, 1964, issue of the Mexican "Guia de Transportes Aereo y Autotransportes de Mexico" (Guide for Air Travel and Automobile Transportation in Mexico), which is described as the "official publication in Spanish of airline and automobile bus schedules in Mexico," reflects on page nineteen that Transportes del Norte, which connects with Greyhound Lines, Union Bus Lines, Missouri Pacific Lines, and Winter Garden Bus Lines, between Canada and the United States and Mexico, has bus terminals located at Insurgentes No. 137 Sur, Mexico, D. F., and Juan Mendez No. 1355, Monterrey, Nuevo Leon, Mexico. This guide further reflects bus schedule No. 18 for "Mexico-Guadalajara-San Luis Potosi-Monterrey-Torreon, via Central (highway)," with daily departures of Transportes del Norte buses from Mexico, D. F. From a review thereof, it appears that VOORHEES must have traveled aboard the bus which follows the schedule recorded on page nineteen of the above guide and is copied hereinunder:

Leave Mexico, D. F., 8:30 AM

Arrive San Juan del Rio, Mexico, 10:45 AM
Leave San Juan del Rio, Mexico, 10:45 AM

Leave Saltillo, Mexico, 8:00 PM

Arrive Monterrey, Mexico, 9:30 PM
Leave Monterrey, Mexico, 10:00 PM

Arrive Nuevo Laredo, Mexico, 1:30 AM

The foregoing passenger list of Bus No. 340 of the "Transportes Frontera, S. A. de C. V.," bus line for October 2, 1963, was exhibited to VOORHEES for the purpose of establishing that he was correct in his statement that he traveled via Transportes del Norte bus line and that he was not confused with travel on a Transportes Frontera bus line. JUAN MATEO DE CUBA and ADA FRANCISCA BISLIP DE DE CUBA had been interviewed previously and recalled a "young American" who traveled with them on the bus and who had experienced some trouble making himself intelligible to a Mexican border official. They had stated that they believed their travel was by a Transportes Frontera bus, although subsequent inquiry established that they had traveled on the same Transportes del Norte bus as VOORHEES.

The confidential source abroad advised that on March 30, 1964, VOORHEES furnished the following additional data by telephone from San Miguel de Allende:

He was unable to recognize the following names of tourists who departed from Mexico at Nuevo Laredo on October 3, 1963, as being identical with the Mexican-American and wife who were aboard the bus with him:

AGAPITO DEL RIO
MANUEL CAPIZ
GUADALUPE CAPIZ
LAWRENCE LOPEZ
MARIA LUISA CRUZ DE LOPEZ
SALVADOR SEGOBIANO
MARIA SEGOBIANO
ROBERTO BALDAZO
DOLORES BALDAZO ROMERO
ROBERT L. TARIN
ELISABETH TARIN

He stated he had tried to recall the Mexican-American's name and had been unable to do so. He described him as being in his late fifties, tall, slender, and very well-dressed and his wife as also being very well-dressed.

By letter, October 23, 1964, J. Lee Rankin of the President's Commission referred a letter in French and requested a translation thereof.

This letter is addressed to the "Warren Commission," signed by Paul Hoefliger, postmarked Lausanne, Switzerland, and contains no return address. The letter is very incoherent. The meaning of many passages is not clear. The writer does not believe Oswald shot from the "Library"; he feels that the shots were fired from the railroad bridge; he condemns television, radio and the press and is critical of weak protection of the President.

ACTION:

Attached for approval is a proposed reply to Rankin's letter furnishing the required translation.

General Director

Dear Sir,

Your statement is (not*) 100% right.

1. Swiss newspapers and people do not believe and cannot believe the (interpretation of the*) affair of the assassination of President John Fitzgerald Kennedy, for the simple reason that they accuse the police force of Dallas and also (think*) that this assassination was thoroughly planned; also, people have told me not to believe that Lee Harvey Oswald fired from the Municipal Library of Dallas (sic*).

3 (sic*). The assassination of President Kennedy was openly done from the top of the railroad bridge or from its passageway, since he (Oswald*) did not wish to endanger the population of Dallas by firing from the Municipal Library; (he*) did not wish to risk the very lives of the population or of certain authorities.

4. Up there he had better protection and facility for firing from this spot on the bridge at the surrounding area and the police of the FBI did not search the vicinity where the range of the shot would have been most favorable or see the imprints of shoes at the location of the shot.

The world of today condemns television, the radio and the press for having shown and justified this assassination contrary to reality, such as it is, totally false; and your agency for finding a motive, approved 100% and satisfying the present-day world according to the investigation made among the people. But this is limited by an extenuating circumstance, as considered more or less, but the facts are what they are, according to your agency, and not the diversion, making the world believe that the location of the criminal shots was at the Dallas Library, that is, on its 5th or 6th floor.

The audacious and perverse thing is that it is believed that Lee Harvey Oswald could still have contacts among high authorities or those close to the Government of the United States.

5. The mistake was that the police of strict protection of President Kennedy became more and more weakened, and this conspiracy gave a green light to all possibilities of an assassination such as this one. (sic*)

6. It did not behoove the FBI to make an investigation of this kind; this police corps is too close to all the most sensitive information in the service of the State in Washington; it behooves the President of the United States to train 3,000 men, appointed strictly by the White House and not by the exterior or ulterior (sic*) police, for the police should be organized exclusively by the State.

7. The protection of Lee Harvey Oswald was not assured 100% but was simply for blackmail and glorifying of the television, press and radio; for anyone could kill him, even in front of policemen guarding him.

* Translator's Note.

The whole world is doubtful and more and more indignant at the flagrant and audacious injustice of our time and the times to come, and if this investigation was carried out according to the motivation, such as it could come up with, and with sincerity, reality and good sense, then it is not Jack Ruby who should have been arrested but, on the contrary, the one who proceeded to hide this affair, so sad and audacious, among the high authorities or those close to the Government. (sic*) Another thing, it should be underlined that the White House did not take care of checking and examining the individuals or doing a very thorough investigation of a man or no matter whom, to learn about his daily private activities and where and why this eventual travel abroad had outstanding importance. (sic*) Only when the White House proceeds to do this minute examination, will the day come when the assassination will be totally eliminated, for the peace of the Government and everybody else. (sic*)

The whole of Switzerland is profoundly moved by this terrible affair and prays for the security of the White House, so that this is not repeated again. Vigilance, ability and tenacity, prompt and rapid, and the most serious attention to the matters which are brought to light today are needed for this.

We are rendering an homage of sympathy again for President Kennedy and expressing a wish that the present era will develop more technical systems to bring an end to such atrocities.

Given and written in Lausanne, Switzerland, on September 28, 1964, with sincere and cordial greetings.

/s/ Paul Hoefliger

Finally, on the fate of Jack Ruby, of whom no one talks any more; we rather think would it not be unjust to simply kill him like an animal in a butcher shop, if you pardon the expression? (sic*)

Enclosed herewith for the Bureau is one copy each of FD-302 pertaining to an interview with Mr. and Mrs. WILLIAM THOMAS JOHNSON, an FD-302 pertaining to interview of HARRY RANDOLPH McCALL, and an FD-302 pertaining to interview of JOE WESLEY COE, as well as three inserts with miscellaneous background information. Twenty-five of each of the above are being furnished to the Dallas Office. In addition, there is being enclosed an excerpt from the column of WALTER WINCHELL from the October 13, 1964, edition of the "Los Angeles Herald Examiner."

The verification of employments at the Beverly Hills Ford, California Ford and Escobar Ford were set forth in the inserts in an effort to establish a time sequence inasmuch as JOHNSON and McCALL could not specifically recall dates of events which are pertinent in this investigation.

For the same reason records of the Sunset-Marquis Apartments and the Braemer-Besser Apartments were reviewed. McCALL has stated he was last employed at the California Ford, Glendale, before leaving for Dallas, Texas, and indicated that he resided at the Sunset-Marquis immediately upon his return to Los Angeles from Dallas.

The WALTER WINCHELL item which is enclosed as an exhibit is an excerpt from his column and was set forth in this fashion for brevity and clarity. REC-62 5218

By letter dated October 15, 1964, WALTER WINCHELL, well-known columnist from the "New York Journal American," furnished to the Director of the Federal Bureau of Investigation information which was furnished to Mr. WINCHELL by a [W. T. JOHNSON, an automobile salesman in Norwalk, California] Set forth is this information verbatim:

"Mr. [W. T. Johnson, who is an auto salesman in Norwalk,] called. Three days after KENNEDY's assassination, two men he knows returned to Los Angeles. Their names are McCULL and COE. McCULL was employed by the Lincoln Dealership in Dallas and saw OSWALD when he came in for the demonstration ride by BOGARD. McCULL said BOGARD drove the car and OSWALD asked about a deposit on the car and said he would have the money in ten days.

"After the assassination the FBI questioned McCULL, he quit, bought a Lincoln which he says was stolen before he left Dallas, he didn't make a report to the police because he had no insurance.

"COE who was not employed in Dallas was at the Texas Book Depository Building during the assassination.

[JOHNSON] knows both men to always be in need of money. They have skipped from hotels, etc. They returned to LA with ample funds. McCULL says he sold his house in the Bahamas which [JOHNSON] says he did have. [JOHNSON] knows that three weeks before the assassination the house was not for sale and believes it difficult to sell it so fast.

"McCULL is a disbarred attorney. McCULL and COE once had a contact club in Hollywood (where lonely people meet) and reopened another when they returned from Dallas. The first was called the Hollywood Contact Club. The second the West Coast Contact Club. They got in touch with [JOHNSON because they wanted to buy a car] [JOHNSON] recently tried to get in touch with them [because he had found a car for them.] He couldn't locate them.

Man About Town

★

The Warren Report gives attention to the following: That a Dallas car salesman named Bogard (and other staffers) recalled giving a demonstration ride to a person who said his name was Lee Oswald . . . The Commission probers decided not to accept their sworn testimony "because" Mrs. Lee Oswald told them "Lee could not have been at that car agency that afternoon because he could not drive a car" . . . The salesmen testified the man they identified (from newspaper photos) was Oswald and that he drove the car from 60 to 70 mph on the freeway.

★

This reporter wonders why the probers accepted the word of Oswald's wife against the several car salesmen, considering how often they recalled her because of alleged discrepancies, etc. . . . Isn't it true, Mr. Chief Justice, that a filmed interview with Mr. Bogard and other salesmen (one of whom was allegedly fired for tipping Feds) has not been made public? Because some lawmen allegedly requested the network not to use it? . . . Why is that?

★

Isn't it also a fact that Mr. Bogard and a staffer at that car agency offered to submit to a lie-detector polygraph test? . . . And that it was refused because "such a test is not admissible in court"?

How does the Warren Report explain the following clash of testimony? . . . Mrs. Lee Oswald told them her husband could not drive: the salesmen said Oswald drove fast and Mrs. Paine (Mrs. Oswald's companion) told the probers she had been giving Oswald lessons in driving and that "he was showing some improvement" by November???

Mr. [redacted] California [redacted] was interviewed [redacted] at the time of this interview was his wife [redacted]. At the outset of the interview Mr [redacted] stated that he was not very accurate in recalling dates and both he and his wife at times during the interview attempted to locate records to substantiate dates of various activities. However, they were unsuccessful in these attempts.

Mr [redacted] advised that he first meet HARRY McCALL when they were both employed at the Beverly Hills Ford Company on Wilshire Boulevard, Beverly Hills, California, as salesmen sometime during 1962.

Shortly thereafter McCALL left this position and told [redacted] that he was going into business for himself with a friend named JOE COE.

[redacted] was invited to visit McCALL's office and as he recalls the name of the business was the Hollywood Contact Club. This office was located in a fashionable apartment building near the Sunset Strip in West Los Angeles. It was [redacted] recollection that McCALL stated that this venture was being financed by a friend. [redacted] stated that the nature of this Hollywood Contact Club as he understood it was to be some sort of a lonely hearts club with the idea to arrange companions for both men and women. After a few months [redacted] stated that McCALL either called him or contacted him at which time he stated that his sponsor had left and the Hollywood Contact Club folded up due to lack of finances. [redacted] at that time was employed [redacted] advised that he was instrumental in securing jobs as salesmen for both McCALL and JOE COE at this agency. After a short time at this agency,

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

[redacted] stated that McCALL and COE decided they were going to leave California and stated they were going to Texas. During this period when they were employed at the Escobar Ford and before leaving for Texas, [redacted] stated it was apparent that they had very little money as they attempted to borrow some from [redacted] and other individuals.

[redacted] did not see or hear from these individuals again until one day shortly after the assassination of President KENNEDY he received a telephone call from McCALL. McCALL indicated that he was back in California and had re-established his former lonely hearts business. At McCALL's invitation [redacted] visited McCALL at their new office. He could not recall the exact address but stated it was near the location of their first office.

[redacted] indicated that to the best of his recollection this would have been in November 1963 after the assassination of President KENNEDY but before his burial. After thinking about this for a few minutes [redacted] stated that he could not be certain as to the exact time but indicated that it would have been probably within a two or three week period after the President's death.

On the occasion of this visit [redacted] stated that McCALL had mentioned that he had just returned from Dallas and the name of the new venture was the West Coast Contact Club. [redacted] stated that judging from the appearance of the office and the furnishings therein both McCALL and COE must have had a considerable amount of money. [redacted] related that he stated to McCALL that he must have been very successful in Texas to afford such an elaborate office. McCALL indicated that he had sold his home in the Bahamas and was using the money to finance this new business which he stated was to bring lonely people together as well as to try to arrange roommates for both men and women.

[redacted] stated that he doubted this very much as he recalled that before McCALL left for Texas he had mentioned that he owned this residence in the Bahamas and [redacted] doubted if it would have been possible to sell this piece of real estate and receive the money in that short a time.

On this occasion McCALL advised that while he was in Dallas he was employed as an automobile salesman at a Lincoln-Mercury Dealership and that while he was employed there LEE HARVEY OSWALD came in to purchase an automobile. According to [redacted] McCALL stated that he had seen OSWALD and it was [redacted] recollection that McCALL stated he had talked to OSWALD who was interested in purchasing a Lincoln Continental.

Further, McCALL stated that OSWALD was taken on a demonstration ride by a salesman at the agency and that both the salesman and OSWALD drove over the same route that President KENNEDY later traveled when he was assassinated. It was [redacted] recollection that McCALL stated that OSWALD did not have the necessary money to purchase this vehicle at the time but indicated that he would have it in about ten days. [redacted] did not know the exact name of the Lincoln-Mercury Dealership in Dallas, nor does he recall if McCALL ever mentioned the name of the salesman who apparently drove OSWALD.

In addition to the above, McCALL related to [redacted] that JOE COE was at the exact location at the time that President KENNEDY was assassinated.

According to [redacted] McCALL had stated to him in the past that he was [redacted] McCALL had mentioned to [redacted] further that he was formerly married but had received a divorce.

[redacted] stated further that from an unrecalled source he had heard that JOE COE was responsible for breaking up the marriage of McCALL and his wife. [redacted] said he never saw McCALL's wife and never heard her name. [redacted] also advised that he had also heard that McCALL was a disbarred attorney.

He described McCALL as a very well educated individual who had indicated that he had received a degree in psychology. He said he was a smooth talker.

[redacted]

LA 105-15823

During this conversation, McCALL further related that prior to leaving the Lincoln-Mercury Dealership in Dallas and returning to Los Angeles that he purchased a Lincoln Continental from the sales manager and that he paid for this vehicle in cash. [redacted] said that McCALL had indicated that this vehicle had been ordered by a customer but the customer never showed up to purchase the Continental. [redacted] recalls that he asked McCALL if he could see the car and McCALL stated that it was stolen in Dallas a few days after he purchased it. McCALL indicated that he had no insurance on the vehicle inasmuch as he paid cash. [redacted] could not recall if this alleged theft was reported to the Dallas Police by McCALL. While in Dallas it was [redacted] understanding that JOE COE was not employed. [redacted] stated it was common knowledge that [redacted]

Since this conversation with McCALL which [redacted] feels certain was in November, 1963, he stated that he has not heard from McCALL or COE nor does he even know if they are in the California area.

[redacted] stated that he gave no credence to this story which McCALL told him concerning the OSWALD incident at the Lincoln-Mercury Dealership until he read a column by WALTER WINCHELL in the October 13, 1964, edition of the "Los Angeles Herald Examiner." [redacted] had a copy of this article in his possession and exhibited it to the interviewing Agents.

Upon reading this article he called the Los Angeles Examiner and was given a telephone number to reach Mr. WINCHELL at the Los Angeles Ambassador Hotel. [redacted] stated he did not personally talk to Mr. WINCHELL but talked to one of his staff at which time he related the above story which McCALL told to him after returning from Dallas.

[redacted] stated that he now considers McCALL and COE's return from Dallas with what he considers a considerable amount of money shortly after the President's assassination somewhat strange. He stated that he has no concrete reason or explanation for this feeling but felt that it was his duty to tell it to someone. [redacted] said that he never did see any money nor did McCALL ever

tell him how much money he had but judging from the fact that they were practically penniless when they left Los Angeles to go to Dallas and apparently had a considerable amount of money when they returned, it was his feeling that this merited some investigation.

[redacted] requested that in the event HARRY McCALL and JOE COE were interviewed that his name not be furnished to them as the source of the above information.

HARRY RANDOLPH McCALL was located at his place of employment, the Hollywood Dodge Automobile Company, at 4620 Hollywood Boulevard. At the outset of the interview, McCALL professed a complete lack of ability to remember names, dates and figures, but volunteered that he had records at his residence which could give a better account of his personal activities.

Accordingly, the interviewing Agents accompanied McCALL to his residence at 1116 North New Hampshire, Apartment 3, Los Angeles, California. At this residence was JOE WESLEY COE. Interview was conducted with McCALL in the presence of JOE COE who at McCALL's request secured available papers to verify employments, residences and dates.

McCALL related that he and JOE COE went to Dallas, Texas, in approximately October 1963. He stated that prior to leaving for Dallas he had been working as an automobile salesman at the California Ford Company in Glendale, California. He mentioned that this had been his main employment in the Los Angeles area but that he had not been too successful in this field and they thought that perhaps a change of locale would bring about a change in their luck. In addition to his employments as an automobile salesman, McCALL stated that he and JOE COE opened the Hollywood Contact Club which he described as a lonely hearts club and that he operated this from his residence at 1200 Alta Loma Drive in Hollywood. He also stated that upon his return from Dallas he re-established the same type business and this time the name of this operation was the West Coast Contact Club. This was also operated from the Alta Loma address which is actually the Sunset-Marquis Apartment House, as well as the Braemer-Lesser Apartment House located at 8440 Sunset Boulevard. He stated that both ventures lasted approximately two or three months but were financial failures. He stated that he and COE pooled

what little money they had to form these ventures and that they had no other financial backing.

McCALL also related that a number of years ago he purchased a home in the Bahamas for $6000. Prior to going to Texas he sold this property to a CHARLES D. NORRIS for $3500. He advised that NORRIS was with the U. S. Air Force and was stationed in the Bahamas. McCALL stated that he sold this property for this amount of money mainly because it was termite infested and it was too far away for him to look after properly. McCALL advised that at the time of the sale he received $300 in cash and was to receive $200 per month in 16 monthly installments until the balance of the loan was satisfied. The sale was handled by CHARLES MOSS, Eleuthera, Governor's Harbour, Bahamas, where the property was also located.

McCALL advised that with this $300 and the prospect of $200 per month as a sustainer he felt that he and COE could manage until they became established or secured a job in Dallas.

They answered an advertisement in a Los Angeles newspaper and drove a 1960 Chevrolet which they obtained from a Beverly Hills Agency. This vehicle he recalled had a stick shift and they delivered this to a person whom he could not recall in Dallas. It was his recollection, however, that they were paid $50 for delivering this vehicle.

Shortly after arriving in Dallas, McCALL secured a job as a salesman with the Downtown Lincoln-Mercury Agency which was located on Commerce Street. He claimed that he never sold a car and never received any money while employed there. He advised that when President KENNEDY was assassinated and when it was broadcast over the radio that LEE HARVEY OSWALD was the individual who shot the President, a salesman whose name he could not readily recall advised him and most of the other salesmen at the dealership that he had seen OSWALD and that OSWALD had been into the agency to purchase a vehicle a week or so earlier.

He was asked if the name of this salesman could have been BOGARD. McCALL readily recognized the name and states positively that that was the name of the individual that he was referring to.

According to BOGARD, OSWALD drove over the same route that President KENNEDY subsequently traveled on the date he was assassinated, and that OSWALD drove very fast. The car in question

that was used on that date for the demonstration, according to McCALL, was a red Comet Caliente, Model 210, that had a four speed transmission. OSWALD reportedly had no money at the time but stated that he would have the money to pay cash for it in about ten days or two weeks.

According to McCALL, BOGARD recalled this episode specifically as they either ran out of gas or else BOGARD had to pay for gas upon their return since they had traveled such a distance on this demonstration ride. McCALL mentioned that it was customary for a test or demonstration ride to consist of a run of several blocks, but it was his recollection that BOGARD stated they were gone for approximately 45 minutes. To the best of his recollection, McCALL recalls that BOGARD at the time described where he and OSWALD had driven, but McCALL said that he was not familiar enough with Dallas to state the exact route that was taken.

Also BOGARD supposedly stated that after the demonstration ride he wrote the name of LEE OSWALD on a card and gave it to another salesman in the event that OSWALD came in while BOGARD was not present. McCALL said he does not recall the name of this salesman but believed him to be short in stature.

McCALL related that he had no firsthand knowledge of the above-described events. He also added that he could not state that he ever saw OSWALD. McCALL related that he specifically recalls that one of the salesmen who was present at the time that BOGARD was relating this story mentioned that this incident should be reported to the FBI. When it appeared that nobody was going to do so this individual himself called the FBI and reported the incident.

McCALL stated he was present at this time and stated that this individual turned to the sales manager and asked for his home telephone number. The manager wanted to know why he wanted this and the salesman answered that he was talking to the FBI and they wanted to know this information. Shortly thereafter a representative or representatives from the FBI came to the agency and questioned the sales manager and BOGARD. McCALL stated that he was not questioned by the FBI. When asked if this individual's name could have been LAWRENCE, MC CALL stated in the affirmative and he recalled that his name was JACK LAWRENCE.

According to McCALL, sometime later he left this agency and went to work for the Eagle Lincoln-Mercury Dealership in Dallas, Texas. McCALL was unable to recall the exact dates that he was in Dallas but feels that it was from approximately October 1963 until January 1964. He stated that JOE COE was never employed while in Dallas and he also related that both he and JOE COE resided at two residences. The only one that he could readily recall was the Chateau DeVille which he stated was across the bridge on the south side of town.

In January 1964, McCALL advised that he received approximately $1200 which was the balance of the loan from the sale of his home. He mentioned that he deposited this in the Mercantile National Bank, Dallas, Texas. He advised that he discounted the note.

With this money and since he had had no success in Dallas he and COE decided to return to Los Angeles.

He advised that they went to an agency which was located behind the Big D Auction Center and obtained a 1963 Comet which they drove to Los Angeles. He recalls that this was delivered to a small dealer in the Southwest section of Los Angeles.

McCALL stated he never purchased any vehicle while in Dallas since he had the use of a demonstrator which was given to him by his employers and it was his recollection these cars were also Comets.

Upon returning to Los Angeles, McCALL stated that he and COE resided at the Sunset-Marquis Apartments, 1200 Alta Loma, and re-established the West Coast Contact Club. He produced a receipt at this time which indicated that they rented this apartment on January 10, 1964.

As has been mentioned previously he stated they had limited success and moved from the Sunset-Marquis to the Braemer-Lesser Apartments as this afforded a better location on Sunset Boulevard.

They were evicted from this latter apartment as the manager stated they secured the apartment for a residence and not a business and therefore he evicted them.

McCALL stated that as a result of this eviction they lost their clientele and disbanded the business. For this business venture, McCALL stated that he utilized the balance of the $1200 from the sale of his property and also from income tax refunds of his and COE's.

Since that time, McCALL advised he has been employed at various agencies as an automobile salesman in the Los Angeles, California, area.

McCALL related that he mentioned the OSWALD incident, occurring at the Lincoln-Mercury Dealership in Dallas, to a Los Angeles man and he stated that he told this individual that he bought a Lincoln Continental in Dallas. He told this individual that he no longer had the Lincoln as it was stolen a short time after he purchased the vehicle and that it was a total loss since he had no insurance. McCALL stated that he mentioned this situation to this individual as he considered this person somewhat of a "big dealer" who in the past had tried to impress McCALL with his importance and also had tried to convey to McCALL the fact that he was somewhat wealthy. McCALL advised that he never told any individual that a salesman was the one that drove OSWALD on the demonstration ride and he also advised that he never told any individual that OSWALD had attempted to purchase a Lincoln Continental.

McCALL advised that he has not seen this individual since he related the above incident to him.

With regard to JOE COE, McCALL stated that COE has no personal knowledge of the affairs that took place in Dallas and he only knows what McCALL has related to him. This information is set forth above.

McCALL made available for perusal two documents relating to the property he had owned in the Bahama Islands. These "indentures" or deeds related, he advised, to the property he had sold. One indenture dated May 16, 1962, in the Bahama Islands, Governor's Harbour, Eleuthera, was from CHARLOTTE BLODGETT of San Diego, California, selling for $6000 to HARRY R. McCALL of Greenville, South Carolina, a minister of religion, certain described property. This document was notarized by ALICE L. JOHNSON, 2261 North Lake Avenue (no city given). With regard to the date of May 16, 1962, McCALL stated that although he had

purchased this property many years ago he had not been able to obtain a deed for it even though he had gone so far as to try legal action to get the deed. However, suddenly CHARLOTTE BLODGETT voluntarily furnished him with a deed to the property.

The second indenture was dated June 10, 1963, and was between HARRY R. McCALL of Los Angeles, California, and CHARLES D. NORRIS, selling to NORRIS the property described in the previously referred to indenture for $3500. It was indicated there was to be an initial payment of $300 with the remaining $3200 to be paid in 16 equal monthly installments.

WILLIAM CERVENAK, Major, U. S. Air Force, witnessed this document for NORRIS while JOE W. COE witnessed the document for McCALL.

McCALL also produced a deposit slip which reflects that on January 8, 1964, a sum of $1196.41 was deposited in the Mercantile National Bank in Dallas through the Citizens National Bank, Leesburg, Florida, account number 06046.

McCall also produced two canceled checks of the Sunset-Wetherly Branch of the Bank of America which reflects that on January 9, 1964, the sum of $600 was obtained from the Mercantile National Bank in Dallas and on January 10, 1964, the sum of $590. These transactions were handled by mail.

McCALL produced a record which reflects that he served in the U. S. Navy from June 11, 1943, until May 10, 1947, at which time he received an honorable discharge as a radio electrician's mate, second class. His Navy serial number was 829-48-69.

McCALL voluntarily advised that he was a graduate from Furman University, Greenville, South Carolina, where he received an AB degree in Psychology in 1951. He also stated that he was an ordained minister having graduated from the Southeast Baptist Theological Seminary in Wake Forest, North Carolina. McCALL stated that he had formerly been married to BARBARA LACKEY and that they had five children. He stated that they were divorced in 1961 at Jacksonville, Florida.

JOE WESLEY COE advised that he resides at 1116 North New Hampshire Avenue, Apartment 3, with HARRY RANDOLPH McCALL. He stated that he is unemployed. COE advised with respect to the information furnished to the interviewing Agents by HARRY McCALL that he had no personal knowledge of this information and that everything he knows concerning the LEE HARVEY OSWALD incident was related to him by HARRY McCALL.

COE stated that on November 22, 1963, he was at his apartment at the Chateau DeVille in Dallas and that he did not see the assassination. He mentioned that he told one or possibly two individuals that he was an eye witness to President KENNEDY's assassination, but he avowed that this was not the truth. He stated he does not know why he related this information to these individuals and he stated that he is now extremely regretful that he did so.

With respect to COE and McCALL's return from Dallas to Los Angeles in a Comet automobile, it was COE's definite recollection that this dealership that they delivered the vehicle to was located in the south part of Los Angeles and he vividly recalls that they drove south on the Harbor Freeway to this agency. He stated that after they delivered the vehicle the owner's wife drove he and McCALL to a bus so that they could return to the Los Angeles area.

They were evicted on June 7, 1964, inasmuch as LAW stated that they secured the apartment under false pretenses. He advised that COE and McCALL were operating the West Coast Contact Club from their apartment which was in violation with their lease. He stated that their records show that as of April 8, 1964, McCALL's bank account at the Sunset-Wetherly Branch of the Bank of America was in low three figures. LEE HARVEY OSWALD

RE: Allegation that Lee Harvey Oswald Resided in Baltimore, Maryland, for Two Weeks in August, 1963

By letter dated October 23, 1964, the United States Civil Service Commission, Bureau of Personnel Investigations, Washington, D. C., forwarded to the Headquarters of the Federal Bureau of Investigation (FBI), Washington, D. C., a memorandum containing an allegation that Lee Harvey Oswald had resided in Baltimore, Maryland, for two weeks in August, 1963.

The memorandum explained that at 3:30 PM, on October 13, 1964, United States Civil Service Commission Investigator Patrick F. Pallaro was conducting a neighborhood investigation at an apartment house at 915 St. Paul Street, Baltimore, Maryland, concerning another individual. The landlady at this address, a Mrs. Catherine Tarsia, and Mrs. Georgia Ward, her housekeeper at the same address, were interviewed.

After the interviews, Mrs. Tarsia volunteered the information to the investigator that her housekeeper, Mrs. Ward, had seen Lee Harvey Oswald on television at the time of President Kennedy's assassination and recognized him as a man who had stayed in a room at their place for about two weeks in August, 1963. The investigator asked Mrs. Ward why she was so certain this man was Lee Harvey Oswald. Mrs. Ward stated that she recognized Oswald so quickly because she had seen him frequently during the two week period, as he rarely left his room and seemed to have no particular activity or job.

RE: Allegation that Lee Harvey Oswald Resided in Baltimore, Maryland, for Two Weeks in August, 1963

Both Mrs. Ward and Mrs. Tarsia stated that Oswald had apparently used an alias instead of his own name on the ledger of tenants. They said they had not received any inquiries and had not furnished this information to the police or to any Government agency.

The files of the Credit Bureau of Baltimore, Baltimore, Maryland, as checked on October 30, 1964, contained no information identifiable with Mrs. Tarsia or Mrs. Ward.

On November 2, 1964, Mrs. Katherine Tarsia, 915 St. Paul Street, Baltimore, Maryland, advised a Special Agent of the FBI that she rents apartments and rooms in this three floor row house. She said that she recalled having told an investigator of the United States Civil Service Commission that Mrs. Georgia Ward, her Negro maid, had made the comment after seeing Lee Harvey Oswald on television that Oswald was identical with a man who had rented a room for two weeks at her place in August, 1963. She said that she herself had been employed at the time and that she had never seen this individual. She said that she had no other information concerning him and had no reason to believe that the man who had stayed in her room number 12 was actually Oswald other than the comment made by Mrs. Ward. She said she realized that many people look like other people and that she believed Mrs. Ward was only certain that the roomer looked like Oswald but had no further indication that Oswald had actually stayed at this location. She, therefore, had not felt it worth-while to report this comment previously to any authorities.

On November 2, 1964, Mrs. Georgia Ward, 904 Penrose Avenue, Baltimore, Maryland, was interviewed by a Special Agent of the FBI at her place of employment as a maid at 915 St. Paul Street, Baltimore, Maryland. Mrs. Ward stated that she recalled seeing Lee Harvey Oswald on television after his arrest for the assassination of President Kennedy in November, 1963.

She said that he looked so much like a man who had resided in room 12 at 915 St. Paul Street for two weeks in August, 1963, that she had made the comment that it was the same man. She said that the man in room 12 had not seemed to have been employed since he spent so much of his time in the room. She said that she had no further reason beyond his appearance to think that he could have been Oswald. She also added that she realized a lot of people look like other people and that the man who stayed in room 12 could easily have been someone else who merely looked like Oswald.

Mrs. Ward pointed out the name of the man, who resembled Oswald, on the tenants register. This name had been signed as [redacted] According to this register, this individual had stayed in room 12 from August 24, 1963, to August 30, 1963.

On November 2, 1964, [redacted] Pikesville, Baltimore 8, Maryland, advised a Special Agent of the FBI that [redacted] who had stayed at a rooming house in the 900 block St. Paul Street in August, 1963, is her son. She explained that her son had been in a mental institution and had therefore experienced some problems including difficulty with holding any job for any amount of time. She said that the occasion when he stayed at the rooming house on St. Paul Street was one of the times that he left home with the intention of maintaining a separate residence. He had lost his job almost as soon as he had left home and had therefore spent most of his time in his room at the rooming house.

[redacted] stated that she and her husband had gone to the rooming house to pick up their son and return him to their home in the Pikesville area.

RE: Allegation that Lee Harvey Oswald Resided in Baltimore, Maryland, for Two Weeks in August, 1963

[redacted] explained that her son is of the same general build and appearance as Lee Harvey Oswald and that she could understand how someone could have mistaken him for Oswald under those circumstances. She said he had not had any association with Oswald and that neither he nor she had any information concerning the assassination of President Kennedy.

Re Bureau airtel to Baltimore, dated 10/29/64, captioned, "LEE HARVEY OSWALD. IS-R-CUBA."

Mrs. KATHERINE TARSIA, 915 St. Paul Street, Baltimore, Maryland, was interviewed on 11/2/64 by SA J. STANLEY ROTZ concerning allegation that LEE HARVEY OSWALD was identical with a man who had stayed at her rooming house in August, 1963. This allegation proved to be unfounded when the tenant was shown to be another man currently living in the Baltimore area.

Mrs. TARSIA explained that she herself is a very "nosey" sort of person and that she likes to talk to people whether she knows them or not. She said she frequently goes up to men or women on the street and talks to them freely concerning anything which may interest her at the moment.

Mrs. TARSIA said that she had mentioned to a United States Civil Service Commission investigator an incident which occurred when she was employed at a local beauty shop. She said that this

THE PRESIDENT'S COMMISSION
ON THE ASSASSINATION
OF PRESIDENT KENNEDY

PURPOSE:

To recommend the attached letter be sent to Assistant Attorney General Miller advising the data concerning the assassination and the Lee Harvey Oswald investigation developed subsequent to the termination of the President's Commission will be disseminated to the Department.

DETAILS:

By letter 9/23/64 we asked the Commission to whom we should send our investigative results in connection with the above matters.

By letter 10/15/64 J. Lee Rankin advised in part "I have been instructed to advise you that these matters should be handled, insofar as the Commission is concerned, the same as any other investigation involving law enforcement." Rankin's letter continued the Commission's responsibilities, "except as to closing out its operations and the publication of its hearings and exhibits, were terminated" on 9/24/64 when its report was delivered to the President.

In connection with the Lee Harvey Oswald investigation, the approved memorandum Branigan to Sullivan dated 12/19/63 captioned "Lee Harvey Oswald, Internal Security - Russia" recommended that since we furnished the Department the summary which was sent to the Commission and since investigative reports are being furnished to the Commission, we would not send these reports to the Department or any other agency. Inasmuch as our reports on Oswald have been furnished to the Commission for its evaluation and use in the preparation of its report on the assassination, it is not deemed necessary to furnish these hundreds of reports to the Department

Memorandum to Mr. Belmont
RE: THE PRESIDENT'S COMMISSION

With reference to the investigation captioned "Assassination of President John Fitzgerald Kennedy, November 22, 1963, Dallas, Texas, Miscellaneous - Information Concerning," we received numerous complaints, remarks and threats made by individuals which included their feelings concerning President Kennedy, the former Attorney General, other officials and the policy of the administration. Included were allegations that persons other than Lee Harvey Oswald were involved in the assassination. Therefore, these miscellaneous type reports were furnished to the Department. The Jack L. Ruby investigation was conducted at the request of the President's Commission and the Department based on a possible violation of Oswald's civil rights. Reports have been disseminated to the Department as done in all civil rights cases.

In view of Rankin's letter it appears desirable that reports containing miscellaneous type information relating to our continuing investigation of the assassination as well as the results of our continuing investigation of Oswald be furnished to the Department.

It is proposed that in the future when miscellaneous type reports and reports entitled "Lee Harvey Oswald" are received they will be furnished to the Department following review. If deemed necessary, they will also be furnished to other appropriate agencies of the Government, such as Secret Service, Central Intelligence Agency, etc. where such agencies might have an interest in the data reported. Since the Commission did not designate any authority to whom our reports should be disseminated the following is recommended:

RECOMMENDATIONS:

1. The attached letter be furnished to Assistant Attorney General Miller advising we will disseminate reports to the Department.

2. Pertinent reports will be disseminated to other appropriate agencies of the Government where such agencies might have an interest in the data reported.

3. You will be kept fully advised of any pertinent developments in these investigations.

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

By letter dated 4/6/64 we transmitted to the President's Commission answers to thirty specific items which the Commission desired answered by the FBI. Such questions largely dealt with our investigation of Lee Harvey Oswald prior to the assassination of President Kennedy. An original and one clear, clean xerox copy containing answers to these thirty questions were furnished to the Commission as enclosures to our 4/6/64 letter.

On 11/3/64 Miss Helen Tarko, a secretary at the President's Commission, contacted Supervisor Robert E. Lenihan and asked if the Bureau could make available to the Commission a new copy of the memorandum answering the thirty questions. She stated the Commission had mislaid the original and clean copy previously furnished the Commission by the Bureau and all she had at hand was a carbon copy that had been reproduced at the Commission from the original and it had been defaced and marked so that it could not be used for mass reproduction. She indicated the Commission desired to use this document as back-up data to its report. Supervisor Lenihan checked the file and tickler copies of the thirty questions and noted that all contain markings which would make it undesirable to reproduce such copies and furnish same to the Commission. Supervisor Lenihan contacted Miss Tarko and explained this situation to her and suggested, if deemed necessary, the Commission might desire to retype the copy of this document in possession of the Commission in order to serve the needs of the Commission. Miss Tarko stated the Commission would do this but first she planned to conduct additional research to find the previous data the Bureau had furnished since she felt someone at the Commission had mislaid such data.

NOTE: The Commission by letter 10/30/64 furnished us a letter written by Wojciechowski in phonetic English. It was necessary to have the Cryptanalysis and Translation Section decipher this material in order to obtain some sense from it. The interpreted letter is still incoherent, rambling and contains no specific information of value other than it appears that Wojciechowski is a Canadian citizen, former Polish soldier and that he does not believe that President Kennedy was killed by Oswald alone. He requests that he be contacted by an intelligence agent in a "secret" manner so that he can furnish the information he has. He furnished photographs of himself and it would appear he is suffering from a mental illness. There is no apparent need to contact him and no further action in this matter is recommended.

On 10/13/64, Mrs. GLADYS DAVIS, who maintains residence with her husband, KELLY DAVIS, 3619 Murworth Street, Houston, Texas, telephone MO 6-4757, advised she is currently staying in care of her mother at 6312 Filmore Street, Hollywood, Florida. Mrs. DAVIS advised she divorced ANTONIO MARIA MARTINEZ MALO, a naturalized U.S. citizen of Cuban birth, in 7/62. She said she retained custody of their two children, and MARTINEZ MALO had visitation rights. She said that in 8/64, MARTINEZ MALO came to Houston and returned to Miami with their two children, whom he was to keep for 30 days. After 60 days had transpired and she was unable to locate MARTINEZ MALO or the children, she filed kidnapping charges against MARTINEZ MALO through the local authorities in Houston. She said she is presently staying in Hollywood, Florida, in an effort to assist the local authorities at Miami in locating her children. She advised that Sergeant PAUL ROSENTHAL of the Dade County Sheriff's Office, Miami, Florida, is handling the investigation, based on the warrant which was forwarded from Houston.

Mrs. DAVIS related that at the time of the assassination of President KENNEDY, when she observed press and television pictures of LEE HARVEY OSWALD, she recognized the latter as having been a visitor to her home about August or September of 1959 or possibly 1960. She said that at that time she was living with

MARTINEZ MALO at 700 Saldona Street, Coral Gables, Florida. She stated the reason she had not previously brought this matter to the attention of the FBI was that her husband in Houston warned her not to do so, because of the investigation which would result.

Mrs. DAVIS said it was her recollection that this visit by the individual she believed to be OSWALD occurred about August or September of 1959. At that time, MARTINEZ MALO had numerous Cubans coming to their residence, and she recalled she was still unable to wear her dress clothes, because of the weight she had gained as of the time she gave birth to a child in 4/59. She said that a Cuban known to her as "MEXICANO" had brought the individual believed to be OSWALD to her home. She claimed she distinctly recalled that he was introduced as OSWALD. She further stated that on the following day, the "Miami Herald", a daily newspaper published at Miami, Florida, carried an article with a picture of the same individual she believed to be OSWALD on the front page. The article related to a riot or a brawl involving pro and anti-CASTRO elements at Miami.

A review of the Warren Commission report on the assassination indicates that LEE HARVEY OSWALD was in the U.S. Marine Corps stationed in California as of the Summer of 1959, and he was discharged from the U.S. Marine Corps during the first part of 9/59 at Santa Ana, California. He returned to his home in Fort Worth, Texas, as of 9/14/59, and sailed from New Orleans, Louisiana on 9/20/59, en route to LeHavre, France, and to Russia. He arrived back in the U.S. at Hoboken, New Jersey, on 6/13/62. From the

foregoing chronology, it would appear that OSWALD would have had to had taken leave from the U.S. Marine Corps to be in Miami during the Summer of 1959.

On 10/15/64, FRANCISCO RODRIGUEZ TAMAYO, also known as "MEXICANO", a Cuban exile residing at 2484 Northwest 29th Street, Miami, Florida, stated he was acquainted with ANTONIO MARIA MARTINEZ MALO, and during 1959 frequently visited MARTINEZ MALO at the latter's home, 700 Saldona Street, Coral Gables, Florida. He stated he had never brought any American to MARTINEZ MALO's residence, and stated emphatically that he never had contact with LEE HARVEY OSWALD.

On 10/21/64, Mrs. GLADYS DAVIS was recontacted. She was shown a photograph of FRANCISCO RODRIGUEZ TAMAYO, and stated this was the same individual she knew as "MEXICANO". She was also shown a photograph appearing in an article on Page 1 of the "Miami Herald", issue of 7/5/64, which referred to a brawl among pro and anti-CASTRO elements at Miami. This article, entitled "RIOT SQUAD QUELLS CUBAN MIX", was accompanied by the photograph of then Cuban Consul ALONSO HIDALGO, and also a photograph of Havana, Cuba Mayor JOSE LLANUSA. Mrs. DAVIS stated this was not the photograph she recalled having seen in the "Miami Herald", and which she believed to be of the individual who had visited her Coral Gables residence and whom she believed to be OSWALD.

It is to be noted that "Miami Herald" issues of 7/1-9/30/59 were reviewed on 10/14/64, and the article and picture of HIDALGO is the only item which generally fit the description of the article referred to by Mrs. DAVIS.

It is believed that no further investigation of this matter is warranted, since there is and has been no evidence that OSWALD had ever been to Miami, and with respect to Mrs. DAVIS' allegation, FRANCISCO RODRIGUEZ TAMAYO [redacted] states he has no knowledge of OSWALD. It is believed that Mrs. DAVIS, who was also formerly married to Dania, Florida Police Chief MONTY SMITH, is motivated in her contact with the FBI at this time by the hope that the Bureau could assist her in locating her two children. In this connection, Sergeant ROSENTHAL of the Dade County Sheriff's Office has contacted the Miami Office for background concerning ANTONIO MARTINEZ MALO. MARTINEZ MALO was the subject of Miami file 105-1968. Sergeant ROSENTHAL advised that MARTINEZ MALO is believed to have taken the two children to Venezuela. He has been informed of the address of MARTINEZ MALO's mother, MARIA TERESA MORA GONZALEZ, at 1605 Lecuona Street, Tampa, Florida.

A copy of this letter is furnished Houston, in view of Mrs. DAVIS' residence in Houston, and the possibility she may contact the Houston Division.

No other investigation is currently pending at Miami, and this case is considered RUC.

Title: LEE HARVEY OSWALD

Character: INTERNAL SECURITY - R - CUBA

Synopsis: Mrs. ECLIPSE ROLAND SUTTON, an ordained minister of the House of Prayer Mount Zion Full Gospel Church, Phoenix, states two men came to her home in Phoenix about 11/1/63, and told her they wanted her to vote. Mrs. SUTTON states she told them she did not vote and did not register and that she loved everybody. These men explained they lacked 641 votes from "getting the President out of office." They did not identify who or what President they were talking about. Mrs. SUTTON claimed to have had a dream two weeks before, in which she had killed all but one snake at a big white house and that this one snake had a face like President LYNDON B. JOHNSON. After the assassination of President JOHN F. KENNEDY, she saw pictures of OSWALD in the newspapers and JACK RUBY on television. After seeing these pictures, she felt the two men who came to her house were OSWALD and RUBY. She reported this fact to the Phoenix Police Department and Attorney General ROBERT F. KENNEDY right after the assassination and also to Chief Justice EARL WARREN right after Christmas. She also claims she wrote to Judge BROWN, who was the judge in the local case against RUBY. Mrs. SUTTON states these two men did not go to other neighbors' houses; that she has dreams which come true; that her neighbors do not like her and feel she is crazy; and that her neighbors, who are Negroes, blame her for ROBERT F. KENNEDY's not running as Vice President with President JOHNSON as she wrote and told him not to. Mrs. SUTTON is unable to identify pictures of RUBY and OSWALD as the two individuals who came to her house.

Details:

On October 30, 1964, Officer JOHN ASHMAN, Badge 423, Phoenix Police Department, Phoenix, Arizona, advised ASAC J. JAMES ROWAN that he had been fixing up a house in Scottsdale, Arizona. At this house he met a Mrs. E. R. SUTTON, an ordained minister of the House of Prayer Mount Zion Full Gospel Church, whose home address is 3643 East Anne, Phoenix. Mrs. SUTTON told ASHMAN that about three weeks prior to the assassination of President KENNEDY, two white males came to her home and stated they needed 600 or more signatures to have President KENNEDY removed from office. Following the assassination, photographs of LEE HARVEY OSWALD and JACK RUBY appeared in newspapers. Mrs. SUTTON now believes that the two persons who came to her house were OSWALD and RUBY. Mrs. SUTTON reportedly furnished this information to Attorney General ROBERT F. KENNEDY; Chief Justice EARL WARREN; and the Federal Bureau of Investigation.

FD-302 (Rev. 1-25-60)

FEDERAL BUREAU OF INVESTIGATION

Date November 4, 1964

Mrs. ECLIPSE ROLAND SUTTON, 3643 East Anne, Phoenix, Arizona, furnished the following information:

At about 10:00 or 10:30 a.m., on about November 1, 1963, two men walked up in front of the gate to Mrs. SUTTON's home and called for her to come to the gate. Mrs. SUTTON explained that she was getting ready to go to work as a maid for Mrs. JOYCE BUELL, 1704 East Sierra Vista, Phoenix, and had the front door of her house open. She believed that they called her by name, but she was not certain.

Mrs. SUTTON walked to the front fence gate. The shorter of the two men, who was wearing a black suit, told her that they wanted her to vote. Mrs. SUTTON replied, "Praise be to Jesus. I don't vote. I love everybody. I don't even register. I don't know anything about voting." Mrs. SUTTON stated that she had promised her mother that she would never vote. Mrs. SUTTON further explained that she is a minister of the House of Prayer Mount Zion Full Gospel Church, and that her church is next to her house. This is a very small shed-type building about ten feet square. The man then explained that they lacked 641 votes from "getting the President out of office."

Mrs. SUTTON stated that the two men did not specifically say who the President was, if they were referring to President JOHN F. KENNEDY, or the President of any local organization. No further mention was made as to how they intended to get the "President" out of office.

The two men then asked for a drink of water. Mrs. SUTTON said, "Thank you, Jesus. Jesus said to give the little ones a drink of water." Mrs. SUTTON went into the house and got a picture and two glasses and gave them a drink. One of the two men asked about the little "House of Prayer" beside Mrs. SUTTON's house. Mrs. SUTTON replied, "We pray for all people. I am going to say a prayer for you."

The man with a black suit then told Mrs. SUTTON he was Puerto Rican, and then indicated that they wanted to get rid of "the President" as they had another President they wanted to put in his place.

Mrs. SUTTON then related that she often has dreams and that about two weeks before the two men came to her home, she dreamed that she was at a big white house and was killing snakes. She thought she had killed all of the snakes, but another person who was present said that one was still alive. Mrs. SUTTON looked at this snake and saw that it had the face of President LYNDON B. JOHNSON. Mrs. SUTTON related this to a Mother GRACE JONES who lived nearby. Mrs. JONES, however, died two weeks ago.

Mrs. SUTTON contacted other neighbors, but none had seen these two men and they had not come to their homes. Mrs. SUTTON further volunteered that her neighbors don't like her as she won't "get a man." Mrs. SUTTON stated that she was married to EARL SUTTON and lived with him in California. About sixteen (16) years ago they separated when he objected to her joining the Pentacostal Church. About four years ago they were divorced.

Mrs. SUTTON described the two men as follows:

MAN WITH BLACK SUIT

Age	30 years
Height	5' 6"
Weight	160 pounds
Hair	Black, long - heavy head of hair
Eyes	Unknown
Distinguishing Characteristics	Nice looking young man

MAN WITH WHITE SHIRT

Age	35 years
Height	5' 7", or perhaps taller
Weight	Not as heavy as other man
Hair	Dark black - combed straight back
Distinguishing Characteristics	Looked a little like Governor PAUL FANNIN, State of Arizona.

PX 105-1529
CWE:dsn

Mrs. SUTTON believed they had some papers in their hands, and possibly these papers were petitions. She never looked at these papers.

After the assassination of President JOHN F. KENNEDY, she noticed the picture of LEE HARVEY OSWALD in the newspapers, and also saw JACK RUBY on television. She believed from the looks of these two persons that they were the two men who came to her home asking her to vote.

Mrs. SUTTON stated that she had called the Federal Bureau of Investigation the same date that these two men came to her home and asked what they were doing seeking votes. The person with whom she talked did not know.

After the assassination of President KENNEDY, she called the Phoenix Police Department. Two white officers in uniforms came to her home, at which time she related the story about the two men coming to her house. These officers took no notes, and as they left, one of the officers stated she was "camouflag," which, according to a neighbor, meant she was lying. Mrs. SUTTON stated that she thought "camouflag" meant darkness.

After these two white police officers came to her house, the neighbors criticized and "cussed her out" for bringing the police into their neighborhood, which is a Negro neighborhood.

Also, shortly after the killing of President KENNEDY, she wrote a letter to Attorney General ROBERT F. KENNEDY. She could not find his answer, but did find a letter from Mr. KENNEDY in answer to a letter she had written to him stating that Mrs. SUTTON was going to pray for the healing of his brother, Senator TED KENNEDY, who had been injured in an airplane crash.

Sometime after Christmas, 1963, she wrote to Chief Justice EARL WARREN, reporting that she believed that OSWALD and RUBY were the two men who came to her house about November 1, 1963. She asked Chief Justice WARREN to ask RUBY if he was not the one who was at her home. Just before she wrote this letter, Mrs. SUTTON had read that Justice WARREN was going to Dallas, Texas, to talk with JACK RUBY.

CWE:dsn

Mrs. SUTTON claims she met Justice WARREN in Bakersfield, California, many years ago, and that her husband knew him.

Mrs. SUTTON also said she wrote to Judge BROWN, who was trying the case against JACK RUBY.

Mrs. SUTTON stated that the neighbors don't like her and that they think "I am crazy." The neighbors now state that she was to blame that ROBERT F. KENNEDY did not run as the Vice Presidential candidate with President JOHNSON. The neighbors believed that President KENNEDY was sympathetic to "our race," which is the Negro race. Mrs. SUTTON pointed out that her neighbors, who are Negroes, felt that ROBERT F. KENNEDY would follow in his brother's footsteps and would help the Negroes. The neighbors claim that, "I wrote to ROBERT F. KENNEDY and told him not to run." Mrs. SUTTON stated that she denied writing such a letter.

Mrs. SUTTON stated that she was permanently and totally disabled, and was receiving aid from the Department of Public Welfare for the State of Arizona. Her disability is that she has heart trouble. She further indicated that she dreams all the time, and that her dreams come true.

Mrs. SUTTON exhibited the February 14, 1964, issue of "Time Magazine," and pointed out the pictures of OSWALD and RUBY which appeared therein as resembling the two men who came to her home. She was exhibited about ten photographs of various people, among which were photographs of LEE HARVEY OSWALD and JACK RUBY. She was unable to pick out the pictures of OSWALD and RUBY as resembling the two men who came to her home. She did pick other persons out as resembling the two men.

The "Washington Post" for October 3, 1964, carried an article on page 1 entitled "'Police-State Security' Hit By Hoover." This article reports that "Hoover testified that a State Department report indicated this man was a thoroughly safe risk.'" The article also reports that the State Department took issue with Mr. Hoover's description of the report and quotes State Department as saying "a thorough search discloses no Department of State report concerning Lee Harvey Oswald which states or in any way implies that he was "a thoroughly safe security risk" and that "its files on Oswald were "available for inspection." The article in question is attached.

In accordance with the Director's request, the following is set forth regarding the Director's testimony in this regard and the true facts of this situation:

Director's Testimony

The Director testified before the President's Commission on May 14, 1964. Page 6541 of the testimony published by the Commission discloses that Mr. Rankin requested that the Director furnish the Commission his comments concerning the reasons why the FBI did not furnish information it had concerning Lee Harvey Oswald to the Secret Service prior to the time of the President's assassination.

In reply to this question Mr. Hoover stated that he had gone into that very thoroughly because this obviously was one of the questions that he had in mind when the tragedy occurred in Dallas. Mr. Hoover then stated as follows:

"In going back over the record, and I have read each one of the reports dealing with that and the reports of Mr. Hosty who had dealt with the Oswald situation largely in Dallas, we had the matter that I have previously referred to, the report of the State Department that indicated this man was a thoroughly safe risk, he had changed his views, he was a loyal man now and had seen the light of day, so to speak.

"How intensive or how extensive that interview in Moscow was I don't know. But, nevertheless, it was in a State Department document that was furnished to us."

Basis of Director's Testimony

The Director's testimony before the President's Commission wherein he testified that "the report of the State Department that indicate this man was a thoroughly safe risk" appears to have been based upon data we had received from the State Department during the course of our investigation of Lee Harvey Oswald. This data was contained in a foreign service dispatch from the American Embassy to the Department of State, Washington, D. C., dispatch No. 29, dated July 11, 1961. This dispatch set forth a summary of Lee Harvey Oswald's visit to the American Embassy in Moscow on July 8, 1961, wherein he requested to return to the United States with his wife. This dispatch sets forth the following paragraph relating to Oswald as noted by the American Embassy interviewing official, Mr. Snyder.

"Twenty months of the realities of life in the Soviet Union have clearly had a maturing effect on Oswald. He stated frankly that he had learned a hard lesson the hard way and that he had been completely relieved of his illusions about the Soviet Union at the same time that he acquired a new understanding and appreciation of the United States and the meaning of freedom. Much of the arrogance and bravado which characterized him on his first visit to the Embassy appears to have left him. He stated that he is in contact with his mother and a brother in the United States. He stated that he had about 200 rubles and that he and his wife would save more for eventual costs of traveling to the United States."

State Department records reflect that Oswald executed an application for renewal of his United States passport on May 24, 1962, and such passport was renewed "valid only for direct return to the United States." Oswald was also given a loan in the sum of $435.71 to finance the transportation of he, his wife and child to the United States.

Analysis

The Director in his testimony before the Commission did not quote from a State Department document when he testified that the report of the State Department "indicated this man was a thoroughly safe risk, he had changed his views, he was a loyal man now and had seen the light of day, so to speak." The Director was summarizing for the Commission the data that appeared in the State Department memorandum prepared by Mr. Snyder mentioned above. Anyone reading Mr. Snyder's comments would

arrive at the conclusion that Oswald was a thoroughly safe risk and certainly did not pose a threat to the President of the United States. In addition, it must be noted that the State Department renewed Oswald's passport for return to the United States and gave him a loan for his transportation. Obviously State Department would not have taken such action if it considered Oswald any type of risk.

This is further borne out by the fact that when Oswald requested a new passport for travel abroad on June 24, 1963, wherein he indicated he planned to stay abroad for from three months to one year and to visit England, France, Germany, Holland, Russia, Finland, Italy and Poland, State Department saw fit to issue him a passport for such travel on the following day, June 25, 1963. Obviously State Department did not consider Oswald a risk in issuing him a passport on this occasion.

President Must Face Some Risks, Warren Panel Told

By George Lardner Jr.
Staff Reporter

Strict security measures to protect the President could easily slip over the line into police-state tactics, FBI Director J. Edgar Hoover warned the Warren Commission.

Hoover told Commission members in testimony last spring that "certain chances have to be taken" in guarding against presidential assassinations without infringing on individual rights.

"I don't think you can get absolute security without al-

most establishing a police state," the FBI chief testified, "and we don't want that."

In its report on President Kennedy's assassination, the Warren Commission was critical of both the FBI and the Secret Service for their security arrangements.

Precautions Recommended

The Commission recommended tighter precautions for presidential motorcades. It also noted that the FBI had stepped up its reporting of potential security risks to the Secret Service after the assassination.

But the Commission also acknowledged that it could "recommend no procedures for the future protection of our Presidents which will guarantee security."

While the Commission report criticized the FBI for lack of alertness in failing to consider Lee Harvey Oswald "a potential threat" to the President, Hoover testified that a State Department report "indicated this man was a thoroughly safe risk." The FBI did not tell the Secret Service

what it knew of Oswald before the assassination.

The FBI chief's testimony before the Commission has not yet been officially released, but became known yesterday. It was first published in The Washington Star.

Oswald Interviewed

Hoover said the State Department report he referred to came from the United States Embassy in Moscow where Oswald was interviewed before he reutrned to this country.

The State Department, however, took issue with Hoover's description of the report.

"A thorough search discloses no Department of State report concerning Lee Harvey Oswald which states or in any way implies that he was 'a thoroughly safe security risk,' the Department said in a statement, adding that its files on Oswald were "available for inspection."

Hoover said the FBI had interviewed Oswald several times after his return from Russia in May of 1962 but picked up "no information that would have warranted our reporting him as a potential danger to the security or the safety of the President or the Vice President . . ."

36 Defectors in U.S.

Under the FBI's new standards, however, Hoover said, the Secret Service is alerted on all defectors. He said there were 36 of them "that we know of" in the United States.

The FBI also turns over now the names of "subversives, ultrarightists, racists and fascists." Hoover said that 5000 names had been given the Secret Service during the first four months of 1964 and that another 4000 names were on the way.

At the same time, he felt that the original standards "were sound." Under the Old setup, Hoover said, "we limited the furnishing of names to persons potentially dangerous to the security of the President," including any one had threatened the President or Vice President.

Explaining that he was "not very happy" with the stepped-up flow of names, Hoover said that it led "pretty close to a house arrest" of some persons on a presidential visit to Chicago. He was apparently referring to a trip by President Johnson.

Local Police Used

The under[illegible]ed Secret Service, Hoove[illegible] called on local police[illegible]ials to help them out, but then the authorities in Chicago "went to the homes of some of these people, and it resulted really almost in a house arrest."

"We don't want that," Hoover said. "We don't want a Gestapo."

The FBI chief attributed the Chicago incident to "very bad judgment" but said this is bound to crop up from time to time so long as the Secret Service has to rely on local police officials.

October 28, 1964

Hon. J. Edgar Hoover, Director

SUBJECT: The assassination of President Kennedy --
A telephone call from Mrs. Marguerite Oswald
to Kent H. Courtney

Dear Mr. Hoover:

At approximately 5:45 PM on October 27, 1964, I answered my home telephone (University 5-1613) and a woman's voice introduced herself saying, "Is this Kent Courtney? This is Mrs. Oswald."

I did not know any Mrs. Oswald, so I said, "What are your initials?"

She replied, "I am the mother of Lee Oswald. My first name is Marguerite."

She then said that she wanted to know if I had ever had any personal contact with her son, Lee.

I answered that at no time had I any direct contact with her son.

I volunteered the information that the nearest contact I ever had was with Carlos Bringuiere, but I did not elaborate.

Mrs. Oswald then went on for several minutes in an apparently well-rehearsed statement in which she attempted to prove that her son was not the assassin of President Kennedy.

REC- 53

She pointed out what she considered several errors in the Warren Commission Report, while at the same time telling me that if her son had killed the President he would have been proud to tell everyone that he did and tell them why. At the same time she said that she was wrongly accused, that she did not alter her son Lee's birth certificate; but in a sort of double-talk she indicated that he might have altered the birth certificate.

EXP. PROC.

OCT 30 1964

At one point Mrs. Oswald asked me if my printing company had ever printed anything for the Fair Play for Cuba Committee. I told her that I had not printed anything, and that if he had come and asked me to print it I would have refused.

I have no idea why she called me or how she got my name, and I terminated the conversation as quickly as I could by repeating again, "I have had no personal contact with your son and therefore I don't think there is anything I can do for you."

I did volunteer the information that I thought the Warren Commission Report was incomplete and that I did hope after the election of Barry Goldwater that the new Congress would set up a special joint committee for further investigation into the assassination.

Knowing that Mrs. Oswald has been talking before audiences, arranged in some cases by individuals with Communist-front affiliations, and knowing that Mrs. Oswald is doing everything she can to confuse the issue, I would not be a bit surprised to see it reported that Mrs. Oswald might be saying things on the lecture platform claiming that she learned these things from me as a result of a telephone conversation with me, giving the hour, the date and time.

Therefore, this is the reason I am now informing you by this letter, and your Field Agents in Charge at the New Orleans and Dallas offices, concerning this conversation.

As you know, I have always made it a practice to send the Washington office and the local New Orleans office copies of all of our publications, and I wish to reaffirm the fact that we here at THE INDEPENDENT AMERICAN shall always support the Federal Bureau of Investigation in its effort to control crime and the agents of the international, atheistic Communist conspiracy.

The discrepancy on SEYMOUR photos will be brought to the attention of the Identification Division by separate communication.

The photos described in LHM, shown on October 1, 1964 to SYLVIA and ANNIE LAURIE ODIO, were shown together with photos of RONALD PONCE DE LEON, and Miami Beach, Florida Police Department photos [redacted] and [redacted]

In Miami LHM and cover letter dated September 26, 1964, CELIO CASTRO described an American male in Dallas with whom HALL and HOWARD left their trailer of equipment. CASTRO also said HALL visited an American woman in Dallas who had a 17 year old daughter.

During contact on September 30, 1964, [PSI] [redacted] advised that the American male is very probably LESTER LOGUE, a geologist with the firm Logue and Patterson, Meadows Building, Dallas. He said the American woman is probably GLORIA KOUTHART who lives in the Dorchester House at St. Joseph Street and the corner of a main throughfare in Dallas, Texas.

Interview of SYLVIA ODIO on October 1, 1964 was conducted by SAs LEMAN STAFFORD and JAMES J. O'CONNOR; she was cordial, expressed her desire to cooperate, and, although apparently a tense individual, gave no sign of being discomforted by the interview.

Further interview of ODIO in an effort to resolve her claim of visit by OSWALD, is not contemplated by Miami and will be conducted only upon request from the Bureau or Dallas.

LEE HARVEY OSWALD

It is recalled that SYLVIA ODIO has advised that on an evening in the latter part of September, 1963, she was visited at her apartment in Dallas, Texas, by two Cubans or Mexicans, accompanied by an American whom she believed to be LEE HARVEY OSWALD.

LORAN EUGENE HALL, upon interview on September 16, 1964 at Johnsondale, California, stated he had been in Dallas, Texas in September, 1963 in the company of LAWRENCE HOWARD and WILLIAM SEYMOUR, and has contacted many Cubans in the Dallas area, including a Cuban woman, a Mrs. ODIO, who lived in apartment A, located on Magellan Circle, Dallas in the same building with a Cuban friend of HALL, named KIKI FERROR. During a second interview on September 20, 1964, HALL stated that during his visit in Dallas in September, 1963, he was accompanied by LAWRENCE HOWARD and a Cuban whom he knew as "WAHITO," and was not accompanied at that time by WILLIAM SEYMOUR. He also said he recalled no contact with ODIO.

Upon interview at Los Angeles, California on September 20, 1964, LAWRENCE JOHN HOWARD advised that he accompanied HALL to Dallas, Texas in September, 1963 with a Cuban refugee named CELLIOS ALBAS who was also known by the name "QUARITO." HOWARD recalled no contact with a Cuban woman named ODIO at an apartment on Magellan Circle in Dallas.

WILLIAM SEYMOUR of Phoenix, Arizona, during interview on September 18, 1964, stated he and LAWRENCE HALL were in Dallas, Texas in October, 1963, rather than September, 1963, and SYLVIA ODIO was unknown to him.

COPIED

LEE HARVEY OSWALD

Review of record of Beach Welding and Supplies Company, Miami Beach, Florida, on September 22, 1964, confirmed WILLIAM SEYMOUR's employment with that company throughout the period September 5 to October 10, 1963.

On September 24, 1964, CELIO SERGIO CASTRO ALBA, employed at the South Florida Sugar Company, Belle Glade, Florida, stated he had traveled with LORAN HALL and LAWRENCE HOWARD from California to Dallas, Texas, to Miami, Florida in September, 1963, but he had not met any person at Dallas named ODIO, nor had he heard the name ODIO mentioned by HALL or HOWARD in Dallas.

On October 1, 1964, SYLVIA ODIO, presently residing at 1711 S.W. 83rd Avenue, Miami, Florida, stated she had moved to Miami from Dallas, Texas, with her four small children, about a week ago.

Mrs. ODIO was shown photographs of LORAN EUGENE HALL, taken at Wichita, Kansas on December 16, 1961; LAWRENCE J. HOWARD taken at Key West, Florida on December 4, 1962; WILLIAM HOUSTON SEYMOUR taken in March, 1959 at San Diego, California; and CELIO SERGIO CASTRO ALBA taken in November, 1961 at Miami, Florida.

Upon viewing the photographs of HALL, HOWARD, SEYMOUR and CASTRO, Mrs. ODIO stated that none of these individuals were identical with the three persons, including the individual she believed to be OSWALD,

who had come to her apartment in Dallas in the last week of September, 1963. She said she is not certain that she could identify photographs of the two individuals accompanying the one she believed to be OSWALD, because of the passage of time since the incident and because photographs sometime differ from the real appearance of an individual.

Mrs. ODIO added she did believe, however, she could recognize the individual who gave his name as LEOPOLDO. She indicated that the photograph of CELIO CASTRO was similar to the appearance of LEOPOLDO but that LEOPOLDO's hair line was receding at the temples. She also thought that the photo of CELIO CASTRO did not give the Mexican appearance that she recalled LEOPOLDO to have.

Mrs. ODIO stated she did not know anyone named KIKI FERRER, or FERROR, either resident in the apartment building at 1084 Magellan Circle, where she resided, or elsewhere. She stated there was a Cuban family of man, wife and two children with the surname MASFERRER, who also lived in the Crestwood Apartments on Magellan Circle, about 5 or 6 buildings down from the building in which Mrs. ODIO lived. She said that on occasion the Cuban families living in the Crestwood Apartments would have get-togethers and she recalled that on one occasion the son of the aforementioned MASFERRER became involved in a fight with another individual and the get-together deteriorated into a general disturbance to which the police were called. She stated she did not know the first name of Mr. MASFERRER.

Also on October 1, 1964, the photographs described hereinbefore were displayed to ANNIE LAURIE ODIO, younger sister of SYLVIA ODIO, who stated she had opened the door

of the ODIO apartment in Dallas to the three individuals including one believed to be LEE HARVEY OSWALD, who called at the apartment in the last week of September, 1964. ANNIE LAURIE ODIO stated none of the photographs appeared similar to the three individuals in her recollection.

When telephonically contacted on the morning of October 1, 1964 in order to arrange an interview, SYLVIA ODIO advised that she had an appointment at 11:30 AM that date with her doctor. The interview was then set for 1:00 PM. Shortly after making this arrangement for interview, Mr. MAURICE FERRE, a member of the FERRE family with extensive industrial holdings in South Florida and Puerto Rico, contacted the Miami Office of the Federal Bureau of Investigation to state he is a personal friend of SYLVIA ODIO. He wished to advise that ODIO was then under the care of Dr. IRWIN JACOBS, psychiatrist, at Miami, and had attempted suicide during the past week.

Today I received a long distance phone call from a Lieutenant Mulhern of the Suffolk County, New York, Police Department, requesting exhibits and "blow-ups" of the particularly significant documents related to the Oswald case. He did not specify which of the various Warren Commission exhibits he was interested in but was basing his inquiry on certain of the exhibits referred to in the Warren Commission report. Lieutenant Mulhern said he is preparing a paper or article dealing with documentary type evidence in connection with criminal cases and he felt the Oswald exhibits would be useful to illustrate his article. He stated he had considered having prints made from the photographs appearing in the published Warren Commission report but felt that by so doing he would lose a great deal of detail. He specifically inquired as to whether we were in a position to furnish him with such photographic exhibits.

I told him that inasmuch as technically all exhibits in this case were under the control and management of the Warren Commission that any such request should properly be directed to the Commission. He thanked me and stated he would correspond with the Commission.

By letter 10/15/64, Mr. Walter Winchell furnished his notes of a telephone conversation with one [redacted] reportedly had information relating to an article written by Mr. Winchell (10/13/64, issue of "Los Angeles Herald - Examiner") concerning the assassination.

In the article Mr. Winchell was somewhat critical of the Commission's handling of the allegation that Oswald had driven a demonstration vehicle at excessive speeds along the proposed presidential parade route in Dallas prior to the assassination. Mr. Winchell stated the Commission gave too much credence to statements made by Oswalds wife and not enough weight to other factors.

It would appear Mr. Winchell was not in possession of all the true facts before writing his article. It is pointed out this allegation has been thoroughly investigated and no credible evidence has been developed to substantiate the allegation. The Commission was of the same opinion, in fact, implied the individual who initially made the allegation, Albert Guy Bogard, probably lied or was mistaken in his identification.

According to Mr. Winchell's letter to us, [redacted] developed information from [two homosexuals] (Harry Randolph McCall and Joe Wesley Coe) that one allegedly witnessed this demonstration ride. [redacted] furnished Mr. Winchell additional information which made the activities of Mr. McCall and Coe appear suspicious and to have some bearing on the assassination investigation.

Re: LEE HARVEY OSWALD AKA

We immediately checked this matter out, determined the full identities of all of the parties involved and determined that McCall and Coe are living together and were in fact in Dallas during the pertinent period, however; McCall states he exaggerated his fortuitous location at the time of the assassination in an effort to impress people and was not completely truthful. He states that Coe, which was substantiated by Coe, has no information whatsoever concerning the assassination other than what he read in the newspapers. McCall states he was in fact employed at the same auto agency as Bogard and had merely overheard Bogard make his allegation in the presence of other employees. McCall states he definitely had never seen Oswald and did not witness the demonstration ride. This matter has been completely checked out and there is no basis to Johnson's suspicions although he apparently reported truthfully the exaggerated statements made by McCall.

This matter will be appropriately reported and disseminated as part of our investigation of the assassination.

RE: LEE HARVEY OSWALD, aka

Re Bureau airtel to Dallas dated 10/20/64 in regard to EUGENE P. ALDREDGE and CARL FREUND pertaining to an alleged "bullet" scar in the sidewalk on Elm Street, Dallas, Texas, at the scene of the assassination of President KENNEDY.

On 11/5/64, EUGENE P. ALDREDGE, 9304 Lenel, Dallas, Texas, was interviewed at his home where he is confined due to illness. ALDREDGE minutely described the location of the "bullet" mark on Elm Street, which he has previously telephonically described to the Dallas Office on 9/29/64. It is noted that this is the same mark referred to in Dallas airtel to the Bureau dated 10/16/64.

ALDREDGE stated that he does not agree with the findings of the Warren Commission and stated that the whole investigation was a "cover up" for the Soviets. He stated that he had originally noticed the "bullet" mark in the sidewalk earlier in 1964, when he was showing a visiting relative the scene of the assassination. He stated that upon reading the findings of the Warren Commission, he called the local FBI Office in Dallas to bring this matter to the attention of the FBI. This telephone call was on 9/29/64.

ALDREDGE stated that several days after he had called the Dallas Office of the FBI, he had revisited the scene of the assassination and noted that the "bullet" hole had been patched with some sort of a plastic-type material. He described the patch work as a "sloppy" job as only the hole was covered up and not the whole area.

ALDREDGE stated that it is his opinion that the hole was covered in order "to protect the Soviet". He stated that he had only mentioned the "bullet" scar to CARL FREUND, a local newspaper reporter, and to the FBI Agent he spoke to over the telephone. ALDREDGE inferred that he suspects that the Soviets have infiltrated the FBI and that he hole was patched up by the FBI in order "to protect the Soviets" and hide the scar.

ALDREDGE was politely, but firmly, advised that his supposition in the latter regard is wrong and absurd.

The scene of the assassination was rechecked on 11/5/64 and the alleged "bullet" hole was again checked and it was noted that there is now some sort of foreign material partially covering this nick in the sidewalk. Scrapings were taken and are being sent to the FBI Laboratory by separate communication for examination purposes and possible identification.

It is noted that an inspection of this same mark on 9/30/64 did not disclose such a filling as of that date. (Dallas airtel to Bureau dated 10/16/64.)

ALDREDGE was not taken to the scene to point out the "bullet" mark due to his health condition and the fact that he has apparently already made up his mind in this matter.

DL 100-10461

CARL FREUND, reporter, "The Dallas Morning News", Dallas, Texas, was interviewed on 11/5/64 at which time he advised that he recalls a telephone call from ALDREDGE in regard to a "bullet" mark on the sidewalk of Elm Street near the scene of the assassination. FREUND stated that ALDREDGE sounded to him like a "mental case" and he just listened to him and agreed with him in order to get him off the phone.

FREUND stated that while some reporters will hang up on such type a caller as ALDREDGE, he normally just listens to such a person, agrees with him, and thus finds it much easier to get them off the line.

FREUND stated that he recalls that a Deputy Sheriff on the day of the assassination pointed out to him a suspected bullet home on the sidewalk of Elm Street as some bystander at the assassination mentioned that he thought he had been hit near the eye by a piece of something, possibly cement.

FREUND stated that he believes that the Warren Commission report was most thorough and correct in its findings. He noted that there will always be some people who will have their own personal opinions regarding the assassination and no one will be able to change their minds.

Detailed results of instant investigation will be incorporated in an appropriate insert and reported.

Re: Mark Lane
Security Matter - C

On November 10, 1964, by means of a suitable pretext by a Special Agent (SA) of the Federal Bureau of Investigation (FBI) it was determined that Mark Lane will travel from New York to Montreal, Canada, where he will appear as a speaker on November 12, 1964, at Mc Gill University. It was learned Lane is scheduled to speak on the "strange" circumstances surrounding the assassination of President John F. Kennedy on November 22, 1963, at Dallas, Texas, and further will discuss his evaluation of the findings contained in the Warren report particularly where the report tends to prove that Lee Harvey Oswald was the lone assassin of President Kennedy. It was learned that as of November 10, 1964, Lane's appearance at Mc Gill University is his only scheduled speaking engagement in Canada although his plans could change depending on any invitations to speak which might be made to him while in Canada.

The "New York Herald Tribune" newspaper dated January 15, 1964, page 7, column 1, contained an article entitled "Oswald's Mother Hires Lane". This article stated that on January 14, 1964, Mrs. Marguerite C. Oswald, mother of accused assassin Lee Harvey Oswald, announced she had

hired Mark Lane to represent her slain son before the Warren Commission investigating the murder of President John F. Kennedy. According to this article, Mrs. Oswald stated she had been in contact with Lane during his stay in Fort Worth, Texas, the previous weekend. It was also pointed out that Lane had accepted the case although Mrs. Oswald stated she had no funds with which to pay him.

The "New York Times" newspaper dated April 2, 1964, page 37, contained an article stating that Mrs. Marguerite C. Oswald had dismissed Mark Lane, her New York lawyer.

On June 10, 1963, a confidential source, who has furnished reliable information in the past, advised that at a meeting of the New York Council to Abolish the House Un-American Activities Committee (NYCAHUAC) held May 23, 1963, at 74 Fifth Avenue, New York City, Mark Lane was elected to the position of Vice Chairman of the organization.

Characterizations of the NYCAHUAC and the National Committee to Abolish the House Un-American Activities Committee (NCAHUAC) appear in the appendix hereto.

In recent months Mark Lane has been appearing in public presenting his "evidence" demonstrating that Lee Harvey Oswald was either innocent of the assassination of President John F. Kennedy or was not the lone assassin. Lane has appeared at a series of public lectures entitled "Who Killed Kennedy?" and has also appeared on radio and television expounding his defense of Oswald.

NATIONAL COMMITTEE TO ABOLISH
THE HOUSE UN-AMERICAN ACTIVITIES COMMITTEE

The "Guide to Subversive Organizations and Publications" issued December 1, 1961, by the Committee on Un-American Activities, U. S. House of Representatives, page 115, contains the following citation regarding the National Committee to Abolish the Un-American Activities Committee (NCAUAC).

"Cited as a 'new organization' set up in the summer of 1960 to lead and direct the Communist Party's 'Operation Abolition' campaign. Seven of the national leaders of this group have been identified as Communists.

(Committee on Un-American Activities, House Report 1278 on the Truth About the Film 'Operation Abolition,' Part 1, October 3, 1961, p. 5.)"

A source has advised that the NCAUAC changed its name on March 3, 1962, to include the word "House" in its name, thereby becoming known as the National Committee to Abolish the House Un-American Activities Committee.

NEW YORK COUNCIL TO ABOLISH THE HOUSE UN-AMERICAN ACTIVITIES COMMITTEE

On March 9, 1961, a source advised that the New York Council To Abolish the Un-American Activities Committee (NYCAUAC), 150 West 34th Street, New York City, New York, was formed at a meeting held in New York City on November 17, 1960. This organization was founded principally through the efforts of FRANK WILKINSON, Field Representative of the National Committee To Abolish the Un-American Activities Committee (NCAUAC).

ROBERT RONSTADT, 20515 Tiara Street, Woodland Hills, California, a former member of the Communist Party (CP) in Los Angeles, California, from 1946 to 1952 who furnished information to the Federal Bureau of Investigation from 1949 to 1952 advised on September 17, 1952, that FRANK WILKINSON was a member of the Los Angeles County, CP as of September, 1952.

A second source furnished on September 14, 1961, a copy of resolutions of the New York Council to Abolish the House Un-American Activities Committee (NCAHUAC) which were adopted by the NYCAHUAC. One such resolution affirmed the intention to continue to work for the abolition of the House Committee on Un-American Activities (HCUA) and to continue its efforts to broaden the participation in this fight. Another resolution accepted as a modus vivendi the suggestion of the Field Representative of the "National Committee to Abolish the HCUA" (NCAHUAC) namely that local abolition committees may identify and co-ordinate their efforts as closely as they desire with NCAHUAC, still maintaining their autonomy for as flexible and independent a program as possible.

A third, fourth, and fifth source have advised during March, 1962, that CP members in the New York City area have been solicited to support activities of the NYCAHUAC during attendance at CP club meetings.

On May 7, 1964, a sixth source advised that the NYCAHUAC continues to function from its office at 150 West 34th Street, New York City, New York.

Re: Marina Oswald

Reverend [redacted], [redacted], First Presbyterian Church, Ann Arbor, Michigan, advised on November 13, 1964, that a group in his church earlier offered assistance to Marina Oswald, widow of Lee Harvey Oswald. She was offered the opportunity to come to Ann Arbor, Michigan, to live and to attend the University of Michigan at their expense.

Negotiations looking toward such an arrangement were stalled because of Mrs. Oswald's commitments to the Warren Commission. She has now advised she will accept this offer. She will enroll in the English Language Institute of the University of Michigan (U of M) for a several month course commencing January 4, 1965.

She has advised she will not bring her children with her and she has rejected Reverend [redacted] suggestion that she might choose to enroll under an assumed name to protect her privacy.

Reverend [redacted] said it is his intention to secure housing for her with a parish family to provide her with a family Christian experience. He requested that Mrs. Oswald not be made aware that he had made her plans known to the United States Government. He said he wishes to completely respect her wishes and will not publically make her presence here known unless she, by her own actions, makes this public knowledge.

This document contains neither recommendations nor conclusions of the Federal Bureau of Investigation. It is the property of the Federal Bureau of Investigation and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Reverend [redacted] requested that Marina Oswald not be made aware of the fact that he had been in touch with the United States Government regarding her plans.

Honorable J. Lee Rankin

This document is your Commission Exhibit Number 2946.

This concludes our review of all the documents you desired declassified as requested in your letter of September 30, 1964.

Sincerely yours,

J. Edgar Hoover

NOTE:

By letter 9/30/64 Commission furnished list of approximately 100 documents which it desires to publish as back-up material to its summary report. One of the items was the report of SA O'Connor which was classified "Secret" because of data furnished by CIA (covered by MM T-1). Through liaison we contacted CIA to determine if data furnished by CIA as contained in SA O'Connor's report could be declassified or whether CIA could suggest changes in the CIA data contained in SA O'Connor's report which would make the report unclassified. CIA, through its liaison with the President's Commission, suggested to the Commission the very minor changeslisted herein; that is, changing the wordswestern diplomat to read diplomat. With these changesour report becomes unclassified. The changes made by CIA were confirmed by [redacted] of CIA with SA S. Papich, 11/10/64.

A characterization of the Fair Play for Cuba Committee appears in the appendix pages of this report.

On December 7, 1963, MM T-1, another Government agency which conducts security investigations, furnished information that on December 6, 1963, a ~~western~~ diplomat had reported to MM T-1 that the assassination of President KENNEDY was allegedly the result of a plot prepared and executed jointly by the Chinese Communists and FIDEL CASTRO through intermediaries. It was advised that the diplomat had obtained his information from an unidentified source, tentatively described by the diplomat as "very good."

The allegation was that FIDEL CASTRO is extremely worried over the current investigation into the assassination and the possible findings; that the plot was arranged by Chinese Communists and Cuban sympathizers; that about a dozen persons who were privy to the plot have been provisionally jailed in Cuba to prevent any indiscretions which could prove dangerous to the Cuban Government at this time. The diplomat's source was fearful his own arrest was imminent.

The allegation continued that one (FNU) SAAVEDRA, an alleged close friend of CELIA SANCHEZ, the latter, secretary of FIDEL CASTRO, had uttered indiscretions in Cuba which pointed to the complicity of the Chinese Communists and CASTRO in the assassination.

Also, according to the allegation, the intermediaries in the plot located in Dallas, Texas, are RAMON B. CORTES,

12/18/63

1

ROBERTO NIETO DIAZ-GRANADOS, born October 29, 1915, in Santiago de Cuba, stated he had been an attorney in Havana, Cuba, before arriving in the United States as a refugee on January 1, 1962. He said he currently resides with his family at 5040 Westwood Lake Drive, South Miami, Florida. He said he knows no one named RAMON B. CORTES, nor anyone with the surnames FERNANDEZ FEITO. He was shown a photograph of RAMON BUENROSTRO CORTEZ, born August 31, 1916, location not verified, and stated he did not know the latter.

Mr. NIETO said he does not know any western diplomat. Mr. NIETO stated he did not know any other person named ROBERT or ROBERTO NIETO.

He stated he possessed no information whatsoever pertaining to activities or individuals connected with the assassination of President KENNEDY.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

On December 11, 1963, MM T-1 was recontacted and he advised there has been no additional information received from the ~~western~~ diplomat.

MM T-1 advised that information relating to one R. B. CORTES, as contained in a report to the Alien Registration file of the latter, Number A12 834 175, reflects that CORTES had been a representative of a firm known as Intercontinental, S.A. Also, that about 1960, CORTES, as a representative of a firm known as Ameco (American Material and Equipment Company) of Texarkana, Texas, had visited Cuba and had allegedly stolen Cuban funds entrusted to him.

MM T-1 also advised that information had been received as of January, 1962, that one RAMON B. CORTES was then President of Transcontinental, S.A., a firm which was reported to be trans-shipping material from the United States to Cuba through Mexico. CORTES was said to be in contact with LORENZO SAUNDERS, Vice-President of Transcontinental, S.A., who was said to reside in Tyler, Texas.

MM T-1 further advised that one RAMON CORTES BUENROSTRO, President of the Mexican firm Transcontinental, S.A., had allegedly been charged by the Cuban Government with shipping to Cuba used or rebuilt parts and equipment instead of new material. In this same connection, CORTES and one IGNACIO HERNANDEZ GARCIA were alleged to have attempted to suppress action against them by the Cuban Government by claiming they were major stockholders in a Canadian firm which was also supplying Cuba with parts, and that if the Cubans pressed an investigation of CORTES and HERNANDEZ

Mrs. Lillie May Rahm, 1738 First Avenue, Ketchikan, Alaska, advised on October 20, 1964, that her daughter Anita May Setyaeva, who has been employed in the North American Section of Radio Moscow, Moscow, U.S.S.R. for more than twenty years, has never indicated that she had met or had any dealings with Lee Harvey Oswald.

She said that she has frequent correspondence contact with her daughter, but that she has only received one short note from her son-in-law, Leo (Lev) Setyaev, Anita's husband, who is also employed by Radio Moscow. She stated that Leo has never mentioned having met or having had any dealings with Lee Harvey Oswald.

Mrs. Rahm advised that she considers the Oswald matter as in the nature of "political talk" and that for this reason she does not believe her daughter or son-in-law would mention Oswald in any event, because in her correspondence with her daughter political matters of any and all types are strictly avoided. She said that should her daughter in the future mention having had contact with Oswald, she would notify the Federal Bureau of Investigation.

Mrs. Rahm furnished a photograph of her son-in-law, Leo (Lev) Setyaev, which she said she had recently obtained from her daughter by mail and which photograph was probably taken in 1964.

Reop SA WARREN C. deBRUEYS, 9/18/64 at New Orleans; report of SA JOHN D. HURLEY, JR. dated 9/30/64 at New York and Atlanta letter to New Orleans, 10/5/64.

A review of New Orleans file in this matter reflects that all logical investigation has been conducted in this case.

Investigation in this case was instituted on the basis of information received from a source who related that PENA had stated he was going to Europe on 5/1/64 and would also visit Moscow.

Through investigation, it was later determined that the person who originally had been told by PENA that PENA was going to Europe and would also visit Moscow was GUILLERMO FIALLO, 2003 Laurel St., New Orleans, who admits his past connection with the FULGENCIO BATISTA Regime in Cuba and who is openly anti-CASTRO. FIALLO, upon interview, has advised that the statement made by PENA was obviously made in jest and expressed the firm conviction that PENA is definitely anti-CASTRO. In addition to the foregoing, investigation has failed to reveal any activity on the part of PENA that would substantiate that he has performed or is performing any services on behalf of FIDEL CASTRO or the present Cuban Government.

In view of the foregoing, subject is not being recommended for inclusion in the Security Index. In view of his hostile attitude towards any interview, no interview is being considered with the subject and this case is being placed in a closed status at New Orleans.

Mr. ALDREDGE, who does not agree with the findings of the Warren Commission, advised on November 5, 1964, that several days after he had originally reported his information to the FBI, Dallas, regarding the "bullet" mark on the sidewalk, he had revisited the scene and noted that the alleged "bullet" mark had been patched up with what appeared to be some sort of plastic material. Mr. ALDREDGE stated he believes the hole was covered in order to protect "the Soviet" and noted that he had only mentioned this matter to an Agent of the FBI and CARL FREUND, a local newspaper reporter. ALDREDGE inferred that the FBI had a Soviet spy in its midst who knew of his discovery and who had the hole patched up.

Mr. ALDREDGE was politely set straight in this regard.

The following information supplements that contained in a letter to the President's Commission dated September 15, 1964, from Federal Bureau of Investigation Headquarters, Washington, D. C., relating to translations of foreign language material in Exhibits D-244 through D-248 and to Walter Neunson, referred to in Exhibit D-248, and to information contained in the communication dated September 18, 1964, at Dallas, Texas.

The report of Special Agent Robert P. Gemberling dated February 11, 1964, on page 100, sets forth long distance telephone calls charged to telephone number BL 3-1628, listed in the name of Michael R. Paine (husband of Ruth Paine), 2515 West Fifth Street, Irving, Texas, during the period October 29, 1963, through December 18, 1963. A review of such telephone calls fails to reflect that any one of them was to telephone number WO 4-0357, Camden, New Jersey, which, according to Exhibit D-248, is the telephone number of Walter Neunson.

Attached are the results of an interview with Mrs. Ruth Paine on September 22, 1964, at which time she made available a letter dated November 28, 1963, which she had received from Mr. Walter Neunson, 909 North 24th Street, Camden, New Jersey, which letter was submitted to the Federal Bureau of Investigation Laboratory on September 23, 1964.

Mrs. RUTH PAINE was interviewed at her home, 2515 West Fifth Street on September 22, 1964. She made available a letter to her from Mr. WALTER NEUNSON, 909 North 24th Street, Camden 5, New Jersey. Mrs. PAINE said that in the previous interview had with her concerning NEUNSON, she had not been sure she had received a letter from NEUNSON, and if so if she had retained it. She said she had searched through her personal files and had found the letter and desired to make it available for examination and consideration in connection with this investigation. She said she desired this letter be returned to her when it had served its purpose. She explained the letter had been written to her following the previously mentioned telephone call made to her by NEUNSON in which she invited MARINA OSWALD to reside with him in his home.

The letter is written on two sides of one sheet of paper and is without an envelope. It is quoted verbatim as follows:

SUBJECT: REPORT OF THE PRESIDENT'S COMMISSION REGARDING THE ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

The report of the President's Commission has been reviewed by the Administrative Division, the Domestic Intelligence Division, the General Investigative Division, the Identification Division, and the Laboratory.

COMMISSION'S FINDINGS:

The Commission's report sets forth the official facts of the assassination of President Kennedy as we knew and reported them in substance to the Commission on 12-9-63. Namely, Oswald was the assassin, he acted alone, his actions the product of a disturbed mind, showing an urge to find a place in history, a capacity for violence, a commitment to communism and a resentment of authority. Of events immediately following the assassination it found no evidence of any association with or conspiracy between Ruby and Oswald or among any outside factors, foreign or domestic.

In criticism it finds the Secret Service vastly inadequate to its assigned task in November, 1963. It castigates the Dallas Police Department for its handling of the person of Oswald subsequent to his arrest and for its dealings with news media. It recognizes the failure of the Secret Service to define the criteria they needed to properly protect the President and to make proper requests of Government agencies.

Concerning the FBI, the report states the FBI could have provided more to the Secret Service than prompt referral of specific threats to Presidential safety, as was our policy prior to the assassination. While not detailed on this point, it reports that the Bureau "took an unduly restrictive view of its role in protective intelligence work prior to the assassination."

MR. BELMONT - MR. TOLSON
RE: REPORT OF THE PRESIDENT'S COMMISSION

In recommendation of procedures to improve protection of the President, it proposes the formation of a committee at cabinet level to oversee the problems of protecting the President; the possible relocation of the duties of the Secret Service to another agency, or in the alternative the appointment of a responsible position in the Treasury Department to supervise the Secret Service and to keep the Secretary of the Treasury informed as to its performance; that the facilities of Secret Service be completely overhauled, including the establishment of criteria of information it needs to properly protect the President; that there be perfected a closer association and liaison between the Secret Service and all Federal agencies; and, finally, that the President's physician accompany him on his travels; that Congress make the assassination of the President and Vice President a federal crime; that State Department refine procedures for dissemination of information concerning defectors to Soviet-bloc countries, and that representatives of the bar, law enforcement and news media work more closely to establish ethical standards concerning collection and presentation to the public of information so there will be no interference with pending criminal investigations or rights of individuals to a fair trial. Here the Commission is not clear but the implications point to the Dallas Police Department, killing of Oswald, conduct of news media representatives, Mark Lane, et cetera.

The report states that both the Secret Service and the FBI have professed to the Commission that the liaison between them was close and fully sufficient. The Commission does not believe that the liaison between the FBI and the Secret Service prior to the assassination was as effective as it should have been. With regard to this comment, it is noted that prior to the assassination of President Kennedy the FBI disseminated to the Secret Service all information which came into its possession which it believed would be of value to the Secret Service in carrying out its responsibilities. It is noted that at no time did Secret Service express discontent nor did it furnish a written criteria regarding its needs.

Since the assassination of the President there was a complete re-evaluation of our dissemination policy with regard to information that might be of interest to Secret Service. New criteria were established and following the establishment of the new criteria we have been following the new procedures which were adopted. These criteria are the subject of a separate memorandum that was prepared on 9-20-64.

MR. BELMONT - MR. TOLSON
RE: REPORT OF THE PRESIDENT'S COMMISSION

In addition, we have determined that an Interagency Committee and program are being established by the Treasury Department to develop more effective criteria for dissemination of data to Secret Service. The Committee will include representatives of the President's Office of Science and Technology, Department of Defense, Central Intelligence Agency, FBI, and Secret Service. This Interagency Committee has not reached the stage of development to extend invitations to the FBI and others, but is expected to do so soon. It is noted that since the adoption of the Bureau's new criteria for dissemination, Secret Service has made available in writing to the Bureau the criteria upon which they desire to receive information. It is noted that the Bureau's criteria is broader in scope than the written criteria furnished by Secret Service.

The report of the Commission gives the Bureau credit for the amount of investigative effort since the assassination and mentions that 80 additional FBI personnel were sent to Dallas to assist in the investigation, that we had conducted more than 25,000 interviews and as of 9-11-64 submitted more than 2300 reports comprising some 25,400 pages.

In referring to the identification of 20 latent fingerprints and 8 latent palmprints, the Commission discussed the identities other than Oswald that were identified with the latent prints. The Commission in their wording stated "most of the prints were found to have been placed on the cartons by an FBI clerk and a Dallas police officer." The true facts are that it was determined that a clerk in the Dallas Office was identified with five latent fingerprints and one latent palmprint and the remaining latent fingerprints and four of the palmprints were determined to be those of a Dallas police officer. In connection with the clerk in the Dallas Office, he was responsible for the wrapping of the cartons for transmittal to the Bureau.

In discussing the shooting of Dallas police officer J. D. Tippit, the Commission states that certain witnesses to this shooting were interviewed by the FBI "two months after the shooting." It is noted the shooting of the Dallas police officer by Oswald was completely a local matter within the jurisdiction of the Dallas Police Department and the Bureau did not attempt to conduct any investigation concerning this shooting. The Bureau did offer its

Laboratory facilities to the Dallas Police Department in this matter. No interviews were conducted relative to the Tippit shooting until requests were received from the President's Commission to do so.

Concerning the various interrogations of Lee Harvey Oswald, the Commission comments on the small size of the interview room in the Dallas Police Department and states that up to 25 different persons participated in these interviews. There is no clear cut statement as to the number of individuals that participated in these interviews at any given time. In this regard it is noted that 1 Agent participated in an interview on 11-22-63 and 1 Agent participated in two interviews on 11-23-63.

Comment is also made that Oswald was not represented with counsel. The entire interviewing of Oswald was under the jurisdiction of the Dallas Police Department, not the FBI, and the Bureau had no control over the conditions under which the interviews were taking place.

The report states an FBI Agent is quoted as stating the conditions at the Dallas Police Department were like Grand Central Station or the Yankee Stadium. The Agent in the footnote is identified as Special Agent James R. Hosty. In this regard Agent Hosty's testimony does reflect that he made such a comment when testifying before the President's Commission.

The report states that the Director sent a message to Dallas Chief of Police Curry on 11-22-63, urging the Chief to afford Oswald utmost security. The reppрt states Chief Curry did not recall receiving this message. SAC Shanklin assures that an oral message was delivered by Special Agent Manning C. Clements immediately after receiving instructions from the Bureau to so advise Chief Curry. (See SA Clements Dallas report 11/30/63, page 29, paragraph 5).

The report in discussing Chief Curry's periodic press releases on the developments in the assassination during the initial stages quotes the Director as being extremely concerned over these press releases and quotes from the Director's testimony in this regard.

In referring to interviews of Ruth Paine by Special Agent Hosty, the report states she was questioned concerning Oswald's whereabouts and promised to advise the FBI where he was residing and also to furnish the FBI any pertinent information concerning him. A comment is made

that Ruth Paine was not asked to furnish Oswald's telephone number in Dallas and that she did not volunteer this information although she had such information in her possession.

The Commission has relied very heavily upon the technical findings of the FBI Laboratory to support their conclusions as to the identity of the assassin and our Laboratory findings are not presented in an unfavorable light. In some instances, reportedly in the interests of impartiality, because of deep involvement of the FBI in the investigation of the case, the Commission had other experts examine evidence upon which we had submitted reports. Upon being challenged by the Bureau at the time on the basis of a lack of confidence, the Commission denied any such lack of confidence. There were no important or significant differences between our findings and those of the other experts. This was particularly true of all crucial examinations such as the identification of the assassination bullets as having been fired in Oswald's rifle and the identification of Oswald's handwriting on documents establishing his ownership of the assassination rifle.

As a matter of interest, in a few instances, there was a difference of degree noted in certain of the findings. These instances are discussed in detail below.

On pages 577 and 578 the report sets forth that FBI Laboratory experts identified all writing on a vaccination certificate found among Oswald's belongings as being Oswald's handwriting except the signature "A.J.Hideel" which was too distorted to identify or nonidentify. Alwyn Cole, Treasury Department document expert identified all writing including "A.J.Hideel" signature as being Oswald's. On the other hand, Cole was unable to identify or nonidentify a rubber stamp kit which belonged to Oswald with rubber stamp impressions on this vaccination certificate. The FBI Laboratory expert was able to identify certain of the stamped words as having been made by Oswald's stamp kit. These minor variances are not contradictory and are overshadowed by the conclusive agreement of both experts that Oswald prepared most of the writing appearing on the certificate.

On page 186 of the report, relative to the bullet that had been fired into the home of Major General Edwin A. Walker on April 10, 1963, the Commission relates that Joseph D. Nicol conducted an independent examination of the bullet and concluded "that there is a fair probability" that the bullet was fired from the rifle used in the assassination.

The Nicol referred to hereinbefore is Joseph Nicol, Superintendent of the Illinois State Bureau of Criminal Identification and Investigation, called in by the Commission as an independent firearms examiner.

An examination of this bullet in the FBI Laboratory by three top firearms specialists conducting separate and independent examinations revealed it to be so extremely mutilated that there was not sufficient evidence remaining on which to base a conclusion as to whether or not the bullet recovered from Walker's house had been fired from the assassination weapon. One of the experts correctly testified before the Commission that the FBI does not use a category of "probable" identifications, and that unless a missile or cartridge case can be identified as coming from a particular weapon to the exclusion of all others, the FBI does not report an identification.

In explaining the difference between his policy and that of the FBI on the matter of probable identification before the Commission, Nicol admitted that he could not identify the gun "to the exclusion of all other guns."

The Commission took due cognizance of this in its evaluation of this matter, and the Commission states in its summation that it recognizes that neither expert was able to state the bullet which missed General Walker was fired from Oswald's rifle.

Relative to the firearms examinations of the four bullets removed from the body of Dallas Police Officer J. D. Tippit, and the four cartridge cases found near the scene of the murder of Tippit, the Commission notes that both the FBI experts and Nicol identified all four cartridge cases as having been fired in Oswald's revolver, thus establishing Oswald's revolver as the murder weapon. In the case of the bullets the Commission notes that Nicol differed with the FBI experts on one of these bullets, Nicol identifying one of these bullets as having been fired from Oswald's revolver. The findings of three top FBI examiners concerning the bullets were to the effect that, because of mutilation and the inconsistent nature of the individual markings on the bullets there was not sufficient evidence remaining on which to base a definite determination.

Since the findings of the FBI Laboratory were arrived at independently by three of our top firearms identification specialists and there definitely was no foundation for Nicol's conclusion, it is obvious

MR. BELMONT - MR. TOLSON
RE: REPORT OF THE PRESIDENT'S Commission

that he was influenced by circumstances surrounding the case in arriving at his decision.

In evaluating the evidence concerning Tippit's murder on page 176 of the report, the Commission completely ignored the identification made by Nicol. This illustrates how heavily the Commission relied upon the findings of our Laboratory experts.

Mrs. PAINE stated that she recalls that in the one letter that she had received from WALTER NEUNSON, 909 North 24th Street, Camden, New Jersey, which was dated November 28, 1963, NEUNSON had commented in his letter that he was sending another letter written in Russian to MARINA OSWALD. Mrs. PAINE stated that this latter letter to MARINA OSWALD was enclosed in Mrs. PAINE's letter from NEUNSON.

Mrs. PAINE stated that she sent the NEUNSON letter for MARINA OSWALD, as well as the envelope which enclosed her letter and MARINA's letter from NEUNSON, to MARINA through the Irving Police Department, who was acting as the intermediary between herself and MARINA OSWALD for a short period of time subsequent to the assassination of President KENNEDY.

RE: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

Mrs. Lee Harvey Oswald was interviewed at the residence of David Davenport, Bishop's Lodge Road, Santa Fe, New Mexico, at which time she furnished the following information:

She stated that she recalled a letter from Mrs. Ruth Paine, her former landlady who resides in Irving, Texas, in which Mrs. Paine referred to a letter which she, Mrs. Paine, had received from Walter Neunson. In this letter Neunson mentioned that Mrs. Oswald was acquainted with Mr. Neunson's son, Edward Neunson. In addition, Mrs. Oswald commented that from some source, now unrecalled by her, she learned that Mr. Neunson's wife was born in Russia, as were his sons.

Mrs. Oswald explained that she received hundreds of letters during the period immediately following November 22, 1963. Some of these letters were written in English and some in Russian. On or about November 28, 1963, Mrs. Oswald was staying at the Six Flags Motel, located between Dallas and Fort Worth, Texas, and the letters she received during this period were not read by her; however, they are now in a red box in the kitchen cabinet of her home in Richardson, Texas. She noted that during the period immediately following the assassination of President Kennedy, her mail was addressed to her in care of the Federal Bureau of Investigation, the Secret Service and Mrs. Ruth Paine. She did not recall that any mail was sent to her by way of the Irving, Texas, Police Department at this time.

Mrs. Oswald acknowledged that she may have received a letter in the Russian language from Walter

Mrs. Oswald concluded with a statement that she did not recall everything that happened immediately following November 22, 1963.

WALTER CARL NEUNSON, residence 909 North 24th Street, Camden, New Jersey, furnished the following information:

After the murder of LEE HARVEY OSWALD, he and his wife, EDNA NEUNSON, were talking over the situation, and both felt sorry for the widow of OSWALD. They realized that OSWALD's widow was alone in the United States with her two children, was unable to speak English, and had the feeling that the Russians knew her location in Texas and might wish to do her harm.

Since he spoke Russian and they lived near schools in Camden, New Jersey, he and his wife decided to call Mrs. RUTH PAINE and offer to bring Mrs. OSWALD and her children to live in Camden, New Jersey, at the NEUNSON residence. No other individual had suggested to the NEUNSONs that they offer this assistance to Mrs. OSWALD.

He called Mrs. PAINE, because he had read in the newspapers that Mrs. OSWALD was living with Mrs. PAINE.

He called Mrs. PAINE on two occasions, and also wrote her a letter dated November 28, 1963, offering to assist the OSWALD family. In addition, he wrote a letter to Mrs. OSWALD in which he offered to assist her in coming to live at Camden, New Jersey, and in which he also enclosed photographs of himself, his wife, and his son, JOHN, which were taken approximately eight to ten years ago.

NEUNSON identified copies of the photographs which he had enclosed for Mrs. OSWALD.

He enclosed the photographs of his family so that Mrs. OSWALD could view them, and because also he had known people in Russia who had the same name as the parents of MARINA OSWALD as listed in newspaper articles.

However, from the articles in the newspapers, he was unable to determine if he knew the parents of Mrs. OSWALD and enclosed the photographs on the remote possibility that

if he had been acquainted with her parents, that she, MARINA OSWALD, might recognize his photograph. He also felt that the enclosed photographs would permit Mrs. OSWALD to get some idea of the appearance of his family.

He advised that he did not believe that he had stated that his son, EDWARD NEUNSON, had known MARINA OSWALD in Russia, and pointed out that he had never heard of MARINA OSWALD or her husband prior to the newspaper publicity in November of 1963.

Probably he mentioned that it was a possibility that his son, EDWARD NEUNSON, had gone to school in Russia with MARINA OSWALD, since students in Russia are brought to a central location where they are tested for their abilities, and eventually separated into different schools. However, he had no specific information indicating this to be a fact.

From newspaper publicity, he learned that Mrs. OSWALD was from Panza.

From correspondence with his first wife, ZOE KISLOVA, residence now Anna Vorzenskie Region, Sovrova 15, USSR, he learned that his son EDWARD is now in the Panza area of Russia. However, from letters presently in his possession, he knows that his son, EDWARD, was in Saratov, Russia, in February and July of 1960, which he estimated to be a four day train trip from Panza.

His letters from his family also indicate that EDWARD was in Vorozen, Russia, in April and August of 1961.

Although he has not heard from his son, EDWARD, since 1961, he does receive letters occasionally from his first wife, ZOE KISLOVA.

He furnished a photograph of his son, EDWARD NEUNSON, which he believed was taken in 1959 and described his son as a white male, now twenty-nine years of age, height 5' 10", weight 165 to 175 pounds, hair brown, eyes blue, build medium; and although EDWARD is married, he was unable to recall the name of EDWARD's wife. EDWARD has a son OLEG NEUNSON, who would now be approximately four or five years old. EDWARD had finished school in 1957, and was married in 1959.

He last saw his son EDWARD when he was visiting Russia from October of 1957 to April of 1958. EDWARD was educated in mathematics, and was engaged in engineering work in Russia, although he did not know specifically just what type of work EDWARD did.

Mr. NEUMON stated with certainty that he had never met or heard of the OSWALDs or RUTH PAINE, prior to the newspaper publicity after the murder of LEE HARVEY OSWALD and stated that his offers of assistance to Mrs. OSWALD and her children were restricted to two telephone calls and a letter to Mrs. PAINE, also enclosing photographs and a letter to Mrs. OSWALD. He explained that his offers of assistance were made prior to other offers of assistance which he read about in the newspapers. Later, Mrs. OSWALD received so much assistance, that she was apparently better off then he could possibly afford and the only response he ever heard from Mrs. OSWALD was a thank you card.

Dear Mr. Hoover:

In view of your continuing investigation of the assassination of President Kennedy, it might be desirable and useful to develop information that was not available at the time of the preparation of the Commission's Report. In particular, it might be desirable to have specific information concerning the precise sources of the description of the suspected assassin broadcast over the Dallas Police Department radio network at 12:45 p.m. It is likely that this information came chiefly, if not entirely, from Howard Brennan, but the establishment of a complete chain of information from Brennan to the Police dispatcher could be most helpful in rounding out an account of this event. It would also be valuable to know whether the police and other law enforcement officers searching within the building, especially on the sixth floor, were ever notified that the shots had come from the window identified by Brennan. This might help explain why it was not until 40 minutes after the shooting that the shells and cartons were discovered at the window from which the shots came.

In the event that you do secure information on these matters, we should like very much to have copies of the reports for inclusion in the files of the Commission.

Sincerely,

Dear Mr. Rankin:

Reference is made to your letter dated November 2, 1964, suggesting additional investigation concerning the assassination of President John Fitzgerald Kennedy.

With regard to your suggestion that we determine the precise sources of the description of the suspected assassin broadcast by the Dallas Police Department, it is pointed out by letter dated January 14, 1964, we responded to substantially the same matter. At this time you were informed the Dallas Police Department advised the broadcast was initiated on the basis of a description furnished by an unidentified citizen who had observed an individual approximating Oswald's description running from the Texas School Book Depository Building immediately after the assassination. It is not felt recontact with the Dallas Police Department on the same matter would be justified at this late date.

BY COURIER SVC. COMM-FBI

With regard to your other suggestion, we do not have any specific information as to the time it took local authorities to locate pertinent evidence on the sixth floor of the Texas School Book Depository Building; however, our investigation suggests local authorities were initially searching the building to locate a suspect in the assassination. Traffic congestion from the Presidential motorcade and the subsequent assassination could have

INTERNAL SECURITY DIVISION

Dear President Johnson:

On November 22, 1963, the President of the United States, John F. Kennedy, was assassinated by a known Communist, Lee H. Oswald.

See 146-1-73-181 146-1-95

The accused assassin, Lee H. Oswald, I had met in New Orleans on August 16, 1963 when I tried to infiltrate his pro-Castro organization "Fair Play for Cuba Committee", in order that I could prove to the American people his true identity. Five days later on August 21, 1963, Lee H. Oswald publicly announced that he was a Marxist in a radio debate over WDSU in New Orleans, Louisiana.

The assassination of President Kennedy by the hands of a Communist was a shock to the American people, but not a surprise to me when I learned the name of the accused assassin, for three months before he pulled the fatal trigger, he had told me that he was willing to kill American soldiers if the United States invaded Cuba. In this particular task, President Johnson, he was highly successful; he killed the highest military officer in the United States Armed Forces.

But the fact that should not be forgotten is that it was known that Oswald had been trained in Russia, in the same way that we Cubans had seen the Russians train our Cuban children; to hate and to kill in order to advance the World Communist plan to bury us.

It was just months before President Kennedy's assassination that Castro had warned the American officials of their own safety. Let us not forget, President Johnson, that several other Presidents' assassination in Latin America have been proven to be plotted by the Castro regime but furiously denied by this rude dictator, Fidel Castro.

When I went to see Lee H. Oswald on August 16, 1963, he was not a misfit, but a representative of the pro-Communist organization "Fair Play for Cuba Committee". Oswald was intelligent and a trained and able debater. After speaking with him for about one hour, he gave me an application form to join this highly secret membership organization and a booklet entitled "The Crime Against Cuba". This booklet, which I still have in my possession, contains a similar philosophy about Communist Cuba to that of the "Fair Play for Cuba Committee" and other well known organizations such as the Communist Party and the Americans for Democratic Action.

This organization "Fair Play for Cuba Committee" had been identified as a pro-Communist one by the U.S. Senate Committee on Internal Security, before August 6, 1963 and before the assassination of President Kennedy.

ENCLOSURE

It is embarrassing indeed, that I have to tell you and the American people that the report your carefully selected Warren Commission has presented to the American people on September 27, 1964, is incomplete. A report which should have been an accurate document for future generations, but instead it presents only part of the true picture.

My name has not been given publicly to the American press because my father is even now rotting in one of Castro's concentration camps. I can assure you, Mr. President, that the Warren Commission knew of my name. The Secret Service had contacted me the day after President Kennedy was assassinated. They seemed to be very interested in the application which Lee H. Oswald had given me. The F.B.I. came to see me on several occasions. But why, Mr. President, was I not called upon by the Warren Commission to give my direct and full testimony?

What really motivated Lee H. Oswald to kill President Kennedy? The answers to the previous questions can only be answered if you, President Lyndon B. Johnson, demand a complete unbiased investigation by a Joint Committee, composed of Senators and Congressmen who should be appointed by the House Committee on Un-American Activities and the Senate Internal Security Sub-Committee.

Let me repeat to you, President Lyndon B. Johnson, and all the American people, a statement made by one of America's greatest men today, J. Edgar Hoover; "To me one of the most unbelievable and unexplainable phenomena in the fight on Communism is the manner in which otherwise respectable, seemingly intelligent persons, perhaps unknowingly, aid the Communist cause more effectively than the Communists themselves. The pseudo liberal can be more destructive than the known Communist because of the esteem which his cloak of respectability invites."

For the love of God and country, Mr. President, let us have the whole truth about the clear and present danger posed by the Communist conspiracy, now operating inside the United States.

Dear Mr. Hoover:

I refer to page 640 et seq. of the report of Special Agent Gemberling, dated December 23, 1963, at Dallas, Texas; page 16 et seq. of the report of Special Agent O'Connor, dated December 31, 1963 at Miami, Florida; and to page 558 of the report of Special Agent Clements, dated December 14, 1963, at Dallas, Texas, which concern the allegations of Mrs. Silvia Odio of Dallas, Texas that she observed Lee Harvey Oswald in the company of two Cuban or Mexican men sometime in late September or early October 1963. I also refer to your letterhead memorandum, dated July 30, 1964 at Miami and August 5, 1964 at Dallas concerning the same subject. I enclose transcript of the testimony Mrs. Odio gave to Mr. Wesley J. Liebeler of our staff in Dallas on July 22, 1964 as well as a letter to me from James J. Rowley of the United States Secret Service, dated May 5, 1964 and the memoranda covered by Secret Service Control Numbers 3670, 1426 and 1476, all of which relate to the above subject.

It is a matter of some importance to the Commission that Mrs. Odio's allegations either be proved or disproved. It appears from the report of Special Agent O'Connor mentioned above that at approximately the time Mrs. Odio said she saw Oswald in Dallas there was considerable activity in that area on the part of "DRE", another organization composed of anti-Castro Cubans. It is possible that Mrs. Odio has confused "JURE" and "DRE" and that the representatives she saw allegedly in the company of Oswald were from "DRE", or from some other anti-Castro organization. It is also possible that they were in fact pro-Castro individuals attempting to infiltrate the anti-Castro groups in Dallas.

REC. 15

DEC 1 1964

Would you please conduct the investigation necessary to determine who it was that Mrs. Odio saw in or about late September or early October 1963. Reference is made in particular to "Guillermo Othon," a "DRE" delegate present in Dallas at or about that time, referred to on page 26 of the report of Special Agent O'Connor. We also note that Mrs. Odio's description of one of the men allegedly with Oswald corresponds to some extent with the description given by Evaristo Gilberto Rodriguez of a man who was allegedly with Oswald in the Habana Bar in New Orleans in August of 1963, in that both of them had a bald spot on the forepart of their hairline. In that connection we note your letterhead memorandum dated July 31, 1964 at New Orleans and we enclose a transcript of the testimony of Mr. Rodriguez.

We also note that the report of Special Agent Heitman dated March 13, 1964 refers to an Osvaldo Aurelio Pino Pino. He should be interviewed on the possibility that Mrs. Odio may have confused his name with that of Lee Harvey Oswald.

We are also concerned about the possibility that Oswald may have left New Orleans on September 24, 1963 instead of September 25, 1963 as has been previously thought. In that connection Marina Oswald has recently advised us that her husband told her he intended to leave New Orleans the very next day following her departure on September 23, 1963. She also indicated that he told her an unemployment check would be forwarded to Mrs. Ruth Paine's address in Irving from his post office box in New Orleans. We also have testimony that Oswald left his apartment on the evening of September 24, 1963 carrying two suitcases. It also seems improbable to us that Oswald would have gone all the way back to the Wynn-Dixie store at 4303 Magazine Street to cash the unemployment check which he supposedly picked up at the Lafayette branch of the post office when he could have cashed it at Martin's Restaurant, where he had previously cashed many of his Reily checks and one unemployment check. That is particularly true if he received the check on September 25, 1963, as previously thought, and had left his apartment with his suitcases the evening before.

On the possibility that Oswald may have stayed in New Orleans on the night of September 24, 1963 at some place other than at his apartment, would you please check the guest lists of inexpensive hotels in the vicinity of the Greyhound and Continental Trailways bus depots, the Lafayette branch of the post office and such other

areas in the City of New Orleans that you deem appropriate to determine whether or not Oswald stayed in any of them on the night of September 24-25, 1963.

The above investigation seems indicated to check Mrs. Odio's story that Oswald was in her apartment in late September of 1963. Since he was with his wife in New Orleans until she left on September 23, 1963 and was in Mexico after September 26, 1962, the only time he could have been in Odio's apartment appears to be the nights of September 24 or 25, 1963, most likely the latter.

In that connection we note that the Continental Trailways bus that left Dallas at 11:00 p.m. on September 25, 1963 for Laredo, Texas, made a connection in Alice, Texas with the Trailways bus that left Houston, Texas at 2:35 a.m. on September 26, 1963, also bound for Laredo. Thus, Oswald could have been in Dallas on the night of September 25, 1963 and still have been on the bus on which he was seen by Dr. and Mrs. John B. McFarland, according to your letterhead memorandum on Oswald dated December 23, 1963 at Washington, D. C.

Would you please determine whether or not any tickets were sold in Dallas on September 24-25, 1963 covering transportation on Continental Trailways buslines from Dallas to Laredo or beyond.

Please conduct whatever additional investigation you deem appropriate to determine the possibile validity of Mrs. Odio's testimony. We think it might be in order to determine Mrs. Odio's veracity in other areas by checking on some of the testimony she gave concerning her background. We note that she claims to be acquainted with Manolo Rey, (Tr. 364), an anti-Castro leader in Puerto Rico, and that her father is a political prisoner of Fidel Castro.

In connection with the above, in addition to the reports mentioned above, we note, among others, the reports of Special Agent Callendar dated December 24, 1963 at New Orleans, Special Agent Fults dated December 11, 1963 at Houston, Special Agent Dalrymple dated December 4, 1963 at Houston, Special Agent Dalrymple dated February 20, 1964 at Houston, Special Agent Callendar dated December 16, 1963, at New Orleans, Special Agent Kenny dated December 23, 1963 at San Antonio, and Special Agent Callendar dated April 16, 1964 at New Orleans, and your letterhead memorandum dated April 15, 1964 at New Orleans.

Would you please keep Mr. Wesley J. Liebeler of our staff generally advised of your investigation as it proceeds. In view of our time schedule we would appreciate receiving a report as soon as possible.

Your continued cooperation is appreciated.

SUBJECT: LEE HARVEY OSWALD, aka

On September 3, 1964, Supervisor J. C. Stokes, Domestic Intelligence Division, forwarded the evidence listed below to the Laboratory.

Item I Twenty-three letters and twenty-two envelopes bearing known handwriting of Anita (Annette) Hay Setyaeva, nee Zugoff

Item II Slip of paper bearing known handwriting of Lev (Leo) Setyaev (D-252)

It was concluded that the English script in Exhibits D-119, D-120 and Exhibits 245 and 246 (letters written by associates of Marina and Lee Oswald in Russia), was not written by the writersof Items I and II.

Due to the limited amount of comparable writing involved, no conclusion could be reached whether the writings on page 63 of Exhibit B-29 were written by any of the writers of the Russian script on Exhibits 129, 131, 150, 356, 358 and 361 (letters written by associates of Marina and Lee Oswald in Russia). However, nothing of particular interest or significance was noted.

The handwriting in Item II is not sufficiently comparable with the writings on page 63 of Exhibit B-29 to permit an adequate examination. However, a few handwriting characteristics were noted which suggest that the writer of Item II could have prepared the name and address of Setyaev which appear on page 63 of Exhibit B-29.

Re: Lee Harvey Oswald, aka
105-82555

Due to the limited nature of the first line of writing on page 63 of Exhibit B-29 and the pencil handwriting on the same page, no conclusion could be reached whether Lee Harvey Oswald prepared this writing. Some significant handwriting similarities were noted which indicate that Lee Harvey Oswald probably prepared the first line of writing and the pencil handwriting on page 63 of B-29.

The name and address of Setyaev appearing on page 63 of B-29 are not sufficiently comparable with the available known writings of Marina Oswald for an adequate examination. However, nothing of particular interest or significance was noted insofar as a comparison was possible.

The writings in Items I and II were not identified in the National Security File. Appropriate photographs will be added to this file.

Items I and II and five photographs of Item II have been separately forwarded to Supervisor Stokes.

RECOMMENDATION: That this memorandum be forwarded to the Domestic Intelligence Division for appropriate action.

PURPOSE:

To recommend no further action be taken with regard to investigation suggested by the Commission in its letter 11/2/64; and that the attached letter be sent to the Commission.

DETAILS:

The Commission by letter 11/2/64, suggested two specific matters be further investigated and that "In the event . . ." we do investigate, they would like to have the results of investigation included in the files of the Commission.

One of the items mentioned was the suspect broadcast put out by the Dallas Police Department at 12:45 p.m., on 11/22/63, which it is felt was instrumental in officer J. D. Tippit stopping Oswald. In this regard the Commission stated ". . . it might be desirable to have specific information concerning the precise sources of the description . . ." The Commission in its letter acknowledges this information more than likely originated with Howard Brennan, a witness to the assassination, however, it suggests ". . . a complete chain of information from Brennan to the police dispatcher could be most helpful in rounding out an account of this event."

The Commission also suggested we endeavor to determine if the local officers who were searching the sixth floor of the Texas School Book Depository Building on 11/22/63, were ever specifically notified that shots had come from that floor and specifically the window pointed out by Brennan. The Commission comments this information might ". . . help explain why it was not until 40 minutes after the shooting that shells and cartons were discovered at the window from which the shots came."

REC 4 5268

STATUS OF PRESIDENT'S COMMISSION:

In response to an inquiry made by us on 9/23/64, the Commission by letter dated 10/15/64, stated in part ". . . its

responsibilities, except as to closing out its operations and the publication of its hearings and exhibits, were terminated as of the delivery of its report to the President on 9/24/64."

BACKGROUND:

With reference to the first item of investigation suggested by the Commission, it is pointed out in January, 1964, Mr. Rankin requested we endeavor to determine the origin of the suspect broadcast put out by the Dallas Police Department. By letter dated 1/14/64, we advised our inquiries disclosed the description was probably furnished by an unidentified citizen who had observed an individual approximating Oswald's description running from the Texas School Book Depository Building immediately after the assassination. This citizen reportedly was told to proceed to the Sheriff's Office for further questioning, but never showed up. It is also known that Howard Brennan, a witness to the assassination, when interviewed by us on 11/22/63, stated he observed an individual in the sixth floor window and furnished a description which closely approximates that put out by the Dallas Police Department dispatcher. It is also known that Brennan had been interviewed initially by Dallas Police Department officers.

We do not have any specific information as to why it took local authorities 40 minutes to locate the shell casings and the cartons on the sixth floor, and it is not known what particular significance this could have on the findings of the Commission. It is pointed out the initial search of the building was for the purpose of locating the assassin. Members of the Dallas police Crime Laboratory did not arrive at the building immediately after the assassination and the reason for this late arrival is not known by us but could be attributed to any number of reasons, traffic congestion being the most obvious. As you are aware, our Laboratory positively established the shell casings came from the assassination weapon and the assassination weapon was purchased and in possession of Oswald.

OBSERVATIONS:

The Commission technically is no longer in existence. The Commission has weighed all the evidence, made its report and it is not felt the above matters raised by the Commission would in any manner alter its findings. Therefore, it is not felt any further action should be taken, after we reply by letter.

RECOMMENDATION:

That no further action be taken in this matter, and attached letter be sent to Commission advising why no further action to be taken.

On page 63 of the address book of Lee Harvey Oswald appeared in handwriting in the Russian language the name Lev Setyaev, a Moscow address, and the notation to the effect that Setyaev was associated with Radio Moscow. From writings found among Oswald's effects and through interview of Marina Oswald, it has been learned that Oswald, when in Moscow in the Fall of 1959, was interviewed by a representative of Radio Moscow.

Dear Sir;

The following are some writings I've done recently and it strikes me that we both seem to have much the same approach in evaluating character from my reading of your book "Persons in Hiding" of 1938.

If devine providence should bring me to Washington in the near future, it would be a source of joy to me to perhaps have the opportunity of discussing this with you in person, Sir, and a source of great joy if I were to have your friendship.

VIEWS ON THE HISTORY, POLITICS AND PHILOSOPHY OF AMERICA

A story of the Greeks and the analogy it provides for us.

Of the Peloponnesian War, Thucydides relates that the Athenian Greeks ceased to be a great and feared power in the Mediterranean when they fought and were defeated at equal numbers by the Greeks at Syracuse in Sicily. The reason they were defeated for the first time at equal numbers when hitherto they were usually victorious against heavy odds is that they fought a people for the first time who believed in the same principles they did. Their defeat demonstrated that their power was not unique or mysterious to themselves but rather lay in the fact that they were human beings who adhered to certain ideas and it was the resultant strength that men could bring to life by holding these principles that made them great.

The moral Thucydides drew from this was that other countries lost their fear of the "Athenian Greek Magic" by seeing them defeated. The anology relative to America, in my opinion, is that Americans are human beings no better or worse as such than any other group of people on the planet but what lies at the greatness of America, and great I believe it to be, are the principles that we espouse and specifically that the people of this land believing in these concepts.

The analogy of the Greeks to our situation is that with the prolonged ideological conflict with Russia, there exists the tendency, even if not articulated, on the part of Americans to tone down the striking features of our principles, emphasize those characteristics which are less offensive to communists under the opinion that this would reduce tensions if the source of those tensions were not highlighted. While recognizing this to be the case, I advocate that we perceive that the following principles (the ones enumerated are ones that I am deeply committed to and when in the course of duty to country a man may die it is specifically in defense of these that I would undertake that duty):

(a) Sanctity of the individual
(b) Right to privacy
(c) The doctrine that men are not the creatures of the state but rather that the state exists only to serve its citizens
(d) That it derives its authority from God
(e) That its citizens have the freedom to publicly worship God

make us great and that in time of danger, when we are challenged for holding them, that we should increase our devotion to them.

My personal philosophy of life is that I am an individual created by Our Lord: that I am an American citizen who loves his country, is prepared to die in its defense, and believes in the right of that country to self-defense against enemies that would attack it.

As one human being, what can I do to promote its welfare -- while I do not pretend to perfectly comprehend, less perfectly act on these truths; I believe, in a generation which is rare for the profession of these qualities. In possessing a love and adoration of Our Lord for His own sake as a primary reason for living and motive for acting and on a more mundane level, of possessing a personal honor which will not sacrifice its principles for the acquisition of money or power. To be more truthful, for the above reasons, not to pursue these goals at all.

What explains a person who reads a great deal, does not extensively socialize, marry, have children, try to accept responsibility or strive for a better material well-being? I have read above 3,000 books. I enjoy being alone from the standpoint of thinking about what I read and spiritual meditation. I enjoy living in a country that respects my personal freedom and has faith in individual human beings --faith that their efforts to be true to themselves and strengthen their integrity will in the long run benefit both the individual and society.

To achieve the above goals it does not inhere that a person has to remain single, be less social than average or place position or money low on a system of values, but I find this attitude to afford less room for compromise.

What do such attitudes mean in social terms? Can we have a viable society if each person does not contribute to his capacity for the Gross National Product? Yes, if we appreciate the fact that other courses are open and accept the fact that some people will take them. Why doesn't a person who feels this way go into a conventional role such as a teacher? Again, I feel it is exercising the capacity God gave and the freedoms our political system conferred to be an individual. If Lincoln had lived and died in Springfield, Illinois, never gaining any fame but still possessing his strong faith in God and integrity, I feel his life would still have meaning because his will acted on the graces Our Lord bestowed on him to develop his strong character.

The genius of America in history, and I am thinking here in political and natural terms, is that it professed the faith that any person could be capable of greatness if given the opportunity. Systems prior to this entrusted its opportunities and destiny on its Aristocracy and if exceptional persons rose from the common populace, it assimilated him into the favored class. Coming from the point of theoretically expressing faith in the average person with the Declaration of Independence and Bill of Rights in 1776, Abraham Lincoln afforded history an example of the truth of this belief.

Another feature of which I am proud to be an American would be the following example. In the Central Valley of California we do not have orientals blowing up gas stations as is occurring in Venezuela. The reason is that for someone who is poor opportunity to improve his status by personal initiative exists as a safety valve to frustration. This idea is cogent enough that it is the policy of our government to disseminate it to other lands as a means to deal with the social and political problems that have arisen in the 20th century.

AN ANALYSIS OF THE CHARACTER OF THE ASSASSIN OF PRESIDENT JOHN F. KENNEDY

Lee Harvey Oswald died before he was given the opportunity of a trial for the murder of the President and thus the case of the assassination of President John F. Kennedy will never legally be solved. Oswald will always be recorded in American History as the suspected and probable assassin. We have the further knowledge that one of the sternest admonitions in the Bible is that of: "Judge not lest ye be judged."

With the above being accepted as a foundation, the reason I have undertaken this analysis of the probable assassin of the President is that to the extent that the personality characteristics of this man and any man in general like him could constitute the make up of a man who might and would possibly assassinate a President or other high government official, it would be a civic duty in conscience of a private citizen to communicate such an analysis to agencies which are charged by law with the responsibilities of safeguarding the life of the President and other officials since they have the obligation in prudence to consider possible individuals who might be construed as a cause for concern in the fulfilling of the tasks of their profession.

I don't know Oswald personally but taking the reports of him and the manifestations of his character as given in the news media, I would hold that an atheist could perpetrate this horrible crime. For the purposes of this analysis I will assume a fictional character named Oswald who does perpetrate this crime to reconcile the facts that while the human being Oswald cannot be licitly judged, the mind naturally seeks a solution to the crime.

When a person believes in and has obedience to Almighty God, he accepts the existence and obligation to build a spiritual life and a moral code as given by this Creator as ruling his conduct as a person individually and in association with other persons in society. For such a person, the center of his life is Almighty God. His actions, behavior and thoughts are performed with reference to God and His Laws. There also exists other possibilities as a philosophy of life. A person can deny that there is a one, true God in Heaven Who created life and rules men and all that exists, and in so doing the person who believes this way now makes himself the center of life and society and in so doing, in effect, makes himself a god. The false "god" that an atheist makes of himself is all-powerful and almighty to the extent of the maximum effect that his will can have in life.

As opposed to the Creator Who is perfection itself and Whose goodness, mercy and justice are infinite, the false "god" that an atheist makes of himself may exercise his will to its maximum power in envy, hatred and malice. To such a person, if the impulse presents itself of beating his wife, since his will is the center of the universe and its exercise is held to be a good, he therefore beats his wife. If the envy, malice and hatred of our country and its constitutional head, the President of the United States as an office and the individual man who holds that office with courage and dedication, is powerful enough to present to the will of that atheist the desire to express these evil qualities and, further, if there is no moral frame of reference restraining this will but the will acting is the good sought after; then the person may take the life of this man who was the President of our nation in an act of murder. Let us assume our fictional Oswald is such a man.

Los Angeles Times [redacted] Robert E. Thompson datelined D[redacted]s - approximately November 23, 1963.

"Lee H. Oswald, 24, an ex-Marine, was booked as Mr. Kennedy's alleged assassin after he had been interrogated for nearly eight hours by federal, state and local law enforcement officers; Dallas Police Chief J. E. Curry, told newsmen Oswald had not confessed.

But, the Chief said, he would be charged with murder based on physical evidence. . . . Investigators said they still have considerable work to do on the case but are convinced that Oswald is guilty of the President's murder. Police said Oswald admitted he worked in the textbook warehouse building from which the shots that killed the President were fired. Oswald would not account for his whereabouts at the time of the assassination, police said. . . . but from the moment Oswald was apprehended, the primary objective of the FBI, the Secret Service, Texas Rangers, and the Dallas Police was to determine whether he fired the fatal shot at the President. Curry said Oswald admitted his Communist sympathies and activities in the pro-Castro "Fair Play for Cuba Committee." But, beyond that, Curry said, Oswald would admit nothing. The Police Chief described Oswald as a stoic."

The reason he refuses to account for his whereabouts and does not confess follows from his past pattern of behavior of defiance of authority. His face shows considerable frustration as a general condition but from the news photos of him just before he was shot while between officers J. R. Leavelle and L. C. Graves, as a specific condition, his face and bearing show considerable self-composure and contentment.

In the police interrogation room while all the investigations from the different agencies stand around him, he has this self-assurance and refuses to confess a crime he committed since he feels a sense of power and superiority to the men around him as he watches their helplessness in the face of the effect of his will. Their chief interest is not in obtaining a confession from him as such. On this day, every man questioning him ardently wishes that this deed could be undone. He sees their uneasiness and exults in the fact that it was the action of his will that is the power in front of which they are helpless.

Most people seldom look at other persons as those persons are, but rather superimpose the qualities they consider important as an overlay to another's character. The average person refers to the assassin as a "kook" or "nut". The reason they say this is that they never look at the assassin as one human being and what he is like but rather put this overlay of their own traits on him and come up with confusion. Nearly all of us spent the weekend of November 22 - 24 in a state of shock as a result of the difficulty in assimilating the enormity of this crime.

The average person starts out with the following premises:

(1) I love my country and assume that others do too.
(2) I would never murder any one and I assume that no one else would either.

When a person comes along who retains in his character contradictions of both of these statements to a profound degree and is prepared and does act in reality with these evil elements in his character as motives, no one has to be ashamed of experiencing confusion in trying to understand such an individual.

While the suspect has this sense of power, there also is the fact of his lack of comprehension of the significance of what he has done since if, to him, the exercise of his will is the main good in life, then the social implications of his acts is a meaningless term. With such a person you could mention Kennedy, assassination, Connally and murder all day long and he wouldn't bat an eyelash or twitch a lip. These terms are of no importance to him.

The exercise of his will is important to him. The people who are hurt in this exercise of his will are extraneous to his interest. If he was shown a picture of Mrs. Kennedy and her children and was told that as a result of his action this young woman is now a widow and will have to bring up her children without a father, this would have no effect on him since his will acting is important to him and the suffering of this woman and her children are not.

For the purposes of speculation assuming he had not been shot, when he was visited in jail by his wife and mother, he'd ask for newspapers to read what reporters were saying about him and exult in the glow of his self-importance. This would be an example of how morally obtuse this man is. He would have a silent glee in all the attention being paid him but would not, because of his moral and spiritual condition, comprehend the abhorrence that the public would experience for his act. At the end of his trial assuming he was found guilty, the newspapers would report that Oswald maintained the same stoic composure as the judge sentenced him that he had all during the trial. The word here would not be stoic but uncomprehending. He would not comprehend the fact that society found his act reprehensible.

Assuming he was sentenced to life imprisonment, as the years passed and the Communist and leftist but non-Communist news media around the world raised the cry that Oswald was innocent and that the assassination was a rightest plot he would never consciously say anything to contradict this and would enjoy the attention given him.

As an example which contrasts with this line of behavior and might be considered as the way the average murderer from a motive of passion acts, they had a case in Seattle where an Italian laborer killed his unfaithful wife in a very brutal and violent manner. For the first fifteen hours he was in custody, the man admitted nothing. At this point, the suspect was reported as having gone into a catatonic like fit in which he re-enacted his crime fearfully sobbing all the while. Eight hours later after sleeping, he denied any previous verbal confession which he had made. What probably occurred was that the enormity of his act filled him with overwhelming emotions which caused him to act against his own self-interest.

A father of a young boy hits the child in anger and then is immediately remorseful. The reason he experiences remorse is because of the love the father has for the child. If he didn't have this love, he wouldn't experience sorrow.

If the reader accepts as a speculation the foregoing analysis and then compares the picture of Oswald from the newspapers before and after he was shot, I would premise that the key feature on his face as he is shot is the lack of comprehension he has even of the significance of his own death.

The question presents itself of the spiritual implications of this event. At the split second that the assassin was squeezing the trigger to fire the bullet at 12:30 P.M. on the 22nd of November, Almighty God saw this and as the Ruler of the world, all the societies and people in it and every act and power to act that exists in His creatures could have caused a slight gust of wind which would have swerved the bullet to miss the President by 2 inches. Our Lord had the power to do this, but He did not use it.

It is said that Our Lord never causes evil but rather permits it to occur and that even then He draws good out of the evil act. This assassination was a singularly monstrously evil act.

(1) Why did our Lord permit it to occur?
(2) What good does our Lord expect to derive out of this evil act?
(3) What does He wish that we, His creatures, learn from this event in an understanding which will reflect His glory and goodness?

Possibly we may have to put aside the image of the happy, pleasant America with no problems which has millions of its citizens fleeing a confrontation with their consciences by occupying their attention with subscription pay television, new cars with side windows that move at the press of a button and other distractions.

The purpose of our Lord in permitting this horrible crime to occur may well be that he is no longer willing to accept only the implicit belief in God that is the foundation of our society and country but wishes that this profession of allegience and obedience to Almighty God be publicly made and acted upon by both the individuals and institutions of our country.

This implicit belief exists when a person places his hand on the Bible in court and says that "I will tell the truth and nothing but the truth, so help me God." The implication is that the words and the judicial system that rests on their meaning are worthless without the witness of our Lord.

The people of our country have experienced much grief over this event and possibly some of it is excessive. The assassination of President John F. Kennedy, shocking though it is has to be viewed in a spiritual perspective.

The life of John F. Kennedy belonged to Almighty God and when He, in His wisdom, chose to call his servant to his eternal reward whether on that day, two days before, ten years before or ten years after November 22, 1963, was an expression of His will -- a will which has to be received by His creatures with a submissiveness characterized by humility and meekness.

Is all the grief that our country experienced, both individually and collectively, equal to the sorrow that our Blessed Mother felt on the day that she saw her Son carry His cross along the road to Calvary and there watch Jesus be crucified?

As individuals and a country, it may be said that to the extent:

(a) of our faith in materialism that our scientists are our priests,
(b) of our faith in secular humanism that our psychiatrists are our priests, and
(c) of our faith in Almighty God that our Catholic Priests are our Priests (i.e. author's partisan view - it would be a Rabbi or Minister for those of other faiths).

Truths may be drawn from this terrible event that will show forth the glory of God and contribute to the possibility of drawing more souls to Him. As the natural life of John Kennedy ebbed away, despite the frantic efforts of our magnificant medical doctors and the facilities they have, the faiths of Materialism and Secular Humanism and its ministers, the scientists and psychiatrists, stood by helpless and despairing. One faith, that in Almighty God, demonstrated that it lives even through such terrible events in Glory and Majesty and provides to its adherents the spiritual power of the Love of God which has overcome death.

At the end of this analysis, it is necessary to mention once again that as a person who has left the living Oswald will never be able to be tried for this crime. It is the duty of a Christian to wish the mercy of our Lord on the soul of the man Lee Oswald and leave to Almighty God His judgement.

The only justification that can be presented for undertaking such an analysis is that the confusion most people experience due to the main suspect's untimely death, ignorance of motives and the utmost seriousness of the act perpetrated as of now lend themselves, with a realistic knowledge of human weakness, to unscruplous individuals using this situation to make unfounded charges against second parties and in turn leading to general, unproductive investigative work.

He states that he reached this conclusion from reading "Persons in Hiding." This was sent to the Los Angeles Office since Gorman resides in the Long Beach area. The Los Angeles Office did not interview him because of his "obvious instability and unreliability."

The Director, of course, will not want to take time to meet this person, and if he should visit the Bureau, he should be referred to an Agent in the Crime Records Division. Since we do not have his return address, no acknowledgement is being made of this letter.

checking out DOMINEY's personal reputation. She continued stating that Mrs. DOMINEY is a person of poor reputation, has had numerous traffic tickets, has been arrested and even shot once while committing a burglary while a youth in Jacksonville, Texas. Mrs. HUNTER was reminded that she had not previously furnished this information regarding Mrs. DOMINEY at the time of her interview on August 11, 1964.

It was minutely explained to Mrs. HUNTER that the Commission's report was prepared by the President's Commission and not by the FBI, and that the FBI had nothing to do with just what the Commission chose to print in its report. She was advised that the Bureau's investigation in this matter was conducted at the request of the Attorney General and the President of the United States and at the direction of the President, the results of the FBI investigation were furnished to the President's Commission on the Assassination of President KENNEDY.

Mrs. HUNTER, while a little upset at the beginning of the interview, was most cordial at the end and stated that she had no complaint with the FBI, but was still mad at the Commission. She asked if she should write the Commission directly regarding her personal feelings in instant matter. She was advised that that was a decision she would have to make on her own and that the FBI could make no suggestions either way in this regard.

Mrs. HUNTER added that she would try "through some friends in Houston" to determine the name of the Agent who interviewed Mrs. DOMINEY.

Mrs. HUNTER is referred to on pages 317-318 of the Commission's report.

A copy of this communication is being furnished the Houston Office for information purposes.

No further action is being taken in this matter by the Dallas Office.

Dear Mr. Rankin:

Reference is made to the report of Special Agent Robert P. Gemberling dated May 28, 1964, at Dallas, Texas, entitled "Lee Harvey Oswald, aka, H. O. Lee, etc.; IS - R - CUBA." Your specific attention is directed to pages 331 through 336 of Special Agent Gemberling's report which set forth information furnished by Miss Frances Blanton and Mr. Gonzalo Ancira concerning a copy of "Time" magazine for June 21, 1963, which came into their possession. This issue of "Time" magazine contained an address label bearing the name Lee H. Oswald, Box 2915, Dallas 21, Texas. A photographic copy of the cover of this issue of "Time" magazine is enclosed for your information.

For your information, Miss Frances Blanton has contacted our Dallas Office and stated that she would appreciate having this issue of "Time" magazine returned to her.

For your additional information, this issue of "Time" magazine is presently in custody of this Bureau where it is being held as evidence along with other items of evidence in this case. Please advise if the Commission has any objection to this Bureau returning this issue of "Time" magazine to Miss Blanton.

Sincerely yours,
J. Edgar Hoover

NOTE:

Oswald was receiving "Time" magazine at Post Office Box 2915 in Dallas. When he moved to New Orleans in May, 1963, certain of his periodicals were placed in Box 2915 which was then being rented by a Mr. Gonzalo Ancira. Ancira apparently did not turn this "Time" magazine over to Postal authorities but instead gave it to Miss Frances Blanton who worked in Ancira's office. This occurred approximately the latter part of June, 1963. Following the assassination, Miss Blanton, in going over old magazines at her residence, came upon this magazine addressed to Oswald. She brought it to the attention of Dallas Office and the magazine was forwarded to the Bureau, where it is being held as evidence (105-82555-3500). Miss Blanton now wishes this magazine be returned to her. We have contacted Postal authorities in Dallas and Washington, D. C., who stated they have no objection to this issue of "Time" magazine being returned to Miss Blanton. Upon advice from the President's Commission, we will afford proper disposition to the magazine.

Re Bureau airtel dated 10/20/64 in the matter regarding the return of an issue of "Time" magazine dated June 21, 1963, to Miss FRANCES BLANTON who had originally given this magazine to the FBI for information purposes.

On 10/26/64, instant matter was explained to Postal Inspector R. W. THOMAS, Dallas, Texas, at which time he advised that GONZALO ANCIRA, the holder of Post Office Box # 2915, Dallas, Texas, after OSWALD, was technically in violation of the postal statutes for not having returned instant "Time" magazine to the postal window for forwarding to OSWALD when he found it in his mail-box. However, Inspector THOMAS noted that this is not an uncommon event when it comes to magazines even though the publisher desires that such magazines be returned to them when not delivered to the addresses.

Inspector THOMAS noted that the Federal law in this particular regard is primarily for the protection of valuables, such as checks, stocks, etc., and is seldom if ever invoked when it comes to the question of the mere forwarding of a magazine.

By letter dated 11-2-64, the President's Commission suggested additional investigation concerning the precise sources of the description of the assassin that was given out by the Dallas Police Department at 12:45 p. m., on 11-22-63.

Commission also suggested the Bureau endeavor to determine if the local officers searching the sixth floor of the Texas School Book Depository Building, on 11-22-63, were ever specifically notified that shots had come from that floor and specifically the window pointed out by one Howard Brennan, who may also be the individual who furnished the description that was given out on the police broadcast as mentioned above. The Commission commented that they desired information why it was some 40 minutes after the shooting occurred that shells and cartons were discovered at the window from which the shots came rather than during the immediate search of the area following the shooting.

By letter to the Commission dated 11-2-64, we pointed out that results of investigation the Bureau had conducted, which had been made available on 1-14-64, to the President's Commission, covered the precise sources of the description of the suspected assassin, which was broadcast by the Dallas Police Department. It was pointed out that the police department did not have data available to pinpoint the identity of the person who furnished the description that had been put out at 12:45 p.m., on 11-22-63. It was also pointed out to the Commission that at the time of the assassination the police that were on hand were performing various duties and that it appeared that a detailed search had not gotten underway immediately at the Texas School Book Depository Building and consequently the shells were not found for approximately 40 minutes after the shooting occurred.

REC 20 5285

Mr. Albert Goldberg of the President's Commission called today and stated that he fully appreciated the investigation that had been conducted by the Bureau in the early stages and information which had been previously transmitted to the Commission. He advised that the President's Commission had never questioned the information that the

Bureau had submitted and at the time did not feel a necessity existed for attempting to delve any deeper into this situation; it being noted that the Bureau's investigation appeared to exhaust the possibilities that were available.

Mr. Goldberg stated that since the release of the report of the President's Commission, there have been a number of articles written and some correspondence wherein issue was being made concerning the two points referred to and that based on this he had discussed the problem with Mr. Rankin and Mr. Rankin felt that it would be to the advantage of the Commission, even though it was too late for the report, and to the Bureau's advantage to show that an additional check was made concerning these items. He was interested in whether or not we were able to develop any positive information. He advised that for this reason he would like to send another letter to the Bureau again requesting this investigation and would furnish additional information showing what the request was based on in order that the Bureau would have full facts and would see the justification for additional effort being made in running out these two items.

ACTION:

Upon receipt of the letter from the President's Commission it will be carefully reviewed, and if justified based on the information made available, instructions will be issued the Dallas Office in an effort to develop the information requested.

Re Bulet to Atlanta, 5/8/64, entitled, "GEORGE MC MILLAN, POB 229, AIKEN, S. C., INFORMATION CONCERNING ; RESEARCH (CRIME RECORDS)"; Dallas letter to Bureau, 10/8/64; Bureau airtel to Savannah, 10/16/64; Dallas airtel to Savannah, 11/17/64; and Savannah letter to Bureau, 10/20/64.

After numerous attempts, Mr. GEORGE MC MILLAN, POB 229, Aiken, S. C., was contacted at his residence on 11/19/64. He advised that he was the owner of instant notebook, which he had inadvertently left in the Sheraton-Dallas Hotel while staying there in September, 1964.

He stated that he is a free lance writer and at the time he was in Dallas he had been working on a 'white paper" of the assassination of President KENNEDY for NBC.

A "white paper" is a format used by NBC for reports on controversial matters. He stated that NBC discarded their original idea to do a report on the assassination when they learned that the Warren Commission was doing a good job on it and that they intended to make a full report. NBC then decided to do instead a commentary on the Warren Commission Report.

He stated that "GDM" as mentioned in the notebook was GEORGE DE MOHRENSCHILDT, whom he had learned knew OSWALD well. He said he had spoken with DE MOHRENSCHILDT at Haiti and that he had also talked with SAMUEL BALLEN about the assassination.

He stated that none of the writing in the notebook had any special significance, but were merely notes jotted down concerning his observations and conversations with various people. He stated that he had no information which had not been published in the Warren Report. He further stated that he had been trying to come up with a "scoop" for NBC, but that he had been unsuccessful in learning anything new. He stated that the Warren Commission Report came out with everything he had managed to learn by his own investigation and he knew of nothing which would shed any additional light on the matter.

Mr. MC MILLAN indicated a desire to have his notebook and since it has no apparent evidentiary value, it was therefore returned to him.

At the conclusion of interview, Mr. MC MILLAN expressed a desire to have instant conversation transcribed, stating that he had had his words misconstrued in the past in such conversations, and he wished to prevent recurrences. He was advised of the confidential nature of Bureau files and he stated that he would discuss this matter without a transcription providing he need not discuss specific conversations he had with people such as BALLEN and DE MOHRENSCHILDT. He stated he did not wish to compromise them or NBC.

Mr. MC MILLAN later in the day telephonically contacted the Augusta, Ga. RA and advised that he had telephoned NBC after being interviewed. He stated NBC had instructed him to co-operate fully in this matter and that if any additional information was desired, he would so cooperate. He reiterated, however, that he had no new information to provide.

Mr. MC MILLAN was thanked for his courtesy and advised that the information he had furnished would be provided to our Dallas Office, who would determine whether it would be desirable to further discuss the matter with him.

RECOMMENDATION

In view of contents in referenced Bulet to Atlanta dated 5/8/64, it is not deemed advisable to reinterview MC MILLAN, and it should also be noted that MC MILLAN declared he has failed to develop any additional information that has not already been reported in the Warren Commission Report.

Dear Mr. Rankin:

Reference is made to your letter dated August 6, 1964, and my letter dated August 19, 1964, concerning the possibility Lee Harvey Oswald had a telescopic sight mounted and sighted at the Irving Sport Shop, Irving, Texas. Enclosed with my letter were two copies of a self-explanatory communication from our Houston Office dated August 14, 1964, setting out the results of our interview of Mrs. Doris M. Dominey.

On September 29, 1964, and again on November 12, 1964, Mrs. J. T. (Gertrude) Hunter, 141 South Hastings, Irving, Texas, contacted our Dallas Office and expressed extreme displeasure with the President's Commission report because she stated it had "labeled her a liar." During the latter contact she also blamed the FBI and endeavored to ascertain the identity of the Special Agent from our Houston Office who interviewed Mrs. Dominey. This information was not furnished to her. Mrs. Hunter also indicated she was considering a suit against Mrs. Dominey, would still endeavor to identify the interviewing Agent through friends in Houston, Texas, and might write to the President's Commission.

We note through our coverage that Lane is producing no information that is new but is merely rehashing his false statements and allegations. Reurairtel 10/19/64 advising that your office has received a request from Robert L. Oswald for return of property belonging to Lee Harvey Oswald and/or Marina Oswald which was turned over to Dallas Office by Robert Oswald.

For your information, the President's Commission advised by letter dated 11/16/64 that it has requested of the Attorney General an opinion concerning the right of the Government to retain in its permanent possession certain of the items of physical evidence related to the assassination of President Kennedy. As soon as this point has been resolved by the President's Commission, your office will be notified as to what items may be returned to the various owners of evidence, including Robert Oswald. You are aware, of course, that Marina Oswald has also expressed an interest in having all items of evidence that belonged to Marina and/or Lee Harvey Oswald returned to her after the Government has no further need for such items of evidence. Inasmuch as a number of the items of evidence that were turned over to your office by Robert Oswald actually fall within the category of data belonging to Marina or Lee Harvey Oswald, you should contact Robert Oswald and discuss this matter with him. You should specifically determine if Robert Oswald has no objection to this Bureau returning to Marina all items that belonged to Marina or Lee Harvey Oswald, even though a number of such items of evidence were actually turned over to the Bureau by Robert Oswald. If Robert Oswald has no objection to such items of evidence being returned directly to Marina Oswald, you should obtain from him a brief signed statement wherein he indicates he has no objection to such data being turned over directly to Marina Oswald, when such items are disposed of by the U. In the event Robert Oswald insists that those items of evidence belonging to Marina and/or Robert Oswald which were turned over to this Bureau by Robert Oswald be returned directly to him, so advise the Bureau in order that this matter can be taken up with the Attorney General for an opinion.

NOTE:

During the investigation of Oswald, we have obtained considerable material that belonged to Marina and Lee Harvey Oswald. Some of this material was turned over to the FBI by the Dallas Police Department following its search of Oswald's residence in Dallas and in the Ruth Paine home. We also obtained considerable effects of Marina and Lee Harvey Oswald which were not initially seized by the Dallas Police Department from Robert Oswald. Dallas Office has been informed that both Robert and Marina Oswald have requested certain possessions of Marina and Lee Harvey Oswald be returned to them. Robert specifically requested that the material that he turned over to the Bureau be returned to him. Much of this material was obtained from the Ruth Paine residence by Robert Oswald after the assassination when Marina Oswald no longer resided there. Inasmuch as Robert and Marina Oswald have expressed an interest in many of the same items of evidence, desirable we attempt to clarify Robert's request for such data inasmuch as it appears the material in question belongs to Marina as the effects of her husband's estate.

On August 13, 1964, at the specific request of the President's Commission investigating the assassination of the late President John F. Kennedy, a Special Agent from our Houston Office interviewed Mrs. Doris M. Dominey, 8133 Locksley, Houston, Texas. This interview was primarily for the purpose of verifying statements made by Mrs. J. T. (Gertrude) Hunter, 141 South Hastings, Irving, Texas, in a deposition to a staff member of the President's Commission.

Mrs. Dominey's sister is married to Mrs. Hunter's brother. The information furnished by Mrs. Dominey is inconsistent in some respects with the information furnished by Mrs. Hunter. In addition, Mrs. Dominey volunteered information concerning Mrs. Hunter which she described as "personality traits." This information included the observations that Mrs. Hunter has a strange obsession for attempting to inject herself into any big event which comes to her attention, that Mrs. Hunter is likely to claim some personal knowledge of any major crime which receives much publicity and that the "entire family" was aware of the "tall tales" told by Mrs. Hunter and normally the family paid no attention to her. The results of our investigation in this matter, including the above gratuitous observations of Mrs. Dominey, were furnished to the President's Commission by letter dated August 19, 1964. Mrs. Dominey's observations were incorporated in the President's Commission report on pages 317 and 318.

REC 40 [illegible] 5291

On September 29, 1964, and again on November 12, 1964, Mrs. Hunter contacted our Dallas Office and expressed extreme displeasure with the President's Commission report because she stated it had "labeled her a liar." During the latter contact she also blamed the FBI and endeavored to ascertain the identity of the Special Agent from our Houston Office who interviewed Mrs. Dominey. This information was not furnished to her.

SUBJECT: OSWALD CASE

Shortly after noon today Joseph Cella, an Attorney in the Criminal Division of the Department, called SA Dwight J. Dalbey and said he has a problem that has come up in the Oswald case. Mrs. Oswald is demanding as her property both the gun which Oswald used to assassinate the President and the slugs taken from the President's body. Cella said he will take the position that as a matter of property law the slugs were abandoned at the time the gun was fired and no longer constitute the private property of Oswald or his heirs. There is a problem, however, as to the gun. It is not in violation of either the National Firearms Act or the Federal Firearms Act. Cella wanted to know whether the FBI had any experience which might lead him to the answer in this case.

SA Dalbey told Cella that we have no information which would be of assistance to him. The question of the right of a murderer in a Federal case, or his heirs to the return of the murder weapon privately owned and not in violation of any Federal statute, and where there is no trial in which the judge could be asked for a ruling, has not been raised to this Bureau so far as we know.

For the last 6 1/2 months I have been under a modified form of house arrest at this small hotel I'm at in Long Beach.

I was accused with conscious and prior falsehood of being a possible and/or probable assassin like the person Lee Oswald (according to the Warren Commission). For that reason a 24 hour a day surveillance started on my life which it appears an impossibility to withdraw. The conduct of the agents of the Bureau during this time has had such a profound degree of contempt, vicious cynicism, and scorn for the laws of our land, the honor of our courts and the rights of American citizens that it is my considered opinion that the honor of the Federal Bureau of Investigation, which you, Sir, did so much to build has been destroyed by these men to the degree that the only way it can be restored is for every man in the Federal Bureau of Investigation to go to the House of God of their conscience and on their knees humbly beg God for forgiveness for the terrible condition of their souls and vow never again to live the type of characterless life they have shown over the last 6 1/2 months.

For the love of God, I ask you to look into this matter and end this mockery of justice.

Sincerely,

Leo A. Gorman

AN AN[illegible] OF THE CHARACTER [illegible]E ASSASSIN OF PRESIDENT JOHN F. KENNEDY

Lee Harvey Oswald died before he was given the opportunity of a trial for the murde the President and thus the case of the assassination of President John F. Kennedy w never legally be solved. Oswald will always be recorded in American History as th suspected and probable assassin. We have the further knowledge that one of the sternest admonitions in the Bible is that of: "Judge not lest ye be judged."

With the above being accepted as a foundation, the reason I have undertaken this ana of the probable assassin of the President is that to the extent that the personality characteristics of this man and any man in general like him could constitute the mak up of a man who might and would possibly assassinate a President or other high government official, it would be a civic duty in conscience of a private citizen to communicate such an analysis to agencies which are charged by law with the respon bilities of safeguarding the life of the President and other officials since they have t obligation in prudence to consider possible individuals who might be construed as a cause for concern in the fulfilling of the tasks of their profession.

I don't know Oswald personally but taking the reports of him and the manifestations his character as given in the news media, I would hold that an atheist could perpetra this horrible crime. For the purposes of this analysis I will assume a fictional character named Oswald who does perpetrate this crime to reconcile the facts that, while the human being Oswald cannot be licitly judged, the mind naturally seeks a solution to the crime.

When a person believes in and has obedience to Almighty God, he accepts the existe and obligation to build a spiritual life and moral code as given by this Creator as ruling his conduct as a person individually and in association with other persons in society. For such a person, the center of his life is Almighty God. His actions, behavior and thoughts are performed with reference to God and His Laws. There al exists other possibilities as a philosophy of life. A person can deny that there is a one, true God in Heaven Who created life and rules men and all that exists, and in s doing the person who believes this way now makes himself the center of life and soc and in so doing, in effect, makes himself a god. The false "god" that an atheist ma of himself is all-powerful and almighty to the extent of the maximum effect that his will can have in life.

As opposed to the Creator Who is perfection itself and Whose goodness, mercy and justice are infinite, the false "god" that an atheist makes of himself may exercise his will to its maximum power in envy, hatred and malice. To such a person, if the impulse presents itself of beating his wife, since his will is the center of the univer and its exercise is held to be a good, he therefore beats his wife. If the envy, mali and hatred of our country and its constitutional head, the President of the United Sta as an office and the individual man who holds that office with courage and dedication, is powerful enough to present to the will of that atheist the desire to express these evil qualities and, further, if there is no moral frame of reference restraining this will but the will acting is the good sought after; then the person may take the life of

this man who was t[illegible]sident of our nation in an a[illegible]murder. Let us assume o fictional Oswald is s[illegible]a man.

Los Angeles Times by Robert E. Thompson datelined Dallas - approximately Noven 23, 1963.

"Lee H. Oswald, 24, an ex-Marine, was booked as Mr. Kennedy's alleged assassin after he had been interrogated for nearly eight hours by federal, state and local law enforcement officers, Dallas Police Chief J. E. Curry, told newsmen Oswald had not confessed.

But, the Chief said, he would be charged with murder based on physical evidence. . Investigators said they still have considerable work to do on the case but are convin that Oswald is guilty of the President's murder. Police said Oswald admitted he wc in the textbook warehouse building from which the shots that killed the President wc fired. Oswald would not account for his whereabouts at the time of the assassinatio police said. . . .but from the moment Oswald was apprehended, the primary object of the FBI, the Secret Service, Texas Rangers, and the Dallas Police was to deterr whether he fired the fatal shot at the President. Curry said Oswald admitted his Communist sympathies and activities in the pro-Castro "Fair Play for Cuba Commi But, beyond that, Curry said, Oswald would admit nothing. The Police Chief descri Oswald as a stoic."

The reason he refuses to account for his whereabouts and does not confess follows from his past pattern of behavior of defiance of authority. His face shows considera frustration as a general condition but from the news photos of him just before he wa shot while between officers J. R. Leavelle and L. C. Graves, as a specific condition his face and bearing show considerable self-composure and contentment.

In the police interrogation room while all the investigations from the different agenc stand around him, he has this self-assurance and refuses to confess a crime he committed since he feels a sense of power and superiority to the men around him as he watches their helplessness in the face of the effect of his will. Their chief interr is not in obtaining a confession from him as such. On this day, every man questioni him ardently wishes that this deed could be undone. He sees their uneasiness and exults in the fact that it was the action of his will that is the power in front of which they are helpless.

Most people seldom look at other persons as those persons are, but rather superim the qualities they consider important as an overlay to another's character. The ave person refers to the assassin as a "kook" or "nut". The reason they say this is tha they never look at the assassin as one human being and what he is like but rather pu this overlay of their own traits on him and come up with confusion. Nearly all of us spent the weekend of November 22-24 in a state of shock as a result of the difficulty in assimilating the enormity of this crime.

The average person starts out with the following premises:

(1) I love my country and assume that others do too.
(2) I would never murder any one and I assume that no one else would.

When a person comes along who retains in his character contradictions of both of these statements to a profound degree and is prepared and does act in reality with these evil elements in his character as motives, no one has to be ashamed of experi confusion in trying to understand such an individual.

While the suspect has this sense of power, there also is the fact of his lack of comprehension of the significance of what he has done since if, to him, the exercise of his will is the main good in life, then the social implications of his acts is a meaningless term. With such a person you could mention Kennedy, assassination, Connally and murder all day long and he wouldn't bat an eyelash or twitch a lip. These terms are of no importance to him.

The exercise of his will is important to him. The people who are hurt in this exercise of his will are extraneous to his interest. If he was shown a picture of Mrs. Kennedy and her children and was told that as a result of his action this young woman is now a widow and will have to bring up her children without a father, this would have no effect on him since his will acting is important to him and the suffering of this woman and her children are not.

For the purposes of speculation assuming he had not been shot, when he was visited in jail by his wife and mother, he'd ask for newspapers to read what people were saying about him and exult in the glow of his self-importance. This would be an example of how morally obtuse this man is. He would have a silent glee in all the attention being paid him but would not, because of his moral and spiritual condition, comprehend the abhorrence that the public would experience for his act. At the time of his trial assuming he was found guilty, the newspapers would report that Oswald maintained the same stoic composure as the judge sentenced him that he had all during the trial. The word here would not be stoic but uncomprehending. He would not comprehend the fact that society found his act reprehensible.

Assuming he was sentenced to life imprisonment, as the years passed and the Communist and leftist but non-Communist news media around the world raised the cry that Oswald was innocent and that the assassination was a rightest plot he would never conscience say anything to contradict this and would enjoy the attention given him.

As an example which contrasts with this line of behavior and might be considered as the way the average murderer from a motive of passion acts, they had a case in St. Louis where an Italian laborer killed his unfaithful wife in a very brutal and violent manner. For the first fifteen hours he was in custody, the man admitted nothing. At this point the suspect was reported as having going into a catatonic like fit in which he remained his crime fearfully sobbing all the while. Eight hours later after sleeping, he denied any previous verbal confession which he had made. What probably occurred was that the enormity of his act filled him with overwhelming emotions which caused him to act against his own self-interest.

A father of a young [illegible]s the child in anger and [illegible] immediately remorseful. The reason he expe[illegible]es remorse is because of t[illegible]e the father has for the child. If he didn't have this love, he wouldn't experience sorrow.

If the reader accepts as a speculation the foregoing analysis and then compares the picture of Oswald from the newspapers before and after he was shot, I would premi that the key feature on his face as he is shot is the lack of comprehension he has even of the significance of his own death.

The question presents itself of the spiritual implications of this event. At the split second that the assassin was squeezing the trigger to fire the bullet at 12:30 P.M. on the 22nd of November, Almighty God saw this and as the Ruler of the world, all the societies and people in it and every act and power to act that exists in His creatures could have caused a slight gust of wind which would have swerved the bul to miss the President by 2 inches. Our Lord had the power to do this, but He did not use it.

It is said that Our Lord never causes evil but rather permits it to occur and that ever then He draws good out of the evil act. This assassination was a singularly monstrously evil act.

(1) Why did our Lord permit it to occur?
(2) What good does our Lord expect to derive out of this evil act?
(3) What does He wish that we, His creatures, learn from this [illegible] an understanding which will reflect His glory and goodness?

Possibly we may have to put aside the image of the happy, pleasant America [illegible] problems which has millions of its citizens fleeing a confrontation with their co[illegible] by occupying their attention with subscription pay television, new cars with sid[illegible] windows that move at the press of a button and other distractions.

The purpose of our Lord in permitting this horrible crime to occur may well be that he is no longer willing to accept only the implicit belief in God that is the foundation of our society and country but wishes that this profession of allegiance and obedian[illegible] to Almighty God be publicly made and acted upon by both the individuals and insti[illegible] of our country.

This implicit belief exists when a person places his hand on the Bible in court and says that: "I will tell the truth and nothing but the truth, so help me God". The implication is that the words and the Judicial system that rests on their meaning ar[illegible] worthless without the witness of our Lord.

The people of our country have experienced much grief over this event and possibly some of it is excessive. The assassination of President John F. Kennedy, shocking though it is, has to be viewed in a spiritual perspective.

The life of John F. Kennedy belonged to Almighty God and when He, in His wisdom, chose to call his servant to his eternal reward whether on that day, two days before ten years before or ten years after November 22, 1963, was an expression of His

will--a will which h[illegible]e received by His creatures [illegible]. a submissiveness characterized by hum[illegible]y and meekness.

Is all the grief that our country experienced, both individually and collectively, equal to the sorrow that our Blessed Mother felt on the day that she saw her Son carry His cross along the road to Calvary and there watch Jesus be crucified?

As individuals and a country, it may be said that to the extent:

(a) of our faith in materialism that our scientists are our priests,
(b) of our faith in secular humanism that our psychiatrists are our priests,
(c) of our faith in Almighty God that our Catholic Priests are our Priests (i.e. author's partisan view - it would be a Rabbi or Minister for those other faiths).

Truths may be drawn from this terrible event that will show forth the glory of God and contribute to the possibility of drawing more souls to Him. As the natural life of John Kennedy ebbed away, despite the frantic efforts of our magnificant medical doctors and the facilities they have, the faiths of Materialism and Secular Humanism and its ministers, the scientists and psychiatrists, stood by helpless and despairing. One faith, that in Almighty God, demonstrated that it lives even through such terrible events in Glory and Majesty and provides to its adherents the spiritual power of the Love of God which has overcome death.

At the end of this analysis, it is necessary to mention once again that as a person who has left the living Oswald will never be able to be tried for this crime. It is the duty of a Christian to wish the mercy of our Lord on the soul of the man Lee Oswald and leave to Almighty God His judgement.

The only justification that can be presented for undertaking such an analysis is that the confusion most people experience due to the main suspect's untimely death, ignorance of motives and the utmost seriousness of the act perpetrated as of now lend themselves with a realistic knowledge of human weakness, to unscrupulous individuals using this situation to make unfounded charges against second parties and in turn leading to yet unproductive investigative work.

BACKGROUND:

Mrs. J. T. (Gertrude) Hunter of Irving, Texas, was one of two women who gave credence to an allegation made by an employee of a gun shop that Oswald, his wife and child visited the gun shop prior to the assassination to have a telescopic sight mounted and sighted on a rifle. Mrs. Hunter and the other woman stated they saw the Oswalds and directed them to the gun shop. Our investigation suggests the allegation was fabricated and that Mrs. Hunter was mistaken in her identification, or lied.

DETAILS:

On 9/29/64, after publication of the Commission's report and again on 11/12/64, Mrs. Hunter contacted our Dallas Office to express displeasure with the President's Commission Report because it "labeled her a liar." In her most recent contact she stated the FBI was also to blame and endeavored to learn the identity of an Agent from our Houston Office (Edwin Dalrymple) who interviewed Mrs. Doris N. Dominey, responsible for the information used by the Commission to discredit Mrs. Hunter. Mrs. Hunter indicated she might sue Mrs. Dominey. She stated she could not understand why the FBI took the word of Mrs. Dominey without checking out Dominey's personal reputation which she now claims is poor. Mrs. Hunter was advised the FBI had no control over the preparation and publication of the Commission's report, and any inquiries we have were at the specific request of the Commission.

REC-39 6298 Ex-114

Dallas advised Mrs. Hunter was upset at the beginning of the interview but became more cordial at the end stating she had no complaint with the FBI but was still angry with the Commission. She indicated she was still going to try to learn the Agent's identity who interviewed Mrs. Dominey through friends in Houston and might write the Commission. (She was not furnished SA Dalrymple's identity.)

Basis for Hunter Inquiry:

The Commission by letter 8/6/64, advised certain statements made by Mrs. Hunter, contained in a deposition obtained by a Commission staff member, needed verification. We were requested to interview Mrs. Dominey and specifically what areas to cover in our questioning.

On 8/13/64, Mrs. Dominey was interviewed and based on the information furnished by her it would appear the statements made by Mrs. Hunter in her deposition were inaccurate to say the least. At this time Mrs. Dominey stated she felt the authorities should be aware of certain "personality traits" of Mrs. Hunter. According to Mrs. Dominey, Mrs. Hunter had a strange obsession for attempting to inject herself into any big event which comes to her attention, that Mrs. Hunter is likely to claim some personal knowledge of any major crime which receives much publicity and that the entire family was aware of the "tall tales" told by Mrs. Hunter and normally the family paid no attention to her.

The results of this interview, including Mrs. Dominey's observations about Mrs. Hunter, were furnished to the Commission by Bureau letter dated 8/19/64. On pages 317 and 318 of the Commission's Report the above observations made by Mrs. Dominey, which were included with our letter to the Commission dated 8/19/64, are set out.

OBSERVATIONS:

The Commission advised us that for all intents and purposes its work terminated as of 9/24/64, when its report was presented to President Johnson. We now disseminate investigative developments to the Department. In view of the possibility of a suit by Mrs. Hunter which might indirectly involve us, it is felt this matter should be brought to the attention of the Department.

RECOMMENDATION:

That the attached c o m m u n i c a t i o ns relating to this matter be approved for transmittal to the Department, and the President's Commission.

For the last 6 1/2 months, I have been under a modified form of house arrest by agents of the Federal Bureau of Investigation because I was falsely accused of being a possible future assassin of the President.

During this time, those agents have demonstrated all the arrogance traditional with moral beggars and spiritual lepers who do not kneel before Almighty God and beg his forgiveness and express that repentance by reparation for their conduct.

It is said that Our Lord never causes evil but rather permits it to occur and that even then He draws good out of the evil act. This assassination was a singularly monstrously evil act.

(1) Why did our Lord permit it to occur?
(2) What good does our Lord expect to derive out of this evil act?
(3) What does He wish that we, His creatures, learn from this event? An understanding which will reflect His glory and goodness?

Possibly we may have to put aside the image of the happy, pleasant America with no problems which has millions of its citizens fleeing a confrontation with their conscience by occupying their attention with subscription pay television, new cars with side windows that move at the press of a button and other distractions.

The purpose of our Lord in permitting this horrible crime to occur may well be that he is no longer willing to accept only the implicit belief in God that is the foundation of our society and country but wishes that this profession of allegiance and obedience to Almighty God be publicly made and acted upon by both the individuals and institutions of our country.

This implicit belief exists when a person places his hand on the Bible in court and says that: "I will tell the truth and nothing but the truth, so help me God". The implication is that the words and the Judicial system that rests on their meaning are worthless without the witness of our Lord.

The people of our country have experienced much grief over this event and possibly some of it is excessive. The assassination of President John F. Kennedy, shocking though it is, has to be viewed in a spiritual perspective.

The life of John F. Kennedy belonged to Almighty God and when He, in His wisdom, chose to call his servant to his eternal reward whether on that day, two days before ten years before or ten years after November 22, 1963, was an expression of His

will--a will which h[redacted]e received by His creatur[redacted]. a submissiveness characterized by hu[redacted] and meekness.

Is all the grief that our country experienced, both individually and collectively, equal to the sorrow that our Blessed Mother felt on the day that she saw her Son carry His cross along the road to Calvary and there watch Jesus be crucified?

As individuals and a country, it may be said that to the extent:

(a) of our faith in materialism that our scientists are our priests,
(b) of our faith in secular humanism that our psychiatrists are our priests
(c) of our faith in Almighty God that our Catholic Priests are our Priests (i.e. author's partisan view - it would be a Rabbi or Minister for those other faiths).

Truths may be drawn from this terrible event that will show forth the glory of God a contribute to the possibility of drawing more souls to Him. As the natural life of John Kennedy ebbed away, despite the frantic efforts of our magnificant medical doctors and the facilities they have, the faiths of Materialism and Secular Humanism and its ministers, the scientists and psychiatrists, stood by helpless and despairing. One faith, that in Almighty God, demonstrated that it lives even through such terribl events in Glory and Majesty and provides to its adherents the spiritual power of the Love of God which has overcome death.

At the end of this analysis, it is necessary to mention once again that as a person w has left the living Oswald will never be able to be tried for this crime. It is the duty of a Christian to wish the mercy of our Lord on the soul of the man Lee Oswald and leave to Almighty God His judgement.

The only justification that can be presented for undertaking such an analysis is that t confusion most people experience due to the main suspect's untimely death, ignorance of motives and the utmost seriousness of the act perpetrated as of now lend themselv with a realistic knowledge of human weakness, to unscruplous individuals using this situation to make unfounded charges against second parties and in turn leading to gen unproductive investigative work.

Dear Ed:

I received your letter of November 13th, with enclosures, regarding Leo A. Gorman of Long Beach, California, and it was indeed thoughtful of you to bring this matter to our attention.

For your information, Gorman and his "Analysis" have been brought to our attention previously and appropriate data has been disseminated to the President's Commission investigating the assassination of President Kennedy and to the U. S. Secret Service. FBI investigation has determined on several occasions that Gorman indicated he has been followed by "Federal Agents." As a result of his background, no other investigation concerning him has been conducted.

ReBuairtel to Dallas, 10/12/64, directing that all the letters received by MARINA OSWALD, subsequent to the assassination, be examined to determine if anything of possible pertinence is noted among the letters.

There are enclosed for the Bureau 119 communications (such as letters, notes and cards) which are written completely, or in part, in a language other than English. Some of these letters and notes are attached to envelopes while others are not.

It is requested that the Translation Section of the FBI Laboratory examine these communications for the purpose of determining if any of the written material is of a nature pertinent to this investigation. It is pointed out that MARINA OSWALD has received thousands of letters (many with money donations), and most of these communications have been salutory and sympathetic in nature. It is very possible that the great majority of the enclosed communications are of like nature. Therefore, it is suggested that translation not be made of any of these communications unless it would appear that the contents of the communication are of pertinence to this investigation. In which event, it is also suggested the FBI Laboratory make two copies of the communications considered pertinent, one for the Bureau file and one for the Dallas file.

It is requested that all enclosures be returned to Dallas Office for return to MARINA OSWALD, per the request of her friend and advisor, Mr. DECLAN FORD. No copies of the enclosed communications have been made at the Dallas Office.

Dear Marina,

"Welcome!" You are now home at last. I think you are terribly tired. The reporters probably do not give you any rest. It is good thing that Mr. Martin can help you with this.

My mother is flying in tonight and will remain here for a week. I would like to see you sometime during the week if you so desire. I would like you to meet my mother, but this, of course, is not important.

I am trying to live a normal life and it is easy for me now. For you, of course, it is still difficult. Maybe you can begin living like others. One should try to hope that it is possible to live a normal life.

I can come over after you (with the children) at any time and we can spend the day here like we used to do in April. I am not afraid of the reporters. Let them ask, "Well, what happened when you saw Mrs. Oswald?" "Oh, we talked about the children as usual." I have learned how to talk with the reporters. You can answer questions, but it must bore them, that is, they will learn very little of the news.

With love,

Dear Marina,

I made a mistake, like it always happens: Your neighbor told us of a woman (not a girl, like you have noticed) who was deaf. (not blind) She is deaf and blind. It is true that it is easier for me to speak Russian now than in September, but even now it is difficult for me, and I often make mistakes. Why I am trying to learn the Russian language, I do not know. I have no talent for languages.

Soon we are flying to Philadelphia. I will write to you when we return.

Dear Mrs. Oswald,

Excuse me for not being able to write to you any better. I do not know much Russian. I am writing to you in order to offer you my condolences. You are a person just like I am. I know that you are sad. Because of that, I am also sad. There is much sadness in the world.

From Mexico, you and your husband arrived one day (October 4) at the city of Alice in Texas. You stopped at the place of my birth. I live close, in the city. This is my home. Now I am here, studying close to Chicago. Soon, on December 16, I will come to Dallas. I will visit with friends.

I respect you and love you. You are a woman. Women have many feelings. You are courteous. You have a heart. You suffer a great deal. I want to visit you this Monday, as your friend. Would you give me your permission to visit you?

You can write me a letter quickly by air mail. Write on this envelope:

A letter to Marina Oswald, from Serafima Zjakul, 14 Schwerin Street, Berlin W. 30.

December 16, 1963

I am sorry for you and for your little children; they are orphans without a father and you are a widow without a husband. Your husband is not a bandit and he did not kill President Kennedy. Your husband was a kind man. He loved the Soviet people and the Soviet Government. That is why he married you. However, American capitalists did not like him for this; they accused him of the assassination of President Kennedy, without any inquest and without any trial; they permitted capitalist malefactors to shoot your kind and innocent husband. I believe that President Kennedy was killed by the malefactors, who did not like him, because he insisted upon equal civil rights for Negroes. But murder will out. The truth as to who killed President Kennedy will also come out.

Please forgive me for not writing to you in Russian. I cannot write well in Russian. I am a native of Western Belorussia where I learned to write only in Polish.

I came to Germany to work immediately after the war, but I did not go back to the Homeland on account of Fascist propaganda against the Soviet Government. I regret now that I did not do it; it would have been better to have gone home immediately after the war.

With kind regards,

Dear Marina,

They say, it is your choice to speak or not to speak with anyone. That is, if you wanted to see me, then they would have given me the permission to meet with you. But I will not believe this till I hear it from your lips. That is why I am bothering you and want the rejection from you and not only from the Secret Service. I also want to know whether or not you received the letter, which I brought to Mr. Martin's House[illegible]n on Saturday, December 21st, (at 12:00 o'clock). Your card to me was mailed at 1:00 P.M., December 21st. Did you write it after you received a letter from me, or before? It is important to be before, isn't it? Did you receive a letter from me, which I wrote on the 27th, and which I brought to Mr. Martin's house on the same date?

Excuse me, Marina, I do not wish to bother you. As I said to Michael last night, [illegible] I generally do not try to extend my friendship when it is obvious to me, that the person does not want my friendship. Usually, it is possible to find that out straight from the person, from his face, his words - if he wants to speak or not. But in this situation - I do not know.

Sincerely yours,

/s/ Ruth

Dear Marina,

I would like you to come to dinner on Tuesday, the 7th, Wednesday, the 8th or Thursday the 9th. Perhaps it will be better not to plan on dinner. Simply come when you wish. I really want to see you very much. Somebody probably told you not to look at the past. I do not want to look at it. It is possible that someone has told you that it is better not to see me. Maybe they think, that I will find out and tell where you now live. They do not know, that I am an honest person; they do not know, that if I say that I will not tell something, I will not tell it. You know how honest I am. You may ask me not to say something about Marina, and I wouldn't say it even to Michael, if you so prefer. In general, I do not want to know anything except, that you are free, and that you know your rights.

At first I did not expect to see you because I know, that the Secret Service and the FBI wanted to ask you very many questions. But already six weeks have elapsed since the assassination of the President. It is time for you to have a rest. Do understand: I think, it is very important to assist the FBI and the Secret Service as much as we can (I forgot the idiom.) I told them everything I knew and answered all the questions. I trust, that you assisted them and cooperated with them in every way. (How should one say that?) This is good. It is important and it also helps you.

Here are the pictures which we took several weeks ago. I finished the film at Christmas time and got them back two days ago. Call me please, Marina, and tell me, that you received the pictures, the letter with its invitation and the letters which I wrote on the 21st, 26th and the 28th of December.

A friend and I are having a heated debate concerning the Report of the Warren Commission. He claims Lee Oswald, previous to the assination of our late President Kennedy, had shot and wounded a Canadian hockey player in the progress of a game. He claims he read this in a national magazine and believes this to be true.

I maintained that if this did have the slightest thread of truth in it, then it would have been included in the final publication of the Warren Commission. I searched this report from cover to cover and could find no mention of this incident.

Could you please inform me if your agency has any available information on this likely rumor. We have both agreed that your agency is the only and last place where we can find the true facts. I would appreciate a reply.

Dear Mr. Hoover:

Your letter of October 23, 1964 called to our attention that many of the reports made in connection with the investigation of President Kennedy's assassination, especially those pertaining to Michael and Ruth Paine and George and Jeanne deMohrenschildt, contained information of a highly personal nature. The Commission has been keenly aware that publication of such documents should take place only after serious consideration of all of the implications.

You are aware, of course, that a great deal of the information pertaining to individuals, some of it in the nature of gossip and rumor, was presented during the hearings before the Commission and is therefore on the record, which had to be published. The Commission has a responsibility to publish to the fullest extent possible the sources on which the Report is based. The documents being published, including reports of the investigative agencies, have been screened by the Commission staff in the course of its work and again in response to your letter of October 23, 1964. Every effort has been made to minimize the use of information of a highly personal nature consistent with the overriding requirement that the Commission make available to the public the fullest possible record of the investigation of the President's assassination.

REC-48

NOV 13 1964

Mr. J. Edgar Hoover
Director, Federal Bureau
of Investigation
Department of Justice
Washington, D. C.

Dear Mr. Hoover:

Your letter of November 12 responded to our suggestion that it might be desirable to investigate further the sources of the original description of the President's alleged assassin that was broadcast by the Dallas police at 12:45 p.m., November 22, 1963. We had also asked whether the police engaged in searching the Texas School Book Depository were notified of this description of the alleged assassin, and if so, when.

You state that in a letter of January 14, 1964 you notified the Commission that the Dallar Police Department advised that the broadcast was initiated on the basis of a description furnished by an unidentified citizen who had observed an individual approximating Oswald's description running from the Texas School Book Depository Building immediately after the assassination. Since there is other testimony that the description was also based on information given by Howard Brennan who stated that he saw the assassin in the southeast corner window of the building, it would seem desirable to ascertain as precisely as may be possible the sources--of which there seem to have been several--on which the description was based and how and by whom the information was transmitted to the Police Department to be put out by the radio dispatcher.

In its Report, the Commission has determined that considerable time--15 minutes or more--elapsed between the broadcast of the description and the discovery of the cartons and other material evidence in the southeast corner window of the sixth floor, 37 minutes elapsed before the discovery of the rifle. An even longer time had elapsed since Brennan first told a policeman of seeing the shots come from the southeast window. Yet the men searching in the building seem never to have been notified of Brennan's statement.

EX. PROC.

It is appreciated that the members of the Dallas Police Department Crime Laboratory may have been delayed by traffic in reaching the building, but there is ample evidence that search of the sixth floor had already been undertaken by other law enforcement officers. It would therefore be desirable to know when, if ever, information was transmitted to the officers engaged in searching the building that the shots had been fired from the sixth floor, or more specifically, from the southeast corner window on the sixth floor. It is appreciated that the failure to communicate this information to the officers in the building might well have been the result of the turmoil and uncertainty that prevailed, but it would still be desirable to have this information on the record and available for future reference and research.

Analysis and criticism of the Commission Report in the press (see attached article) has pointed to this significant time lag in the discovery of the carton, cartridges, and rifle. For future reference and research purposes, and to render the investigation more complete, it would be desirable to secure more precise information on these points.

Sincerely,

J. Lee Rankin

Warren Report

Case for the Prosecution

by Murray Kempton

We are the only appellate court the ghost of Lee Oswald will ever know, and so it becomes our duty to cast the coldest eye we can upon a version of the life of Lee Oswald and the death of John F. Kennedy that has been produced by men who have sifted through the memories of 552 witnesses. It is no consolation under these circumstances to read, in the Warren Commission's Report, page after page of ratiocination on the source of Lee Oswald's interior quarrel, and then to look in the appendix and discover that the Commission hired for its staff two Army historians and no psychiatrists. It heard only two witnesses who were psychiatrists, one of whom saw Oswald last when he was 13 and the other of whom saw only Jack Ruby. The Commission has acted faithful to the great tradition of a nation of persons who practice psychiatry without a license; we then can go forward with less shame to practice the Commission's profession without a license.

The report destroys most of the assumptions which fed speculations about conspiracy in Mr. Kennedy's murder. Those assumptions were always irresponsible, largely because government was irresponsible. You cannot, as an instance, usefully discuss the source of the wounds of the victim of a murder unless you have an autopsy report. But speculation is unavoidable, and it was hardly responsible of government to give speculation a broader excuse than it deserved by withholding any information so routine – however dreadful to read in this special case. Now, late in the tenth month, the Warren Commission releases the autopsy the Naval Hospital at Bethesda performed on Mr. Kennedy the night of his assassination. Hereafter it will be unreasonable to doubt that the shots came from the general area of the Texas School Book Depository, where Oswald was working. We have the ballistics tests which make it hard to believe that Mr. Kennedy was not killed by shots from the rifle found by the Dallas police in that Depository. We have a history of that rifle which persuades that Oswald was its owner. We have a chronicle of Oswald's day which destroys any reasonable basis for not believing that he could have done all the things he was accused of doing in all the places the police said he had been, and with such ease as to have no need of an accomplice. It is hard to believe that Oswald did not kill John F. Kennedy, and that he did not act alone.

This report then has drastically narrowed the area of doubt. What doubts remain turn out to be less about Oswald's guilt than about the method of his judges.

Once Oswald was dead, could any established institution give him a fair trial? The Warren Commission began with certain handicaps. It was, if not an established institution, at least a composite of established persons, sharing the commitments of their institutions. Most of its members were insiders examining the claim of that most absurd of all outsiders, a young man who alive had never been able to belong for any respectable period of time to anything, and who dead lay under the heaviest evidence that he had committed the ultimate act of alienation. The Commission, like most of us, had to want Lee Oswald to be guilty and guilty alone. We can then only test the Commission, not by its findings, which were in the main the findings of law enforcement agencies before the Commission staff came to Washington, but by how it went about its business.

There was the danger that the Commission, Oswald's lone guilt accepted, might, in its concern to set all doubts to rest, tidy up its case with evidence that is not evidence at all. Failure to avoid that danger is demonstrated by a particularly conspicuous exercise in argument from evidence which it seems to have gathered on its own.

The Commission has decided that Lee Oswald must have shot Mr. Kennedy twice, once in the neck at a range of 175 or so feet and then in the head at 265 feet. Oswald fired three shots and missed one entirely. If the first hit the President's neck and the second missed and the third hit the President's head, the report says, Oswald would have had no more than 5.6 seconds

to fire all three. If either the first or third had missed, Oswald would have had as many as eight seconds to complete the series.

One problem has always been whether Oswald was capable of firing that distance with that accuracy at that speed with a bolt-action rifle. Oswald was an average marksman when he left the Marines; he had fired only twice for record and never in combat. That is not a history of elaborate training; and what experience Oswald had in the service must have been entirely with semi-automatic weapons. In Russia, he does seem to have hunted with a shotgun; in Texas, he hunted occasionally with a .22. But no witness the Commission would accept testified that Oswald had practiced firing this rifle to any special extent, although Marina Oswald reported that she saw him on occasion with the rifle on his knee, opening and closing its bolt; and that could have improved his firing speed.

The Commission insists, from all this, that Oswald was an excellent rifleman by civilian standards. That is a statement without much meaning. At least 15 million adult males have been through the services in the last 20 years and most of them made the marksman's score, which was Oswald's rating the last time he fired for record.

But, in terms more concrete, the Commission accepts Marina Oswald's story that her husband fired a shot at Major-General Edwin Walker in April of 1963. That judgment strengthens assumptions about Oswald's bent for homicide, but it clearly damages assumptions about his skill with a gun. Walker was shot at while sitting at a table before an open window in his home. Oswald in that case would have fired into a lighted room at a stationary target with his rifle steady on a fence at a range less than a quarter of the distance from which he later killed Mr. Kennedy. And Oswald missed. His performance on November 22 can only be explained in terms of the one day of the golfer's life when he cuts 10 strokes off his normal score. The best argument is that such a rise over his ordinary level is implausible but by no means impossible.

The Commission, of course, cannot accept any explanation both so real and so irrational; it must offer us evidence that, on any normal day, Oswald could have shot the way he did. To fortify this proposition, the Ballistics Research Laboratory had three marksmen, using Oswald's rifle, fire at targets set at each of the three distances from which Oswald is thought to have shot Mr. Kennedy.

The Commission's three specimens were all certified by the National Rifle Association as Master Marksmen, the highest of the NRA's five gradations of skill and three rungs above Oswald's last-known rating on the ladder. That amounts to judging the probable performance of a golfer whose usual score is 85 by testing the course with men who regularly shoot near 70. Even so these Master Marksmen missed the target on five of their 18 shots, which is not much better than Oswald's average. One missed two of his three targets, a performance worse than Oswald's.

The Masters were instructed to shoot as fast as they could, which, of course, diminished their accuracy as it would have Oswald's. As the times turned out, if Oswald had had only 5.6 seconds to fire all three shots, he was faster with his rifle than these Masters were in four cases and slower only in two. If he had had eight seconds, he would still have accomplished the series in less time than one Master took.

And yet the Commission accepts without question the judgment of Ronald Simmons, its ballistics expert, that "on the basis of these results the probability of hitting the target . . . was relatively high."

If these tests indicate anything, it is that the probability of Oswald's hitting the target was rather low.

In the face of all the other evidence, I am ready to concede that Oswald might just this once have been functioning over his head. But it is hardly fair to his ghost for his judges to employ such a test standard for no better purpose than to elevate the implausible to the probable. That is the kind of thing we expect, not from judges, but from prosecutors of the better sort. In this instance we begin to see the Warren Report not as a judicial finding but as a presentation of a highly responsible prosecutor of the evidence gathered for him by a police force. It is to test such cases that we have an adversary system of criminal justice; with the best will in the world it is hard for courts to function without the minatory presence of a defense counsel.

Testimony of Eyewitnesses

Most of the speculation which has afflicted public discussion about the Kennedy assassination can be blamed on – or perhaps credited to – the refusal of many of us to accept the absurd. But the Warren Report, when it most persuades, is a recital of a series of accidents which ends by convincing us that the absurd really does explain it all, and that Mr. Kennedy really might as well have been killed by a bolt of lightning. Thinking of that, it is possible to sympathize with those who cannot accept such chaos except as the result of the work of a highly rationalized conspiracy.

There was always the danger that the Warren Commission, having accepted the only persuasive theory, would feel some duty to convince the unpersuaded by the desperate sort of carpentry which trims every piece to make it neat, even though the whole is untidy. The case against Oswald badly needs an unimpeachable direct eyewitness; and the Commission functioned in continual peril of losing its balance in the strain t

find the person whose testimony is indisputable.

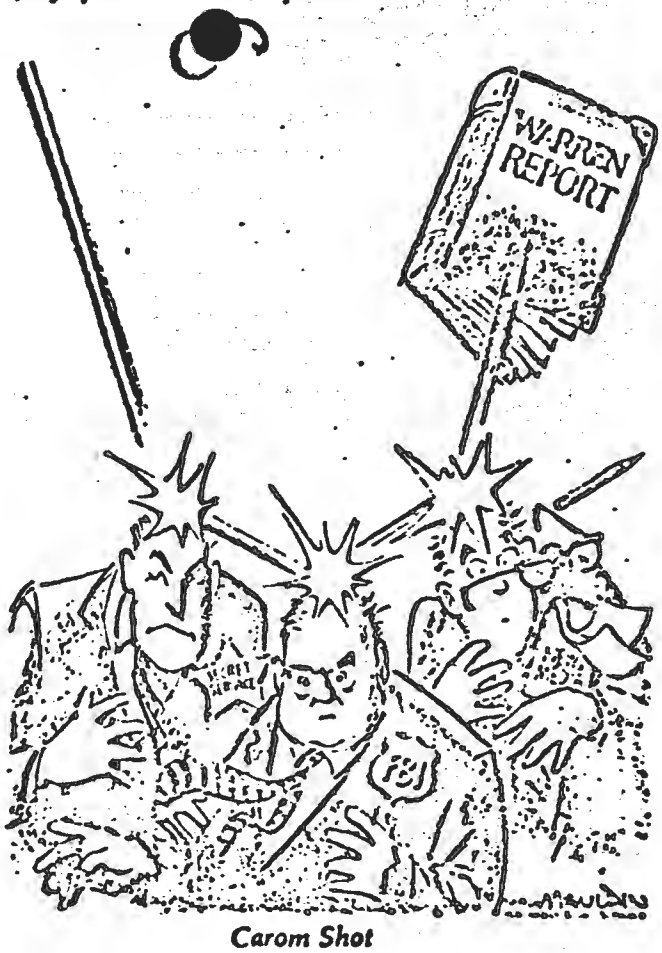
Most of the eyewitnesses have untidy memories, because all witnesses have unfidy memories, and because the disorder is worse in this case because they are all persons who were living through an hysterical moment. The first reports of their testimony produced conflicts which are the strongest reason why doubts of Oswald's guilt have until now persisted. The Commission, like the rest of us, had to pick and choose whom to believe among hundreds of clouded witnesses.

It gives special confidence to three witnesses to the Kennedy murder. The most important is Howard Brennan, a steamfitter who claims he saw a man firing a rifle from a sixth-floor window of the Texas School Book Depository. His description of that man seems to have been given to a policeman a few minutes after the shooting and is assumed by the Commission to have been the basis for the first police broadcast warning all patrols to look out for a suspect who would have looked very like Lee Oswald.

After Oswald's arrest, Brennan was taken to a police line-up where he said that Oswald looked like the man he had seen in the window, but that he could not make a positive identification. Brennan explained four weeks later that he had been sure that Oswald was the man but had refused to say so outright because he was afraid the Communists might kill him too. He told the Commission finally that he was sure that he had seen Oswald in the window.

Even so and quite properly, the Commission concludes its summary of his testimony with the statement that it could not base its conclusion that Oswald was the assassin on any identification by Brennan. But then, pages later, Brennan enters again with the flat reminder from the Commission that "Howard L. Brennan made a positive identification of Oswald as being the person in the window." The best of prosecutors tidy up matters that way between the day the witness testifies and the day they sum up to the jury; that is why we have defense attorneys.

The Commission is also impressed with the testimony of Ronald Fischer and Robert Edwards, who were standing in the street and also saw the man in the window. Fischer looked at him for 15 seconds – "he appeared uncomfortable . . . [he] was just there transfixed." The Dallas police do not seem to have found out about Fischer until a week after the assassination. Then they showed him a picture of Oswald, and Fischer said "that could have been the man," but he was "not sure." The Commission concedes that Fischer and Edwards did not see this suspect "clearly enough or long enough to identify him." That is an odd finding, set against Fischer's recollection that he watched the man intently for 15 seconds and saw enough of his expression to reach a judgment on the state of his nerves.



Carom Shot

But the Commission seems rather to appreciate high color when it is offered by a supporting witness. Mrs. Mary Bledsoe, Oswald's former landlady, saw him on the bus in which he began his errant progress from the Book Depository. "He looked," she said, "like a maniac . . . he looked so bad in his face, and his face was so distorted." No other witness who saw Oswald between the assassination of Mr. Kennedy and the murder of Tippit remembers him in any such state of frenzy, and only one remembers him in an unusual hurry; Mrs. Bledsoe is a precise witness, but we have to assume that high romance is her little weakness, and that the Warren Commission offers her description of Oswald with the fit upon him with the indulgence good prosecutors render to good witnesses.

William Whaley, the taxi-driver who drove Oswald after he left the bus, remembered that he was in a state so oddly calm under the circumstances that he even offered to give up the cab to a woman passenger who said she was in a hurry. The Commission is not too content with Whaley; he was an untidy witness, even though his misrecollections offered small substantial support to any case for Oswald.

Whaley picked Oswald out of the line-up with ease, although his reflections on that scene might explain

why any good prosecutor would find him untrustworthy. In that line-up, Whaley said, "You could have picked him out without identifying him by just listening because he was bawling out the policemen, telling them it wasn' right to put him in line with those teenagers." Whaley said that the line-up consisted of five young teenagers, all handcuffed together, and Oswald. That is the only account of Dallas police line-up techniques to be found in the report and the Commission is careful to correct it.

"Whaley's memory of the line-up," it says, "is inaccurate. There were four men altogether, not six men, in the line-up with Oswald." Two of these men were 18 and one was 24; Whaley may have exaggerated a little, but the truth, as provided by the Dallas authorities, is hardly a model of police practice.

There are, incidentally, strange gaps in the Commission's selection of witnesses. After he saw his man fire from the sixth floor, Brennan quickly "reported his observations to police officers." While he was talking to them, three more witnesses came out from the Depository. Brennan heard them tell the police that they had been on the fifth floor, that there had been three blasts directly overhead, and that they had even heard the ejected cartridge cases fall on the floor above them. This last detail is extraordinary, when we remember it was recorded by ears still ringing with a muzzle blast overhead. However, the Commission favors us with the results of detailed tests proving that it could have happened.

Yet it neglects to follow through on a detail much more important. Brennan's description, the Commission decides, was the source for the 12:45 police alarm describing a suspect very like Oswald. Brennan told a number of policemen. One of them, if the Commission is correct, must have called headquarters and given the material for the alarm. The way to find out whether the Commission is correct would be to find out who that policeman was. But Brennan's story, which I assume is true, is nowhere supported by the printed testimony of any of the policemen with whom he talked. The three witnesses who were on the fifth floor and heard the shots on the sixth wander in the same vacuum. Instead of going to the sixth floor to investigate, they sensibly went down to the street to find a policeman. Brennan says he heard them tell their story to a group of policemen. No policeman is cited to confirm this story either.

It is possible to guess why none is. We have every reason to believe that, no later than 12:40, a group of Dallas policemen had been told that the shots came from the sixth floor. "Around 1 p.m.," the Commission tells us, "Deputy Sheriff Luke Mooney noticed a pile of cartons in front of the window in the southeast corner of the sixth floor. Searching the area he found, at approximately 1:12 p.m., three empty cartridge cases on the floor near the window." Now that, if it means anything at all, describes a man who is searching blind and who has to depend on luck and patience to find what he does not know he is looking for. Mooney happened upon the assassin's ledge 25 minutes after Brennan had told a policeman precisely where it was, and he happened upon the cartridge cases 32 minutes after three witnesses had told a policeman where they heard them fall.

The Dallas Police

We come, by way of the Commission's fixed solicitude for the Dallas police, to the worst danger the Commission faced.

On November 29, Mr. Johnson appointed the Warren Commission and instructed it "to satisfy itself that the truth is known so far as it can be discovered" and to report its conclusions to him, "to the American people and to the world." The mention of the "world" rather gives the game away; the Commission was charged from the beginning with custody not just of the truth but also of the nation's reputation. At the time of the assassination, the Dallas Police Department was custodian of the national tradition of orderly justice, and the national reputation can hardly be served by too indignant recollections and too forceful strictures upon the Department's conduct. The Commission is disturbed by the disorder which ruled the Dallas jail at that weekend; it is far harsher on the news media than it is on the police. I confess a bias for the reporter over the cop; even so, the reporter is a private man and the cop is the representative of the public order and his conduct is what must be judged. The Commission says that Police Chief Curry may have erred out of his fixed belief in the public's right to know. That is a terrible excuse; the reporters who badgered Oswald could also claim that they were serving the public's right to know. The only policemen of my acquaintance who respect the public's right to know have been publicity hounds. That is what Chief Curry and Sheriff Decker give every evidence of being; lust for public notice was their only motive. The reporters should not have baited Lee Oswald; but, much more fundamental, the police should not have brought him out to be baited. Reporters go as far as society will let them; it was the duty of those cops to throw the reporters out. And the Commission has to be harsher on private citizens who were doing their job than it can be on policemen who refused to do theirs.

The Commission, in the most moderate terms, makes one revelation at which, I should think, Chief Justice Warren would normally climb walls.

For two days, Chief Curry had been blatting to the

papers any piece of evidence h[illegible]ht useful to his image. After Oswald was mur[illegible], J. Edgar Hoover called Curry and told him to shut up. Thereafter the chief stopped talking to reporters. On Sunday night District Attorney Henry Wade came to Curry, said the world was full of rumors that Oswald died an innocent victim and that he proposed to go before the press and set the record straight with full details of the case assembled by the police.

Curry, with the wrath of Hoover still hot upon him, refused to give Wade any of the police case. Wade went doggedly ahead from what he remembered hearing around the corridors over the prior two days and appeared on television to reassure the public that Oswald was guilty beyond any possible debate.

"Unfortunately," the Commission says, "he lacked a thorough grasp of the evidence and made a number of errors . . . [which] provided much of the basis for the myths and rumors that came into being soon after the President's death." Oswald was a defendant who had been executed without trial, and Wade saw fit to pillory his yet-unburied body for no higher need than the public relations of a law enforcement office whose public relations were beyond repair. And the Warren Commission can find nothing larger for criticism in this spectacle than that it was poor public relations.

The Commission, one supposes, has to be gentle with these people because it thinks that so much of the case against Oswald depends on belief in the findings of the Dallas Police Department. And that brings us to a final danger the Warren Commission could hardly have entirely avoided.

Under Surveillance

The Commission is a creation of the President and therefore responsible to him. Only persons possessed by the notion of some great public conspiracy could demand that the Commission appoint its own investigators and pursue its inquiry as though the Dallas police and the Federal Bureau of Investigation were suspect institutions.

The Department of State gave the Commission what it chose to; what it gave was useful to enlighten those of us who wondered how Marina Oswald got out of Russia and how Oswald got his passport in 24 hours, two puzzles which the Department's explanations suggest most satisfactorily were not puzzles at all. The Commission also mentions the surmise that Oswald had some connection with the Central Intelligence Agency; it might better have left the subject alone than attempt to rebut with the single piece of testimony which is here cited:

"Director McCone stated unequivocally that Oswald was not an agent, employee or informant of the CIA, and that the Agency never communicated with him in any manner or furnished him any compensation."

There is, of course, the tangential matter of the Commission's criticism of the Secret Service and of the FBI for failing to spot Oswald in advance. It seems strange that the Secret Service could report that its files did not contain the name of a single person in the whole Dallas-Fort Worth area who might shoot the President of the United States. But it is even stranger to find Earl Warren's name attached to a suggestion that police surveillance of private persons needs to be tightened in this country. The FBI seems to have underrated Oswald's potential for violence; but it kept him under surveillance rigorous enough to shock any of us at this invasion of personal privacy.

Here is a summary of Special Agent James P. Hosty's handling of the FBI's Oswald file from March, until November, 1963: Hosty had closed the Oswald file, but, in March, he went to Oswald's last-known address to see Marina for the routine check-up the FBI makes on Russian émigrés. The Oswalds had moved; their former landlady told Hosty that Oswald drank and beat his wife. That was enough to make Hosty reopen the file.

In April, New York informed him that Oswald was subscribing to the *Daily Worker*. Later New York informed him of the contents of a letter Oswald had written to the Fair Play for Cuba Committee. The FBI then found Oswald in New Orleans. A confidential informant told its agents that Oswald was not engaged in Communist activities. On October 10, the CIA informed the FBI that Oswald had visited the Russian Embassy. Early in November, Hosty learned that Oswald was back in Dallas and living with Mrs. Ruth Paine in Irving, Texas. Hosty conducted a limited survey of the Paines, decided that she seemed trustworthy, went to see her, was told that Oswald had gone to work at the Book Depository, made sure it was not a sensitive industry and decided to let Oswald go for awhile.

So the FBI keeps a check on subscribers to the *Daily Worker*, it has ways of opening letters to the Fair Play for Cuba Committee, its underground informants keep an eye on Oswald, and the CIA reports to it when Americans visit the Russian Embassy. That seems to be surveillance quite intensive enough for a man who seems rather to have bored the FBI. For compelling reasons, I wish the FBI had gone farther with Oswald, but, in general, it would seem to me to have gone if anything too far with anyone else. I should think Mr. Justice Warren would normally find this sort of thing excessive. But for the moment he worries over whether our police methods are strong enough. In sum, he has given us an immense and almost indisputable statement for the prosecution.

ReBulet to the President's Commission dated 11-12-64 concerning additional investigation suggested by the President's Commission in its letter 11-2-64.

Enclosed for the assistance of Dallas is one copy of a self-explanatory letter from the President's Commission dated 11-18-64 and a copy of an attachment thereto entitled "Warren Report, Case for the Prosecution" by Murray Kempton. The pertinent part of the article by Kempton appears on Page 16 in the brackets.

Every effort should be made to trace the exact steps and individuals involved in the broadcasting of the suspect alert by the Dallas Police Department on 11-22-63 at 12:45 p.m. You should also endeavor to ascertain whether any of the individuals searching the Texas School Book Depository Building were advised where the shots were fired from.

In connection with the above, your attention is directed to your airtel dated 1-9-64 in the above caption (VED:mja) concerning a contact with the Assistant Chief of Police Charles E. Batchelor on 1-9-64 by SA Vincent E. Drain.

The results of investigation should be set out in a chronological manner so as to give as clear a picture possible of the events leading up to the suspect broadcast, and the findings of the shell casings and cartons. These results should be incorporated in an investigative report.

NOTE:

The Commission has been receiving articles which are somewhat critical of some of their findings. One of these concerns how a suspect broadcast originated and further why it took approximately 40 minutes to locate the shell casings used in the assassination rifle. The Commission was advised in January, 1964, that we endeavored to ascertain the origin of the suspect broadcast and were advised by the Dallas Police Department that it was furnished by an unidentified citizen. The Commission gave credit for the broadcast to an eyewitness Howard Brennan who saw the assassin in the window. In a letter to the Commission on 11-12-64, we also advised the Commission that our investigation suggested that authorities were initially checking the assassin as a possible reason for the delay in finding the casings. The Commission in its most recent letter sets out more precisely why it desires this information. While it does not appear that anything significant will be developed at this late date, it is felt an effort should be made in view of the Commission's request.

Dear Sir:

I have been told that it is not necessary for me to write this, but I feel that perhaps I should. I do not feel that the person I am writing you about had anything to do with the Kennedy plot. After it happened, I went to my home in Rushville, Illinois. A farmer told me that a Rushvill resident has a son who lives in Dallas . He said that his son wrote him two weeks before the assassination that " something terrible is going to happen here in two weeks." HE LIVED NEXT DOOR TO OSWALD. He said that the FBI had been around interviewing everyone. So, as everyone tells me, you would have interviewed the nextdoor neighbors of Oswald, and this letter is not necessary. I do not believe that the boy would have written his father if he himself had anything to do with it. I think even Kennedy was aware that there was a risk in going there. However, I thought that if someone knew something it might be a clue. So, I am writing you.

PURPOSE:

To recommend that Columnist Walter Winchell be contacted for the identity of one "R. P." who he claims could substantiate the rumor that Oswald and Jack Ruby were associated in some manner.

DETAILS:

The 11/6/64, issue of the "New York Journal - American" on page 25 contains a syndicated column of Walter Winchell which in part relates to the rumor that Oswald and Ruby were associated. Mr. Winchell indicates many newspaper people are still working on this angle and that, "The person who supposedly could support the 'rumor' is initial'd R. P. of a Dallas suburb."

BACKGROUND:

The allegation that Oswald and Ruby were associated was initially put forth by New York Attorney Mark Lane. We have thoroughly investigated this allegation and have never developed one scintilla of evidence to substantiate the allegation.

We do not know the identity of the individual with the initials "R. P." however; Ruth Paine with whom the Oswalds associated resides in Irving, Texas, a suburb of Dallas. Ruth Paine has been interviewed on numerous occasions and has never indicated she knew of any association between Oswald and Ruby. In fact on 11/24/63, Paine specifically stated she did not know Ruby and had never heard the Oswalds mention Ruby. The only way we will

Memos to the Editor

THE COLUMN RECENTLY commented on American financial assistance to Bolivia, a nation of about 3½ million people. The allocations to date have been enormous . . . Many readers clipped and mailed the paragraph to the President. They received the following explanation from Washington's Agency for International Development:

"The White House has asked us to send the enclosed materials in response to the article by Walter Winchell." (Ed. Note: The article was not by WW. It was reprinted from the rear pages of newspapers.) "The recent Winchell column on Bolivia was generally right about the amount of U.S. aid to that country but wrong about the results. Our aid has helped prevent mass starvation, financial collapse and political chaos." . . . The gov't agency did not explain why U.S. generosity was repaid by Bolivian rioters who (according to the front pages) stoned our Flag and Embassy.

OUR READERS apparently follow through when we suggest that they clip and mail paragraphs such as the above to our government chiefs . . . Mrs. W. E. Griffin of Brooklyn sent us the following letter she got from the Dept. of Commerce . . . Their peculiar reply to a query here: "If we do not have diplomatic relations with Eastern Germany, why do we permit them to sell typewriters in the U.S.?" . . . The Washington reply: "Regarding the import of portable typewriters from the Soviet zone of Germany. The U.S. maintains trade relations with the Soviet Union and Communist-controlled areas of Eastern Europe because the U.S. government since 1946 has determined that it would not be in the national interest to place an embargo on trade with them."

Puzzlement Dept.: The U.S. places no embargo on trade with Soviet satellites overseas but does against Soviet slave Castro.

"SLAVE TRADE in the World Today" is a new film documentary. It reveals that in Saudi Arabia "over a half-million females are captives" . . . The loveliest of them are reserved for the ruling sheiks. The others are sold as slaves . . . The United States, which has squandered billions in aid to all Arabian countries, has never protested about this slave-marketing . . . "Why is that?" we asked a gov't executive . . . "Oh," was the indifferent reply, "we never interfere with another nation's customs. Slavery is an accepted thing there."

THE WALTER JENKINS scandal brought the following from a White House press room reader . . . During a Congressional hearing on Aug. 8, 1963, a witness representing the Mattachine Society of Washington (a group that seeks fair play for its homosexual membership) engaged in this exchange with Cong. John Dowdy, Democrat of Texas: Mr. Dowdy: "How many homosexuals did you say were here in Washington?" . . . Witness: "In the greater Washington area, we estimate a quarter of a million." . . . Mr. Dowdy: "And what is the population of the area?" . . . Witness: "About 2,500,000. We estimate that there are about 200,000 to a quarter of a million homosexuals in the government."

FORMER MOVIE STAR and Broadway song-and-dance man George Murphy's win over Pierre Salinger in California was "predicted" by several newsmen who covered their weeks-ago televised debate . . . They opinion'd: "Murphy's stage presence and poise came through like a pro. Salinger's snapping at his challenger didn't." . . . Mr. Murphy kept needling: "You Democrats have done nothing about desalinization, and California needs water badly."

Pierre apparently had not been briefed on this touchy subject. He let it pass . . . Instead of rebuttling: "The Administration has been doing it for over a year at Guantanamo."

THE CIVIL AERONAUTICS Board's findings in the airliner crash in Northern California last May 7 confirmed what newspapers reported at the time . . . That Francisco P. Gonzales, a native of the Philippines, was responsible for the disaster. That he shot both pilots to death. The plunge killed all 44 on board. Gonzales purchased $105,000 worth of insurance at the airport.

The Nov. 2 newspaper reports did not include this ironical twist: One of the slain pilots was the son of the FBI agent who chief'd the first crash probe.

MINOR CORRECTION DEPT.: Our paragraph on the Dallas people who were behind the full-page newspaper ad heckling JFK the morning he arrived in Dallas listed N. B. Hunt . . . We later double-checked to learn if he was kin to H. L. Hunt, the billionaire Texan, who often was questioned by reporters about his alleged backing of hate groups. He denied it . . . Nelson B. Hunt is not (as reported) H. L. Hunt's nephew . . He is his son.

THE WARREN Commission Report noted that out of about 25,000 persons interviewed (and re-interviewed) by the FBI following the assassination over 300 were requested to appear or give depositions to the Warren probers . . . They were trying to find out among other things, if Lee Oswald and Jack Ruby had ever met and discussed the murder . . . Veteran crime reporters offer this tip: There were 43 sworn depositions from persons who knew Ruby, including his roommate, George Senator. Not one of them has appeared before the Warren Commission . . . Many newspaper people are still working on the tip of an alleged Oswald-Ruby connection . . . The person who supposedly could support the "rumor" is initial'd R. P. of a Dallas suburb.

This reporter wonders why the twenty volumes of sworn depositions and affidavits constantly referred to in the Warren Report are not made public.

A LEADING NEWSLETTER reported: "More than 1,500 Jews were permitted to leave the Soviet Union for Israel during the past 12 months, but quietly so as not to antagonize the Arab countries. The move is believed to be motivated by a Soviet desire to have a rebuttal against widespread accusations of anti-Semitism in the Soviet Union."

New York organizations which check these things say: "In the past two years Russia permitted about a dozen Jews to join their families in Israel."

THE CONTROVERSY over the alleged cancer-remedy drug called Krebiozen has several cancer victims convinced that it has prolonged their lives. The doctor-promoters of the drug, according to Judge J. S. Perry of Chicago's Federal District Court, "have sent tremendously large amounts of money to overseas banks." . . . That news was front-paged in Chicago last month . . . This drug has been declared worthless (in treatment of cancer) by the Federal Food and Drug Administration and by the American Medical Association . . . The Chicago Tribune quoted the U.S. Attorney as stating: "They (the promoters) have withdrawn $1,700,000 from their laboratories since 1960."

Mark Lane

On October 19, 1964, the first, second and third confidential sources attended the Mark Lane - Melvin Belli debate sponsored by the CCI which was held at Manhattan Center, Eighth Avenue and 34th Street, New York City, on that date.

These sources stated the debate was conducted before a "sold out house" of several thousand people. Lane and Belli were allowed up to 40 minutes each to present their arguments and were subsequently permitted a 15 minute rebuttal period each.

These sources stated Lane spoke first and, for the most part, reiterated his long-held views on the circumstances surrounding the assassination of President John F. Kennedy in Dallas Texas on November 22, 1963. Lane charged that the Federal Bureau of Investigation (FBI), Secret Service and the Dallas Police Department have concealed evidence concerning the assassination from the American public. He also charged that many items of evidence in the case were ignored by the authorities in their desire to prove that no conspiracy was involved and that Lee Harvey Oswald was the lone killer of President Kennedy. Lane reviewed various questions which he alleged had not been answered by the investigation of the Warren Commission such as the actual number of shots fired, the "peculiar" circumstances surrounding the medical evaluation of the President's wounds, the "tampering" of the photograph of Lee Harvey Oswald which appeared in various magazines including "Life" and "Newsweek" and the "change" of the rifle involved from a German Mauser, caliber 7.65 millimeter to an Italian military carbine, caliber 6.5 millimeter. Lane alleged that these and many other questions had never been answered by any of the governmental authorities involved in the investigation.

These sources advised that during his speech Lane strongly implied that Lee Harvey Oswald was innocent of the slaying of President Kennedy.

CONFIDENTIAL

Mark Lane

These sources stated that Melvin Belli replied to the points raised by Lane by confining his remarks to the findings of the Warren Commission which, he stated, not only proved Oswald was guilty, but also that he was the lone assassin. He stated he was glad Lane had not made any definite claim of a conspiracy on the part of the FBI or the Secret Service in the investigation of the assassination. Belli pointed out all judgment as to Oswald's guilt must be based on available physical evidence such as the palm print found on the rifle. The nature of this evidence, he stated, must be the basis of any conclusion concerning the guilt of Oswald and a conclusion must not be reached based on rumors or conjecture.

These sources stated that Mr. Belli spoke in favor of the Warren report and stated that in a democracy such as the United States, the citizen must have faith in his governmental institutions like the FBI and the Secret Service. He stated that in his opinion, the findings of the Warren Commission report left no doubt whatsoever as to the guilt of Lee Harvey Oswald. In this connection, Mr. Belli stated that the widely circulated report that there had been a meeting prior to the assassination between Dallas Police Officer J.D. Tippit and Jack Ruby, was completely false. He stated numerous rumors and misstatements appeared after the assassination due to the general shock and confusion surrounding the situation in Dallas at that time.

These sources stated that in rebuttal, Mark Lane repeated much of his original statement and charged again that the Warren report did not contain all the facts in the assassination and had been written with no other purpose than to prove Oswald was the lone assassin. He again accused the FBI, the Secret Service and the Dallas Police Department of concealing, ignoring or changing evidence which tended to support the theory that Oswald could not have acted alone. Lane told the audience that he could not claim any conspiracy on the part of

government agencies because he had no solid evidence on which to base such a claim. He pointed out, however, that if he ever obtains such evidence, he will be "careful" to make it public not in the United States, but in some place like Paris, France or even Zanzibar.

These sources stated the meeting was concluded with a short question and answer period in which both Lane and Belli took part.

"NATIONAL GUARDIAN"

The "Guide to Subversive Organizations and Publications," revised and published as of December 1, 1961, prepared and released by the Committee on Un-American Activities, United States House of Representatives, Washington, D.C., contains the following concerning the "National Guardian":

Memo: C. D. Mitchell 11-27-64

re: Smith

Lee Harvey Oswald

The Director stated the Warren Commission had completely distorted the FBI's investigation of Oswald; that Oswald had not given any indication of being a violent type of individual, nor did we have any record of violence on his part until after the assassination. He was a "loner." He had gone to Russia, had defected, and had worked in a factory in Russia. Mr. Hoover said he personally thought it was wrong to grant Oswald a visa to return to this country and to allow him full citizenship rights when he did return.

He stated that none of Oswald's actions showed he was a threat to the President or that he was dangerous. The FBI did not know of his psychiatric treatment in New York until after the assassination. He stated that on the day of the assassination the police went into the building where Oswald worked, accompanied by a building employee. They encountered Oswald, at which time the building employee identified Oswald as an employee of the building with no further explanation.

The next question was whether the FBI was still investigating the Kennedy assassination. Mr. Hoover stated, "Yes--as long as any additional evidence is received."

The next question dealt with whether there was any foreign intrigue connected with Oswald. Mr. Hoover stated there was no indication of any foreign conspiracy either by Castro or the Soviets.

A reporter then asked about Oswald's requesting an interview with an FBI Agent at the time he distributed leaflets in New Orleans. Mr. Hoover stated Oswald had already been interviewed by FBI Agents as he was interviewed 3 days after he arrived back in the United States. The Director again made very clear the fact that Oswald was a man of nonviolence, according to our files.

For record purpose, I returned to the "briefing" at this point and resumed taking notes. The question was raised as to the Director's opinion regarding placing Secret Service under FBI jurisdiction. The Director replied that he was unalterably opposed to such a plan. He stated that Chief Jim Rowley is a good man, a former Special Agent, with whom we have excellent cooperation. He added, however, that Secret Service is hopelessly undermanned and in need of equipment. The Director summed up by stating we have enough problems of our own without taking on Secret Service's problems.

Re: Sarah McClendon, Background Briefing Sessions Group
Appointment with the Director, 10:00 a.m., 11-13-64

A reporter inquired as to the Director's opinion as to whether the Nation's press was out of line in coverage of the murder of Lee Harvey Oswald by Jack Ruby. The Director replied that with respect to the entire assassination matter there had been extreme unwarranted criticism of the press. He stated that the FBI never has any difficulty in working with the press. He explained that our policy was "no comment" until a case is solved. The Director added that, of course, the Dallas police should not have allowed the press in the basement of the building when Oswald was being removed.

A reporter inquired as to whether the FBI specifically warned the Dallas police that Jack Ruby planned to kill Lee Harvey Oswald. The Director stated that we had twice warned the Dallas police that information had been furnished the FBI that an attempt would be made against Oswald's life, however, Jack Ruby's name had not been given to the FBI.

A reporter asked the Director to explain the complete lack of alertness on the part of the Dallas police in guarding Oswald. The Director replied, off the record, that there is a lot of "ham" in all of us, however, the Dallas police were certainly "hamming it up" for the television cameras when they brought Oswald through the basement of the building. The Director explained that we had very strict rules in the FBI concerning the handling of prisoners and concerning the conduct of our investigations.

A reporter stated that the Warren Commission had criticized the FBI because the FBI had taken an unduly restrictive view of its authority in preventive intelligence. The reporter inquired as to whether the Director agreed with this criticism. The Director emphatically replied that the criticism by the Warren Commission was unwarranted, untrue, and a classic example of Monday morning quarterbacking. The Director again reiterated that the FBI had not known of any violence whatsoever in Oswald's background. As a result there had been no need or necessity to furnish Oswald's name to the Secret Service or to the Dallas police.

The following information has been received at the Bureau from a representative of the U. S. Senate, Committee on the Judiciary:

Virginia Goldstein (nee Robards) was found dead in her home by Chester A. Pichard, reportedly a State Department employee. According to newspaper accounts, her death resulted from a gunshot wound and was reported to be a suicide.

An informant of unknown reliability has alleged that [redacted]

Mrs. Goldstein had acquired certain confidential information, details of which were unknown to the informant. It was indicated, however, that this information concerned Lee Harvey Oswald and the assassination of the late President Kennedy.

Mrs. Goldstein's husband is reportedly connected with the Navy Department and was also alleged to be a long-time patient in New York Hospital, New York City.

The following background information was furnished concerning Virginia Goldstein:

She was allegedly born in Missouri, July 25, 1927, and entered the employment of the U. S. Government as a clerk-stenographer, Social Security Administration, in 1944. She allegedly resigned in 1945 and was re-employed as a secretary in the U. S. Foreign Service. It was indicated that she had served in Egypt, France, India, and Morocco, and that she was re-assigned to the State Department in September of 1959, where she remained until June, 1963. She was reportedly

transferred to the Office of Executive Director, Bureau of Security and Consular Affairs as Personnel Specialist.

Bufiles contain no identifiable information concerning Chester A. Pichard.

Bufiles do indicate that in March, 1964, the Metropolitan Police Department, Washington, D. C., requested a latent fingerprint examination and a ballistics examination from the FBI Laboratory in connection with the death of Virginia Robards Goldstein. The report from the Washington Metropolitan Police Department indicated that her death occurred on March 10, 1964, and that her home address was 902 Hughes Row, Northwest. No latent fingerprints of value were developed during the course of the laboratory examination requested by the Metropolitan Police Department and the ballistics examination indicated that Virginia Goldstein had been shot with a .38 Special Smith and Wesson revolver, Serial Number 9275.

The only additional information left in Bufiles concerning Virginia Goldstein appears in a report from the Department of State which was prepared in 1953, involving an investigation under Executive Order 10450 concerning Joan Jackson Leffingwell. The State Department report indicated that Joan Jackson Leffingwell formerly resided in Paris and was a roommate of Virginia Goldstein, a secretary in the Office of the Naval Attache, American Embassy, Paris, France.

WFO is requested to establish the circumstances surrounding the death of Virginia Goldstein. Background investigation should also be obtained concerning Chester A. Pichard and the files of the WFO should be checked for any information concerning him.

Submit the results of your inquiries promptly to the Bureau in form suitable for dissemination together with your recommendations as to whether further investigation regarding Pichard appears warranted.

NOTE:

Information appearing in this communication was made available to the Bureau on November 18, 1964, in the form of a memorandum from Jay Sourwine, of the Senate Internal Security Subcommittee. Since the allegations involve possible information relating to the Oswald case [redacted] it is believed that this matter should be checked out and the results furnished to the Department of State.

Synopsis: Supplemental listing of exhibits by item number and description prepared. Additional investigation concerning allegation by EUGENE P. ALDREDGE that location of mark on sidewalk on Elm Street about even with west end of Texas School Book Depository building (TSBD) convinced him OSWALD had help in assassination, reveals ALDREDGE considered by CARL FREUND, reporter for "The Dallas Morning News", with whom ALDREDGE

to September 17, 1964. MC MILLAN identified notebook as his and same returned to him. Additional investigation conducted concerning allegation by SYLVIA ODIO that she observed LEE HARVEY OSWALD in company of two Cuban or Mexican men sometime in late September or early October, 1963, without establishing identities of any of such individuals. Investigation reflects ADER LESTER JONES, Sayre, Oklahoma, who alleged he met individual, who was possibly OSWALD, who was going to kill rich men every chance he had, is considered mentally unbalanced but harmless. Previous investigation disproves allegation attributed to HAL KEESE, Medina, Texas, that OSWALD spent night before assassination at GEORGE PARR's. Name LEE HARVEY OSWALD entered on guest register of First Evangelical Lutheran Church, North Muskegon, Michigan, determined not to have been written by OSWALD. Allegation by NORMAN BAKER that individual known only as "MIKE" gave him photograph of OSWALD in California in July, 1963, with address in Dallas, Texas, not substantiated by investigation. Mrs. OTTO HEGEMANN alleges she saw man believed to be OSWALD at San Antonio, Texas, about 3:30 or 4:00 p.m., 11/21/63. Previous investigation has established OSWALD was at work in Dallas, Texas, on that date and travelled to Irving, Texas, upon completion of work on that day where he spent night. Allegation by ALBERTO DE JESUS SANTALO-FUERTES that OSWALD met Cuban Premier FIDEL CASTRO in Mexico prior to assassination and that OSWALD and JACK RUBY connected determined through interview of SANTALO-FUERTES to be his conclusions based on material he had read. Translation of letter in Russian dated 11/28/63 from WALTER NEUNSON, Camden, New Jersey, to MARINA OSWALD, containing offer to MARINA OSWALD to reside with NEUNSON and his family set forth. MARINA OSWALD and DECLAN FORD made available for review correspondence received by MARINA subsequent to assassination. MARINA contemplating attending University of Michigan starting January, 1965, to study English.

FEDERAL BUREAU OF INVESTIGATION

Date November 12, 1964

CARL FREUND, reporter, "The Dallas Morning News", Dallas, Texas, was interviewed at his place of employment.

FREUND advised that he recalls a telephone call from an individual named ALDREDGE a day or two after the release of the report of the President's Commission on the Assassination of President KENNEDY, during which the caller mentioned to him something about a bullet mark in the cement sidewalk on Elm Street in the immediate vicinity of the assassination site.

FREUND stated that the caller, who sounded to FREUND like a "mental case", was upset over the fact that the President's Commission had not covered this matter in its report.

FREUND stated that ALDREDGE just rambled on and on, and he just kept agreeing with whatever ALDREDGE was saying. FREUND stated that while some reporters will tell such a caller that they are too busy to talk to the caller, he has normally followed the policy of just listening to such a caller and agreeing with them, thus finding it much easier to get such a caller off the line.

FREUND stated that he believes that the President's Commission report was thorough and correct in its findings.

He further stated that he does recall on the afternoon of the day of the assassination some unidentified Deputy Sheriff had pointed out to him a chip in the sidewalk on Elm Street in the immediate vicinity of the assassination, which was thought at the time to possibly be a bullet scar. FREUND noted that apparently a bystander and witness of the assassination had said that he had been possibly hit near the eye by a flying piece of debris, possibly cement, from a ricochet bullet. FREUND does not know if this was ever proven to be so or not.

Date November 12, 1964

EUGENE P. ALDREDGE, 9304 Lenel, Dallas, Texas, was interviewed at his place of residence.

ALDREDGE advised that he is a disabled war veteran and noted that he is presently in ill health and soon is to undergo two operations.

ALDREDGE stated that earlier in 1964, he had taken a visiting relative to downtown Dallas to view the scene of the assassination of President KENNEDY. While looking around the general area, he had noticed what appeared to him to be a "bullet" mark in the cement sidewalk on Elm Street in the immediate location of where President KENNEDY had been shot.

ALDREDGE described this location as the north side of the sidewalk on Elm Street, "nine paces" east from a light pole, approximately four feet from the street curbing and in the middle of a large cement square block. He stated that the sidewalk is two squares wide between the park curbing and the street curbing. The "bullet" mark he was referring to is in the first square from the street. He further noted that the location is beyond the western end of the multifloor section of the Texas School Book Depository building.

ALDREDGE stated that he is in complete disagreement with the findings of the President's Commission as he believes that the Commission started out its investigation with the sole purpose in mind of proving that LEE HARVEY OSWALD had killed the President and that OSWALD alone was responsible for the President's death.

ALDREDGE stated that the whole investigation was a cover up for "the Soviet", who he personally feels was involved in the killing of President KENNEDY.

ALDREDGE stated that the "bullet" mark in the sidewalk proves his point. He stated that the "bullet" mark is in such a position that it had to have resulted from a shot from the western end of the Texas School Book Depository building, proving

to him that someone was in the other end of that building shooting at the President besides OSWALD in the east end of the building. He stated that this also proves that Texas Governor CONNALLY was not hit by the same bullet as President KENNEDY.

ALDREDGE stated that upon reading in the newspaper about the findings of the President's Commission, he telephoned CARL FREUND, a newspaper reporter with "The Dallas Morning News", and discussed this "bullet" scar matter with him. He stated that FREUND agreed with him at the time, "even though he might not say now that he had agreed with me".

ALDREDGE stated that the only other person he had discussed this matter with was an FBI Agent in Dallas who he telephoned several days after the President's Commission report was released.

He advised that several days later he had returned to the scene of the assassination and personally re-examined the "bullet" mark. He was greatly surprised to find that the "bullet" mark in the sidewalk had been covered over with some type of a plastic material. He described the patch job as a "sloppy" one in that the repairer had not even bothered to dig up the surrounding area and replace same with new cement.

ALDREDGE stated that this proves to him that the FBI has been "infiltrated by the Soviets", as the only persons he had spoken to about this matter was FREUND and the FBI Agent.

He stated that he believes that the hole was patched up to cover for the Soviets.

ALDREDGE stated that either on the day of or the day following the assassination, he had seen a local television program on which the television reporter was pointing to a "bullet" mark in the sidewalk on Elm Street. He stated that he has heard that the President's Commission confiscated the television film in order to cover up for the Soviets.

Date November 12, 1964

A small, partially filled gutted area, was inspected in the sidewalk on Elm Street, west of the intersection of Elm and Houston Streets, Dallas, Texas. This small scar in the sidewalk is approximately four inches long and one-half inch wide. It is located approximately four feet from the street curbing in the first large cement square block some thirty-three feet or nine paces east of the second lamppost from the corner of Elm and Houston Streets.

It was noted that some unknown type of material now partially covers this hole, but does not cover any of the surrounding area.

A small amount of this foreign matter was scraped up for examination purposes.

This same mark was previously checked on September 30, 1964, at which time it contained no filling or debris.

Under date of November 17, 1964, the FBI Laboratory advised as follows concerning a microscopic examination requested by the Dallas Office on November 6, 1964:

Specimens received November 10, 1964

Q618 Material from sidewalk

Results of examination:

Specimen Q618 consists of a number of fragmented white cotton yarns that appear to have originated from a piece of fabric. The cotton fibers in the yarns have become brittle indicating possible exposure to the elements for a period of time.

Specimen Q618 is too fragmented to be of value for future comparison and identification purposes.

By letter dated October 15, 1964, WALTER WINCHELL, well-known columnist from the "New York Journal American," furnished to the Director of the Federal Bureau of Investigation information which was furnished to Mr. WINCHELL by a [redacted] Set forth is this information verbatim:

"Mr. W. T. Johnson, who is an auto salesman in Norwalk, called. Three days after KENNEDY's assassination, two men he knows returned to Los Angeles. Their names are McCULL and COE. McCULL was employed by the Lincoln Dealership in Dallas and saw OSWALD when he came in for the demonstration ride by BOGARD. McCULL said BOGARD drove the car and OSWALD asked about a deposit on the car and said he would have the money in ten days.

"After the assassination the FBI questioned McCULL, he quit, bought a Lincoln which he says was stolen before he left Dallas, he didn't make a report to the police because he had no insurance.

"COE who was not employed in Dallas was at the Texas Book Depository Building during the assassination.

"JOHNSON knows both men to always be in need of money. They have skipped from hotels, etc. They returned to LA with ample funds. McCULL says he sold his house in the Bahamas which JOHNSON says he did have. JOHNSON knows that three weeks before the assassination the house was not for sale and believes it difficult to sell it so fast.

"McCULL is a disbarred attorney. McCULL and COE once had a contact club in Hollywood (where lonely people meet) and reopened another when they returned from Dallas. The first was called the Hollywood Contact Club. The second the West Coast Contact Club. They got in touch with JOHNSON because they wanted to buy a car. JOHNSON recently tried to get in touch with them because he had found a car for them. He couldn't locate them.

ERRFL

"The two men (McCULL and COE) live together as man and wife.

"JOHNSON thinks it strange they should come back from Dallas so soon after the assassination with lots of money. He didn't believe the story about the demonstration ride until after your article."

FEDERAL BUREAU OF INVESTIGATION

Date 10/29/64

Mr. WILLIAM THOMAS JOHNSON, [12202 Everest Street, Norwalk, California, an automobile salesman with Nowlings Oldsmobile, 7440 East Firestone Boulevard, Downey, California] was interviewed. With Mr. JOHNSON at the time of this interview was his wife, BETTY JOHNSON. At the outset of the interview Mr. JOHNSON stated that he was not very accurate in recalling dates and both he and his wife at times during the interview attempted to locate records to substantiate dates of various activities. However, they were unsuccessful in these attempts.

Mr. JOHNSON advised that he first meet HARRY McCALL when they were both employed at the Beverly Hills Ford Company on Wilshire Boulevard, Beverly Hills, California, as salesmen sometime during 1962.

Shortly thereafter McCALL left this position and told JOHNSON that he was going into business for himself with a friend named JOE COE.

JOHNSON was invited to visit McCALL's office and as he recalls the name of the business was the Hollywood Contact Club. This office was located in a fashionable apartment building near the Sunset Strip in West Los Angeles. It was JOHNSON's recollection that McCALL stated that this venture was being financed by a friend. JOHNSON stated that the nature of this Hollywood Contact Club as he understood it was to be some sort of a lonely hearts club with the idea to arrange companions for both men and women. After a few months JOHNSON stated that McCALL either called him or contacted him at which time he stated that his sponsor had left and the Hollywood Contact Club folded up due to lack of finances. JOHNSON at that time was [employed by the Escobar Ford Company] as a salesman in [Norwalk, California] JOHNSON advised that he was instrumental in securing jobs as salesmen for both McCALL and JOE COE at this agency. After a short time at this agency,

JOHNSON stated that McCALL and COE decided they were going to leave California and stated they were going to Texas. During this period when they were employed at the Escobar Ford and before leaving for Texas, JOHNSON stated it was apparent that they had very little money as they attempted to borrow some from JOHNSON and other individuals.

JOHNSON did not see or hear from these individuals again until one day shortly after the assassination of President KENNEDY he received a telephone call from McCALL. McCALL indicated that he was back in California and had re-established his former lonely hearts business. At McCALL's invitation JOHNSON visited McCALL at their new office. He could not recall the exact address but stated it was near the location of their first office.

JOHNSON indicated that to the best of his recollection this would have been in November 1963 after the assassination of President KENNEDY but before his burial. After thinking about this for a few minutes JOHNSON stated that he could not be certain as to the exact time but indicated that it would have been probably within a two or three week period after the President's death.

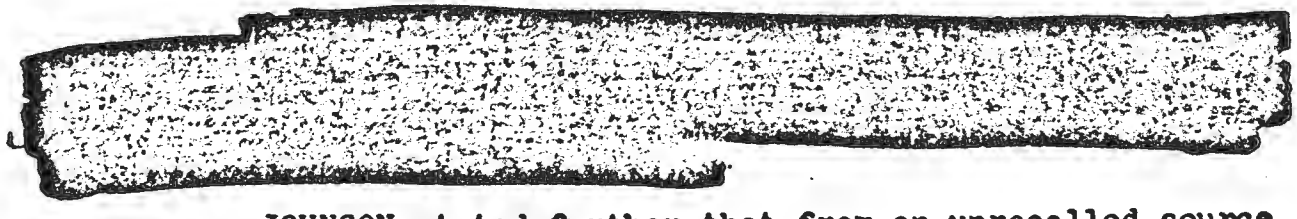
On the occasion of this visit JOHNSON stated that McCALL had mentioned that he had just returned from Dallas and the name of the new venture was the West Coast Contact Club. JOHNSON stated that judging from the appearance of the office and the furnishings therein both McCALL and COE must have had a considerable amount of money. JOHNSON related that he stated to McCALL that he must have been very successful in Texas to afford such an elaborate office. McCALL indicated that he had sold his home in the Bahamas and was using the money to finance this new business which he stated was to bring lonely people together as well as to try to arrange roommates for both men and women.

JOHNSON stated that he doubted this very much, as he recalled that before McCALL left for Texas he had mentioned that he owned this residence in the Bahamas and JOHNSON doubted if it would have been possible to sell this piece of real estate and receive the money in that short a time.

On this occasion McCALL advised that while he was in Dallas he was employed as an automobile salesman at a Lincoln-Mercury Dealership and that while he was employed there LEE HARVEY OSWALD came in to purchase an automobile. According to JOHNSON, McCALL stated that he had seen OSWALD and it was JOHNSON's recollection that McCALL stated he had talked to OSWALD who was interested in purchasing a Lincoln Continental.

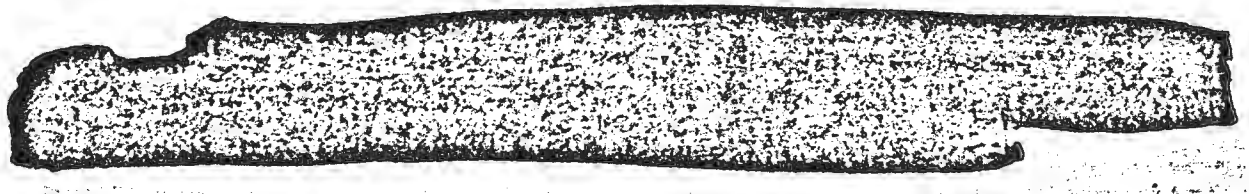
Further, McCALL stated that OSWALD was taken on a demonstration ride by a salesman at the agency and that both the salesman and OSWALD drove over the same route that President KENNEDY later traveled when he was assassinated. It was JOHNSON's recollection that McCALL stated that OSWALD did not have the necessary money to purchase this vehicle at the time but indicated that he would have it in about ten days. JOHNSON did not know the exact name of the Lincoln-Mercury Dealership in Dallas, nor does he recall if McCALL ever mentioned the name of the salesman who apparently drove OSWALD.

In addition to the above, McCALL related to JOHNSON that JOE COE was at the exact location at the time that President KENNEDY was assassinated.



JOHNSON stated further that from an unrecalled source he had heard that JOE COE was responsible for breaking up the marriage of McCALL and his wife. JOHNSON said he never saw McCALL's wife and never heard her name. JOHNSON also advised that he had also heard that McCALL was a disbarred attorney.

He described McCALL as a very well educated individual who had indicated that he had received a degree in psychology. He said he was a smooth talker.



During this conversation, McCALL further related that prior to leaving the Lincoln-Mercury Dealership in Dallas and returning to Los Angeles that he purchased a Lincoln Continental from the sales manager and that he paid for this vehicle in cash. JOHNSON said that McCALL had indicated that this vehicle had been ordered by a customer but the customer never showed up to purchase the Continental. JOHNSON recalls that he asked McCALL if he could see the car and McCALL stated that it was stolen in Dallas a few days after he purchased it. McCALL indicated that he had no insurance on the vehicle inasmuch as he paid cash. JOHNSON could not recall if this alleged theft was reported to the Dallas Police by McCALL. While in Dallas it was JOHNSON's understanding that JOE COE was not employed. JOHNSON stated it was common knowledge that JOE COE and McCALL lived together as man and wife.

Since this conversation with McCALL which JOHNSON feels certain was in November, 1963, he stated that he has not heard from McCALL or COE nor does he even know if they are in the California area.

JOHNSON stated that he gave no credence to this story which McCALL told him concerning the OSWALD incident at the Lincoln-Mercury Dealership until he read a column by WALTER WINCHELL in the October 13, 1964, edition of the "Los Angeles Herald Examiner." Mr. JOHNSON had a copy of this article in his possession and exhibited it to the interviewing Agents.

Upon reading this article he called the Los Angeles Examiner and was given a telephone number to reach Mr. WINCHELL at the Los Angeles Ambassador Hotel. JOHNSON stated he did not personally talk to Mr. WINCHELL but talked to one of his staff at which time he related the above story which McCALL told to him after returning from Dallas.

JOHNSON stated that he now considers McCALL and COE's return from Dallas with what he considers a considerable amount of money shortly after the President's assassination somewhat strange. He stated that he has no concrete reason or explanation for this feeling but felt that it was his duty to tell it to someone. JOHNSON said that he never did see any money nor did McCALL ever

tell him how much money he had but judging from the fact that they were practically penniless when they left Los Angeles to go to Dallas and apparently had a considerable amount of money when they returned, it was his feeling that this merited some investigation.

JOHNSON requested that in the event HARRY McCALL and JOE COE were interviewed that his name not be furnished to them as the source of the above information.

Man About Town

★

The Warren Report gives attention to the following: That a Dallas car salesman named Bogard (and other staffers) recalled giving a demonstration ride to a person who said his name was Lee Oswald . . . The Commission probers decided not to accept their sworn testimony "because" Mrs. Lee Oswald told them "Lee could not have been at that car agency that afternoon because he could not drive a car" . . . The salesmen testified the man they identified (from newspaper photos) was Oswald and that he drove the car from 60 to 70 mph on the freeway.

★

This reporter wonders why the probers accepted the word of Oswald's wife against the several car salesmen, considering how often they recalled her because of alleged discrepancies, etc. . . . Isn't it true, Mr. Chief Justice, that a filmed interview with Mr. Bogard and other salesmen (one of whom was allegedly fired for tipping Feds) has not been made public? Because some lawmen allegedly requested the network not to use it? . . . Why is that?

★

Isn't it also a fact that Mr. Bogard and a staffer at that car agency offered to submit to a lie-detector polygraph test? . . . And that it was refused because "such a test is not admissible in court"?

How does the Warren Report explain the following clash of testimony? . . . Mrs. Lee Oswald told them her husband could not drive; the salesmen said Oswald drove fast and Mrs. Paine (Mrs. Oswald's companion) told the probers she had been giving Oswald lessons in driving and that "he was showing some improvement" by November???

HARRY RANDOLPH McCALL was located at his place of employment, the Hollywood Dodge Automobile Company, at 4620 Hollywood Boulevard. At the outset of the interview, McCALL professed a complete lack of ability to remember names, dates and figures, but volunteered that he had records at his residence which could give a better account of his personal activities.

Accordingly, the interviewing Agents accompanied McCALL to his residence at 1116 North New Hampshire, Apartment 3, Los Angeles, California. At this residence was JOE WESLEY COE. Interview was conducted with McCALL in the presence of JOE COE who at McCALL's request secured available papers to verify employments, residences and dates.

McCALL related that he and JOE COE went to Dallas, Texas, in approximately October 1963. He stated that prior to leaving for Dallas he had been working as an automobile salesman at the California Ford Company in Glendale, California. He mentioned that this had been his main employment in the Los Angeles area but that he had not been too successful in this field and they thought that perhaps a change of locale would bring about a change in their luck. In addition to his employments as an automobile salesman, McCALL stated that he and JOE COE opened the Hollywood Contact Club which he described as a lonely hearts club and that he operated this from his residence at 1200 Alta Loma Drive in Hollywood. He also stated that upon his return from Dallas he re-established the same type business and this time the name of this operation was the West Coast Contact Club. This was also operated from the Alta Loma address which is actually the Sunset-Marquis Apartment House, as well as the Braemer-Lesser Apartment House located at 8440 Sunset Boulevard. He stated that both ventures lasted approximately two or three months but were financial failures. He stated that he and COE pooled

what little money they had to form these ventures and that they had no other financial backing.

McCALL also related that a number of years ago he purchased a home in the Bahamas for $6000. Prior to going to Texas he sold this property to a CHARLES D. NORRIS for $3500. He advised that NORRIS was with the U. S. Air Force and was stationed in the Bahamas. McCALL stated that he sold this property for this amount of money mainly because it was termite infested and it was too far away for him to look after properly. McCALL advised that at the time of the sale he received $300 in cash and was to receive $200 per month in 16 monthly installments until the balance of the loan was satisfied. The sale was handled by CHARLES MOSS, Eleuthera, Governor's Harbour, Bahamas, where the property was also located.

McCALL advised that with this $300 and the prospect of $200 per month as a sustainer he felt that he and COE could manage until they became established or secured a job in Dallas.

They answered an advertisement in a Los Angeles newspaper and drove a 1960 Chevrolet which they obtained from a Beverly Hills Agency. This vehicle he recalled had a stick shift and they delivered this to a person whom he could not recall in Dallas. It was his recollection, however, that they were paid $50 for delivering this vehicle.

Shortly after arriving in Dallas, McCALL secured a job as a salesman with the Downtown Lincoln-Mercury Agency which was located on Commerce Street. He claimed that he never sold a car and never received any money while employed there. He advised that when President KENNEDY was assassinated and when it was broadcast over the radio that LEE HARVEY OSWALD was the individual who shot the President, a salesman whose name he could not readily recall advised him and most of the other salesmen at the dealership that he had seen OSWALD and that OSWALD had been into the agency to purchase a vehicle a week or so earlier.

He was asked if the name of this salesman could have been BOGARD. McCALL readily recognized the name and states positively that that was the name of the individual that he was referring to.

According to BOGARD, OSWALD drove over the same route that President KENNEDY subsequently traveled on the date he was assassinated, and that OSWALD drove very fast. The car in question

that was used on that date for the demonstration, according to McCALL, was a red Comet Caliente, Model 210, that had a four speed transmission. OSWALD reportedly had no money at the time but stated that he would have the money to pay cash for it in about ten days or two weeks.

According to McCALL, BOGARD recalled this episode specifically as they either ran out of gas or else BOGARD had to pay for gas upon their return since they had traveled such a distance on this demonstration ride. McCALL mentioned that it was customary for a test or demonstration ride to consist of a run of several blocks, but it was his recollection that BOGARD stated they were gone for approximately 45 minutes. To the best of his recollection, McCALL recalls that BOGARD at the time described where he and OSWALD had driven, but McCALL said that he was not familiar enough with Dallas to state the exact route that was taken.

Also BOGARD supposedly stated that after the demonstration ride he wrote the name of LEE OSWALD on a card and gave it to another salesman in the event that OSWALD came in while BOGARD was not present. McCALL said he does not recall the name of this salesman but believed him to be short in stature.

McCALL related that he had no firsthand knowledge of the above-described events. He also added that he could not state that he ever saw OSWALD. McCALL related that he specifically recalls that one of the salesmen who was present at the time that BOGARD was relating this story mentioned that this incident should be reported to the FBI. When it appeared that nobody was going to do so this individual himself called the FBI and reported the incident.

McCALL stated he was present at this time and stated that this individual turned to the sales manager and asked for his home telephone number. The manager wanted to know why he wanted this and the salesman answered that he was talking to the FBI and they wanted to know this information. Shortly thereafter a representative or representatives from the FBI came to the agency and questioned the sales manager and BOGARD. McCALL stated that he was not questioned by the FBI. When asked if this individual's name could have been LAWRENCE, MC CALL stated in the affirmative and he recalled that his name was JACK LAWRENCE.

According to McCALL, sometime later he left this agency and went to work for the Eagle Lincoln-Mercury Dealership in Dallas, Texas. McCALL was unable to recall the exact dates that he was in Dallas but feels that it was from approximately October 1963 until January 1964. He stated that JOE COE was never employed while in Dallas and he also related that both he and JOE COE resided at two residences. The only one that he could readily recall was the Chateau DeVille which he stated was across the bridge on the south side of town.

In January 1964, McCALL advised that he received approximately $1200 which was the balance of the loan from the sale of his home. He mentioned that he deposited this in the Mercantile National Bank, Dallas, Texas. He advised that he discounted the note.

With this money and since he had had no success in Dallas he and COE decided to return to Los Angeles.

He advised that they went to an agency which was located behind the Big D Auction Center and obtained a 1963 Comet which they drove to Los Angeles. He recalls that this was delivered to a small dealer in the Southwest section of Los Angeles.

McCALL stated he never purchased any vehicle while in Dallas since he had the use of a demonstrator which was given to him by his employers and it was his recollection these cars were also Comets.

Upon returning to Los Angeles, McCALL stated that he and COE resided at the Sunset-Marquis Apartments, 1200 Alta Loma, and re-established the West Coast Contact Club. He produced a receipt at this time which indicated that they rented this apartment on January 10, 1964.

As has been mentioned previously he stated they had limited success and moved from the Sunset-Marquis to the Braemer-Lesser Apartments as this afforded a better location on Sunset Boulevard.

They were evicted from this latter apartment as the manager stated they secured the apartment for a residence and not a business and therefore he evicted them.

McCALL stated that as a result of this eviction they lost their clientele and disbanded the business. For this business venture, McCALL stated that he utilized the balance of the $1200 from the sale of his property and also from income tax refunds of his and COE's.

Since that time, McCALL advised he has been employed at various agencies as an automobile salesman in the Los Angeles, California, area.

McCALL related that he mentioned the OSWALD incident, occurring at the Lincoln-Mercury Dealership in Dallas, to a Los Angeles man and he stated that he told this individual that he bought a Lincoln Continental in Dallas. He told this individual that he no longer had the Lincoln as it was stolen a short time after he purchased the vehicle and that it was a total loss since he had no insurance. McCALL stated that he mentioned this situation to this individual as he considered this person somewhat of a "big dealer" who in the past had tried to impress McCALL with his importance and also had tried to convey to McCALL the fact that he was somewhat wealthy. McCALL advised that he never told any individual that a salesman was the one that drove OSWALD on the demonstration ride and he also advised that he never told any individual that OSWALD had attempted to purchase a Lincoln Continental.

McCALL advised that he has not seen this individual since he related the above incident to him.

With regard to JOE COE, McCALL stated that COE has no personal knowledge of the affairs that took place in Dallas and he only knows what McCALL has related to him. This information is set forth above.

McCALL made available for perusal two documents relating to the property he had owned in the Bahama Islands. These "indentures" or deeds related, he advised, to the property he had sold. One indenture dated May 18, 1962, in the Bahama Islands, Governor's Harbour, Eleuthera, was from CHARLOTTE BLODGETT of San Diego, California, selling for $6000 to HARRY R. McCALL of Greenville, South Carolina, a minister of religion, certain described property. This document was notarized by ALICE L. JOHNSON, 2261 North Lake Avenue (no city given). With regard to the date of May 18, 1962, McCALL stated that although he had

purchased this property many years ago he had not been able to obtain a deed for it even though he had gone so far as to try legal action to get the deed. However, suddenly CHARLOTTE BLODGETT voluntarily furnished him with a deed to the property.

The second indenture was dated June 10, 1963, and was between HARRY R. McCALL of Los Angeles, California, and CHARLES D. NORRIS, selling to NORRIS the property described in the previously referred to indenture for $3500. It was indicated there was to be an initial payment of $300 with the remaining $3200 to be paid in 16 equal monthly installments.

WILLIAM CERVENAK, Major, U. S. Air Force, witnessed this document for NORRIS while JOE W. COE witnessed the document for McCALL.

McCALL also produced a deposit slip which reflects that on January 8, 1964, a sum of $1196.41 was deposited in the Mercantile National Bank in Dallas through the Citizens National Bank, Leesburg, Florida, account number 06046.

McCall also produced two canceled checks of the Sunset-Wetherly Branch of the Bank of America which reflects that on January 9, 1964, the sum of $600 was obtained from the Mercantile National Bank in Dallas and on January 10, 1964, the sum of $590. These transactions were handled by mail.

McCALL produced a record which reflects that he served in the U. S. Navy from June 11, 1943, until May 10, 1947, at which time he received an honorable discharge as a radio electrician's mate, second class. His Navy serial number was 829-48-69.

McCALL voluntarily advised that he was a graduate from Furman University, Greenville, South Carolina, where he received an AB degree in Psychology in 1951. He also stated that he was an ordained minister having graduated from the Southeast Baptist Theological Seminary in Wake Forest, North Carolina. McCALL stated that he had formerly been married to BARBARA LACKEY and that they had five children. He stated that they were divorced in 1961 at Jacksonville, Florida.

1.

PAUL BUCHANAN, Mayor of Barbourville, Kentucky, telephonically furnished the following information:

RED LINSEY, at about 3:00 P.M. on October 17, 1964, was preaching in the yard of the courthouse, Barbourville, Kentucky. LINSEY made the statement that he had a tape recording of the plot of OSWALD to assassinate President JOHN KENNEDY and that President LYNDON B. JOHNSON had knowledge of this plot to assassinate President Kennedy prior to the assassination. LINSEY stated that the Federal Bureau of Investigation had interviewed him on three occasions concerning the tape recording, and the Federal Bureau of Investigation did not insist that he make the tape recording available since the Federal Bureau of Investigation knew that he (LINSEY) would not live five minutes after the tape recording was turned over to them. LINSEY promised the ones listening to him that he would make the tape recording available to the public prior to the coming presidential election.

Mayor BUCHANAN advised that he and Chief of Police, TOM COLLINSWORTH, asked LINSEY for identification which LINSEY at first refused to produce. He advised that LINSEY was informed that he had a choice of going to jail or else produce some identification. LINSEY produced a Social Security Card bearing the name HERBERT T. LINSEY and stated that he resided at St. Charles, Missouri. LINSEY stated that he did not have an automobile driver's license and that he traveled by bus. LINSEY stated that he was fifty years of age, and BUCHANAN described him as a white male, 5'8", 135 to 150 pounds, red hair, red face. two teeth missing in front

LINSEY told BUCHANAN that before arresting him, he had better get in contact with Colonel ALFRED GUS KRAGE, home phone 731-7544, office phone 961-1441, Cincinnati, Ohio. LINSEY would not further identify Colonel KRAGER or state whether KRAGER was an army officer or a police officer.

It was pointed out by the Cincinnati Office that Colonel KARGER is Chairman of the U.S. Citizens Committee, Inc., Cincinnati, Ohio, a civic and patriotic organization which, through its programs, brings to the attention of the public information about communism. Colonel KARGER is a well-known public speaker and has spoken throughout the United States. He could not account for LINSEY having his residence and office telephone numbers.

Mr. BALLEN was asked if he had recently discussed any matter in regard to the LEE HARVEY OSWALD investigation with anyone staying at the Sheraton-Dallas Hotel.

Mr. BALLEN stated that he had discussed in detail his knowledge of OSWALD with GEORGE McMILLAN of the National Broadcasting Company (NBC) who had stayed for several weeks at the Sheraton-Dallas Hotel until on or about September 16, 1964.

Mr. BALLEN stated that GEORGE McMILLAN was in Dallas in connection with his assignment by NBC to prepare a telecast program of the LEE HARVEY OSWALD assassination of President KENNEDY to be shown on NBC television on the day of the release of the report of the President's Commission report.

He stated that McMILLAN had originally contacted him in regard to his, BALLEN's, knowledge of OSWALD and the association between OSWALD and GEORGE DeMOHRENSCHILDT. BALLEN stated that he had gone into detail regarding this matter and had even helped assist in arranging for DeMOHRENSCHILDT to meet McMILLAN in Haiti to film an interview for the NBC Special assassination program.

BALLEN stated that he frequently visited and talked by telephone with McMILLAN in the Sheraton-Dallas Hotel.

BALLEN stated that he does not recall the room number occupied by McMILLAN at the Sheraton, but remembers that it was above the 20th floor.

By communication dated November 19, 1964, the Savannah Office advised that after numerous attempts, Mr. GEORGE MC MILLAN, Post Office Box 229, Aiken, South Carolina, was contacted on November 19, 1964. He advised that he was the owner of the notebook of the Sheraton Hotels and Motor Inns which he had inadvertently left at the Sheraton-Dallas Hotel while staying there in September, 1964.

Mr. MC MILLAN stated he is a free lance writer and at the time he was in Dallas, he had been working on a "white paper" of the assassination of President KENNEDY for the National Broadcasting Company.

He stated that a "white paper" is a format used by the National Broadcasting Company for reports on controversial matters. He stated the National Broadcasting Company discarded their original idea to do a report on the assassination when they learned that the President's Commission was doing a good job on it and that the President's Commission intended to make a full report. The National Broadcasting Company then decided to do a commentary on the President's Commission report.

Mr. MC MILLAN stated that "GDM" as mentioned in the notebook stands for GEORGE DE MOHRENSCHILDT who, he had learned, knew LEE HARVEY OSWALD well. MC MILLAN stated he had spoke with DE MOHRENSCHILDT at Haiti, and he also talked with SAMUEL BALLEN about the assassination.

Mr. MC MILLAN stated that none of the writing in the notebook had any special significance but merely contained notes jotted down by him concerning his observations and conversations with various people. He stated he had no information which had not been published in the President's Commission report. He further advised that he had been trying to come up with a "scoop" for the National Broadcasting Company, but that he had been unsuccessful in learning anything new. He stated the President's Commission report came out with everything he had managed to learn by his own investigation, and he knew of nothing which would shed any additional light on the matter.

Mr. MC MILLAN indicated a desire to have his notebook returned to him and since it had no apparent evidentiary value, it was, therefore, returned to him.

Mrs. HILDA GISER, manager, Lawnview Motel, 5405 Lawnview Avenue, Dallas, Texas, advised that during September, 1963, highway US 80 ran past the side of this motel, which is located on the southeast side of Dallas. She noted that Tenison Memorial Park is located several blocks north of the motel as is also a public golf course.

Mrs. GISER stated that she recalls some months ago three men had stayed in Room # 150 at this motel for about a week, who were supposedly on their way to Florida. She remembered that they had a trailer which they had told her contained medicine, although they had not disclosed to her the proposed ultimate use of these medical supplies.

The manager stated that two of the men wore beards and the other man appeared to be a Latin. The two men, who had beards, appeared to her to be Americans. She stated that she did not recall any of their names or, in fact, if she had ever heard them mention their names.

Mrs. GISER located registration cards of the motel which noted that L. E. HALL, 1191 College View Drive, Monterey Park, California, and two others were registered at the Lawnview Motel in Room # 150 from September 28 through October 3, 1963. HALL had noted on his motel registration card that he was driving an Oldsmobile with license number 1W167710 (state not indicated). The rate for the room for all three men was $7.21 including tax.

Mrs. GISER stated that her telephone call record book indicates that the following local telephone calls were made from Room # 150 during the days this room was occupied by L. E. HALL. The calls, all of a local nature and none long distance, were noted as follows:

The following investigation concerning ADER LESTER JONES, also known as A. L. Jones, supplements that contained on pages 137 through 139 of the report of Special Agent ROBERT P. GEMBERLING dated September 19, 1964, at Dallas, Texas, in instant case.

1
OC 105-783
DL 100-10461
BHD:ddw

The following investigation was conducted by SA BYRON H. DUNBAR on September 24, 1964:

At Sayre, Oklahoma

RICHARD CARMICHAEL, former Undersheriff, Beckham County, advised that he is personally acquainted with A. L. JONES, a resident of Sayre, and whose full name is ADER LESTER JONES.

CARMICHAEL advised while he was Undersheriff of Beckham County he frequently got correspondence and inquiry concerning ADER LESTER JONES from various persons who had received letters from JONES. The best description of the letters which CARMICHAEL could furnish was that they were peculiar.

CARMICHAEL advised no particular record was kept of these inquiries in the Sheriff's Office at Sayre since ADER LESTER JONES is personally known to the Sheriff's Office as a ne'er-do-well resident of Sayre, a person who sleeps at the American Legion Hut in return for his services as a custodian and caretaker, and he is a known prolific letter-writer, all of a nebulous and harmless character. The persons receiving his letters were normally those who were nationally known or well-known locally and the type of person who would frequently be named in the news media.

CARMICHAEL advised JONES exists on the basis of a small welfare check since he is approximately 70 years of age and by panhandling locally on the streets of Sayre. His mentality is questioned by persons knowing him and he is considered to be mentally unbalanced but harmless.

LEE BULLARD, Sheriff, Beckham County, Sayre, advised he is personally acquainted with ADER LESTER JONES who has been known to the Sheriff's Office for a number of years but who has no criminal record. BULLARD advised that JONES is known to be a writer of letters to well-known and prominent people and that some inquiry has been received by the Sheriff's Office concerning these letters. JONES frequently writes that he knows where there is a buried gold hoard between Sayre and Elk City, Oklahoma.

Sheriff BULLARD advised that in his opinion JONES is virtually a mental case but has not been confined since he is considered harmless and causes no trouble. He is a "bum" who panhandles frequently on the streets of Sayre and has no permanent residence but sleeps at the American Legion Hut in Sayre.

Sheriff BULLARD advised that JONES has no acquaintance with the persons to whom he writes letters and usually obtains their names from newspapers or other public source data.

J. FRENCH, President, First National Bank, Sayre, advised he is acquainted with ADER LESTER JONES, a person of doubtful and questionable mental intelligence and a person who is considered to be unreliable and somewhat of a nuisance. FRENCH advised he could furnish no specific information concerning JONES' background or past activities but for the past ten years or more he has primarily been a person living off of hand-outs in and around Sayre, Oklahoma.

ADER LESTER JONES is identical with an individual who in a signed statement on February 2, 1953 admitted to an Agent of the Oklahoma City Office of the FBI writing two letters to JOHN D. ROCKEFELLER informing him he had information that JOHN D. ROCKEFELLER, JR. was to be kidnapped.

C. Allegation By Hal Keese That Lee Harvey Oswald Spent Night Before Assassination At George Parr's

DL 100-10461
SA 105-2909

DL T-3 on October 7, 1964, furnished the following information:

On October 6, 1964, a man whose identity source refused to divulge told source some information concerning one HAL KEESE. According to DL T-3 , KEESE is a rancher near Medina, Texas, and he also has a cedar yard. The unidentified man told source that sometime during the week of September 27, 1964, KEESE said that he knew for a fact that OSWALD spent the night before the assassination at GEORGE PARR's and that PARR and President LYNDON JOHNSON had KENNEDY assassinated. KEESE said that JOHNSON had this done so that he could be President. KEESE made these comments at Fee's Pool Parlor, Medina, Texas, in the presence of a large group of men which included one TOM FINNEY and NESSICUS (phonetic) JACKSON.

DL T-3 advised that source knows for a fact that KEESE makes indiscreet and irresponsible statements. Source feels that this is loose talk, but source wanted to advise the government.

It should be noted that previous investigation has definitely established that LEE HARVEY OSWALD spent the night of November 21, 1963, at the residence of Mrs. RUTH PAINE, 2515 West Fifth Street, Irving, Texas, with his wife, MARINA OSWALD.

By communication dated October 12, 1964, the Butte Office advised that EDWARD W. MAYER, Lewiston, Idaho, had advised Special Agent STEINAR E. GORUD that recently SIEBERT SWENSON, senior law student, University of Idaho, Moscow, Idaho, told him that his aunt, Mrs. WALLACE LAMB, Pillon Road, Muskegon, Michigan, mentioned that the name LEE HARVEY OSWALD was entered on a church guest register in Muskegon, Michigan, about two years ago. He mentioned that President KENNEDY or RICHARD NIXON may have been in the Muskegon area about this time. The identity of the church in Muskegon was unknown.

Date 10/15/64

Reverend WILLIAM HUMLIE, First Evangelical Lutheran Church, 1206 North Whitehall Road, advised he placed a new church guest register in the church on September 22, 1963. He stated the first line of the register was left blank and the date of Sunday, September 22, 1963, was entered on that line. He stated the name of LEE HARVEY OSWALD, Dallas, Texas, home church - Russian Oxthodox, was entered on this line and the date of September 22, 1963, was crossed through.

Reverend HUMLIE stated his church was rented by an outsider for the purpose of a wedding on October 13, 1963, and guests of the wedding party signed the first and second pages of the new church register before realizing it was not the wedding guest book. He advised he assumed and was of the opinion that some prankster made the OSWALD entry inasmuch as the register was accessible to anyone.

Reverend HUMLIE stated the OSWALD entry was discovered in approximately the latter part of May, 1964, after the assassination of President KENNEDY. He stated the same register is still available in the church to anyone and an entry could have been made at any time between September 22, 1963, and May, 1964, when same was discovered.

Reverend HUMLIE stated he has never seen OSWALD before, other than on television and in the newspapers, and would be unable to identify him as a guest of his church during 1963.

Reverend HUMLIE made the first page of the church register available and stated it need not be returned to him if the laboratory examination revealed the signature contained thereon to be identical with that of OSWALD. He stated that he would appreciate having the page returned if the FBI felt there was no significance to the signature contained thereon.

Reverend HUMLIE advised that he could furnish no additional information concerning how the OSWALD entry appeared in his register other than the fact that some prankster or "smart alec" made this entry after the assassination of President KENNEDY.

E. Allegation By Norman Baker That Individual Known Only As "Mike" Gave Him Photograph Of Lee Harvey Oswald In California In July, 1963, With Address In Dallas, Texas

NORMAN BAKER, Inmate Number C-97188, State Prison of Southern Michigan (SPSM), Jackson, Michigan, home residence 152 West Fountain, Battle Creek, Michigan, furnished the following information:

He had been residing in Bell Gardens, California, with a girl friend, DONNA KULINICH, as husband and wife, under the name of Mr. and Mrs. JOHN BAKER in June and July, 1963. He said they resided in a rented trailer in a trailer park on Luddell Street. He was employed at Cecil's Friendly Service, corner of Florence and Eastern Avenue, Bell Gardens, working nights. This service station is owned and operated by CECIL THOMAS, who is also a U. S. postman and resided in Bell, California.

Shortly after he started working there, a person whom he met only as MIKE (LNU), driving a 1963 Plymouth convertible, fire engine red with a white cloth top, bearing Texas license plates, used to come into the station usually when he would be alone at night after 10:00 PM. He said this man started to talk with him and after about the third time in, he started to talk about communism. This man, MIKE (LNU), was well spoken and used many big words of which he did not know the meaning. He sounded like a well educated man. He was well dressed always and seemed to have a lot of money all the time.

MIKE (LNU) asked him all about himself and his past and learned that he was an ex-convict from Midigan. After learning this, he talked more and more about communism and how the capitalists had all the money and everything they wanted while the working people would never have anything. MIKE (LNU) asked him one evening where they could go to have a good time and some drinks and BAKER told him about a tavern down the street named the Chit-Chat. MIKE (LNU) then invited him to go with him and they arranged to meet on a Saturday night. BAKER explained that he had told his girl friend, DONNA KULINICH, that he worked on Saturday nights while actually he did not work. He would go to the service station in his working clothes, change into good

clothes and go out for the night, changing back into working clothes and going home in the morning at the regular time he would if he had been working.

BAKER continued that MIKE (LNU) had met him this way for about five weeks in a row and they would go out drinking and dancing. He said they visited the Chit-Chat and the Garden Club in Bell Gardens and another expensive, fancy, private club near Compton, California. He said MIKE (LNU) seemed to be known at this place as a number of people there spoke to him. He said he could not recall the exact location of this place except it was near Compton and seemed to be located between two other buildings which seemed to protect this place. He said MIKE had presented a card to get in and this card was stamped by the person who admitted them. He said a large, heavy set woman who was expensively dressed sat with them for a drink here.

All during the times they were together, MIKE (LNU) constantly kept talking communism to him. He said MIKE asked him not to say anything about this to anyone else and when there was anyone else around, MIKE never spoke about the subject. He said MIKE also began talking to him about making large sums of money and pointed out that he could have nice clothes, a fine new car and everything he had if he wished. MIKE told him there was nothing too risky in making this money. He said that he agreed to anything MIKE said in that MIKE was buying all the drinks and paying for their good times.

About the middle of July, 1963, he, BAKER, lost his job at the service station because the owner suspected him of stealing money. He said he had not stolen it and had about convinced the owner of this, so that he continued to visit at the station. His girl friend obtained a job as a waitress and he continued to see and go out with MIKE. It was after he had lost his job that MIKE became very specific about whether he wanted to earn some big money and when he agreed, MIKE gave him $100.00 and a photograph with an address in Dallas, Texas, on the back. MIKE told him to go to that address and there he would meet the person whose photograph he had and he was to give this to that person and that person would tell him what was required of him.

BAKER said that he is positive that the photograph which was given to him by MIKE (LNU) was that of LEE HARVEY OSWALD. He said he had no knowledge of this person at that time and nothing was ever said about his name or what he was to do to earn the large sum of money mentioned by MIKE. He said that shortly after he was given the money and the photograph with the address on the back, he spent the money and he and DONNA left and returned to Michigan. He said he had never seen MIKE (LNU) after he was given the money and photograph.

BAKER described MIKE as a white male, about 27 or 28 years of age, about six feet in height, weighing about 170 pounds, black hair, always wore tinted or colored glasses which he believed were prescription glasses. He said MIKE was always well dressed in expensive clothes. He said he never learned anything about MIKE in that whenever he asked any question about his background, MIKE would change the subject. The only thing he ever learned was that MIKE one time answered his question as to where he lived by saying "near Huntington Park". Also, one time he took MIKE to his residence to meet his girl friend DONNA. She asked him what he did for a living and he said he was an investigator.

BAKER said that the owner of the service station where he had been employed, CECIL THOMAS; his son; his manager, AL CARRIGER (phonetic); an employee named RAY (LNU) and another named JOHN (LNU) had seen MIKE in the service station. He explained that RAY (LNU) and JOHN (LNU) worked on Saturday nights in his place and they had seen him meet MIKE (LNU) at the service station after he would change his clothes so as to go out with him.

He also advised that MIKE (LNU) had gone with him to a used car lot on Eastern Avenue, Bell Gardens, where he had purchased a used 1954 Oldsmobile 88 two door sedan. MIKE had checked on this car with him prior to his purchasing it. He explained this used car lot was run by a man named BILL (LNU) and he suspected BILL and all his salesmen were ex-convicts. He purchased this car in the name of NORMAN BAKER and later turned it back after he had lost his job and could not pay for it.

BAKER said that he had kept the photograph with the Dallas, Texas address on the reverse side and the last he knew, it was in his billfold which his cousin, MARVIN WELLINGTON, R. R. #1, East Leroy, "D" Drive, Sonoma Lake, Michigan, had possession of same. He said that he has also heard that his brother, DENNIS BAKER, care of his mother, SYLVIA BAKER, 162 West Fountain Street, Battle Creek, Michigan, has been using his identification and he may have the billfold with the photograph in it.

BAKER said that he had not said anything about this matter sooner in that he had been busy trying to evade the law to avoid being returned to prison. After his return, he has had many personal problems and it was only recently that he had thought much about this matter and then decided that he should tell the FBI about it. He has thought that MIKE (LNU) might have been a spy but nothing was ever said about this and all he had ever talked about was communism and finally about making "big" money without ever telling him what he was to do to earn the money.

DONNA KULINICH, 105 Inn Road, Battle Creek, Michigan, furnished the following information:

She had resided with NORMAN BAKER in a trailer park on Luddell Street, Bell Gardens, California, from about April to August, 1963. They had resided as Mr. and Mrs. JOHN BAKER. NORMAN worked for Cecil's Friendly Service, a gasoline service station located at the corner of Florence and Eastern Avenue in the same community. She continued she had met several friends of NORMAN's whom he had brought to their home but no one named MIKE (LNU).

She said she could not recall anyone who drove a red colored Plymouth convertible or who fit the description of MIKE (LNU) as given by NORMAN BAKER.

She said that NORMAN BAKER had been fired from his job about a month before they returned to Michigan and he had been broke during that time. She had obtained a position as a waitress at Gage Bowling Alley, Huntington Park, California, for about one month before they returned to Michigan and it was on her earnings that they were able to come back to Michigan.

She said that she had learned about NORMAN BAKER stepping out on her on Saturday nights while he told her he was working but that she was of the opinion he had been going out alone and she had no knowledge of anyone he was associating with.

DONNA KULINICH also advised that MARVIN WELLINGTON, a cousin of NORMAN BAKER, did have his billfold at one time but that DENNIS BAKER, a brother, had obtained it. She said that she then obtained it from DENNIS BAKER. She exhibited this billfold and a number of papers but no photographs were found. She said that she felt sure there had been some photographs but she did not know what they were except one was of her and their child. She then said that she was sure DENNIS BAKER had taken the photographs out of the billfold before she obtained it. She said that

MARVIN WELLINGTON, 10493 Three Mile Road, East Leroy, Michigan, after being advised of the identity of the interviewing Agent, furnished the following information:

He is a first cousin of NORMAN BAKER who is presently serving a sentence at the State Prison of Southern Michigan, Jackson, Michigan. At no time has he ever used NORMAN BAKER's billfold or ever looked in it during the period when some of NORMAN's clothes and other belongings were left at his, WELLINGTON's, house during the latter part of 1963. All of these items were given to NORMAN's brother, DENNIS, shortly after DENNIS was released from Federal Prison in January, 1964. He stated he never knew NORMAN BAKER to have a photograph of LEE HARVEY OSWALD at any time and believed that when NORMAN was in the Battle Creek area in January, 1964, that NORMAN would have announced this information to any and all of his relatives.

He also stated none of BAKER's brothers or sisters have ever mentioned NORMAN telling about having OSWALD's picture and again denied he had ever used BAKER's billfold for any purpose or ever looked through it.

DENNIS BAKER, 162 West Fountain Street, Battle Creek, Michigan, after being advised of the identities of the interviewing Agents as Special Agents of the FBI, furnished the following information:

He was released from Federal custody in early January, 1964, and returned to Battle Creek. After a few days in Battle Creek he learned that some of the clothes belonging to his brother NORMAN were stored at the home of their cousins, the WELLINGTONs, who live in East Leroy, Michigan. He went to the WELLINGTON house, got NORMAN's bebngings which were all stored in a large cardboard box, and brought them back to Battle Creek, where he, DENNIS, was staying with a married sister. A few days later, NORMAN appeared in Battle Creek and was an escapee from a work camp of the Corrections Department in northern Michigan. NORMAN took some of the clothes and stayed at an apartment on East Michigan for over a week before being apprehended and returned to prison.

During the time he, DENNIS, had NORMAN's belongings he never used NORMAN's billfold. He pointed out he already had one which he had made while previously incarcerated and had no reason to use NORMAN's. He could not ever recall actually looking through NORMAN's billfold but realized it was in the box he picked up at the WELLINGTONs.

At the time NORMAN was in Battle Creek, and during the visits that members of the family have visited NORMAN at Jackson, Michigan, he has never mentioned having a photograph of LEE HARVEY OSWALD. He believed NORMAN would have bragged about the photograph since he believed his brother has always had a tendency to exaggerate and make up stories. He described NORMAN as a "damn liar" and as a person who always has made up stories in an effort to increase his own importance in the family. He again stated that NORMAN would not have been able to keep his mouth shut for such a long period of time after the assassination if his story was "anywhere near the truth". He believed that NORMAN has definitely made up the story of having OSWALD's photograph when in California and has done so only to gain attention of authorities and perhaps to cause

Mrs. DONNA KULINICH, 105 Inn Road, Battle Creek, Michigan, was recontacted at 162 West Fountain Street, Battle Creek. Mrs. KULINICH stated she was aware of the identities of the interviewing Agents as being Special Agents of the FBI. She furnished the following information:

She had been unable to locate any photographs that previously were in the billfold of NORMAN BAKER and whose belongings were stored at 105 Inn Road and 162 West Fountain Street. She recalled that she and NORMAN BAKER lived together under common law during 1963 and in April, 1963 left Michigan for California. They lived in Bell Gardens, California, where NORMAN worked for approximately three months on the afternoon and evening shift as a service station attendant.

During the latter part of June or early July, 1963, NORMAN lost his job and was unemployed for the remainder of the time they lived in California, a period of approximately four weeks. During his period of unemployment, NORMAN took care of their small child and occasionally came to the bowling alley where she had obtained work and bowled. They lived entirely on her earnings for the month she worked in the bowling alley and also used the money she earned to pay their trip back to Indiana where they were subsequently arrested on a forgery charge for Michigan authorities. After being returned to Michigan, NORMAN BAKER made arrangements with his cousin, MARVIN WELLINGTON, to go to South Bend, Indiana, and pick up their belongings and to leave these items at MARVIN's house, located south of Battle Creek. To her knowledge, most of NORMAN's belongings were left at WELLINGTON's until early January, 1964, when NORMAN escaped from a Michigan Department of Corrections work camp in northern Michigan. At that time, NORMAN went to WELLINGTON's, got his belongings and stayed at an apartment with her on East Michigan Avenue, Battle Creek, for approximately ten days before being apprehended and returned to prison.

Since NORMAN's return to prison, his brother, DENNIS BAKER, age 22, has been wearing some of NORMAN's clothes. She recalled that during the time NORMAN worked at the service station in California, she had many

opportunities to look regularly into his billfold since she usually removed money for the purchase of groceries, etc. She never observed or noticed any photographs in NORMAN's billfold of anyone with whom she was not acquainted. All of the photographs were of relatives and of individuals known to her.

She never met anyone introduced to her by NORMAN as "MIKE" at any time when they lived in California. She recalled NORMAN once discussed with her his being approached by a man when on duty at the service station by a "JOHNNY" to go to Mexico and pick up a quantity of narcotics. NORMAN supposedly could get a fast $100.00 for this trip. She said NORMAN went into elaborate detail of how the narcotics could be easily secreted in his car and returned to California without being detected.

She said she persuaded NORMAN not to have anything

noted that if NORMAN had received $100.00 as alleged from "MIKE" that he never spent this money at any time when she was working at the bowling alley. She believed if he had had any money he would not have had to ask her for money as he didsince it would have been obvious to her in many ways that he had some cash. She again stated she would have no reason, based on her acquaintance with NORMAN BAKER, to place any credence in his story concerning OSWALD.

F. Allegation By Mrs. Otto Hegemann That She Saw Man Believed To Be Lee Harvey Oswald At San Antonio, Texas, About 3:30 Or 4:00 P.M., November 21, 1963

FD-302 (Rev. 1-25-60) FEDERAL BUREAU OF INVESTIGATION

Date 10/22/64

Mrs. OTTO HEGEMANN, 7126 Westboro, advised that on the afternoon of November 21, 1963, she was parked in her automobile in the parking area of Wonderland Shopping Center, located at the intersection of Loop 410 and Fredericksburg Road, San Antonio, Texas. Her maid, PAULINE SMITH, was with her in the car. While they were parked there, a man put his arm in the car and showed Mrs. HEGEMANN a ballpoint pen and asked her to buy it for $.25. This man was abrupt in manner and startled Mrs. HEGEMANN and she purchased this pen from him. She said the man did not appear to be crippled or sick, that he wore no hat, and had an unusual smile on his face. She described this man as young, about 30 years of age, white male, medium height, about five feet nine inches tall. His hair was medium to dark brown and a little on the curly side. He was of a slender build, but well built. She did not know his weight. She said she is not sure about the color of his eyes.

When Mrs. HEGEMANN first saw a picture of LEE HARVEY OSWALD in the newspaper subsequent to the assassination of President KENNEDY, she thought that the man from whom she had purchased the pen resembled OSWALD. The smile of the man, mentioned above, reminded her of the smile on OSWALD's face in the photographs of OSWALD.

Mrs. HEGEMANN related that the incident in the parking lot happened shortly after President KENNEDY had passed the intersection of Loop 410 and Fredericksburg Road on that date, November 21, 1963. The incident in the parking lot occurred at about 3:30 or 4:00 o'clock p.m. She added that the man who sold her the pen did not look like he was in need.

Shortly after the assassination of President KENNEDY, Mrs. HEGEMANN talked with her maid, PAULINE

SMITH, on the telephone and mentioned to SMITH that the man that sold the ballpoint pen resembled the picture of OSWALD. SMITH had not apparently yet seen any photograph of OSWALD. Subsequently, SMITH told Mrs. HEGEMANN that after she had seen a photograph of OSWALD, she believed that the man in the parking lot looked a lot like the photograph of OSWALD.

Mrs. HEGEMANN said that her only knowledge of OSWALD is from the newspapers.

Mrs. HEGEMANN was shown a photograph of OSWALD and stated that she could not say definitely that he is identical with the man in the parking lot. She said that the right profile photograph of OSWALD appears to have a resemblance to the man in the parking lot, but she pointed out the photograph does not show the curly hair like that man had. She did say that the man in the parking lot had the same shape of face as OSWALD in his photograph.

It should be noted that previous investigation has established that LEE HARVEY OSWALD was at work at the Texas School Book Depository, Dallas, Texas, on November 21, 1963, and upon completion of work on that date, accompanied BUELL WESLEY FRAZIER to Irving, Texas, where he spent the night of November 21, 1963, with his wife, MARINA OSWALD, at the residence of Mrs. RUTH PAINE, 2515 West Fifth Street, Irving, Texas.

Re: ALLEGATION THAT LEE HARVEY OSWALD MET CUBAN PREMIER FIDEL CASTRO IN MEXICO PRIOR TO ASSASSINATION OF PRESIDENT AND THAT OSWALD AND JACK RUBY WERE CONNECTED

By letter dated September 22, 1964, Secretary of Defense ROBERT S. McNAMARA furnished to the President's Commission on the Assassination of President KENNEDY material containing an allegation that LEE HARVEY OSWALD had met Cuban Premier FIDEL CASTRO in Mexico prior to the assassination of President JOHN F. KENNEDY and that OSWALD and JACK RUBY were "connected" in some way. According to a copy of a report of a United States Army investigator on January 23, 1964, DENNIS L. BARTES, Staff Sergeant (E-6), RA 17 392 262, Assistant S-4 Sergeant, 5th Signal Battalion, 5th Infantry Division (Mechanized), Fort Carson, Colorado, had stated that shortly after the death of President KENNEDY, ALBERT D. J. SANTALO, Private, (E-2), U. S. 52 575 034, had told him that he had made a telephone call to friends in Florida and had received information relating to the assassination. According to the information allegedly received by SANTALO, the suspected assassin, OSWALD, had met with Cuban Premier FIDEL CASTRO in Mexico just prior to President KENNEDY's death. BARTES said SANTALO also claimed that his reliable sources in Florida had informed him that OSWALD and the man charged with killing OSWALD, RUBY, were "connected," in some way. BARTES could furnish no additional information concerning these allegations, or the original source of the allegations. He said that SANTALO had also remarked to him that there is a one million dollar reward for the assassination of CASTRO, further details unknown.

According to biographical data developed by CIA and furnished by the Secretary of Defense to the President's Commission, SANTALO was born ALBERTO de JESUS SANTALO-FUERTES at Havana, Cuba on October 23, 1939. He resided in Havana from 1939 to 1958 and from 1953 to 1959 in Montreal, Quebec Province, Canada. From 1959 to 1961, he resided at Calle General Lee, No. 475, Apt. 9, Santos Suarez, Havana, Cuba. From 1961 to 1962, he

resided at 10 Dreusdale Avenue, Kingston, Jamaica, British West Indies. In 1963, his residence was 2700 N. Charles Street, Baltimore, Maryland. From 1959 to 1961, he had been employed by the Cuban Cartographic Institute, Havana, Cuba, and from February, 1962 to 1963, he had been employed by John S. Connor, Inc., Custom House Brokers, 33 S. Gay Street, Baltimore, Maryland.

SANTALO was reported to have Alien Registration Number A-1249642 and to not have been a member of the Brigade 2506. He entered the United States at Miami, Florida on February 3, 1962.

According to a report of the United States Army furnished the President's Commission, SANTALO entered the United States Army on July 11, 1963, for a term of 24 months and as of December 19, 1963, had been assigned to Headquarters and Headquarters Company, 5th Signal Battalion, 5th Infantry Division (Mechanized), Fort Carson, Colorado, since November 16, 1963.

In response to the question on an Army form, "Are you now, or have you ever been affiliated or associated with any organizations of the type described above as an agent, official, or employee; are you now associating with any individuals, including relatives, who you know, or have reason to believe, are or have been members of any of the organizations identified above; have you ever engaged in any of the following activities of any organization of the type described above: contribution (s) to, attendance at or participation in any organizational, social, or other activities of said organizations, or of any projects sponsored by them: the sale, gift, or distribution of any written, printed, or other matter, prepared, reproduced, or published, by them or any of their agents or instrumentalists?" SANTALO answered in the affirmative. SANTALO then made the following statements:

"I worked for the Cuban Institute of Cartography in Havana; a Government Office, and every month the Cuban Government deducted a certain amount of money from my pay check. I was forced to attend several meetings, but nevertheless I did not

join any communist organization. Because of my opposition to the Communist Regime, I and 15 co-workers were imprisoned for two weeks (Castillo del Principe), April 17, 1961."

On December 19, 1963, SANTALO had submitted a form requesting his release from the United States Army since he was serving only as a Clerk-Typist there and he felt he could do more for the United States and Cuba if he were released to join the anti-CASTRO forces in Central America, or work with the Central Intelligence Agency in Miami, Florida. SANTALO's commanding officer recommended approval of this request.

On October 20, 1964, Mr. THOMAS H. RICE, Third Floor, 2700 N. Charles Street, Baltimore, Maryland, advised Special Agent J. STANLEY ROTZ that ALBERTO SANTALO formerly resided at this address, but that he was currently residing at an unknown address in the vicinity of 25th and Charles Streets, Baltimore, Maryland. Mr. RICE said that SANTALO had returned to his prior employment at the John S. Connor Corporation, 33 S. Gay Street, Baltimore, Maryland.

Efforts to contact SANTALO at the John S. Connor Corporation determined that SANTALO was currently on vacation in Quebec, Canada and would not return until the week of October 26, 1964.

ALBERTO de JESUS SANTALO-FUERTES, 2512 North Charles Street, Apartment D, Baltimore, Maryland, telephone 243-3396, explained that the name FUERTES was his mother's maiden name and, in accordance with Cuban custom, is used along with his father's name, SANTALO, in Cuba, but since this is not the custom in the United States, he currently uses only the name SANTALO as his surname. He said that prior to his service in the United States Army, he had been employed at the John S. Connor Corporation, 33 S. Gay Street, Baltimore, Maryland, and that after he had been unsuccessful in making suitable connections with anti-CASTRO forces in Florida after his discharge from the Army he had returned to employment with the Connor Corporation.

SANTALO said that on November 22, 1963, at the time of the assassination of President JOHN F. KENNEDY, he was on active duty in the United States Army at Fort Carson, Colorado. He said he also recalled that he did not have any extra money at that time and did not telephone anybody in Florida during the period after the assassination and did not receive any information concerning it from anyone in Florida.

SANTALO explained that other than the regular news articles and broadcasts concerning the assassination, his only source of any information on the assassination was an anti-CASTRO Cuban magazine known as "Bohemia," which he believed was published in New York, New York and in Miami, Florida. SANTALO said that his friends in the Army knew that he had worked for the Cartographic Institute in Cuba and had been imprisoned by the CASTRO Regime for two weeks in a dungeon at the time of the Bay of Pigs invasion. He said his friends were constantly, especially during the period following the assassination, trying to get him to give them "inside" information, which he actually did not have. His friends were always attaching to his information and opinions a greater value than they merited.

SANTALO said that he definitely had not told anyone that he had secured information regarding the assassination from sources in Florida, but he did recall discussing information which had been printed in the magazine, "Bohemia," after the

assassination. He recalled that this magazine had stated that LEE HARVEY OSWALD had attempted to be associated with a Cuban exile group in New Orleans, Louisiana. The magazine article had also reported the allegation that OSWALD had visited the Cuban Consul in Mexico prior to the assassination, but even the magazine had not said that OSWALD had met with CASTRO. SANTALO said he had never heard this allegation, himself, and had definitely not told anyone that he had heard OSWALD had met with CASTRO, but had discussed the allegation that OSWALD met with the Cuban Consul.

SANTALO said he also recalled that an article in "Bohemia" had asked the question concerning how policeman TIPPIT was able to identify OSWALD so easily. The conclusion was that OSWALD and TIPPIT knew each other.

SANTALO also recalled that the magazine reported an allegation that a Cuban airliner was approaching Mexico City at the time of the assassination, that it stayed there about two hours, and then went back to Cuba after OSWALD had been captured. SANTALO had no further information on this allegation either from the magazine or from any other source.

SANTALO said that he and the other Cuban exiles knew that Minsk in the Soviet Union was a center of espionage and the fact that OSWALD had lived in this area led to pure speculation that OSWALD could have been engaged in espionage. He said that it was also a pure guess that JACK RUBY could have been connected with OSWALD. SANTALO said he had no information or evidence of any sort to indicate that OSWALD was engaged in any espionage assignment, had any connections with CASTRO, or other communists, or had any association of any sort with JACK RUBY.

SANTALO stated that with regard to the comment that there was a one million dollar reward for anyone who would kill CASTRO, he had heard this from a friend in Loveland, Colorado. He identified this friend as CONSUELO RODRIGUEZ, 115 E. 7th Street, Loveland, Colorado, who had no personal

knowledge concerning it, but had heard it from VIVIAN CARDENAS, who formerly lived in Coca City, Florida, but currently resides at some unknown address in Denver, Colorado. VIVIAN CARDENAS allegedly has a friend, who was a millionaire and who told her that several businessmen had deposited one million dollars for any man who would kill CASTRO. This was the extent of his knowledge of this allegation.

SANTALO stated he was sorry that he could not be of further assistance in this matter, but that he had no first-hand information of any sort and had no evidence that what he had read in the magazine "Bohemia" was actually factual, rather than speculation.

DECLAN FORD, 14057 Brookcrest, Dallas, Texas, a friend and adviser of Mrs. MARINA OSWALD, advised that he does not specifically recall MARINA OSWALD having received a personal letter in the Russian language from WALTER NEUNSON of Camden, New Jersey.

Mr. FORD advised that he would review personal letters of MARINA OSWALD, which are maintained at her residence in Richardson, Texas, in an effort to locate such a letter.

DECLAN FORD subsequently on October 6, 1964, advised that he had located a letter dated November 28, 1963, from WALTER NEUNSON, 909 North 24th Street, Camden 5, New Jersey, apparently to MARINA OSWALD, which is written in Russian. Mr. FORD made this letter available to the Federal Bureau of Investigation for information purposes and noted that he desired that the letter be eventually returned to him.

The letter in question contains no sentences in English, nor does it contain the name of MARINA OSWALD in English.

Mr. FORD also noted that two photographs are attached to the letter, one of a man and the other of a woman. FORD suggests that these photographs are possibly of WALTER NEUNSON and his wife.

When I learned about you and the children, you cannot imagine how I felt. I am very sorry for you and the children and that you are in such a bad situation. I talked with other Russians here. They say that you should come directly here. We have 175 Russian and Belorussian families here. In short, it will be good for you here, I assure you; and there will be work. There is work for women here, paying $1.15 - $1.25 an hour. My daughter is working; she has two small children; she receives $1.25 an hour. If you wish to come here, I will send you money for the ticket. Leave that place as soon as possible. I would not advise you to go back to the USSR; therefore (sic*) I remained here. I was in Moscow and Leningrad six months and returned to America. I own two houses and my wife also works. She (also*) says that you should come to us. She is a very fine person and could teach you many things. Here you will have peace and be close to the people of your own nationality, the Russian people. I will be like a father to you and, I assure you, I will be good to the children, too. I would ask, if you decide to come, to let me know by telephone. Mrs. Ruth Paine (the woman where you lived) -- she will help you to come here. She will put you on a plane, directly (going*) here, Camden, in the State of New Jersey. You can also write to me. You may telephone me at my expense. Leave soon, so that the children would not catch cold, (because*) afterwards the weather will be cold. Take care of the little one. Do not worry about your things - you will acquire new ones here. People here are not like those over there. I understand your situation; that you do not even know whom you can trust. I also went through an experience like this a long time ago and I understand your situation. Now, about myself. I am from the USSR, from the city of Voronezh, Voronezh Region. I worked (or "work"*) in a foreign department (sic*) as a technician and interpreter. My son and daughter, too, are now in the

I shall be waiting for a reply from you by letter and telephone. I am home from work at 5 p.m. I am sending you my card with my address and telephone number. I wish all of the best to you and the children; hurry up and come here. You can come to us at any time. Only let us know, when you are ready to go; when you will arrive in Camden and I will meet you. Do not tell journalists and other people. You know, they only write sneeringly. Our people in the U. S. are not like that; am I right? I will conclude on this for the time being. My wife and daughter say, "let her come soon." Your children will be provided for; they will not starve. Think it over well. If you wish to know more, write and I will write about it to you. But better come; then you will see it will be good for you here, as I have already told you. I will be truly like a father to you. I am waiting for a reply from you.

MARINA OSWALD was interviewed at her residence, 629 Beltline Road. She furnished the interviewing agents six boxes of personal correspondence which she had received subsequent to the assassination. MARINA OSWALD loaned this correspondence for the purpose of review in connection with this investigation. She stated her friend and advisor, Mr. DECLAN FORD, had other correspondence which she had received which he had retained at his house. She said she would contact Mr. FORD to request that he make this correspondence available for review also.

MARINA OSWALD said she had returned from New Mexico a few days before and intended to stay in Richardson until sometime in January, 1965, when it was her intention to go to the University of Michigan to take a special English course there. She said her plans had not been formulated but she was quite sure that she would go to the University of Michigan. She said she would probably be staying at the University for a number of months to complete her English courses. MARINA advised she would keep this office notified of any change in her plans.

Honorable J. Lee Rankin
General Counsel
The President's Commission
200 Maryland Avenue, Northeast
Washington, D. C.

Dear Mr. Rankin:

Mrs. Marguerite C. Oswald, mother of Lee Harvey Oswald, contacted our Dallas Office on November 27, 1964, and advised that she intends to visit Washington, D. C., in the near future. Mrs. Oswald stated that she plans to contact this Bureau while in Washington, D. C., and request a conference with me. She stated she did not care to discuss her information with any Special Agent of the FBI. She also stated that she is still investigating the assassination of President Kennedy and still believes that her son was not guilty of the assassination. She also believes her son was an agent working for the United States Government.

Mrs. Oswald added, "I have thousands of words to give to Mr. Hoover only."

For your information, our Agents have advised that Mrs. Oswald appeared to be in a highly emotional state during our interview with her.

NOTE:

Mrs. Marguerite Oswald has previously testified before the Commission and has made a number of unsubstantiated and ridiculous allegations concerning the assassination. She has been interviewed by our Dallas Office on several occasions and has given evidence of mental instability. In the event she appears at the Bureau at some future date, it is respectfully suggested that the Director not meet with her but that she be interviewed by a supervisor.

Enclosed for each office are copies of pages 79 and 80 of Volume I of the "Hearings Before the President's Commission on the Assassination of President Kennedy."

These two pages were taken from the testimony of Marina Oswald before the Commission on 2/5/64. Each office will note that Marina Oswald alleged that Special Agents Wallace R. Heitman of the Dallas Office and Anatole A. Boguslav of the New York Office indicated that if Marina Oswald wanted to live in this country, she would have to answer their questions.

For record purposes, the Bureau would like the comments of Special Agents Heitman and Boguslav concerning these allegations by Marina Oswald.

Handle immediately.

PERS. REC. UNIT

Mr. RANKIN. Did you ever ask your husband why he ran away or tried to escape after the assassination?

Mrs. OSWALD. I didn't ask him about that.

Mr. RANKIN. On either November 22d, or Saturday, November 23d, did anyone contact you and advise you that your husband was going to be shot?

Mrs. OSWALD. No.

Mr. RANKIN. Where did you spend the evening of November 23d?

Mrs. OSWALD. After seeing Lee, we went with some reporters of Life Magazine who had rented a room, but it turned out to be—in a hotel—but it turned out to be inconvenient because there were many people there and we went to another place. We were in a hotel in Dallas, but I don't know the name.

Mr. RANKIN. Who was with you at that time?

Mrs. OSWALD. Lee's mother.

Mr. RANKIN. Anyone else?

Mrs. OSWALD. No—June and Rachel.

Mr. RANKIN. Was Robert with you at all?

Mrs. OSWALD. I saw Robert in the police—at the police station, but he did not stay with us at the hotel.

Mr. RANKIN. Now, the evening of November 22d, were you at Ruth Paine's house?

Mrs. OSWALD. Yes.

Mr. RANKIN. At that time did the reporters come there and the Life reporters, and ask you and your mother-in-law and Mrs. Paine about what had happened?

Mrs. OSWALD. Yes.

Mr. RANKIN. We have a report that there was quite a scene between Mrs. Paine and your mother-in-law at that time. Was there such an event?

Mrs. OSWALD. I did not understand English too well, and I did not know what they were quarreling about. I know that the reporters wanted to talk to me, but his mother made a scene and went into hysterics, and said I should not talk and that she would not talk.

Mr. RANKIN. Did she say why she would not talk?

Mrs. OSWALD. Perhaps she said it in English. I didn't understand. She talked to the reporters.

Mr. RANKIN. Did she say anything about being paid if she was going to tell any story?

Mrs. OSWALD. She has a mania—only money, money, money.

Mr. RANKIN. Did you understand that she was quarreling with Ruth Paine about something concerning the interview?

Mrs. OSWALD. Yes. It appeared to be a quarrel, but what they quarreled about, I don't know.

Mr. RANKIN. And after the quarrel, did you leave there?

Mrs. OSWALD. I went to my room. But then I showed Lee's mother the photograph, where he is photographed with a rifle, and told her he had shot at Walker and it appeared he might have been shooting at the President. She said that I should hide that photograph and not show it to anyone.

On the next day I destroyed one photograph which I had. I think I had two small ones. When we were in the hotel I burned it.

Mr. RANKIN. Did you say anything to her about the destruction of the photographs when she suggested that?

Mrs. OSWALD. She saw it, while I was destroying them.

Mr. RANKIN. After the assassination, did the police and FBI and the Secret Service ask you many questions?

Mrs. OSWALD. In the police station there was a routine regular questioning, as always happens. And then after I was with the agents of the Secret Service and the FBI, they asked me many questions, of course—many questions. Sometimes the FBI agents asked me questions which had no bearing or relationship, and if I didn't want to answer they told me that if I wanted to live in this country, I would have to help in this matter, even though they were often irrelevant. That is the FBI.

Mr. RANKIN. Do you know who said that to you?

Mrs. OSWALD. [redacted]tman and Bogoslav, who was an inter[redacted] the FBI.

Mr. RANKIN. You understand that you do not have to tell this Commission in order to stay in this country, don't you, now?

Mrs. OSWALD. Yes.

Mr. RANKIN. You are not under any compulsion to tell the Commission here in order to be able to stay in the country.

Mrs. OSWALD. I understand that.

Mr. RANKIN. And you have come here because you want to tell us what you could about this matter, is that right?

Mrs. OSWALD. This is my voluntary wish, and no one forced me to do this.

Mr. RANKIN. Did these various people from the police and the Secret Service and the FBI treat you courteously when they asked you about the matters that they did, concerning the assassination and things leading up to it?

Mrs. OSWALD. I have a very good opinion about the Secret Service, and the people in the police department treated me very well. But the FBI agents were somehow polite and gruff. Sometimes they would mask a gruff question in a polite form.

Mr. RANKIN. Did you see anyone from the Immigration Service during this period of time?

Mrs. OSWALD. Yes.

Mr. RANKIN. Do you know who that was?

Mrs. OSWALD. I don't remember the name. I think he is the chairman of that office. At least he was a representative of that office.

Mr. RANKIN. By "that office" you mean the one at Dallas?

Mrs. OSWALD. I was told that he had especially come from New York, it seems to me.

Mr. RANKIN. What did he say to you?

Mrs. OSWALD. That if I was not guilty of anything, if I had not committed any crime against this Government, then I had every right to live in this country. This was a type of introduction before the questioning by the FBI. He even said that it would be better for me if I were to help them.

Mr. RANKIN. Did he explain to you what he meant by being better for you?

Mrs. OSWALD. In the sense that I would have more rights in this country. I understood it that way.

Mr. RANKIN. Did you understand that you were being threatened with deportation if you didn't answer these questions?

Mrs. OSWALD. No, I did not understand it that way.

You see, it was presented in such a delicate form, but there was a clear implication that it would be better if I were to help.

Mr. RANKIN. Did you——

Mrs. OSWALD. This was only felt. It wasn't said in actual words.

Mr. RANKIN. Did you feel that it was a threat?

Mrs. OSWALD. This was not quite a threat—it was not a threat. But it was their great desire that I be in contact, in touch with the FBI. I sensed that.

Mr. RANKIN. But you did not consider it to be a threat to you?

Mrs. OSWALD. No.

Mr. RANKIN. Did anyone indicate that it would affect your ability to work in this country if you cooperated?

Mrs. OSWALD. Excuse me. No.

Mr. RANKIN. Is there anything else about your treatment by law enforcement officials during this period that you would like to tell the Commission about?

Mrs. OSWALD. I think that the FBI agents knew that I was afraid that after everything that had happened I could not remain to live in this country, and they somewhat exploited that for their own purposes, in a very polite form, so that you could not say anything after that. They cannot be accused of anything. They approached it in a very clever, contrived way.

Mr. RANKIN. Was there anyone else of the law enforcement officials that you felt treated you in that manner?

Mrs. OSWALD. No. As for the rest, I was quite content. Everyone was very attentive towards me.

Mrs, Marina Oswald
Dallas, Tex,
My dear Mrs, Oswald;

I have been waiting to write you but now I must after seeing how they have brainwashed you into thinking your husband killed the president, How more is the true facts, But first let me tell you that you should of sued the city of Dallas for all their ill gotten wealth for the wanton murder of Lee,

I told him that this Ruby was only taking him down the primrose path, but no he knew that Ruby was ok, you know how bull headed Lee could be, he wanted a pistol so bad, I tried to convince him one could only get him in trouble, Then when they wanted to trade him one for his rifle, he sure fell for it, then it told me how Lee wanted him to bring it on the floor I knew that some plot was being made, why as to meet him on the street & give him the pistol which he did Poor Lee did not know that it had just been used to kill this good cop Tippet who had been rough on Ruby several times,

You I know have that how come Lee was trying to hide, But as he watched the Presidents parade from the second floor, he heard the sound of the rifle above him coming from the floor where he had hid it for Ruby, Lee knew that he would be suspect so he got out fast, One has to hand to those that was in this plot they had figured Lee well, he reacted just as they were sure he would, Now they had things going good, Tippet was like a pawn as was Lee, I would of loved to have saw the look on Tippet face as his superior officer pumped those shots into him, then went to the corner to meet Lee & give him the pistol.

The irony of it all was the trust that Lee still had tho he did not know that Tippet had been murdered as he went in to the movie house,

Have you ever that it odd the cops knew rite where to find him, little did he dream th that his murder had been planned in advance, My dear lady you say you want to live in Texas, I am sure that the times Lee & I talked he would of not wanted you to for they will never let you rest, or those children of yours,

For any state that allows the people like in Dallas will do anything & the wealth the they have, they got by with two wanton murders Now I am sure that three more would not bother them if necessary,

Just one more point One nite about two nites before that fatal day we saw two of the gunshoes of the Feds at Rubys place I wondered why but now I am sure that Ruby had the then in with his gang, so please take care of your self & know that Lee could of never done this crime, He was only a pawn in their deadly game, I am certain that Johnson will be murdered as was Kennedy, Baby tho if there is a god he will destroy this Sodom with fire, Tho he would not dare touch those rich trash I guess

Sincerly
Joe,

On 12/1/64, Mrs. JOHNSON was contacted per Bureau instructions in referenced airtel. She was advised of our contact with the Dallas Police Department regarding the pillowcase, bedsheets and bedspread. Mrs. JOHNSON stated that she had not meant to create any fuss over the matter but upon the release of the Commission's report, she merely thought that they had no further use for the bedding linens and thought that she should have them back.

Mrs. JOHNSON stated that she is not sure herself that the police had taken a bedspread, bedsheets and pillowcase, but had based the original inference in this regard on what her cleaning woman had told her the day the police had searched OSWALD's room in her house. She stated that this information was to the effect that the police had stripped OSWALD's bed and had taken all the bedding. However, Mrs. JOHNSON stated that she has never bothered to count her linen and cannot at this time state that she is actually missing a bedspread, bedsheets or a pillowcase.

Mrs. JOHNSON was not present in her home at the time the police searched OSWALD's room.

Also enclosed is a sheet from a magazine that I publish. There are hundreds of people in this country who are positive your husband did not kill President Kennedy and most of them are glad that somebody did. This may seem strange to you but you have not lived in this country long enough to understand the people here. Whoever did it, they think they did the whole country a favor.

I send this magazine out every time I get an order for a sample copy so the people will know what really happened or part of it anyway.

I am sure your husband is innocent and will eventually be proved innocent, regardless of what some officials say.

PIPE THIS

U.S. Government Financed Oswald

WASHINGTON, D.C.— The reason behind Chief Justice Earl Warren's blunt statement — after hearing testimony by Mrs. Marina Oswald, widow of Lee Harvey Oswald — that important parts of his special commission's findings would not be revealed "in our lifetime," is that evidence indicates that the assassination of President Kennedy was engineered in Moscow and wittingly or unwittingly financed by U.S. government funds.

The Warren Commission has uncovered startling evidence that Oswald made contacts with U.S. Intelligence and security officials before and after his return from Moscow in June 1962. One security agency, in an affidavit filed with the commission, admits three contacts with Oswald following his return from Russia.

Commission investigators have also gathered information showing that Oswald received government money and special help in obtaining passports from a high-level State Department official, who handles certain secret operations of the Central Intelligence Agency that involve his department.

Other circumstantial evidence in the commission's files links Oswald to the KGB, the Soviet's secret police and assassin organization — making him a double-agent with loyalties to the communists.

Because of the circumstantial nature of much of the evidence and the impact its revelations would have on U.S.-Soviet relations, Warren has indicated to other commission members that it would be unwise to release these details during "our lifetime." Whether Warren will be able to make his decision stick is open to question.

★ ★ ★

★ ★ ★

The three hottest documents in the FBI file on the assassination of President Kennedy are:

• A report from the Mexican government giving the make, year, model and serial number of an automobile which Lee Harvey Oswald drove into Mexico last September 26. Since Oswald didn't own a car, it is believed he may have borrowed it from someone who perhaps was a co-conspirator. This information is considered so hot that minutes after the Mexican embassy in Washington delivered the report to the U.S. State Department, FBI agents appeared at the State Department and demanded that it be turned over to them. State Department officials, surprised by this blunt demand, surrendered the report without making photostatic copies for other government branches, as is customary.

• A report by two ballistics experts who were at the scene of the murder of President Kennedy and who have submitted an opinion that the shooting of the President and of Texas Governor John Connally was the work of at least three people firing from different levels and directions.

• A list of people who knew about the planned Presidential route in Dallas since last September. It was in September that Oswald first tried to get a job along that route. The Presidential route was made known to the Dallas police in September.

Note: Both the Mexican government and the U.S. State Department were told by the FBI not to disclose any information concerning the Kennedy assassination, but Chief Justice Earl Warren, who heads up the Presidential commission to investigate the murder, is demanding direct reports from the Mexican government and all Federal agencies concerned.

A noted Italian writer and a former member of the Italian equivalent to our FBI has been making his own independent investigation of the Kennedy assassination.

His views are at variance with "reports" given to the American public.

According to his investigation, Jack Ruby knew Lee Harvey Oswald and the Dallas policeman, J. D. Tippit; that Oswald was supposed to have been killed in the warehouse where he worked, and because he got out unharmed, the timetable was upset and became a threat to the plotter's security:

That Police Officer Tippit was not assigned to the police beat on which he discovered Oswald.

That Tippit's own beat was actually on the other side of Dallas;

That Oswald had no fear when he was called over to the patrol car, but panicked when Tippit got out of his car with a drawn gun, because Oswald allegedly knew he had been double crossed.

That Oswald requested security in transfer from the police lockup to the city jail;

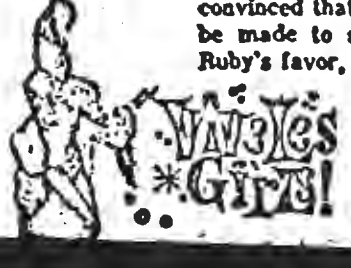
That the gun scope was put on the gun at Klein's store in Chicago and sold as a complete unit;

That the scope was not put on by a Fort Worth gunsmith as claimed by the police authorities.

The writer further claims that meetings were held in January, February and March by a pro-Castro group from Cuba who posed as dissatisfied Cubans; ... ..That the bitter rivalry between the FBI and the U.S. secret service was well known to the Dallas police, and as a consequence of this knowledge they did not give either organization any pre-parade cooperation.

The Italian informer is convinced by his investigation that the assassination of President Kennedy was the result of well planned and well executed plot and that the roots are very deep.

He is planning to attend the trial of Jack Ruby because he is convinced that every attempt will be made to stack the cards in Ruby's favor, it was reported.



COMPANY PICKS SUBURB GIRL TO BE QUEEN

Miss Carol Ann Tight, 18, a key punch operator, was crowned the Hello Charley girl at Western Electric's Hawthorne works, Cicero, yesterday.

Miss Tight, of 215 Fourth st., Downers Grove, was elected in an annual contest in which more than 19,000 employes voted. As the company's "vacation queen," her picture will appear on a sticker distributed to all employes from plants across the nation during the July vacation period.

Miss Tight received her crown from last year's Hello Charley girl, Nancy Ann Blazek Jelen.

HOW IT STARTED

A card addressed "Charley, Western Electric, Hawthorne Works, Chicago, Ill.," was the beginning of the "Hello Charley" tradition. It happened back in the late '20s. The postcard, intended for the late Charles Drucker of the company's benefit service organization, was from a retiree who couldn't remember Drucker's last name.

The incomplete address on the card prompted many laughs. Finally it arrived at Charley Drucker's desk, but by that time employes were calling one another "Charley Western." Time and human nature later changed the term to "Hello Charley," which has become a familiar greeting among Western Electric employes thruout the nation.

1930 QUEEN FIRST

When a "vacation queen" was chosen in 1930, she was identified simply as the Hello Charley Girl—and the identification has stuck.

The winner then reigns over company functions and acts as official hostess.

Dear Mrs. Oswald:

I am, I feel a very close friend to your late husband L. Harvey Oswald, and I feel a close kin to you.

I wish to say that Harvey always did for you and his world, what he thought was the best. I am very sad that this plan did not work out, but if I may be of help and assistance to you and your plans let me know.

Let me tell you this, he died for what he believed in, his death was not in vain. I do wish that you would stay here in the U.S. until I could meet and talk with you. At the present, I am very busy working for the good of the world.

I will close with this line that Harvey only left close to nine people, and I was the one he loved.

I am yours truly,

D. A. Hall

Mrs. Marguerite C. Oswald, mother of Lee Harvey Oswald, contacted our Dallas Office on November 27, 1964, and advised that she intends to visit Washington, D. C., in the near future. Mrs. Oswald stated that she plans to contact this Bureau while in Washington, D. C., and request a conference with me. She stated she did not care to discuss her information with any Special Agent of the FBI. She also stated that she is still investigating the assassination of President Kennedy and still believes that her son was not guilty of the assassination. She also believes her son was an agent working for the United States Government.

Mrs. Oswald added, "I have thousands of words to give to Mr. Hoover only."

For your information, our Agents have advised that Mrs. Oswald appeared to be in a highly emotional state during our interview with her.

This will confirm information that was orally furnished to Mr. Walter H. Young of your agency by Special Agent Joseph M. Sizoo of this Bureau on November 28, 1964.

INTERNAL SECURITY - RUSSIA - CUBA

The Washington "Evening Star" for November 20, 1964, contained an article entitled "Warren Probers Will Hold Back Some Information." In this article it is indicated that Mr. Rankin of the President's Commission stated some evidence, such as confidential documents submitted to help the Commission reach its conclusions, "will be delivered to the Archives but won't be made public until it is declassified by the agencies which supplied it."

In connection with the aforementioned article, the Director stated "I hope we were not a party to having any information withheld. H."

For the Director's information, during our investigation of Lee Harvey Oswald and the assassination of President John F. Kennedy, we furnished to the Commission over 2300 reports totaling approximately 26,000 pages. The vast majority of such documents were unclassified when furnished to the Commission. There were, however, a number of documents that were classified when furnished to the Commission, largely because such documents contained information from other agencies which had been classified by such agencies or because the documents contained information received by us from highly sensitive coverage or informants.

In May, 1964, when the Commission indicated it desired to publish some of our documents which contained a security classification, Mr. A. H. Belmont personally contacted the Commission on May 4, 1964, to discuss the documents in question. Mr. Belmont specifically informed Commission Staff Members Howard Willens and Samuel Stern that the FBI had no desire to restrict the activities of the Commission in any way, and the decision as to whether our documents are introduced into the Commission's record is a decision for the Commission to make.

REC-33 5326

By letter dated September 30, 1964, the Commission forwarded to the Bureau a list of approximately 100 FBI documents it desired authority to declassify and publish as backup data to its summary report. We carefully reviewed each document in question and in the great majority of cases, declassified the document involved where it was no longer necessary to

maintain a security classification in the interest of national defense. In certain instances when our documents were classified because they contained classified information from other Government agencies, we contacted the agencies involved and either obtained authority from the agency to declassify the information involved or referred the Commission to such agency to resolve the classification problem. In a few instances where our documents could not be declassified because of the sensitive sources or confidential coverage involved, we furnished the Commission revised pages of such documents deleting the classified material and at the same time meeting the requirements of the Commission.

ANALYSIS:

We do not know what Mr. Rankin had in mind when he told the press that certain documents "will be delivered to the Archives but won't be made public until it is declassified by the agencies which supplied it." The FBI has leaned over backwards to permit the Commission to use any of our documents it desired in its report released to the public. When it was impossible to declassify certain documents because of their contents, we rewrote the reports to delete classified information and still meet the requirements of the Commission.

It is probable that the Central Intelligence Agency, State Department, United States Secret Service and other agencies of the Government furnished the Commission classified documents in the data such agencies reported to the Commission. It is possible Rankin had reference to such data when he made his comment to the press.

ACTION:

None. This is for the Director's information.

Warren Probers Will Hold Back Some Information

NEW YORK (AP)—Some information obtained by the Warren Commission in its investigation of President Kennedy's death was classified and will not be included in the public transcripts, the commission's chief counsel says.

The White House announced yesterday that the hearing transcripts would be made public Nov. 30 in 26 volume sets weighing 54 pounds. They will be sold for $76 a set.

White House Press Secretary George Reedy said none of the testimony heard by the commission had been deleted.

J. Lee Rankin, commission counsel, said here last night that nothing had been deleted from actual testimony of witnesses before the commission.

However, he said, other evidence, such as confidential documents submitted to help the commission reach its conclusions, "will be delivered to the archives but won't be made public until it is declassified by the agencies which supplied it."

We are unable to declassify our March 31, 1964, memorandum as it was originally prepared and, accordingly, we request that you regard it as still bearing a "Confidential" classification.

It is our understanding that you desired us to declassify the memorandum in question in connection with the preparation of Commission's Exhibit Number 2460.

Dear Mr. Rankin:

Reference is made to your letter dated September 30, 1964, requesting us to declassify certain documents previously furnished to the President's Commission. Your specific attention is directed to the thirtieth item on your list which you identified as follows:

"FBI - Report of John James O'Flaherty dated 12-13-63, Bureau File No. 105-82555 re Lee Harvey Oswald - INTERNAL SECURITY"

For your information, the report of Special Agent O'Flaherty, described above, was originally classified "Secret" because of the information furnished by NY T-2 which appeared on page ten of this report. We have recontacted NY T-2 to ascertain if the data attributed to this source could be declassified. We contacted CIA and received clearance to declassify report provided revisions were made in the data as described herein. CIA desired that its source previously described as a [redacted] and [redacted] be concealed through the word "source." We are also authorizing Commission to disregard our Property Stamp since it was understood throughout this investigation the Commission would probably publish some of our reports and memoranda in its over-all report to the nation.

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

Reference is made to memorandum to Mr. W. C. Sullivan from Mr. W. A. Branigan dated 11/23/64 (attached) summarizing for the Director's information the letter the Bureau received from the President's Commission dated 9/30/64 requesting authority to declassify approximately 100 FBI documents and our response to such request.

In connection with referenced memorandum, the Director noted that, nevertheless, we did refuse to declassify some of our reports and the Director instructed that he be informed just what they were and how many.

For the Director's information, of the approximately 100 documents involved, there were 17 documents which we were unable to declassify because of the sensitive nature of their contents and their relationship to the national defense.

[redacted]

In connection with 16 of these documents, we furnished to the Commission revised pages deleting classified material or referred the Commission to an unclassified document containing the pertinent information involved. In connection with the FBI Identification Division record, we referred the Commission to the local police department which maintained the original data concerning the arrest record involved. Without exception, all results of our investigation of Lee Harvey Oswald have been furnished to the Commission in an unclassified status for use by the Commission in any manner it so desired. Tucson,Ariz,

Mrs, Marina Oswald
Dallas,Tex,
My Dear Mrs,Oswald;

I have been waiting to write you But now I must after seeing how they have brainwashed you into thinking your husband killed the president,Now here is the true facts, But first let me tell you that you should of sued the city of Dallas for all their ill gotten wealth for the wanton murder of Lee,

I told him that this Ruby was only taking him down the primrose path, but no he knew that Ruby was ok, you know how bull headed Lee could be, he wanted a pistol so bad, I tried to convince him one could only get him in trouble, Then when Ruby wanted to trade him one for his rifle, he sure fell for it, then he told me how Ruby wanted him to hide it on the floor I knew that some plot was being made,Ruby was to meet him on the street & give him the pistol which he did Poor Lee did not know that it had just been used to kill this good cop Tippet who had been rough on Ruby several times,

You I know have thot how come Lee was trying to hide, But as he watched the Presidents parade from the second floor, he heard the sound of the rifle above him coming from the floor where he had hid it for Ruby,Lee knew that he would be suspect so he got out out fast, One has to hand to these that was in this plot they had figured Lee well, he reacted just as they were sure he would, Now they had things going good, Tippet was like a pawn as was Lee,I would of loved to have saw the look on Tippet face as his superior officer pumped those shots into him, then went to the corner to meet Lee & give him the pistol.

The irony of it all was the trust that Lee still had tho he did not know that Tippet had been murdered as he went in to the movie house,

Have you ever thot it odd the cops knew rite where to find him, little did he dream that his murder had been planned in advance, My dear lady you say you want to live in Texas, I am sure that the times Lee & I talked he would of not wanted you to for they will never let you rest,or those children of yours,

For any state that allows the people like in Dallas will do anything & the wealth the they have , they got by with two wanton murders Now I am sure that three more would not bother them if neccessary,

Just one more point One nite about two nites before that fatal day we saw two of the gunshoes of the Feds at Rubys place I wondered why but now I am sure that Ruby had the them in with his gang, so please take care of your self & know that Lee could of never done this crime,He was only a pawn in their deadly game, I am certain that Johnson will be murdered as was Kennedy,Maby tho if there is a god he will destroy this Sodan with fire,Tho He would not dare touch those rich trash I guess

Sincerly
Joe,

Rerep SA Robert P. Gemberling dated 11/21/64 at Dallas, Texas, captioned "Lee Harvey Oswald, aka, IS - R - CUBA," wherein it is reported that Marina Oswald contemplates attending the University of Michigan, Ann Arbor, Michigan, starting January, 1965, to study English.

In view of the importance of Marina Oswald in the investigation of Lee Harvey Oswald, the Bureau desires that the Dallas Office prepare a comprehensive report on Marina Oswald setting forth complete background data concerning her. Such report will be extremely useful to other FBI Offices at a later date should Marina move to other areas of the U. S.

In this report concerning Marina Oswald, you should set forth all background data currently available to your office concerning Marina Oswald, both in her file and in the file of her late husband, Lee Harvey Oswald. You should also include in such report any information Marina Oswald has furnished to the Bureau as background data concerning herself. It will not be necessary to include details of all of your interviews with Marina Oswald in matters relating to Lee Harvey Oswald or the assassination of the late President John F. Kennedy.

In preparing a current report on Marina Oswald, you should make up-to-date record checks. This would include a check of the records of credit and criminal agencies in Dallas and up-to-date check of the Immigration and Naturalization Service file on Marina Oswald.

The Washington Field Office should check the records of the Immigration and Naturalization Service, Washington, D. C., the records of the Central Intelligence Agency (CIA), and the records of the Passport Office, Visa Office, and the Security Office of the Department of State for all pertinent data concerning Marina Oswald and should submit a separate report in this matter.

In order to handle current and possible future dissemination of these reports on Marina Oswald, both the Dallas and the Washington Field Offices should furnish the Bureau an original and nine copies of such report.

For the information of the Dallas Office, the Bureau does not desire that any active investigation be conducted by the Dallas Office at this time to determine contacts and activities of Marina Oswald. The Dallas Office should maintain periodic contact with Marina Oswald in order that it may be kept informed of future plans of Marina Oswald as far as change of residence might be concerned. The Dallas Office should solicit the cooperation of Marina Oswald in immediately reporting such plans and should point out to Marina that in view of the importance of the investigations concerning the assassination and Lee Harvey Oswald, this Bureau or another agency of the Government might desire to contact her to resolve some important point at a future time.

An extra copy of this communication is being furnished for your file concerning Lee Harvey Oswald.

NOTE:

Although we have compiled considerable background information concerning Marina Oswald through our investigation of Lee Harvey Oswald, the field has never submitted a separate report on Marina Oswald. As a result, the background data we have developed concerning her and data she and others have furnished to us is contained in approximately 190 sections of the Oswald file. ~~In view of the [illegible] of Marina Oswald's history~~, desirable we have a separate report on her concerning her complete background.

SEE NOTE CONTINUED
PAGE THREE.

NOTE CONTINUED:

Furthermore, it appears quite likely that Marina will move from one area to another in the United States in the years ahead and it is essential we have a concise background report on Marina that we can furnish each office involved for information and guidance. We have received no information indicating Marina is or has engaged in activities inimical to interests of U. S., consequently, we are not instituting active investigation of her; however, desirable we do maintain periodic contact so that we can be kept apprised of her personal plans and contemplated change of residence.

Re Dallas airtel to Bureau dated 11/28/64 and Bureau airtel to Dallas dated 12/2/64, in the matter pertaining to the property of LEE HARVEY OSWALD which has been turned over to the FBI and in regard to its return to either the subject's brother or his wife, MARINA OSWALD.

For the information of the Phoenix Office, it is noted that MARINA OSWALD is currently residing in Apartment 6 at the Royal Crest Lodge, Sedona, Arizona, where she will remain until around Christmas time.

For the information of Phoenix, the Dallas Office in October, 1964, received a letter from the subject's brother, ROBERT OSWALD, 4720 Alamo, Wichita Falls, Texas, requesting that all items removed from his house in Denton, Texas, that belonged to LEE HARVEY OSWALD be returned to him.

By airtel dated November 20, 1964, the Bureau advised as follows regarding the request from ROBERT L. OSWALD for the return of the property belonging to LEE HARVEY OSWALD and/or MARINA OSWALD which had been turned over to the Dallas Office by ROBERT OSWALD:

"For your information, the President's Commission advised by letter dated 11/16/64 that it has requested of the Attorney General an opinion concerning the right of the Government to retain in its permanent possession certain of the items of physical evidence related to the assassination of President Kennedy. As soon as this point has been resolved by the President's Commission, your office will be notified as to what items may be returned to the various owners of evidence, including Robert Oswald. You are aware, of course, that Marina Oswald has also expressed an interest in having all items of evidence that belonged to Marina and/or Lee Harvey Oswald returned to her after the Government has no further need for such items of evidence. Inasmuch as a number of the items of evidence that were turned over to your office by Robert Oswald actually fall within the category of data belonging to Marina or Lee Harvey Oswald, you should contact Robert Oswald and discuss this matter with him. You should specifically determine if Robert Oswald has no objection to this Bureau returning to Marina all items that belonged to Marina or Lee Harvey Oswald, even though a number of such items of evidence were actually turned over to the Bureau by Robert Oswald. If Robert Oswald has no objection to such items of evidence being returned directly to Marina Oswald, you should obtain from him a brief signed statement wherein he indicates he has no objection to such data being turned over directly to Marina Oswald, when such items are disposed of by the U. S. Government.

"In the event Robert Oswald insists that those items of evidence belonging to Marina and/or Robert Oswald which were turned over to this Bureau by Robert Oswald be returned directly to him, so advise the Bureau in order that this matter can be taken up with the Attorney General for an opinion."

On November 27, 1964, ROBERT OSWALD advised that some weeks after the death of his brother, MARINA OSWALD had requested that he take possession of numerous items which had been the property of the subject due to the fact that she had no further use for some of the items and that she wanted to get them out of her house. ROBERT OSWALD stated that due to the circumstances under which the property came into his possession, he would rather that such property as was in his possession be returned directly to him rather than to MARINA.

DL 100-10461

By airtel dated December 2, 1964, the Bureau instructed as follows:

"You should immediately contact Marina Oswald and confirm with her that she has requested that Robert Oswald take possession of numerous items which had been the property of Lee Harvey Oswald. You should inform Marina that you are making such inquiry inasmuch as she has previously indicated a desire in having all items of evidence that belonged to Marina and/or Lee Harvey Oswald in possession of the United States Government returned to her after the Government has no further need for such items of evidence."

The Bureau has further advised that this matter should be handled promptly and that the Bureau be advised of the results of the contact with MARINA OSWALD in this matter.

He also professes to be a Baptist missionary in Mexico but some of his activities indicate he is either a mental case or a confidence man. We have furnished to the Commission complete background regarding Osborne and were keeping the Commission apprised of Osborne's whereabouts should the Commission desire to interview him. Dear Sir: It is my judgement today that President Kennedy was killed pressured by Oswald I have been thinking about the Warren report that there was no evidence discovered, I conclude this is not fact because it had not as yet been announced. Miami Florida television station broadcast a television news report where a Cuban who had employed Oswald in Miami before the event when he was in Miami Florida. The television broadcast was conducted by a local news reporter with this Cuban employer about this time on an occasion of the same week that Kennedy was killed so these issues connection with Oswald with the Cuban regime according to the employer that had been broadcasted on television. An investigation on this case will result in information that is of utmost unknown. Oswald knew Miami and it is a hot bed for Communists who are operating under communist regime and are among the refugees fleeing communist which in fact they are pro-communist hopefully Castro

(ASUNTO LEE HARVEY OSWALD)

Federal Beaureau of Investigation,
Washington, D. C.,
U.S.A.

Señores:

Posiblemente sea de interés para ustedes el confirmar si no estoy equivocado. Entre los últimos días de septiembre y los primeros de octubre de 1963 hice el viaje de la ciudad de México a la de Durango en un autobús de Transportes Chihuahuenses y en él mismo viajó a esta última ciudad un individuo americano, que estoy seguro fué Lee Harvey Oswald. Hablamos dos o tres veces en el viaje: en San Juan del Río, donde cenamos juntos, en Querétaro y en Aguascalientes. Estoy seguro de que era él, por las fotografías suyas que después he visto y por la descripción de su psicología. Extrañado yo de que él viajara en autobús, y a Durango, para regresar a Estados Unidos, me dijo que de Durango iría a Mazatlán, y de allí a Nogales, para ir a Tucson, Arizona, donde tenía una cita con alguien. Me pidió, al llegar a Durango, donde yo resido, que le recomendara un hotel, no de los mejores, sino callado y barato, porque venía escaso de dinero. Al abandonar el autobús lo llevé conmigo al Hotel San Luis, de esta Ciudad, donde por última vez lo ví al entrar al Hotel. Por todo equipaje traía una bolsa para ropa de las de los soldados americanos y una funda de guitarra o violín que documentó como equipaje en el autobús. Le pregunté al ver lo que parecía guitarra si estaba estudiando música, pero únicamente movió la cabeza y medio sonrió.

No había querido comunicarme con ustedes hasta tener algún otro dato que confirmara mi creencia. Lo hago ahora porque en la revista Newsweek, de octubre 5-1964, donde publican el reporte Warren, viene un facsímil de la escritura de Oswald. Se me ocurrió ir al hotel y pedir las tarjetas de registro de los huéspedes que se alojaron en esos días y encontré una de un americano registrado con el nombre Bert L. Reid. La letra de quien escribió esta tarjeta es muy parecida a la de Oswald, que ví en Nwesweek, pero no siendo yo perito, se necesitaría que ustedes cnocaran esta similitud. Esta tarjeta la tengo en mi poder. Si les interesa, puedo enviárselas.

Ustedes comprenden que este detalle probaría que fué Lee Harvey Oswald quien estuvo en Durango de paso, como él dijo, para Tucson.

De ustedes atentamente.

Fermín F. Núñez.

NOTE:

Correspondent apparently is a Mexican national who furnished information indicating he was on a bus with Lee Harvey Oswald returning from Mexico to the U. S. in late September or early October, 1963. However, the information he furnished does not conform with the known data that we have developed concerning Oswald's trip to Mexico. We have conclusively established that Oswald was not on the bus that correspondent claims. Bufiles contain no information identifiable with correspondent.

Dear Sirs:

What I have to say will probably be of interest to you, if I am not mistaken.

During the last part of September or the first part of October 1963, I took a trip from Mexico City to Durango. I traveled in a bus of the Transportes Chihuahuenses Company and on this same trip there was an American, who I am sure was Lee Harvey Oswald. We talked two or three times during the trip: in San Juan del Rio, where we ate together; in Queretaro; and in Aguas Calientes. I am sure it was he because of his photographs which I have since seen, and because of the description of his psychology. (sic*) I was puzzled that he would travel by bus, and to Durango, upon his return to the United States. He told me that from Durango he would go to Mazatlan, and from there to Nogales in order to go to Tucson, Arizona, where he had an appointment with someone.

Upon arriving in Durango - where I live - he asked me to recommend a hotel, not one of the best, but rather one that was quiet and inexpensive, because he had little money. When we left the bus, I took him with me to the San Luis Hotel of the same city. The last time I saw him was when he entered the hotel.

The only baggage he carried was a military duffel bag and a guitar or violin case which he had checked on the bus. When I saw what appeared to be a guitar case, I asked him if he were studying music; he only moved his head and smiled slightly.

I didn't want to write to you until I had informati which would confirm my belief. I am doing it now because, in the magazine Newsweek, dated October 5, 1964, in which the Warren Report was published, there was a sample of Oswald's h writing. As a result, I decided to go to the hotel and ask fo the guest registration cards of those who had stayed in the ho during the period which I have already mentioned. There I fou a card which had been filled out by an American with the name of Bert L. Reid. The handwriting of the person who filled out the card is very similar to that of Oswald, which I saw in Newsweek. However, I am not sure and therefore it would be necessary that you check the similarity. I have the mentioned card in my possession. If you are interested, I could send it to you.

You understand that this will prove that it was Lee Harvey Oswald, who passed through Durango, as he said, on his way to Tucson.

Yours sincerely,

(signed) Fermin F. Nunez

"Dear Lynn Bedford,

"I have not contacted you for some time as I was very discouraged by lack of results, even more I was especially discouraged by the so called findings of the Warren Commission and the published conclusions of the matter, this stuff that was published was nothing but JUNK. Oswald did not assinate President Kennedy!

"I gave you the name of the man who used the rifle, I gave you the Dallas organization which is part of a large outfit, but the Dallas group is only one unit.

"I will not attempt to detail the visions on the following but rather I will be very brief.

is a very important link in this whole matter, "JACK BENNY" the comedian is tied into the matter with Harrah in some way.

"I was shown this matter BEFORE, I noticed Jack Benny come out of Harrah's parking lot driving a Rolls Royce! About 4 days later Jack Benny did his act in Harrah's "South Shore Room" in the casino, he was billed for about 2 weeks.

"A Los Angeles newspaper carried the story of how they were called by a person unknown - and told to alert the F.B.I. on the possible assination of President Johnson upon his campaign visit to the L. A. area, the F.B.I. was immediately informed of the call.

"More over, one vision of instruction refered to Harrah and the letters P.K. (I believe this means President Kennedy) if this is true as I believe it is, then this death is linked to Harrah.

"Lynn, I have been working for "Harvey's" Hotel and Casino since the latter part of July, I work in the Kitchen of the Carriage room - (Main Kitchen) 4pm to 12pm, I quit once and went to San Francisco, but I was moved back here in the same forceful way as I was moved in here in the first place!

"I did not want to work here for the reason I like to gamble and that is all there is here to do! I have earned a living but there is no savings - I know this result needs no explanation.

"If I could, I would leave here now - but the power that controls my every move and destination says NO! So here I am knee deep in snow at times, and it sure gets cold here.

"Oh Yes! When I heard and read the Warren Commission conclusion in the Oswald - J.F.K. matter, the tears just

rolled out of my eyes, and Lynn I was not crying! This was a manifestation of the spirit and means Sorrow_ because of error, wrong understanding, etc!

"Well Lynn there is a lot to this matter but I said I would be brief and I have been, Good Luck.

"Written sincerely

Security Matter - C

On December 4, 1964, by means of a suitable pretext by a Special Agent of the Federal Bureau of Investigation, it was determined that Mark Lane will depart the United States by air from Kennedy International Airport, New York City, on December 5, 1964, en route to London, England. It was further determined that Lane will remain in Europe until late January, 1965, during which time he will deliver a series of lectures on the circumstances surrounding the assassination of President John F. Kennedy.

The "New York Herald Tribune" newspaper dated January 15, 1964, page 7, column 1, contained an article entitled "Oswald's Mother Hires Lane". This article stated that on January 14, 1964, Mrs. Marguerite C. Oswald, mother of accused assassin Lee Harvey Oswald, announced she had hired Mark Lane to represent her slain son before the Warren Commission investigating the murder of President John F. Kennedy. According to this article, Mrs. Oswald stated she had been in contact with Lane during his stay in Fort Worth, Texas, the previous weekend. It was also pointed out that Lane had accepted the case although Mrs. Oswald stated she had no funds with which to pay him.

The "New York Times" newspaper dated April 2, 1964, page 37, contained an article stating that Mrs. Marguerite C. Oswald had dismissed

The "Guide to Subversive Organizations and Publications" issued December 1, 1961, by the Committee on Un-American Activities, U. S. House of Representatives, page 115, contains the following citation regarding the National Committee to Abolish the Un-American Activities Committee (NCAUAC).

"Cited as a 'new organization' set up in the summer of 1960 to lead and direct the Communist Party's 'Operation Abolition' campaign. Seven of the national leaders of this group have been identified as Communists.

NEW YORK COUNCIL TO ABOLISH THE HOUSE
UN-AMERICAN ACTIVITIES COMMITTEE

On March 9, 1961, a source advised that the New York Council To Abolish the Un-American Activities Committee (NYCAUAC), 150 West 34th Street, New York City, New York, was formed at a meeting held in New York City on November 17, 1960. This organization was founded principally through the efforts of FRANK WILKINSON, Field Representative of the National Committee To Abolish the Un-American Activities Committee (NCAUAC).

ROBERT RONSTADT, 20515 Tiara Street, Woodland Hills, California, a former member of the Communist Party (CP) in Los Angeles, California, from 1946 to 1952 who furnished information to the Federal Bureau of Investigation from 1949 to 1952 advised on September 17, 1952, that FRANK WILKINSON was a member of the Los Angeles County, CP as of September, 1952.

A second source furnished on September 14, 1961, a copy of resolutions of the New York Council to Abolish the House Un-American Activities Committee (NYCAHUAC) which were adopted by the NYCAHUAC. One such resolution affirmed the intention to continue to work for the abolition of the House Committee on Un-American Activities (HCUA) and to continue its efforts to broaden the participation in this fight. Another resolution accepted as a modus vivendi the suggestion of the Field Representative of the "National Committee to Abolish the HCUA" (NCAHUAC) namely that local abolition committees may identify and co-ordinate their efforts as closely as they desire with NCAHUAC, still maintaining their autonomy for as flexible and independent a program as possible.

A third, fourth, and fifth source have advised during March, 1962, that CP members in the New York City area have been solicited to support activities of the NYCAHUAC during attendance at CP club meetings.

On May 7, 1964, a sixth source advised that the NYCAHUAC continues to function from its office at 150 West 34th Street, New York City, New York.

TO THE FBI OF HOUSTON

Dear Sir:

I would like to have the name of the F.B.I. agent that investagated Mr. & Mrs. James Dommey/car for the Warren Commission and took what Mrs. Dommey said that I was not reliable for what I said. Mrs. Dommey told the FBI a lie. Every word she told the man was a lie. Mrs. Patterson, mother of Mrs. Dommey, wrote me very often and was a good friend of mine. I was told by Mrs. Patterson that Mrs. James (Doris) Dommey had paid tickets for sppeding and law violations. Also, Mrs. Dommey was shot for stealing in Jacksonville. Dr. C. L. Newburn picked the shot out, and when Mrs. Dommey cut her leg on the lawn mower about 4 years ago a Dr. in Houston picked one out. Her statement was all a lie. I did all my Dad and Mothers business for 16 yearsand still do my Mothers business and take care of my brothers four childrens welfare. Dr. Pryor of Jacksonville will tell you my family trust me, and also Dr. J. K. Johnson of Pasadina, Texas will tell you the same for I did all of Dad's business when Dr. Johnson took care of Dad when he was in Jacksonville, that was about four or five years.

I feel that the Warren Commission wanted the truth and with the high tail Mrs. Dommey told it looked like you would check her out to see if she was telling the truth. She was at my house in late '62 in Irving and her Mother wrote that Mr. Dommey was coming not Mrs. Dommey. I saw Oswald and wife and babies. I don't mind about being made out a liar on that, but I do think the FBI took a lot on their hands to turn in a report like they did on me without checking these things out. I have never been mixed up in any murders or tryed to get mixed up inanything. My family trust me 100%. Her own brother disapproved of what she told the FBI.

SA Richard Solari S

Mr. Burnett came cut to see me last week. He is the FBI that called Houston. He read the letter I have from Mrs. Patterson. He said he thought, Mrs. Dommney was trying to get back at me for my brother-in-law having Mrs. Dommney brother and brother-in-lawlocked up for stealing a few years back. I think my family will check out ok if little questioning would have been done.

Yours truly

SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

PURPOSE

To advise you we have received another complaint from Mrs. J. T. (Gertrude) Hunter of Irving, Texas, who is still claiming the President's Commission report "labeled her a liar" and she is still endeavoring to identify an Agent from our Houston Office who interviewed a relative of hers. It is recommended the attached communication be approved for dissemination to the Department.

BACKGROUND

Mrs. Hunter was one of two women who gave credence to an allegation that Oswald, his wife and child visited a gun shop prior to the assassination to have a telescopic sight mounted and sighted on a rifle. Our investigation suggests the allegation made by an employee of the gun shop was fabricated and that Mrs. Hunter was mistaken in her identification or lied. At the specific request of the Commission we interviewed Mrs. Doris Dominey of Houston, Texas, in an effort to substantiate statements made by Mrs. Hunter. On 8-13-64 during an interview, Mrs. Dominey characterized Mrs. Hunter as being known to tell "tall tales" and her gratuitous observations concerning Mrs. Hunter were incorporated in the Commission's report.

By letter dated 11-20-64, we advised the President's Commission and the Department of two contacts by Mrs. Hunter on 9-29-64 and 11-12-64 wherein she expressed extreme displeasure with the Commission's report. We also advised at this time of Mrs. Hunter's threat to institute suit against Mrs. Dominey and of her intention to continue efforts to identify our Houston Agent who interviewed Mrs. Dominey. The Commission at this time was advised that any further pertinent data would be furnished to the Department.

RE: LEE HARVEY OSWALD

DETAILS

Houston by airtel 12-2-64 furnished to the Bureau and Dallas copies of a letter from Mrs. Hunter dated 11-30-64 wherein she expresses substantially the same opinions about the Commission and again besmirches the character of Mrs. Dominey and states that she feels that the FBI should have checked on Mrs. Dominey before accepting her word. Mrs. Hunter asked our Houston Office to furnish her with the identity of the Agent who interviewed Mrs. Dominey. Houston suggested that Dallas personally acknowledge this letter and reiterate the Bureau's stand in this regard, specifically that we reported what we developed and that we had no control over the preparation and/or publication of the Commission's report.

OBSERVATIONS

It is felt that written acknowledgment of her communication will merely stimulate further communications from her and that it is best for us to again contact her personally and endeavor to get through to her what our responsibilities in this particular matter were.

RECOMMENDATION

That the attached letter to the Department advising them of the recent contact by Mrs. Hunter, with copies to Dallas and Houston, be approved. Dallas is being instructed to orally acknowledge Hunter's letter.

The San Francisco Office will note from a review of the enclosed material that considerable investigation has been conducted in the past in an effort to contact FLOYD E. SWINK, who has written numerous letters to SA LYNN W. BEDFORD, at Mesa, Arizona, in which SWINK implies that he has information concerning the assassination of President KENNEDY. It is noted in the aforementioned Phoenix report that as of November 20, 1964, SWINK was residing in care of the Olympic Motel, Post Office Box 2, Stateline, California.

Dallas reviewed the voluminous correspondence Marina Oswald has received from various people throughout the United States since the assassination. One of the items concerned was a letter by Hou-Seye. In this letter Hou-Seye furnished Marina two dollars as an expression of sympathy and indicated that Oswald was driven by cruel circumstances into this act of violence "if, indeed, he is the guilty party." Hou-Seye has previously furnished letter to Director concerning highly technical matters which do not make sense and strongly suggest Hou-Seye is a mental case.

Dear Scott:

Enclosed is a nut letter the like of which, before November 22, 1963, I would have thrown in the wastebasket. Now I think maybe someone ought to take a look, someone better qualified than I to judge whether such guys are dangerous.

The writer evidently hates the Kennedys and the United States, and his hatred is apparently triggered by references to the Oswald case. At least, that is what seems to have triggered this letter to us; it responds to an advertisement in the Saturday Review.

By the way, please instruct anyone who sees the letter to ignore Hoyt's handwritten references to me on the front side of the nut letter. Hoyt doesn't really think I'm "sick, sick, sick"--I hope.

Cordially,

more interest in investing, as indicated by the large numbers of people attending lectures and courses on the subject." Emphasizing the conservative approach, Gellermann jabbed: "Do you know of any other business which puts nothing in its windows but venetian blinds?"

On a yearly basis, Bache's advertising investment ranges between $750,000 and $1,000,000, an amount exceeded only by Merrill Lynch, Pierce, Fenner & Smith. Bache, one of the three largest brokerage firms, has been an industry innovator. The firm was first on the airwaves with a radio promotion; sponsorship of its present program, "Today's Business," was started with WOR in New York in 1948.

Gellermann, however, goes along with others who place Wall Street advertising in believing that: "Newspapers still do the best job for us and we spend most of our advertising dollars with them."

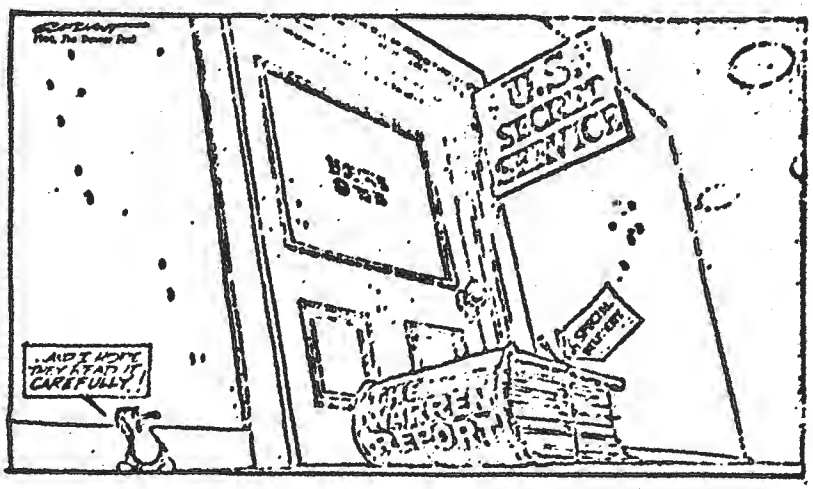
Some brokerage firms have schedules with magazines, but so far there has been only spotty use of television. Yet TV could be a breakthrough for the industry once budgets have been increased enough to make use of it.

An official of Thomson & McKinnon, a brokerage firm that earlier this year made a shift in its agency alignment, also voiced some strong feelings on the subject of financial advertising. "There's an awful lot of room for creativity in financial advertising," said George Bartlett, the firm's partner in charge of advertising. But, he quickly added, "nobody has found the answers yet." Evidently in a search for some of the answers, the account of Thomson & McKinnon was transferred from John O. Powers Company, where it was lodged for twenty-one years, to Albert Frank-Guenther Law.

It's not uncommon for an agency like AF-GL or Doremus & Company, its big rival in financial advertising circles, to have several brokerage firms as clients. One of AF-GL's clients is Merrill Lynch, Pierce, Fenner & Smith. Merrill Lynch is the biggest firm in the industry and has had the biggest advertising budget for years. As the firm opened more offices it increased its annual allotment for advertising. It passed the $1,000,000 mark five years ago. Today it spends $3,000,000. Of this, 40 per cent is used to educate the public on the advantages of investing in the stock market. The balance is targeted to promotion of investing through Merrill Lynch.

There's a reason why the advertising agency doesn't object when the firm spends a substantial share of its advertising outlay into education. "It's our thought," said Jack Adams, AF-GL vice president (and supervisor on the account for seventeen years), "that if we increase the size of the pie, our piece will be bigger." Adams, however, con-

ON THE DOORSTEP



It Is More Than a Crime Report

IN THE great monumental mass of the Warren report on the assassination of President Kennedy, it is important that Americans perceive two stories, and not simply one.

The first is the official account of a crime that has changed history, an account that tells us with clarity, detail and assurance who did the killing, how it was done and how it might have been prevented.

This account establishes beyond question what most reasonable men have accepted since last November—that Lee Harvey Oswald was the killer, that he acted alone, that the motivation arose from his own twisted personality and that the crime might possibly have been prevented if there had been more thoroughness and coordination among several security agencies involved.

JOHN F. KENNEDY — one of the brightest, most successful and most favored men in our history — was killed by one of the most rejected and most futile citizens this nation has ever produced.

He was successful at almost everything he undertook—an honor student at school, a hero in war, a winner in elections to the House, the Senate and the presidency.

It is significant that this favored man on the inside of our society should be struck down by a man on the outside, a man who lived in our society most of his life but was never a part of it.

Oswald failed at almost everything he undertook. He was in trouble with the Marines, he was fired from jobs, he was at odds with almost everyone he met.

He was no more at home in the Soviet Union than he was in his own country.

Last Nov. 22, on a street in Dallas, the price of Oswald's alienation proved to be the death of President Kennedy.

THE story of Oswald may be, among other things, a warning that those of us who are at home in our society, no matter how fortunate, can never be entirely safe until we have coped with the problems of those who are alienated from it.

From the Warren report, we hope there will stem a whole series of new Secret Service and FBI measures to protect our presidents more effectively. This is the obvious first point to be made.

But we hope also that there will arise a new awareness of the danger to us all from the alienated and the desperate, hating from the outside a society that they are not quite able to become a part of.

Re Bureau airtel to Dallas and New York, 11/27/64, which enclosed copies of Page 79-80 of Volume I, of the "Hearings Before the President's Commission on the Assassination of President KENNEDY", and requested the comments of SAs WALLACE R. HEITMAN of the Dallas Office and SA ANATOLE A. BOGUSLAV of the New York Office concerning allegations made by MARINA OSWALD, in this testimony.

In this testimony, MARINA OSWALD refers to an interview by an official of the Immigration Service. She is undoubtedly referring to her interview with Mr. FRED HARVEY, an official of INS Headquarters, Washington, D. C.. On 11/28/63, arrangements were made at Washington by the Bureau for an official of INS to proceed to Dallas, Texas, to talk with MARINA OSWALD. In previous interviews, MARINA OSWALD had not been cooperative and had stated she did not desire to be interviewed by a representative of the FBI. Mr. HARVEY and SA BOGUSLAV arrived in Dallas the evening of 11/23/63. Thereafter, Agents HEITMAN and BOGUSLAV and Mr. HARVEY talked with MARINA OSWALD.

The results of this conversation were recorded in a memorandum typed 11/30/63. Mr. HARVEY identified himself as an official of the INS from Washington, D. C., and stated he had come to Dallas to assure Mrs. OSWALD that her immigrant status in this country was legal and that there were no plans to deport

her to Russia. He advised that the Immigration Service had processed her papers at the time of her entrance into the United States. He advised her that the Immigration Service could assure her residence in the United States and eventual citizenship if she so desired and qualified under the law if she would cooperate with Federal officials in the finding out of the facts attendant to the investigation concerning her former husband and the investigation of the assassination of the President of the United States.

MARINA wanted to know what cooperation meant, and she was told by Mr. HARVEY that it meant she would be questioned by Federal officials, and it would be expected that she would give truthful answers to questions pertinent to this investigation and that she would furnish all information in her possession concerning the investigation and concerning herself. MARINA agreed that she would cooperate and expressed her appreciation to Mr. HARVEY for his assurances.

An interview of MARINA, pertinent to the investigation of OSWALD and the assassination, was thereafter conducted on 11/28/63 by SAs HEITMAN and BOGUSLAV. Mr. HARVEY was not present during this portion of the interview. The results of this portion of the interview are contained in a 302 dated 11/29/63, (See page 546 of report of SA WARREN C. DE BRUEYS dated at Dallas, 12/2/63, captioned "LEE HARVEY OSWALD, aka, IS-R-CUBA").

It will be noted MARINA OSWALD was not completely cooperative in subsequent interviews as is recorded in 302's forwarded to the Bureau. I have been informed by SA HEITMAN that MARINA was at no time threatened directly or by innuendo with expulsion or deportation from this country, if she did not cooperate or answer the questions which were asked her. Her immigration status in the United States had been discussed with her by Mr. HARVEY and she stated she understood her status. All interviews with MARINA OSWALD were conducted in a polite, business-like manner.

I have reviewed the portions of Mrs. OSWALD's testimony, as provided on pp. 79,80, of Vol. I, of the "Hearings Before the President's Commission on the Assassination of President Kennedy."

I wish to emphatically state that I or no FBI representative in my presence or to my knowledge under any circumstances took a position with Mrs. OSWALD that if she did not answer questions or cooperate she could not stay in the United States or in this country.

At all times during the interrogation of Mrs. OSWALD a business-like, polite approach was taken by me and by SA WALLACE R. HEITMAN when we talked with Mrs. OSWALD.

Her status in this country was discussed with Mrs. OSWALD by FRED HARVEY of the Immigration and Naturalization Service with SA BOGUSLAV serving only as an interpreter. SA WALLACE HEITMAN was present. This occurred to the best of my recollection in the last week of November, 1963.

No questions posed by Immigration and Naturalization Service, as interpreted by me, could be classified as threatening her with expulsion or deportation if she did not cooperate.

Dear My Oswald,

I hope this letter finds you in good health and looking ahead to a bright future in your and my Country, the United State of America.

What has happened is the fault of all of us and especially Satan. When we fail to teach our children about God and our Savior Jesus Christ we are guilty of spawning hate, murder, etc. Had Karl Marx, Engels, Lenin, and others been taught Christian love, Lee Oswald and John Kennedy would be alive and with their families this

Christmas Season.

Please read the 5th Chapter of St. Matthew Mrs. Oswald and teach it to your children and all the people you meet.

We have a beautiful Country and I want to ask you to learn to love, enjoy, and defend it. It was built on a belief in God and respect for the dignity of all peoples. Our Country isn't perfect. But we can all work to make it a better place to live.

The 25th of December is Jesus Christ birthday. He was and is known as the "Prince of Peace. He lives within all of us if we will let him in.

Don't cry Mrs. Oswald. Everyday brings a new day.

The tragedies and problems of yesterday are past. We must look for the future. We can profit by the mistakes of the past.

I am a man and a father. Certainly I can imagine how you feel. Today is no stranger to me. In the last ten years I have spent four years in Veterans Hospitals. I am not able to work. But I find purpose in life by witnessing for Christ, standing up for our Country, the U.S.A., and helping others the best I can.

Of course I know some communist. But I don't hate them. I tell them about Jesus and what he has done for

FOUNDATION

me.

You see I understand Communism. I've studied it. And I use to be one. It produces hate, wrong, crime, and everything that is distasteful. Like you, See, and others I was forced into Communism. But now I have stood up and rejected it.

Won't you join in the fight for Christianity, It upholds freedom, dignity, responsibility, equality, and yours and my soul!

May God be with you.

Pardon me for not knowing the Russian language.

Have a happy Christmas.

Sincerely,
Charles B. Webb

Dear Mrs. Oswald

I just read a writeup on you, I have been alone for the past 19 years, I have worked very hard to feed and clothe and train my children, no one ever gave me a dime, not even to help hunt my Son after he was forced by the commies to leave home, he was gone 7mo. before I knew where he was, you see we are white and no one in this country cares for the poor white Americans, only the Negro and those from other countries are helped here, unless they are rich.

You see the commies got my Son when he was only 16 and doped and brain washed him, they turned him complety against me, they tried to take him from me by fraud, when I finley got him back on the right track they had their teenage hinchman to beat him almost to death in fact we know they were supposed to kill him, he was beat in school hall and left for dead, he is perminantly injured and disfigured for life no one has turned a helping hand, there is no justice for Americans but the commies and the Negro must be cared for and of course those like you who do not belong here must have every thing, the ones that give to you would not feed a poor white American child, how do you think we Americans like my self feel when we read of how much has been given to some one like you, I truly feel for your children but not for you as you have never seemed to mourn for your husband I feel you married him only to get into this country.

You see I tried very hard to get help, I sent a letter To Boby Kennedy telling him what had happened to my Son he did not care enough to write me, if we were Negro or from another country he would have hopped a plane and tried to help me, but no I am a white American we are supposed to take any thing and like it, and no one will lend a helping hand, I also turned this over to our so called FBI did they help no, I apealed to churches did they help no, I have a damage case coming up but I do not expect to get anything outof the commies can do anything in this country and get by with it.

Your troubles are so small compared to mine, you see mine are everlasting my Son has an eye that will sink back in his head an inch he was such an intellegent boy a born writer but now there is nothing for him in life I dont think his mind will ever be any good any more you should know more about this than I do, how can a human do so much to another human and only a child, I am very bitter yes why shouldn I be it was forced up on me by whom the commies the brutes, they have brain washed 90% of our teenagers this will make you very happy to know the party is gaining so fast.

If you dont believe what I have told you about my Son go see for your self he is at Fort Hood Texas his name is Ricky L. McDaniel no R.A.14-813-640 CO.B16th.Eng 1St AD go see him and take a good look at what the party did to an innocent boy, a boy that was such a good boy and was always so good to me and now hates me because of them I wish I could kill all of them, but that would be to good for them it would be better to make them suffer from now on, would you like for this to happen to one of yours how would you feel, are you going to use all that money to help brain wash more of our children I do not ~~think~~ doubt it, why dont you go back where you belong back to Russia we dont ~~dont~~ need you here we have to many of your kind here now.

I am sure your country would not take an American

widow and children in and care for them why should we take you in and care for you while thousands of our own need help,but they will neve get help as long as we have the kind of Government we now have and th kind of people we have.

As for Mrs. Kennedy I am not sorry but hate to see children with out a father I know what that is like,he was warned about going to Texas the one we have now is much worse than Kennedy and he was nothing almost ate out of Nick,s hand so what did we loose.

I hope you will take a look at my Son it might help you to have a heart an change your way of life if you could picture one of yours in the same shape and the torture you would go through,if you will put this letter in the paper Mrs.Oswald and you have money to do it,it might help a lot of people to change for the better theres a great need change.

I havent told the full story but enough I beleive for you to understand what I am telling you ,I believe in freedom and justice and liberty for all but its all been washed down the drain by communisim you dont know how bad that hurts the true American.

It seems most every one can be paid to do anything no mattor how bad it might be,when any one is low enough to ruin a childs whole life for their own gains thats pretty low indeed.

A true American and proud to say so.

"Lee looked very bleak [illegible] goodby to his family. He was pleased the baby was coming. He was concerned to be able to provide for it."

He was a good husband, a good father, she said.

"He called last night (from the jail). He didn't know where his wife and family were. He was concerned."

Oswald's wife and family were not at the Paine home Saturday night.

"Very Upset"

"But Marina telephoned me today. Just after Lee was shot. She seemed hurried, but efficient. Of course, she was very upset."

Marina Oswald speaks only broken English. But Mrs. Paine speaks good Russian. She formerly taught the language.

What was Lee Harvey Oswald like?

He spent most of the weekends at the Paine home, where his family had been staying since Sept. 24.

"He was just a father here. He romped with my children. He helped feed June Lee, his own 22-month-old daughter."

Oswald never talked politics or philosophy with Mrs. Paine.

"I never heard him say anything about President Kennedy.

"I would say he had very fixed ideas, and I don't much enjoy argument anyway."

Yes, Oswald was a loner. Almost every one who knew him mentioned this.

"I don't think he had any friends," said Mrs. Paine. "I would say I found him hard to know at first."

Thought It Accidental

Although Oswald worked in the building from which the shots were fired that killed the President, Mrs. Paine thought this was accidental.

"I'm quite sure he came there by chance." So am I

Oswald, she explained, had

[redacted] thirtyish, friend in need for Oswald and his family, was watching television. She saw Oswald fail.

"Oh, no," she exclaimed.

A casual encounter at a party and an interest in the Russian language brought together Mrs. Paine and Marina Oswald, 22, the woman Oswald had married when he went to Moscow and tried to renounce his U.S. citizenship.

"When Lee was out of work, Marina stayed with me while he went to New Orleans and got a job," Mrs. Paine said.

"Later, when Lee was out of work again, I went there and brought Marina and the little girl home.

"Lee looked very bleak saying goodby to his family. He was pleased the baby was coming. He was concerned to be able to provide for it."

He was a good husband, a good father, she said.

I'm sure. (Look at all the money she's got now.)

I think someone should think of you two and any children you and Lee have Mrs Oswald.

Mrs Oswald (Ms) you are his mother and I know your hopes are that he is innocent. I hope he can be proven innocent!!

My father went to jail for killing a man. I don't think he meant to do it, but he did. Maybe this is some comfort I hope it is. At any rate... just trust in God.

There really is a God and nothing happens but what he wills it to.

I would love to hear from you my name and address is above.

Dear Mrs. Oswald,

Tho I'm not to very sure how to say this I dint I should say it:

At the news that former President Kennedy had been shot I instinctivly Clapt my hands, jumpid and clapped my hands over my head once or twice!! About 10-15 minutes later cold chills ("goose pimples") broke out over my entire body. I can't honestly say I am glad President Kennedy is dead but I'm not sorry either and that is what I said when I was told he was dead.

And even if no one else is expressing my feelings I'm sure they are felt by a large Number of people.

Of course I'm sorry for the sake of Jacqueline and her children but she is young and will marry again soon

Dear Lee – I have just heard of your arrest over the yankee net work here in Massachusetts. Thank-you (if you did it). The chief of police here in Greenfield called my son and told him the secret service was watching me. Yet while they were suppose to be watching me. Every tom, dick and harry entered my home and stole and borrowed anything they felt like taking. If they wanted to return it, it was returned, if not it was never returned. A great many things were nicked, paint was put on different articles and the floor in places were scraped bear! Yet, mind you, the secret service was watching me all this time. That was what happened to my home and what happened to my four children, you, not no one else would believe. Once again, thank-you, if you did

WERE THE APOSTLES OF CHRIST CHRISTIAN COMMUNISTS?

"And fear came upon every soul: many wonders also and signs were done by the apostles in Jerusalem, and there was great fear in all. And all they that believed, were together, and had all things common. Their possessions and goods they sold, and divided them to all, according as every one had need."

Holy Bible
The Acts
Chapter 2, Versus 43, 44, 45

"And the multitude of believers had but one heart and one soul: neither did any one say that ought of the things which he possessed, was his own; but all things were common unto them. For neither was there any one needy among them. For as many as were owners of lands or houses, sold them, and brought the price of the things they sold, and laid it down before the feet of the apostles. And distribution was made to every one, according as he had need."

Holy Bible
The Acts
Chapter 4, Versus 32, 34, 35

DID KARL MARX BORROW FROM THE BIBLE?

"In a higher phase of communist society, after the enslaving subordination of the individual to the division of labor, and therewith also the antithesis between mental and physical labor, has vanished; after labor has become not only a means of life but life's prime want; after the productive forces have also increased with the all-round development of the individual, and all the springs of cooperative wealth flow more abundantly - only then can the narrow horizon of bourgeois right be crossed in its entirety and society, inscribe on its banners: 'From each according to his ability, to each according to his needs!'"

Karl Marx
Critique of the Gotha
Program

If communism is wrong, one might ask why God endowed St. Peter and the other apostles with the power to perform miracles while they and thousands of converts practiced communism.

MORE PARALLELS

Did Pope Pius XI borrow from Marx and Engels? "In the first place, it is obvious that not only is walth concentrated in our times but an immense power and despotic economic dictatorship is consolidated in the hands of a few."

Pope Pius XI
On Reconstructing
The Social Order

"The bourgeoisie keeps more and more doing away with the scattered state of the population, of the means of production, and of property. It has agglomerated population, centralized means of production and has concentrated property in a few hands."

Communist Manifesto

"With the diffusion of modern industry throughout the whole world, the 'capitalist' economic regime has spread everywhere to such a degree, particularly since the publication of Leo XIII's Encyclical, that it has invaded and pervaded the economic and social life of even those outside its orbit and is unquestionably impressing on it its advantages, disadvantages and vices, and, in a sense, is giving it its own shape and form."

Pope Pius XI
On Reconstructing
the Social Order

"The need of a constantly expanding market for its products chases the bourgeosie over the whole surface of the globe. It must nestle everywhere, settle everywhere, establish connections everywhere. In one word, it creates a world after its own image."

Communist Manifesto

"Nevertheless, as the situation now stands, hiring and offering for hire in the so-called labor market separate men into two divisions, as into battle lines, and the contest between these divisions turns the labor market itself almost into a battlefield where face to face, the opposing lines struggle bitterly.

On Reconstructing the

WHAT JOHN STUART MILL ACTUALLY BELIEVED:

"Whenever it ceases to be true that mankind, as a rule, prefer themselves to others, and those nearest to them to those more remote, from that moment, Communism is not only practicable but the only defensible form of society; and will, when that time arrives, be assuredly carried into effect. For my own part, not believing in universal selfishness, I have no difficulty in admitting that Communism would even now be practible among the elite of mankind and may become so among the rest."

"Mill was no Socialist. He warned his generation of the consequences of the doctrine."

HAROLD J. LASKI STRIKES OUT FOUR TIMES
IN ONE TWENTY WORD SENTENCE.

"The Marxian view of a <u>secretly</u> armed <u>minority</u> assuming power at a <u>single stroke</u> is unthinkable in the <u>modern state</u>."

"Karl Marx; an Essay"
by Harold J. Laski

REGARDING LASKI'S USE OF THE WORD "MINORITY", THE COMMUNIST MANIFESTO STATES:

"All previous historical movements were movements of minorities or in the interest of minorities. The proletarian movement is the selfconcious, independant movement of the immense majority, in the interest of the immense majority."

Concerning Laski's assertion that the Marxian movement would be a <u>"secretly"</u> armed minority we find on the last page of the Communist

Manifesto: "The Communists disdain to conceal their views and aims."

WHAT "SINGLE STROKE"?

"The proletariat will use its political supremacy to wrest, by degrees all capital from the bourgeoisie."

Communist Manifesto

As for "assuming power" in the "modern state" Marx indicated in 1872 that in modern states force and violence are not necessarily needed; therefore Laski should not have used the term "armed".

"We know that we must take into consideration the institutions the habits and customs of different regions, and we do not deny that there are countries like America, England, and if I knew your institutions better I would perhaps add Holland - where the workers can attain their objective by peaceful means. But such is not the case in all countries."

DID CHRIST BELIEVE IN ORGANIZED RELIGION?

"And when ye pray, you shall not be as the hypocrites, that love to stand and pray in the synogogues and corners of the streets, that they may be seen by men: Amen I say to you, they have received their reward. But thou when thou shalt pray, enter into thy chamber, and having shut the door, pray to thy father in secret: and thy Father who seeth in secret will repay thee."

Dear Mrs Oswald.

I read your story in todays Chronicle and I belie
as you do that hiding or changing your name or an
of the other aliases is very foolish. The reason I am
writing I guess is that See Harvey Oswald [illegible] and I
brothers in a sense.

To begin with I was a great believer in John
F. Kennedy. No man is infallable as to right and wrong
and Kennedy was not always right but I believe that
any thing he believed in he would have sacrificed his
life without thought in order for it to be completed
the way he believed to be right. I believe he would
have felt it an honor for you to have visited his
grave.

Now to See Harvey Oswald, myself, Adolph Hitler
and all the children of our Jew Christian Destiny. Karl
Marks the father of Communism said that all the ills

Dear Mrs. Oswald:

The recent statements from the Soviet Union about fascist elements in Dallas were of grave import to me, and I would appreciate a letter from you about them. Since 1961, I have been writing extensively in an effort to expose the fascist contents of Republican conservatism, and most of my writing was done while in Dallas. Some of my writing has been sent to the Soviet Union for the attention of former Nikita Khrushchev. I have met with success in bringing about an investigation of this reactionary conservatism, which is so much like the developments in Germany of the 1930's.

Country and government is pretty awful to. If I had money thrown at me like you did - at least I would keep my mouth shut. I have had a hard life practically all my life. I am getting pretty tired of it. I am actually living in fear and bondage in this so-called free Country. There is only one person in this world that cares anything about me, and that is my mother, and she is sick God cannot help me. This is not a free Country for every U.S. Citizen or any body that lives here. Your freedom is according to how much money a person has. If you got a lot you are real free. If you are poor you live in bondage

Miserable and Disgustingly Your

~~Sincerely Yours~~

I am so disgusted with this lousy Country and government that I ~~don't~~ don't care to live any more I would rather die than keep on living the way I am living now. ~~I have no~~ I live from day to day and have no plans for the future only to commit suicide. I don't care what I say about this country and government any more because I have nothing to live for or to loose, only my life, and that isn't worth a plugged nickel.

It is different for you, because you have money and two Children to live for.

I am tired of being kicked and shoved around, lied at, cheated gypped etc, by this lousy U.S. Government. I would not care if ~~Khrushchev~~ Khrushchev would take this country over, in fact I wish he would, maybe it would be better off.

Sure I might think this

FOUNDATION

You are very young, and you just haven't been in this country long enough to know the daily facts of this country, like government etc. If the American people never donated you any money you would have much different ideas about this country. You would probably want to go back to Russia. After all your husband never had a fair trial. He was killed by a two legged rat (Ruby). As for Jackie Kennedy, I would'nt feel very sorry for her, She has enough money to live nice for 400 years if a person would live that long. She has about $10,000,000 dollars.

You are a nice woman and you mean well, but there is a lot of things that you just don't know. Money is the main item in this country, without it a person is just a mister or misses nobody.

Dear Marina Oswald:

I'm afraid your ideas of this country is different than mine. In my books this country and Russy ~~xxx~~ government is no good. This country and government is run by a bunch of unscrupulous fiends, they are nothing but liars, cheaters, swindlers, grafters, gypsies, ~~the~~ wicked people, etc. Believe me I know I am 46 years old and lived in this country all of my life.

Nothing matters in this country only money. Naturally you think this country is alright because the people felt sorry for you and donated you a big bunch of money. You just know the good side of this country, you don't know the dirty part of it.

There is a lot of people in this country that are sick mentally and physically, but nobody cares about them unless they got money to spend.

Enclosed you will find a small check for $2.00 as an expression of my sympathy for the ordeal and torment of your late husband.

I was impressed by the attitude of a hostile society toward your husband and feel he was driven by cruel circumstances into this act of violence, "if indeed he is the guilty party".

Whether or not your husband is guilty is not nearly so important to me as those responsible for his failure to secure suitable employment and social assistance.

Please accept this $2.00 and use it to help your children have a Merry Christmas.

and will be again I'm sure. They want to have power like a dictator.

My parents came from Russia just at the turn of the century. They were peasants who worked very hard there. My mother had to work in a match factory starting when she was eight years old and walked four miles to work. They lived near Minsk & Novogrbkov. It has been hard for them here too at times for they have always been poor but never wished to return to Russia. There is not as strict a class distinction tho to say there is none is wrong. The rich like the Kennedys get richer and the poor get taxed more and more to make life miserable at times. They are so busy buying smiles in foreign countries, they neglect the little people here. Millions go overseas while the youth of poor families can not go to college so they may get decent jobs. Maybe someday it will be better as we keep hoping someday someone will come into power who cares about those of us who earn less than five thousand and especially those who earn less than a thousand. SUBJECT: LEE HARVEY OSWALD
INTERNAL SECURITY - RUSSIA - CUBA

A review of the Hearings Before the President's Commission on the Assassination of President Kennedy disclosed Robert E. Oswald, brother of Lee Harvey Oswald, testified before the Commission February 20-21, 1964. Robert Oswald appeared completely cooperative. A review of his testimony revealed he disclosed no substantive information to the Commission that he had not furnished to this Bureau. Results of our interviews with Robert Oswald, of course, have all been furnished to the Commission.

At one point in his testimony, Robert Oswald was critical of two of our Agents who interviewed Marina Oswald on November 27, 1963. He identified one as Agent Brown of the Dallas Office and the other as an Agent whose name was unknown to him but who had previously interviewed Marina Oswald sometime in 1963. (Our files disclose that Marina Oswald was interviewed on November 27, 1963, by Special Agent Charles T. Brown, Jr., and Special Agent James P. Hosty, Jr.). Robert Oswald claimed that these two Agents conducted an exhaustive interview of Marina Oswald, disregarding her own personal welfare at that time. Robert claimed Marina was concerned with taking care of her two small children and was not in condition to withstand intensive exhaustive interview. Robert also stated that the Agents implied that Marina would perhaps be deported from the United States unless she cooperated with the FBI.

Robert Oswald stated he resented such interviews of Marina under these circumstances because he knew that Marina Oswald had been exhaustively interviewed by Secret Service at a prior date after the assassination and had been very cooperative with Secret Service. Robert indicated in his testimony that he realized "there was some friction here between the United States Secret Service and the FBI to the extent that I was of the opinion that they did not want the FBI at that time to be aware of the tape recording that had been made of Marina Oswald, that she had been interviewed, in other words, by the United States Secret Service before the FBI arrived at the location."

FBI/DOJ UNIT

Robert Oswald testified that he spoke to Secret Service Agent Mike Howard, who was present at the time at the Inn of the Six Flags, Arlington, Texas, where the interview was being conducted, and requested that Howard inform the FBI Marina had been interviewed by Secret Service and was cooperative. Robert Oswald stated that Mike Howard did not do this but told Robert that Robert could do anything he wanted to do and was free to say anything he wanted to say. Robert testified that he then spoke to Agent Brown and told Agent Brown that he resented the implications that the FBI was passing on to Marina because of her uncooperative attitude and that he knew Marina had been very cooperative. Robert stated that shortly thereafter the two FBI Agents concluded their interview of Marina and Agent Brown apologized to Robert Oswald stating that he thought Robert was a police officer and not Robert Oswald.

Our files reveal that Marina Oswald was interviewed by Agents Brown and Hosty on November 27, 1963, at which time she was advised of her constitutional rights and was asked if she would mind answering questions. Marina reportedly replied that she did not wish to be asked anything as anything she had to say, she had said before and had no further information. The interview report also disclosed that Agents Brown and Hosty asked if Marina intended to stay in the United States and she replied that she hoped to do so. The interview also reports that Marina asked for assurance that she would be allowed to stay in the United States and she was advised that this was a matter coming under the jurisdiction of the Immigration and Naturalization Service.

Our files also reveal that Marina Oswald was interviewed in the Russian language with use of a tape recorder by Secret Service Agents in Dallas on November 24, 1963. The tape was flown to Washington, D. C., where it was translated by Secret Service. We received a copy of the translation of the interview from Secret Service on December 6, 1963 and reviewed it in detail. We noted that Marina Oswald had lied to Secret Service on a number of important points and, during our subsequent interviews with Marina Oswald, we pinned her down on these points and she admitted being untruthful.

ANALYSIS:

Robert Oswald's complaints to the Commission that the FBI was harsh and unreasonable to Marina Oswald during our interviews of her after the assassination are not justified.

The FBI was charged by the President of the United States to make a thorough investigation of the assassination and this obviously necessitated exhaustive, penetrating, searching interviews of Marina Oswald, wife of the accused assassin.

Memorandum to Mr. W. C. Sullivan
RE: LEE HARVEY OSWALD
105-82555

Our task was greatly complicated by Marina Oswald who initially was uncooperative and untruthful. It was only through painstaking interviews of Marina Oswald supplemented by diligent, thorough investigation that we were able to get the truth from Marina. For example:

1. Initially, Marina Oswald denied any knowledge of Lee Harvey Oswald's trip to Mexico from September 27, 1963, to October 2, 1963. Later she admitted she had discussed this trip with Oswald prior to his departure for Mexico.

2. Initially, Marina Oswald stated she never knew Oswald had a rifle during his residence in Fort Worth and Dallas during the period June, 1962, to May, 1963. Subsequently, she admitted that she knew Oswald had both a rifle and a revolver in Dallas in April, 1963, and she also admitted that she had photographed him with both weapons.

3. Initially, Marina Oswald claimed she never knew Lee Harvey Oswald used an alias, A. J. Hidell. Subsequently, she admitted knowing Oswald used this alias in New Orleans and also admitted that she had signed a small card for him in this name.

4. Initially, Marina Oswald furnished no information bearing on violent tendencies of Lee Harvey Oswald. Subsequently, she admitted knowing that Oswald had attempted to kill General Walker and also that Oswald planned to kill Richard Nixon.

In summary, the FBI did conduct numerous exhaustive, penetrating, searching interviews of Marina Oswald. We had every right to do so because of her importance in the over all investigation and because of the urgent need to get to the truth.

Threat Against the President

On November 24, 1964, the Denver Office of the Federal Bureau of Investigation received a letter from Mr. Mort Stern, Editor of the editorial page of the "Denver Post". Attached to Mr. Stern's correspondence was a copy of a letter signed by one Leon Berger, 201 Sullivan Street, New York 12, New York, which letter was received at Mr. Stern's office. In this letter, Berger refers to an article which had been reprinted from the "Denver Post" and appeared in another publication which Mr. Stern describes as the "Saturday Review". This reprinted article alludes to "the Warren report" and also sets forth, very briefly, certain background data concerning the late President John F. Kennedy and Lee Harvey Oswald. The article compared these two individuals by referring to the late President as "he was successful at almost everything he undertook..." and to Oswald as "Oswald failed at almost everything he undertook."

Berger addressed his letter to Mr. Palmer Hoyt, Editor and Publisher of the "Denver Post", and after referring to the article in the "Saturday Review of November 14", Berger adds, "I think you and your class, your cronies, your outlook, your society, in short, what I call the society of the upper and privilege, that is, USA, should learn there are literally legions of Lee H. Oswalds born daily in this sick social disorder you praise and bless as holy".

Berger then refers to "the hypocrisy of American society, based on the stupid base of property and privilege", and states "but remember that nobody is safe in an unjust and neurotic society based on property". Berger continues in his

Berger further states in his letter: "I think that your ignorance and sheer hypocrisy will be eliminated one day when the entire social and economic structure Collapses, as it may very easily, or be destroyed in military Conflict But don't be so damned naif. You know the hate contempt that exists here, in USA, because no social or economic justice Can exist in a profit ridden society and let's be honest. I Trust some day there will no more Lee H. Oswalds, nor J.F. Kennedys - since they are both false and distorted symbols of men and only a sick society can produce these by the tens of thousands.

"In any case, get wise to your society and the people in it. With my Compliments.

Mr. Stern, in his letter, expresses the following opinion concerning Berger's letter:

"The writer evidently hates Kennedys and the United States, and his hatred is apparently triggered by references to the Oswald case. At least, that is what seems to have triggered this letter to us; it responds to an advertisement in the Saturday Review."

ASSASSINATION OF PRESIDENT JOHN F. KENNEDY; 11/22/63; DALLAS, TEXAS Lee Oswald

A detailed review has been made of the testimonies published in the "Hearings before the President's Commission on the Assassination of President Kennedy" by each of the members of the Physics and Chemistry Section of the Laboratory who testified or furnished depositions, and by each such member of the Document Section.

This review revealed numerous typographical errors and misspellings which were obviously caused during the editing and printing of this material. These errors are of little consequence and do not alter the tenor of the testimony. Detailed listing attached.

The only substantial error noted appears on page 517, paragraph 6 of Volume XIV, pertaining to the polygraph examination of Jack L. Ruby by SA Herndon of the Laboratory. This error consists of the omission by the printer of page 43 of the original testimony transcript. A copy of this transcript page is attached hereto for record purposes. Since the testimony has already been printed and the omission does not seriously change the substance of the testimony, calling this error to the official attention of the Warren Commission does not appear warranted.

polygraph examination?

MR. RUBY: Never have---no, I haven't.

MR. HERNDON: I'm going to refer to this as a polygraph. That's the word technically used, and as you know, it's often referred to as a lie detector test. They are one and the same, but I will refer to it as a polygraph test.

Inasmuch as this is your first examination, I want you to be fully aware of what I'm going to do and give you a little, in layman's terms if I can, general idea of how the polygraph works, and what I'm going to record and measure. I want you to be fully aware of that.

However, before I take you over here and put you in this polygraph chair, I usually like to give anybody an opportunity to make any statements they wish to make prior to actually taking the tests, the polygraph tests.

MR. RUBY: I feel well and I am not reluctant, as I repeat.

First, I would like to know-----do I sound as though I have all my senses to you when I answer your questions?

MR. HERNDON: Well, I'm not in a position to answer that, Mr. Ruby.

MR. RUBY: The main job is to my sanity.

MR. HERNDON: Mr. Ruby, you are cooperating very fine with me.

Mrs. BROGAN was born as PEARL ELLIS on July 30, 1917, to EDIE and TACIE ELLIS JOHNSON. Her father died in 1947 and her mother died in 1962. She married LEON W. On December 2, 1964, Mrs. BROGAN was interviewed at 111 Claude Street, Spencer, W.Va., and at the outset, she denied writing a letter to Mrs. MARINA OSWALD but finally advised that the letter, poorly written, could be read if it were placed under an ultraviolet light. She stated that Mr. and Mrs. H. F. stood for Mr. and Mrs. HARRY FRAZIER, who operate a restaurant in Lynn Creek, W.Va., and that the C.S. stood for CARL STEVENS, Barrow Drive, ~~Spencer~~ Charleston, W.Va.

She stated that she had written in her letter to Mrs. OSWALD that FRANK REARDON had shot the late President of the United States, JOHN F. KENNEDY, with a gun bearing Serial Number 27 and that he had been paid to do so by Mr. and Mrs. HARRY FRAZIER and CARL STEVENS, according to information she had received over a police radio broadcast. She said, however, that she did not have a short wave radio and although questioned at length, could not state when, where or how she had heard the police broadcast. She said she had already solved this case for Mr. JOHN EDGAR HOOVER, Director of the FBI, and had already advised him of same.

ENCLOSURES

Enclosed are 12 copies of a letterhead memorandum dated and captioned as above.

ADMINISTRATIVE

Mrs. ELENA GARRO DE PAZ and her daughter, ELENA PAZ GARRO, first came to the attention of this office on 11/17/64 when they contacted Mr. PETER H. JACOBY, who is employed at the Office of the Regional Book Center in the Embassy. According to JACOBE, Mrs. PAZ' husband, OCTAVIO PAZ, had at one time been the Mexican Ambassador to India and had been known by JACOBE there.

Mrs. PAZ was initially interviewed on 11/17/64 by SA ROLF L. LARSON. At that time she claimed to have seen OSWALD at a party in the home of RUBEN DURAN, but was unable to specify the date. She declined to furnish her home address, but stated she could be contacted through Mexico City telephone number 40-20-57. When asked by SA LARSON as to why she had not come forward with the information sooner, she indicated that she had been afraid to do so. At that time she declined to furnish further information unless she could be assured that it would not be made public. She also stated she wanted to do some further research in an effort to fix the date of the party.

Mrs. PAZ and her daughter were interviewed in the Mexico City Office on 11/24/64 by Legat CLARK D. ANDERSON and SA RICHARD S. CLARK. The stories of both were inclined to be rambling and it was difficult to pin them down on details. From comments made during the course of the interview by Mrs. PAZ, it was obvious that she was rather familiar with at least

some of the details of the Warren Commission Report, particularly those concerning OSWALD's activities while in Mexico City.

Mrs. PAZ and her daughter readily identified photographs of the members of the DURAN family and of EUSEBIO AZCUE. Photographs of OSWALD in different poses were exhibited to them along with photographs of several individuals completely unconnected with the OSWALD case. While they picked out some of the photographs of OSWALD as resembling the American, they saw at the party in the RUBEN DURAN home, they did not make a positive identification and it is to be noted it would have been quite easy to pick out the OSWALD photographs because of the numerous press photographs of him which appeared in Mexico City newspapers following the President's assassination.

Mrs. PAZ and her daughter appeared to be somewhat Bohemian. Mrs. PAZ, herself, while denying she was ever a Communist, stated that in former years she had taken an active part in promoting agrarian reform in the State of Morelos in order that poor peasants might be granted land. She mentioned the names of numerous Mexican liberals and leftists with whom she has been acquainted in the past.

As has been mentioned, Mrs. PAZ' conversation during the interview was quite rambling and the impression was gained by the interviewing agents that she might not be completely stable. Despite her request that her identity and that of her daughter be concealed, their names have been included in the letterhead memorandum since it is felt the memorandum would have no meaning if this were not done.

Interviews of ARIO ALEJANDRO LAVAGNINI STENIUS were conducted by SA RICHARD S. CLARK.

LEE HARVEY OSWALD

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

The following information was supplied on November 24, 1964, by Mrs. ELENA GARRO DE PAZ and her daughter, ELENA PAZ GARRO.

They are residents of Mexico City, but declined to supply their home address. Mrs. PAZ stated she is a cousin of RUBEN, LIDIA, and HORACIO DURAN, the latter being the husband of SILVIA TIRADO DE DURAN. She said she had not furnished previously the information set forth hereinafter because of fear of reprisals.

Mrs. PAZ said that on August 23, 1963, she attended a dinner at the home of a Mexican Communist whom she declined to identify. Among others present at this dinner were Cuban Consul EUSEBIO AZCUE and his wife. She had not previously known AZCUE. In conversation with him during the course of the evening she learned that he was supposed to return to Cuba on or about August 27, 1963. She later learned that he did not depart Mexico at that time.

According to Mrs. PAZ, she had infrequent contact with her cousins, the DURANS; however, on a date she fixed as Saturday, September 28, 1963, she received a telephone call from RUBEN DURAN, who invited her and her daughter to attend a party at his house during the first part of the following week. She was unable to fix the exact date of this party, but felt it had been held on Monday, Tuesday, or Wednesday, September 30, October 1, and October 2, 1963, respectively, with the most likely possibility that it was held on the evening of October 1 or October 2, 1963.

It was Mrs. PAZ' recollection that at about

ENCLOSURE

9:00 a.m. on the date of the party she and her daughter were picked up and taken to the party by LIDIA DURAN. Also accompanying them was Mrs. PAZ' sister, DEVA GARRO DE GUERRERO GAVAN. She described this sister as a Communist who was expelled from the Party for being a Catholic.

She estimated that some thirty people attended the party, described as a "twist" party, at the home of RUBEN DURAN. Upon arrival at RUBEN's home she noted what appeared to be a young American couple near the door, but they left shortly thereafter.

At about 10:30 p.m. three young, white Americans arrived at the party. They were greeted by SILVIA DURAN and spoke only to her. They more or less isolated themselves from the rest of the party and insofar as she observed they had no conversation with anyone else at the party.

The three Americans appeared to be between twenty-two and twenty-four years of age. One of them was dressed in a sweater and dark trousers and appeared to be about five feet nine inches in height. The second one was about six feet tall, had blond, straight hair, a long chin, and was a bit "beatnik" in appearance although his dress included a coat. The third American wore no coat.

Mrs. PAZ said the American dressed in the sweater and dark trousers resembled very much press photographs of LEE HARVEY OSWALD. Her daughter agreed with this observation. Photographs of OSWALD in various poses were exhibited to both Mrs. PAZ and her daughter at the time of the interview and they were unable to make a positive identification, but claimed he very much resembled the American at the party as they recall him.

Mrs. PAZ could not state how long the three Americans remained at the party nor did she observe them when they departed. She questioned HORACIO DURAN as to the names of the Americans, and he told her they were friends of SILVIA DURAN. He did not give her their names, but did tell her they were supposed to depart Mexico City the following morning. She added that this latter was not correct inasmuch as she and her daughter, while driving in an automobile on Insurgentes Street the following morning, observed the three Americans walking near a furniture store on that street.

FE
OUNDAT

It is to be noted that investigation has established that LEE HARVEY OSWALD departed Mexico City by bus at 8:30 a.m. on October 2, 1963, and could not have been identical with the American allegedly observed by Mrs. PAZ at the party if this party were held on the evening of October 1 or October 2, 1963.

Mrs. PAZ was questioned regarding the identity of other persons attending the party at the RUBEN DURAN home who might have been in a position to observe the three Americans. She said that in the course of the party her daughter met a young man named "ALEJANDRO" at the party and danced with him. He was apparently quite smitten with the daughter and tried to call her on several occasions after the party. The daughter did not take the calls and as a result "ALEJANDRO" wrote several letters to the daughter. Mrs. PAZ exhibited two of these letters, as well as a business card which identified the young man as ARIO ALEJANDRO LAVAGNINI STENIUS.

An examination of the letter which Mrs. PAZ said was the first directed to her daughter by the young man disclosed that it bears the date of September 1, 1963, and was postmarked at the Mexico City Post Office on September 2, 1963.

Questioned as to whether her daughter had known the young man prior to the party at the RUBEN DURAN home, Mrs. PAZ was most insistent that she had not. When it was pointed out to her that the first letter from the young man to her daughter bore a Mexico City postmark of September 2, 1963, she commented that probably the Communists have facilities for falsifying postmarks.

On November 27, 1964, ARIO ALEJANDRO LAVAGNINI STENIUS, Martinez de Castro No. 19, Tacubaya, Mexico, D. F., Mexico, was interviewed. He advised that he is an employee of General Electric de Mexico and recalled attending a large party sometime in the latter half of 1963 at the apartment of RUBEN DURAN located on Herodoto Street in Mexico City. He was not a friend of the DURAN family, but had been invited to the party by Mrs. ISABEL NANSON, a divorcee who was formerly married to an American and a close friend of the wife of RUBEN DURAN. An Italian friend of his, MARCELLO FABRE, was also invited to the party by Mrs. NANSON. He, Mrs. NANSON, and FABRE went to the party together.

LAVAGNINI recalled that there were about thirty people at the party, few of whom he knew. At the party he met a Mexican girl who had recently returned from living in France. He was unable to fix the date of the party, but felt it was probably early in September because of a heavy rain which occurred as they were leaving the party at about 2:00 a.m.

LAVAGNINI noted no Americans present at this party. He was familiar with the appearance of LEE HARVEY OSWALD because of publicity following the assassination of President KENNEDY, but otherwise had no knowledge of him and had never seen him except for news photographs following the assassination.

He volunteered to consult his papers and attempt to fix the date of the party. On December 2, 1964, he advised that he recalled having been at two different parties at the DURAN home, one of these being the large party at which he had met the Mexican girl who had formerly lived in France. He was unable to fix the date of this party.

LAVAGNINI said he had questioned Mrs. NANSON and MARCELLO FABRE, and they were unable to recall the date of the party nor could they recall that any Americans had been present at the party.

Reference is made to Dallas airtel to the Bureau dated 11/23/64 in the case captioned "LEE HARVEY OSWALD, aka, IS - R - CUBA," Bufile 105-82555, Dallas file 100-10461.

Referenced communication submitted to the Bureau several pieces of correspondence which had been received by MARINA OSWALD subsequent to the assassination of President JOHN F. KENNEDY.

Among those pieces of correspondence submitted to the Bureau was a two-page letter signed by GENE GODWIN of 530 Bloomington St., Iowa City, Iowa, dated 1/18/64 and addressed to Mrs. LEE H. OSWALD. Because of the ideas expressed in this letter to Mrs. OSWALD, the Dallas Division set forth leads to identify Gene Godwin and to determine if he was engaged in any activities which are inimical to the national defense interests of this country.

Pursuant to the above request, the following investigation was conducted by SA HAROLD W. BRUEGGEMAN:

Mr. JOHN WIESE, manager, Credit Bureau, Iowa City, Iowa, advised on 12/14/64 that the files of his agency contain no information identifiable with GENE GODWIN.

Detective WAYNE WINTER, Police Department, Iowa City, Iowa, advised on 12/14/64 that the files of his department indicate that GENE GODWIN, 530 East Bloomington St., Iowa City, Iowa, was arrested on 11/22/63 for failure to yield the right of way. GODWIN was fined $10.00 and $4.00 costs in police court for this offense. Detective WINTER stated his files contain no further identifying data regarding GENE GODWIN.

Mrs. ELLA KELLY, secretary, Sheriff's Office, Iowa City, Iowa, advised on 12/14/64 that the files of her agency contain no information regarding GENE GODWIN.

Mrs. CARL W. MILLER, owner of the premises at 530 East Bloomington St., IowacCity, Iowa, advised on 12/14/64 that GENE GODWIN rented a small apartment at her address during the period Sept., 1963, to Feb., 1964. She stated that GODWIN was a graduate student, attending the State University of Iowa, Iowa City, Iowa, during this period of time. She further advised that GODWIN impressed her as being a loyal American, of good moral character, reputation and associates. She stated that at no time did he make statements or engage in activity which would lead her to doubt his loyalty to this government. She stated that GODWIN was studying to become a minister, and she said he appeared to be very devoted to his studies. Mrs. MILLER recalls that GODWIN was quite upset when President JOHN F. KENNEDY was assassinated and stated in her presence on several occasions that it was a pity that his life should be snuffed out. Mrs. MILLER stated that GODWIN appeared to have no close friends at Iowa City, Iowa, and spent most of his time when he was away from class in his room.

Mrs. MILLER stated that GODWIN left Iowa City, Iowa, suddenly in February, 1964, at the close of the first semester at the State University of Iowa. She stated that when he left Iowa City he gave her as his forwarding address 603 McKinley St., Hereford, Texas, where he was to reside with his father, Mr. L. B. GODWIN.

[redacted] KENNETH EUGENE GODWIN, who was born 4/10/28 at Amarillo, Texas, and who resided at 530 East Bloomington St., Iowa City, Iowa, entered SUI Graduate College in Sept., 1963, and attended until Feb., 1964, at which time he withdrew. While attending SUI, GODWIN was taking courses in Theology. His application for admission to the university revealed that he attended the Amarillo Junior College from 1947 to 1948 and that he received a Bachelor of Arts Degree from Baylor University, Waco, Texas, in 1951. These records further reveal he attended the Eastern Baptist Theological Seminary at Philadelphia, Pa., from 1952 to 1953; the Southern Baptist Theological Seminary, Louisville, Kentucky, from 1951 until 1952; and the Union Theological Seminary, New York City,

from 1953 until 1955.

These records further reveal that GODWIN made application to attend the Graduate College at SUI in May of 1963 at which time his mailing address as indicated as 3925 A.Travis St., Dallas, Texas.

In his application for admission to SUI, GODWIN listed Mr. J. C. MILLS, Box 726, Abernathy, Texas, as a person who would always know his address.

SUI records reveal that GODWIN is the son of Mr. L. B. GODWIN, a rancher who resides at Hereford, Texas, and Mrs. HELEN GODWIN, who resides at Amarillo, Texas, and who is employed in real estate.

[redacted] SUI, Iowa City, Iowa, and [redacted], SUI, Iowa City, Iowa, both of whom are established sources who requested their identities be protected, were contacted on 12/15/64 and both advised that the activities of GENE GODWIN did not come to their attention while he was attending SUI.

SAMUEL S. SHAPIRA

On October 30, 1964, Marina Oswald furnished to Special Agents of the FBI a quantity of personal correspondence received by her subsequent to the assassination of President John F. Kennedy.

On November 16, 1964, Mr. Declan Ford, a personal advisor and friend of Marina Oswald, made available additional letters, cards and notes which had been received by Marina Oswald subsequent to the assassination.

B. in Poland 6/29/1885

Among this correspondence was a one-page typewritten letter headed "1435 Alvarado Terrace, Apartment 104, Los Angeles 6, California 90006" dated October 1, 1964, addressed to "Mrs. Marina Oswald," and signed with the name "Samuel S. Shapira." The envelope, enclosing the above-described letter, is postmarked Los Angeles, California, September 30, 1964, and bears the return address noted above.

He claimed to be a nature healer and spirit healer. He stated he is not a Marxist, but an "ethical, cooperative democrat."

Shapira urged Mrs. Oswald to remain as a socialist and stated "Don't let capitalism convert you to its crookedness, inhumanity and hypocrisy."

He stated he wanted to take Marina Oswald out of Texas with him to Mexico and suggested beginning a drug business and a health rest home there. Shapira disclaimed any interest in

romance or plans to marry Marina Oswald, stating he was too old for her, but suggested she may attract a good young man to marry.

This letter was signed "Samuel S. Shapira (naturopath and lawyer retired here in Los Angeles)."

Records of the Los Angeles County Registrar of Voters were searched on November 30, 1964, and reflect that on September 3, 1963, Samuel S. Shapira, 426 South Hill Street, Los Angeles, was born in Poland and received United States citizenship through the naturalization of his father, Benjamin Shapira. He was described as retired, with height of 5'6".

Records of the Los Angeles Police Department and Los Angeles County Sheriff's Office were caused to be searched on December 1, 1964, but reflect no arrest record which could be identified with Samuel S. Shapira, 1435 Alvarado Terrace, Los Angeles.

A source, who has furnished reliable information in the past and is generally familiar with Communist Party membership and activities in Los Angeles, advised on November 30, 1964, that Samuel S. Shapira was unknown to him as being active or a member of the Communist Party at Los Angeles.

Another source, who has furnished reliable information in the past, advised that in March of 1952, Sam S. Shapira, 61 North Venice Boulevard, Venice, California, corresponded with the "Daily Worker," New York City, New York, indicating he wished to correspond with the "Daily Worker" of London and requested the mailing address of the above newspaper.

The "Daily Worker" now known as "The Worker" is an East Coast communist newspaper.

Another source, who has furnished reliable information in the past, furnished to the FBI in December, 1955, a booklet entitled "Humanity's Manifesto" "By Sam S. Shapira, retired lawyer, naturopath, author, founder." This booklet is described

SAMUEL S. SHAPIRA [redacted]

as a "course of instructions revealing many known important secrets," "meaning of governments," "what are you, your rights, great heritage."

The same source as above also furnished in December, 1955, a circular entitled "The 10 Commandments," "Guide for Happiness," by "Samuel S. Shapira, the Living Messiah, by Heaven's Voice." This circular deals with both religious and political matters. The circular reflects the address 4661 Cherokee Avenue, San Diego, California, which address was struck through and written in was the address 123 South Bunker Hill, Apartment 45, Los Angeles 12, California.

Other sources, who have furnished reliable information in the past, have advised that Samuel S. Shapira has claimed to be a personal friend of former President Harry S. Truman and had corresponded with President Truman concerning the conflict in Korea. Shapira also stated he had corresponded with General Dwight Eisenhower concerning a report that he planned to run for the President of the United States. Shapira claimed that when he had asked a favor from Eisenhower, he was ignored. Shapira claimed that he had traveled to Palm Springs, California, to visit Eisenhower when he was President, but did not get to see him. Shapira has stated he was not a member of the Socialist Party, but had written a pamphlet during the 1930's concerning the subject of abolishing capitalism. Shapira abhorred the present state of things in the United States and the type of justice meted outr.

Shapira has been described as possibly "mentally unstable." He has been described as a white male, born June 29, 1885, with gray hair, blue eyes, 5'8" tall, 150 pounds, and occupation as pensioner, retired lawyer.

From October, 1955, until about March of 1956, Samuel Shapira attended numerous meetings of the Downtown Club of Los Angeles (see Appendix) and participated in some of the forums at these club meetings.

A source, who has furnished reliable information in the past, advised in March, 1961, that Sam Shapira, 1222½ West 70th Street, Los Angeles, California, corresponded with the "Daily Worker" at New York City inquiring concerning a subscription to this newspaper. In this letter Shapira stated, "I am a leftist all my life and stand for abolition of private capitalism and demonistic christianity." [redacted]

Another source, who has furnished reliable information in the past, advised in January, 1964, that Sam Shapira, Post Office Box 1843, Los Angeles, California, had corresponded in October, 1963, with the business manager of the "People's World" in San Francisco, California. In this correspondence, Shapira dealt with his political background and beliefs in which he condemns capitalism and communism.

The "People's World" is a West Coast communist newspaper.

On June 2, 1964, a copy of a letter addressed to "Premier Levi Eshkel, c/o Embassy of Israel, Washington, D. C., from Samuel S. Shapira postmarked May 27, 1964, Los Angeles, California, was furnished to the Federal Bureau of Investigation. This letter was transferred to a Security Officer of the United States Secret Service at Philadelphia, Pennsylvania, on May 31, 1964, by Mr. Yosef Degani, Consul of Israel.

This letter criticizes the Government of Israel for its negotiations concerning Arab matters. The letter refers to John F. Kennedy and Lyndon Johnson as stupid, idiots, fools and rogues. In this letter Shapira refers to himself as an "Apostle of Truth" and "God's Chosen Agent."

Lee Harvey Oswald

Miss Loralie Krome, Ticket Sales Agent, United Air Lines (UAL), 1203 Washington Boulevard, Detroit, Michigan, furnished the following information to Special Agents of the Federal Bureau of Investigation (FBI) on December 24, 1964:

In late August or early September, 1963, sometime between 4:30 p.m. and 6:00 p.m., an unknown male entered the UAL Ticket Office. She observed him enter the door and proceed backwards to a point approximately midway between the door and the ticket counter. He then turned around and walked directly to the ticket counter in front of her and began staring at her. On inquiring if she could be of assistance the man stated "Not unless you can get me to Dallas". Krome explained to him that UAL does not fly to Dallas from Detroit but that she could give him connections through Chicago. The man said that arrangement was fine and added that he would like to fly out of Willow Run Airport. He also commented that he did not want to fly directly to Dallas from Detroit as he liked to stop off at various cities and liked to change planes. On being informed that a flight to Dallas by way of Chicago was more expensive than utilizing some other airlines which went directly to Dallas the man stated that "money does not mean a thing". The man then stated that Dallas would be a great city known throughout the world some day. He did not explain what he meant by this statement but Krome assumed that he meant Dallas would be known throughout the world from a cultural standpoint and she, in a light vein, inquired if he was going to help make it a great city. According to Krome he responded "You will find out in a short while".

During her conversation with this individual he revealed that he was visiting friends in an unnamed Detroit suburb; that he had previously visited Detroit during the spring of 1963; that he was unemployed but was not looking for a job and was just waiting in Detroit until he received

instructions from unnamed contacts in Dallas to proceed to Dallas. He was indefinite as to when he would go to Dallas and did not disclose why he would eventually go to Dallas. On being informed that the UAL schedule would change on October 25, 1963, this man indicated that he would probably go to Dallas prior to that date but said that in any event he would recontact UAL when he decided to make definite reservations.

He did not reveal his name, his address, telephone number or any other information as to how he could be reached at Detroit. He claimed that he had traveled to New York City, Washington, D.C., Miami, Florida, New Orleans, Louisiana, and many other places in the United States frequently utilizing UAL facilities.

She said that this individual finally departed after another customer arrived in the UAL Ticket Office. Krome could not identify this customer.

During her conversation with this unknown man he made no mention of President Kennedy, disclosed no animosity towards anyone and gave no evidence that he possessed violent tendencies.

She described him as follows:

Age	30-33, with boyish face
Hair	Brown, unruly
Height	5'8" - 5'9"
Weight	135 - 140 pounds
Build	Slender
Clothing	Wearing T shirt, short length beige jacket, opened about one-quarter down from neck; appeared to be "baggy" as if too big for him.
Characteristics	Clean shaven, nervous

Re: Lee Harvey Oswald

Following President Kennedy's assassination and after she observed Oswald on television and seeing his photograph in the newspapers she felt certain she had seen Oswald before and finally decided in her own mind that the above-mentioned individual was identical to Oswald. After she learned that at the time of Oswald's arrest he was wearing a jacket similar to the one she believed was worn by the unknown man referred to above she became certain that that man was identical to Oswald and she communicated her belief to Helen Reilly who was on duty at the time of that individual's visit. At this point Krome mentioned that at the time of the man's visit to UAL Ticket Office only she and Reilly were on duty and following his visit she had mentioned to Reilly that this individual had stared at her and acted strangely in that he wanted to travel to Dallas but not by a direct route.

Krome advised that she had not previously notified the FBI concerning this incident since she was afraid that if it became known she had reported Oswald's presence at Detroit some harm might come to her or to her family. She explained this by stating that the man who killed Oswald has a brother residing in the Detroit area and she was fearful that there might be a conspiracy surrounding Oswald's death and if such a conspiracy existed it might involve either her or her family if she reported this information.

Miss Helen Reilly, Ticket Sales Agent, UAL, 1203 Washington Boulevard, Detroit, advised Special Agents of the FBI on December 24, 1964, that she recalled the incident involving an unidentified man visiting UAL Ticket Office sometime during the fall of 1963, during course of which he engaged in a rather lengthy conversation with Miss Krome. Reilly could not be more specific as to the exact date but stated she believed it was about two months prior to the assassination. She recalled that her attention was called to this unidentified man due to the fact that she overheard him discuss various routes with Krome for several minutes, a period of time which she thought was unnecessarily long. Although she saw this individual, she recalled nothing distinctive about him and she is unable to advise whether

or not he might be identical to Oswald. She stated that following this man's visit to UAL, Krome had mentioned that he appeared somewhat strange, that he had continually stared at her and could not make up his mind as to what travel accommodations he wanted. Krome further commented that her time had been wasted since no reservation had resulted from her extended conversation with him. Following President Kennedy's assassination Krome advised Reilly of her definite belief that the unknown man referred to above was identical to Oswald.

On December 28, 1964, Mr. Douglas Lawrie, Reservations Agent, UAL, 1203 Washington Boulevard, Detroit, advised a Special Agent of the FBI that about six weeks ago while engaged in a conversation with Loralie Krome, a fellow UAL employee, Krome expressed definite belief that sometime prior to President Kennedy's assassination Oswald had visited the UAL Ticket Office in Detroit to inquire about flights to Dallas. Lawrie advised that he had no first-hand information concerning this matter and stated his only knowledge to indicate Oswald had ever visited Detroit was furnished to him by Krome. Lawrie's account of the unknown male's reported visit to UAL Ticket Office, as reported to him by Krome, coincided in substance to the information set out above as obtained from Krome. From Lawrie's conversation with Krome he obtained the impression that this incident occurred about two weeks prior to the assassination. He also stated that in view of Krome's apparent firm conviction that the individual who visited the UAL Ticket Office was Oswald he suggested that she notify either the FBI or Congressman Gerald R. Ford, Jr., of Michigan. Krome, however, appeared reluctant to do so, expressing fear that some reprisal might be made against her or her family. In view of this reluctance Lawrie stated that he had reported the results of his conversation with Krome to Congressman Ford.

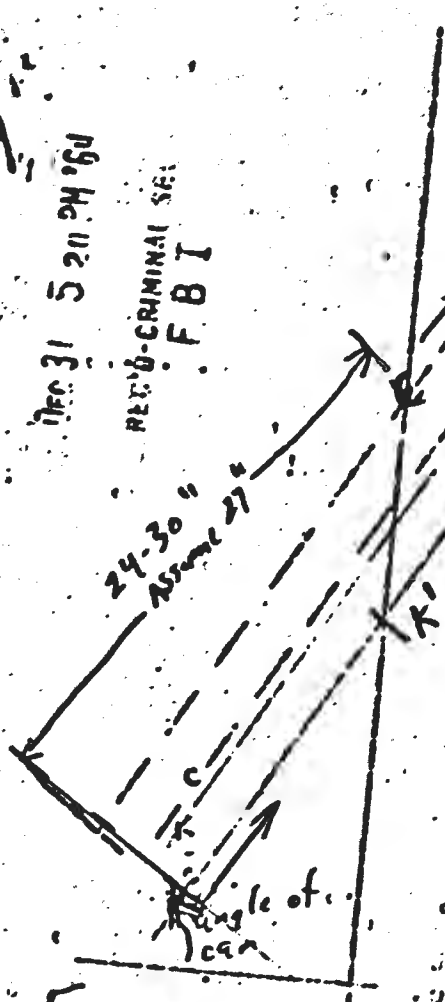
NOTE:

Townsley's analysis is based primarily on his thesis that the death of President Kennedy was accidental and that Oswald actually intended to shoot and kill Governor Connally. Based on this speculation, he drew certain logical conclusions with regard to ballistics data. Townsley desired our comments and rebuttal. In answering his letter as above, we are consistent with a policy established since initiating investigation in this matter.



Scale $\frac{1}{10}$" = 1"
From Frame 110
Assuming C is 27" ahead of K in car
K to K' = 17.4"
Assuming est. travel time of bullet is 0.1 sec ($\frac{\sim 1800}{1800}$)
Speed of car ≈ 136'/8.35 sec = ~196"/sec
K-K' would be $\frac{196}{10}$ = 19.6"
Not far off scaled and theoretical happening.
Angle to rifle and possibly scope error would cause aim for point on C (back) strike K high.

Dear Mr. Hoover:

Reference is made to the Report on President Kennedy's assassination and the Life Magazine article thereon.

Not knowing to whom else I may write thereon, or if the matter is closed, I am writing to you. If you are not at liberty to discuss it, please forward this letter to someone who may.

Being a chemical engineer with electronics background, actite in the USAF MARS program, and having associated with the military both in the USA and overseas (once even solicited for the C.I.A.), a major fact possibility occurred to me the day of the incident which wasn't investigated in the report, that is: the President's killing may have been accidental, and Gov. Connally was the target! As my ballistics knowledge was pre-war college physics, and law an interest, I base my supposition on the following:

a. Oswald had an Honorable Discharge from the Marines, then a Dishonorable in absentia while in the Reserves not on active Duty. While his service was "honorable," and rightfully he should retain this discharge, the Marine's jurisdiction over him as a civilian would seem to be a moot question. Having always been a civilian (Essential Deferred during the war) possibly I don't understand the military mind; it would seem his active and reserve duties should rate separate discharges, like services in separate Commands, or separate jobs;

b. Gov. Connally was Secretary of the Navy then, and presumably Oswald's highest point of appeal, and to whom he did so;

c. the distances, accuracy of the rifle, etc., etc., were discussed for all shots, but no mention or allowance for a moving target and travel time. Without going into exact figures I computed, the shots would have needed 1/9th to 1/10th sec. to travel. During that time the car moved forward 18-24" approximately and to the right. Kennedy, while "6 inches" to the right physically was to the left in the field of view and at the angle from photos would have crossed exactly at the distances. Any error, such as a shot aimed at Connolly's heart, back, or stomach in the military manner would, if anything, have hit high, as exactly occurred. From photos in the Report, the article, and photos of the car in my Classic Car Club quarterly coincidentally received the day before, I calculate they were 24-30" apart;

d. the first shot hit the President alone. Connally was too far to the right. He heard this (est. time 2 seconds), but wasn't hit until after. He turned and laterally was more in position for the second, the sound of which I think pain obliterated. Both he and the President slumped to the left, and again the President was in line, receiving the third. I think the first fragmented in the car or was lost as both men weren't in alignment, the second was found in the stretcher, and the third fragmented, part reportedly near the President's eye;

e. Oswald appears to be the quiet type who suddenly "unwound" various times under stress or emotion. The November parade might have brought back memories of his Sept. and Dec. discharges, somewhat an anniversary.

REC-64 105-82555-537

Although the facts remain, the deed may have been a tragic aftermath to a military grievance. Your comments, rebuttal, etc. would be appreciat

MARK LANE

The Joint Weeka No. 52 dated December 24, 1964, issued by the American Embassy, Vienna, Austria, contained the following information:

The American lawyer, MARK LANE, who has achieved considerable notoriety through his criticism of the Warren Commission report, lectured in Vienna on December 18 on the subject, "Who Killed Kennedy?" LANE, who is touring Europe under the auspices of BERTRAND RUSSELL, also held a press conference that day which resulted in several articles summarizing his arguments against the conclusion that OSWALD was the assassin. Independent "Kurier" printed his theories without comment while Socialist "Arbeiter-Zeitung," without taking sides, termed LANE's views "very significant." Independent "Die Presse," on the other hand, spoke of LANE's leftist leanings and pointed out that the Warren Commission report contains counterarguments, some of which are scientifically supported, against all of LANE's theses. People's Party "Volksblatt" stated flatly that: "The Warren Report shows...that the assertions of lawyer MARK LANE cannot be true. We have been fair enough to report them, however, because even in their questionableness they are of a certain historical interest."

Eng

The lecture attracted about 30 people in a hall with a capacity of about 125.

I could not refrain from writing you this letter. (AMERICANS)
I am not convinced as Millions of others is not convinced that the case is closed where our late beloved president John F. Kennedy is concerned.
It is a gross injustice that the case is closed.
In my mind and I am quite sure in yours that the case will always be open.
Oswald made a fine speech in Louisiana he was educated -
-and in my belief he was strictly working for Russia + Cuba.
all this I cannot get out of my mind.
I know that our dear late President is at the right hand of God.
the police of Dallas + the F.B.I surely bungled this case up.
I would like to hear from you and your opinions as to the result of this case.

as for Gov Rockefeller dear Mayor
I do not think you shall get

Re telephone call by SAC J. GORDON SHANKLIN to Inspector REX I. SHRODER, Bureau, 1/4/65, at which time interview with Mrs. OSWALD was authorized.

Enclosed for the Bureau are ten copies of LHM reflecting interview with Mrs. MARGUERITE OSWALD.

For information of Bureau, Mrs. MARGUERITE OSWALD, 2220 Thomas Place, telephonically contacted the Fort Worth RA on 1/4/65, stating she had some information she desired to furnish. For information of Bureau, Mrs. OSWALD has refused to discuss any matter on the telephone stating she suspects her telephone is tapped.

Inspector REX I. SHRODER, Bureau, was contacted by SAC J. GORDON SHANKLIN. Mr. SHRODER authorized interview wit Mrs. OSWALD.

Mrs. OSWALD was interviewed 1/4/65 by SAs JOSEPH M. MYERS and B. TOM CARTER.

Mrs. OSWALD stated that during the past week she called Washington and attempted to contact Mr. J. LEE RANKIN. She talked with his secretary, a Mrs. IDY (phonetic). Mrs. IDY advised Mrs. OSWALD that Mr. RANKIN had nothing more to with the investigation handled by the Warren Commission and that all phases of it had been taken over by the FBI. Mrs. OSWALD stated she explained that she felt there was a leak in

the FBI and she did not like to furnish information to them. Mrs. IDY suggested that she contact Mr. HOOVER and ask for an appointment to see him in Washington and furnish the information to him direct. Mrs. OSWALD stated at this time she could not afford to do this.

For information of Bureau, Mrs. OSWALD mentioned the following individuals: GENE EWING, J. NATHAN BENNETT, HELLINA KOSTOY.

The Dallas indices are negative as to KOSTOY and BENNETT.

Dallas files reflect case captioned "UNSUBS (2); REVEREND GENE EWING; CHARLES V. ROOP; ITSP", OO: Detroit, in which case inquiry was made concerning a check dated 8/31/62, made payable to Reverend GENE EWING in the amount of $10.00 and signed by a CHARLES V. ROOP, which had been returned by the National Bank of Detroit, Detroit, Michigan, on 12/28/62, for the reason that that bank was unable to locate an account in the name of CHARLES V. ROOP.

Inquiry at Fort Worth, Texas in March, 1963, revealed that Reverend JAMES EUGENE (GENE) EWING was an evangelist who operated the non-denominational Camp Meeting Revival, Inc., an evangelistic organization holding meetings throughout the United States. EWING at that time resided at 7021 East Lancaster, had a wife named NORA B. and was operating as the "Camp Meeting Revival, Inc., Fort Worth, Texas". Inquiry established that the above referred to check in this ITSP case had been received from some individual during collection at a revival meeting at Detroit, Michigan.

The Bureau's attention is called to the fact that the enclosed LHM contains the property statement. Such property statement has been added to this LHM in view of the fact that the President's Commission has now ceased to exist and all LHMs submitted hereafter will include such property statement, UACB.

LEE HARVEY OSWALD

Mrs. Marguerite Oswald, 2220 Thomas Place, Fort Worth, Texas, mother of Lee Harvey Oswald, was contacted by Special Agents of the Federal Bureau of Investigation on January 4, 1965. Mrs. Oswald stated approximately three months ago an individual believed to be a man, telephonically contacted her late at night at her home. The caller stated that after the person attempted to shoot General Walker in Dallas, that Jack Ruby had been arrested by the Dallas Police Department. At the time of this arrest, cameras and pictures were recovered from him by Captain Will Fritz of the Dallas Police Department. Captain Fritz sent all of this evidence taken from Ruby to Houston, Texas. The caller stated if Mrs. Oswald desired to recontact him that his name was Hellina Kostoy. The caller stated he could be reached through Evangelist Gene Ewing, Box 8546, Fort Worth, Texas. Shortly thereafter, she wrote a letter to this address and her letter was returned and the envelope, which she exhibited, was marked "opened by mistake". Her letter was in another envelope addressed to her at her home bearing the return address, J. Nathan Bennett, P. O. Box 8546, Fort Worth, Texas.

Mrs. Oswald checked the telephone directory and found a listing for Bennett. About December 28, 1964, Mrs. Oswald called Bennett. Bennett stated he did know an Evangelist by the name of Gene Ewing; however, he was very evasive in his answers and never would state definitely whether he knew anyone by the name of Hellina Kostoy.

Mrs. Oswald stated that in the Saturday evening edition of the "Fort Worth Star Telegram" on January 2, 1965, there was an advertisement stating that an Evangelist Gene Ewing was to hold an evangelist meeting at 3920 East Rosedale at Fort Worth, Texas, on January 3 and 4, 1965. This advertisement also listed four other preachers and one of these was Reverend J. Nathan Bennett.

Mrs. ROSE COUNCILMAN
THREAT AGAINST THE PRESIDENT

Upon her return to Dallas, Texas, Marina Oswald, the wife of Lee Harvey Oswald, was contacted by Special Agents of the Federal Bureau of Investigation, at which time she furnished six boxes of personal correspondence received by her subsequent to the assassination of President John F. Kennedy.

On November 16, 1964, Mr. Declan Ford, a personal adviser and friend of Marina Oswald, made available two portfolios of letters, cards and notes which had been received by Marina Oswald subsequent to the assassination of President John F. Kennedy and which he had separated from other correspondence.

Two of these items are as follows:

1. Handwritten letter, undated, addressed to "Lee Rabbit....", signed "(Mrs) Rose Councilman, 212 Chapman St. Greenfield, Mass."

2. Envelope postmarked Greenfield, Mass., 11/23/63, addressed to "Mr. Lee Rabbit", bearing return address of Mrs. Rose Councilman, 212 Chapman St., Greenfield, Mass.

The contents of this letter are as follows:

"Lee Rabbit
State Prison Death House
Dallas, Texas

"Dear Lee - I have just heard of your arrest over the yankee net work here in Massachusetts. Thank-you (if you did it). The chief of police here in Greenfield called my son and told him the secret service was watching me. Yet while they were suppose to be watching me. Every tom, dick and harry entered my home and stole and borrowed

anything they felt like taking. If they wanted to return it, it was returned, if not it was never returned. A great many things were nicked, paint was put on different articles and the floor in places were scraped bear. Yet, mind you, the secret service was watching me all this time. That was what happened to my home and what happened to my four children, you, nor no one else would believe __. Once again, thank-you, if you did it.

"Sincerely,
(Mrs) Rose Councilman
212 Chapman St.
Greenfield, Mass."

On December 18, 1964 and January 5, 1965, Captain Donald L. Grogan, Police Department, Greenfield, Massachusetts, advised that Mrs. Rose Councilman, 212 Chapman Street, Greenfield, Massachusetts, is well known to the department. She is mentally unbalanced and is a prolific letter writer. She has a long history of mental illness. She is not known to be dangerous, but she was observed several years ago throwing lighted matches into a U. S. mailbox. She is under close observation, but is not known to travel.

The U. S. Secret Service is aware of Mrs. Councilman because of her previous letters to various Federal Government agencies, and the Greenfield Police Department has had liaison with the U. S. Secret Service concerning Mrs. Councilman. The department is on notice to keep the U. S. Secret Service posted on any change in Mrs. Councilman's status and will also notify the Federal Bureau of Investigation of any such change.

Synopsis: Additional investigation conducted concerning precise source of the description of suspected assassin broadcast over the Dallas Police Department radio network at 12:45 p.m., 11/22/63, indicates source of description was apparently HOWARD LESLIE BRENNAN. HAROLD DEE RILEY alleged to have been eyewitness to assassination, but upon interview states he knows absolutely nothing about assassination. SUSAN GREER alleged that son of resident of Rushville, Illinois, had written his father from Dallas two weeks before assassination that "something terrible is going to happen here in two weeks". JOHN HENRY ORR, JR., Irving, Texas, states his father at Rushville, Illinois, probably is person referred to by SUSAN GREER, but that he did not write such statement to his father. FLOYD EUGENE SWINK located and interviewed, and states he has no additional information concerning assassination other than that previously furnished by him in letters to FBI. RAY ALLEN DURALL alleges evidence against OSWALD was invalid and that OSWALD did not commit assassination. DURALL, in past, has written numerous letters to persons and organizations complaining about various matters. Report that OSWALD seen in San Diego, California, during last week of October, 1963, or first week of November, 1963, not substantiated by investigation. FRANCOIS AUSTIN DE LACQUESEAUX furnished information that on 11/4/64 a steward aboard Russian ship at Tampico, Mexico, advised him that GEORGE PARR, well-known political leader from Duval County, Texas, had met with OSWALD and that PARR had aided OSWALD in destroying President KENNEDY so that LYNDON B. JOHNSON could become President. Allegation by JAMES OSDEN MINNICK

that OSWALD was in contact with JACK RUBY several weeks prior to assassination not substantiated by investigation. Correspondence received by MARINA OSWALD subsequent to assassination reviewed and investigation conducted concerning correspondents where of possible pertinence. Translations of correspondence in foreign languages set forth. MARINA OSWALD was exhibited photograph of EDWARD NEUNSON taken in 1950 and states she cannot recall ever having seen this individual. States she did not know ZOE KISLOVA, first wife of WALTER CARL NEUNSON and mother of EDWARD NEUNSON. MARINA OSWALD spent some time in Arizona collaborating with PRISCILLA JOHNSON on a book. MARINA accepted invitation to attend eight-week special course in English language at University of Michigan, Ann Arbor, Michigan, and planned to depart from Dallas 1/3/65. Upon completion of course, MARINA plans to return to her residence at Richardson, Texas.

I. DESCRIPTION OF SUSPECTED ASSASSIN AS ORIGINALLY BROADCAST BY DALLAS POLICE DEPARTMENT AT 12:45 P.M., NOVEMBER 22, 1963, AND SEARCH OF TEXAS SCHOOL BOOK DEPOSITORY BUILDING

The President's Commission on the Assassination of President KENNEDY in letters dated November 2, 1964, and November 18, 1964, advised that the Commission believes that it might be desirable and useful to develop information that was not available at the time of the preparation of the Commission's report in regard to the precise sources of the description of the suspected assassin broadcast over the Dallas Police Department radio network at 12:45 p.m., (November 22, 1963).

The Commission further noted that it would also be of interest to know whether the police or other law enforcement officers searching within the building (Texas School Book Depository) were ever notified that the shots had come from the window identified by BRENNAN (HOWARD BRENNAN).

The following investigation was conducted by Special Agent RICHARD J. BURNETT:

Sheriff J. E. (BILL) DECKER, Dallas County Sheriff's Office, Dallas, Texas, advised on December 14, 1964, that he was in the lead car of President KENNEDY's caravan at the time of the assassination on November 22, 1963.

When the shooting occurred, the car he was in proceeded directly to Parkland Hospital and upon arrival he immediately obtained a ride back to the scene of the crime. Upon his arrival back at the assassination site, he ordered his deputies to immediately start a search of the Texas School Book Depository building in order to see if they could locate the individual responsible. He had the deputies systematically start a search of the building and they were doing so when Deputy Chief LUMPKIN of the Dallas Police Department arrived at the building and took charge of the search of the building.

Sheriff DECKER stated that the search of the building was of the entire building and not specifically of the sixth floor until the spent bullet cartridges were located on that floor. Then, upon the completion of that part of the search looking for the assassin, the search was concentrated on the sixth floor for the purpose of locating evidence.

HOWARD LESLIE BRENNAN, 6814 Woodard, Dallas, Texas, advised on December 14, 1964, that he is the same HOWARD BRENNAN who has appeared before the President's Commission on the Assassination of President KENNEDY where he furnished information as an "eyewitness" to the assassination of the late President.

BRENNAN stated that the assassination occurred at approximately 12:31 p.m. on the afternoon of November 22, 1963. He stated that upon witnessing some unknown person firing a gun out of the southeast corner window on the sixth floor of the Texas School Book Depository building, he immediately went to an unknown Dallas police officer standing at the corner of Elm and Houston Streets and requested the officer to get him either an FBI Agent or a Secret Service Agent. He was then taken to Mr. SORRELS, a Secret Service Agent, who was in a car parked in front of the Texas School Book Depository.

BRENNAN stated that besides SORRELS, there was an unknown Dallas police officer and another unknown man present when he related to SORRELS what he had just witnessed and furnished SORRELS with a description of the man he had seen in the sixth floor window of the Texas School Book Depository building.

BRENNAN estimates that he was talking to SORRELS and furnishing this description at approximately 12:40 p.m.

While talking to SORRELS, BRENNAN saw two Negro youths leaving the Texas School Book Depository building and he immediately recognized them as the same two men he had seen

looking out of a fifth story window of the Depository building just beneath and to the west of the sixth floor window where the unknown person was shooting at President KENNEDY. He had seen these two young men looking out this fifth floor window just prior to the shots being fired from the sixth floor.

BRENNAN stated that Mr. SORRELS had the two men stopped and ordered them taken to the nearby Dallas County Sheriff's Office to be interviewed. BRENNAN stated that he then accompanied SORRELS to the Sheriff's Office where he furnished a statement to a deputy.

BRENNAN remarked that he could not identify the Dallas police officer who was present when he furnished his description of the suspected assassin.

J. HERBERT SAWYER, Inspector, Police Department, Dallas, Texas, advised on December 15, 1964, that he was the first official of the Dallas Police Department to arrive at the Texas School Book Depository (TSBD) building after the assassination on November 22, 1963.

SAWYER stated that he immediately set up a command post in front of the TSBD building and ordered the building sealed off. He pooled officers from his department and local Dallas County Deputy Sheriffs into search teams and ordered a search of the area.

Shortly thereafter, Deputy Chief GEORGE L. LUMPKIN arrived at the scene and took over the responsibility of the search of the interior of the TSBD building.

Inspector SAWYER stated that it is almost impossible to describe the confusion and commotion at the scene of the assassination when he arrived.

While in front of the TSBD building, a middle aged white man was brought to him who had reportedly seen the unknown suspect fire shots from a window on either the fifth

FERI

or sixth floor of the TSBD building. SAWYER does not know who this man was, did not take down his name, nor can he identify him at this late date. However, SAWYER recalls that this man wanted to speak to a Secret Service Agent.

SAWYER recalls that this unknown white man furnished a description of the assassin as a white male, thirty years of age, five feet ten inches tall, and about one-hundred and sixty-five pounds. This description was furnished in the presence of Secret Service Agent FORREST V. SORRELS.

SAWYER stated that he immediately called this description into the Dallas police dispatcher and it was immediately broadcast over the police network.

SAWYER continued that only one other person was brought to him who had reportedly seen the assassin. This person was a young Negro boy named EUINS. However, upon talking to this youth, it was determined that the boy could not describe the suspect, not even to the detail as to whether the person he had seen was a white man or a Negro.

SAWYER added that it was the description he had obtained from the unknown white man at the scene of the assassination that was broadcast over the police radio at approximately 12:45 p.m., November 22, 1963; the first description of the suspect to be put out by the Dallas Police Department.

It is noted that Volume VII, pages 332 to 350, of the President's Commission on the Assassination of President KENNEDY report, sets forth the testimony of FORREST V. SORRELS, a Secret Service Agent assigned to Dallas, Texas.

A review of this testimony indicates that Mr. SORRELS, who was in the lead car of President KENNEDY's motorcade, proceeded directly to Parkland Hospital from the scene of the assassination. He did not go into the hospital,

but immediately took a police car back to the Texas School Book Depository building. SORRELS entered the back door of the Texas School Book Depository, spoke to Mr. TRULY, manager of the Texas School Book Depository, and then proceeded out the front door of the building. He inquired as to whether anyone had seen anything at which time HOWARD BRENNAN was pointed out to him.

SORRELS, besides speaking to BRENNAN, talked with a young Negro boy named EUINS who was a witness, but the youth could not describe the assassin even as to whether he was Negro or white.

SORRELS accompanied both BRENNAN and EUINS to the Dallas County Sheriff's Office.

Volume XIX, page 470, of the President's Commission on the Assassination of President KENNEDY report, presents a copy of the signed sworn statement of HOWARD LESLIE BRENNAN given on November 22, 1963, at the Dallas County Sheriff's Office, which records what he had seen at the assassination scene. This statement is marked "Decker Exhibit #5323".

It is noted that this statement contains a description of the assassin as furnished by BRENNAN and which compares closely with that first broadcast by the Dallas Police Department at approximately 12:45 p.m., November 22, 1963.

Deputy Chief GEORGE L. LUMPKIN, Service Division, Police Department, Dallas, Texas, advised on January 5, 1965, that he was the responsible police officer in charge of the interior search of the Texas School Book Depository building shortly after the assassination of President KENNEDY on November 22, 1963.

Chief LUMPKIN arrived at the Texas School Book Depository building shortly after the shooting, however, he cannot exactly state the time of his arrival at the building,

although the Texas School Book Depository had already been sealed off by the police. He would estimate his arrival at the building somewhere around 12:45 p.m.

LUMPKIN stated that upon entering the building he immediately ordered a search of the entire Texas School Book Depository building for the assassin; then, secondly, he directed the search of the building for evidence. But, primarily, Chief LUMPKIN stated the initial search of the entire building was to find the person responsible for the shooting of President KENNEDY.

The Deputy Chief then stated that upon locating the stacked boxes in the southeast corner of the sixth floor, apparently used by the assassin as a support for the rifle, and then almost simultaneously the finding of the three ejected cartridges, he directed a complete search of the sixth floor for further evidence. This search was setup in such a manner that police officers, both sheriff deputies and Dallas policemen, lined up on the east side wall of the sixth floor barely a foot apart, and started searching west toward the west side of the sixth floor. During this search, all boxes were turned over and "there were many boxes piled on top of one another". Eventually, upon reaching the west side of the sixth floor, the assassin's rifle was found hidden under some boxes in the northwest corner of the building near the stairwell.

Chief LUMPKIN stated that he personally considers the time taken in searching the sixth floor up to the time of the discovery of the murder weapon was very short in view of the complete thoroughness of the search as well as the fine results, that is, the location of the murder weapon.

LUMPKIN stated that, as noted previously, the Texas School Book Depository was searched first for the unknown assassin, and then, secondly, for evidence.

He advised that upon entering the Texas School Book Depository building, he had heard from persons now not recalled, that the shots had come from the sixth floor. LUMPKIN stated

that there is no way that he can recall at this late date who would have been the sources of the information to the effect that the shots had come from the sixth floor. However, Chief LUMPKIN emphasized that the original search of the entire Texas School Book Depository was directed with the purpose in mind to determine whether the individual responsible for the shooting was still in the building.

Chief LUMPKIN added that he does not consider the time which elapsed between the shooting of President KENNEDY and the location of the murder weapon to have been excessive, and to the contrary, he considers that the complete search was handled in the shortest time possible for such a large size building.

II. INVESTIGATION CONCERNING ALLEGED ASSASSINATION WITNESS HAROLD DEE RILEY

1

DL 100-10461
RPG/cms

By communication dated November 20, 1964, the New Orleans Office advised that on November 18, 1964, Sergeant WEBSTER CLEMMENTS, Deputy Sheriff, St. Tammany Parish Sheriff's Office, Covington, Louisiana, stationed at Slidell, Louisiana, had advised as follows:

On November 15, 1964, Sergeant CLEMMENTS and Deputy Sheriff RICHARD HUSSEY arrested one HAROLD DEE RILEY, age 34, a white male, 5'6", 152 pounds, blue eyes, brown hair, who gave a permanent address of 119 Listie Street (later determined to be Leslie), Irving, Texas, in connection with a routine drunk and disturbing the peace type charge. On the following date, RILEY posted bond of $37.50, which was a cash bond and he was not expected to return for trial. Sergeant CLEMMENTS stated that RILEY is a cement finisher working for an unidentified Texas firm at the NASA Test Site, Hancock County, Mississippi, near Picayune. He was temporarily residing at an unidentified motel in Bay St. Louis, Mississippi.

Sergeant CLEMMENTS stated that on the date of RILEY's release, November 16, 1964, (later determined, according to RILEY, to be November 14, 1964) the subject of the assassination of President KENNEDY came up. According to Sergeant CLEMMENTS, RILEY was sober, seemed intelligent and brought up the fact that he (RILEY) was an eyewitness to the assassination of President KENNEDY. According to Sergeant CLEMMENTS, RILEY spoke of having worked on a steel beam on a building under construction near where LEE HARVEY OSWALD allegedly shot from a building at President KENNEDY. RILEY indicated in his conversation that he had been working on this building and when the motorcade appeared, he stopped working and watched the motorcade. RILEY claimed to Sergeant CLEMMENTS and to Deputy Sheriff HUSSEY that he heard rifle shots and actually saw an individual standing in the window with a rifle protruding from the window aimed in the direction of the President.

Sergeant CLEMMENTS continued that RILEY also commented at some length about the fact that he was personally proficient with a rifle and could not understand how it was possible that as many shots were fired as were supposed to have been fired.

Sergeant CLEMMENTS stated that at the time these remarks were made, he did not think too much of it, but has since realized that when RILEY made this statement he was completely sober, rational and of reasonable intelligence, and that he felt he had the duty to report this matter to the FBI.

By communication dated December 3, 1964, the Jackson Office advised that Mr. MILTON SMITH, located at the Carpenter Brothers Construction Company Office on the NASA Test Site area, Hancock County, Mississippi, had advised that he is employed for J. H. MOBLEY - BERT W. SPEED, Cement Contractors, Main Office at 123 Commerce Street, Dallas, Texas, for which HAROLD DEE RILEY is also employed. Mr. SMITH advised, however, that RILEY had returned to Dallas, Texas on November 24, 1964, and could be reached through the Mobley-Speed Office at Dallas, Texas.

MARY FERRELL FOUNDATION

Date 12/10/64

HAROLD DEE RILEY, 418 Leslie Street, Irving, Texas, who is employed by Mobley-Speed Cement Contractors, 123 Commerce Street, Dallas, Texas, personally appeared at the Dallas Office of the Federal Bureau of Investigation, at which time he furnished the following information: [illegible]

RILEY was arrested at Slidell, Louisiana on early Saturday morning, November 14, 1964, for being drunk and "raising hell". He stated he was released later the same day after paying a fine of $37.50. He stated he is positive this arrest occurred on November 14, 1964, because he had to wire his mother, BERTIE LOU RILEY, 418 Leslie Street, Irving, Texas, to obtain $50.00, which she did send to him. At the time he was residing at the Bayside Motel, Bay St. Louis, Mississippi. He was employed at this time by Carpenter Brothers, working at the NASA Missile Site near Picayune, Mississippi, having been loaned to Carpenter Brothers by his employer, Mobley-Speed Cement Contractors.

RILEY advised that on November 22, 1963, the day of the assassination of President JOHN FITZGERALD KENNEDY, he was living at 119 Leslie Street, Irving, Texas with his wife. At that time he was employed by Mobley-Speed Cement Contractors who were working on a job at the North Park Shopping Center, Dallas, Texas. On November 22, 1963, he did not go to work because there was nothing for him to do on the job on that day. At the time of the assassination on November 22, 1963, RILEY stated he was at the blacksmith shop of RAYMOND WATSON, his father-in-law, which shop is located on North Britain, Irving, Texas. He stated RAYMOND WATSON resides at 315 North Britain, Irving, Texas. RILEY heard of the assassination report over the radio and remained at the blacksmith shop during the afternoon listening to the various radio reports.

He was not in Dallas at any time on November 22, 1963.

RILEY stated that he had worked several months prior to the assassination on the construction job concerning the new Dallas County Courthouse which is located within several blocks of the Texas School Book Depository.

RILEY stated that when he was released at Slidell, Louisiana after his arrest, he was still not completely sober.

15

on 12/10/64 at Dallas, Texas File # DL 100-10461

by Special Agent ROBERT P. GEMBERLING/cms Date dictated 12/10/64

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

He stated he knows absolutely nothing about the assassination of President KENNEDY; did not witness the assassination; was not working on any building under construction near where the assassination occurred; did not hear any rifle shots; and did not see any individual standing in a window with a rifle.

RILEY states he now owns a 308 Magnum deer rifle which he obtained three weeks ago from his uncle, WILLIAM B. MORGAN, who resides at 1702 South Bristol, Irving, Texas, and that MORGAN had built this rifle. RILEY states he did not own or possess a rifle at the time of the assassination of President KENNEDY. He stated having been in the service and having had some experience with rifles, he has wondered how three shots were fired in such a short time as was indicated by the investigation into the assassination, but that this is merely his opinion.

RILEY was asked why he made the remarks attributed to him by Sergeant WEBSTER CLEMMENTS, at which time RILEY stated he must have made such remarks out of stupidity and because he had been drinking. He expressed regrets that he had caused the FBI to have to conduct investigation as a result of remarks made by him without realizing the consequences of such remarks.

The Federal Bureau of Investigation, Washington, D. C., received a letter dated September 15, 1964 (although postmarked November 16, 1964, at Streator, Illinois), from SUSAN GREER, 1002 East Main, Streator, Illinois. This letter reads as follows:

"September 15, 1964

"The Hon. J. Edgar Hoover
Federal Bureau of Investigation
Washington, D.C.

"Dear Sir:

"I have been told that it is not necessary for me to write this, but I feel that perhaps I should. I do not feel that the person I am writing you about had anything to do with the Kennedy plot. After it happened, (the assassination), I went to my home in Rushville, Illinois. A farmer told me that a Rushville resident has a son who lives in Dallas. He said that his son wrote him two weeks before the assassination that 'something terrible is going to happen here in two weeks.' HE LIVED NEXT DOOR TO OSWALD. He said that the FBI had been around interviewing everyone. So, as everyone tells me, you would have interviewed the nextdoor neighbors of Oswald, and this letter is not necessary. I do not believe that the boy would have written his father if he himself had anything to do with it. I think even Kennedy was aware that there was a risk in going there. However, I thought that if someone knew something it might be a clue. So, I am writing you.

"Sincerely

"However, according to the Warren Report, Oswald had not been watched beforehand. This sounds as if someone had been in the neighborhood from the FBI. Of course, you know all this, anyway."

By communication dated December 3, 1964, the Chicago Office advised that on November 30, 1964, Miss SUSAN GREER, 1002 East Main, Streator, Illinois, had advised that she was a former resident of Rushville, Illinois, and that she still owns a farm in that area which is being managed by a LAWRENCE BEGHTOL, Frederick, Illinois. She advised that a couple of months previous she had a conversation with BEGHTOL and he furnished the information that she set out in her letter to the FBI.

Miss GREER stated that BEGHTOL apparently got the information from a Rushville farmer by the name of (first name unknown) AVERY. She further advised that she did not know the first name of AVERY's son who apparently lives in Dallas, Texas.

The following investigation was conducted by Special Agent ROBERT JOE IVEY at Springfield, Illinois:

On December 17, 1964, LAWRENCE BEGHTOL, Frederick, Illinois, was interviewed at the St. John's Hospital, Springfield, concerning his knowledge of a farmer by the name of (first name unknown) AVERY who has a son residing in Dallas, Texas.

LAWRENCE BEGHTOL advised that he did not know any AVERYs who might have a son in Dallas, Texas. BEGHTOL stated he knew a farmer by the name of ANDY AVERY who resided near Rushville but that ANDY AVERY did not have a son in Dallas, Texas.

BEGHTOL advised that he knew a JOHN HENRY ORR, Rushville, whom he believes might have a son in Dallas, Texas. BEGHTOL further advised that he did not know the son's name, but that sometime back he overheard ORR telling someone that his son lived close to where the assassination took place. BEGHTOL stated that this was all he could remember or recall that ORR said about his son and that he did not recall anything being mentioned concerning OSWALD.

BEGHTOL stated that he did not understand why he was questioned on this matter as he did not really understand what it was all about. He stated that he wished he could help but that he did not recall anyone mentioning that their son had written a letter which concerned OSWALD or any information that something terrible was to happen in Dallas, Texas.

The following investigation was conducted by Special Agent ELYON H. DAVIS at Rushville, Illinois:

On December 24, 1964, JOHN HENRY ORR, SR., Rural Route Number 1, Rushville, advised that his son JOHN HENRY ORR, JR., resides at 2714 North Britain Road, Irving, Texas, and is employed at the Trade Mart, Dallas, Texas. His son has never made any statement of any type to him to the effect that JOHN HENRY ORR, JR., either knew LEE HARVEY OSWALD or knew anything concerning OSWALD's activities. Also JOHN HENRY ORR, JR., never made any statement or wrote anything to his parents to the effect

that something terrible was going to happen in Dallas, Texas.

On November 21, 1963, JOHN HENRY ORR, SR., received a letter from his son JOHN HENRY, JR., written on the back of a sheet of mimeograph paper of instructions for exhibitors, Dallas, Texas, Trade Mart, dated November 18, 1963. This mimeograph sheet of instructions told the exhibitors that the Trade Mart Courtyard had been selected as the site for the luncheon for the President of the United States to be held at noon Friday, November 22, 1963. The instructions told the exhibitors of the places at the Trade Mart that would be restricted on that date and what parts of the building would be closed. The instructions for the exhibitors were signed by W. E. "BILL" COOPER.

On the back side of the letter of instructions, JOHN HENRY ORR, JR., had written his parents as follows:

"Dear Folks,

We got this today--it came as no surprise since we had heard talk around the building. Please read it all. They are certainly putting a tight check on the building. There were Secret Service men around today.

I'll write you after Friday and tell you all about it. If you will watch T.V., Friday evening for the national news, you'll be able to see KENNEDY in the Trade Mart. Hope you are all well and that you'll write me soon.

Love,

John

P.S. Everyone I know wants me to get them in the building Friday."

ORR advised that this letter was all his son had written about the President's visit to Dallas and that his son had never mentioned OSWALD in any way.

On December 24, 1964, Mrs. JOHN HENRY ORR, SR., advised that her son JOHN HENRY ORR, JR., has never

written or told her at any time that he knew LEE HARVEY OSWALD or knew anything concerning OSWALD. Also her son has never stated to her that something terrible was going to happen in Dallas, Texas.

DL 100-10461

JOHN HENRY ORR, JR., 2714 North Britain Road, Irving, Texas, was contacted on January 7, 1965, at his place of employment, the Pettigrew Associates, Dallas Trade Mart, Stemmons Highway, Dallas, Texas, by Special Agent RICHARD J. BURNETT:

Mr. ORR stated that he was residing in Irving, Texas, prior to the date of the assassination of President KENNEDY and has continued to reside in that suburb of Dallas since November 22, 1963.

Mr. ORR stated that his place of residence in Irving, Texas, is approximately four miles from where LEE HARVEY OSWALD's wife was residing on West Fifth Street, Irving, prior to the assassination. He continued that he has never been a neighbor of OSWALD, nor had he ever heard of OSWALD prior to the assassination.

He stated that he never wrote or told anyone, including his father, that "something terrible was going to happen here in two weeks" or words to that effect prior to November 22, 1963.

JOHN HENRY ORR, JR., stated that to the best of his knowledge there are no other residents in Irving, Texas, who formerly lived in the area of Rushville, Illinois.

Mr. ORR stated that it would not surprise him if his father, JOHN HENRY ORR, SR., had been the person referred to in any letter received by the FBI to the effect that a son of a Rushville, Illinois, resident had written prior to the assassination from Irving, Texas, that something terrible was going to happen in two weeks. Mr. ORR attributed this opinion to the fact that his father considers himself to be a "seer", that is, "a person who can predict what will happen in the future".

He continued that when he last visited his father at Rushville, Illinois, in September, 1964, his father had told him, in all seriousness, that he (the father) had on the

ARY FERF

eve of the assassination, in a church meeting, predicted that President KENNEDY would be killed the following day. ORR stated that his mother was present in the room when his father made this remark and he asked her if his father had actually done so. His mother just smiled at him, thus indicating to him that his father's statement was not true. He did not pursue the matter further.

ORR stated that while he does not like to say so, he must state that he believes that his father is a "mental case" when it comes to predicting events and claiming that he had information regarding "world shaking" events prior to their happening.

He further advised that he was greatly shocked about the assassination of President KENNEDY and that he was present at the Dallas Trade Mart, where his business is located, and where the President was en route to make a speech a few minutes before his death.

ORR added that if he had had any information whatsoever regarding the assassination, he would have immediately contacted the appropriate government investigative agency.

SWINK further advised that he was healed of a serious heart condition by a minister in Los Angeles, California, thirteen years ago. He stated that since this time he has been gifted with visions, verbal direction, and physical manifestations from God. SWINK stated that he holds no allegiance to any church, as he feels that there is no true church on the earth.

RE: RAY ALLEN DURALL

Since October, 1955, RAY ALLEN DURALL, present address of rear house, 522 North 18th Street, Phoenix, Arizona, has written numerous letters to various persons including the Phoenix Office of the Federal Bureau of Investigation. One of the most recent was a letter to the FBI, Washington, D. C., on November 9, 1964, and one on November 10, 1964, to the FBI, Phoenix, Arizona, alleging that his daughter and granddaughter had been kidnaped. Interview with him on November 17, 1964, indicated that he had no information indicating any kidnaping, but that his daughter had not written to him and that she had been "brainwashed and misled by people misleading her against her father".

During the interview on November 17, 1964, DURALL also stated that he knew that the Bonanza Airlines airplane, Flight 114, which had crashed near Las Vegas, Nevada, on Sunday, November 15, 1964, had been sabotaged. He then went into a long statement of his beliefs of this to be sabotage claiming he had gotten the information from "newspapers, truck drivers, hobos and people in skid row".

In the case entitled, "RAY A. DURALL, SR.; SENATOR JOHN F. KENNEDY - VICTIM; EXTORTION", investigation disclosed that DURALL had written a letter under date of August 30, 1960, from Rockport, Illinois, to Senator JOHN F. KENNEDY of Massachusetts. In this letter DURALL claimed that he had built a house with his own two hands and that it was "not built, with, by, for, Politicians or Catholics". This letter continued:

> "This is your Order to either kill or release MEYESRS & McKENNA two spies of the Natl Bank who defected to Communism with my papers, money & propety.
>
> "In event that you don't definetly carry out my Orders, I will, hunt you down with the big iron on my hip, just like any other criminal.

INFORMATION

"Warning.

"When a marksman shoots don't look around the target look in it. You are in it.

"Notice NIXON got off easy with a bear tag and a bad knee. You Honor aint worth a damn. and your life less...."

On October 6, 1960, FREDERICK G. SMITHSON, Assistant United States Attorney, Washington, D. C., felt that the facts in this case were not strong enough to support a successful Federal prosecution. Investigation reflected that DURALL had lost a farm through mortgage foreclosure proceedings by the First National Bank, Pittsfield, Illinois, in the Circuit Court there some years before. The Circuit Court in Illinois has a voluminous file in the DURALL matter which was considered by Judge REARDON and Circuit Court Clerk AUSTIN ALTIZER, Pittsfield, to be the rattlings of a mentally deranged person. In the case DURALL refused to abide by the regular legal proceedings but wrote "Home-made" legal type "orders" demanding that his farm be returned to him without court proceedings.

DURALL was also the subject of an impersonation case in 1959 during which time he assumed various titles to himself, including FBI Agent, U. S. Marshal, Secret Service Agent, and Atomic Energy representative. These titles were assumed when he wrote to various officials, particularly when writing about his farm foreclosure.

Since 1954, DURALL has written numerous letters to persons, organizations (private and governmental) and the FBI complaining about various and sundry matters. He has written "ordering" Special Agents to various localities in the United States to conduct investigations specified by him. He claimed in January, 1960, to have done "undercover work for the Navy and Army" during World War II and that he would always hold the title of "Investigator for the Government".

On December 2, 1964, SHERWOOD M. ANDERSON, Special Agent in Charge, U. S. Secret Service, Phoenix, Arizona, advised Special Agent CALVIN W. EVANS that RAY ALLEN DURALL had been interviewed three times in connection with his knowledge of LEE HARVEY OSWALD.

On November 22, 1963, DURALL came to the Phoenix Office of the U. S. Secret Service and told Mr. ANDERSON that he felt that the plan to assassinate President JOHN F. KENNEDY had originated in Phoenix. DURALL further alleged that his mail is being held up and read and it is then being revised in Phoenix. He claimed he had written to Senator DIRKSEN and in this letter he had mentioned a symbol of "shooting a lion with his mouth open". It was DURALL's belief that this letter had been intercepted and that, because of his mentioning this symbol, President KENNEDY had been shot.

On March 25, 1964, Mr. ANDERSON and Agent JOHN A. WALTERS, of the U. S. Secret Service, again interviewed DURALL. He reiterated the information in the letter to Senator DIRKSEN, but on this occasion stated that this letter had been written to Senator CARL HAYDEN of Arizona, rather than Senator DIRKSEN. DURALL indicated that his life had been in jeopardy for 19 years and claimed that he could not go into a restaurant or a cafe for fear the waitress would put poison in his coffee.

On March 30, 1964, DURALL wrote to the U. S. Secret Service a communication which read "Sheriff of Chchise County, Arizona, a guest at R. 45, Montezuma Motel, Dec. 8 to 18th 1963.... assassinator, sharpshooter -- Suspect #1".

Mr. ANDERSON pointed out that he had talked to DURALL on a number of occasions and that DURALL is constantly complaining about something. He further stated that his file contained the following letter:

REPORT THAT LEE HARVEY OSWALD WAS IN SAN DIEGO, CALIFORNIA DURING LAST WEEK OF OCTOBER, 1963 OR FIRST WEEK OF NOVEMBER, 1963

On November 20, 1964 at approximately 9:15 AM, the San Diego FBI Office received a telephone call from a male individual who refused to identify himself. The caller stated that during the last week of October, 1963 or the first week of November, 1963 he was involved in a conversation at the Quality Bar on Market Street in San Diego, California. He recalled an unidentified woman said, "How did it go for you in Mexico?", and a person whom the caller identified as LEE HARVEY OSWALD, answered, "No good". The woman then said, "Are you going back to Mexico?" OSWALD answered, "No, I'm going to Dallas tonight."

The anonymous caller stated the bartender at the Quality Bar was involved in the conversation. The anonymous caller then hung up after expressing concern for his personal safety.

The following investigation was conducted by SA ROBERT S. BAKER:

THOMAS GROESHEL, owner of the Quality Bar and Cafe, 1115 Market Street, San Diego, California, on November 25, 1964, advised he and ROY DELANE, the latter who was terminated in December, 1963, were bartenders at the Quality Bar and Cafe during the pertinent period (October and November, 1963). GROESHEL stated he has no recollection or information indicating LEE HARVEY OSWALD was ever in the Quality Bar and Cafe, and cannot recall the alleged incident reported by the anonymous caller. He advised that due to the publicity OSWALD has received he felt sure other persons in the San Diego area would have reported the fact that OSWALD had been in San Diego, California. Except for his former bartender, ROY DELANE, Mr. GROESHEL could not suggest anyone else who might have information on the alleged incident.

ROY K. DELANE, JR., 519 Fourteenth Street, San Diego, California, on December 13, 1964 advised he was formerly employed as a bartender at the Quality Bar and Cafe, San Diego, California during most of the year 1963. He stated he was employed by and worked with THOMAS GROESHEL during the pertinent period of the alleged incident (October, November, 1963). DELANE stated he

connot recall the alleged conversation reported by the anonymous telephone caller nor does he recall ever seeing LEE HARVEY OSWALD at the bar or at any other time. Except for THOMAS GROESBECK, he was unable to suggest anyone else who might have any information on the alleged incident.

DOLINE stated he is medically retired from the U. S. Navy and currently tends bar at Beasley's Friendly Corner Bar, 1201 Market, San Diego, California.

B. Allegation By Francois Austin De Lacqueseaux That Steward Aboard Russian Ship Had Told Him George Parr Had Met With Lee Harvey Oswald And That Oswald Had Aided In Destroying President Kennedy So That Lyndon B. Johnson Could Become President

He is an American citizen, retired, and lives at 200 Venezuela, Nuevo Laredo, Mexico. B. 11/1/94 Baltimore MD.

On November 4, 1964, he was in Tampico, Mexico, visiting, and he went to the Golfo Port in Tampico where the Russian ship "Polctsk" was docked, and boarded the ship as he wanted to exchange Mexican money for Russian coins for his collection, which he did. SSN. 163-24-4155

While on the ship, he conversed with the steward of the ship whose name he does not know, however, he was Russian and spoke fluent English.

The Russian then asked him if he knew that GEORGE PARR had talked to LYNDON JOHNSON about having the Federal charges against PARR dismissed. The Russian went on to say that JOHNSON in turn talked to BOBBY KENNEDY who had the charges against GEORGE PARR dismissed.

The Russian then told him that GEORGE PARR had met with LEE HARVEY OSWALD and that PARR had aided OSWALD in destroying President JOHN F. KENNEDY so that LYNDON JOHNSON could become President.

DE LACQUESEAUX stated that he worked for GEORGE PARR in the past on construction in Alice, Texas. He added that he does not know what charges GEORGE PARR had pending against him.

DE LACQUESEAUX stated that GEORGE PARR is the well known political leader from Duval County, Texas, sometimes referred to as the "Duke of Duval."

Date 12/3/64

GERALD WAYNE COULSON, Room 402, Hudson Hotel, 311 West Sheridan, Oklahoma City, telephoned at 6:15 p.m., thereafter interviewed, to advise of the following information: OKC.

Mr. COULSON stated that in the conversation on that afternoon with one JAMES MINNICK, registered in Room 420 of the Hudson Hotel, MINNICK had told him that he had certain information concerning the assassination of President JOHN F. Mr. COULSON described MINNICK as an itinerant cook who had checked into the Hudson Hotel three days previously, had his rent paid to Monday, with the probability that he would move out on Monday as he was out of money.

Mr. COULSON stated he had no other information concerning the matter to which MINNICK had referred, but felt that MINNICK should be interviewed by the FBI.

Mr. COULSON voluntarily supplied the following background information concerning himself:

Name:	GERALD WAYNE COULSON
Race:	White
Sex:	Male

JAMES OGDEN MINNICK, who described himself as a cook by occupation, during the past year traveling throughout the United States, was interviewed upon his request at the Hudson Hotel, 311 West Sheridan, Oklahoma City, Oklahoma, concerning information which he wished to relate about the assassination of President JOHN F. KENNEDY.

MINNICK, employed in Dallas, Texas, from 1959 to December, 1963, said that as a patron of the Vegas Club, from about 1961, he had gained a speaking acquaintance with JACK RUBY and RUBY's sister, EVA GRANT, operator of the Vegas Club; a man thought to be an associate of RUBY's had dated one PATRICIA ASHER of 1414 North Peak , Dallas, Texas, where MINNICK lived during the period prior to and following the assassination, a period when MINNICK had been employed at the Speedee Barbecue on North Ross, patronized by RUBY.

MINNICK, though never acquainted with LEE HARVEY OSWALD, said he believed he had identified OSWALD as being in contact with RUBY several weeks prior to the assassination:

(1) RUBY, in company with two men unknown to MINNICK and a woman described as a "red-haired stripper," had held what appeared to be some kind of a business meeting between 2 a.m. and 3 a.m., several weeks prior to the assassination, at the Speedee Barbecue on North Ross. The group appeared to be considering some kind of a blueprint, a plan or a map which RUBY had folded inside a newspaper. MINNICK was unsuccessful in his attempts to eavesdrop.

(2) The man, now thought by MINNICK to have been LEE HARVEY OSWALD, had driven the car, a late model black four-door sedan, in which the RUBY party had arrived. During the course of the meeting this individual waited outside, pacing the walk; one time walked the two dogs that RUBY had in the car - a poodle and a Great Dane; one time entered the restaurant to make a purchase at the cashier's counter, possibly cigarettes. This individual acted as chauffeur when the party left.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

(3) MINNICK first considered that this individual might have been OSWALD several days after OSWALD had been shot by RUBY. This occurred to him following a conversation at the ASHER residence, 1414 North Peak , with PATRICIA ASHER, FRANCES ASHER, and the boyfriend of PATRICIA ASHER, thought to be an associate of RUBY's. This man had stated that he had attempted unsuccessfully to visit RUBY at the jail; stated that nothing would be done to RUBY; that RUBY ought to receive a medal for shooting OSWALD. MINNICK recalled no other specifics of the conversation; no mention had been made of a possible prior association between RUBY and OSWALD, and MINNICK had not mentioned the incident at the Speedee Barbecue as he said he had not thought about it until later.

The date of the meeting in question at the Speedee Barbecue might be established, MINNICK said, through contact with a waitress then employed there and present at the time. It had occurred to days after her husband had blacked her eye. The waitress was one RONNIE LEE (LAST NAME UNKNOWN) described as about 23 or 24, 4'9" to 5' tall, 118-20 pounds. She had two children, both boys; her husband also worked at the restaurant. The injury had required medical treatment at Dallas Hospital through which the date of the meeting might be established.

The men meeting with RUBY at the Speedee Barbecue were two whom MINNICK thought he had seen about Dallas before, but not in a former assocation with RUBY. He thought he might be able to identify photographs of the men.

MINNICK claimed to have known EVA GRANT and claimed to have known her well enough to have borrowed $5 from her at one time while patronizing the Vegas Club, an amount which he said he had repaid. He said he had not been "real personally acquainted with RUBY - we did not hit it off." RUBY was said to have liked the way in which MINNICK prepared steaks and thus ate in the places where MINNICK had been employed, including the DeMar's Steak House, 6127 Sherry Lane, Preston Center, Dallas. He had never worked for RUBY.

MINNICK supplied the following descriptive data concerning the individuals whom he had seen in association with RUBY at the Speedee Barbecue:

(1) One female described by MINNICK as a "red-haired stripper," a white female, 24-25, 5'6-7", 120 pounds, fair complexion, with red hair, either dyed or a wig, worn in the fashion of a beehive. She was dressed modishly and wore a fur cape about her shoulders.

(2) Unknown male, an executive type, with the appearance of an attorney of the age late 40's or early 50's, 180 pounds, 5'3-4", stocky build, gray hair, very distinguished, wearing a business suit with a white shirt and tie. To the best of MINNICK's recollection, he was round faced and wore glasses.

(3) Unknown male, described by MINNICK as an older man who had the appearance of being retired, described as about 60 years old, of possibly Italian extraction, 6', 165-70 pounds, dark hair, graying, wearing a dark suit and a topcoat.

(4) The individual thought by MINNICK to have been OSWALD is described as a white male, in his mid-20's, 5'6-7", 150-70 pounds, dark wavy hair, combed back, wearing a white shirt and dark trousers. It is noted that MINNICK stated this man was seen to operate a motor vehicle.

MINNICK stated that his point of observation had been from the back of the Speedee Barbecue to the front walk, a distance of 45-50 feet. He said he was under fluorescent lights looking to a somewhat darkened street at night time and stated that, "A man's eyes can play tricks." He considered, however, that the man he saw without question was LEE HARVEY OSWALD.

MINNICK described the friend of PATRICIA ASHER, thought to be an associate of RUBY's, as follows:

A white male, in his late 20's, 6'-6'2", 220-230 pounds, dark hair, combed back, medium complexion, broad shoulders, good looking, described by MINNICK as a "loud-mouthed drinker." This individual operated a 1958 white over black Oldsmobile 88 two-door automobile, thought to have had California license plates.

MINNICK said that his knowledge of this possible prior association between RUBY and OSWALD began to prey upon his mind.

He feared he might meet with foul play at the hands of RUBY's "henchmen." He left Dallas and has done nothing but travel since. MINNICK stated, "I am not a nut or anything like that, but I had a premonition that KENNEDY might be killed in Dallas." He said that when anything happens of an untowards nature to members of his family, he knows it instinctively. He described this, though without using the word, as extra-sensory perception.

MINNICK voluntarily supplied the following descriptive and background data concerning himself:

LEE R. SPRADLIN, part owner, Speedy's Charcoal Burgers, Dallas, advised that JAMES MINNICK worked as a cook on several occasions in 1963 at his restaurant located at 4004 Ross Avenue, Dallas.

SPRADLIN stated that MINNICK was a good cook, but not too reliable due to his drinking habits. He stated that he frequently had to go to MINNICK's rooming house on North Peak Street to get him to come to work. However, SPRADLIN stated that he considered MINNICK to be a likeable and good employee.

He stated that MINNICK had never mentioned to him that he, MINNICK, had seen LEE HARVEY OSWALD and JACK RUBY together at Speedy's restaurant on Ross Avenue at anytime prior to the assassination of President KENNEDY.

However, SPRADLIN stated that JACK RUBY used to infrequently stop at the restaurant on Ross Avenue on purely personal visits. SPRADLIN added that he does not personally know RUBY.

In regards to OSWALD having ever been at the restaurant on Ross Avenue in the past, SPRADLIN stated that he is sure he would have heard of this, if true, as two of his older employed waitresses at the Ross Avenue restaurant would have mentioned the matter to him; which neither have ever done. Thus, SPRADLIN doubts if OSWALD was ever at the Ross Avenue restaurant.

Re: JAMES OGDEN MINNICK;
ALLEGED ASSOCIATION
BETWEEN LEE HARVEY OSWALD
AND JACK RUBY, PRIOR TO
ASSASSINATION

JAMES OGDEN MINNICK, residing at the Dean Hotel, 416 North Broadway, Oklahoma City, Oklahoma, was interviewed for information supplementing that concerning himself and the ASHERS, FRANCES and PATRICIA, which he had provided on November 28, 1964; a matter in which he had reported the belief he had seen LEE HARVEY OSWALD in the company of JACK RUBY prior to the assassination of President JOHN F. KENNEDY.

MINNICK had reported his residence, and that of the ASHERS, during the period to and following the assassination, as 1414 North Peak, Dallas, Texas, an address found to be non-existent, though investigation had determined that MINNICK, in fact, had resided on Peak. Investigation, based on the information which he had provided, also had failed to identify FRANCES ASHER and her daughter PATRICIA ASHER.

FEDERAL BUREAU OF INVESTIGATION

Date December 11, 1964

JAMES OGDEN MINNICK, residing at the Dean Hotel, 416 North Broadway, Oklahoma City, Oklahoma, was interviewed for information supplementing that which he supplied on November 28, 1964, in order to establish his address at Dallas, Texas, during the period prior to and following the assassination of President JOHN F. KENNEDY; to obtain identifying data and background information concerning FRANCES ASHER and her daughter PATRICIA ASHER.

After research of the 1963 Polk City Directory for Dallas, Texas, MINNICK advised he had resided during the period in question at 1513 North Peak, Dallas, Texas, an apartment conversion owned by HAROLD O. McCAIN. McCAIN, he said, formerly had resided at this address.

By way of confirmation of the address, MINNICK described the house as a story and one-half frame house with gray-shingled exterior; a gable end facing the street; a recessed front entry; a house located one door from the Hampton Apartments, and four and five doors west, respectively, from the O. H. White Filter Service, and the Doyle Cafe. The house had two apartments on the first floor, separated by a central hallway running from front to rear. In addition, two sleeping rooms were to the front. MINNICK said he had occupied the sleeping room to the right of the front entry. FRANCES ASHER, and later, PATRICIA ASHER, had resided in the apartment on the right. An attic apartment had been occupied by a man named LUTHER, last name unknown, whose wife had been acquainted with FRANCES ASHER. MINNICK said he had not known the occupants of the east apartment.

MINNICK said he had moved to this address about 10 days prior to his obtaining employment at Speedy's Charcoal Burgers No. 2, Dallas, Texas; had moved out about two weeks following the assassination. Previously, he had been visiting his brothers, FRANKLIN and TRACY MINNICK, at Arlington, California.

MINNICK said he first had become acquainted with FRANCES ASHER when she had moved to the Peak address shortly after he did. Separated from her husband, FRANCIS ASHER, MINNICK said he had dated FRANCES ASHER during the time she resided at the Peak address. He provided the following information concerning her:

Name	FRANCES ASHER, formerly Mrs. FRANCIS ASHER, Mrs. EVERETT LINDSAY or LINDSEY
Race	White
Sex	Female
Age	37 (1963)
Height	5'6"
Weight	108-109
Eyes	Green
Hair	Blond
Daughter	PATRICIA ASHER, age 23
Mother	Owner or employee of Star-Lite Grill, 115 North Carroll, Dallas, Texas (Polk Directory shows ownership by Mrs. BETTY WAGNER, but MINNICK did not know whether she was ASHER's mother)
Remarks	ASHER's first husband, EVERETT LINDSAY, or LINDSEY, visited her frequently at the Peak address. He was thought to have been employed as a salesman of industrial products in Dallas, and drove a new Ford Station Wagon, white.
Automobile	ASHER drove a black Nash Metropolitan with Texas license
Employment	None

MINNICK described PATRICIA ASHER as a white female; age 23; 5' 1"; 118 pounds; dark eyes; hair dyed, usually blond. She was said to have been separated or divorced from her husband, and to have had two or three children, not residents of Dallas. She was not known to own an automobile. A daughter of FRANCES ASHER, she had moved to the Peak address in early November, 1963, upon arrival from California, possibly Long Beach.

MINNICK stated that the above constituted all of the information which he could recall concerning FRANCES and PATRICIA ASHER.

In the event a later interview might be required, MINNICK said he would advise the Oklahoma City Office should he move from the Dean Hotel in Oklahoma City, Oklahoma.

HAROLD O. McCAIN, 1513 North Peak, Dallas, advised that he operates a rooming house at this address.

McCAIN stated that during the latter part of 1963 he had a roomer named JIM MINNICK who used to work at a hamburger restaurant nearby on Ross Avenue. McCAIN described MINNICK as a heavy drinker who was prone to greatly exaggerate on any topic being discussed. McCAIN stated that it got to the point that he could not believe anything MINNICK said.

McCAIN stated that MINNICK never mentioned anything to him about having seen LEE HARVEY OSWALD and JACK RUBY together at the restaurant where he worked, even though MINNICK was rooming at this address at the time prior to and after the assassination of President KENNEDY. McCAIN added that MINNICK had not made such a comment to him as MINNICK knew "that I would have laughed in his face."

McCAIN added that he would personally consider any statement made by MINNICK in connection with OSWALD and RUBY as completely unreliable.

Mrs. FRANCES LYNN ASHER, Apartment 7, 4625 San Jacinto, Dallas, advised that she and her daughter, PAT, formerly rented a room in the home of a Mr. HAROLD O. McCAIN at 1513 North Peak Street, Dallas.

Mrs. ASHER stated that while a roomer at the latter address, there was another roomer by the name of JIM MINNICK who had a room located in the front of the house. She stated that MINNICK was employed as a cook at various restaurants in Dallas and for a while worked at Speedy's restaurant on Ross Avenue in Dallas.

Mrs. ASHER described MINNICK as a heavy drinker in whom she had no confidence. She stated that she had caught MINNICK in so many "unnecessary" lies that she eventually would not believe anything he talked about.

She stated that MINNICK never mentioned anything to her about having seen LEE HARVEY OSWALD and JACK RUBY together at any time in the past.

Mrs. ASHER stated that neither she nor her daugher, PAT, with whom she is very close, ever knew RUBY or knew anyone who knew RUBY.

She stated that the description of the man MINNICK states was a boy friend of her daughter who was thought to be an associate of JACK RUBY fits that of a BOB RAMSEY. She stated that RAMSEY worked as a bartender in the neighborhood of North Peak Street and Bryan Avenue when MINNICK was living at 1513 North Peak Street. She stated that he was from California, but had only dated her daughter on several occasions. Mrs. ASHER stated that RAMSEY was in Dallas for only a short time and he had never mentioned to her that he knew JACK RUBY. RAMSEY was in Dallas at the time of the assassination.

Mrs. ASHER stated that MINNICK detested RAMSEY for personal reasons.

She further advised that her daughter, PAT SILVERGLIED, has moved to California and is now living at 1151 West 31st Street, Los Angeles, California.

Dear Marina,

"Welcome!" You are now home at last. I think you are terribly tired. The reporters probably do not give you any rest. It is good thing that Mr. Martin can help you with this.

My mother is flying in tonight and will remain here for a week. I would like to see you sometime during the week if you so desire. I would like you to meet my mother, but this, of course, is not important.

I am trying to live a normal life and it is easy for me now. For you, of course, it is still difficult. Maybe you can begin living like others. One should try to hope that it is possible to live a normal life.

I can come over after you (with the children) at any time and we can spend the day here like we used to do in April. I am not afraid of the reporters. Let them ask, "Well, what happened when you saw Mrs. Oswald?" "Oh, we talked about the children as usual." I have learned how to talk with the reporters. You can answer questions, but it must bore them, that is, they will learn very little of the news.

With love,

Dear Marina,

I made a mistake, like it always happens: Your neighbor told us of a woman (not a girl, like you have noticed) who was deaf. (not blind) She is deaf and blind. It is true that it is easier for me to speak Russian now than in September, but even now it is difficult for me, and I often make mistakes. Why I am trying to learn the Russian language, I do not know. I have no talent for languages.

Soon we are flying to Philadelphia. I will write to you when we return.

With love,

/s/ Ruth

Dear Mrs. Oswald,

Excuse me for not being able to write to you any better. I do not know much Russian. I am writing to you in order to offer you my condolences. You are a person just like I am. I know that you are sad. Because of that, I am also sad. There is much sadness in the world.

From Mexico, you and your husband arrived one day (October 4) at the city of Alice in Texas. You stopped at the place of my birth. I live close, in the city. This is my home. Now I am here, studying close to Chicago. Soon, on December 16, I will come to Dallas. I will visit with friends.

I respect you and love you. You are a woman. Women have many feelings. You are courteous. You have a heart. You suffer a great deal. I want to visit you this Monday, as your friend. Would you give me your permission to visit you?

You can write me a letter quickly by air mail. Write on this envelope:

You are a Russian. I am an American. I am your friend. We are people, isn't that true? This is good. Do you understand?

TRANSLATION FROM BEL-RUSSIAN

A letter to Marina Oswald, from Serafina Szakul, 14 Schwerin Street, Berlin W. 30. (Yesterday)

December 16, 1963

I am sorry for you and for your little children; they are orphans without a father and you are a widow without a husband. Your husband is not a bandit and he did not kill President Kennedy. Your husband was a kind man. He loved the Soviet people and the Soviet Government. That is why he married you. However, American capitalists did not like him for this; they accused him of the assassination of President Kennedy, without any inquest and without any trial; they permitted capitalist malefactors to shoot your kind and innocent husband. I believe that President Kennedy was killed by the malefactors, who did not like him, because he insisted upon equal civil rights for Negroes. But murder will out. The truth as to who killed President Kennedy will also come out.

Please forgive me for not writing to you in Russian. I cannot write well in Russian. I am a native of Western Belorussia where I learned to write only in Polish.

I came to Germany to work immediately after the war, but I did not go back to the Homeland on account of Fascist propaganda against the Soviet Government. I regret now that I did not do it; it would have been better to have gone home immediately after the war.

With kind regards,

Serafina Szakul

January 3, 1964

Dear Marina,

I would like you to come to dinner on Tuesday, the 7th, Wednesday, the 8th or Thursday the 9th. Perhaps it will be better not to plan on dinner. Simply come when you wish. I really want to see you very much. Somebody probably told you not to look at the past. I do not want to look at it. It is possible that someone has told you that it is better not to see me. Maybe they think, that I will find out and tell where you now live. They do not know, that I am an honest person; they do not know, that if I say that I will not tell something, I will not tell it. You know how honest I am. You may ask me not to say something about Marina, and I wouldn't say it even to Michael, if you so prefer. In general, I do not want to know anything except, that you are free, and that you know your rights.

At first I did not expect to see you because I know, that the Secret Service and the FBI wanted to ask you very many questions. But already six weeks have elapsed since the assassination of the President. It is time for you to have a rest. Do understand: I think, it is very important to assist the FBI and the Secret Service as much as we can (I forgot the idiom.) I told them everything I knew and answered all the questions. I trust, that you assisted them and cooperated with them in every way. (How should one say that?) This is good. It is important and it also helps you.

Here are the pictures which we took several weeks ago. I finished the film at Christmas time and got them back two days ago. Call me please, Marina, and tell me, that you received the pictures, the letter with its invitation and the letters which I wrote on the 21st, 26th and the 28th of December.

I am beginning to settle down, and want very much to know that you are well.

?

Kissing you, June and Rachel.

December 28

Dear Marina,

They say, it is your choice to speak or not to speak with anyone. That is, if you wanted to see me, then they would have given me the permission to meet with you. But I will not believe this till I hear it from your lips. That is why I am bothering you and want the rejection from you and not only from the Secret Service. I also want to know whether or not you received the letter, which I brought to Mr. Martin's house on Saturday, December 21st, (at 12:00 o'clock). Your card to me was mailed at 1:00 P.M., December 21st. Did you write it after you received a letter from me, or before? It is important to be before, isn't it? Did you receive a letter from me, which I wrote on the 27th, and which I brought to Mr. Martin's house on the same date?

Excuse me, Marina, I do not wish to bother you. As I said to Michael last night, I generally do not try to extend my friendship when it is obvious to me, that the person does not want my friendship. Usually, it is possible to find that out straight from the person, from his face, his words - if he wants to speak or not. But in this situation - I do not know.

Sincerely yours,

/s/ Ruth

(In the letter there was $10.00 in cash from Doris P. Howry, Box 441, Slatersville, R. I. It is probably better to send the check for the $10.00 than the cash. Here is a check for $10.00 consider it to be from, Doris Howry.)

On December 2, 1964, the FBI Laboratory advised as follows concerning a document examination requested by the Dallas Office on November 20, 1964:

Specimens received November 23, 1964

D-273 Envelope postmarked "SPENCER, W. VA. NOV 25 1963 7-AM," with handwritten address "Pesonal Mrs. Lee Olleswalles Delas Texes canclenchel" and accompanying one-page handwritten letter dated November 24, 1963, beginning "Dear Mrs. Lee..." and signed on reverse side "Pearl E. Bragan"

Result of examination:

The handwriting appearing on D-273 was not identified in the Anonymous Letter File.

It should be noted that the following investigation by the Pittsburgh Office indicates that the name is PEARL E. BROGAN instead of "BRAGAN" or "BRAGANS", which it appeared to be on the handwritten letter.

The following investigation was conducted by Special Agent CHESTER E. AIRHART:

On December 2, 1964, DL T-1, a representative of another government agency, advised that Mrs. PEARL E. BROGAN is a former patient of the State Hospital, at Spencer, West Virginia, and that she is presently residing and caring for an elderly lady, Mrs. FLORA THOMPSON, 111 Claude Street, Spencer, West Virginia. He advised that Mrs. BROGAN is a prolific letter writer and is considered to be a mental case.

On December 2, 1964, Trooper J. FITZWATER, West Virginia State Police, Spencer, West Virginia, advised that files of his detachment contained no record for PEARL E. BROGAN.

On December 2, 1964, [redacted] Medical Records Department, State Hospital, Spencer, West Virginia, advised from records that PEARL E. BROGAN was admitted to that hospital as a patient on September 11, 1961. She was released on a trial basis on January 30, 1962, to take care of her mother, who subsequently died and she returned to the hospital on June 11, 1962, being released in custody of Mrs. ERNESTINE MILLER on January 21, 1963, to care for Mrs. MILLER's mother, Mrs. FLORA THOMPSON. The records disclosed that Mrs. BROGAN had been previously confined to the State Hospital at Huntington, West Virginia, from September 7, 1949, to December 22, 1950.

The records further reflected [redacted]

The following background information was set out in said records:

Mrs. BROGAN was born as PEARL ELLIS on July 30, 1917, to OBIE and TACIE ELLIS JOHNSON. Her father died in 1947 and her mother died in 1962. She married LEON W. BROGAN in 1934, and was divorced in 1959. She has two daughters, Mrs. JOANN BOCKSHELLER and MARY FRANCIS BROGAN, both of Indianapolis, Indiana. She is a white female, 5' 3" tall, weighing 153 pounds, has blue-grey eyes and dark hair, turning grey. She has a fifth grade education, and her Social Security Number is 236-22-4760. She has been a practical nurse for ten years at Charleston, West Virginia. Her sister, Mrs. ALPHA MC VEY, 955 Lincoln Drive, Charleston, West Virginia, is listed as her next of kin.

On December 2, 1964, Mrs. BROGAN was interviewed at 111 Clayde Street, Spencer, West Virginia, and at the outset, she denied writing a letter to Mrs. MARINA OSWALD but finally advised that the letter, poorly written, could be read if it were placed under an ultraviolet light. She stated that Mr. and Mrs. H. F. stood for Mr. and Mrs. HARRY FRAZIER, who operate a restaurant in Lynn Creek, West Virginia, and that the C. S. stood for CARL STEVENS, Barrow Drive, Charleston, West Virginia.

She stated that she had written in her letter to Mrs. OSWALD that FRANK REARDON had shot the late President of the United States, JOHN F. KENNEDY, with a gun bearing Serial Number 27 and that he had been paid to do so by Mr. and Mrs. HARRY FRAZIER and CARL STEVENS, according to information she had received over a police radio broadcast. She said, however, that she did not have a short wave radio and although questioned at length, could not state when, where or how she had heard the police broadcast. She said she had already solved this case for Mr. JOHN EDGAR HOOVER, Director of the FBI, and had already advised him of same.

The Pittsburgh Office of the FBI has received no previous information concerning Mr. or Mrs. HARRY FRAZIER or CARL STEVENS. Mrs. PEARL BROGAN has written letters to various FBI field offices and to the FBI Headquarters in Washington, D. C., in 1957, 1958 and 1963 alleging that she had knowledge of various violations of local or federal laws. She failed to furnish any specific information.

On November 19, 1957, Captain DENZY WILLIAMS, Charleston, W. Va., Police Department, advised SA ROBERT EDWARD RADDE that Mrs. BROGAN had contacted him on numerous occasions, claiming to have information regarding law violations, all of which were unfounded. He further advised that Mrs. BROGAN has been in mental institutions on a number of occasions.

"The irony of it all was the trust that Lee still had tho he did not know that Tippet had been murdered as he went in to the movie house,

PAUL A. BEAL, 4343 East Elmwood, Tucson, Arizona, advised December 9, 1964, that he is a retired employee of the Southern Pacific Railroad at Tucson, Arizona. BEAL, who has lived in Tucson, Arizona, since 1903, has had assigned to him by the Tucson Post Office box 864 since about January 9, 1930. BEAL stated that he had no typewriter in the house and that he had no son and no grandson by the name of "JOE", in fact he had no children or grandchildren living in Tucson and that he had no idea who might have utilized his box, Box 864, as a return address. BEAL said he had searched his memory for any friends who might have furnished Box 864 as a joke upon him but that he was unable to suggest any possibility of who might have furnished the address of Box 864, Tucson, Arizona, in the letter to Mrs. MARINA OSWALD.

He stated that he could recall never having seen any mail come to his Box 864, whereon the first name of JOE or JOSEPH was written. BEAL said that if any ideas should come to him as to who might have possibly used the box number of 864 as a return address, he would immediately advise the FBI.

Mr. DECLAN FORD, residence address 14057 Brookcrest, Dallas, Texas, who is a friend and adviser to MARINA OSWALD, made available a letter addressed to MARINA OSWALD, postmarked at Chicago, Illinois, which is undated and unsigned but bears the name "NICOLA DECHERT" at the end, along with the envelope which contained this letter and a printed tract entitled "Pipe This -- U.S. Government Financed Oswald", which letter has been received by MARINA OSWALD since the assassination.

This letter is quoted as follows:

"Dear Marina:

"I am sending you a check for two dollars. AA fellow named Frank sent it when I asked for money for you and the children. I didn't have any luck with my appeal tho. Only one man sent money.

"Also enclosed is a sheet from a magazine that I publish. There are hundreds of people in this country who are positive your husband did not kill President Kennedy and most of them are glad that somebody did. This may seem strange to you but you have not lived in this country long enough to understand the people here. Whoever did it, they think they did the whole country a favor.

"I send this magazine out every time I get an order for a sample copy so the people will know what really happened or part of it anyway.

"I am sure your husband is innocent and will eventually be proved innocent, regardless of what some officials say.

"Nicola Dechert"

The envelope is addressed to "Mrs Marina Oswald Widow of Lee Harvey Oswald Richardson, Texas", and bears

By communication dated December 2, 1964, the Federal Bureau of Investigation, Washington, D. C., advised that the files of FBI Headquarters reflected that on September 29, 1964, DL T-2 made available to the Tampa Office of the FBI a circular captioned "Glitter Gulch", which alleged that President ABRAHAM LINCOLN was not assassinated in 1865 but was impeached by Congress in 1875. The circular stated that the story could be purchased by sending $3.00 to Dechert Publications, Box 689, Chicago, Illinois. The circular contained a number of advertisements including one used by NICOLA X. DECHERT, Box 689, Chicago 90, Illinois.

FEDERAL BUREAU OF INVESTIGATION

Date 12/23/64

Miss RUTH L. DECHERT appeared at the Chicago Office of the Federal Bureau of Investigation at 2:00 PM on December 15, 1964. Miss DECHERT advised that she is presently residing at 1150 North Lake Shore Drive, apartment 16K, Chicago, Illinois. She stated that she publishes several periodicals including one called "Glitter Gulch" and the "Gold Coast Gypsy".

Miss DECHERT advised that she recalls having written a letter to Mrs. MARINA OSWALD, widow of LEE HARVEY OSWALD sometime in May of 1964. She stated she enclosed with this letter, a page or two of one edition of her newspaper "Gold Coast Gypsy" which was a compilation of various newspaper items pertaining to the assassination of President KENNEDY.

Miss DECHERT advised that she did not believe that LEE HARVEY OSWALD had killed President KENNEDY but rather believed that KENNEDY was killed by former Texas Rangers who were now employed by the Dallas Police Department, and that the shots which killed President KENNEDY had come from the County Jail Building in Dallas. She stated that she felt that KENNEDY's death was part of a large scale "Catholic" plot with political overtone and was part of a scheme to make a new "martyr". She said she believed that a secondary portion of this plot, not fulfilled, was to have been the kidnapping of President KENNEDY's son.

Miss DECHERT advised that her foster father had been JOHN WILKES BOOTH who was commonly believed to have assassinated ABRAHAM LINCOLN in 1865. She said that the "alleged" LINCOLN assassination was a hoax and that LINCOLN, instead of being assassinated had been spirited away from Washington by his political opponents

and had died some ten years later of natural causes. Needless to say, JOHN WILKES BOOTH, his alleged assassinator, had not been killed in Maryland shortly following the alleged assassination of President LINCOLN, but had lived until the late 1950's in the East St. Louis, Illinois area.

Miss DECHERT advised that her foster father, BOOTH, had been one of the participants in the kidnapping of CHARLIE ROSS in 1875 at Philadelphia, and had, in fact, raised ROSS as one of his family from the date of kidnapping until about 1942, when he killed ROSS by pushing him in front of a train in St. Louis, Missouri.

Miss DECHERT advised that she has formerly used the names THALIA DECHERT and NICOLA DECHERT. She stated that in addition to the above two names she has used the names JAMES O'BRIEN, JIMMY O'BRIEN, and the Bandolier Press, in connection with her business ventures. She described her business as furnishing photographs, club lists, pen pal lists and so forth which she advised, skirted but did not violate the obscenity laws of the police department.

Miss DECHERT was questioned concerning the assertion in the "Glitter Gulch" to the effect that THALIA DECHERT was the grandniece of CHRISTIAN ROSS, JENNY LIND and DAN MC GREW. She replied that there was no other THALIA DECHERT to her knowledge other than herself, and that she herself was JENNY LIND. It was pointed out to Miss DECHERT that JENNY LIND had been born in the early 1800's and died in the 1870's, to which Miss DECHERT replied that she, DECHERT, had been a child of prodigy.

Miss DECHERT advised that she was born on April 18, 1904, at East St. Louis, Illinois.

DECLAN FORD, 14057 Brookcrest, adviser and friend of MARINA OSWALD, advised that MARINA OSWALD is now staying at the Royal Crest Apartments, Apartment 6, Sedona, Arizona, where she is collaborating with her writer, PRISCILLA JOHNSON, on a book.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

By communication dated December 9, 1964, the Phoenix Office advised that on December 8, 1964, MARINA OSWALD advised SAs DANIEL C. PELTON and CALVIN W. EVANS that she is staying with Miss PRISCILLA JOHNSON at the Royal Crest Apartments, Apartment 6, Sedona, Arizona, and is working on a book. MARINA OSWALD advised she would be leaving Sedona, Arizona on December 21, 1964, to return to Dallas, Texas, for the Christmas holidays and then later go to Michigan.

On December 8, 1964, WILL STEELE, Deputy Sheriff, Coconino County, Sedona, Arizona, advised SA DANIEL C. PELTON that he had learned that one C. or G. HASTINS, who claims to be from Santa Fe, New Mexico, but drives a Corvair with Arizona license 68767, made the reservations for the apartment for MARINA OSWALD and Miss PRISCILLA JOHNSON and is apparently the bodyguard of these two people.

On December 28, 1964, Mr. DECLAN FORD, 14057 Brookcrest, Dallas, Texas, adviser and friend of MARINA OSWALD, advised Special Agent WALLACE R. HEITMAN that the C. or G. HASTINS referred to above is undoubtedly JEROME HASTINGS, who is a resident of Santa Fe, New Mexico, and a friend of DAVID DAVENPORT, a cousin of PRISCILLA JOHNSON.

According to FORD, PRISCILLA JOHNSON, with whom MARINA OSWALD is collaborating on a book, and MARINA OSWALD stayed at the DAVENPORT home in Santa Fe, New Mexico, in the fall of 1964. In early December, 1964, HASTINGS drove MARINA OSWALD and PRISCILLA JOHNSON from Dallas to Sedona, Arizona, where the two women were working on the book. Mr. FORD stated that HASTINGS is a friend of PRISCILLA JOHNSON and MARINA OSWALD, but is not MARINA OSWALD's bodyguard.

On January 5, 1965, Mr. FORD advised that Miss PRISCILLA JOHNSON has a permanent address of 48 Brattle Street, Cambridge, Massachusetts.

On December 29, 1964, Mr. DECLAN FORD, 14057 Brookcrest, Dallas, Texas, advised Special Agent WALLACE R. HEITMAN that MARINA OSWALD had accepted an invitation to attend an eight-week special course in the English language offered at the University of Michigan, Ann Arbor, Michigan, and would depart from Dallas, Texas, by plane on January 3, 1965, in order to begin attendance at this school on January 4, 1965. Her present plans are to leave her children in Richardson, Texas, in care of a neighbor and supervised by Mr. and Mrs. FORD. Mr. FORD advised the Reverend ERNEST CAMPBELL, First Presbyterian Church, Ann Arbor, Michigan, has made arrangements for a residence for MARINA OSWALD.

Mr. FORD advised that it is MARINA OSWALD's intention to return to her residence at Richardson, Texas, following the completion of the course at the University of Michigan.

Re Dallas airtel to Bureau, 11/20/64, enclosing certain correspondence of MARINA OSWALD, including a letter to MARINA from Mrs. PEARL E. BROGAN; and Pittsburgh letter to Bureau, 12/14/64, concerning the BROGAN letter.

In referenced Pittsburgh letter it was requested of Dallas that the BROGAN letter be examined under ultraviolet light to determine if anything of pertinence could be seen in that manner. This lead was set out in view of the interview of the author of the letter, Mrs. PEARL K. BROGAN, a former patient of the State Hospital at Spencer, West Virginia, and now a resident at 111 Claude Street, Spencer, West Virginia, on 12/2/64. She advised the letter she had written to MARINA OSWALD had been poorly written, but it could be read if it were placed under an ultraviolet light.

REQUEST OF THE BUREAU

It is requested the FBI Laboratory examine the BROGAN letter under ultraviolet light, as suggested by the Pittsburgh Division. This letter was forwarded to Bureau in Dallas airtel dated 11/20/64, and has not been returned to Dallas. It has been designated Exhibit D-273.

Re Detroit airtel dated 12/23/64.

Enclosed for the Bureau are eight copies of a letterhead memorandum (LHM) dated and captioned as above, and one copy is enclosed for Dallas.

Information set forth in enclosed LHM was furnished to IC JOSEPH A. AUGUSTYN on 1/13/65.

As noted in LHM, MURPHY conservatively estimated at the rate of 45 to 55 envelopes per day that it would take one man approximately 30 days to check the UAL tickets for the pertinent period.

Chicago is holding further investigation in abeyance pending further instructions from the Bureau. In the event the Bureau desires further investigation by Chicago, Dallas is requested to furnish Chicago the dates, during the pertinent period, on which OSWALD'S whereabouts are known in order to eliminate these dates from the search.

On January 13, 1965, Mr. Vincent Murphy, Supervisor, Ticket Control Department, United Airlines (UAL), 1200 Algonquin Road, Elk Grove Township, Illinois, furnished the FBI the following information regarding UAL flights from Detroit to Chicago during the period August, 1963, through November 22, 1963:

Murphy advised that during said period UAL made approximately 13 daily flights from Detroit to Chicago. He, Murphy, explained that the tickets for each flight would be contained generally in one envelope. Based on his records, of all UAL flights, he advised each envelope would average a contents of approximately 70 tickets.

Murphy determined that approximately 1,500 envelopes would have to be pulled and approximately 105,000 tickets checked.

Murphy stated that his estimate should be considered very conservative, since the UAL Detroit to Chicago flights are heavily traveled and therefore, the tickets contained in the envelopes for this particular run could easily average 100 to 125 tickets per envelope.

Based upon his past experience, Murphy disclosed that in his opinion one man would be able to check approximately 45 to 55 envelopes per day.

Murphy further stated that UAL had no scheduled flights to Dallas during said period and that therefore it would require a passenger on a UAL flight out of Detroit to travel to Chicago where he would transfer to either an American or Braniff Airline flight for the Chicago to Dallas end of the flight.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Bureau does not deem it necessary for your office to arrange for an exhaustive search of air line tickets in Chicago to ascertain if subject was possibly on a planeen route Detroit to Dallas during the period August, 1963, through November 22, 1963. It is noted that Miss Loralie Krome's statements concerning Oswald were not made for over one year following the assassination and were not corroborated by her fellow employees. Our investigation has disclosed that Oswald was residing in New Orleans during period August 1, 1963, through September 24, 1963, and is not known to have made any trips outside New Orleans during such period.

No further action need be taken in this particular inquiry.

1 - Dallas (100-10461)

REL:ssh (5)

NOTE: Air line employee in Detroit informed Detroit Office December 28, 1964, that approximately August or September, 1963, an individual purchased a ticket on the air lines from Detroit to Dallas via Chicago. She stated this man claimed that Dallas would be a great city known throughout the world some day. She stated she now believes this individual was Oswald. Inquiry of her fellow employees and supervisor failed to corroborate her allegations. Detroit suggested Chicago Office might consider review of air line records maintained in Chicago to determine if Oswald was on a flight from Detroit to Dallas during the period August or September, 1963. Inquiry at appropriate air lines in Chicago discloses this would be expensive and time-consuming operation. On basis of initial allegation not feasible to pursue this inquiry further.

On December 3, 1964, Officer Cooper of the LAPD, Harbor Division, advised that he is the beat officer assigned to the skid row area of Beacon Street. He said that Raymond Ritt's name and physical description are vaguely familiar to him, but he has no information as to where Ritt may be living or working.

On December 10, 1964, Lonnie Sutton, manager of the Hotel Avian, 326 West 11th Street, San Pedro, was recontacted and stated he had recently heard that Raymond

On December 21, 1964, Lonnie Sutton, manager of the Hotel Avion, was recontacted and stated he had not seen Ritt since the latter was allegedly admitted to Harbor General Hospital. Sutton said that Ritt was not working to his knowledge and the only job he has ever known Ritt to hold in the past was that of a dish washer. He said that Ritt is a heavy drinker and that he had no idea when Ritt might return to this hotel.

The Long Beach Police Department records reflect no arrest record for Raymond Ritt or Raymond Riff.

Three confidential sources who have furnished reliable information in the past and who are generally familiar with Communist Party membership and activities in the Los Angeles County Harbor area, including San Pedro, California, advised during January of 1965, that the name Raymond Ritt or Raymond Riff is unknown to them.

The indices of the Los Angeles Office of the FBI as of January, 1965, reflect no identifiable information to the names Raymond Riff or Tony Piff.

Reference is made to Federal Bureau of Investigation (FBI) memorandum, dated December 4, 1964, concerning Lane's travel to Europe on December [illegible], 1964.

The "New York Herald Tribune" newspaper issue of December 31, 1964, page 3, contained an item which noted that on December 30, 1964, Mark Lane was married to Anne-Lise Dybelsteen, a Danish fashion designer. This item reflected the marriage took place on the Danish Island of Falster.

The "New York Daily News" newspaper issue of December 31, 1964, page 37, noted that Mark Lane and Anne-Lise Dybelsteen, age 23, the daughter of a Danish businessman, were married on December 30, 1964, at Nykoebing, Falster, Denmark.

On January 12, 1965, a confidential source, who has furnished reliable information in the past, advised that Mark Lane was then in Europe and primarily engaged with the preparation of his book concerning the circumstances surrounding the assassination of President John Fitzgerald Kennedy, which took place on November 22, 1963, at Dallas, Texas. On the night of December 12, 1964, Mrs. Walter C. Erion telephonically contacted the Los Angeles Office of the Federal Bureau of Investigation (FBI). She said she resides at 1611 Hilts Avenue, West Los Angeles, California, and she furnished the following information:

On December 3, 1964, she attended a lecture at the University of California at Los Angeles (UCLA) Ballroom which was sponsored by the Distinguished Speakers Bureau, which according to Mrs. Erion, is part of UCLA. Mark Lane spoke on the subject of the assassination of President Kennedy. He stated he has already formed two groups which are working on this matter, one being located on the University of California Campus at Berkeley. Mrs. Erion could not recall the location of the second group. The theme of Lane's talk was that the Warren Commission completely erred in its findings and made a very incomplete report. It was Mrs. Erion's impression that Lane's main objective was to vilify the FBI, the Dallas, Texas, Police Department, and the Warren Commission.

According to Mrs. Erion, Lane held the students in the audience spellbound and urged the formation on the UCLA Campus of a group in support of his movement to raise funds to conduct an investigation to exonerate Lee Harvey Oswald of any blame in the assassination of President Kennedy. Lane indicated a group of students was being sent to Dallas, Texas, to investigate the assassination, but he did not elaborate on this.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

ATTORNEY MARK LANE

Inquiry Head

Mark Lane, 37-year-old New York attorney, is chairman of the recently formed Citizens' Committee of Inquiry, which is conducting an independent investigation into the assassination of President John F. Kennedy.

In December, 1963, Lane prepared and published a defense brief for Lee Harvey Oswald answering the 15 points which Dallas prosecutor Henry Wade claimed proved "beyond a doubt" that Oswald was the lone assassin of President Kennedy.

As a result of this brief, Lane was retained by Mrs. Marguerite C. Oswald to act as counsel for her son before the Warren Commission. On March 4, 1964, he appeared before the Commission and presented his findings up to that date. He is continuing his investigation of the assassination, but through the independent Citizens' Committee, rather than in an attorney-client capacity.

Lane has made several trips to Dallas, each time turning up more eyewitness testimony and documentary evidence refuting the charges against Oswald. He has presented this material at meetings across the country, before students and law faculties in Wisconsin, Minnesota, Michigan, California, Oregon, Massachusetts, Pennsylvania and New York.

MARK LANE
Investigates assassination

Since beginning his investigations, he has become convinced that Lee Harvey Oswald is innocent of the crimes charged against him, and he has announced that he will remain with the case until the real facts about the Kennedy assassination are known.

The chief objective of the Citizens' Committee is to send experienced investigators, including trained newspaper reporters, into the Dallas area to check out the more than 200 different leads that have already come to its attention. The Committee functions nationally from offices located in New York City.

Lane became known during the 1950's for his activities in reform politics in New York and for his handling of many civil liberties cases.

In 1961, after being elected to represent the Yorkville district of Manhattan in the New York State Assembly, he became the first elected official in the country to participate in the integration struggle directly when he joined a Freedom Ride to Jackson, Mississippi.

BY CANOE AND HELICOPTER

Just 160 years after Merriwether Lewis and William Clark set out on their expedition into the Northwest, an NBC News crew left St. Louis to retrace their route up the Missouri River, over the Continental Divide and down the Columbia River to the Pacific. In what proved to be something of an expedition in itself, the unit traveled 7,000 miles over nine months to film the documentary, "Lewis and Clark," (color, Tuesday, Feb. 23, 10-11 p.m. EST). The narration, by actor Lorne Greene, is drawn from the journals kept by the two Army captains, and the film recreates their encounters with Indians, their buffalo hunts, their discovery of such natural wonders as the great rapids of the upper Missouri. For the filming, producer Ted Yates floated a small fleet duplicating that used by Lewis and Clark—a 55-foot keelboat, two 40-foot pirogues and six canoes. He also used jeeps, helicopters, outboard motors and tractors. "Even so," says Yates, "the trip was so grueling for us I could only conclude that for Lewis and Clark it was impossible."

Re telephone call from SAC, Dallas, to Section Chief GEORGE SCATTERDAY, 1/22/65, authorizing interview of MARGUERITE OSWALD.

Transmitted herewith are ten copies of letterhead memorandum covering interview of Mrs. MARGUERITE OSWALD, 2220 Thomas Place, Fort Worth, Texas, on 1/22/65, by SAs JOSEPH M. MYERS and B. TOM CARTER.

MARGUERITE OSWALD, the mother of LEE HARVEY OSWALD, continues to telephonically contact the Fort Worth Resident Agency, each time indicating that she has important information which she refuses to divulge over the telephone, claiming that her telephone is tapped. In each instance, in accordance with existing Bureau instructions, it has been necessary to clear with the Bureau prior to permitting Agents to interview her. Although she has not come up with any information of value, it is believed that interviews with her must be conducted in order to avoid any embarrassment which she might bring about. It is recommended that the Bureau give consideration to granting the SAC at Dallas the authority to authorize interviews of Mrs. OSWALD and preclude the necessity for telephonically contacting the Bureau for such permission on each occasion.

RE: LEE HARVEY OSWALD

On January 22, 1965, Mrs. Marguerite Oswald, 2220 Thomas Place, Fort Worth, Texas, stated she was recently in Dallas. While there, a person who has furnished her reliable information in the past stated all the Jewish people in Dallas were rallying to the cause to free Jack Ruby. She declined to disclose her source.

Mrs. Oswald states that in August, 1963, she worked as a nurse in the home of a wealthy Jewish family, the Leon Brachmans, 4720 Autumn Drive, Fort Worth, attending their newly arrived grandson. Their daughter, Mrs. Melvin Rice, was the mother. Mrs. Brachman told Mrs. Oswald that she and her husband had lost most of their fortune on the stock market and blamed their losses on the Kennedy administration.

The grandson's circumcision party was attended by approximately 250 males of Jewish extraction. Mrs. Oswald stated she feels sure that she recognized one of them as being from Dallas, but refused to disclose this person's identity. She inferred, however, that this person was Jack Ruby. It is her theory that the Jewish people hired Jack Ruby to kill President Kennedy. Ruby then shot her son, Lee Harvey Oswald, and the Jewish people are now going to free Jack Ruby, their executioner.

Mrs. Oswald stated that she is planning some conferences in Washington and hopes to go there in the near future. She stated she has no definite plans at this time. She refused to discuss her Washington plans any further.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Reairtel 1/25/65 recommending that Bureau grant SAC, Dallas, authority to authorize future interviews of Mrs. Marguerite Oswald.

Authority granted for SAC, Dallas, to authorize future interviews with Mrs. Marguerite Oswald. You should impress upon Agents of your office who conduct such interviews the necessity of being most circumspect in any contacts they have with Mrs. Oswald in view of her questionable mental and emotional condition. Agents of your office should accept information Mrs. Oswald furnishes but should make no attempt to give Mrs. Oswald advice or direct any of her activities. The Bureau should be kept constantly apprised of your contacts with Mrs. Oswald.

NOTE:

Marguerite Oswald, mother of Lee Harvey Oswald, frequently telephones the Dallas Office and requests interview. We previously had instructed Dallas that Bureau authority was necessary for such interview inasmuch as Mrs. Oswald at that time, immediately following the assassination, was hostile to Bureau Agents during interviews. She now indicates she respects FBI investigative activit and desires to cooperate fully with us. She frequently contacts Dallas Office to furnish data she feels of value in proving the innocence of her son. Although we have strong indications Mrs. Oswald is emotionally or mentally ill, it is felt we should continue to accept information she furnishes to preclude any possibility she might charge us with being derelict in running out important information.

A letter written in the Russian language, dated 12/9/64, is addressed to Mrs. Marina Oswald and signed by Doctor Ludvik Janos. The envelope is addressed to Mrs. Marina Oswald, Dallas, Texas, with a penciled notation of "Richardson" on it, and postmarked December 10, 1964. Dear Madam:

I am writing to you in the Russian language for the simple reason that I like it. I am not a Russian nor an American, but I am a refugee Czech. I escaped from Czechoslovakia last year, in 1963, and now I am Professor of Mathematics at George Washington University in Washington, D. C. For a long time I have been interested in your life and your two children, but personally in you, dear madam. And I am thinking about one solution, which is not mathematical, but one of life. I congratulate you and your children and wish you good holidays and a successful New Year.

Yours,

/s/ Dr. Ludvik Janos

On February 3, 1965, Mr. Joseph J. Cella of the Criminal Division telephoned J. R. Malley and inquired as to whether the FBI had in its possession all exhibits of the Warren Commission as well as all property which had been obtained from Oswald's residence at the time he was arrested by the Dallas Police Department.

In response to several questions, Mr. Cella advised that he was trying to locate some specific items which Mrs. Marina Oswald had requested be returned to her by letter dated January 24, 1965, to the Attorney General. It was suggested to Mr. Cella that he make available two copies of Mrs. Oswald's letter in order that an appropriate check could be made to see what material was in the possession of the Bureau. A copy is attached.

Of the five items mentioned in the letter, the Bureau has in its possession, being maintained as exhibits, the first three items mentioned; namely, Marina Oswald's birth certificate; Soviet marriage certificate of Marina and Lee Harvey Oswald; and the Soviet birth certificate of June Lee Oswald born February 15, 1962. The last two items mentioned, which are immigration visas, are not being held by the Bureau.

Upon completion of this check, Mr. Cella was advised which items the Bureau had and which ones were not in the Bureau's possession. Mr. Cella was very grateful for the information furnished and advised that he did not know what action the Department intends to take in connection with Mrs. Oswald's request. He advised that he had made numerous recommendations concerning the various exhibits now being held by the Bureau as a result of Bureau letters indicating we would like to dispose of exhibits as soon as possible. Mr. Cella stated that few of his memoranda have been returned to him and he has not made any real headway in effecting a satisfactory solution to the disposal of these exhibits. He advised that if any action in this matter was desired on the part of the Bureau, an appropriate official communication would be sent.

LANE stated before the English Club in Nykøbing at a lecture sponsored by the English Club and this newspaper, that he was presently working on a book about the assassination. LANE made the following points:

1. OSWALD, when first interviewed after being arrested for TIPPIT's murder, knew nothing of the Presidential assassination and denied killing TIPPIT.

2. The Warren Report is foolish because it contradicts testimony of witnesses.

3. The FBI has not questioned all witnesses; in particular, those who did not agree with the supposition that OSWALD was the murderer.

4. As an example, a woman, who was so close to the point of assassination that she heard what Mrs. KENNEDY said to her wounded husband, was never interviewed by the Commission. This woman had been quoted by the "New York Times".

5. The assistant manager of the book depository, who stood below the windows of the depository during the assassination, claims that the assassin's shots came not from the building, but from Elm Street close to the railway. This man has not been interviewed.

6. The Commission and the FBI changed their opinion about where KENNEDY's car was when the shots were fired, and also ignored doctors' statements about the wound in KENNEDY's throat being that of an entrance wound and not, as the Report claims it to be, an exit wound.

7. It is amazing that the police had OSWALD's description 15 minutes after the shooting, though they reportedly received it from a witness who stood 100 feet away from the depository. This witness normally wears glasses, but that day did not wear them. The Report claims OSWALD was lying down or on his knees, but the witness claims that OSWALD was standing up.

8. The window from which OSWALD supposedly fired the shots was closed, and it remains a great miracle as to how OSWALD could have thus shot through it.

9. FBI Agents in reconstructing the scene of the shooting had to have the Agent playing the role of KENNEDY make a one-half turn in the car to get into proper alignment for the shooting.

10. Several witnesses claim that shooting came from in front of the car and at least four shots were fired. Governor CONNALLY claims, with hundreds of witnesses, that four shots were fired and that they came from the front.

11. Police, who found the alleged assassination rifle immediately after the shooting, claim it was a German Mauser 7.65 mm. The policeman who identified the rifle as such had worked for many years in a weapons shop. However, the FBI determined that the rifle was an Italian 6.5 mm weapon. "Strange that so quickly a rifle can change nationality", stated LANE, but it had to be changed to fit the doctors' analysis of KENNEDY's wounds.

12. A policeman heard the shots come from Elm Street and ran over and saw a person disappear. It is strange that the FBI did not try to find that man.

13. An amateur photographer, who stood directly in front of the Presidential limousine, said he was caught in the line of fire and had to duck to avoid being hit. This photographer

also heard four shots. FBI interviews, however, convinced him that he had heard incorrectly. Later, however, when he attempted to change his testimony, the Commission would not listen to him.

14. The Danish MARK LANE Committee has plans for reconstructing the shooting with the original rifle to see if one man can hit a target so precisely within such a few seconds. None of the United States' best marksmen have been able to do this.

15. JACK RUBY may know the answer to the riddle of KENNEDY's murder, but to date the FBI has declined to let him testify even though he has volunteered to go to Washington, D. C., for that purpose. If RUBY dies, an important key may be lost to this mystery.

SUBJECT: ASSASSINATION OF PRESIDENT JOHN FITZGERALD KENNEDY 11/22/63, DALLAS, TEXAS MISCELLANEOUS - INFORMATION CONCERNING Lee Harvey Oswald

PURPOSE:

To furnish the Department our response to Assistant Attorney General Herbert J. Miller, Jr.'s request for Bureau recommendation concerning disposition of physical items received during the assassination investigation.

BACKGROUND:

AAG Herbert J. Miller, Jr. by letter dated 2/10/65 advised consideration is being given to the disposition of physical items in possession of the Government which were considered by the President's Commission in connection with the assassination investigation. He furnished a list of 53 items forwarded to him by Mr. J. Lee Rankin.

AAG Miller desired comments as to the the appropriateness and advisability of retaining these items. He desired our judgment whether items in our possession should be retained for possible use in subsequent investigations. He desired to know if various documents and letters are of substantial interest as related to future investigations which could be served only by retention of the original item rather than by a copy.

The comments of interested divisions who participated in the investigation were requested; namely, Domestic Intelligence, Laboratory and General Investigative Divisions.

The Domestic Intelligence Division's position was the U. S. Government should retain the originals of all physical evidence relating to the assassination as recommended to the Department by the President's Commission. Other property belonging to Marina, and/or Lee Harvey Oswald not relating to the assassination, the originals need not be retained by the Government. As to letters and documents, copies will suffice in connection with any possible future investigation regarding the particular item.

Memorandum to Mr. Belmont

RE: ASSASSINATION OF PRESIDENT JOHN FITZGERALD KENNEDY

In connection with Marina and Lee Harvey Oswald's property, the Bureau has in possession a letter from Rankin dated November 18, 1964, which indicated that as soon as the Commission received an opinion from the Attorney General he would be advised as to what items would be returned to the owners including Robert Oswald.

The Laboratory's position is, that it knows of no presently pending or contemplated Laboratory action which would definitely require the retention of these items. However, it does not seem inappropriate, in view of the importance of the matter and the tremendous amount of work previously performed, for the Government to retain permanently as a part of the permanent record those original items of evidence which played an important part in the investigation and conclusions in the case, for the purpose of meeting presently unforeseeable questions or problems which may arise subsequently. If this is done, the Laboratory suggests that Commission Exhibit 567, which is the test cartridge cases from Oswald's rifle be added to the list of items to be retained.

In regard to the question raised as to the need for retention of the original rather than a copy of the various letters and documents in the possession of the Bureau, the Laboratory knows of no foreseeable Laboratory examination which will require retention of the original documents and letters since copies on hand are believed adequate for any future Laboratory examination. However, there may be considerations other than Laboratory examinations which could well warrant retention of these original letters and documents.

Regarding the assassination investigation and subsequent investigation concerning the killing of Oswald by Jack L. Ruby conducted under the guidance of the General Investigative Division all results of these investigations were furnished to the President's Commission. These findings were published and stand on their own.

We developed no conspiracy and there never will be prosecution of the Oswald's death. Therefore, the retention of original evidence by the Bureau serves no useful purpose. It is noted the Bureau has retained either photographs or copies of all pertinent evidence for the completion of our files. However, we continue to conduct investigation of allegations regarding the assassination and results are furnished to the Department and to Secret Service when it is of pertinent interest to the latter agency.

As to the killing of Oswald this is purely a murder case under the jurisdiction of the State of Texas which has custody of related evidence. All of our inquiries in connection with Ruby have all been furnished to the Commission and the Department.

It is noted we are holding material which related to the Tippit killing and Oswald. Likewise, there is no reason for the Bureau to retain these exhibits.

...orandum to Mr. Belmont

...ASSASSINATION OF PRESIDENT JOHN FITZGERALD KENNEDY

...the General Investigative Division is of the opinion the Bureau ... could not interject or be pressed into the position of either objecting to ... recommending the retention of evidence in this matter as we conducted the ... investigation at the specific request of President Johnson and were acting ... in the capacity of a fact-finding agency.

The Commission is aware the Bureau is acting only as a temporary depository until a determination is reached as to the ultimate disposal. We also advised the Commission the Bureau would furnish the exhibits for permanent retention if they desired, to whomever would be designated by the Commission.

If the Department determines the various exhibits and evidence ... are to be retained by the Government, this is the decision that they must render and the Bureau should not be placed in a position to be criticized as to what is or is not to be retained. Further, it would appear necessary that appropriate agencies and individuals who furnished various evidence other than the FBI, be contacted by the Department regarding disposition.

The Department should be advised of the Bureau's desire to ... relinquish exhibits now in our possession and that such exhibits should be turned over to whomever is designated as expeditiously as possible in view of the fact the President's Commission's findings are now a matter of public ...

RECOMMENDATION:

If approved, the attached letter to A.G. Herbert J. Miller, Jr. be ... forwarded setting out views as outlined by the General Investigative Division.

ASSASSINATION OF PRESIDENT
JOHN F. KENNEDY
NOVEMBER 22, 1963, DALLAS, TEXAS
INFORMATION CONCERNING

Lee Harvey Oswald

Reference is made to your letter dated February 10, 1965, captioned "Retention of Physical Items pertaining to the Investigation."

As you are aware, while the assassination of our late President did not constitute a violation of Federal statutes, this Bureau immediately instituted investigation at the specific request of President Johnson.

During our investigation we received numerous exhibits from other agencies and individuals which were of vital importance to the over-all investigation. These exhibits and results of the investigation are now a matter of public record as published by the President's Commission which came on their own. This Bureau still conducts investigation of allegations received regarding the assassination and reports are furnished to your agency and to Secret Service when the information received appears to be of importance to that agency.

Due to the fact we conducted the investigation at the specific request of President Johnson and for the President's Commission and acted in the capacity of a fact-finding agency, I do not believe it would be within the prerogative of this Bureau to either object to or make recommendations as to the retention of exhibits referred to by Mr. J. Lee Rankin. In this respect I also firmly believe that this agency should not be the custodian of these exhibits as they relate to the published findings of the President's Commission which have been furnished to the National Archives. However, prior to the time a decision is reached by the Department on this matter, you may desire to consider Commission Exhibit 567 which is the spent cartridge case from Oswald's rifle which exhibit number was not mentioned by Mr. Rankin.

NOTE: See memorandum Rosen to Sullivan dated 2/24/65 captioned as above, prepared by rab.

67 MAR 16 1965

Mr. Norbert J. Miller, Jr.

In addition to the list referred to by Mr. Rankin, the Bureau has been a temporary repository for voluminous exhibits which we have no desire to retain. It is very important this material be turned over to the Government agency designated or to other interested individuals. We have previously been in contact with the President's Commission concerning this matter.

A letter in our possession from Mr. J. Lee Rankin dated November 26, 1964, indicated a request had been made of the Attorney General for his opinion concerning the right of the Government to retain items of physical evidence. He indicated as soon as the opinion of the Attorney General was rendered, that Bureau would be notified of the items to be returned to individual owners including Mr. Robert Oswald, brother of Lee Harvey Oswald.

In reference to various letters and documents in possession of this Bureau we have retained appropriate photographs of evidence and copies of documents for completion of our files. The photographs and copies of documents will suffice for future reference.

As a matter of interest, the Department may desire to consider contacts with individuals and agencies who originally obtained and submitted the various exhibits to the FBI regarding disposition if such action would appear necessary.

MARINA OSWALD, wife of the late LEE HARVEY OSWALD, turned over to the Dallas office of the Federal Bureau of Investigation during October and November, 1964, certain correspondence which she received subsequent to the assassination of former President JOHN F. KENNEDY. Among correspondence turned over to the FBI was a letter postmarked August 7, 1964, at Youngstown, Ohio, bearing the return address [redacted] Youngstown, Ohio". (Copy attached)

A review of the above document reveals that it is a lengthy and poorly written letter which is highly derogatory and critical of the United States Government as well as economic conditions in the United States. The writer states that he would rather die than keep on living and wishes the U.S.S.R. would take over the United States as he might be better off.

A Confidential Source, who has furnished reliable information in the past, on January 19, 1965, informed the Detroit office of the FBI that a [redacted] Youngstown, Ohio, by letter postmarked December 21, 1964, advised the Cadillac Motor Division, General Motors Corporation, Detroit, Michigan, that he was highly dissatisfied with the 1956 Cadillac automobile, and he hopes that if Russia or Red China ever invade the United States that they blow General Motors to kingdom come. He further advised, "The trouble is we live in a no good country and rotten government run by a bunch of unscrupulous fiends worse than the German Gestapo". He concludes that he might be better off if Russia or Red China take over the United States and, "As far as I am concerned, you can all drop dead any time".

On 3/3/65, JACK KRAMER, 1904 Loring Place, Bronx, NY, an architectural designer and builder, advised that on 2/5/65 while travelling from Los Angeles to Mexico City on a Greyhound bus he met an individual by the name of HOMOBONO ALCARAZ with whom he became friendly. KRAMER advised that after they arrived at Mexico City, KRAMER resided at the Hotel Guadalupe and associated with ALCARAZ for several weeks.

KRAMER advised that on or about 2/14/65, ALCARAZ told him that he, ALCARAZ, had had coffee with LEE HARVEY OSWALD two or three days before the assassination of President JOHN F. KENNEDY.

KRAMER advised that he, KRAMER, did not pursue the subject any further. KRAMER advised that he did not know where this took place or the circumstances. KRAMER advised that ALCARAZ, during their meetings, told him that he, ALCARAZ, was interviewed at one time by the FBI, but did not say what it concerned.

KRAMER stated that ALCARAZ is a student at the University of Mexico and is well known at the Quaker Center, Mexico City. KRAMER also said that ALCARAZ comes from Sonora, Mexico, and that the family of ALCARAZ is wealthy and involved in the Mexican Government.

KRAMER stated that ALCARAZ is frightened about something because, as KRAMER explained, ALCARAZ is very nervous, is a chain-smoker and is worried about something. KRAMER could never obtain from him.

KRAMER said that the reason that ALCARAZ gave him for going to Los Angeles was to see his girl friend "BARRY".

Reurlet 3/4/65 requesting Bureau arrange for the Legat, Mexico, to interview Homobono Alcaraz concerning a contact Alcaraz allegedly had with Lee Harvey Oswald two or three days before the assassination of President Kennedy.

A review of Bufiles discloses that Homobono Alcaraz apparently is identical with Homobono Alcaraz Aragon. The Bureau, during the course of the Lee Harvey Oswald investigation, received reports from various sources that Aragon had been in contact with Oswald prior to the assassination. Homobono Alcaraz Aragon was interviewed in connection with the Oswald investigation and he stated that any reports received that he had met Oswald were completely without foundation. Other sources reported at that time Homobono Alcaraz Aragon was unreliable, engaged in "loose talk" and was "a weak character of questionable morals."

In view of the above, no further action is contemplated by the Bureau concerning this individual.

At the present time the Mexico City Office has no outstanding investigative leads in instant case and it is not believed that the above-mentioned reports would be needed in connection with any future investigation which might arise here.

The reports are quite voluminous and occupy an entire file drawer. In view of the space needs of this office, Bureau

permission is requested to either return the reports to the Bureau or to destroy them here.

Two extra copies of this letter are attached for forwarding to Dallas, office of origin.

NOTE:

During the course of the investigation of the assassination and of Lee Harvey Oswald, we furnished Legat, Mexico, copies of a number of reports prepared by Dallas and other offices which set forth considerable background data regarding Oswald and the investigation conducted regarding the assassination. We took this action to assist Legat, Mexico, in conducting its extensive inquiries in Mexico. There are no leads outstanding in the Oswald or assassination files in Mexico, and Legat desires to return these reports to Bureau or destroy them to save filing space in his office. We have sufficient copies of these reports in Bufiles and rather than go to the considerable expense and effort in sending these data back to the Bureau, desirable Legat, Mexico, be authorized to destroy the reports in question.

The files of the Dallas Office reflect that apparently HOMOBONO ALCARAZ has already been interviewed by Legat, Mexico City, as reflected on page 179 of the summary LHM dated 5/18/64 furnished the Bureau by Legat, Mexico, letter dated 5/18/64.

In the event the Bureau has requested Legat, Mexico, to conduct such interview, it is suggested Legat, Mexico, be notified to discontinue.

For the information of the Bureau, Mrs. MARGUERITE OSWALD was interviewed at her request at the Hollywood Plaza Hotel, 1637 North Vine Street, Room 909, Hollywood, California, on 3/10/65, by SAs WILLIE R. WHITE and PHILLIP B. DEILY. Mrs. OSWALD furnished the following information:

Her permanent residence address is Post Office Box 9578, Fort Worth, Texas. She has been in the Los Angeles area since 2/27/65, and plans to return to Fort Worth, Texas, on 3/11/65. She has been investigating the alleged responsibility of her son, LEE HARVEY OSWALD, for the assassination of President JOHN F. KENNEDY, and believes that he was framed. She feels that the Federal government also shares this view and may be secretly continuing the investigation of the matter; that possibly her son, LEE, and his wife were secret United States government agents; or that the entire matter was planned by certain people in government to place President JOHNSON in the Office of the Presidency. She considers MICHAEL PAINE her chief suspect as the true assassinator of President KENNEDY.

Special Agent in Charge

MICHAEL PAINE has a "second" car, an Oldsmobile, which was parked outside of his residence at 2512 West Fifth Street, in Irving, Texas, during 1963, bearing 1963 Texas plates, and apparently not used. In late November, 1964, she called the FBI in Fort Worth, and reported the matter to a Mr. CARTER, since she felt it strange that the car was not being used, and still bore 1963 Texas plates. Several weeks later, after she had contacted the FBI, she observed the car to have 1964 Texas plates, NY 9880. She considers this to be very peculiar.

She furnished to the Warren Commission during the course of her testifying, a photograph of the assassination scene which she had obtained from an issue of the "Saturday Evening Post" about five days after the assassination. A copy of this photograph appears with her testimony in Volume 16 of the Warren Commission report. A copy of this photograph also appears in the publication, "Four Dark Days in History", pages 4 and 5. The extreme left side of this photograph (as one faces the photograph) bears the picture of an individual whom she believes to be JACK RUBY. In subsequent photographs appearing in papers and magazines, the segment of the photograph bearing RUBY's picture has been deleted. In the above-mentioned photograph bearing RUBY's picture, there is a hand in the vicinity of RUBY's head, and she believes that one of the shots taken at President KENNEDY came from a gun, held in this hand, the identity of this person not known to her. She feels that for some reason, the photograph which she originally furnished the Commission had been altered, and she feels this should be investigated to determine the reason for so doing. She feels similarly that the photograph appearing on page 19 of "Time" magazine, dated 2/14/64, depicting her son's arrest, has been altered and possibly faked, since in various "Time" publications of a similar date, the face on the right side is partially, and in some instances, completely blacked out. She feels that some ulterior motive prompted the faking or altering of these photographs.

Another thing she feels to be very peculiar is the fact that the Warren Commission gave the wife of her son, LEE, "red carpet treatment" during the entire investigation, and the Commission gave her a rough time, in that the members appeared to have a hostile attitude toward her during the course of questioning her. She also feels that for some reason that bears investigation, the photograph of her son,

LEE, appearing on the cover of the 2/21/64 issue of "Life", was altered. She was at the PAINE residence on the night of the assassination, and recalled that at about 2:00 A.M. on the morning of the following day, PAINE went into a room which she thought at the time was a bedroom, but has since found out the door to the room in question leads to the garage. She feels possibly that his purpose for going into the garage at this time was to plant for some reason certain photographs of her son, LEE, which the Dallas Police found when they searched the premises the following Saturday.

Another very suspicious circumstance was the fact that Secret Service Agent MIKE HOWARD advised two reporters in Dallas that at the time of the assassination he was at the Hotel Texas in Fort Worth, when in fact the assassination photograph showed him to be riding in the car directly behind President KENNEDY's car. Because of this, she questions his integrity, and believes it entirely possible that the Secret Service was involved in some type of conspiracy to get President JOHNSON into the Presidency. She also feels that since the Secret Service took herself, her son ROBERT, and LEE's wife into protective custody during the period 11/24/63, to 11/28/63, the Secret Service may have known that her son, LEE, and his wife were secret government agents, and for this reason, wanted to protect LEE's wife.

She feels that because of the above, the matter warrants additional investigation, and she plans to continue her efforts to prove her son was framed and did not kill President KENNEDY.

Copies of FD-302 reflecting the above information are being prepared and will be furnished to the Dallas Office.

Mrs. OSWALD stated that she preferred not to be identified as the source of this information; however, she felt the information furnished by her was new information and she would like to have an opportunity to present it in person to investigating authorities in Washington.

Since Los Angeles is not aware of the nature of information previously furnished by Mrs. OSWALD, no LHM is being submitted unless advised to the contrary by the Bureau.

ANALYSIS

It is apparent from the enclosed LHM that the authenticity of the original information is questionable. It appears that [redacted] is intended by the reference to [redacted] for whom there is no State record, or a confusion between [redacted] and [redacted] The information also indicates that [redacted] had acquired certain confidential information and that it was indicated that this information concerned LEE HARVEY OSWALD and the assassination. It would seem likely that during the course of the LEE HARVEY OSWALD and assassination investigation, almost unparalleled in Bureau history, that any information [redacted] had possessed

or any involvement in her relationship to such information would have come to the attention of the Bureau. Her position would not ostensibly suggest any connection with same. U

RECOMMENDATION

Since the allegation has been made that [redacted] (possibly [redacted]) was suspected of being an agent of Soviet Intelligence and since [redacted], in his present state, represents a disgruntled, seemingly unstable individual, the Bureau is requested to attempt to determine the identity of the informant to ascertain the exact nature of his information. LFO contemplates no further investigation in this matter pending results of this request. U

The Bureau is also requested to check its indices on [redacted] LFO indices are negative re same.

For the information of WFO, the original source of the data contained in Bulet of 11-25-64 captioned [redacted] was contacted on March 18, 1965. NOTE: Information was furnished to the Bureau by Jay Sourwine of the Senate Judiciary Committee which indicated that [redacted] a State Department employee who was found shot to death in her apartment, had been involved with one [redacted] who was suspected of being a Soviet Intelligence agent. According to Sourwine's memorandum, [redacted] had acquired confidential information which allegedly concerned Lee Harvey Oswald and the assassination of the late President Kennedy.

Investigation by the Washington Field Office has disclosed that the individual involved was not [redacted] but that he was actually [redacted], who was formally assigned by the Department of State to Zanzibar. He was recalled in the early part of 1964 and since that time has been assigned to duties at State Department Headquarters.

Confidential files of the State Department concerning [redacted] and [redacted] were reviewed by the Washington Field Office and no basis was found for the allegation that appears in Sourwine's report. Sourwine advised on 3-18-65 that he could not produce the original informant in the matter and that he intended to forget it. It was pointed out to Sourwine by Mr. DeLoach's office that extensive inquiries had failed to develop a basis for the allegation and that the Bureau was conducting no further investigation. Allegations concerning subject and results of WFO inquiries have been furnished to Department of State.

Husband's Estate Sought by Marina

Marina Oswald has filed an application in Dallas County Probate Court to become administrator of the estate of Lee Harvey Oswald, accused assassin of President Kennedy.

The community administration application was filed quietly last week in Judge F. W. Bartlett Jr.'s court.

County Judge Lew Sterrett appointed three appraisers to inventory the property owned by Oswald, who was shot by Jack Ruby in the basement of the City Hall Nov. 24, 1963.

The appraisers are Robert M. Martin Jr. and Chuck Carlisle Blalock, both local attorneys, and Harry H. McKay, administrative assistant to Judge Bartlett.

If Mrs. Oswald is named administrator, she will handle the property of her husband.

The application points out that Oswald left no will and that his interest in the community property consequently passes to their two children, 3-year-old June Lee and 1-year-old Audrey Marina Rachel.

The application states that Mrs. Oswald has filed in a federal district court a declaration of her intention to become a United States citizen.

Mrs. Oswald's attorney, William Blalock, has 60 days to file an inventory of Oswald's property.

At that time the three appraisers will study the list and report to Judge Sterrett. Judge Sterrett then will decide whether to appoint Mrs. Oswald administrator.

If named, she will have to post a bond to be determined by the judge.

A community administrator differs from administrators, as normally named, said Judge Bartlett, in that the community administrator is entitled to settle the estate without further proceedings in court.

According to the statutes, Mrs. Oswald would be able to "control, manage and dispose of community property" in accordance with the law.

Assets gained by Mrs. Oswald since her husband's death will not be affected by this proceeding.

Oswald Guns Now Valued At $10,000

The rifle used to assassinate President Kennedy and the pistol with which police officer J. D. Tippit was slain have been valued officially at $10,000.

The weapons, owned by accused assassin Lee Harvey Oswald, were valued Thursday by three appraisers appointed by county probate court.

At the same time Mrs. Marina Oswald was named by Probate Judge F. W. Bartlett Jr. as community administrator for the property. She was bonded in the amount of $5,000, half the property's value, as required by law.

Mrs. Oswald earlier this week asked to be named administrator of Oswald's estate. At that time Judge Bartlett appointed the appraisers to inventory the estate. The filing of the inventory Thursday was the next step in the proceedings.

Also listed in the inventory was a four-power telescopic sight, a two-piece sling, and a cartridge clip presumably the one from which three rounds were fired at President Kennedy and Gov. John Connally on Nov. 22, 1963.

All these items were included in the $10,000 appraisal.

No real property was listed in the inventory.

The document stated that no claims or debts were outstanding against Oswald's estate.

Harry McKay, administrative assistant to Judge Bartlett and one of three appraisers, said Mrs.

Continued From Page 1

Oswald's attorney indicated that a $10,000 bid for the two weapons had been made by a gun collector.

The attorney, William Bialock, said he was not at liberty to discuss the possible sale of the weapons.

The rifle originally was purchased by Oswald for $12.95 from a mail-order house in Chicago.

Mr. Bialock said that both weapons now are in the possession of the Department of Justice.

He said he is not sure what steps might be required to regain possession.

"I don't think the government has any right to keep them since the Warren Commission has finished its job. They belong to Mrs. Oswald and her children," he said.

He said Mrs. Oswald is anxious to have the money from the sale of the items to provide for the future security of her children.

The prominent omission in the inventory was the well publicized diary kept by Oswald when he was in the Soviet Union.

"I don't think it has any value now," Mr. Bialock said. He said, however, Mrs. Oswald is trying to regain the document from federal authorities.

County Clerk Tom Ellis said that no state inheritance tax will be collected on the property, because a $25,000 exemption is allowed by law.

The rifle was described as a 6.5 mm caliber Mannlicher-Carcano Italian military rifle. The pistol was described as .38 caliber Smith & Wesson Victory model.

Appraisers were Mr. McKay, Robert M. Martin Jr. and Carlisle Bialock.

A letter has been received from the above-captioned individual who states he mailed notes to the FBI concerning Lee Harvey Oswald in August, 1963. This letter has not been acknowledged. Each office is being furnished a copy of this communication.

Your attention is directed to report made by Special Agent George W. Hymers, Memphis Office, dated 2-27-64 captioned Lee Harvey Oswald, aka. For the information of the Chicago Office, Roberson left a notebook at the McNairy County Independent Newspaper in Selmer, Tennessee, on 2-17-64 in which he claims to have picked Oswald up in April, 1963, and to have driven him to General Walkers' home. When interviewed, Roberson gave several variations of his story and at one time stated his comments, contained in this notebook, were written on February 14, 1964. He alleged he reported information to the FBI in Chicago but retracted this statement stating he had furnished the information to the Chicago Herald American. Roberson's brother reported Roberson had suffered a breakdown while in the service and at one time was a mental patient. He further reported Roberson exaggerates and imagines things. The sheriff at Selmer, Tennessee, reported Roberson was mentally deficient.

Each office should advise the Bureau immediately if it is in receipt of any communications from Roberson, together with a brief summary of any additional information appearing in its files regarding him. Replies should be submitted under above caption and should reach the Bureau no later than 4-12-65.

Baltimore teletype reported that one [redacted] FBI Number [redacted] was in custody of local authorities in Maryland and was to be returned to Catsville, Pennsylvania, 3/30/65 as he was an escapee from local authorities there. [redacted] related a lengthy tale concerning an alleged plot to assassinate King in which he claimed he was involved. He indicated that he has had service in the Army and Marine Corps and had a "mental" discharge from the latter. He claimed that he has suffered hallucinations and amnesia and cannot separate fact from fantasy. He claimed that he had obtained a machine gun in connection with the alleged plot and that his story concerning possession of the gun could be verified because on approximately 2/4/64 he was stopped by a local law enforcement officer near Sanford, North Carolina, and pointed the gun at this officer. He also related an allegation that he met with Jack Ruby and Lee Harvey Oswald in Fort Worth, Texas, 1962. The Baltimore teletype closed with an instruction for Atlanta to advise local authorities; for

Mrs. DOUGHARTY advised she has never met ROBERSON; however, he is the estranged husband of a former friend of hers, RUTH WILDE ROBERSON, who now resides at Corpus Christi, Texas. She advised ROBERSON has for the past year

called her by telephone from Tennessee on various occasions. He has been requested to discontinue these calls but has persisted even though Mrs. DOUGHARTY usually hangs up on him. ROBERSON indicates he "just wants to be nice" to Mrs. DOUGHARTY as she seems to be a nice person and further that ROBERSON claims he served in the U.S. Marine Corps with Mrs. DOUGHARTY's deceased husband, GENE D. Mrs. DOUGHARTY stated she fears for her safety and is further concerned over the safety of her three children, DARLENE, age 16; BOB, age 13; and KENNETH, age 10, due to subject's apparent interest in her and the fact he states he "followed" her for six months.

"I think the night I was out with Mrs. Orbery Hesbertrn I might have killed one of the men that attempted to rape her. They tore all of her clothes off of her."

ROBERSON was then questioned as to the writing on the reverse side of the letter, the comments which said in part, "Mr. J. E. Hoover at Washington, D. C., has made me a United States Deputy Marshell. So I don't think I would have any_thing to worry about if I was back in Texas."

ROBERSON first claimed that he wrote the letter but that he did not impersonate anyone. He then was requested to show some evidence that he was a Deputy United States Marshal appointed by Mr. J. E. Hoover. He then stated that a Mr. HOOVER, possibly the former President, Mr. HERBERT HOOVER, while in Dallas, Texas, had given him some sort of a written note and he thought he was a Deputy Marshal. ROBERSON then stated that he had written this comment on the letter just for fun and that he knew he was not a

Deputy United States Marshal of any type. He pointed out that he did not desire to harm anyone and the letter in question contained no threats.

ROBERSON was then questioned about his being out with the movie actress, AUDREY HEPBURN. ROBERSON then stated that he did not remember whether he was out with this person or not. ROBERSON said he had intended by his comments to impress the person to whom he had sent the letter. He claimed this person had given him the understanding that she would like to keep company with him, and for that reason, he had called her and had written her. He said he did not desire to harm her in any way and in fact, if she was not interested in his attention, he would no longer try to communicate with her.

ROBERSON was appropriately admonished for his allegation that he was a Deputy United States Marshal, and he was cautioned to desist in the future from such a representation of such a false impersonation. He said that he would do this.

SUBJECT: PRESIDENT'S COMMISSION
ASSASSINATION OF THE PRESIDENT

Mr. J. Lee Rankin, General Counsel of the President's Commission, telephoned today from his office in New York and advised he had received a communication from Waggoner Carr, Attorney General of the State of Texas. He stated Mr. Carr referred to the fact that he had seen some publicity indicating the guns belonging to Oswald had been returned to Mrs. Oswald. Carr expressed surprise at this action and desired to be advised by Mr. Rankin details concerning this matter. Mr. Rankin inquired as to whether Malley was in a position to furnish him any enlightenment on this matter and what action he might take with regard to this letter from Carr.

Mr. Rankin was advised that no information was available concerning this matter. It was suggested to Mr. Rankin that he might desire to acknowledge receipt of Mr. Carr's letter and refer Carr's letter to the Department of Justice, with whom the President's Commission had correspondence relative to the retention of exhibits. Mr. Rankin indicated he would handle Carr's inquiry in this manner. Mr. Rankin expressed his thanks to the Bureau for its assistance in this regard.

It is noted that the Bureau went on record with the President's Commission before they discontinued their activities and thereafter sent a letter to the Department advising that we desired to make appropriate disposition of the various exhibits which were in our possession. The President's Commission, in a letter to the Department, a copy of which was made available to the Bureau, set forth what exhibits they felt needed to be permanently retained and left the disposition of other exhibits up to the Department.

UNREC.

The Department has telephoned on a number of occasions concerning the significance of various exhibits and has commented they were trying to reach a solution on what to do with various exhibits. Up to this time no correspondence has been received from the Department authorizing the Bureau to dispose of any of the exhibits we are holding. The Bureau still has the guns of Oswald in its possession as exhibits.

ACTION: none - submitted for information.

ALVARO ESTANISLAO PROENZA PROENZA

ALVARO ESTANISLAO PROENZA PROENZA, 4000 North Seventh Street, Philadelphia, Pa., was interviewed on April 13, 1965. He advised he is a Cuban citizen, and that he entered the United States at New York City on March 24, 1964, as an O-1 immigrant.

PROENZA advised he had previously traveled to the United States from Cuba on many occasions, both for purposes of study while a young man and also for employment. He reported his last departure from Cuba was on January 28, 1964, at which time he first went to Mexico City. After a short visit in Mexico City with his sisters, he entered the United States, as indicated above.

During the interview, PROENZA furnished the following information concerning his personal history, the identities of members of his family, and data concerning his associations, both inside and outside Cuba:

A. PERSONAL HISTORY

PROENZA was born at Banes, Oriente Province, Cuba, on November 13, 1894, to RAFAEL PROENZA (deceased) and JUANA PROENZA (deceased). In 1914, he traveled to the United States, where he attended Spencers Business School, Kingston, N. Y., until 1917. From 1917 to 1918, he was employed by the Standard Underground Cable Company, Pittsburgh, Pa., in the Export Department. He said that even though he was a young man at the time, he was considered the company's specialist in its Export Department in that he had been responsible for the successful

negotiation of valuable cable contracts in South America.

PROENZA said that in 1918, he returned to Cuba, where he remained until 1920, at which time he returned to the United States for employment with William M. Motley and Company, 35 South William Street, New York City. He said that he was again employed in the Export Department of the foregoing company.

PROENZA advised that during the years following 1920, and particularly following the accession to the Presidency of Cuba of former Cuban President MACHADO, he was repeatedly encouraged by MACHADO to return to Cuba for the purpose of managing some of MACHADO's private business matters. He said that in 1929, then President MACHADO again asked him to return to Cuba, and PROENZA said that he could not refuse. PROENZA said that by 1930, some of his brothers and sisters, who were then students at the University of Havana, Havana, Cuba, had become involved in revolutionary activities directed against the regime of President MACHADO. He said that because of the activities of his relatives, he felt compelled to leave his employment with MACHADO. In or about 1935, he started a transportation business, called "Expreso America." He said that the foregoing enterprise lost approximately $75,000 and failed by 1940. He said that in approximately 1939, he also started publishing a monthly agricultural magazine, titled "Crias y Cosechas," in which he utilized many publications furnished by the United States Department of Agriculture.

PROENZA advised that he continued publishing the foregoing agricultural magazine during the period 1939 until approximately 1950, when he took a position with the Banco Nacional de Cuba in Havana.

PROENZA advised that the operations of the Banco Nacional are analogous to the role played by the Federal Reserve System Banks in the United States. He said that by 1961, he had risen to the position of Chief Accountant in charge of the operations of the Banco de Desarrollo Economico y Social (BANDES), which, he said, was a bank designed to promote the economic and social development of Cuba.

ALVARO ESTANISLAO PROENZA PROENZA:

In 1961, PROENZA was allegedly reassigned to the Ministry of Industries, which then and now is under the supervision of ERNESTO "CHE" GUEVARA. PROENZA said he was sent to the University of Havana in 1961 to study concepts of socialist economics and also for "brain washing." PROENZA said that, as a result of the taking over of power in Cuba, the former Banco Nacional de Cuba had been merged into the Ministry of Industries, and, therefore, fell under the supervision of GUEVARA. PROENZA said that during the period 1961 to 1962, he continued working for the Banco Nacional as Supervisor of Investments.

He said that because of his high executive position, he was a member of the Board of Directors of Banco Nacional; and that he regularly attended meetings of the Board, chaired by GUEVARA. PROENZA stated that, in his opinion, both during the period 1961 - 1962 and up to the present time, over seventy-five per cent of the members of the bank's Board of Directors have continued to be anti-Communist and anti-CASTRO, even though they do not openly express their opinions. He said that the Cuban Communist Government has been forced to continue many influential and well-trained Cubans in positions of importance in the Cuban Government, even though they are known to be anti-Communist. He said that this condition exists because the leaders and rank and file members of the Cuban Communist Party are both untrained and incompetent for the purposes of running a successful government.

PROENZA continued by saying that by official government directives, many Soviet Bloc and Chinese Communist technicians have been brought to Cuba with their families at Cuba's expense for the purpose of training, supervising, and actual participation in the operations of the Cuban Government and its various industries at every level. He noted these technicians are afforded the very best housing available, often to the detriment of the Cuban people. He further said the technicians fraternize with Cubans only at the particular level at which they are employed, but that they are otherwise isolated from the Cuban people.

ALVARO ESTANISLAO PROENZA PROENZA:

He said that, as an executive in the Banco Nacional, he directly supervised approximately seventy-five employees; and that he had been ordered to give these employees periodic lectures on the benefits of Communism. Inasmuch as he claimed to be a stout anti-Communist, conditions became intolerable for him in the bank; and he refused to give these lectures and resigned in 1962.

PROENZA advised that, because of his prominent executive position and social standing in Cuba, he had come to know many of the current political leaders of Cuba, such as FIDEL CASTRO, RAUL CASTRO, ERNESTO "CHE" GUEVARA, and Dr. VALDES VIVO, an influential, old-line Communist, who is currently Director of the Havana daily newspaper, "Hoy," and who also is married to PROENZA's grandniece. He also advised he has been acquainted with prominent, old-line, Cuban Communists, such as BLAS ROCA and JUAN MARINELLO, a leader of the Cuban Communist Party. He advised that FIDEL CASTRO, out of distrust of many of his associates and concern for his personal security as the leader of Cuba, has shunted aside many of the old-line members of the Cuban Communist Party.

He continued by saying that at the time FIDEL CASTRO was waging his mountain campaign against former Cuban Dictator BATISTA, he, PROENZA, had been an active member of CASTRO's July 26th Movement. He said he was eminently successful in raising funds for the revolution, and alleged he could rather easily approach wealthy Cubans and solicit as much as $10,000 in donations for CASTRO. He said CASTRO deceived most of the Cubans who supported him by turning his supposedly democratic revolution into a dictatorship.

A characterization of the July 26th Movement is attached hereto.

Regarding conditions in Cuba today, PROENZA said that the Communists have imposed rigid thought control on the people. He said the present leaders of Cuba, for the most part, are totally incompetent to do the work required of them. They interpret their work from rigid socialist ideological orientations, and are, therefore, unable to comprehend the true nature of their problems.

ALVARO ESTANISLAO PROENZA PROENZA:

PROENZA said he is adamantly opposed to Communism, FIDEL CASTRO's Cuban Regime; and opined the United States has done everything possible to aid the Cuban exiles, with the exception of getting rid of CASTRO. He claimed to no longer be a member of the July 26th Movement, and said he is not active in Cuban exile organizations in the United States.

Regarding personal knowledge of the identities of persons possibly engaged for the Cuban Government in intelligence operations outside of Cuba, he said he could not furnish positive information. He did add, however, that RAUL ROA KOURI, JR., the son of RAUL ROA, whom PROENZA identified as the former Cuban Minister of Foreign Relations under CASTRO, has recently been appointed Cuban Ambassador to Brazil; and that allegedly, when he went to Brazil, he carried a list of the names of two-hundred Cubans believed to be pro-CASTRO agitators in Brazil.

ESTER COURTELLIER de PROENZA,
[redacted]

Regarding his daughter, MARTA PROENZA de GOMEZ, Mr. PROENZA advised that by 1961 his daughter, who hates Communism, had become involved in plots against FIDEL CASTRO; and that he had been forced, therefore, to send her from Cuba to Mexico and thence to the United States.

PROENZA further advised that in or about December 1962 or January 1963, he brought his wife; his daughter, VIRGINIA PROENZA de GONZALEZ; and her husband, LUIS GONZALEZ, from Cuba to Mexico in order to get them out of Cuba. From Mexico, they subsequently traveled to the United States, where they presently reside.

PROENZA said that, with the exception of his two sisters, TERESA PROENZA PROENZA and JUANA LUISA PROENZA PROENZA, he regards each member of his family as a stout anti-Communist.

B. TERESA PROENZA PROENZA (SISTER)

Mr. PROENZA described his sister, TERESA PROENZA PROENZA, as a "Communist," a "dedicated Communist," and as a "slave of the Cuban Communist Government."

He said his sister was born at Banes, Oriente Province, Cuba; and that she is approximately forty years old. He said she graduated from Havana University, Havana, Cuba, in or about 1935; and that in 1936, she was living in Mexico, at which time she was sent to Spain as part of a Mexican Government mission to aid the Republican Government of Spain during the Spanish Revolution.

ALVARO ESTANISLAO PROENZA PROENZA:

He said that in approximately 1939 or 1940, TERESA went to Paris, France, where she studied at the Sorbonne. In 1940, she returned to Cuba; and, since that date, has lived most of her life in Mexico.

Mr. PROENZA opined that it was during the period of his sister's education at Havana University, her experiences with the Communists who were supporting the Republican Government of Spain during the Spanish Revolution, and the time that she studied at the Sorbonne in Paris, France, that she absorbed Communist ideology and became a dedicated Communist. He further advised that during the period while former Cuban Dictator BATISTA was in power in Cuba, BATISTA had offered TERESA a salary of $1,000 per month, plus a $1,000 monthly expense account, to serve as Inspector of the various Cuban embassies in Europe. He said that because of her political beliefs, she refused BATISTA's offer.

PROENZA advised that TERESA, following CASTRO's overthrow of BATISTA in Cuba, was appointed to a position in the Cuban Embassy in Mexico City, where she served during the following four years. He believed that throughout this period she served in the Embassy as First Secretary of Cultural Affairs, and that she was fired in or about November or December 1963. He said TERESA was left in Mexico City by the Cuban Government, instead of being recalled at the time she was fired. He believed that, in addition to his sister, the Cuban Government also fired three or four other officers in the Embassy.

As an explanation for the reason why his sister was fired, PROENZA stated only that his sister had been somehow involved in the aftermath of the assassination of former President KENNEDY by LEE OSWALD. He said it was his understanding that LEE OSWALD, prior to November 1963, had been in Mexico City, and had caused one of his acquaintances to go to the Cuban Embassy, where this acquaintance contacted his sister, TERESA, by chance.

ALVARO ESTANISLAO PROENZA PROENZA:

PROENZA advised that it is his understanding OSWALD requested, through the Cuban Embassy, a visa for travel to Russia; and that this request was forwarded by the Embassy to the Cuban Ministry of Foreign Affairs in Havana, Cuba. He also opined that OSWALD's visa request was denied because the Cuban Government suspected that OSWALD was actually acting as an agent for the United States Government.

PROENZA said that the only explanation he has for TERESA's being fired from the embassy following the assassination was that the Cuban Government feared undue adverse publicity and wanted to rid themselves of certain employees in their Mexico City Embassy.

Following the time TERESA was [redacted] with her sisters, JUANA LUISA PROENZA PROENZA and RITA PROENZA PROENZA. He said that TERESA subsequently established contact with the then head of the Cuban Communist Party in Cuba, JUAN MARINELLO; and that MARINELLO used his influence to have her recalled to Havana, Cuba. PROENZA said that TERESA was then offered a position as a professor at Oriente University, Santiago de Cuba, Oriente Province, Cuba. He also recalled that at the time she was employed at the university, the dean of the university was JOSE ANTONIO PORTUONDO, who had served as Cuban Ambassador to Mexico during two of the years that TERESA had been employed in the Cuban Embassy in Mexico City.

He said, according to his most recent information, TERESA is still employed [redacted]

PROENZA described TERESA as being basically too good a person and too kind-hearted to be trusted by the Cuban Communists in intelligence operations. He, therefore, doubted that she had ever been engaged in any active intelligence work while employed in the Cuban Embassy.

He said that he had formerly been very close to his sister, TERESA; but that she understood his position as a staunch anti-Communist, and that she had never tried to persuade him to her political beliefs. He said that, at the present time, he does not correspond with TERESA. He advised that TERESA has never been married.

ALVARO ESTANISLAO PROENZA PROENZA:

C. JUANA LUISA PROENZA PROENZA (SISTER) S. APRIL 1

PROENZA advised that his sister, JUANA LUISA PROENZA PROENZA, who is approximately forty years old, and who was born in Banes, Oriente Province, Cuba, is unmarried and resides at [redacted]

He further stated that she has never had the intellect that TERESA has, and has never held the influential positions that TERESA has. He also doubted that she has ever been active in overt or covert Cuban intelligence operations in Mexico or elsewhere.

Character: INTERNAL SECURITY - RUSSIA - CUBA

Synopsis: Supplemental listing of additional exhibits by item number and description set forth. FBI Laboratory examination of letter from Mrs. PEARL E. BROGAN to MARINA OSWALD (Exhibit D-273) under ultraviolet light did not disclose anything of significance not apparent in the photographs of such exhibit. Letter dated 12/9/64 in Russian language received by MARINA OSWALD from Dr. LUDVIK JANOS, Professor of Mathematics, at George Washington University, Washington, D. C., expressing interest in MARINA's life. Inquiry concerning Dr. JANOS indicates he is Czechoslovak defectee, [redacted] and definitely pro-West. MARINA OSWALD received letter dated 12/6/63 at Knoxville, Tennessee, from "D. A. WOLF" identifying himself as very close friend of LEE HARVEY OSWALD. Examination of letter (Exhibit D-274) by FBI Laboratory did not identify handwriting. Investigation identified "D. A. WOLF" as ROBERT DONALD MC DONALD, Jamestown, Tennessee, who admitted writing letter, but stated he had never met LEE HARVEY OSWALD. MARINA OSWALD returned to her residence at Richardson, Texas, 2/28/65, where she is residing with her children. She has no definite plans for the future. MARINA OSWALD named Community Administrator for the property of LEE HARVEY OSWALD, which includes assassination rifle and revolver used to shoot Police Officer J. D. TIPPIT. Property valued at $10,000. Western Union Sending Blank found in Room 661, Plaza Hotel, New York City, examined without revealing anything of significance.
